

## **Report, 2012 Fulton County Elections**

This Report concerns three investigations into violations of Title 21 of Georgia law and rules of the State Election Board.

State Election Board Cases

### **SEB 2012-156 (2012 General Election)**

**Respondents: Sharon Mitchell and Fulton County Board of Registrations and Elections**

### **SEB 2012-56 (2012 Primary Election)**

**Respondents: Sam Westmoreland and Fulton County Board of Registrations and Elections**

### **SEB 2011-110 (no specific election)**

**Respondent: Fulton County Board of Elections and Registration**

Report Date

November 26, 2013

By

Chris Harvey, Chief Investigator, Georgia Secretary of State's Office

On January 31, 2013, the Georgia State Election Board (SEB) will convene an investigative hearing on three election investigations involving significant allegations of violating election laws and SEB Rules in Fulton County. Two of the cases (SEB 2012-56 and SEB 2012-156) deal with specific elections: the 2012 General Primary and the 2012 General Election. SEB 2011-110 deals with voter registration and residency issues, and while not necessarily specific to an election, the issue of accurate and timely voter registration played a role in the aforementioned elections.

### **SEB 2012-156 General Election**

The vast majority of complaints in this election were tied to voters having to vote provisional ballots after being told that their names did not appear on the ExpressPoll. There appear to be a number of issues that started with problems in the voter registration process in Fulton County. Voter registration applications were being entered into the voter registration system until the day before the election, which was ten days after the final list of voters were entered into the ExpressPoll system. These problems were aggravated by a poorly executed and inconsistent procedure for properly handling and documenting provisional ballots.

#### **Voter Registration**

Proper Procedure: When a voter submits a voter registration application (or a change to an existing voter registration such as a new address or name change) the information is manually entered into the computer voter registration database. This database normally receives a lot of new applications and alterations in the weeks leading up to the registration deadline (October 9, 2012 for this General Election.) Fulton County, as did most other counties, received a large number of these applications in the weeks before the General Election, and they struggled and ultimately failed to enter all of the data by the deadlines they faced. When all of the applications are entered into the system, the system produces a complete Electors List for each precinct, naming all qualified voters. The system which handles the Electors List and contains all of the registered voters on election day (or during early voting) is commonly referred to as “ExpressPoll” (which is actually the name of the computers which allow voters to be “checked in” and have a voting access card created for them to vote on the voting machine (DRE.)

Kennesaw State University’s (KSU) Election Center handles the “loading” of all of the information from the voter registration system onto the actual ExpressPoll machines that are used at each precinct to identify voters and allow voter access cards to be created for them. In order to allow the counties to set up their election systems, KSU “closes” the information that will be loaded onto the ExpressPoll machines at the end of the day on the second Thursday prior to the Election Day. Any voter registration information that is added to the statewide voter registration system by any county *after* the close of that Thursday, will still be eligible to vote (assuming the registration application was received by the earlier October deadline) but those voters names (or new information) will only appear on a printed “supplemental list” that should be sent to every precinct.

For example, if my first-ever voter registration application was processed on October 30, 2012, and I went to my polling place to vote, I would be told by the poll worker, “You are not showing up in our system.” The poll worker should then check the printed “supplemental list” of voters where my name should appear. At that point, that I was present and showed proper ID would be noted on the list, and the poll worker should create a voter access card for me on the ExpressPoll machine, and I should vote on the DRE just as if I had been in ExpressPoll for years. If a voter did not appear on either the ExpressPoll or supplemental list, and the voter declared that they believed they had registered in time to vote, they should be given a provisional (paper) ballot on which to vote. Provisional ballots will be addressed in detail later in this report.

Therefore, it should be clear that the timely entrance of data into the voter registration system can keep the “supplemental list” to a minimum and keep the poll workers working at maximum efficiency by relying primarily on ExpressPoll (which is where the vast majority of the voters should be found.) In some counties, there are no supplemental lists on election day because all of the qualified voter registration applications were entered into the voter registration system by October 25, 2012. Failure to meet these data-entry deadlines caused cascading problems on election day.

Fulton County received a large number of voter registration applications, and was unable to enter the applications by the time the ExpressPoll records were finalized and loaded into the ExpressPolls. Fulton County failed to follow previous practices of supplementing data entry workers to keep up with the demands of the incoming registrations. KSU even gave Fulton County one extra day, until the end of October 26<sup>th</sup>, to enter information that would go into ExpressPoll. Fulton County was entering voter registrations into the system as late as the day before the election. This fact required the use of a “supplemental list” of voters who should have been allowed to vote on a DRE just like any other voter. Fulton County reported that their “supplemental list” contained approximately 6,000 voters. This is a very unusually high number of voters on a supplemental list.

Fulton County has claimed that the Secretary of State's Office was responsible for the late receipt of the voter registration applications, but the Secretary of State has multiple witnesses who will testify that the voter registration applications were made available to Fulton County as soon as they came into the office.

In post-election surveys completed by Fulton County election workers, there were many mentions of inadequate staffing to process the incoming voter registration applications. Ralph Jones admitted that the office also stopped processing changes in address requests in favor of adding new voter registration applicants. There was a particularly damning survey response which revealed,

***"Visiting Fulton County Registration and Election Officials couldn't obtain clear verification of the staffing and heavy workload requirements because voter's registration cards were moved from the sign-out location and placed around the office so no one would be able to identify the workload. Cards were hidden at employee work stations."***

Poll managers reportedly received their documents and election items the evening of Sunday, November 4, 2012. Due to an oversight in the Fulton County Voter Registration Office approximately 300 voters were added to the supplemental list during the day, Monday, November 5, 2012, after the first Supplemental List had already been given to the poll managers, so, at least, those 300 new voters would not appear on ExpressPoll or on a printed Supplemental List of voters if *any* of those 300 voters attempted to vote. Fulton County was distributing supplemental lists on Election Day, however, it is unknown if the lists were additional voters, replacement lists, lists that were never delivered, and/or some or all of the above. There were reports of poll managers either not getting any supplemental list, not knowing they got the supplemental list, not knowing what to do with the supplemental list they got, or not getting updated supplemental lists. Sandy Springs Precinct 22 did not have a copy of any supplemental list until after 11:00 AM on Election Day after over 800 people voted. Fulton County has acknowledged that two precincts did not receive the supplemental lists until almost noon on election day.

Approximately **1,100** voters, whose registration records were either entered or changed *after* October 26, voted provisional ballots that were accepted by Fulton County. Many of these voters should have appeared on the printed supplemental list and should have voted on DREs (the exceptions would be voters on the supplemental list who were voting out of their assigned precinct.)

**Potential Violations:**

O.C.G.A 21-2-226-Determining Eligibility of Voters

O.C.G.A. 21-2-227-Furnish List of Electors for Elections

O.C.G.A. 21-2-228-Examination of Elector' Qualifications

Problems at Precincts on Election Day

The Secretary of State's Office received approximately 150 complaints regarding Fulton County's performance on Election Day. Some of these complaints were regarding issues that were not necessarily the fault of Fulton County Election Officials, such as inconvenient polling place locations, and frustrated poll workers. Most of the complaints, however, came from voters who were either not allowed to vote

at all, or were required to vote provisionally even though they knew, and in some cases had documentation, that they were properly registered to vote.

Here is a sampling of the complaints

- Address on driver's license differed from registration address, so voter could not vote
- Voter had requested an absentee ballot, which voter denied, and voter was forced to vote provisional
- Excessively long lines and waits (in excess of three and four hours) due to difficulties in getting voters the voter access cards because the voters could not be found in ExpressPoll or supplemental list
- Elector not in the system, cannot vote
- Provisional ballots denied to voters who requested them for various reasons
- Voter had already voted, which voter denied (sometime provisional offered, but other times not)
- Lines with waits of over two hours saw many voters leave without voting
- Illegal campaigning in a polling place
- Slow procedure to create Voter Access Cards even though there were plenty of DREs
- Precincts ran out of supplies including provisional ballots
- Some waits for provisional ballots were in excess of four hours, and even then, small numbers of provisional ballots were delivered after that extended wait
- Some poll workers suggested that voters go to other precincts to try to find provisional ballots
- Polling places were unorganized and directionless
- Polling places did not open in time
- The advocacy group, Election Protection itself gathered and reported to the Secretary of State's Office more than twenty complaints, including four affidavits that were almost exclusively reports of declared registered voters not being allowed to vote on DREs, and, in most cases, experiencing hours of waiting time for provisional ballots
- In addition, after Election Day, several poll managers sent complaints about problems with getting provisional ballots and communicating with the Fulton Election Office downtown

Investigators from the Secretary of State's Office visited several precincts on Election Day and reported some dire conditions, particularly at Venetian Hills Precinct. There they saw the poll manager on the phone practically the entire time, voters wandering in the enclosed space, voters waiting hours to get provisional ballots, and voters being told they should try other precincts in the hopes of getting a provisional ballot somewhere else.

**Potential Violations:**

O.C.G.A. 21-2-413 Conduct of voters, campaigners

O.C.G.A. 21-2-418 Provisional ballots

O.C.G.A. 21-2-596 Failure to perform duty

O.C.G.A. 21-2-591 Allowing unlawful assistance to voters

O.C.G.A. 21-2-403 Time for opening of polls

### Registered Voters Having to Vote Provisional Ballots

**3,732** Fulton County voters who voted provisional ballots on Election Day were in the ExpressPoll System by October 26, 2012. There are only a few legitimate reasons for a registered voter in ExpressPoll to vote a provisional ballot:

- Voter is voting out of precinct
- Voter does not have valid identification
- Voter cannot be found in ExpressPoll by poll worker

However, untrained or unequipped poll workers who did not have access to, or full knowledge of working an ExpressPoll or printed Supplemental List, would have to choose between allowing a voter to vote provisionally, and not letting the person vote at all.

Below is a summary of Fulton County Provisional Ballot Reporting:

<u>Reason for Prov. Ballot</u>	<u># P.B. voted</u>	<u># P.B. accepted</u>
Wrong Precinct/Not on List	9429	5101
No ID	72	0
Other Reasons	84	3
Total	<b>9585</b> (FC report to SOS lists <b>9575</b> )	5104

Fulton County accounted for 54% of provisional ballots cast in the entire state  
(DeKalb, Gwinnet, Chatham, and Muscogee Counties combined issued 2,879 provisional ballots)

3,732 voters were in ExpressPoll and 1,100 voters who voted provisionally were, or should have been, on the printed Supplemental List. These two numbers account for 4,832 voters who should have voted on a DRE on Election Day. This would have cut the number of provisional ballots by almost 50%.

A caveat to the 3,732 voters is that if a voter went to a precinct other than where they were registered and assigned, they could have:

1. Been directed to their proper precinct (if sufficient time allowed for the travel)  
Or,
2. Voted a provisional ballot at the wrong precinct

Fulton County apparently had inconsistent practices in handling voters at wrong precincts, and the workers were ultimately trained that, "When in doubt, give a provisional ballot." Some voters too seem to have become accustomed to such treatment and arrived at precincts knowing they were not registered there, but expecting a provisional ballot for the sake of convenience.

Lastly, reports show that of the 5079 records that Fulton County reported as accepted provisional ballots, **95** of those registration numbers **also** had voter access cards created for those registration numbers in ExpressPoll. This might indicate that the "registration number/voter" voted on a DRE and provisionally, and both votes were counted.

### Provisional Ballot Problems

Approximately 9,575 voters voted provisional ballots in Fulton County, which accounted for 54% of the total provisional ballots cast in the entire state. Nowhere, however, do the numbers and lists of names

and accepted and rejected ballots add up. Fulton County election officials were simply not prepared to handle the demand and backlog of unprocessed voter registration applications (which Fulton County created) for provisional ballots at the polling places. There appeared to be little to no consistency in the proper handling of provisional ballots. The failure by Fulton County to properly follow documentation and handling requirements in place to ensure the security and integrity of the provisional ballots made verifying provisional ballots with much certainty almost impossible.

Poll managers and workers did not follow state law or SEB Rules when handling and documenting provisional ballots. There was a very weak supply chain to deliver new provisional ballots to precincts, and the communication system between poll workers and election officials left much to be desired. Laws and SEB rules regarding the handling and documenting of provisional ballots were violated or ignored on a massive scale:

- There was insufficient dissemination about the system in place to allow voters to check the status of their provisional ballot
- One person appeared to vote *seven* provisional ballots at the same precinct, and *all seven ballots were marked as accepted*. Fulton County claims to have identified who these voters were, however, with no other identification on the provisional ballot envelopes, there no way to tell if that is true, and is frankly, rather unlikely.
- Some voters were denied provisional ballots, even after requesting one
- Provisional ballots were not kept in secure locations during validation (the status of the chain of custody for the provisional ballots is unknown)
- Fulton County could not even produce all of the provisional ballot envelopes that they appeared to have received
- There was no uniform recording of the *reasons* for rejecting provisional ballots
- Documents recording provisional ballot appear to be **created and altered** by someone after the documents were submitted by poll officials
- Provisional Ballot recap sheets were often done improperly, incompletely, or not at all
- Voters were listed as having provisional ballots accepted when they did not vote provisional ballots
- Voters were not notified until January 9, 2013 (66 days after the election) that their provisional ballots were rejected
- More than 1,000 of these *mailed notices* had no address for the elector, so there is no way that the notices *could have gotten to the electors*
- Many provisional ballot *rejections* appear to be recorded without a way to determine why a ballot was rejected, and inform the voter of the same
- The total number of voted provisional ballots differs from source to source
- Many provisional ballot recap sheets do not correlate to the statement of votes cast on the official results
- Fulton County has not reported how many provisional ballots had to be duplicated (all out of precincts provisional ballots)
- It is unknown how many voter registration applications were completed when voters were issued provisional ballots, but a review of specific complainants shows that at least 20 provisional voters were not given voter registration applications
- Printed instructions for checking the status of one's provisional ballot were not available for every provisional ballot issued

- As recently as September and October of 2012, Pamela Coman, Election Training Director for Fulton County asked for and received clarification about provisional ballots because she was preparing to begin the online training from the training staff at the Secretary of State's Office
- The heavy reliance on provisional ballots on Election Day set the stage for failures in the verification of provisional ballots in the days after the election. As woeful as was the requirement that so many voters had to cast provisional ballots in the first place, the more striking failure was Fulton County's inability to execute the acceptance and rejection of absentee ballots with anything resembling accuracy or reliable documentation
- More than 1000 rejection letters were mailed to voters with incomplete mailing addresses, and could not have been delivered
- Fulton County failed to notify provisional voter who voted out of precinct that their ballot had been duplicated and counted

#### Detailed Examination of Ten Precincts' Provisional Ballots

Investigators from the Secretary of State's Office examined only ten precincts' handling of provisional ballots in great detail, and what they discovered was a lack of consistency or much of anything that could even be described as a "system," that yielded inaccuracy after inaccuracy in the proper documentation of provisional ballots. Not *one* of the ten precincts and county officials could even account for the proper *number* of provisional ballots. The details from each of the ten precincts are included in the exhibits in this packet, but below is a chart that shows the errors and wide-ranging inconsistencies with provisional ballots.

Following the chart is a point-by-point analysis of the provisional ballots from each of the ten precincts examined in detail.

### Fulton County Provisional Analysis

Precinct	# on Prov. Numbered List of Voters	Prov. Ballots Marked As Listed on Prov. Recap Sheet	No Prov. Numbered List of Voters and Ballots Cast on Recap Sheet Match	# of Provisional Voter Certificates Provided by Fulton County	Total Prov. ## Recap and Provisional Analysis for Precinct 01A

### Provisional Recap and Provisional Numbered List of Voters

- A provisional ballot recap sheet was not completed for the precinct
- 158 names listed on the Numbered List of Provisional Voters. All names were written in red ink in what appeared to be the same handwriting.

### Voter Certificates

- Voter certificates were provided for only 42 of the 158 names on the numbered list.
- 1 voter certificate was completed by poll officer only on the provisional section
- 41 of the voter certificates were not completed on the provisional section

### Provisional Ballot Analysis

According to the provisional numbered list, 136 provisional ballots were accepted and 22 were rejected. The voter certificates and voter registration system were reviewed for all voters and the following was determined:

- 28 Rejected
- 3 were voted by persons registered in other counties.

- 23 were not found in the voter registration system.
- 2 were voted by persons in delete status.

46 Accepted

- 35 were registered in precinct 01A.
- 12 of the 35 were found on the supplemental list of voters for the precinct.
- 15 of the 35 were entered after the Express Poll and supplements lists were generated. These voters were not available at the precinct.
- 7 of the 35 were listed in the Express Poll used on Election Day.
- 1 voter had previously requested an absentee ballot
- 11 were registered in other Fulton County precincts

#### Additional Observations

- One voter was listed as a non-citizen. It is unknown if the voter returned to Fulton County after the election with proof of citizenship.
- 4 of the voters were listed on the numbered list 2 times.
- 5 ballots were accepted from voters who were also given credit for voting on a DRE unit. Accepted ballot envelopes were provided for these individuals.
- One person listed had two registration records in the registration system.
- 3 voters could not be identified due to a voter certificate not being provided and multiple records were found in the registration system.
- 70 voters were listed on the provisional numbered list of voters and they were also given credit for voting in the registration system by voting on a DRE unit. Provisional ballot envelopes were not provided for any of these individuals.

#### Provisional Ballot Envelopes

- 58 provisional ballot envelopes were provided by Fulton County for review. 47 accepted and 11 rejected.
- Review of the envelopes indicated the ballots that were accepted and rejected were marked the same as the numbered list of provisional voters.

## **Recap and Provisional Analysis for Precinct 02F1\02F2**

#### Provisional Recap and Provisional Numbered List of Voters

- 83 provisional ballots issued listed on the Provisional Ballot Recap Sheet
- 83 names listed on the Numbered List of Provisional Voters

#### Voter Certificates

- Voter certificates were provided for 83 of the names on the numbered The provisional section of the voter certificates was not completed on any of the certificates.

#### Provisional Ballot Analysis

- According to the provisional numbered list, 60 provisional ballots were accepted and 23 were rejected. The voter certificates and voter registration system was reviewed for all voters and the following was determined:

#### 23 Rejected

- 13 were voted by persons registered in other counties.
- 9 were not found in the voter registration system
- 1 was voted by a person marked as a non-citizen.

#### 59 Accepted

- 36 were registered in precinct 02F/02F1.
- 6 of the 36 were found on the supplemental list of voters for the precinct.
- 7 of the 36 voters were listed in the Express Poll used on Election Day.
- 23 of the 36 voters were entered after the Express Poll and supplement lists were generated. These voters were not available at the precinct.
- 23 voters were registered in other Fulton County precincts.

#### Provisional Ballot Envelopes

- 72 provisional ballot envelopes were provided by Fulton County for review. 56 accepted and 16 rejected.
- Provisional ballot envelopes were not provided for 11 voters.
- Review of the envelopes indicated the ballots that were accepted and rejected were marked the same as the numbered list of provisional voters.

## **Recap and Provisional Analysis for Precinct 02S**

#### Provisional Recap and Provisional Numbered List of Voters

- 84 provisional ballots issued listed on the Provisional Ballot Recap Sheet
- 79 names listed on the Numbered List of Provisional Voters

#### Voter Certificates

- Voter certificates were provided for 40 of the names on the numbered.
- The provisional section was completed by the voter and poll worker on 1 voter certificate.
- The provisional section was completed by the poll worker only on 28 voter certificates.
- The provisional section was not completed on 11 of the voter certificates provided.

#### Provisional Ballot Analysis

- According to the provisional numbered list, 31 provisional ballots were accepted and 48 were rejected. The voter certificates and voter registration system were reviewed for all voters and the following was determined:

#### 34 Rejected

- 17 were voted by persons registered in other counties.
- 11 were not found in the voter registration system.
- 6 were voted by persons in delete status.

#### 32 Accepted

- 17 were registered in precinct 02S.
- 3 of the 17 voters were found on the supplemental list of voters for the precinct.
- 13 of the 17 voters were entered after the Express Poll and supplement lists were generated. These voters were not available at the precinct.
- 1 of the 17 had previously requested an absentee ballot..
- 15 were registered at other Fulton County precincts

#### Additional Comments

- One ballot was listed as rejected and the provisional list was marked that the voter could not be found. The voter information from the voter certificate was compared to the voter registration system. A record was found for a Fulton County voter with the same name and address. The date of birth on the voter certificate was not valid and could not be compared to the voter record. It appears should have been duplicated to the voter's precinct and accepted. A provisional ballot envelope for the voter was not provided.
- One ballot was listed as rejected on the provisional list; however, the voter was listed on the supplemental list of voters for the precinct. The voter certificate was marked accepted. A provisional ballot envelope for the voter was not provided.
- 9 of the voters could not be identified due to a voter certificate not being provided and multiple records were found in the voter registration system.

#### Provisional Ballot Envelopes

- 45 provisional ballot envelopes were provided by Fulton County for review. 30 accepted and 15 rejected.
- One provisional ballot was accepted for voter who was marked as having voted during the early voting period.
- One ballot was rejected because the voter was listed as registered in Gwinnett County. Review of the voter registration system indicated there were 2 registration numbers for the same person. The Fulton County record appeared to occur after the Gwinnett record and should have replaced the Gwinnett record. The registration in Fulton County was on the supplemental list. It appears the ballot should have been accepted.
- Two accepted provisional ballot envelopes were provided for voters that were not listed on the provisional numbered list of voters.

## **Recap and Provisional Analysis for Precinct 03A**

### Provisional Recap and Provisional Numbered List of Voters

- 132 provisional ballots issued listed on the Provisional Ballot Recap Sheet
- 134 names listed on the Numbered List of Provisional Voters
- 53 names were written in red ink which appears to be the same ink used for marking whether the ballot was accepted or rejected. The names are written in the same handwriting and appear to be listed in reverse alphabetical order.

### Voter Certificates

- Voter certificates were provided for 132 of the names on the numbered list.
- 17 voter certificates were completed by poll officer only on the provisional section
- 73 of the voter certificates were not completed on the provisional section
- 42 voter certificates were not copied to include the back side

### Provisional Ballot Analysis

According to the provisional numbered list, 59 provisional ballots were accepted and 75 were rejected. The voter certificates and voter registration system were reviewed for all voters and the following was determined:

#### 71 Rejected

- 37 were voted by persons registered in other counties.
- 30 were not found in the voter registration system.
- 4 were voted by persons in delete status.

#### 55 Accepted

- 23 were registered in precinct 03A.
- 15 of the 23 were found on the supplemental list of voters for the precinct.
- 6 of the 23 were entered after the Express Poll and supplements lists were generated. These voters were not available at the precinct.
- 2 of the 23 were listed in the Express Poll used on Election Day.
- 32 voters were registered in other Fulton County precincts.

### Additional Comments

- 1 voter could not be identified due to a voter certificate not being provided and multiple records were found in the registration system.

### Provisional Ballot Envelopes

- 128 provisional ballot envelopes were provided by Fulton County for review. 56 accepted and 72 rejected.
- 2 ballots were rejected because the voters were not registered in Fulton County. The registrations were found in the registration system as being received by the deadline but they were not entered until December. The ballots should have been accepted.

- One ballot was accepted for a voter in which the registration system indicated she voted during the early voting period.
- 2 ballots were accepted for voters who could not be found in the registration system. It is unclear what steps Fulton County took to verify the voter's registration and whether the ballot should have been accepted.
- One ballot was accepted for a voter who provided a Florida address on the voter certificate and no date of birth. There was no identifying information on the voter certificate to verify the voter's eligibility.

## **Recap and Provisional Analysis for Precinct 04B**

### **Provisional Recap and Provisional Numbered List of Voters**

- 110 provisional ballots issued listed on the Provisional Ballot Recap Sheet
- 110 names listed on the Numbered List of Provisional Voters

### **Voter Certificates**

- Voter certificates were provided for 109 of the names on the numbered list.
- 8 voter certificates were completed by poll officer only on the provisional section
- 6 voter certificates were completed by the voter only on the provisional section
- 95 of the voter certificates were not completed on the provisional section

### **Provisional Ballot Analysis**

According to the provisional numbered list, 55 provisional ballots were accepted and 55 were rejected. The voter certificates and voter registration system were reviewed for all voters and the following was determined:

#### **53 Rejected**

- 14 were voted by persons registered in other counties.
- 36 were not found in the voter registration system.
- 3 were voted by persons in delete status.

#### **56 Accepted**

- 42 were registered in precinct 04B.
- 26 of the 42 were found on the supplemental list of voters for the precinct.
- 4 of the 41 were entered after the Express Poll and supplements lists were generated. These voters were not available at the precinct.
- 5 of the 42 were listed in the Express Poll used on Election Day.
- 6 of the 42 were in "Verify" status. These voters should have listed on Express Poll and the voter should have been able to vote on a DRE unit.
- 1 of the 42 was in "Pending" status reason type "A". This voter was included in the "pending" voters with questionable addresses.
- 1 voter was marked as a non-citizen

- 13 voters were registered in other Fulton County precincts.

#### Additional Comments

- One was listed as rejected; however, the voter was found in the registration system. No ballot envelope was provided for the voter.

#### Provisional Ballot Envelopes

- 103 provisional ballot envelopes were provided by Fulton County for review. 52 accepted and 51 rejected.
- Review of the envelopes indicated the ballots that were accepted and rejected were marked the same as the numbered list of provisional voters.

## **Recap and Provisional Analysis for Precinct 04W**

#### Provisional Recap and Provisional Numbered List of Voters

- 249 provisional ballots issued on the Provisional Ballot Recap Sheet
- 232 names listed on the Numbered List of Provisional Voters.

#### Voter Certificates

- Voter certificates were provided for 227 of the names on the numbered list.
- 15 voter certificates were completed by the voter only on the provisional section
- 50 voter certificates were completed by poll officer only on the provisional section
- 157 voter certificates were completed by the voter and poll officer on the provisional section
- 36 of the voter certificates were not completed on the provisional section
- One voter certificate did include the backside.
- 32 voter certificates were provided for persons not on the numbered list of provisional voters.

#### Provisional Ballot Analysis

According to the provisional numbered list, 129 provisional ballots were accepted and 102 were rejected. The voter certificates and voter registration system were reviewed for all voters and the following was determined:

##### 110 Rejected

- 45 were voted by persons registered in other counties.
- 62 were not found in the voter registration system.
- 3 were voted by persons in delete status.

116 Accepted

- 36 were registered in precinct 04W.
- 20 of the 36 were found on the supplemental list of voters for the precinct.
- 9 of the 36 were entered after the Express Poll and supplements lists were generated. These voters were not available at the precinct.
- 4 of the 36 were listed in the Express Poll used on Election Day.
- 3 of the 36 were in “Verify” status. These voters should have been listed on Express Poll and the voter should have been able to vote on a DRE unit.
- 80 voters were registered in other Fulton County precincts.

#### Additional Comments

- 3 voters have two registration records in the registration system.
- One voter had no precinct assigned to the registration record.
- 2 of the voters were listed on the numbered list 2 times.
- 1 voter could not be identified due to a voter certificate not being provided and multiple records were found in the registration system.

#### Provisional Ballot Envelopes

- 159 provisional ballot envelopes were provided by Fulton County for review. 80 accepted and 79 rejected.
- 2 ballots were accepted from voters who could not be found in the system. It is unclear what Fulton County used to verify the voter’s registration and whether the ballot counted.
- One ballot was rejected from a voter who submitted a change of address prior to the deadline but it was not entered until December. The voter requested an absentee ballot and it is unclear if the ballot was returned to the previous county of residence. A rejected provisional ballot envelope was provided.

## **Recap and Provisional Analysis for Precinct 06H**

#### Provisional Recap and Provisional Numbered List of Voters

- 5 provisional ballots issued listed on the Provisional Ballot Recap Sheet
- 5 names listed on the Numbered List of Provisional Voters

#### Voter Certificates

- Voter certificates were provided for 1 of the names on the provisional numbered list.
- The back of the voter certificate was not provided.

#### Provisional Ballot Analysis

- According to the provisional numbered list, 1 provisional ballot was accepted and 4 were rejected.

#### 4 Rejected

- Voter certificates were not provided for the rejected voters. Investigators could not determine in the registration system why the provisional ballot was rejected. This was due to not having identifying information other than the name of the voter and there being multiple records in the registration system for the name on the provisional list of voters.
- The reason the provisional ballot was rejected was not marked on the provisional numbered list of voters.

#### 1 Accepted

- The voter was registered in 06H. The voter was also listed on the supplemental list of voters.

#### Provisional Ballot Envelopes

- 1 provisional ballot envelope was provided by Fulton County for review. The ballot envelope was marked accepted and was the same name listed as the ballot marked accepted on the provisional numbered list of voters.
- Provisional ballot envelopes were not provided for the persons marked rejected on the provisional numbered list of voters.

## Recap and Provisional Analysis for Precinct 11G

#### Provisional Recap and Provisional Numbered List of Voters

- 65 provisional ballots issued listed on the Provisional Ballot Recap Sheet
- 59 names listed on the Numbered List of Provisional Voters

#### Voter Certificates

- Voter certificates were provided for 65 of the names on the numbered list.
- 9 voter certificates were provided for persons not listed on the provisional list of voter.
- 3 voter certificates were completed by the voter and poll officer on the provisional section
- 1 voter certificates were completed by poll officer only on the provisional section
- 52 of the voter certificates were not completed on the provisional section

#### Provisional Ballot Analysis

The numbered list of provisional voters was not marked as whether a voter's ballot was accepted or rejected. The voter certificates and voter registration system were reviewed for all voters and the following was determined:

#### 16 Rejected

- 5 were voted by persons registered in other counties.
- 6 were not found in the voter registration system.
- 5 were voted by persons in delete status.

37 Accepted

- 9 were registered in precinct 11G.
- 3 of the 9 were found on the supplemental list of voters for the precinct.
- 4 of the 9 were entered after the Express Poll and supplements lists were generated. These voters were not available at the precinct.
- 2 of the 9 were listed in the Express Poll used on Election Day.
- 28 voters were registered in other Fulton County precincts.

Additional Comments

- 2 voters could not be identified due to the voter certificate not being provided and multiple records were found in the voter registration system.
- 1 could not be located in the registration system. It is unclear what Fulton County used to verify the voter's registration and whether the ballot counted.
- On ballot was listed as rejected; however the voter's registration was reviewed and indicated they had submitted their registration by the deadline but it was not added to the registration system until December. It is unknown if the ballot was accepted because a provisional ballot envelope was not provided.

Provisional Ballot Envelopes

- 15 provisional ballot envelopes were provided by Fulton County for review. 9 accepted and 6 rejected.
- A ballot was accepted for a voter whose registration record indicated they were given credit for voting on a DRE unit.  
One ballot was rejected; however, a registration record was found for the voter. According to the registration system the voter's registration application was received by the deadline but was not entered until December 2012. The ballot should have been accepted.

## **Recap and Provisional Analysis for Precinct SS14**

Provisional Recap and Provisional Numbered List of Voters

- 15 provisional ballots issued listed on the Provisional Ballot Recap Sheet
- 20 names listed on the Numbered List of Provisional Voters
- Names 16 through 20 are written in red ink which appears to be the same ink used for marking whether the ballot was accepted or rejected.

Voter Certificates

- Voter certificates were provided for 19 of the names on the numbered list.
- 12 voter certificates were completed on the provisional section by the voter and poll officer
- 4 voter certificates were completed by poll officer only
- 2 voter certificates were not completed by the voter
- 1 voter certificate was not completed

#### Provisional Ballot Analysis

- According to the provisional numbered list, 14 provisional ballots were accepted and 6 were rejected. The voter certificates and voter registration system was reviewed for all voters and the following was determined

##### 6 Rejected

- 5 were voted by persons registered in other counties.
- 1 was voted by a person marked as a non-citizen.

##### 9 Accepted

- 5 were registered in precinct SS14. All 5 voters were listed on the supplemental list of voters.
- 3 were registered in other Fulton County precincts.
- Registration information was reviewed and revealed 5 of the 8 provisional voters registered at other precincts were given credit for voting by the Express Poll. This would indicate they voted on DRE units at their registered precinct.
- 1 could not be located in the registration system. It is unclear what Fulton County used to verify the voter's registration and whether the ballot counted.

#### Additional Comments

- Review of the voters whose names were written in red indicated they had voted on a DRE unit at the precinct they were registered at. The voters were contacted and all stated they originally went to precinct SS14 and were told they were registered at other precincts. The voters said they went the precinct they were told to vote at and voted on the DRE units. None of the persons written in red ink said they voted a provisional or paper ballot at precinct SS14. Provisional ballot envelopes were not provided for the voters.

#### Provisional Ballot Envelopes

- 15 provisional ballot envelopes were provided by Fulton County for review. 9 accepted and 6 rejected.
- Provisional ballot envelopes were not provided for the persons whose names were added in red ink to the provisional list of voters.
- Review of the envelopes indicated the ballots that were accepted and rejected were marked the same as the numbered list of provisional voters.

#### Statement of Votes Cast

- According to the Statement of Votes Cast report, 1 provisional ballot was counted for precinct SS14. There were 5 provisional ballots listed on the numbered list of voters for precinct SS14 that should have been counted.

## **Recap and Provisional Analysis for Precinct SS22**

### Provisional Recap and Provisional Numbered List of Voters

- 46 provisional ballots issued listed on the Provisional Ballot Recap Sheet
- 46 names listed on the Numbered List of Provisional Voters

### Voter Certificates

- Voter certificates were provided for all 46 names on the provisional numbered list of voters.
- The provisional section was completed by the voter and poll worker on 3 voter certificates.
- The provisional section was completed by the poll worker only on 39 voter certificates.
- The provisional section was not completed on 4 of the voter certificates provided.

### Provisional Ballot Analysis

- According to the provisional numbered list, 24 provisional ballots were accepted and 22 were rejected. The voter certificates and voter registration system were reviewed for all voters and the following was determined:

#### 19 Rejected

- 6 were voted by persons registered in other counties.
- 9 were not found in the voter registration system.
- 4 were voted by persons in delete status.

#### 24 Accepted

- 15 were registered in precinct SS22.
- 4 of the 15 voters were found on the supplemental list of voters for the precinct.
- 2 of the 15 voters were listed in the Express Poll used on Election Day.
- 9 of the 15 voters were entered after the Express Poll and supplement lists were generated. These voters were not available at the precinct.
- 8 voters were registered in other Fulton County precincts.

#### Additional Comments

- Three ballots were listed as rejected; however, the voters' registration was found in the registration system. Two voters were registered at different precincts. These ballots should have been duplicated and accepted. One voter was added to the registration system after the Express Poll and supplemental lists were generated. This ballot should have been accepted. Ballot envelopes were not provided for any of these voters. Two voters received credit for voting, one voter did not.

- One ballot was accepted for a voter that did not provided identification at the poll location. A report previously by Fulton County indicated no who voted a provisional ballot because they did not have ID returned to Fulton County with ID prior to the close of business the Friday following the elections.

#### Provisional Ballot Envelopes

- 41 provisional ballot envelopes were provided by Fulton County for review. 20 accepted and 21 rejected.
- Review of the envelopes indicated the ballots that were accepted and rejected were marked the same as the numbered list of provisional voters.

#### Potential Violations for Provisional Ballots:

O.C.G.A. 21-2-587(3) and (4) Frauds by poll officers  
 O.C.G.A. 21-2-562(a)(1) and (a)(2) Fraudulent entries  
 O.C.G.A. 21-2-418(a) Provisional ballots-allowing to be cast  
 O.C.G.A. 21-2-418(c) Provisional ballots-provisional voter registration application  
 O.C.G.A. 21-2-418(f) Give written information to provisional voters  
 O.C.G.A. 21-2-419(b) Securing provisional ballots  
 O.C.G.A. 21-2-419(d)(1) Notify rejected provisional voters in writing  
 O.C.G.A. 21-2-419(d)(2) Notify voters who voted out of precinct in writing  
 SEB 183-1-12.06(3) Providing adequate provisional ballots to precincts  
 SEB 183-1-12.06(4)(a) Checking master list of electors before voting provisional  
 SEB 183-1-12.06(4)(b) Checking with Registrar before voting provisionally  
 SEB 183-1-12.06(4)(c) Adding verified voters to precinct (using supplemental list)  
 SEB 183-1-12.06(4)(d) Sending to proper precinct  
 SEB 183-1-12.064(f) Completing provisional ballot certificate  
 SEB 183-1-12.06(4)(i) Completing complete ballot and paperwork  
 SEB 183-1-12.06(4)(j) Verifying paperwork is correct  
 SEB 183-1-12.06(7) Providing paperwork to provisional voter  
 SEB 183-1-12.06(9) Accounting for all provisional ballots and other documentation  
 SEB 183-1-12.06(10) Securing provisional ballots  
 SEB 183-1-12.06(12)(b) Duplicating provisional ballots  
 SEB 183-1-12.06(13)(a) Notifying rejected provisional voters  
 SEB 183-1-12.06(13)(b) Notifying voters who voted in wrong precinct in writing

#### Errors on Recap and Statement of Votes Cast

Of the 247 DRE and ExpressPoll Recap sheets submitted by Fulton County, there were 109 precincts forms that contained errors, omissions, and/or inaccuracies.

Common discrepancies included:

- DRE Recap sheets were not totaled
- The number of “voters marked” listed on the ExpressPoll Recap did not match the numbered list of voters pulled from the ExpressPoll
- Explanations for mis-matching numbers was not provided

- ExpressPoll count and DRE count of voters differed
- Recap sheets were not properly signed by all parties (managers)
- Provisional voters were listed as supplemental voters on the ExpressPoll recap sheet

The attached table identifies 19 of the worst examples of inaccurate reporting:

### Absentee Ballot System Execution Questions

There were three reports where voters (Katrina Keuller, Rodney Hovater, and Paula Hovater) reported they received more than one absentee ballot packages when they made their absentee ballot requests. These voters turned their additional ballots over to SOS investigators.

The following complaint, from a voter who is temporarily in New York appears to expose numerous flaws in the system and/or the execution of the system for requesting an absentee ballot in the general election (emphasis added C.H. :)

Sent: Sunday, December 09, 2012 11:53 PM  
To: Office of Secretary of State  
Subject: Web E-Mail From Rollie O. Buchanan

Question / Comment: Mr. Kemp,

The local, state and national elections of November 6, 2012 have passed. However I am submitting this complaint regarding my experience with absentee voting through Fulton County, which ultimately prevented me from voting due to no fault of my own.

Wednesday, October 3

I mailed my application for an official absentee ballot.

Approximately a week later, a colleague that submitted his after I did, indicated he had received and submitted his absentee ballot via Cobb County within a 10 day period. This seemed odd and caused me to question the status of my absentee ballot.

**Thursday, October 18**

I prepared a second application for mailing. However I wanted to talk with someone in the Fulton County office to ensure I was following the directions correctly, to ensure my opportunity to vote.

**Friday, October 19**

I called the general number and was transferred to a woman who checked my records. I indicated an application had been mail approximately three (3) week earlier, etc. She indicated there was no record of receipt of the absentee application, but to speed up the process, I could fax my second application instead of mailing it.

Given this information, I faxed it at 4:17 pm EST (as indicated by FAX confirmation) to 404.730.8839. My belief was that the absentee ballot would be in the mail by Monday or Tuesday, October 22 or 23, with arrival to my residence by Saturday, October 26, at the latest.

Nothing arrived on October 26, 28 or 29.

**Tuesday, October 30**

I called the main Fulton County office number and was transferred to a "Marcia", who served as coordinator for some aspect of the unit. I informed her that the FAX had been sent on October 19 but nothing had been received, even though I had a confirmation of delivery by fax. Marcia indicated that I re-fax the form again. I told her I would within the hour and she gave me her direct line if I had any problems.

At 12:50 pm EST I re-faxed the application for an absentee ballot. I called her four (4) times that afternoon leaving messages and a number for a return phone call to confirm receipt of the document and mailing of the absentee ballot. I received no return phone call for the remainder of the day.

**Wednesday, October 31**

I called 1-2 more times first thing in the morning and left additional messages. At approximately 3:15 pm EST, "Marcia" returned my call.

While talking with her, **she indicated the faxes from October 30, 2012 had not been pulled up, but that she would do it while I was on the phone. I sat on the phone listening while she pulled it up, confirmed that it had been received and processed it for 5-10 minutes. Keep in mind this only happened while I was on the phone, after a previous conversation and several messages on October 30 and 31. "Marcia" indicated it was processed and would go out right away.**

Given the lateness of the day, I anticipated it would go out either later on October 31 or on November 1, with an arrival on November 3 or 6, at the latest.

When the ballot did not arrive on November 3, I began making plans to leave work early, to get home in time to fill it out and pay (at my expense) for overnight delivery to ensure its arrival by noon on November 6.

**Monday, November 5**

I rushed home early, through rush hour traffic with the idea that I would have to vote and get it to the post office before 5:00 pm EST to ensure pick-up for overnight delivery to Fulton County Election office.

***To my extreme disappointment, there was no ballot in the mailbox. I cannot express how disappointed I was; particularly after I did everything I could in a timely manner, yet the ball kept being dropped in Fulton County.***

This meant I would have no opportunity to vote after spending over a month with one (1) mailing, two (2) faxes and numerous conversations and messages with staff, particularly the one in charge of this process, "Marcia".

**Tuesday, November 6**

Out of disappointment and frustration, I contacted your office to express my frustration and asked if there was anything I could do.

I was informed that I was not the only one that had called and complained about this particular office and its handling of absentee ballot applications. I was then directed to this page to submit a complaint.

Later the same evening, I pulled my mail around 10:00 pm EST to find an absentee ballot. This reminded me of my earlier frustration. ***However what I found more upsetting was that after the fax was processed on October 31 while I was on the phone, according to the metered postmark, the absentee ballot was not mailed until November 2, This was a full two (2) days after my conversation with "Marcia".***

I did a search on the internet and found that this office has been under "investigation" for a number of reasons within the past few months. To find this out was rather disheartening, given that my opportunity to vote had been lost in what appeared to be their inability to perform their important duties for the public they serve.

I am asking that my case be investigated with some sort of resolution that is communicated back to me.

The problems illustrated in this complaint indicate a series of apparently admitted failures on Fulton County's Election staff to process absentee ballot applications efficiently. It took Herculean efforts for this voter to even get his ballot to him too late for him to vote the ballot. How many other voters, whose applications were not pulled from the FAX line, did not get their absentee ballots?

Another voter, this time overseas, requested his absentee ballot early. Here is his story (C.H. emails condensed and edited for spelling :)

Sent: Tuesday, January 15, 2013 4:31 PM  
To: Office of Secretary of State  
Subject: Web E-Mail from John L. Turbiville

Question / Comment: I would like to add my protest concerning the functioning of the Fulton County Voter Registration Office. I requested officially many months ago an absentee ballot, based on my former address in Atlanta (my last U.S. address before moving to Europe); with no response I sent an e-mail; still no response, I telephoned the office, and I was promised that the ballot would be sent. Still nothing. So, about 2 weeks before the Nov 6 election, I sent in a "Federal Write-in Ballot". Last week, I received a notice that my ballot was not counted because it arrived too late.

I first sent in the form for registration for absentee voting in February 2012, to confirm my previous registration (I have voted in Federal elections several times by absentee, always using my last U.S. address 28-28th St NW, Atlanta 30309).

In September, I believe, I sent an email to the office requesting my status, with no reply. In October I telephoned the office and the representative assured me that all was in order for my ballot. But the ballot was never received, and about two weeks before the Nov. election, I sent in the Federal write-in ballot. So I was surprised when the notice came that this was received in early January, too late to be counted. I have always found that mail in general between France and the U.S. is delivered within one week.

I found one name with who I was in contact at the Fulton County office; it was [brianna.alexander@fultoncountyga.gov](mailto:brianna.alexander@fultoncountyga.gov)

By telephone she told me that my registration was valid and that I would receive an absentee ballot, but it never happened.

Fulton County reported that the absentee ballot FAX line was checked every hour, but this does not appear to be accurate based on these complaints.

There were approximately twenty-three complaints about voters having problems getting or returning absentee ballots.

#### **Potential Violations in Absentee Ballot Problems:**

O.C.G.A. 21-2-381(b)(2)(A) Mailing absentee ballots failures (multiple times)

#### Election Training

Pamela Coman, Training Director for Fulton County Elections Office provided copies of training manuals and an explanation of the requirements for training.

She said that each poll worker get four hours of training (two hours online and two hours in person.)

Ms. Coman asked for and received specific answers from the Secretary of State's Office shortly before the General Election, and Ms. Coman said that she specifically trained the poll workers in all areas regarding provisional ballots and specifically with regards to provisional ballots and voter who were not found in ExpressPoll (checking the supplemental list.)

#### Pending Status Voters

As a result of letters sent to approximately 1,100 voters in June 2012 (the subject of SEB 2011-110), voters who were suspected of not having homes at addresses where they were registered had their voter registration status changed without any due process. These voters were expected to arrive at the polls and prove their residential address to the satisfaction of poll workers. If they were able to do so, they would be allowed to vote on DRE, and their status changed. If they were not able to provide proof, they would have to vote a provisional ballot.

On November 2, 2012, Sharon Mitchell informed the Secretary of State's Office, which had questioned the changing of voter status without due process, that Fulton County would not place such voters in "P" status.

Sharon Mitchell told investigators that all voters who had been placed in "Pending" status by Fulton County on October 26, 2012 had been restored to their regular voter registration status, prior to Election Day, but 626 voters *still* showed to be in status "Pending" as late as December 2012.

No voters were impacted as a result of a "P Status," and, therefore, there appears to be no violation.

#### Interview with Election Officials

On December 14, 2012, SOS Investigations staff interviewed Sharon Mitchell, Dwight Brower, Ralph Jones, and Pamela Coman in the presence of their attorney, David Walbert. The interview last approximately 1 ¾ hours and it covered a wide-ranging list of topics. The goal was to get a general picture of the events in the election and determine where the investigation needed to be focused. The overall tone of the election officials was that there were a few problems, mostly at the precinct level, but nothing systematic, major, or dramatic happened.

Condensed List of Violations in Fulton SEB 2012-156 [*italics indicate broad charges that may be applied to one or more situations*]

- 21-2-224(f) the official list of electors eligible to vote in any primary or election shall be prepared and completed at least five calendar day prior to the date of the primary of election in which the list is to be used. 734 voters
- 21-2-224(g) providing complete elector lists  
**[TWO PRECINCTS AFFECTED]**
- 21-2-226(a) It shall be the duty of the county board of registrars to determine the eligibility of each person applying to register to vote in such county.
- [21-2-226(b) *upon finding an elector eligible to vote in the county, the county board of registrars shall have the duty of determining and placing the elector in the proper districts*]

- 21-2-418(b) failure of the poll officials to ensure provisional voters completed a provisional ballot voting certificate which included information about the place, manner, and approximate date on which the person registered to vote. AT LEAST 600 VOTERS
- Rule 183-1-12-.06(4)(i) upon receiving authorization to vote a provisional ballot, the person shall complete a provisional ballot voter's certificate and an official voter registration form. AT LEAST 199 VOTERS
- 21-2-224 All persons whose names appear on the list of electors placed in the possession of the managers in each precinct and no others, except as otherwise provided in this article, shall be allowed to deposit their ballots according to law at the precinct in which they are registered. AT LEAST 215 VOTERS
- 21-2-418(b) the Fulton County Board of Registrars failed to make a good faith estimate to determine whether the persons casting the provisional ballots were entitled to vote AT LEAST 24 VOTERS  
**[24 VOTERS BALLOTS WERE REJECTED WHEN THEY SHOULD HAVE BEEN ACCEPTED]** 21-2-590(3) refuses to permit any duly registered and qualified person to vote at any primary or election, with the knowledge that such person is entitled to vote
- Rule 183-1-12-.06(4)(i) Before issuing the outer envelope to the person, the poll officers shall enter the person's name, the name of the precinct, the date and name of the election, and the ballot style on the outer envelope. AT LEAST 450 VOTERS
- 21-2-419(d)(1) the board of registrars shall notify in writing those persons whose provisional ballots were not counted that their ballots were not counted because of the inability of the registrars to verify that the persons timely registered to vote or other proper reason. AT LEAST 1200 VOTERS
- 21-2-418(b) such person voting a provisional ballot shall complete an official voter registration form SEVERAL THOUSAND VOTERS

### SEB 2012-56 July 31, 2012 General Primary Election

The July 31, 2012 General Primary in Fulton County was beset with numerous problems, some of which were systemic, and some were less systemic, but all were serious and problematic for Fulton County.

#### Districting and Ballot Errors

There were multiple areas in Fulton County where, upon redistricting the voters following the census, problems arose on Election Day.

In House District 62, an entire street, Chicory Cove, was incorrectly placed in House District 64.

In the Sandy Springs area there were approximately 350 people who were incorrectly listed as being in Senate District **56**, when they should have been listed as being in Senate District **6**. When redistricting was done, a number of addresses were not changed, causing those residents to appear to live in districts that offered candidates on the ballot that were not candidates for their residential district.

The Lang Carson Precinct (05A) (100 Flat Shoals Ave), experienced a similar problem. This precinct was a combined precinct for House Districts 58 and 59; however, every voter who appeared to vote was given a ballot that only applied to residents of HR 58. Many voters noticed this early in the day, and the Secretary of State's office started receiving numerous calls and emails. Poll managers seemed incapable of solving the problem and multiple people made calls to Fulton County Election Officials to try to get a person on the scene that could solve the problem. The response of the Fulton County Election Officials to calls for assistance was delayed and woeful. At 9:30, Fulton election officials told the poll workers how to create ballots for HD 59, but the poll workers had no way of knowing which district the voter lived in, unless the voter knew, and further, had no way to verify if the voter's declaration of House District was accurate. The workers were promised a map by 12:00 pm, but it was not until approximately 3:45 PM that an election official arrived with a map that was large enough to allow poll workers to determine which ballot a voter was supposed to get, based on their address. A volunteer who was at the precinct was able to identify at least 16 voters who got and voted the wrong ballot, and reported that there were more people with whom she did not speak. There is no way to determine how many voters either got the wrong ballot or were not able to vote because poll workers could not create proper cards until approximately 9:30 AM.

On Election Day, Sam Westmoreland when asked about the problem at the Lang Carson Precinct told a candidate that two streets not being districted properly caused the problem, although he could not identify *which* two streets were involved. In an interview with Fulton County election officials in December 2012, Dwight Brower said that, "about ten" streets were not properly districted and that was the cause of the problem. It is unknown how many voters cast their ballots in a race that was not for their district. An investigator from the Secretary of State's Office was at the precinct shortly after the problem was reported, and he described a citizen with a map trying to help determine to which districts voters' addresses corresponded. The delayed and inadequate response to the critical situation of voters not being able to cast the proper ballot on Election Day was notable.

It was also reported that House District 25 had districting errors as well. HD 25 is made up of precincts JC04 and JC03. The unopposed candidate received 293 votes in JC04 and 3 votes in JC14 (which was not near his district).

**Potential Violation:**

O.C.G.A. 21-2-226 Duty to place elector in proper district (multiple violations)

O.C.G.A. 21-2-596 Failure to perform duty

Dual Database of Voters

Once Fulton County realized that their districts were not correct, they made the choice to employ a "dual database" for the election. This essentially "froze" the election up to that point, during advanced voting, and then redistricted voters who had not yet voted. Of course, the redistricting was not done properly at that time either as was evidenced by the previous portion of this report. The problem with a dual database is that, while it seems like a quick solution at the time, creating a dual database creates two complete, separate sets of election results that must be manually calculated and entered into the

GEMS server. While this sounds simple, it is not as simple as adding two numbers and getting the total (*before* plus *after*=total.) There are thousands of individual results that must be entered, and thousands of computations to be done, and the entry can only be done on a single GEMS server, by one person at a time.

Fulton County displayed results in a way that was confusing to the public. They initially showed only the Election Day database (database #2) as their final results. Then, when they completed their second database, they displayed the *combined total* as being only database #1. At least one candidate thought that this was a manipulation of votes by Fulton County.

#### Delays in Counting Votes and not certifying the Election in Time

Largely as a result of working with a dual-database in the Primary Election, Fulton County was not able to complete the tabulation and certification of the election results by the deadline required by the law. Fulton County certified their results approximately one hour after the deadline (Monday, August 6, 2012 at 5:00 pm.)

#### **Potential Violation:**

O.C.G.A. 21-2-493(k) Failing to certifying election by 5:00 PM on the Monday after the election

#### Absentee Ballot Complaints

Glenda Heyer, when requesting an absentee ballot for her son, *got the wrong absentee ballot three times* (two Republican and one non-Partisan.) Her son was not able to vote.

#### **Potential Violation:**

O.C.G.A. 21-2-384(2)

#### Early Opening and Tabulating of Absentee Ballots

Fulton County started opening and tabulating absentee ballots on Monday, July 30, 2012, a full 24 hours before the code allows early opening and counting. People involved were not sequestered Monday, except during working hours.

#### **Potential Violation:**

O.C.G.A. 21-2-386(G)(3) Early opening and tabulation of absentee ballots

#### Not Getting Ballot of Choice

Wheat Street Towers Precinct, at least two voters were told that they must either pick Republican or Democrat ballots, and could not get a non-partisan ballot. Voters had no choice but to pick what was offered to them.

#### **Potential Violation:**

O.C.G.A 21-2-431(a) Not getting proper ballot

SEB Rule 183-1-12(4)(b) Not getting appropriate ballot

#### Polls Not Opening on Time

James Orange Park Precinct was not open until approximately 7:30 AM; however, the cause was that the site key-holder had car trouble. At least one voter had to leave before the precinct opened and could not vote.

#### Poll Closing Prematurely

East Point Library-A voter arrived at 6:55 PM, and was told the polls were closed. The voter started back to her car. Apparently, the voters were able to convince poll workers that it was 6:55 PM, and they opened the doors, but by the time the complaining voter got back to the door, she was told that now the polls were closed, even though she had been in line with the other voters disputing the closing time.

#### **Potential Violation:**

O.C.G.A. 21-2-403 Polls closing before 7:00 PM

#### Outrageous Results

Precinct 1C2 showed 233 ballots cast with a turn-out of 23,300%. This was as a result of a redistricting error that placed all of the voters in one precinct in the same district when they should have been distributed among two districts. This was a reporting error, which may have impacted the credibility of the reporting, but did not affect any results.

#### DRE Malfunctioning and Manager Casting Voter's Ballot

Mr. John Mattox, who voted at 10M (Tennis Center), reported that his ballot, as reflected by the DRE did not show him, having selected a candidate for sheriff, when he said he previously selected a candidate. He called a poll worker to his station, and she reviewed his ballot and he tried again. He selected his candidate, but when the DRE got to the summary page which showed which candidates he selected, there was no "x" on the sheriff candidate. He said the poll manager cast his ballot by pressing the button herself, and told him he was done. He was dismayed that the DRE unit was left in use.

Subsequent investigation determined that there was insufficient evidence to sustain a violation of election law.

### **Violations SEB2012-056 Fulton County Primary Election**

**Allegation:** 60 voters were assigned the incorrect precinct during the July 31, 2012 Primary Election

- **Violation 21-2-226(b)** upon finding an elector eligible to vote in the county, the county board of registrars shall have the duty of determining and placing the elector in the proper districts and precinct.

**Allegation:** Fulton County Elections failed to certify the July 31, 2012 Primary Election by the deadline – Election results were certified at 6:30 pm, Monday November 12, 2012; 1 ½ hours after the deadline

- **Violation 21-2-493(k)** returns shall be certified by the superintendent not later than 5:00 pm on the Monday following the date on which such election was held.

**Allegation:** Fulton County opened absentee ballots the Monday prior to the July 31, 2012 Election – absentee ballots were opened and scanned on the Monday prior to the election

- **Violation 21-2-386(a)(3)** a county, at his or her discretion, after 7:00 am on the day of the primary, election, or runoff open the inner envelopes.
- **21-2-386(a)(5)** no absentee ballots shall be tabulated before 7:00 am on the day of a primary, election, or runoff.

### **SEB 2011-110 Demolished Residences**

This case involves a complaint that was brought by a complainant who reported that there were at least 1,300 people registered to vote in Fulton County, however, the homes where these registered voters claimed residency, no longer existed. The complainant provided specific names and addresses along with photographs that apparently showed that listed addresses contained only empty lots with no structures. Preliminary investigation indicated that many of the addresses referred by the complainant did appear to show vacant lots while voters still used that address as a registered address for voting. There was concern that people who might have moved out of their districts were still registered to vote and were voting in Fulton County Elections.

A previous SEB case (2009-62) investigated allegations that voters had done just that in the 2009 City of Atlanta Municipal Election.

Examination of O.C.G.A. § 21-2-218 indicated that while this situation was odd on its face, the registration of a voter who moves his residence is affected differently depending on whether the voter leaves the district, or municipality, county, or state. Paragraph (d) states that a voter who moves to a different address within the county or municipality, but fails to notify the registrar by the fifth Monday before an election, “shall vote in the precinct of such elector’s former residence for such election...” Then, paragraph (e) of this code section states a voter, “who moves from one county or municipality to another after the fifth Monday prior to a primary or election may vote in the county or municipality or precinct in which such elector is registered to vote.”

It was also unknown when these electors moved and/or if they moved to a different county or municipality. It was also unknown if the voters intended to return to these addresses and were living temporarily at another location, while intending to retain their residency as allowed under O.C.G.A. § 21-2-217(a)(2).

In May, 2012 I met personally with Fulton County Elections Director, Samuel Westmoreland, in Savannah to discuss this issue with him. At the time, I believed that Fulton County was not aware of the allegation or set of circumstances. I gave Mr. Westmoreland a very brief synopsis of the allegations. I was surprised to hear him respond that his office was already aware of the situation and that they were already working on it. He then volunteered that he had found [paraphrased] “elements in the office that were corrupt and/or covering the situation up.” I told him that I was very interested in working with him and Fulton County in addressing the issues. Mr. Westmoreland then said that he would rather not discuss the matter further in public (we were in the lobby of the hotel where the SEB Meeting was taking place). I offered to come to his office the following week, and he immediately said that he did want me there, but he would come to my office instead. After not hearing from him during the following

week, I called him, and he made another cryptic comment along the lines of, "People in my office don't want this dealt with." I told him that he could not mention knowledge of corruption and cover-up, and then simply drop the matter. He said that he would meet with me, "off campus" at a Starbucks, and that he would call me to arrange the meeting. I did not receive return calls, nor hear from Mr. Westmoreland again.

[At this point, this case connects to the November General Election]

In June, 2012, Fulton County sent approximately 2,400 letters to voters. The letters were challenges to each registered voters registration status. A hearing date was set for June 14, 2012. Fulton County officials believed these voters did not have homes where they were registered to vote. What Fulton County officials did not know was that some of the addresses had been rebuilt and occupied and/or were never razed in the first place. The AJC did a story about voters who were informed that they did not live where they were registered when; in fact they did live where they were registered to vote. Fulton County sent out another letter to the 2,400 voters and essentially dropped the matter, for the time being. Fulton County has not formally challenged these voters as far as we know.

At some point shortly before the November 6, 2012 General Election, Fulton County decided to place approximately 1,100 registered voters, who were suspected of not having homes at their registered addresses, in a voter registrations status of "P" (for Pending.) It was Fulton County's intent to use this to identify such voters and require them to complete a change of address form. It is unknown whether the plan was to allow the voters to vote on a DRE, provisionally, or at all, however, an email from Sharon Mitchell to Linda Ford suggests that the plan was to not allow these voters to vote on a DRE, since their names, apparently, would not appear on the ExpressPoll in this "P" status. In an interview with Sharon Mitchell in December 2012, Ms. Mitchell said that no voters were actually ever placed in a "P" status. Sharon Mitchell intended the "P" to be a "flag" for election officials to clarify residential address, however, a "P" status would have prevented the voter's name from appearing on the ExpressPoll and there is a very high probability that they would not be allowed to vote on a DRE. There were 636 voters in "P" status in Fulton County on Election Day, November 6, 2012.

It does not appear the Fulton County has decided if or how to handle these registered voters, though there was a mention of holding hearings on the voters.

It is also unknown if there was some person or persons in the Fulton County Election Office who was attempting to either keep people as registered voter while having knowledge that they might be ineligible, or oppositely, trying to interfere with the rights of registered voters.

### Conclusions

These multiple failures seem to be linked to poor planning, insufficient training, poor communication, and poor decision-making.

Perhaps most troubling is the apparent utter disregard for the security and integrity of practically the entirety of the provisional ballot process.

Almost 10,000 votes were essentially un-documented or under-documented and under-secured.

The lack of accountability with provisional ballots calls every provisional ballot into question, and at approximately 9,600 ballots, that is not an insignificant number of votes.

It is not a far leap to move from incompetence to genuine election fraud when lists of voters are being altered, and fictitious reports of counting ballots are made, and documentation is so haphazard that seven provisional ballots that appear to be from the same voter are accepted.

It should be noted that even a cursory exploration of other election documents from the 2012 General Election (DRE Recap sheets, supplemental voter lists, and provisional ballot documents, to name a few) show a similar pattern of incompleteness, inaccuracy. Were an exhaustive, point-by-point examination of every precinct be made, the numbers of violations would likely increase exponentially.

## **Report, 2012 Fulton County Elections**

This Report concerns three investigations into violations of Title 21 of Georgia law and rules of the State Election Board.

State Election Board Cases

### **SEB 2012-156 (2012 General Election)**

**Respondents: Sharon Mitchell and Fulton County Board of Registrations and Elections**

### **SEB 2012-56 (2012 Primary Election)**

**Respondents: Sam Westmoreland and Fulton County Board of Registrations and Elections**

### **SEB 2011-110 (no specific election)**

**Respondent: Fulton County Board of Elections and Registration**

Report Date

November 26, 2013

By

Chris Harvey, Chief Investigator, Georgia Secretary of State's Office

On January 31, 2013, the Georgia State Election Board (SEB) will convene an investigative hearing on three election investigations involving significant allegations of violating election laws and SEB Rules in Fulton County. Two of the cases (SEB 2012-56 and SEB 2012-156) deal with specific elections: the 2012 General Primary and the 2012 General Election. SEB 2011-110 deals with voter registration and residency issues, and while not necessarily specific to an election, the issue of accurate and timely voter registration played a role in the aforementioned elections.

### **SEB 2012-156 General Election**

The vast majority of complaints in this election were tied to voters having to vote provisional ballots after being told that their names did not appear on the ExpressPoll. There appear to be a number of issues that started with problems in the voter registration process in Fulton County. Voter registration applications were being entered into the voter registration system until the day before the election, which was ten days after the final list of voters were entered into the ExpressPoll system. These problems were aggravated by a poorly executed and inconsistent procedure for properly handling and documenting provisional ballots.

#### **Voter Registration**

Proper Procedure: When a voter submits a voter registration application (or a change to an existing voter registration such as a new address or name change) the information is manually entered into the computer voter registration database. This database normally receives a lot of new applications and alterations in the weeks leading up to the registration deadline (October 9, 2012 for this General Election.) Fulton County, as did most other counties, received a large number of these applications in the weeks before the General Election, and they struggled and ultimately failed to enter all of the data by the deadlines they faced. When all of the applications are entered into the system, the system produces a complete Electors List for each precinct, naming all qualified voters. The system which handles the Electors List and contains all of the registered voters on election day (or during early voting) is commonly referred to as “ExpressPoll” (which is actually the name of the computers which allow voters to be “checked in” and have a voting access card created for them to vote on the voting machine (DRE.)

Kennesaw State University’s (KSU) Election Center handles the “loading” of all of the information from the voter registration system onto the actual ExpressPoll machines that are used at each precinct to identify voters and allow voter access cards to be created for them. In order to allow the counties to set up their election systems, KSU “closes” the information that will be loaded onto the ExpressPoll machines at the end of the day on the second Thursday prior to the Election Day. Any voter registration information that is added to the statewide voter registration system by any county *after* the close of that Thursday, will still be eligible to vote (assuming the registration application was received by the earlier October deadline) but those voters names (or new information) will only appear on a printed “supplemental list” that should be sent to every precinct.

For example, if my first-ever voter registration application was processed on October 30, 2012, and I went to my polling place to vote, I would be told by the poll worker, “You are not showing up in our system.” The poll worker should then check the printed “supplemental list” of voters where my name should appear. At that point, that I was present and showed proper ID would be noted on the list, and the poll worker should create a voter access card for me on the ExpressPoll machine, and I should vote on the DRE just as if I had been in ExpressPoll for years. If a voter did not appear on either the ExpressPoll or supplemental list, and the voter declared that they believed they had registered in time to vote, they should be given a provisional (paper) ballot on which to vote. Provisional ballots will be addressed in detail later in this report.

Therefore, it should be clear that the timely entrance of data into the voter registration system can keep the “supplemental list” to a minimum and keep the poll workers working at maximum efficiency by relying primarily on ExpressPoll (which is where the vast majority of the voters should be found.) In some counties, there are no supplemental lists on election day because all of the qualified voter registration applications were entered into the voter registration system by October 25, 2012. Failure to meet these data-entry deadlines caused cascading problems on election day.

Fulton County received a large number of voter registration applications, and was unable to enter the applications by the time the ExpressPoll records were finalized and loaded into the ExpressPolls. Fulton County failed to follow previous practices of supplementing data entry workers to keep up with the demands of the incoming registrations. KSU even gave Fulton County one extra day, until the end of October 26<sup>th</sup>, to enter information that would go into ExpressPoll. Fulton County was entering voter registrations into the system as late as the day before the election. This fact required the use of a “supplemental list” of voters who should have been allowed to vote on a DRE just like any other voter. Fulton County reported that their “supplemental list” contained approximately 6,000 voters. This is a very unusually high number of voters on a supplemental list.

Fulton County has claimed that the Secretary of State's Office was responsible for the late receipt of the voter registration applications, but the Secretary of State has multiple witnesses who will testify that the voter registration applications were made available to Fulton County as soon as they came into the office.

In post-election surveys completed by Fulton County election workers, there were many mentions of inadequate staffing to process the incoming voter registration applications. Ralph Jones admitted that the office also stopped processing changes in address requests in favor of adding new voter registration applicants. There was a particularly damning survey response which revealed,

***"Visiting Fulton County Registration and Election Officials couldn't obtain clear verification of the staffing and heavy workload requirements because voter's registration cards were moved from the sign-out location and placed around the office so no one would be able to identify the workload. Cards were hidden at employee work stations."***

Poll managers reportedly received their documents and election items the evening of Sunday, November 4, 2012. Due to an oversight in the Fulton County Voter Registration Office approximately 300 voters were added to the supplemental list during the day, Monday, November 5, 2012, after the first Supplemental List had already been given to the poll managers, so, at least, those 300 new voters would not appear on ExpressPoll or on a printed Supplemental List of voters if *any* of those 300 voters attempted to vote. Fulton County was distributing supplemental lists on Election Day, however, it is unknown if the lists were additional voters, replacement lists, lists that were never delivered, and/or some or all of the above. There were reports of poll managers either not getting any supplemental list, not knowing they got the supplemental list, not knowing what to do with the supplemental list they got, or not getting updated supplemental lists. Sandy Springs Precinct 22 did not have a copy of any supplemental list until after 11:00 AM on Election Day after over 800 people voted. Fulton County has acknowledged that two precincts did not receive the supplemental lists until almost noon on election day.

Approximately **1,100** voters, whose registration records were either entered or changed *after* October 26, voted provisional ballots that were accepted by Fulton County. Many of these voters should have appeared on the printed supplemental list and should have voted on DREs (the exceptions would be voters on the supplemental list who were voting out of their assigned precinct.)

**Potential Violations:**

O.C.G.A 21-2-226-Determining Eligibility of Voters

O.C.G.A. 21-2-227-Furnish List of Electors for Elections

O.C.G.A. 21-2-228-Examination of Elector' Qualifications

Problems at Precincts on Election Day

The Secretary of State's Office received approximately 150 complaints regarding Fulton County's performance on Election Day. Some of these complaints were regarding issues that were not necessarily the fault of Fulton County Election Officials, such as inconvenient polling place locations, and frustrated poll workers. Most of the complaints, however, came from voters who were either not allowed to vote

at all, or were required to vote provisionally even though they knew, and in some cases had documentation, that they were properly registered to vote.

Here is a sampling of the complaints

- Address on driver's license differed from registration address, so voter could not vote
- Voter had requested an absentee ballot, which voter denied, and voter was forced to vote provisional
- Excessively long lines and waits (in excess of three and four hours) due to difficulties in getting voters the voter access cards because the voters could not be found in ExpressPoll or supplemental list
- Elector not in the system, cannot vote
- Provisional ballots denied to voters who requested them for various reasons
- Voter had already voted, which voter denied (sometime provisional offered, but other times not)
- Lines with waits of over two hours saw many voters leave without voting
- Illegal campaigning in a polling place
- Slow procedure to create Voter Access Cards even though there were plenty of DREs
- Precincts ran out of supplies including provisional ballots
- Some waits for provisional ballots were in excess of four hours, and even then, small numbers of provisional ballots were delivered after that extended wait
- Some poll workers suggested that voters go to other precincts to try to find provisional ballots
- Polling places were unorganized and directionless
- Polling places did not open in time
- The advocacy group, Election Protection itself gathered and reported to the Secretary of State's Office more than twenty complaints, including four affidavits that were almost exclusively reports of declared registered voters not being allowed to vote on DREs, and, in most cases, experiencing hours of waiting time for provisional ballots
- In addition, after Election Day, several poll managers sent complaints about problems with getting provisional ballots and communicating with the Fulton Election Office downtown

Investigators from the Secretary of State's Office visited several precincts on Election Day and reported some dire conditions, particularly at Venetian Hills Precinct. There they saw the poll manager on the phone practically the entire time, voters wandering in the enclosed space, voters waiting hours to get provisional ballots, and voters being told they should try other precincts in the hopes of getting a provisional ballot somewhere else.

**Potential Violations:**

O.C.G.A. 21-2-413 Conduct of voters, campaigners

O.C.G.A. 21-2-418 Provisional ballots

O.C.G.A. 21-2-596 Failure to perform duty

O.C.G.A. 21-2-591 Allowing unlawful assistance to voters

O.C.G.A. 21-2-403 Time for opening of polls

### Registered Voters Having to Vote Provisional Ballots

**3,732** Fulton County voters who voted provisional ballots on Election Day were in the ExpressPoll System by October 26, 2012. There are only a few legitimate reasons for a registered voter in ExpressPoll to vote a provisional ballot:

- Voter is voting out of precinct
- Voter does not have valid identification
- Voter cannot be found in ExpressPoll by poll worker

However, untrained or unequipped poll workers who did not have access to, or full knowledge of working an ExpressPoll or printed Supplemental List, would have to choose between allowing a voter to vote provisionally, and not letting the person vote at all.

Below is a summary of Fulton County Provisional Ballot Reporting:

<u>Reason for Prov. Ballot</u>	<u># P.B. voted</u>	<u># P.B. accepted</u>
Wrong Precinct/Not on List	9429	5101
No ID	72	0
Other Reasons	84	3
Total	<b>9585</b> (FC report to SOS lists <b>9575</b> )	5104

Fulton County accounted for 54% of provisional ballots cast in the entire state  
(DeKalb, Gwinnet, Chatham, and Muscogee Counties combined issued 2,879 provisional ballots)

3,732 voters were in ExpressPoll and 1,100 voters who voted provisionally were, or should have been, on the printed Supplemental List. These two numbers account for 4,832 voters who should have voted on a DRE on Election Day. This would have cut the number of provisional ballots by almost 50%.

A caveat to the 3,732 voters is that if a voter went to a precinct other than where they were registered and assigned, they could have:

1. Been directed to their proper precinct (if sufficient time allowed for the travel)  
Or,
2. Voted a provisional ballot at the wrong precinct

Fulton County apparently had inconsistent practices in handling voters at wrong precincts, and the workers were ultimately trained that, "When in doubt, give a provisional ballot." Some voters too seem to have become accustomed to such treatment and arrived at precincts knowing they were not registered there, but expecting a provisional ballot for the sake of convenience.

Lastly, reports show that of the 5079 records that Fulton County reported as accepted provisional ballots, **95** of those registration numbers **also** had voter access cards created for those registration numbers in ExpressPoll. This might indicate that the "registration number/voter" voted on a DRE and provisionally, and both votes were counted.

### Provisional Ballot Problems

Approximately 9,575 voters voted provisional ballots in Fulton County, which accounted for 54% of the total provisional ballots cast in the entire state. Nowhere, however, do the numbers and lists of names

and accepted and rejected ballots add up. Fulton County election officials were simply not prepared to handle the demand and backlog of unprocessed voter registration applications (which Fulton County created) for provisional ballots at the polling places. There appeared to be little to no consistency in the proper handling of provisional ballots. The failure by Fulton County to properly follow documentation and handling requirements in place to ensure the security and integrity of the provisional ballots made verifying provisional ballots with much certainty almost impossible.

Poll managers and workers did not follow state law or SEB Rules when handling and documenting provisional ballots. There was a very weak supply chain to deliver new provisional ballots to precincts, and the communication system between poll workers and election officials left much to be desired. Laws and SEB rules regarding the handling and documenting of provisional ballots were violated or ignored on a massive scale:

- There was insufficient dissemination about the system in place to allow voters to check the status of their provisional ballot
- One person appeared to vote *seven* provisional ballots at the same precinct, and *all seven ballots were marked as accepted*. Fulton County claims to have identified who these voters were, however, with no other identification on the provisional ballot envelopes, there no way to tell if that is true, and is frankly, rather unlikely.
- Some voters were denied provisional ballots, even after requesting one
- Provisional ballots were not kept in secure locations during validation (the status of the chain of custody for the provisional ballots is unknown)
- Fulton County could not even produce all of the provisional ballot envelopes that they appeared to have received
- There was no uniform recording of the *reasons* for rejecting provisional ballots
- Documents recording provisional ballot appear to be **created and altered** by someone after the documents were submitted by poll officials
- Provisional Ballot recap sheets were often done improperly, incompletely, or not at all
- Voters were listed as having provisional ballots accepted when they did not vote provisional ballots
- Voters were not notified until January 9, 2013 (66 days after the election) that their provisional ballots were rejected
- More than 1,000 of these *mailed notices* had no address for the elector, so there is no way that the notices *could have gotten to the electors*
- Many provisional ballot *rejections* appear to be recorded without a way to determine why a ballot was rejected, and inform the voter of the same
- The total number of voted provisional ballots differs from source to source
- Many provisional ballot recap sheets do not correlate to the statement of votes cast on the official results
- Fulton County has not reported how many provisional ballots had to be duplicated (all out of precincts provisional ballots)
- It is unknown how many voter registration applications were completed when voters were issued provisional ballots, but a review of specific complainants shows that at least 20 provisional voters were not given voter registration applications
- Printed instructions for checking the status of one's provisional ballot were not available for every provisional ballot issued

- As recently as September and October of 2012, Pamela Coman, Election Training Director for Fulton County asked for and received clarification about provisional ballots because she was preparing to begin the online training from the training staff at the Secretary of State's Office
- The heavy reliance on provisional ballots on Election Day set the stage for failures in the verification of provisional ballots in the days after the election. As woeful as was the requirement that so many voters had to cast provisional ballots in the first place, the more striking failure was Fulton County's inability to execute the acceptance and rejection of absentee ballots with anything resembling accuracy or reliable documentation
- More than 1000 rejection letters were mailed to voters with incomplete mailing addresses, and could not have been delivered
- Fulton County failed to notify provisional voter who voted out of precinct that their ballot had been duplicated and counted

#### Detailed Examination of Ten Precincts' Provisional Ballots

Investigators from the Secretary of State's Office examined only ten precincts' handling of provisional ballots in great detail, and what they discovered was a lack of consistency or much of anything that could even be described as a "system," that yielded inaccuracy after inaccuracy in the proper documentation of provisional ballots. Not *one* of the ten precincts and county officials could even account for the proper *number* of provisional ballots. The details from each of the ten precincts are included in the exhibits in this packet, but below is a chart that shows the errors and wide-ranging inconsistencies with provisional ballots.

Following the chart is a point-by-point analysis of the provisional ballots from each of the ten precincts examined in detail.

## Recap and Provisional Analysis for Precinct 01A

### Provisional Recap and Provisional Numbered List of Voters

- A provisional ballot recap sheet was not completed for the precinct
- 158 names listed on the Numbered List of Provisional Voters. All names were written in red ink in what appeared to be the same handwriting.

### Voter Certificates

- Voter certificates were provided for only 42 of the 158 names on the numbered list.
- 1 voter certificate was completed by poll officer only on the provisional section
- 41 of the voter certificates were not completed on the provisional section

### Provisional Ballot Analysis

According to the provisional numbered list, 136 provisional ballots were accepted and 22 were rejected. The voter certificates and voter registration system were reviewed for all voters and the following was determined:

- 28 Rejected
- 3 were voted by persons registered in other counties.

- 23 were not found in the voter registration system.
- 2 were voted by persons in delete status.

46 Accepted

- 35 were registered in precinct 01A.
- 12 of the 35 were found on the supplemental list of voters for the precinct.
- 15 of the 35 were entered after the Express Poll and supplements lists were generated. These voters were not available at the precinct.
- 7 of the 35 were listed in the Express Poll used on Election Day.
- 1 voter had previously requested an absentee ballot
- 11 were registered in other Fulton County precincts

#### Additional Observations

- One voter was listed as a non-citizen. It is unknown if the voter returned to Fulton County after the election with proof of citizenship.
- 4 of the voters were listed on the numbered list 2 times.
- 5 ballots were accepted from voters who were also given credit for voting on a DRE unit. Accepted ballot envelopes were provided for these individuals.
- One person listed had two registration records in the registration system.
- 3 voters could not be identified due to a voter certificate not being provided and multiple records were found in the registration system.
- 70 voters were listed on the provisional numbered list of voters and they were also given credit for voting in the registration system by voting on a DRE unit. Provisional ballot envelopes were not provided for any of these individuals.

#### Provisional Ballot Envelopes

- 58 provisional ballot envelopes were provided by Fulton County for review. 47 accepted and 11 rejected.
- Review of the envelopes indicated the ballots that were accepted and rejected were marked the same as the numbered list of provisional voters.

## **Recap and Provisional Analysis for Precinct 02F1\02F2**

#### Provisional Recap and Provisional Numbered List of Voters

- 83 provisional ballots issued listed on the Provisional Ballot Recap Sheet
- 83 names listed on the Numbered List of Provisional Voters

#### Voter Certificates

- Voter certificates were provided for 83 of the names on the numbered The provisional section of the voter certificates was not completed on any of the certificates.

#### Provisional Ballot Analysis

- According to the provisional numbered list, 60 provisional ballots were accepted and 23 were rejected. The voter certificates and voter registration system was reviewed for all voters and the following was determined:

#### 23 Rejected

- 13 were voted by persons registered in other counties.
- 9 were not found in the voter registration system
- 1 was voted by a person marked as a non-citizen.

#### 59 Accepted

- 36 were registered in precinct 02F/02F1.
- 6 of the 36 were found on the supplemental list of voters for the precinct.
- 7 of the 36 voters were listed in the Express Poll used on Election Day.
- 23 of the 36 voters were entered after the Express Poll and supplement lists were generated. These voters were not available at the precinct.
- 23 voters were registered in other Fulton County precincts.

#### Provisional Ballot Envelopes

- 72 provisional ballot envelopes were provided by Fulton County for review. 56 accepted and 16 rejected.
- Provisional ballot envelopes were not provided for 11 voters.
- Review of the envelopes indicated the ballots that were accepted and rejected were marked the same as the numbered list of provisional voters.

## **Recap and Provisional Analysis for Precinct 02S**

#### Provisional Recap and Provisional Numbered List of Voters

- 84 provisional ballots issued listed on the Provisional Ballot Recap Sheet
- 79 names listed on the Numbered List of Provisional Voters

#### Voter Certificates

- Voter certificates were provided for 40 of the names on the numbered.
- The provisional section was completed by the voter and poll worker on 1 voter certificate.
- The provisional section was completed by the poll worker only on 28 voter certificates.
- The provisional section was not completed on 11 of the voter certificates provided.

#### Provisional Ballot Analysis

- According to the provisional numbered list, 31 provisional ballots were accepted and 48 were rejected. The voter certificates and voter registration system were reviewed for all voters and the following was determined:

#### 34 Rejected

- 17 were voted by persons registered in other counties.
- 11 were not found in the voter registration system.
- 6 were voted by persons in delete status.

#### 32 Accepted

- 17 were registered in precinct 02S.
- 3 of the 17 voters were found on the supplemental list of voters for the precinct.
- 13 of the 17 voters were entered after the Express Poll and supplement lists were generated. These voters were not available at the precinct.
- 1 of the 17 had previously requested an absentee ballot..
- 15 were registered at other Fulton County precincts

#### Additional Comments

- One ballot was listed as rejected and the provisional list was marked that the voter could not be found. The voter information from the voter certificate was compared to the voter registration system. A record was found for a Fulton County voter with the same name and address. The date of birth on the voter certificate was not valid and could not be compared to the voter record. It appears should have been duplicated to the voter's precinct and accepted. A provisional ballot envelope for the voter was not provided.
- One ballot was listed as rejected on the provisional list; however, the voter was listed on the supplemental list of voters for the precinct. The voter certificate was marked accepted. A provisional ballot envelope for the voter was not provided.
- 9 of the voters could not be identified due to a voter certificate not being provided and multiple records were found in the voter registration system.

#### Provisional Ballot Envelopes

- 45 provisional ballot envelopes were provided by Fulton County for review. 30 accepted and 15 rejected.
- One provisional ballot was accepted for voter who was marked as having voted during the early voting period.
- One ballot was rejected because the voter was listed as registered in Gwinnett County. Review of the voter registration system indicated there were 2 registration numbers for the same person. The Fulton County record appeared to occur after the Gwinnett record and should have replaced the Gwinnett record. The registration in Fulton County was on the supplemental list. It appears the ballot should have been accepted.
- Two accepted provisional ballot envelopes were provided for voters that were not listed on the provisional numbered list of voters.

## **Recap and Provisional Analysis for Precinct 03A**

#### Provisional Recap and Provisional Numbered List of Voters

- 132 provisional ballots issued listed on the Provisional Ballot Recap Sheet
- 134 names listed on the Numbered List of Provisional Voters
- 53 names were written in red ink which appears to be the same ink used for marking whether the ballot was accepted or rejected. The names are written in the same handwriting and appear to be listed in reverse alphabetical order.

#### Voter Certificates

- Voter certificates were provided for 132 of the names on the numbered list.
- 17 voter certificates were completed by poll officer only on the provisional section
- 73 of the voter certificates were not completed on the provisional section
- 42 voter certificates were not copied to include the back side

#### Provisional Ballot Analysis

According to the provisional numbered list, 59 provisional ballots were accepted and 75 were rejected. The voter certificates and voter registration system were reviewed for all voters and the following was determined:

##### 71 Rejected

- 37 were voted by persons registered in other counties.
- 30 were not found in the voter registration system.
- 4 were voted by persons in delete status.

##### 55 Accepted

- 23 were registered in precinct 03A.
- 15 of the 23 were found on the supplemental list of voters for the precinct.
- 6 of the 23 were entered after the Express Poll and supplements lists were generated. These voters were not available at the precinct.
- 2 of the 23 were listed in the Express Poll used on Election Day.
- 32 voters were registered in other Fulton County precincts.

#### Additional Comments

- 1 voter could not be identified due to a voter certificate not being provided and multiple records were found in the registration system.

#### Provisional Ballot Envelopes

- 128 provisional ballot envelopes were provided by Fulton County for review. 56 accepted and 72 rejected.
- 2 ballots were rejected because the voters were not registered in Fulton County. The registrations were found in the registration system as being received by the deadline but they were not entered until December. The ballots should have been accepted.

- One ballot was accepted for a voter in which the registration system indicated she voted during the early voting period.
- 2 ballots were accepted for voters who could not be found in the registration system. It is unclear what steps Fulton County took to verify the voter's registration and whether the ballot should have been accepted.
- One ballot was accepted for a voter who provided a Florida address on the voter certificate and no date of birth. There was no identifying information on the voter certificate to verify the voter's eligibility.

## **Recap and Provisional Analysis for Precinct 04B**

### **Provisional Recap and Provisional Numbered List of Voters**

- 110 provisional ballots issued listed on the Provisional Ballot Recap Sheet
- 110 names listed on the Numbered List of Provisional Voters

### **Voter Certificates**

- Voter certificates were provided for 109 of the names on the numbered list.
- 8 voter certificates were completed by poll officer only on the provisional section
- 6 voter certificates were completed by the voter only on the provisional section
- 95 of the voter certificates were not completed on the provisional section

### **Provisional Ballot Analysis**

According to the provisional numbered list, 55 provisional ballots were accepted and 55 were rejected. The voter certificates and voter registration system were reviewed for all voters and the following was determined:

#### **53 Rejected**

- 14 were voted by persons registered in other counties.
- 36 were not found in the voter registration system.
- 3 were voted by persons in delete status.

#### **56 Accepted**

- 42 were registered in precinct 04B.
- 26 of the 42 were found on the supplemental list of voters for the precinct.
- 4 of the 41 were entered after the Express Poll and supplements lists were generated. These voters were not available at the precinct.
- 5 of the 42 were listed in the Express Poll used on Election Day.
- 6 of the 42 were in "Verify" status. These voters should have listed on Express Poll and the voter should have been able to vote on a DRE unit.
- 1 of the 42 was in "Pending" status reason type "A". This voter was included in the "pending" voters with questionable addresses.
- 1 voter was marked as a non-citizen

- 13 voters were registered in other Fulton County precincts.

#### Additional Comments

- One was listed as rejected; however, the voter was found in the registration system. No ballot envelope was provided for the voter.

#### Provisional Ballot Envelopes

- 103 provisional ballot envelopes were provided by Fulton County for review. 52 accepted and 51 rejected.
- Review of the envelopes indicated the ballots that were accepted and rejected were marked the same as the numbered list of provisional voters.

## **Recap and Provisional Analysis for Precinct 04W**

#### Provisional Recap and Provisional Numbered List of Voters

- 249 provisional ballots issued on the Provisional Ballot Recap Sheet
- 232 names listed on the Numbered List of Provisional Voters.

#### Voter Certificates

- Voter certificates were provided for 227 of the names on the numbered list.
- 15 voter certificates were completed by the voter only on the provisional section
- 50 voter certificates were completed by poll officer only on the provisional section
- 157 voter certificates were completed by the voter and poll officer on the provisional section
- 36 of the voter certificates were not completed on the provisional section
- One voter certificate did include the backside.
- 32 voter certificates were provided for persons not on the numbered list of provisional voters.

#### Provisional Ballot Analysis

According to the provisional numbered list, 129 provisional ballots were accepted and 102 were rejected. The voter certificates and voter registration system were reviewed for all voters and the following was determined:

#### 110 Rejected

- 45 were voted by persons registered in other counties.
- 62 were not found in the voter registration system.
- 3 were voted by persons in delete status.

116 Accepted

- 36 were registered in precinct 04W.
- 20 of the 36 were found on the supplemental list of voters for the precinct.
- 9 of the 36 were entered after the Express Poll and supplements lists were generated. These voters were not available at the precinct.
- 4 of the 36 were listed in the Express Poll used on Election Day.
- 3 of the 36 were in “Verify” status. These voters should have been listed on Express Poll and the voter should have been able to vote on a DRE unit.
- 80 voters were registered in other Fulton County precincts.

#### Additional Comments

- 3 voters have two registration records in the registration system.
- One voter had no precinct assigned to the registration record.
- 2 of the voters were listed on the numbered list 2 times.
- 1 voter could not be identified due to a voter certificate not being provided and multiple records were found in the registration system.

#### Provisional Ballot Envelopes

- 159 provisional ballot envelopes were provided by Fulton County for review. 80 accepted and 79 rejected.
- 2 ballots were accepted from voters who could not be found in the system. It is unclear what Fulton County used to verify the voter’s registration and whether the ballot counted.
- One ballot was rejected from a voter who submitted a change of address prior to the deadline but it was not entered until December. The voter requested an absentee ballot and it is unclear if the ballot was returned to the previous county of residence. A rejected provisional ballot envelope was provided.

## **Recap and Provisional Analysis for Precinct 06H**

#### Provisional Recap and Provisional Numbered List of Voters

- 5 provisional ballots issued listed on the Provisional Ballot Recap Sheet
- 5 names listed on the Numbered List of Provisional Voters

#### Voter Certificates

- Voter certificates were provided for 1 of the names on the provisional numbered list.
- The back of the voter certificate was not provided.

#### Provisional Ballot Analysis

- According to the provisional numbered list, 1 provisional ballot was accepted and 4 were rejected.

#### 4 Rejected

- Voter certificates were not provided for the rejected voters. Investigators could not determine in the registration system why the provisional ballot was rejected. This was due to not having identifying information other than the name of the voter and there being multiple records in the registration system for the name on the provisional list of voters.
- The reason the provisional ballot was rejected was not marked on the provisional numbered list of voters.

#### 1 Accepted

- The voter was registered in 06H. The voter was also listed on the supplemental list of voters.

#### Provisional Ballot Envelopes

- 1 provisional ballot envelope was provided by Fulton County for review. The ballot envelope was marked accepted and was the same name listed as the ballot marked accepted on the provisional numbered list of voters.
- Provisional ballot envelopes were not provided for the persons marked rejected on the provisional numbered list of voters.

## Recap and Provisional Analysis for Precinct 11G

#### Provisional Recap and Provisional Numbered List of Voters

- 65 provisional ballots issued listed on the Provisional Ballot Recap Sheet
- 59 names listed on the Numbered List of Provisional Voters

#### Voter Certificates

- Voter certificates were provided for 65 of the names on the numbered list.
- 9 voter certificates were provided for persons not listed on the provisional list of voter.
- 3 voter certificates were completed by the voter and poll officer on the provisional section
- 1 voter certificates were completed by poll officer only on the provisional section
- 52 of the voter certificates were not completed on the provisional section

#### Provisional Ballot Analysis

The numbered list of provisional voters was not marked as whether a voter's ballot was accepted or rejected. The voter certificates and voter registration system were reviewed for all voters and the following was determined:

#### 16 Rejected

- 5 were voted by persons registered in other counties.
- 6 were not found in the voter registration system.
- 5 were voted by persons in delete status.

37 Accepted

- 9 were registered in precinct 11G.
- 3 of the 9 were found on the supplemental list of voters for the precinct.
- 4 of the 9 were entered after the Express Poll and supplements lists were generated. These voters were not available at the precinct.
- 2 of the 9 were listed in the Express Poll used on Election Day.
- 28 voters were registered in other Fulton County precincts.

Additional Comments

- 2 voters could not be identified due to the voter certificate not being provided and multiple records were found in the voter registration system.
- 1 could not be located in the registration system. It is unclear what Fulton County used to verify the voter's registration and whether the ballot counted.
- On ballot was listed as rejected; however the voter's registration was reviewed and indicated they had submitted their registration by the deadline but it was not added to the registration system until December. It is unknown if the ballot was accepted because a provisional ballot envelope was not provided.

Provisional Ballot Envelopes

- 15 provisional ballot envelopes were provided by Fulton County for review. 9 accepted and 6 rejected.
- A ballot was accepted for a voter whose registration record indicated they were given credit for voting on a DRE unit.  
One ballot was rejected; however, a registration record was found for the voter. According to the registration system the voter's registration application was received by the deadline but was not entered until December 2012. The ballot should have been accepted.

## **Recap and Provisional Analysis for Precinct SS14**

Provisional Recap and Provisional Numbered List of Voters

- 15 provisional ballots issued listed on the Provisional Ballot Recap Sheet
- 20 names listed on the Numbered List of Provisional Voters
- Names 16 through 20 are written in red ink which appears to be the same ink used for marking whether the ballot was accepted or rejected.

Voter Certificates

- Voter certificates were provided for 19 of the names on the numbered list.
- 12 voter certificates were completed on the provisional section by the voter and poll officer
- 4 voter certificates were completed by poll officer only
- 2 voter certificates were not completed by the voter
- 1 voter certificate was not completed

#### Provisional Ballot Analysis

- According to the provisional numbered list, 14 provisional ballots were accepted and 6 were rejected. The voter certificates and voter registration system was reviewed for all voters and the following was determined

##### 6 Rejected

- 5 were voted by persons registered in other counties.
- 1 was voted by a person marked as a non-citizen.

##### 9 Accepted

- 5 were registered in precinct SS14. All 5 voters were listed on the supplemental list of voters.
- 3 were registered in other Fulton County precincts.
- Registration information was reviewed and revealed 5 of the 8 provisional voters registered at other precincts were given credit for voting by the Express Poll. This would indicate they voted on DRE units at their registered precinct.
- 1 could not be located in the registration system. It is unclear what Fulton County used to verify the voter's registration and whether the ballot counted.

#### Additional Comments

- Review of the voters whose names were written in red indicated they had voted on a DRE unit at the precinct they were registered at. The voters were contacted and all stated they originally went to precinct SS14 and were told they were registered at other precincts. The voters said they went the precinct they were told to vote at and voted on the DRE units. None of the persons written in red ink said they voted a provisional or paper ballot at precinct SS14. Provisional ballot envelopes were not provided for the voters.

#### Provisional Ballot Envelopes

- 15 provisional ballot envelopes were provided by Fulton County for review. 9 accepted and 6 rejected.
- Provisional ballot envelopes were not provided for the persons whose names were added in red ink to the provisional list of voters.
- Review of the envelopes indicated the ballots that were accepted and rejected were marked the same as the numbered list of provisional voters.

#### Statement of Votes Cast

- According to the Statement of Votes Cast report, 1 provisional ballot was counted for precinct SS14. There were 5 provisional ballots listed on the numbered list of voters for precinct SS14 that should have been counted.

## **Recap and Provisional Analysis for Precinct SS22**

### Provisional Recap and Provisional Numbered List of Voters

- 46 provisional ballots issued listed on the Provisional Ballot Recap Sheet
- 46 names listed on the Numbered List of Provisional Voters

### Voter Certificates

- Voter certificates were provided for all 46 names on the provisional numbered list of voters.
- The provisional section was completed by the voter and poll worker on 3 voter certificates.
- The provisional section was completed by the poll worker only on 39 voter certificates.
- The provisional section was not completed on 4 of the voter certificates provided.

### Provisional Ballot Analysis

- According to the provisional numbered list, 24 provisional ballots were accepted and 22 were rejected. The voter certificates and voter registration system were reviewed for all voters and the following was determined:

#### 19 Rejected

- 6 were voted by persons registered in other counties.
- 9 were not found in the voter registration system.
- 4 were voted by persons in delete status.

#### 24 Accepted

- 15 were registered in precinct SS22.
- 4 of the 15 voters were found on the supplemental list of voters for the precinct.
- 2 of the 15 voters were listed in the Express Poll used on Election Day.
- 9 of the 15 voters were entered after the Express Poll and supplement lists were generated. These voters were not available at the precinct.
- 8 voters were registered in other Fulton County precincts.

#### Additional Comments

- Three ballots were listed as rejected; however, the voters' registration was found in the registration system. Two voters were registered at different precincts. These ballots should have been duplicated and accepted. One voter was added to the registration system after the Express Poll and supplemental lists were generated. This ballot should have been accepted. Ballot envelopes were not provided for any of these voters. Two voters received credit for voting, one voter did not.

- One ballot was accepted for a voter that did not provided identification at the poll location. A report previously by Fulton County indicated no who voted a provisional ballot because they did not have ID returned to Fulton County with ID prior to the close of business the Friday following the elections.

#### Provisional Ballot Envelopes

- 41 provisional ballot envelopes were provided by Fulton County for review. 20 accepted and 21 rejected.
- Review of the envelopes indicated the ballots that were accepted and rejected were marked the same as the numbered list of provisional voters.

#### Potential Violations for Provisional Ballots:

O.C.G.A. 21-2-587(3) and (4) Frauds by poll officers  
 O.C.G.A. 21-2-562(a)(1) and (a)(2) Fraudulent entries  
 O.C.G.A. 21-2-418(a) Provisional ballots-allowing to be cast  
 O.C.G.A. 21-2-418(c) Provisional ballots-provisional voter registration application  
 O.C.G.A. 21-2-418(f) Give written information to provisional voters  
 O.C.G.A. 21-2-419(b) Securing provisional ballots  
 O.C.G.A. 21-2-419(d)(1) Notify rejected provisional voters in writing  
 O.C.G.A. 21-2-419(d)(2) Notify voters who voted out of precinct in writing  
 SEB 183-1-12.06(3) Providing adequate provisional ballots to precincts  
 SEB 183-1-12.06(4)(a) Checking master list of electors before voting provisional  
 SEB 183-1-12.06(4)(b) Checking with Registrar before voting provisionally  
 SEB 183-1-12.06(4)(c) Adding verified voters to precinct (using supplemental list)  
 SEB 183-1-12.06(4)(d) Sending to proper precinct  
 SEB 183-1-12.064(f) Completing provisional ballot certificate  
 SEB 183-1-12.06(4)(i) Completing complete ballot and paperwork  
 SEB 183-1-12.06(4)(j) Verifying paperwork is correct  
 SEB 183-1-12.06(7) Providing paperwork to provisional voter  
 SEB 183-1-12.06(9) Accounting for all provisional ballots and other documentation  
 SEB 183-1-12.06(10) Securing provisional ballots  
 SEB 183-1-12.06(12)(b) Duplicating provisional ballots  
 SEB 183-1-12.06(13)(a) Notifying rejected provisional voters  
 SEB 183-1-12.06(13)(b) Notifying voters who voted in wrong precinct in writing

#### Errors on Recap and Statement of Votes Cast

Of the 247 DRE and ExpressPoll Recap sheets submitted by Fulton County, there were 109 precincts forms that contained errors, omissions, and/or inaccuracies.

Common discrepancies included:

- DRE Recap sheets were not totaled
- The number of “voters marked” listed on the ExpressPoll Recap did not match the numbered list of voters pulled from the ExpressPoll
- Explanations for mis-matching numbers was not provided

- ExpressPoll count and DRE count of voters differed
- Recap sheets were not properly signed by all parties (managers)
- Provisional voters were listed as supplemental voters on the ExpressPoll recap sheet

The attached table identifies 19 of the worst examples of inaccurate reporting:

### Absentee Ballot System Execution Questions

There were three reports where voters (Katrina Keuller, Rodney Hovater, and Paula Hovater) reported they received more than one absentee ballot packages when they made their absentee ballot requests. These voters turned their additional ballots over to SOS investigators.

The following complaint, from a voter who is temporarily in New York appears to expose numerous flaws in the system and/or the execution of the system for requesting an absentee ballot in the general election (emphasis added C.H. :)

Sent: Sunday, December 09, 2012 11:53 PM  
To: Office of Secretary of State  
Subject: Web E-Mail From Rollie O. Buchanan

Question / Comment: Mr. Kemp,

The local, state and national elections of November 6, 2012 have passed. However I am submitting this complaint regarding my experience with absentee voting through Fulton County, which ultimately prevented me from voting due to no fault of my own.

Wednesday, October 3

I mailed my application for an official absentee ballot.

Approximately a week later, a colleague that submitted his after I did, indicated he had received and submitted his absentee ballot via Cobb County within a 10 day period. This seemed odd and caused me to question the status of my absentee ballot.

**Thursday, October 18**

I prepared a second application for mailing. However I wanted to talk with someone in the Fulton County office to ensure I was following the directions correctly, to ensure my opportunity to vote.

**Friday, October 19**

I called the general number and was transferred to a woman who checked my records. I indicated an application had been mail approximately three (3) week earlier, etc. She indicated there was no record of receipt of the absentee application, but to speed up the process, I could fax my second application instead of mailing it.

Given this information, I faxed it at 4:17 pm EST (as indicated by FAX confirmation) to 404.730.8839. My belief was that the absentee ballot would be in the mail by Monday or Tuesday, October 22 or 23, with arrival to my residence by Saturday, October 26, at the latest.

Nothing arrived on October 26, 28 or 29.

**Tuesday, October 30**

I called the main Fulton County office number and was transferred to a "Marcia", who served as coordinator for some aspect of the unit. I informed her that the FAX had been sent on October 19 but nothing had been received, even though I had a confirmation of delivery by fax.

Marcia indicated that I re-fax the form again. I told her I would within the hour and she gave me her direct line if I had any problems.

At 12:50 pm EST I re-faxed the application for an absentee ballot. I called her four (4) times that afternoon leaving messages and a number for a return phone call to confirm receipt of the document and mailing of the absentee ballot. I received no return phone call for the remainder of the day.

**Wednesday, October 31**

I called 1-2 more times first thing in the morning and left additional messages. At approximately 3:15 pm EST, "Marcia" returned my call.

While talking with her, **she indicated the faxes from October 30, 2012 had not been pulled up, but that she would do it while I was on the phone. I sat on the phone listening while she pulled it up, confirmed that it had been received and processed it for 5-10 minutes. Keep in mind this only happened while I was on the phone, after a previous conversation and several messages on October 30 and 31. "Marcia" indicated it was processed and would go out right away.**

Given the lateness of the day, I anticipated it would go out either later on October 31 or on November 1, with an arrival on November 3 or 6, at the latest.

When the ballot did not arrive on November 3, I began making plans to leave work early, to get home in time to fill it out and pay (at my expense) for overnight delivery to ensure its arrival by noon on November 6.

**Monday, November 5**

I rushed home early, through rush hour traffic with the idea that I would have to vote and get it to the post office before 5:00 pm EST to ensure pick-up for overnight delivery to Fulton County Election office.

***To my extreme disappointment, there was no ballot in the mailbox. I cannot express how disappointed I was; particularly after I did everything I could in a timely manner, yet the ball kept being dropped in Fulton County.***

This meant I would have no opportunity to vote after spending over a month with one (1) mailing, two (2) faxes and numerous conversations and messages with staff, particularly the one in charge of this process, "Marcia".

**Tuesday, November 6**

Out of disappointment and frustration, I contacted your office to express my frustration and asked if there was anything I could do.

I was informed that I was not the only one that had called and complained about this particular office and its handling of absentee ballot applications. I was then directed to this page to submit a complaint.

Later the same evening, I pulled my mail around 10:00 pm EST to find an absentee ballot. This reminded me of my earlier frustration. ***However what I found more upsetting was that after the fax was processed on October 31 while I was on the phone, according to the metered postmark, the absentee ballot was not mailed until November 2, This was a full two (2) days after my conversation with "Marcia".***

I did a search on the internet and found that this office has been under "investigation" for a number of reasons within the past few months. To find this out was rather disheartening, given that my opportunity to vote had been lost in what appeared to be their inability to perform their important duties for the public they serve.

I am asking that my case be investigated with some sort of resolution that is communicated back to me.

The problems illustrated in this complaint indicate a series of apparently admitted failures on Fulton County's Election staff to process absentee ballot applications efficiently. It took Herculean efforts for this voter to even get his ballot to him too late for him to vote the ballot. How many other voters, whose applications were not pulled from the FAX line, did not get their absentee ballots?

Another voter, this time overseas, requested his absentee ballot early. Here is his story (C.H. emails condensed and edited for spelling :)

Sent: Tuesday, January 15, 2013 4:31 PM  
To: Office of Secretary of State  
Subject: Web E-Mail from John L. Turbiville

Question / Comment: I would like to add my protest concerning the functioning of the Fulton County Voter Registration Office. I requested officially many months ago an absentee ballot, based on my former address in Atlanta (my last U.S. address before moving to Europe); with no response I sent an e-mail; still no response, I telephoned the office, and I was promised that the ballot would be sent. Still nothing. So, about 2 weeks before the Nov 6 election, I sent in a "Federal Write-in Ballot". Last week, I received a notice that my ballot was not counted because it arrived too late.

I first sent in the form for registration for absentee voting in February 2012, to confirm my previous registration (I have voted in Federal elections several times by absentee, always using my last U.S. address 28-28th St NW, Atlanta 30309).

In September, I believe, I sent an email to the office requesting my status, with no reply. In October I telephoned the office and the representative assured me that all was in order for my ballot. But the ballot was never received, and about two weeks before the Nov. election, I sent in the Federal write-in ballot. So I was surprised when the notice came that this was received in early January, too late to be counted. I have always found that mail in general between France and the U.S. is delivered within one week.

I found one name with who I was in contact at the Fulton County office; it was [brianna.alexander@fultoncountyga.gov](mailto:brianna.alexander@fultoncountyga.gov)

By telephone she told me that my registration was valid and that I would receive an absentee ballot, but it never happened.

Fulton County reported that the absentee ballot FAX line was checked every hour, but this does not appear to be accurate based on these complaints.

There were approximately twenty-three complaints about voters having problems getting or returning absentee ballots.

#### **Potential Violations in Absentee Ballot Problems:**

O.C.G.A. 21-2-381(b)(2)(A) Mailing absentee ballots failures (multiple times)

#### Election Training

Pamela Coman, Training Director for Fulton County Elections Office provided copies of training manuals and an explanation of the requirements for training.

She said that each poll worker get four hours of training (two hours online and two hours in person.)

Ms. Coman asked for and received specific answers from the Secretary of State's Office shortly before the General Election, and Ms. Coman said that she specifically trained the poll workers in all areas regarding provisional ballots and specifically with regards to provisional ballots and voter who were not found in ExpressPoll (checking the supplemental list.)

#### Pending Status Voters

As a result of letters sent to approximately 1,100 voters in June 2012 (the subject of SEB 2011-110), voters who were suspected of not having homes at addresses where they were registered had their voter registration status changed without any due process. These voters were expected to arrive at the polls and prove their residential address to the satisfaction of poll workers. If they were able to do so, they would be allowed to vote on DRE, and their status changed. If they were not able to provide proof, they would have to vote a provisional ballot.

On November 2, 2012, Sharon Mitchell informed the Secretary of State's Office, which had questioned the changing of voter status without due process, that Fulton County would not place such voters in "P" status.

Sharon Mitchell told investigators that all voters who had been placed in "Pending" status by Fulton County on October 26, 2012 had been restored to their regular voter registration status, prior to Election Day, but 626 voters *still* showed to be in status "Pending" as late as December 2012.

No voters were impacted as a result of a "P Status," and, therefore, there appears to be no violation.

#### Interview with Election Officials

On December 14, 2012, SOS Investigations staff interviewed Sharon Mitchell, Dwight Brower, Ralph Jones, and Pamela Coman in the presence of their attorney, David Walbert. The interview last approximately 1 ¾ hours and it covered a wide-ranging list of topics. The goal was to get a general picture of the events in the election and determine where the investigation needed to be focused. The overall tone of the election officials was that there were a few problems, mostly at the precinct level, but nothing systematic, major, or dramatic happened.

Condensed List of Violations in Fulton SEB 2012-156 [*italics indicate broad charges that may be applied to one or more situations*]

- 21-2-224(f) the official list of electors eligible to vote in any primary or election shall be prepared and completed at least five calendar day prior to the date of the primary of election in which the list is to be used. 734 voters
- 21-2-224(g) providing complete elector lists  
**[TWO PRECINCTS AFFECTED]**
- 21-2-226(a) It shall be the duty of the county board of registrars to determine the eligibility of each person applying to register to vote in such county.
- [21-2-226(b) *upon finding an elector eligible to vote in the county, the county board of registrars shall have the duty of determining and placing the elector in the proper districts*]

- 21-2-418(b) failure of the poll officials to ensure provisional voters completed a provisional ballot voting certificate which included information about the place, manner, and approximate date on which the person registered to vote. AT LEAST 600 VOTERS
- Rule 183-1-12-.06(4)(i) upon receiving authorization to vote a provisional ballot, the person shall complete a provisional ballot voter's certificate and an official voter registration form. AT LEAST 199 VOTERS
- 21-2-224 All persons whose names appear on the list of electors placed in the possession of the managers in each precinct and no others, except as otherwise provided in this article, shall be allowed to deposit their ballots according to law at the precinct in which they are registered. AT LEAST 215 VOTERS
- 21-2-418(b) the Fulton County Board of Registrars failed to make a good faith estimate to determine whether the persons casting the provisional ballots were entitled to vote AT LEAST 24 VOTERS  
**[24 VOTERS BALLOTS WERE REJECTED WHEN THEY SHOULD HAVE BEEN ACCEPTED]** 21-2-590(3) refuses to permit any duly registered and qualified person to vote at any primary or election, with the knowledge that such person is entitled to vote
- Rule 183-1-12-.06(4)(i) Before issuing the outer envelope to the person, the poll officers shall enter the person's name, the name of the precinct, the date and name of the election, and the ballot style on the outer envelope. AT LEAST 450 VOTERS
- 21-2-419(d)(1) the board of registrars shall notify in writing those persons whose provisional ballots were not counted that their ballots were not counted because of the inability of the registrars to verify that the persons timely registered to vote or other proper reason. AT LEAST 1200 VOTERS
- 21-2-418(b) such person voting a provisional ballot shall complete an official voter registration form SEVERAL THOUSAND VOTERS

### SEB 2012-56 July 31, 2012 General Primary Election

The July 31, 2012 General Primary in Fulton County was beset with numerous problems, some of which were systemic, and some were less systemic, but all were serious and problematic for Fulton County.

#### Districting and Ballot Errors

There were multiple areas in Fulton County where, upon redistricting the voters following the census, problems arose on Election Day.

In House District 62, an entire street, Chicory Cove, was incorrectly placed in House District 64.

In the Sandy Springs area there were approximately 350 people who were incorrectly listed as being in Senate District **56**, when they should have been listed as being in Senate District **6**. When redistricting was done, a number of addresses were not changed, causing those residents to appear to live in districts that offered candidates on the ballot that were not candidates for their residential district.

The Lang Carson Precinct (05A) (100 Flat Shoals Ave), experienced a similar problem. This precinct was a combined precinct for House Districts 58 and 59; however, every voter who appeared to vote was given a ballot that only applied to residents of HR 58. Many voters noticed this early in the day, and the Secretary of State's office started receiving numerous calls and emails. Poll managers seemed incapable of solving the problem and multiple people made calls to Fulton County Election Officials to try to get a person on the scene that could solve the problem. The response of the Fulton County Election Officials to calls for assistance was delayed and woeful. At 9:30, Fulton election officials told the poll workers how to create ballots for HD 59, but the poll workers had no way of knowing which district the voter lived in, unless the voter knew, and further, had no way to verify if the voter's declaration of House District was accurate. The workers were promised a map by 12:00 pm, but it was not until approximately 3:45 PM that an election official arrived with a map that was large enough to allow poll workers to determine which ballot a voter was supposed to get, based on their address. A volunteer who was at the precinct was able to identify at least 16 voters who got and voted the wrong ballot, and reported that there were more people with whom she did not speak. There is no way to determine how many voters either got the wrong ballot or were not able to vote because poll workers could not create proper cards until approximately 9:30 AM.

On Election Day, Sam Westmoreland when asked about the problem at the Lang Carson Precinct told a candidate that two streets not being districted properly caused the problem, although he could not identify *which* two streets were involved. In an interview with Fulton County election officials in December 2012, Dwight Brower said that, "about ten" streets were not properly districted and that was the cause of the problem. It is unknown how many voters cast their ballots in a race that was not for their district. An investigator from the Secretary of State's Office was at the precinct shortly after the problem was reported, and he described a citizen with a map trying to help determine to which districts voters' addresses corresponded. The delayed and inadequate response to the critical situation of voters not being able to cast the proper ballot on Election Day was notable.

It was also reported that House District 25 had districting errors as well. HD 25 is made up of precincts JC04 and JC03. The unopposed candidate received 293 votes in JC04 and 3 votes in JC14 (which was not near his district).

**Potential Violation:**

O.C.G.A. 21-2-226 Duty to place elector in proper district (multiple violations)

O.C.G.A. 21-2-596 Failure to perform duty

Dual Database of Voters

Once Fulton County realized that their districts were not correct, they made the choice to employ a "dual database" for the election. This essentially "froze" the election up to that point, during advanced voting, and then redistricted voters who had not yet voted. Of course, the redistricting was not done properly at that time either as was evidenced by the previous portion of this report. The problem with a dual database is that, while it seems like a quick solution at the time, creating a dual database creates two complete, separate sets of election results that must be manually calculated and entered into the

GEMS server. While this sounds simple, it is not as simple as adding two numbers and getting the total (*before* plus *after*=total.) There are thousands of individual results that must be entered, and thousands of computations to be done, and the entry can only be done on a single GEMS server, by one person at a time.

Fulton County displayed results in a way that was confusing to the public. They initially showed only the Election Day database (database #2) as their final results. Then, when they completed their second database, they displayed the *combined total* as being only database #1. At least one candidate thought that this was a manipulation of votes by Fulton County.

#### Delays in Counting Votes and not certifying the Election in Time

Largely as a result of working with a dual-database in the Primary Election, Fulton County was not able to complete the tabulation and certification of the election results by the deadline required by the law. Fulton County certified their results approximately one hour after the deadline (Monday, August 6, 2012 at 5:00 pm.)

#### **Potential Violation:**

O.C.G.A. 21-2-493(k) Failing to certifying election by 5:00 PM on the Monday after the election

#### Absentee Ballot Complaints

Glenda Heyer, when requesting an absentee ballot for her son, *got the wrong absentee ballot three times* (two Republican and one non-Partisan.) Her son was not able to vote.

#### **Potential Violation:**

O.C.G.A. 21-2-384(2)

#### Early Opening and Tabulating of Absentee Ballots

Fulton County started opening and tabulating absentee ballots on Monday, July 30, 2012, a full 24 hours before the code allows early opening and counting. People involved were not sequestered Monday, except during working hours.

#### **Potential Violation:**

O.C.G.A. 21-2-386(G)(3) Early opening and tabulation of absentee ballots

#### Not Getting Ballot of Choice

Wheat Street Towers Precinct, at least two voters were told that they must either pick Republican or Democrat ballots, and could not get a non-partisan ballot. Voters had no choice but to pick what was offered to them.

#### **Potential Violation:**

O.C.G.A 21-2-431(a) Not getting proper ballot

SEB Rule 183-1-12(4)(b) Not getting appropriate ballot

#### Polls Not Opening on Time

James Orange Park Precinct was not open until approximately 7:30 AM; however, the cause was that the site key-holder had car trouble. At least one voter had to leave before the precinct opened and could not vote.

#### Poll Closing Prematurely

East Point Library-A voter arrived at 6:55 PM, and was told the polls were closed. The voter started back to her car. Apparently, the voters were able to convince poll workers that it was 6:55 PM, and they opened the doors, but by the time the complaining voter got back to the door, she was told that now the polls were closed, even though she had been in line with the other voters disputing the closing time.

#### **Potential Violation:**

O.C.G.A. 21-2-403 Polls closing before 7:00 PM

#### Outrageous Results

Precinct 1C2 showed 233 ballots cast with a turn-out of 23,300%. This was as a result of a redistricting error that placed all of the voters in one precinct in the same district when they should have been distributed among two districts. This was a reporting error, which may have impacted the credibility of the reporting, but did not affect any results.

#### DRE Malfunctioning and Manager Casting Voter's Ballot

Mr. John Mattox, who voted at 10M (Tennis Center), reported that his ballot, as reflected by the DRE did not show him, having selected a candidate for sheriff, when he said he previously selected a candidate. He called a poll worker to his station, and she reviewed his ballot and he tried again. He selected his candidate, but when the DRE got to the summary page which showed which candidates he selected, there was no "x" on the sheriff candidate. He said the poll manager cast his ballot by pressing the button herself, and told him he was done. He was dismayed that the DRE unit was left in use.

Subsequent investigation determined that there was insufficient evidence to sustain a violation of election law.

### **Violations SEB2012-056 Fulton County Primary Election**

**Allegation:** 60 voters were assigned the incorrect precinct during the July 31, 2012 Primary Election

- **Violation 21-2-226(b)** upon finding an elector eligible to vote in the county, the county board of registrars shall have the duty of determining and placing the elector in the proper districts and precinct.

**Allegation:** Fulton County Elections failed to certify the July 31, 2012 Primary Election by the deadline – Election results were certified at 6:30 pm, Monday November 12, 2012; 1 ½ hours after the deadline

- **Violation 21-2-493(k)** returns shall be certified by the superintendent not later than 5:00 pm on the Monday following the date on which such election was held.

**Allegation:** Fulton County opened absentee ballots the Monday prior to the July 31, 2012 Election – absentee ballots were opened and scanned on the Monday prior to the election

- **Violation 21-2-386(a)(3)** a county, at his or her discretion, after 7:00 am on the day of the primary, election, or runoff open the inner envelopes.
- **21-2-386(a)(5)** no absentee ballots shall be tabulated before 7:00 am on the day of a primary, election, or runoff.

### **SEB 2011-110 Demolished Residences**

This case involves a complaint that was brought by a complainant who reported that there were at least 1,300 people registered to vote in Fulton County, however, the homes where these registered voters claimed residency, no longer existed. The complainant provided specific names and addresses along with photographs that apparently showed that listed addresses contained only empty lots with no structures. Preliminary investigation indicated that many of the addresses referred by the complainant did appear to show vacant lots while voters still used that address as a registered address for voting. There was concern that people who might have moved out of their districts were still registered to vote and were voting in Fulton County Elections.

A previous SEB case (2009-62) investigated allegations that voters had done just that in the 2009 City of Atlanta Municipal Election.

Examination of O.C.G.A. § 21-2-218 indicated that while this situation was odd on its face, the registration of a voter who moves his residence is affected differently depending on whether the voter leaves the district, or municipality, county, or state. Paragraph (d) states that a voter who moves to a different address within the county or municipality, but fails to notify the registrar by the fifth Monday before an election, “shall vote in the precinct of such elector’s former residence for such election...” Then, paragraph (e) of this code section states a voter, “who moves from one county or municipality to another after the fifth Monday prior to a primary or election may vote in the county or municipality or precinct in which such elector is registered to vote.”

It was also unknown when these electors moved and/or if they moved to a different county or municipality. It was also unknown if the voters intended to return to these addresses and were living temporarily at another location, while intending to retain their residency as allowed under O.C.G.A. § 21-2-217(a)(2).

In May, 2012 I met personally with Fulton County Elections Director, Samuel Westmoreland, in Savannah to discuss this issue with him. At the time, I believed that Fulton County was not aware of the allegation or set of circumstances. I gave Mr. Westmoreland a very brief synopsis of the allegations. I was surprised to hear him respond that his office was already aware of the situation and that they were already working on it. He then volunteered that he had found [paraphrased] “elements in the office that were corrupt and/or covering the situation up.” I told him that I was very interested in working with him and Fulton County in addressing the issues. Mr. Westmoreland then said that he would rather not discuss the matter further in public (we were in the lobby of the hotel where the SEB Meeting was taking place). I offered to come to his office the following week, and he immediately said that he did want me there, but he would come to my office instead. After not hearing from him during the following

week, I called him, and he made another cryptic comment along the lines of, "People in my office don't want this dealt with." I told him that he could not mention knowledge of corruption and cover-up, and then simply drop the matter. He said that he would meet with me, "off campus" at a Starbucks, and that he would call me to arrange the meeting. I did not receive return calls, nor hear from Mr. Westmoreland again.

[At this point, this case connects to the November General Election]

In June, 2012, Fulton County sent approximately 2,400 letters to voters. The letters were challenges to each registered voters registration status. A hearing date was set for June 14, 2012. Fulton County officials believed these voters did not have homes where they were registered to vote. What Fulton County officials did not know was that some of the addresses had been rebuilt and occupied and/or were never razed in the first place. The AJC did a story about voters who were informed that they did not live where they were registered when; in fact they did live where they were registered to vote. Fulton County sent out another letter to the 2,400 voters and essentially dropped the matter, for the time being. Fulton County has not formally challenged these voters as far as we know.

At some point shortly before the November 6, 2012 General Election, Fulton County decided to place approximately 1,100 registered voters, who were suspected of not having homes at their registered addresses, in a voter registrations status of "P" (for Pending.) It was Fulton County's intent to use this to identify such voters and require them to complete a change of address form. It is unknown whether the plan was to allow the voters to vote on a DRE, provisionally, or at all, however, an email from Sharon Mitchell to Linda Ford suggests that the plan was to not allow these voters to vote on a DRE, since their names, apparently, would not appear on the ExpressPoll in this "P" status. In an interview with Sharon Mitchell in December 2012, Ms. Mitchell said that no voters were actually ever placed in a "P" status. Sharon Mitchell intended the "P" to be a "flag" for election officials to clarify residential address, however, a "P" status would have prevented the voter's name from appearing on the ExpressPoll and there is a very high probability that they would not be allowed to vote on a DRE. There were 636 voters in "P" status in Fulton County on Election Day, November 6, 2012.

It does not appear the Fulton County has decided if or how to handle these registered voters, though there was a mention of holding hearings on the voters.

It is also unknown if there was some person or persons in the Fulton County Election Office who was attempting to either keep people as registered voter while having knowledge that they might be ineligible, or oppositely, trying to interfere with the rights of registered voters.

### Conclusions

These multiple failures seem to be linked to poor planning, insufficient training, poor communication, and poor decision-making.

Perhaps most troubling is the apparent utter disregard for the security and integrity of practically the entirety of the provisional ballot process.

Almost 10,000 votes were essentially un-documented or under-documented and under-secured.

The lack of accountability with provisional ballots calls every provisional ballot into question, and at approximately 9,600 ballots, that is not an insignificant number of votes.

It is not a far leap to move from incompetence to genuine election fraud when lists of voters are being altered, and fictitious reports of counting ballots are made, and documentation is so haphazard that seven provisional ballots that appear to be from the same voter are accepted.

It should be noted that even a cursory exploration of other election documents from the 2012 General Election (DRE Recap sheets, supplemental voter lists, and provisional ballot documents, to name a few) show a similar pattern of incompleteness, inaccuracy. Were an exhaustive, point-by-point examination of every precinct be made, the numbers of violations would likely increase exponentially.

Rachell,

Steve suggested I communicate with you directly regarding the new typeset of the GA SOS SEB Rule Book. It is attached to this email.

I have a few questions to ask you. If you could please call me at your convenience after reviewing the book.

Mindy

## ADMINISTRATIVE HISTORY

The **Administrative History** following each Rule gives the date on which the Rule was originally filed and its effective date, as well as the date on which any amendment or repeal was filed and its effective date. Principal abbreviations used in the Administrative History are as follows:

- f. — filed
- eff. — effective
- R. — Rule (Abbreviated only at the beginning of the control number)
- Ch. — Chapter (Abbreviated only at the beginning of the control number)
- ER. — Emergency Rule
- Rev. — Revised

**Note: Emergency Rules** are listed in each Rule's Administrative History by Emergency Rule number, date filed and effective date. The Emergency Rule will be in effect for 120 days or until the effective date of a permanent Ride covering the same subject matter superseding this Emergency Rule is adopted, as specified by the Agency.

Chapters 183-6 entitled "Registration of Electors", 183-7 entitled "Election Districts and Polling Places", 183-12-1 entitled "Voting Machines", 183-12-2 entitled "Vote Recorders", 183-13 entitled "Preparation for and Conduct of Primaries and Elections", and 183-14 entitled "Absentee Voting" have been adopted. The following Chapters are reserved: 183-1 to 183-5, 183-8 to 183-11, 183-15 to 183-36. Filed July 24, 1968; effective August 12, 1968.

Rules 183-6-.01, .02, 183-12-2-.04 and .05 have been amended. Rules 183-6-.03 and 183-13-.01 have been repealed. Filed August 5, 1969; effective August 24, 1969.

Rules 183-12-2-.04, .08 and 183-14-.02 have been repealed and new Rules adopted. Rules 183-13-.03 to .05 have been adopted. Chapter 183-15 entitled "Returns of Primaries and Elections" has been adopted. Filed May 26, 1970; effective June 14, 1970.

Chapters 183-24 entitled "Poll Officers", 183-25 entitled "Registration of Electors", 183-26 entitled "Election Districts or Precincts and Polling Places", and 183-27 entitled "Dates of Primaries

and Elections”, 183-31-1 entitled “Voting Machines”, 183-31-2 entitled “Vote Recorders”, 183-32 entitled “Preparation For and Conduct of Primaries and Elections”, and 183-33 entitled “Absentee Voting” have been adopted. Filed August 30, 1973; effective September 19, 1973.

Rules 183-6-.01, 183-14-.01 and .02 have been repealed and new Rules adopted. Rules 183-7-.01 and 183-15-.01 have been amended. Chapter 183-8 entitled “Dates of Primaries and Elections” has been adopted. Filed June 24, 1974; effective July 14, 1974.

Rules 183-6-.01, 183-13-.02, and 183-33-.01 have been repealed. Rules 183-12-2-.06, .07, 183-14-.01, 183-15-.01, 183-33-.02 have been amended. Chapters 183-1 to 183-11, 183-12-1, 183-12-2, 183-13 to 183-20 have been renumbered to 183-1-1 to 183-1-20 by Certification. Chapters 183-21 to 183-31, 183-31-1, 183-31-2 and 183-32 to 183-36 have been renumbered to 183-2-1 to 183-2-16 by Certification. All Rules of said Chapters have been renumbered. Filed October 20, 1975; effective November 9, 1975.

Emergency Rules 183-1-6-0.1-.01 and 183-2-5-0.2-.02 adopted. Filed May 20, 1982; effective May 17, 1982, the date of adoption, to be in effect for 120 days or until the effective date of permanent Rules covering the same subject matter superseding these Emergency Rules are adopted, as specified by the Agency. These Emergency Rules were adopted to prevent voter irregularities in the upcoming elections. (These Emergency Rules will not be published; copies may be obtained from the Agency.)

Rules 183-1-6-.01 and 183-2-5-.02 have been adopted. Filed March 29, 1983; effective April 18, 1983.

Rule 183-1-6-.03 has been adopted. Filed January 22, 1985; effective February 11, 1985.

Rule 183-1-6-.04 has been adopted. Filed August 1, 1986; effective August 21, 1986.

Rule 183-1-6-.04 has been amended. Filed September 18, 1986; effective October 8, 1986.

Chapter 183-1-11 entitled “Ballots” has been adopted. Rule 183-1-12-.10 has been adopted. Filed November 14, 1986; effective December 4, 1986.

Rule 183-1-6-.01 has been repealed. Rules 183-1-6-.02, 183-1-12-.03, .05 to .09, 183-1-13-.03 to .05, 183-1-14-.01, 183-1-15-.01 have been amended. Rule 183-1-7-.01 has been repealed and a new Rule adopted. Filed March 6, 1987; effective March 26, 1987.

Rule 183-1-6-.03 has been amended. Filed January 21, 1988; effective February 10, 1988.

Rule 183-1-6-.03 has been amended. Filed April 10, 1989; effective April 30, 1989.

Rule 183-1-6-.05 has been adopted, Rules 183-1-13-.03, .05 and 183-1-14-.01 have been amended. Filed February 17, 1992; effective March 9, 1992.

Rules 183-1-12-.01 and .02 have been repealed and new Rules adopted. Filed August 30, 2002; effective September 19, 2002. Rule 183-1-12-.06 has been repealed and a new Rule adopted. Filed October 18, 2002; effective November 7, 2002.

Rules 183-1-12-.01, .02, and 183-1-14-.01 have been amended. Rule 183-1-12-.06 has been repealed and a new Rule adopted. Rules 183-1-14-.02, .03 and 183-1-15-.02 have been adopted. Filed October 24, 2003; effective November 13, 2003.

Rules 183-1-6-.02, 183-1-12-.05, .07 to .09, 183-1-15-.01, 183-2-4-.01, 183-2-5-.01, .02, 183-2-6-.01, 183-2-7-.01, 183-2-11-.02 to .09, 183-2-12-.02 to .05, and 183-2-13-.02 have been repealed. Rules 183-1-6-.03 to .05, 183-M2-.03, 183-1-13-.03 to .05 have been amended. Filed December 11, 2003; effective December 31, 2003. Rule 183-1-12-.02 has been amended. Filed May 11, 2004; effective May 31, 2004.

Emergency Rules 183-1-6-0.3-.06, 183-1-12-0.4-.02, and 183-1-14-0.5-.04 adopted. Filed September 10, 2004; effective September 9, 2004, the date of adoption, to be in effect for 120 days or until the effective date of a permanent Rule covering the same subject matter superseding this Emergency rule is adopted, as specified by the Agency. This Emergency Rule was adopted to prevent confidential information being used for fraudulent purposes (Emergency Rule 183-1-6-0.3-.06), voter fraud related to the counting of absentee ballots

(Emergency Rule 183-1-12-0.4-.02, voter coercion or intimidation occurring during the absentee voting period (Emergency Rule 183-1-14-0.5-.04). (This Emergency Rule will not be published; copies may be obtained from the Agency.)

Rules 183-1-12-.06 has been amended. Rules 183-1-14-.04 and .05 have been adopted. Filed December 21, 2005; effective January 10, 2006.

Rules 183-1-6-.03 and 183-1-12-.02 have been amended. Chapter 183-1-19 entitled “Penalties” has been adopted. Filed December 28, 2005; effective January 17, 2006.

Rule 183-1-12-.07 has been adopted. Filed March 8, 2006; effective March 28, 2006.

Rule 183-1-6-.03 has been amended, Filed May 30, 2006; effective June 19, 2006.

Chapter 183-1-20 entitled “Georgia Voter Identification Card” has been adopted. Filed June 19, 2006; effective July 9, 2006.

Chapter 183-1-1 entitled “Preliminary Provisions” has been adopted. Filed February 22, 2008; effective March 13, 2008.

Rules 183-1-6-.01, .02, 183-1-14-.06, .07, .09 and .10 have been adopted. Rules 183-1-6-.03 and 183-1-12-.02 have been repealed and new Rules adopted. Chapter 183-1-10 entitled “Nomination of Candidates” has been adopted. Filed October 29, 2009; effective November 18, 2009.

Rules 183-1-6-.06 and 183-1-14-.08 have been adopted. Filed December 15, 2009; effective January 4, 2010.

Rule 183-1-11-.02 has been adopted. Filed March 3, 2010; effective March 23, 2010.

Rules 183-1-12-.02, .06, and 183-1-14-.04 have been repealed, and new Rules adopted. Rule 183-1-14-.01 has been amended. Filed March 17, 2011; effective April 6, 2011.

Rule 183-1-12-.06 has been repealed and a new Rule adopted. Rule 183-1-14.11 has been adopted. Filed May 27, 2011; effective June 16, 2011.

<b>183-1-1-.01</b>	<b>Procedure to Petition for Adoption of Rules</b>	<b>183-1-1-.02</b>	<b>Review of Initial Decisions</b>
--------------------	--	--------------------	------------------------------------

**183-1-1-.01 Procedure to Petition for Adoption of Rules.**

(1) Interested persons may petition the State Election Board requesting the promulgation, amendment, or repeal of a rule, Such petition should be in the form of a letter addressed to the Board setting forth the language of the proposed rule, amendment, or repeal, and, where applicable, the language of the rule sought to be amended or repealed.

(2) Any interested person desiring to petition the Board requesting the promulgation, amendment, or repeal of a rule shall submit three copies of the petition, in writing, by certified or registered mail, to the Chairperson of the State Election Board, 2 Martin Luther King, Jr. Drive, S.E., Suite 1104, West Tower, Atlanta, Georgia 30334-9000.

(3) Each petition for the promulgation, amendment, or repeal of a rule made pursuant to the Georgia Administrative Procedures Act should be verified under oath, or in proper behalf of, the petitioner and shall contain:

- (a) The name and post office address of the petitioner;
- (b) The full text of the rule requested to be amended or repealed, or the full text of the rule desired to be promulgated;
- (c) The reason(s) such rule should be amended, repealed, or promulgated;
- (d) Any and all pertinent existing facts as to the petitioner's interest in the matter;

(e) Any and all facts known to the petitioner which might influence the decision of the Board to initiate or not initiate rulemaking, including identification of any parties who it is known will or may be affected by the amended, repealed, or promulgated rule; and

(f) Citations of legal authorities, if any, which authorize, support, or require the action requested by the petitioner.

(4) Within thirty (30) days after submission of a petition for the promulgation, amendment, or repeal of a rule or at the next regularly-scheduled meeting of the State Election Board, the Board shall decide upon the action to be taken. The Board shall not be forced to call a special meeting in order to address such a petition. If such a petition is received less than twenty (20) days before a regularly-scheduled meeting, the Board may vote to address the petition at its next regularly-scheduled meeting. Within ten (10) days after addressing the petition, the Board shall inform the petitioner by mail of the decision reached, and shall either decline to take the action requested, stating its reasons for so declining, or shall initiate rulemaking proceedings in accordance with the Georgia Administrative Procedures Act.

Authority O.C.G.A. Sees. 50-13-3, 50-13-17. **History.** Original Rule entitled "Procedure to Petition for Adoption of Rules" adopted. F. Feb. 22, 2006; eff. Mar. 13, 2008.

**183-1-1-.02 Review of Initial Decisions.** The State Election Board (the "Board") does not routinely preside at the reception of the evidence in contested cases before it and typically refers these cases to the Office of State Administrative Hearings ("OSAH"). After receiving the evidence, an OSAH hearing officer may issue an initial decision in such a contested case more than thirty (30) days before the next regularly-scheduled meeting of the Board. On those occasions where the hearing officer issues an initial decision more than thirty (30) days before the Board's next regularly-scheduled meeting, the period of time in which the Board shall render a final decision shall be extended until the date of the next regularly-scheduled meeting of the Board.

Authority O.C.G.A. Sees. 50-13-3, 50-13-17. **History.** Original Rule entitled "Review of Initial Decisions" adopted. F. Feb. 22, 2008; eff. Mar. 13, 2008.

**188-1-6-.01 Acceptance of Voter Registration Applications.**

(1) The board of registrars shall, as of the date received, date stamp all voter registration applications delivered by hand to the board or otherwise received when the application does not have a date stamp affixed by the Secretary of State or a postmark affixed by the United States Postal Service or when the postmark affixed by the United States Postal Service is illegible or bears no date. In any such instance, a voter registration application shall be deemed to have been made as of the date stamp affixed to such application by the board of registrars that receives such application and shall be processed in accordance with subsection (c) of O.C.G.A. Section 21-2-224.

(2) Any application of a person who is a resident of a county in this State that is delivered to the board of registrars of another county through mistake, inadvertence, neglect, or otherwise that does not have a date stamp affixed by the Secretary of State or a postmark affixed by the United States Postal Service or when the postmark affixed by the United States Postal Service is illegible or bears no date shall be date stamped by the receiving board of registrars and shall be forwarded as soon as possible and, in any event, not later than seven days after receipt of the application to the correct board of registrars by the receiving county. In any such instance, a voter registration application shall be deemed to have been made as of the date stamp affixed to such application by the board of registrars that originally receives such application and shall be processed by the correct board

of registrars in accordance with subsection (c) of O.C.G.A. Section 21-2-224.

Authority O.C.G.A. Secs. 21-2-31, 21-2-224. **History.** Original Rule entitled "Special Registration for New (30 day) Residents" adopted. F. July 24, 1968; eff. Aug. 12, 1968. **Amended:** F. Mar. 26, 1987. **Amended:** New Rule entitled "Acceptance of Voter Registration Applications" adopted. F. Oct. 29, 2009; eff. Nov. 18, 2009.

## 183-1-6-.02 Rules for Voter Registration by Private Entities.

(1) **Intent and Purpose.** These rules are promulgated pursuant to the authority granted to the State Election Board by Georgia Laws 1984, p. 1430, (O.C.G.A. Section 21-2-215(f)) and by Georgia Laws 1968, p. 862, (O.C.G.A. Section 21-2-31). It is the intent and purpose of the State Election Board to establish reasonable, necessary, and uniform rules and regulations to carry out the responsibilities of the State of Georgia with respect to the registration of voters in Georgia.

For the benefit and protection of those citizens who choose to entrust their completed voter registration applications to private entities and for the benefit and protection of the public and the fair administration of the electoral process, the State Election Board has promulgated these rules for voter registration by private entities. The State Election Board, within the parameters of the law, has taken care to make voter registration in Georgia as convenient and easy as practicable while retaining the necessary controls to prevent abuse of the system and fraud in the elective process. To this end, the State Election Board has promulgated these rules and regulations.

(2) **Definitions.** As used in this rule, unless otherwise noted, the term:

(a) "Close of registration" means the last day for the registration of voters in a primary or general election, as provided by law.

(b) "Private entity" means an individual who is not acting in an official capacity as a registrar or deputy registrar, or a non-governmental organization or other non-governmental entity that utilizes individuals other than registrars or deputy registrars to conduct voter registration programs.

(c) “Voter registration programs” means the distribution or collection of voter registration applications.

### **(3) Acceptance of Mail Voter Registration Applications.**

(a) A voter registration application postmarked or received by the Secretary of State or a registrar or deputy registrar within the time frames provided by law for the registration of electors shall be processed without regard to whether such application was received by mail or otherwise, was submitted singularly or bundled with other voter registration applications, or was submitted by a private entity. No board of registrars shall reject or refuse to process a voter registration application solely on the basis of how or by whom it was submitted.

(b) Any mail voter registration application received from a private entity (other than from an individual delivering his or her own application to a state or local election official in person) shall be processed in the same manner as an application received by mail, regardless of the manner in which such application was actually delivered.

(c) Nothing in this rule shall be construed to prohibit or in any manner restrict the right of any board of registrars or other authority from investigating and addressing suspected instances of voter registration fraud or to challenge, examine, verify, or determine the validity of voter registration applications or the qualifications and eligibility of persons applying to register to vote.

**(4) Voter Registration Activities of Private Entities.** Nothing in this rule shall be construed to prevent private entities from conducting organized voter registration programs and assisting eligible citizens with voter registration as permitted by state or federal law, including the distribution, collection, and transmittal of mail voter registration applications to the appropriate board of registrars.

### **(5) Instruction and Training of Private Entities.**

(a) Instruction and training for private entity voter registration activities pursuant to this rule shall be offered by the board of registrars. Training requests by private entities shall be made in

writing to the board of registrars. The board of registrars shall respond in writing to such requests with a training confirmation, including the date, time, and location such training will take place.

(b) At a minimum, training shall be provided to each private entity who requests such training on:

1. How to complete the voter registration application designed, published, and distributed by the Secretary of State in accordance with O.C.G.A. Section 21-2-223;

2. The proper security of completed voter registration applications;

3. The time frames within which completed voter registration applications are required to be transmitted to the appropriate board of registrars;

4. The identification requirements to be included with completed voter registration applications;

5. The identification requirements for voting at polling places within the state and the requirements for persons who registered to vote for the first time by mail; and

6. The required and prohibited activities of private entities as set forth in paragraphs (6) and (7) of this rule.

(c) The Secretary of State may develop and provide to the boards of registrars manuals for this instruction. The Secretary of State may also make such manuals available to the public, including via electronic means on the Secretary of State's website. Until such time as the Secretary of State develops such manuals, boards of registrars shall utilize such materials as will meet the training requirements of this rule.

**(6) Required Activities.** While engaging in organized voter registration activity within this state, a private entity shall:

(a) Advise each applicant that such applicant has the option to return his or her voter registration application personally to the appropriate board of registrars or to the Secretary of State or to permit the private entity to return it on the applicant's behalf;

(b) Inform all applicants that they are not officially registered to vote until their eligibility has been determined by the appropriate board of registrars and that, if the applicant has not received notification of the disposition of the application within three to four weeks of submitting the application, the applicant should contact the appropriate board of registrars to determine if such applicant's eligibility has been determined and the applicant's name entered on the official list of electors;

(c) Inform all applicants that, if they are registering to vote for the first time in the jurisdiction by mail or through a private entity, they must present current and valid identification either when registering to vote by mail or through a private entity or when voting for the first time after registering to vote by mail or through a private entity;

(d) Inform all Georgia applicants of the availability of an online registration status check and polling place locator service on the Secretary of State's website and encourage all applicants to access it in advance of a primary or election day to verify their registration status and correct polling place; and

(e) Inform all applicants of their right, under certain circumstances, to cast a provisional ballot in the event that their names do not appear on the official list of electors at the polls.

For purposes of compliance with the notice provisions provided in this paragraph, it shall be sufficient for the private entity either to post such notices in a conspicuous location at any fixed registration site or to provide such notices in written form to the applicant in a brochure, flyer, or other similar manner at the time of application. The Secretary of State may design and make available to private entities an appropriate model form that includes all required notices pursuant to this paragraph.

**(7) Prohibited Activities.** While engaging in voter registration programs within Georgia, a private entity shall not:

(a) Represent to any person that the private entity is a representative of the Secretary of State or a board of registrars authorized by law to receive voter registration applications in person;

(b) Make any statement to an applicant or take any action that the private entity knows or reasonably should know would discourage a qualified applicant from registering to vote;

(c) Refuse to accept and transmit a properly completed and contemporaneously dated voter registration application from any qualified individual;

(d) Be inebriated or otherwise impaired by drugs, alcohol, or other substances;

(e) Conduct voter registration activities at locations where the private entity knows that illegal or criminal activities are being conducted;

(f) Accept a completed registration application from the applicant unless such application has been sealed by the application, without a signed acknowledgement from the applicant that the applicant willingly and knowingly provided the unsealed application to the private entity;

(g) Copy a completed registration application without the express, written permission of the applicant; or

(h) Conduct voter registration activities in places where alcoholic beverages are sold and consumed on the same premises.

#### **(8) Transmittal of Completed Voter Registration Applications.**

(a) A private entity shall promptly transmit all completed voter registration applications to the Secretary of State or the appropriate board of registrars within ten days after receiving the application or by the close of registration, whichever period is earlier. If a private entity receives a completed voter registration application fourteen days or less before the close of registration, the private entity should transmit the application to the Secretary of State or the appropriate board of registrars within seventy-two hours of the date of the execution of the application or by midnight on the close of registration, whichever period is earlier.

(b) Transmittal of completed voter registration applications may be accomplished by in-person delivery, mail, commercial courier,

statutory overnight delivery, or any other form of delivery that is reasonably calculated to secure and ensure the confidential delivery and receipt of such applications by the Secretary of State or the appropriate board of registrars within three business days after transmittal and within the time frames required by these rules and regulations and state and federal law.

(c) With each transmittal of completed voter registration applications, a private entity should include a transmittal summary sheet which, at a minimum, provides the name of the submitting individual, the name of the private entity sponsoring the voter registration programs (if different than the submitting individual), the physical residence or business address of the submitting individual, the daytime and evening telephone numbers of the submitting individual, and the total number of applications being submitted. The Secretary of State may design and make available to private entities a model transmittal summary sheet containing the information requested in this subparagraph. The failure to include the transmittal summary sheet shall not by itself be grounds for rejecting the submitted applications. The private entity may enclose a postage-prepaid, self-addressed envelope, along with a copy of the completed transmittal summary sheet, if the private entity desires a date stamped receipt of the transmittal summary sheet from the board of registrars, in which case the board of registrars shall promptly acknowledge such receipt by returning a date stamped copy of the transmittal summary sheet to the private entity.

### **(9) Confidentiality of Completed Voter Registration Applications.**

(a) A private entity shall keep all completed original voter registration applications in the possession of the private entity in a secure and confidential manner at all times until such applications are submitted to the Secretary of State or the appropriate board of registrars. Except as otherwise provided in this rule, a private entity shall not disclose any such applications or information contained therein, except as specifically provided in these rules and regulations to any member of the public. A private entity may collaborate with another affiliated private entity in the securing of completed original voter registration applications that are received during the course of a jointly organized voter registration program.

(b) With the express, written consent of the applicant, a private entity may make archival copies of an applicant's original voter registration application and retain such archival copies for use in aiding the applicant with verifying the timely and proper receipt and processing of his/her application by the applicable board of registrars. A private entity may engage the services of a commercial copying or document management service to make such archival copies provided that the company agrees to maintain the confidentiality and security of the original applications and any copies of the applications in the same manner as is required by private entities pursuant this rule.

(c) A private entity shall keep any such archival copies in a secure and confidential manner at all times and shall not disclose any such archival copies to any member of the public; provided, how-ever, that a private entity may disclose such archival copies to another affiliated private entity as necessary for use in aiding the applicant with verifying the timely and proper receipt and processing of his/her application by the applicable board of registrars. Archival copies of completed voter registration applications must be discarded by the private entity not later than 90 days following the transmittal of the completed voter registration application to the Secretary of State or board of registrars. Whenever such archival copies are discarded by the private entity, they must be discarded in the manner contemplated by O.C.G.A. § 10-15-2 for the destruction by businesses of records containing personal information.

(d) A private entity may create and keep a separate record of any information contained on the applicant's voter registration application that could otherwise be made available for public inspection pursuant to O.C.G.A. § 21-2-225(b) if collected and maintained by the Secretary of State on the official list of electors. No such information may be used by the private entity or any other person for commercial purposes. Whenever such information is discarded by the private entity, it must be discarded in the manner contemplated by O.C.G.A. § 10-15-2 for the destruction by businesses of records containing personal information.

Authority O.C.G.A. Sec. 21-2-91. **History.** Original Rule entitled "Duplicate Voting, Procedure for Checking" adopted. F. July 24, 1968, eff. Aug. 12, 1968. **Amended:** F. Aug. 5, 1969; eff. Aug. 24, 1969. **Amended:** F. Mar. 6, 1987; eff. Mar. 26, 1987. **Repealed:** F. Dec. 11, 2003; eff. Dec. 31, 2003. **Amended:** New Rule entitled "Rules for Voter Registration by Private Entities" adopted. F. Oct. 29, 2009; eff. Nov. 18, 2009.

**183-1-6-.03 Rules and Regulations for Voter Registration by Registrars and Deputy Registrars.****(1) Intent and Purpose.**

(a) These rules are promulgated pursuant to the authority granted the State Election Board by Georgia Laws 1984, p. 1430, (O.C.G.A. Section 21-2-215(0) and by Georgia Laws 1968, p. 862, (O.C.G.A. Section 21-2-31). It is the intent of the State Election Board to increase the level of participation in the elective process in the State of Georgia by encouraging the registration of voters within the State. It is the intent and purpose of the State Election Board, within the parameters of the law, to make voter registration in Georgia as convenient and as easy as practicable while retaining the necessary controls to prevent abuse of the system and fraud in the elective process. To this end, the State Election Board has promulgated these rules and regulations.

(b) Nothing in this rule shall be construed to prohibit any voter registration activity that is permitted pursuant to the National Voter Registration Act of 1993, 42 U.S.C. §§ 1973gg et seq., or any other federal or state law or regulation.

(c) Rules and regulations governing voter registration by private entities are provided in a separately numbered rule within this Chapter.

**(2) Criteria for Appointment of Deputy Registrars.** The board of registrars in each county may appoint deputy registrars to aid them in the discharge of their duties. The number of deputy registrars appointed to serve shall be determined by the board of registrars.

(a) Deputy registrars appointed by each county board of registrars shall meet the following qualifications:

1. be a registered voter in the State of Georgia;
2. be able to read, write and speak the English language;
3. have legible handwriting unless the voter registration applications are to be completed by typewriter or electronic means;
4. satisfactorily complete such training as shall be required by the board of registrars;

5. not have been convicted of a felony or of any crime involving fraud or moral turpitude;

6. not be a candidate for nomination or election to any office except as allowed by O.C.G.A. § 21-2-214; and

7. not have been removed as a deputy registrar for improper conduct in the performance of the duties of deputy registrar.

(b) Deputy registrars shall not engage in political activity on behalf of a candidate, political party or body, or question while actually conducting the duties of their office. While conducting the duties of their office, each person serving as a deputy registrar shall wear a badge or display identification which shall state no more than the person's name and the fact that the person is a deputy registrar of the county. There shall be available for inspection, upon request to verify the authority of the persons involved, the names of the authorized deputy registrars serving at the site.

(c) The following activities shall subject a deputy registrar to immediate revocation of appointment as a deputy registrar:

1. registering voters at unapproved sites, times, and hours, including door to door registration;

2. intoxication while on duty;

3. falsification of registration records;

4. improper handling of registration applications;

5. engaging in any communication, wearing badges, buttons, or clothing that advocates or criticizes a particular candidate, office holder, political party or body, or ballot question while on duty, such as making verbal statements and distributing campaign literature. However, deputy registrars shall identify themselves as deputy registrars of the county by wearing the badges or displaying the identification described in paragraph (b) above; and

6. failure to appear or remain at the deputy registrar's assigned site at or during the assigned hours without adequate notice to the board of registrars or without a proper replacement.

### **(3) Criteria for Establishment of Additional Voter Registration Places:**

(a) The Board of Registrars, in addition to its main office, may designate other fixed places throughout the county as would be reasonably necessary to receive applications for registration and for the registration of electors.

(b) Such additional registration places shall be located in facilities which are open to and frequented by the general public. No place shall be used as an additional registration place unless the general public is freely admitted without regard to race, color, creed, religion, gender, or national origin,

(c) Churches which are open to all persons and which are, in fact, attended for any purpose by persons who are not members of the church shall be considered to be open to and frequented by the general public.

(d) The offices or facilities of community, civic, service, social, civil rights, patriotic, fraternal, and labor organizations shall be considered to be open to and frequented by the general public if non members of the organization in fact attend various activities sponsored by the organization at its offices and facilities and such offices or facilities are open to all persons. However, offices or facilities of political parties, political bodies or candidates shall not be used as additional voter registration places.

(e) The fact that a facility is used primarily or exclusively by the general public of one race or ethnic group or socioeconomic group shall not, for that reason alone, bar its designation as a registration place.

(f) When employers or business owners request the use of their place of business as a registration place, registration shall be conducted only in that part of the place of business which is open to the general public. Such part of the place of business shall be considered to be open to and frequented by the general public if it is an area which is maintained for use by the general public and is known to serve the general public for the purpose of conducting business or engaging in other transactions with the business.

(g) Organizations, employers, offices, and businesses that register voters at their facilities shall not limit registration to their members, employees, or customers, but must register any qualified applicant.

(h) Registration of voters shall be prohibited in places where alcoholic beverages are sold and consumed on the same premises.

(i) No registration of voters shall take place where criminal activities are permitted to occur.

(j) Registration places may be established on a temporary or permanent basis. Permanent places are those which operate on a fixed schedule for an indefinite period of time. Temporary places are those which operate on a temporary schedule and, among other things, may be used in voter registration drives.

1. The deputy registrars appointed by the board of registrars who staff registration places may be unpaid volunteers, employees of the board of registrars, or employees of government offices or of private businesses.

(k) Persons acting as individuals or as representatives of organizations and businesses may request the establishment of additional voter registration places. The board of registrars shall consider such requests.

1. If the request is approved, the board of registrars shall make provisions for having a deputy registrar who has been appointed by the board of registrars available at the additional voter registration places at all times which have been designated by the board of registrars and which have been precleared by the United States Department of Justice for the purpose of voter registration. The board of registrars shall inform such persons that registration may be conducted only at such times as are designated by the board of registrars, precleared by the United States Department of Justice, and advertised as required by law.

(l) The board of registrars shall retain the ultimate responsibility for the submission of additional registration places, dates, and times to the United States Department of Justice for preclearance pursuant to the Voting Rights Act of 1965 and for the advertising of registration places as required by law. The board of registrars shall also retain the ultimate responsibility for the appointment and training of deputy registrars, the proper conduct of voter registration, and the security of completed registration applications; but the board of registrars may

use deputy registrars to assist them in carrying out these duties.

(m) The board of registrars shall instruct deputy registrars in the law and procedure for registration prior to the administration of the oath of office to the deputy registrars. Such training shall include the duties and obligations of deputy registrars, the proper completion of registration applications, the proper security of registration applications, the protection of the integrity of the registration process, and the taking of oaths of registrants and the procedures for appeal upon rejection of the applications for registration.

(n) The Secretary of State shall provide the board of registrars of each county manuals for the use of deputy registrars which include simple instructions on the rules and procedures for the proper conduct of voter registration. The form and content of these manuals shall be determined by the Secretary of State. The board of registrars shall provide each deputy registrar with a copy of the manual.

(o) In order to ensure that the same degree of supervision and security provided at the main office of the board of registrars to prevent voter registration irregularities is maintained for the additional voter registration places, the following rules shall apply:

1. Except as provided in this rule, completed registration applications may be maintained by registrars and deputy registrars only:

(i) at the additional voter registration place during the hours of operation;

(ii) in transit to the main office of the board of registrars;

(iii) at the main office of the board of registrars;

(iv) at permanent additional voter registration places overnight but not beyond the end of the next business day; and

(v) at sites mandated as voter registration sites under O.C.G.A. §21-2-221 and 21-2-222 but not longer than the time permitted under those Code sections.

2. Notwithstanding any provision of this rule to the contrary, a valid registration application that is timely received by the Secretary of State or the registrars shall be accepted.

(p) The board of registrars should identify and establish additional voter registration places where the public congregates for commerce, recreation, worship, education, employment, and other such purposes which are most likely to facilitate registration and suit the convenience of the general public throughout the county. These places should be open at hours to suit the convenience of the general public including times other than the regular hours of the main office of the board of registrars.

(q) Wherever practicable, the Board of Registrars should fully utilize federal, state, county, and municipal offices located within the county which are open during regular business hours and other hours for the purpose of taking voter registration applications.

(r) All additional voter registration sites which are staffed by volunteer deputy registrars shall have prominently displayed a sign, placard, or banner which shall state that voter registration at that location is being conducted under the authority of the Board of Registrars of the county or, in counties in which the duties of the Board of Registrars are performed by Boards of Election, the county Board of Elections. If the volunteer deputy registrars are provided by an organization, club, or other group, the sign, placard, or banner may also identify the organization, club, or group providing the volunteer deputy registrars. The language contained on the sign, placard, or banner shall conform substantially to the following: "Voter registration at this location is being conducted under the authority of the Board of (Registrars or Elections) of \_\_\_\_\_ County. The volunteer deputy registrars at this location are provided by \_\_\_\_\_".

Authority O.C.G.A. Secs. 21-2-31, 21-2-218. **History.** Original Rule entitled "Rules and Regulations for Voter Registration" adopted. F. Jan. 22, 1985; eff. Feb. 11, 1985. **Amended:** F. Oct. 29, 2009; eff. Nov. 18, 2009.

#### **183-1-6-.04 Accessibility for Elderly and Disabled Voters.**

(1) **Preamble.** In order to implement the provisions of the Voting Accessibility for the Elderly and Handicapped Act (P.L. 98-435), the

State Election Board promulgates the following rules and regulations.

(2) **Definitions.** As used in this Rule, the terms:

(a) “Accessible” shall mean that a facility has a continuous unobstructed path connecting the parking area and the area within the facility which is being used for voting or voter registration, whichever the case may be, which complies with the relevant provisions of Sections 3 and 4 of American National Standards Institute specifications A117.1-1980 for making buildings and facilities accessible to and usable by physically disabled individuals.

(b) “Disabled” shall mean a temporary or permanent physical disability.

(c) “Elderly” shall mean persons 65 years of age or older.

(d) “Polling place” means the room provided in each precinct for voting at a primary or election.

(e) “Registration place” shall mean any place, either temporary or permanent, designated by the registrars of a county or municipality as a place to be used for voter registration.

(3) **Polling Places.** All polling places in the State of Georgia shall be accessible to disabled and elderly electors.

(4) **Reserved.**

(5) **Implementation.**

(a) **Polling Places.** The election superintendent of each county and municipality shall conduct, or cause to be conducted, an on-site inspection of each polling place located within the county or municipality to determine if the polling place is accessible. This inspection shall be reported to the Secretary of State on forms prepared by the Secretary of State at such times as the Secretary of State shall prescribe. Any polling place found not to be accessible shall either be made accessible prior to its use in a primary or election or shall not be used as a polling place.

(6) **Waivers.** No waiver shall be granted for polling places which are not accessible.

(7) **Printed Instructions.** The Secretary of State shall provide instructions for use by election superintendents at polling places and registrars at voter registration places, printed in large type, to assist visually and hearing impaired electors in voting and registering to vote.

(8) **Notice and Advertisement.**

(a) Each election superintendent shall mark or cause to be marked in a prominent manner the accessible path for elderly and disabled voters at all polling places.

(b) The display of the international disabled access symbol shall be sufficient marking of a polling place if the symbol is of a size and is located such that it can easily be seen by the public and if the accessible path from the parking area to the polling place is the same as the path used by non-disabled persons.

(c) Election superintendents shall take reasonable steps to inform disabled and elderly electors of the availability of accessible polling places.

(9) **Voting Aids.** The election superintendent of each county and municipality shall provide at least one magnifying glass at each polling place during each primary and election for use by visually impaired electors.

(10) If the voting equipment is not accessible to a disabled voter, the disabled voter shall be permitted to use a paper ballot.

(11) **Enforcement.**

(a) Election superintendents and boards of registrars shall investigate all complaints concerning accessibility to polling places and voter registration places and shall take such corrective action as may be necessary to ensure compliance with these rules concerning accessibility.

(b) Election superintendents and boards of registrars shall report in writing to the State Election Board through the Secretary of State all complaints concerning accessibility, the results of the investigation of the complaints, and any corrective actions taken.

(c) The State Election Board may, in its discretion, investigate these complaints further and take such actions as it deems

appropriate to ensure that these rules concerning accessibility are implemented and effectuated.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Accessibility for Elderly and Handicapped Voters" adopted, F. Aug. 1, 1986; eff. Aug. 21, 1986. **Amended:** F. Sept. 18, 1986; eff. Oct. 8, 1986. **Amended:** F. Dec. 11, 2003; eff. Dec. 31, 2003.

### **183-1-6.05 Registration of Persons by College Presidents or Their Designees.**

(1) **Authority.** The president of each public or private college or university located in the State of Georgia is authorized to register to vote all qualified students, staff, and faculty at the college or university. For students domiciled in the State of Georgia, the college or university president or designee of the president shall be a deputy registrar on behalf of all boards of registration in the State of Georgia for the purpose of taking applications for voter registration for these students. For staff and faculty domiciled in the county in which the college or university is located, each college or university president or designee of the president shall be a deputy registrar of the county in which the college or university is located for the purpose of taking applications for voter registration for those faculty and staff members.

(2) **Designees.** Each college or university president is authorized to designate such persons as the college or university president deems appropriate for the purpose of aiding the college or university president in the exercise of the president's voter registration duties. It shall not be necessary for any person so designated to be a resident of the county in which the college or university is located. However, each person so designated shall be a registered voter in the State of Georgia and shall take an oath as a deputy registrar. The designation shall be in writing and shall be forwarded by the college or university president to the chief registrar of the county in which the college or university is located. Registration applications completed by persons who are not designated in writing to the chief registrar by the college or university president to register persons on behalf of the college or university president shall be rejected.

(3) **Training.** Each person designated by a college or university president to register voters on behalf of the president shall immediately contact the chief registrar of the county in which the college or university is located to undergo such training board of registrars of the county ordinarily provides for deputy registrars. Such training shall be completed prior to the individual taking any application for voter registration.

(4) **Registration Applications.** The board of registrars in each county in which a college or university is located shall provide to the college or university president a sufficient number of registration applications for use in registering qualified students, staff, and faculty at the college or university.

(5) **Security.** Any person designated by a college or university president to take voter registration applications on behalf of the college or university president shall also take such steps as are necessary to provide appropriate and adequate security for the registration applications which are placed in that person's possession. Completed voter registration applications shall be returned to the board of registrars in the county in which the college or university is located as soon as possible, but, in no event, later than the next business day.

(6) **Voter Registration Places.** Each place utilized for the collection and receipt of applications for voter registration by the college or university president or designee of the president shall be precleared under Section 5 of the Voting Rights Act of 1965 (42 U.S.C. Section 1973c). The board of registrars of the county in which the college or university is located shall be responsible for obtaining this preclearance. No registration shall be conducted at locations which have not been precleared. Door-to-door registration is prohibited.

(7) **Receipt of Completed Applications.** Upon the receipt of completed voter registration applications from a college or university, the board of registrars of the county in which the college or university is located shall retain those applications completed by individuals who are domiciled in the county in which the college or university is located and shall forward the remainder of the applications completed by individuals domiciled in other counties directly to the appropriate county registration offices.

(8) **Limitations on Presidents and Their Designees.** College and university presidents and their designees are limited to registering only those qualified students, staff and faculty at the college and university and may not register any other individuals.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Registration of Persons by College Presidents or Their Designees" adopted. F. Feb. 17, 1992; eff. Mar. 8, 1992. **Amended:** F. Dec. 11, 2003; eff. Dec. 31, 2003.

**183-1-6-.06 Verification of United States Citizenship of Applicants for Voter Registration.**

(1) On and after January 1, 2010, an application for registration to vote shall be accompanied by satisfactory evidence of United States citizenship.

(2) Satisfactory evidence of citizenship shall include any of the following:

(a) Verified Georgia Driver's License Number or Identification Card Number or Out of State Driver's License or Identification Card.

1. An applicant may provide as satisfactory evidence of citizenship, the number of the applicant's driver's license or identification card issued by the Georgia Department of Driver Services, upon verification by the Secretary of State that the applicant has provided satisfactory evidence of United States citizenship to the Georgia Department of Driver Services.

2. An applicant may provide as satisfactory evidence of citizenship, the applicant's driver's license or identification card, or legible photocopy thereof, issued by a state driver's license agency of another state equivalent to the Georgia Department of Driver Services, or a legible photocopy thereof, if such agency indicates on the driver's license or identification card that the applicant has provided satisfactory evidence of United States citizenship to such agency.

(b) Birth Certificate.

1. An applicant's birth certificate, or a legible photocopy thereof, is satisfactory evidence of citizenship so long as the birth certificate shows that the applicant was born within the United States. In the event that the birth certificate contains a different first, middle, or last name from the name contained on the application for registration, the board of registrars shall require additional supporting legal documentation to establish that the applicant is the same individual as the individual identified on the birth certificate, including but not limited to a marriage certificate or court order confirming change of name.

2. A Certificate of Birth Abroad, or legible photocopy thereof, obtained by a United States citizen when such individual registers with the Department of State in the event such individual is born

abroad in a non-military installation, shall be accepted and treated as a birth certificate.

(c) United States Passport.

1. An applicant's United States passport, or a legible photocopy of pages of the applicant's United States passport which contain the passport number, name, nationality, date of birth, place of birth, and signature, shall serve as satisfactory evidence of citizenship.

(d) United States Naturalization Documents or Verified Alien Registration Number.

1. An applicant may provide the board of registrars with the applicant's United States Certificate of Naturalization issued by the United States Citizenship and Immigration Services.

(i) Registrars and deputy registrars who attend naturalization ceremonies may assist new citizens in registering to vote. In such event, the registrar or deputy registrar shall examine the applicant's United State Certificate of Naturalization and initial and date the application for registration. If applicants from outside the county apply at the ceremony, the registrar or deputy registrar conducting the voter registration activities shall bundle the registrations by county and send them to the appropriate county board of registrars with an official cover letter stating that all naturalization documents were verified by the registrar or deputy registrar. A county that receives applications in this manner shall accept the applications without requiring further evidence of citizenship from the applicant.

2. If only the alien registration number from naturalization documents is provided for citizenship purposes, the applicant shall not be found eligible to vote until the applicant's alien registration number is verified with the United States Citizenship and Immigration Services by the Secretary of State utilizing the Systematic Alien Verification for Entitlements program.

(e) Documents or methods of proof that are established pursuant to the federal Immigration Reform and Control Act of 1986 (P. L. 99-603).

(f) Bureau of Indian Affairs Card Number, Tribal Treaty Card Number, or Tribal Enrollment Number.

(g) Other Documents and Methods of Proof.

1. Applicants who do not have any of the documents enumerated in subparagraphs (g)(2)(A) through (F) of O.C.G.A. Section 21-2-216 and who are residents of this State and United States citizens may provide any of the following as satisfactory evidence of United States citizenship:

(i) Certificate of Citizenship issued by the United States Immigration and Naturalization Service;

(ii) Consular Report of Birth Abroad of a Citizen of the United States of America;

(iii) Certification of Report of Birth issued by the United States Department of State;

(iv) United States Citizen Identification card;

(v) American Indian Card issued by the United States Department of Homeland Security with the classification code "KIC";

(vi) Final adoption decree showing the applicant's name and United States birthplace;

(vii) Evidence of the applicant's civil service employment by the United States government before June 1976;

(viii) An official United States military record of service showing a United States place of birth;

(ix) A Northern Mariana Identification Card issued by the United States Immigration and Naturalization Service; or

(x) Extract of United States hospital record of birth created at the time of the person's birth indicating a United States place of birth.

2. If the applicant cannot obtain any of the documents described in subparagraphs (g)(2)(A) through (F) of O.C.G.A. Section 21-2-216 and (g)1. above, the applicant may request a hearing for the board of registrars to review other evidence of the applicant's United States citizenship. The board of registrars shall schedule a hearing to review such evidence provided by applicants at least once per month and on the last day to verify provisional ballots for any election pursuant to O.C.G.A. Section 21-2-419. The hearing shall be conducted as follows:

(IX) Statement signed by the birth physician or midwife who was in attendance at the time of birth; or

(X) If other forms of documentation cannot be obtained, documentation may be provided at the hearing by written affidavit, signed under penalty of perjury, from two citizens, one of whom cannot be related to the person in question, who have specific knowledge of event(s) establishing the applicant's United States citizenship status. The applicant or another knowledgeable individual must also submit an affidavit stating why the documents are not available. Such affidavits are only expected to be used in rare circumstances.

3. The board of registrars may accept legible copies of documents bearing on United States citizenship received via United States Mail, facsimile, electronic mail, personal delivery, or other means.

4. Having a Social Security card or being a member of the United States military is not, in and of itself, sufficient evidence that an individual is a United States citizen.

(3) If an application for registration is completed in person at the board of registrars' office or other registration place and the applicant provides satisfactory evidence of citizenship at that time, the registrar or deputy registrar shall indicate on the voter registration application:

(a) That the person provided satisfactory evidence of citizenship,

(b) The type of evidence of citizenship provided, and

(c) The initials of the registrar or deputy registrar who made the verification.

(4) If an applicant fails to supply satisfactory evidence of citizenship with the application for registration, the board of registrars shall, within 10 days of receipt of the application, notify the applicant of the failure to present satisfactory evidence of United States citizenship as follows:

(a) The board of registrars shall send the notice by nonforwardable, first-class mail to the mailing address listed on the application and shall inform the applicant of the missing information and that the application will be rejected if satisfactory evidence of United States citizenship is not provided to the board of registrars within 30 days following the sending of the notice.

(b) If the applicant does not provide satisfactory evidence of United States citizenship to the board of registrars within 30 days of the sending of the notice, the board of registrars shall reject the application and shall immediately notify the applicant of the rejection in writing by nonforwardable, first-class mail at the mailing address listed on the application.

(c) If the initial application is received prior to the close of voter registration prior to a primary or election and the primary or election occurs within 30 days following the sending of the notice, the applicant may supply satisfactory evidence of United States citizenship on or prior to the date of the election. If the applicant supplies satisfactory evidence of United States citizenship and is found eligible to vote, the applicant shall be added to the list of electors and shall be permitted to vote in the election and any run-off elections resulting therefrom and subsequent elections.

(5) The board of registrars shall not determine the eligibility of an applicant unless and until satisfactory evidence of United States citizenship is supplied by the applicant.

(6) United States citizenship question on application for registration.

(a) Regardless of whether an applicant provides satisfactory evidence of United States citizenship, if such applicant fails to answer the question on the application for registration asking, “Are you a citizen of the United States of America?”, the registration shall be considered incomplete until the board of registrars obtains a completed application. The registrar shall return a copy of the application by letter sent by nonforwardable, first-class mail and request that the applicant complete the question by answering “Yes” or “No” to the question regarding United States citizenship. For the purpose of voter registration, an appropriate indicator includes marking a check mark in the box, placing “X” in the box, circling the box, shading the box, or any other method involving the “Yes” box that indicates the applicant is a citizen of the United States.

(b) If the citizenship box is marked “No”, the board of registrars shall reject the application and shall immediately notify the applicant of the rejection in writing by nonforwardable, first-class mail at the mailing address listed on the application.

BALLOTS**

**TABLE OF CONTENTS**

<b>183-1-11-.01</b>	<b>Ballot Secrecy</b>	<b>183-1-11-.02</b>	<b>Appearance of Candidate's Name on Ballot</b>
---------------------	-----------------------	---------------------	---

**183-1-11-.01 Ballot Secrecy.** Each Superintendent of Elections shall ensure that handicapped persons casting their vote at the polls are able to do so in private by providing such facilities and equipment as necessary to maintain the secrecy of the ballot.

Authority O.C.G.A. Secs. 21-2-218, 21-2-31. **History.** Original Rule entitled "Ballot Secrecy adopted. F. Nov. 14, 1986; eff. Dec. 4, 1986.

**183-1-11-.02 Appearance of Candidate's Name on Ballot.**

(1) A candidate's name shall include a family surname and a given or first name, middle name, or nickname, or an abbreviated version of such given or first name or middle name or appropriate initials such as "Bob" for "Robert", "Jim" for "James", "Wm." for "William", or "S." for "Samuel".

(2) A candidate's name may include a nickname by which the candidate is commonly known in the community but shall not contain any spurious phrases, title or degree designating the business, fraternal, religious, or professional affiliation of the candidate, or political slogan or message. A title or degree includes, but is not limited to, military or professional title or rank, or references such as "Dr.", "Rev.", "Judge", "Mr.", "Ms.", "Mrs.", or "Miss". A determination as to whether a nickname violates this Rule lies within the sound discretion of the election superintendent.

(3) An abbreviated name or nickname shall always appear set off within quotation marks and immediately before the last name. Periods shall follow all abbreviations or initials. Additional qualifiers following the last name, such as "Jr" or "III" shall not be separated from the last name by a comma and shall be followed by a period.

(4) A candidate's name shall always appear in the following form: given or first name or initial, if desired by the candidate; middle name or names or initials, if desired by the candidate; nickname, if desired by the candidate; and last or surname in full. All names shall be in substantially the following form: John Lincoln "Jack" Doe; or J. Lincoln "Jack" Doe; or J. L. "Jack" Doe Jr.; or any of the above combinations without the intervening nickname.

(5) The total number of spaces, inclusive of letters, spaces, and punctuation, which may be utilized on the ballot for a candidate's name and, if any, nickname, shall be twenty-five (25). Notwithstanding the listing of the candidate's name on the filing papers, spaces, periods, quotation marks, and commas necessary for proper punctuation shall be added by the Secretary of State or the election superintendent, as appropriate. No candidate's name shall exceed twenty-five (25) spaces. The Secretary of State or the election superintendent, as appropriate, shall determine the correct listing for any candidate whose name exceeds twenty-five (25) spaces to conform to this requirement.

Authority O.C.G.A. Sees. 21-2-31, 21-2-132, 21-2-284, 21-2-284.1, 21-2-285, 21-2-285.1, 21-2-287, 21-2-325.

183-1-12-.04	Certification of Program Instructions	183-1-12-.09	Repealed
183-1-12-.05	Repealed	183-1-12-.10	Use of Absentee Ballots When Voting Machines are Inaccessible

**183-1-12-.01 Conduct of Elections.** Beginning with the November 2002 General Election, all federal, state, and county general primaries and elections, special primaries and elections, and refer-endums in the State of Georgia shall be conducted at the polls through the use of direct recording electronic (DRE) voting units supplied by the Secretary of State or purchased by the counties with the authorization of the Secretary of State. In addition, absentee balloting shall be conducted through the use of optical scan ballots which shall be tabulated on optical scan vote tabulation systems furnished by the Secretary of State or purchased by the counties with the authorization of the Secretary of State; provided, however, that the use of direct recording electronic (DRE) voting units is authorized by the Secretary of State for persons desiring to vote by absentee ballot in person.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled “Voting Machines” adopted. F. July 24, 1968; eff. Aug. 12, 1968. **Repealed:** New Rule entitled “Conduct of Elections” adopted. F. Aug. 30, 2002; eff. Sept. 19, 2002. **Amended:** F. Oct. 24, 2003; eff. Nov. 13, 2003.

**183-1-12-.02 Direct Recording Electronic Voting Equipment.**

(1) Definitions. As used in this rule, the term:

(a) “Assist”, “assisted”, “assisting”, or “assistance” means the act of marking a voter registration application, application for absentee ballot, or ballot on behalf of a voter who is unable to read the English language or has a disability which renders him or her unable to see or mark the voter registration application, application for absentee ballot, or ballot or operate the voting equipment, or to enter the voting compartment or booth unaccompanied, in the manner personally

requested and communicated by such voter. This definition will apply equally to Code Sections 21-2-322, 21-2-365, 21-2- 379.1, 21-2-384, 21-2-385, 21-2-385.1, 21-2-400, 21-2-402, 21-2-409, 21-2-409.1, 21-2-413, 21-2-456, 21-2-500, 21-2-568, 21-2-579, 21-2- 587, 21-2-590, 21-2-591, 21-2-592.

(b) “Ballot” shall mean the offices, candidates, and questions to be submitted to the voters at a primary, election, or runoff for each county or municipality.

(c) “Ballot Encoder Device” shall mean the electronic device by which the poll officers program the voter access card to authorize the voter to vote on the DRE units.

(d) “Ballot Style” shall mean the presentation of the offices, candidates, and questions to be submitted to the voters at a primary, election, or runoff on a DRE unit that contains only the offices and questions for the voters of specified districts within the precinct.

(e) “Counter” shall mean the registers on each DRE unit which increment by one each time a vote is cast on the unit. The “election counter” is the register which is reset for each election and records the number of ballots voted on a DRE unit in a particular election. The “system counter” is the register which cannot be reset and records the number of ballots voted on a DRE unit over the course of the life of the unit.

(f) “DRE unit” shall mean a direct recording electronic voting device which is a computer driven unit for casting and counting votes on which a voter casts his or her votes through the use of a touch screen or VWD device. The term shall include both state supplied devices and devices purchased by counties.

(g) “Early voting period” shall mean that period of time preceding a primary or election in which the board of registrars or absentee ballot clerk shall mail or issue official absentee ballots to all eligible applicants.

(h) “Enclosed space” shall mean that area within a polling place enclosed with a guardrail or barrier closing the inner portion of such area so that only such persons as are inside such guardrail or barrier can approach within six feet of the ballot box, voting compartments,

voting booths, or voting machines.

(i) “Memory Card” shall mean the electronic card (PCMCIA card) on which the ballot styles for a particular precinct are electronically stored and which is inserted into the direct recording electronic voting unit (DRE) to program the DRE unit for voting and on which vote totals are recorded for the DRE unit during the voting process.

(j) “Opening of the Polls” shall mean the commencement of voting in a particular primary, election, or runoff. Opening of the polls does not refer to the unlocking or opening of the doors of the polling place. Similarly, the term “Closing of the Polls” shall mean the cessation of voting in a particular primary, election, or runoff and not the locking or dosing of the doors of the polling place.

(k) “Supervisor’s Card” shall mean the electronic card to be used by the poll manager which is inserted into the DRE unit in order to configure the DRE unit for voting, to test the DRE unit, to terminate or suspend voting on the DRE unit, or to access other utility functions on the DRE unit.

(l) “Voter Access Card” shall mean the electronic card issued to a voter which is inserted into a DRE unit to authorize the voter to cast a ballot on the DRE unit.

(m) “VWD Device” is a device for use by illiterate and/or visually impaired voters in voting on a DRE unit and consists of an audio headset and a keypad by which the ballot can be provided to the voter aurally and the voter can cast his or her vote by use of the keypad.

(n) “Zero Tape” shall mean a tape printed out by the DRE unit which shows that all vote registers in the DRE unit for recording votes for candidates and questions are set to zero and that no votes are present on the unit.

## (2) Receipt, Maintenance, and Storage.

(a) Acceptance tests. Upon the receipt of each new direct recording electronic voting unit (DRE), the election superintendent of the county is responsible to ensure that an acceptance test is performed on the device in accordance with standards issued by the Secretary of State. No DRE unit shall be accepted by the county or placed into service

until such time as the unit satisfactorily passes the prescribed acceptance tests.

(b) Storage of DRE units.

1. The election superintendent of the county shall maintain the DRE units in accordance with the requirements of this rule, the directives of the Secretary of State, and the specifications and requirements of the manufacturer.

2. The DRE units shall be stored in a climate controlled space in which the temperature and humidity levels are maintained at acceptable levels year-round which shall not be lower than 5 degrees Celsius (41 degrees Fahrenheit) nor higher than 40 degrees Celsius (104 degrees Fahrenheit) and not lower than 35 percent relative humidity and not higher than 85 percent relative humidity such that no condensation forms on such units. The units shall not be stored in an area in which liquids or fluids stand, pool, or accumulate at any time or in areas that are subject to such standing, pooling, or accumulating liquids or fluids. The space in which the units are stored shall be secured and shall be accessible only to persons authorized by the election superintendent to have access to such units or such space. The DRE units may be stacked atop each other but no more than five units may be in a stack unless a rack system has been constructed for the storage of the units. The election superintendent shall ensure that the batteries in each unit are charged at least quarterly in accordance with the manufacturer's specifications.

3. The storage areas for DRE units shall be equipped with one or more of the following forms of electronic surveillance and protection: keypads or electronic locks, motion detectors, video surveillance, or a security system that is connected to an outside monitoring source, such as the police department or fire department. In lieu of providing electronic surveillance and protection, the DRE units may be interlocked through the use of a cable or chain that is secured by a padlock or other type of locking system.

4. The election superintendent shall maintain numbered seals on all DRE units in storage and all seal, numbers shall be recorded and on file in the office of the election superintendent.

5. Upon delivery to a polling place in preparation for a primary, election, or runoff, the DRE units shall be secured and protected from unauthorized access by storing the DRE units in a locked and secure room at the polling place, having the person taking possession of the units personally supervise the units at all times prior to the opening of the polls, or by interlocking the DRE units with a cable or chain that is secured by a padlock or other type of locking system.

6. The expenses for the implementation of the storage and security requirements of this rule shall be the responsibility of the county or municipal governing authority, as applicable, unless such security features are provided by the state.

(c) Software security. The software contained in each DRE unit, regardless of whether the unit is owned by the county or the state, and the software used to program the unit and to tabulate and consolidate election results shall not be modified, upgraded, or changed in any way without the specific approval of the Secretary of State. No other software shall be loaded onto or maintained “or used on computers on which the GEMS software is located except as specifically authorized by the Secretary of State.

(d) Maintenance of DRE units. After the end of the initial warranty period for state owned DRE units and computers for use in programming the DRE units and tabulating and consolidating the vote totals, the county shall be responsible for the maintenance and upkeep of such devices, including the repair and/or replacement of any devices which are destroyed, damaged, or otherwise rendered incapable of use in elections.

(e) Access to GEMS servers.

1. The room in which the GEMS server is located shall be locked at all times when the server is not directly under the supervision of the election superintendent or the election superintendent's designee. Lock and key access to the room where the GEMS server is located shall be limited to the county election superintendent; members of the county board of elections; the election supervisor, if any; personnel of the county election superintendent's office designated by the county election superintendent; building maintenance personnel; and emergency personnel. Building maintenance personnel shall have

access to the room in which the GEMS server is located only to the extent necessary to carry out their maintenance duties. The election superintendent shall maintain on file at all times in the office of the election superintendent a complete and up to date list of all maintenance personnel with access to the room in which the GEMS server is located. Emergency personnel shall have access to the room in which the GEMS server is located only as necessary in the event of an emergency and only for the duration of such emergency condition.

2. The GEMS server shall remain locked at all times when not in use. The key or keys to the GEMS server shall remain in the possession of the election superintendent or the designee of the election superintendent at all times.

(f) Security of DRE units and accessories. All DRE units, optical scanner devices, voter access cards, supervisor cards, memory cards, DRE unit keys, voting system software, and encoders shall be stored under lock and key at all times when not in use. Lock and key access to such items shall be limited to the county election superintendent; members of the county board of elections; the election supervisor, if any; personnel of the county election superintendent's office designated by the county election superintendent; building maintenance personnel; and emergency personnel. Building maintenance personnel shall have access to the area where such items are stored only to the extent necessary to carry out their maintenance duties. The election superintendent shall maintain on file at all times in the office of the election superintendent a complete and up to date list of all maintenance personnel with access to the area in which such items are stored. Emergency personnel shall have access to the area where such items are stored only as necessary in the event of an emergency and only for the duration of such emergency condition. Whenever maintenance or emergency personnel are required to enter the storage area, the election superintendent must be notified of that entry within 24 hours and the election superintendent must maintain a log of those persons who entered the storage area.

(g) Voting system handling requirements.

1. All personnel, with the exception of the permanent employees of the Office of the Secretary of State and permanent employees of the county or municipal election superintendent, who prepare voting

equipment for use in a primary, election, or runoff shall complete an oath of custodian before each election. One copy of the oath shall be placed on file in the office of the election superintendent and an additional copy shall be filed with the records for the election filed with the clerk of superior court or the municipal clerk, as appropriate. The oath of custodian shall be in the following form:

STATE OF GEORGIA  
COUNTY/MUNICIPALITY OF \_\_\_\_\_  
OATH OF CUSTODIANS AND DEPUTY CUSTODIANS  
OF DRE UNITS

I, \_\_\_\_\_, do swear (or affirm) that I will as a (deputy) custodian of the voting systems for the County/Municipality of \_\_\_\_\_, faithfully perform all of my duties in accordance with state law; that I will prepare in accordance with all applicable rules and regulations governing the use of the voting system all DRE units to be used in primaries, elections, and runoffs in this county/municipality; that I will use my best endeavors to prevent any fraud, deceit, or abuse in carrying out my duties while preparing the DRE units for use in primaries, elections, and runoffs; and that I am not disqualified by law to hold the position of (deputy) custodian.

\_\_\_\_\_  
(Deputy) Custodian

Administered by, sworn to,  
and subscribed before me,  
this \_\_\_\_\_ day of \_\_\_\_\_, 200\_\_\_\_.

\_\_\_\_\_  
Superintendent

(Required by O.C.G.A. Section 21-2-379.6(b))

2. All DRE units and accessories that are removed from storage for educational or training purposes must be signed in and out on an equipment log maintained by the election superintendent. The log shall contain, at a minimum, a description of the item being checked out, including any serial number or identifying number; the date and time when the item is checked out; the name of the person checking out the item; and the date and time when the item is returned to

storage. The items checked out of storage shall remain in the custody and control of the person checking out the items at all times and the person checking out the items shall personally return such items. Each person who utilizes equipment for educational or training purposes must be adequately trained in the use of the equipment prior to the release of the equipment into such person's custody.

3. The GEMS server shall not be moved or relocated for educational or training purposes. Should it become necessary to relocate the GEMS server or any of its components from one facility to another, the election superintendent shall notify the Secretary of State in writing of the reason for the relocation and the proposed new location. Under no circumstances shall the GEMS server or any of its components be relocated unless and until written authorization for the relocation is received from the Secretary of State except in the event of an emergency situation beyond the control of the election superintendent.

4. The poll manager shall sign a receipt for all supervisor cards, encoders, voter access cards, memory cards, and DRE unit keys assigned to such poll manager's precinct. Upon returning election supplies to the election superintendent's office following the close of the polls, the poll manager shall account for all such items and shall certify that all such items have been returned or shall describe any missing items and explain why such items have not been returned. The Secretary of State shall prepare and provide a chain of custody sheet for this purpose.

5. All supervisor cards, encoders, voter access cards, memory cards, DRE unit keys, and other equipment assigned to designated county election technicians shall be accounted for on the night of a primary, election, or runoff and shall be returned to storage. Each technician shall sign a receipt for all such items issued to such technician and, upon returning such items to the election superintendent's office following the close of the polls, the technician shall account for all such items and shall certify that all such items have been returned or shall describe any missing items and explain why such items have not been returned. The Secretary of State shall prepare and provide a chain of custody sheet for this purpose.

6. The election superintendent shall notify the Secretary of State of

any instances of unaccounted for DRE units, optical scanner devices, voter access cards, supervisor cards, memory cards, DRE unit keys, voting system software, and encoders at the completion of certification by delivering such notification to the Secretary of State when the certified election results are delivered to the Secretary of State.

(3) Preparation for Elections.

(a) Ballots.

1. The election superintendent shall cause the memory cards (PCMCIA cards) to be used in each precinct to be prepared in accordance with law and applicable rules and regulations.

2. Each memory card (PCMCIA card) shall be appropriately labeled with the name of the precinct for which it is programmed for use. The election superintendent shall ensure that each memory card (PCMCIA card) shall be programmed and tested to ensure that the proper ballot style or styles for the precinct for which it is programmed are included on the card and no other ballot styles.

3. Each ballot and ballot style shall be proofread by the election superintendent or a person or persons under the direction of the superintendent to ensure that the ballot contains the proper offices, candidates, and questions to be submitted to the voters, that the offices and names are spelled and designated correctly, that political party or body affiliations and incumbency of candidates are correctly designated where applicable, and that the questions are presented in accordance with law and this rule and that the correct offices and questions are presented on each ballot style.

4. For each office on the ballot, the ballot shall state the name of the office; the post, position, or person presently holding the office if necessary to identify the specific office subject to election; the number of candidates for which the voter may vote for such office; the names of the candidates; the residence address of the candidates if there has been a determination that the names are sufficiently similar to so require such information under O.C.G.A. § 21-2-379.5; in partisan elections, the name of the political party or body that nominated the candidate or a designation of the candidate as an independent candidate; and the designation of the incumbency of a candidate seeking reelection to the office which the candidate then holds.

5. The offices, candidates, and questions shall be listed on the ballot in the order specified in O.C.G.A. §§ 21-2-379.4 and 21-2-379.5.

6. The ballot shall be displayed in the following fonts:

(i) The words “Official Ballot” shall be displayed in 16 point Arial Bold.

(ii) All text beneath the words “Official Ballot” which designate the county or municipality conducting the election, precinct, type of election, and date of the election shall be displayed in 12 point Arial Bold.

(iii) The words “I understand that the offer or acceptance of money or any other object of value to vote for any particular candidate, list of candidates, issue, or list of issues included in this election constitutes an act of voter fraud and is a felony under Georgia law.” shall be displayed in 8 point Arial Narrow Italicized.

(iv) The name of the office shall be displayed in 12 point Arial Bold.

(v) Information on the designation of the office (“To succeed \_\_\_\_\_”) and the number of candidates for which an elector may vote for each office shall be displayed in 10 point Arial.

(vi) The names of candidates shall be displayed in 10 point Arial Narrow Bold in all capital letters.

(vii) Incumbency designations shall be displayed in 8 point Arial Narrow Bold.

(viii) Political party or body and independent designations shall be displayed in 9 point Arial Narrow.

(ix) The text of questions to be submitted to the electors shall be displayed in 10 point Arial Narrow Bold.

(x) The choices for voting on a question (i.e., “YES” and “NO”) shall be displayed in 10 point Arial Narrow Bold.

7. The ballot shall be displayed in the following colors:

(i) All text, designations, and names shall be displayed in black letters.

(ii) The background colors shall be as follows:

(I) The overall page shall be blue (Hue: 180, Sat: 240, Lum: 60, Red: 64, Green: 0, Blue: 128).

(II) The general election header shall be yellow (Hue: 40, Sat: 240, Lum: 120, Red: 255, Green: 255, Blue: 0).

(III) The Democratic Party Primary header shall be white (Hue: 160, Sat: 0, Lum: 240, Red: 255, Green: 255, Blue: 255).

(IV) The Republican Party Primary header shall be light blue (Hue: 120, Sat: 240, Lum: 120, Red: 0, Green: 255, Blue: 255).

(V) The nonpartisan election header shall be light green (Hue: 60, Sat: 240, Lum: 120, Red: 128, Green: 255, Blue: 0).

(VI) The box containing the contest or question to be voted upon shall be burnt orange (Hue: 20, Sat: 240, Lum: 120, Red: 255, Green: 128, Blue: 0).

(VII) The box containing the names of the candidates or the answers or responses to a referendum question for which an elector may vote shall be white (Hue: 160, Sat: 0, Lum: 240, Red: 255, Green: 255, Blue: 255).

8. In addition to the displayed ballot, the election superintendent shall cause an audio ballot to be prepared for use with the VWD devices. The superintendent shall ensure that all matters are recorded correctly and that the names of the candidates are pronounced correctly in the audio recordings. The election superintendent shall also ensure that no candidate's name; political party, political body, or independent designation; incumbency; or other such information nor any referendum question or answer or response thereto is emphasized, stressed, or otherwise inflected in any manner to distinguish a particular candidate, party or body, question, answer or response to a referendum question either negatively or positively or to suggest whether to vote for or against such candidates or questions in such

audio recordings. The election superintendent shall also ensure that the audio recordings are presented at a rate not to exceed 130 words per minute or 2.2 words per second on average and at a volume which shall not be less than 75 decibels nor more than 85 decibels.

(b) Setup and Testing.

1. Primaries and Elections.

(i) On or before the third day preceding a primary or election, including special primaries, special elections, and referendum elections, the election superintendent shall commence the preparation and testing of the DRE units for use on Election Day. On or before the third day preceding the early voting period, the election superintendent shall commence the preparation and testing of the DRE units for use during the early voting period. At least five days prior to the commencement of such preparation and testing, the election superintendent shall publish a notice in the legal organ of the county stating the date, time, and place or places where preparation and testing of the DRE units for use in the primary or election will commence and stating that such preparation shall continue from day to day until such preparation is complete and that such preparation and testing shall be open to the public and that members of the public are entitled to be present during the preparation and testing of the DRE units. The election superintendent shall cause such preparation and testing to begin on such date and time and at such place or places. Such preparation and testing shall be open to members of the public to observe; however, such members of the public shall not in any manner interfere with the preparation and testing of the DRE units. Any person found to be interfering with the preparation and testing process may be asked to leave the testing process and may be cited for interfering with an election official while in performance of election duties. Any questions and/or complaints from the general public regarding the preparation and testing process must be directed to the election superintendent and not to the individual personnel conducting the preparation and testing process. The election superintendent may make such reasonable rules and regulations concerning the conduct of such members of the public observing such preparation and testing as the election superintendent deems necessary and appropriate; provided, however, that such rules and regulations shall not prevent members of the public from fairly observing the preparation and testing of the DRE units.

In addition to any reasonable rules and regulations, that the election superintendent may create for the public to observe the preparation and testing process, the election superintendent or designee thereof, shall:

During the first day of preparation and testing, at the beginning of the day or for the first hour of public observation be available to explain the preparation and testing process and to respond to questions and provide answers regarding the purpose and the process of preparation and testing;

(b) maintain a presence at all times during the preparation and testing process if an outside source is conducting the preparation and testing process;

(c) administer an oath of custodian prior to beginning the preparation and testing process to any county personnel (except permanent state, county, or municipal election staff) appointed by the election superintendent to conduct the preparation and testing process;

(d) establish an area reasonable in proximity for the public to observe the preparation and testing process. Such area shall provide reasonable accommodations for the public insofar as space permits, but shall not be so established as to deny the general public the opportunity to view the process; however the area should not be of such a nature so as to allow the preparation and testing process to be interfered with by the general public;

(e) allow only election office personnel or individuals assigned to conduct the preparation and testing to enter the testing area during the preparation and testing process;

(a) prohibit any preparation and testing reports created for recording the seal numbers and/or serial numbers of the DRE unit from being photocopied for public disclosure;

(g) prohibit the security seals and serial numbers of the DRE units from being photographed or copied for public disclosure;

(h) prohibit photographic and audio equipment, of any kind, including cell phone cameras from being used to record the serial numbers of the DRE units or to record the security seal numbers used

to secure the DRE units, provided that this rule shall not prohibit the news media from reporting on the preparation and testing process, so long as seal numbers and serial numbers on the DRE units are not recorded or displayed in any manner;

(ii) During the public preparation and testing of the DRE units to be used in a particular primary or election, the election superintendent shall cause each DRE unit to be programmed with the memory card (PCMCIA card) for the precinct at which the DRE unit will be used. After placing the memory card (PCMCIA card) in the DRE unit, the DRE unit shall have such internal diagnostic tests performed as shall be directed by the Secretary of State or the election superintendent. Following the completion of the diagnostic tests, the DRE unit shall have an internal logic and accuracy test performed using the memory card (PCMCIA card) for the primary or election for which the unit is being prepared. If the DRE unit fails any of the diagnostic or logic and accuracy tests, the unit shall not be used in a primary or election until such unit is repaired and inspected and found capable of proper functioning and passes the diagnostic and logic and accuracy tests. Upon the successful completion of the logic and accuracy test, the DRE unit shall be cleared of any accumulated vote totals for the primary or election and a zero tape run to verify that the vote registers in the unit are set at zero. After verifying that the vote registers are set at zero, the tape shall be attached to the custodian's certification form to document the logic and accuracy testing and the unit shall be configured for voting. The unit shall then be securely closed in its case and a numbered seal placed on its case such that the case may not be opened until and unless the seal is broken.

(iii) The election superintendent or the custodian responsible for preparing the DRE units, if one has been appointed by the election superintendent in accordance with O.C.G.A. § 21-2-379.6(b), shall make a certification stating for each DRE unit the serial number of the DRE unit, the number on the system counter of the DRE unit, the number on the seal with which the DRE unit is sealed, and that the election counter and each vote register on the unit was set at zero. The case shall be appropriately labeled with the name of the precinct in which the unit is to be used and the serial number of the DRE unit. The custodian's certification shall be retained with the records for such primary runoff or election runoff and shall be stored with such

records with the clerk of superior court or municipal clerk, as appropriate, for the same period of time as required by law for other election records.

(iv) After being prepared for voting, each DRE unit shall be safely and securely stored until such time as the unit is transported to the precinct in which such unit is to be used.

## 2. Primary Runoffs and Election Runoffs.

(i) On or before the third day preceding a primary runoff or election runoff, including special primary runoffs and special election runoffs, the election superintendent shall commence the preparation and testing of the DRE units for use in the primary runoff or election runoff. At least 24 hours prior to the commencement of such preparation and testing, the election superintendent shall publish a notice in the legal organ of the county stating the date, time, and place or places where preparation and testing of the DRE units for use in the runoff will commence and stating that such preparation shall continue from day to day until such preparation is complete and that such preparation and testing shall be open to the public and that members of the public are entitled to be present during the preparation and testing of the DRE units. The election superintendent shall cause such preparation and testing to begin on such date and time and at such place or places. Such preparation and testing shall be open to members of the public to observe; however, such members of the public shall not in any manner interfere with the preparation and testing of the DRE units. Any person found to be interfering with the preparation and testing process may be asked to leave the preparation and testing process and may be cited for interfering with an election official while in performance of election duties. Any questions and/or complaints from the general public regarding the preparation and testing process must be directed to the election superintendent and not to the individual personnel conducting the preparation and testing process. The election superintendent may make such reasonable rules and regulations concerning the conduct of such members of the public observing such preparation and testing as the election superintendent deems necessary and appropriate; provided, however, that such rules and regulations shall not prevent members of the public from fairly observing the preparation and testing of the DRE units.

In addition to any reasonable rules and regulations that the election superintendent may create for the public to observe the preparation and testing process, the election superintendent or designee thereof, shall:

During the first day of preparation and testing, at the beginning of the day or for the first hour of public observation be available to explain the preparation and testing process and to respond to questions and provide answers regarding the purpose and the process of preparation and testing;

(b) maintain a presence at all times during the preparation and testing process if an outside source is conducting the preparation and testing process;

(c) administer an oath of custodian prior to beginning the preparation and testing process to any county personnel (except permanent state, county, or municipal election staff) appointed by the election superintendent to conduct the preparation and testing process;

(d) establish an area reasonable in proximity for the public to observe the preparation and testing process. Such area shall provide reasonable accommodations for the public insofar as space permits, but shall not be so established as to deny the general public the opportunity to view the process; however the area should not be of such a nature so as to allow the preparation and testing process to be interfered with by the general public;

(e) allow only election office personnel or individuals assigned to conduct the preparation and testing to enter the preparation and testing area during the preparation and testing process;

(f) prohibit any preparation and testing reports created for recording the seal numbers and/or serial numbers of the DRE units from being photocopied for public disclosure;

(g) prohibit the security seals and serial numbers from being photographed or copied for public disclosure;

(h) prohibit photographic and audio equipment, of any kind, including cell phone cameras from being used to record the serial

numbers of the DRE units or to record the security seal numbers used to secure the DRE units, provided that this rule shall not prohibit the news media from reporting on the preparation and testing process, so long as seal numbers and serial numbers on the voting units are not recorded or displayed in any manner;

(ii) During the public preparation and testing of the DRE units to be used in a particular primary runoff or election runoff, the election superintendent shall cause each DRE unit to be programmed with the memory card (PCMCIA card) for the precinct at which the DRE unit will be used. After placing the memory card (PCMCIA card) in the DRE unit, the DRE unit shall have such internal diagnostic tests performed as shall be directed by the Secretary of State and the election superintendent. Following the completion of the diagnostic tests, the superintendent shall cause a number of random DRE units as provided by law to undergo an internal logic and accuracy test using the memory card (PCMCIA card) for the primary runoff or election runoff for which the unit is being prepared. If a DRE unit fails any of the diagnostic or logic and accuracy tests, the unit shall not be used in any primary, election, or runoff until such unit is repaired and inspected and found capable of proper functioning and passes the diagnostic and logic and accuracy tests. Upon the successful completion of the logic and accuracy test, the DRE unit shall be cleared of any accumulated test vote totals for the primary runoff or election runoff and a zero tape run to verify that the vote registers in the unit are set at zero. After verifying that the vote registers are set at zero, the tape shall be attached to the custodian's certification form to document the logic and accuracy testing and the unit shall be configured for voting. The unit shall then be securely closed in its case and a numbered seal placed on its case such that the case may not be opened until and unless the seal is broken. The custodian's certification shall be retained with the records for such primary runoff or election runoff and shall be stored with such records with the clerk of superior court or municipal clerk, as appropriate, for the same period of time as required by law for other election records.

(iii) All memory cards to be used in the runoff shall be tested.

(iv) The election superintendent or the custodian responsible for preparing the DRE units, if one has been appointed by the election superintendent in accordance with O.C.G.A. § 21-2-379.6(b), shall

make a certification stating for each DRE unit the serial number of the DRE unit, the number on the system counter of the DRE unit, the number on the seal with which the DRE unit is sealed, and that the election counter and each vote register on the unit was set at zero. The case shall be appropriately labeled with the name of the precinct in which the unit is to be used and the serial number of the DRE unit.

(v) After being prepared for voting, each sealed DRE unit shall be safely and securely stored until such time as the unit is transported to the precinct in which such unit is to be used.

(c) Transport to Polls.

1. The election superintendent shall take all necessary measures to ensure that the DRE units are safely and securely transported to the polling places.

2. The election superintendent shall cause the DRE units for each precinct to be delivered to the polling place for the precinct at least one hour before the time for the opening of the polls.

3. If the DRE units are stored at a polling place after being configured for voting and sealed, the election superintendent shall ensure that the units are stored in a secure area with appropriate climate control.

4. The election superintendent shall deliver the supervisor's card, a sufficient quantity of voter access cards, and the key to the DRE units to the chief manager not later than one hour before the time set for the opening of the polls and shall obtain a receipt for the cards and key. The supervisor's card shall be sealed in an envelope and shall not be opened until the polls are closed unless all of the ballot encoding devices at the precinct fail and it is necessary to use the supervisor's card to configure a DRE unit to encode the voter access cards at the precinct. In such cases, the use of the supervisor's card before the close of the polls shall be documented in the records for the election at that precinct. In addition, the superintendent shall deliver on the appropriate form a listing containing the serial number of each DRE unit, and the number of the seal placed on each such unit.

(d) Before the Opening of the Polls.

1. The poll officers shall set up the DRE units for voting prior to the opening of the polls. The set up shall be performed in public and the public may view the set up subject to such reasonable rules and regulations as the election superintendent may deem appropriate to protect the security of the DRE units and to prevent interference with the duties of the poll officers.

2. The poll officers shall verify that the seal for each unit is intact and that there is no evidence or indication of any tampering with the seal or the unit. The poll officers shall verify that the number of the seal matches the number of the seal recorded for that unit when such unit was prepared by the election superintendent for the primary, election, or runoff. If a seal number does not match or if there is any evidence or indication of tampering with the seal or unit, the election superintendent shall be immediately notified and such unit shall not be used until such matters are resolved by agreement of the election superintendent and the poll manager.

3. Each DRE unit shall be set up and its power turned on and the privacy screens for the unit erected and its screen lifted into place.

4. The poll manager shall run a zero tape on each DRE unit prior to the opening of the polls. The poll manager, along with the other assistant managers, shall, without removing the tape from the unit, verify that all vote registers shown on the zero tape are set to zero and that there are no votes showing on the unit and shall sign the tape in the space provided. If the zero tape does not show that all vote registers are set to zero and that there are votes on the unit, the election superintendent shall be immediately notified and such unit shall not be used until the unit is cleared and the matter is resolved by agreement of the election superintendent and the poll manager.

5. After verifying and signing the zero tape, the poll manager shall securely lock the tape compartment leaving the zero tape in place on the unit and shall configure the unit for voting. The poll manager shall verify that the election counter on each DRE unit is set at zero. If the election counter is not set to zero, the election superintendent shall be immediately notified and such unit shall not be used until the election counter is set to zero and the matter is

resolved by agreement of the election superintendent and the poll manager.

6. The poll officers shall verify that there is no unauthorized matter affixed to the DRE units or present in the cases or voting booths.

7. The poll officers shall affix a card of instructions for voting within each voting booth and shall place at least two printed sample ballots and at least two voting instructions posters approved or provided by the Secretary of State outside the enclosed space at the polling place for the information of the voters. Prior to voters entering the enclosed space, the poll officers may also distribute to such voters a card of instructions for voting on the DRE unit that has been approved or provided by the Secretary of State.

#### (4) Conducting Elections.

(a) As each voter presents himself or herself at the polling place for the purpose of voting during the time during which the polls are open for voting, each voter shall be offered instruction by a poll officer in the method of voting on the DRE units. In providing such instruction, the poll officers shall not in any manner request, suggest, or seek to persuade or induce any voter to vote any particular ticket or for any particular candidate or for or against any particular question.

(b) When a person presents himself or herself at the polling place for the purpose of voting during the time during which the polls are open for voting, the person shall complete a voter's certificate and submit it to the poll officers. The poll officers shall then verify the identity of the person and that the person is a registered voter of the precinct and, if so, shall approve the voter's certificate and enter an appropriate designation on the electors list for the precinct reflecting that the voter has voted in the primary, election, or runoff being conducted. The voter's name shall then be entered on the appropriate numbered list of voters. The poll manager or the poll officer who has been designated by the poll manager to issue voter access cards shall then use the ballot encoder device to encode and issue the voter an appropriate voter access card authorizing the voter to vote the correct ballot style in the DRE units at the polling place. Upon a DRE unit being available, the voter shall then enter the enclosed space in the

polling place and insert the voter access card into an available DRE unit and proceed to vote his or her choices. Upon completion of voting, the voter shall press the “cast ballot” button, remove the voter access card from the DRE unit, and return the card to a poll officer.

Then the voter shall exit the enclosed area of the polling place.

(c) At least once each hour during the time while the polls are open, the poll officers shall examine the face of each DRE unit and each voting booth to verify and ensure that no unauthorized matter has been affixed to the unit or placed in the voting booth and that the unit has not been tampered with in any manner.

(d) The polling place shall be so arranged in such a manner as to ensure the privacy of the elector while voting on a DRE unit, to allow monitoring of each DRE unit by the poll officers while the polls are open, and to permit the public to observe the voting without affecting the privacy of the electors as they vote. In addition, at least one DRE unit shall be configured for voting by physically disabled voters in wheelchairs and provisions shall be made to ensure the privacy of such electors while voting.

(e) It shall be permissible under O.C.G.A. § 21-2-410 and shall not constitute assistance in voting under O.C.G.A. § 21-2-409 for poll officers to assist a voter in inserting the voter card in the DRE unit and in explaining the operation of the unit to the voter; provided that the poll officer withdraws from the voting booth prior to the voter pressing the “start” button or beginning voting. The poll officers shall not in any manner request, suggest, or seek to persuade or induce any voter to vote any particular ticket or for any particular candidate or for or against any particular question.

(f) Voters utilizing a VWD device to vote on the DRE units without the assistance of any other individual shall not be considered as receiving assistance in voting and shall not be required to complete the forms required for receiving assistance in voting pursuant to O.C.G.A. § 21-2-409.

(g) The poll officers shall ensure that voters return the voter access cards to the poll officials prior to leaving the enclosed space in the polling place. The poll officers shall arrange and configure the polling

place and provide staffing at such places at the polling place to ensure that a voter will not leave the polling place with a voter access card.

(h) If a voter leaves a DRE unit prior to completing the process of voting and exits the polling place and does not return to the unit to complete the voting process, the poll officers shall cancel or void the vote on the DRE unit without attempting in any manner to see how the voter voted and shall make a notation of the incident in the election records for the precinct.

(i) A voter may request information from the poll officers concerning how to vote on the DRE unit at any time during the voting process; provided, however, that the poll officers shall not observe or view the voter's ballot on the DRE unit or make any attempt to see how the voter has voted. However, once the voter casts his or her ballot, even if the ballot is blank with no votes cast, such voter shall be deemed to have voted and may not thereafter vote again in the same primary, election, or runoff on that election day.

(j) If a voter discovers that the ballot presented on the DRE unit is not correct or is not the ballot that the voter desired to vote, the voter shall immediately notify a poll officer. The poll officer shall cancel or void the ballot on the DRE unit without attempting in any manner to see how the voter has voted and shall then take the necessary steps to provide the voter with the correct ballot by encoding and issuing a new voter access card to the voter and making any necessary corrections to the voter's certificate of the voter, the electors list, and the numbered list of voters. If the voter presses the "cast ballot" button prior to notifying the poll officials of the error in the ballot, the voter shall be deemed to have voted and shall not be permitted to cast another ballot in the same primary, election, or runoff on that election day.

(k) If a DRE unit malfunctions during the day of a primary, election, or runoff, the poll manager shall immediately notify the election superintendent and shall not allow any voter to use the unit until and unless the malfunction is corrected. The election superintendent shall immediately arrange for the repair of the DRE unit or shall provide a replacement DRE unit as soon as practicable to replace the malfunctioning unit. A replacement DRE unit shall not be used as a replacement unit unless it has been appropriately tested prior to its use.

(5) Tabulating Results.

(a) After the Polls Close.

1. Immediately after the polls close and the last voter has voted, the poll manager shall open the envelope containing the supervisor's card and use the supervisor's card to close each of the DRE units in the precinct against further voting.

2. The poll officers shall then compare the total number of persons voting as shown by the number of voters certificates, the number of persons marked on the electors list, the number of voters on the numbered list of voters, and the number of persons shown as voting on the election counters of the DRE units. If these numbers do not equal one another, the poll officers shall determine the reason for the inconsistency; correct the inconsistency, if possible; and fully document the inconsistency or problem along with any corrective measures taken before going further.

3. After completing the comparison of the total number of persons voting as shown by the electors list, the voter's certificates, the numbered list of voters, and the election counters of the DRE units, the poll manager shall cause each DRE unit to print a minimum of two tapes showing the vote totals as cast on that DRE unit. The poll manager and at least one assistant manager shall also compare the number of ballots voted as shown on the tape with the number of ballots voted as shown on the election counter of the DRE unit. If these numbers are not identical, the poll manager shall document the discrepancy. The poll manager and the assistant managers shall sign each of the tapes or shall write on the tapes the reason why the poll manager or the assistant managers will not sign the tapes.

4. If directed by the election superintendent, the poll manager shall designate one of the DRE units as the accumulator unit to accumulate the votes for the precinct. After printing all of the tapes for the individual DRE units, the poll manager shall accumulate the totals for the accumulator DRE unit and remove the memory card (PCMCIA card) from the accumulator DRE unit. The poll manager shall then collect and retain the two signed tapes (one of which shall include the zero tape) with the memory card (PCMCIA card) from each

DRE unit and shall place the memory card (PCMCIA card) in the appropriate envelope provided by the election superintendent. The poll manager shall then begin removing the memory cards (PCMCIA cards) from the remaining DRE units one by one and inserting the memory cards (PCMCIA cards) into the accumulator DRE unit and accumulating the vote totals from the other DRE units into the accumulator DRE unit. Upon the vote totals for each memory card (PCMCIA card) being entered into the accumulator DRE unit, the memory card (PCMCIA card) shall be removed from the accumulator DRE unit and two signed tapes (one of which shall contain the zero tape) shall be collected and retained with the card. Each memory card (PCMCIA card) shall then be placed into the appropriate envelope provided by the election superintendent. After the results from the last memory card (PCMCIA card) are entered into the accumulator DRE unit and the last memory card (PCMCIA card) has been placed in the envelope, the envelope containing the memory cards (PCMCIA cards) and tapes shall be sealed and secured by the poll manager and at least one assistant manager in an envelope container provided by the election superintendent which shall be sealed and initialed by the poll manager and the two assistant managers such that the envelope cannot be opened without breaking such seal.

5. After all of the results have been entered into the accumulator DRE unit, the poll manager shall cause a minimum of three tapes to be printed out by the DRE unit showing the total votes cast for the precinct. The poll manager and the assistant managers shall sign each of the tapes or shall write on the tapes the reason why the poll manager or the assistant managers will not sign the tapes. One tape shall be posted on the door of the polling place for the information of the public along with a copy of the provisional ballot recap sheet for the precinct. The other tapes shall be placed into the envelope provided by the election superintendent for that purpose and sealed and initialed by the poll manager and at least one assistant manager.

6. If the election superintendent does not direct that the results of the precinct be accumulated, then the poll manager shall cause each DRE unit to print an additional results tape which shall be verified and signed in the same manner as provided in paragraph 3 of this subparagraph. Such additional results tape for each DRE unit shall be posted on the door of the polling place for the information of the public along with a copy of the provisional ballot recap sheet for the

precinct. The memory card (PCMCIA card) and two signed tapes from each DRE unit shall be placed in the appropriate envelope supplied by the election superintendent which shall be sealed and initialed by the poll manager and at least one assistant manager such that the envelope cannot be opened without breaking such seal.

7. After completing the printing of the results, the DRE units shall be turned off and secured in their cases and resealed, The number of each seal shall be entered on the appropriate form along with the serial number of the DRE unit case in which it is inserted. The DRE units shall then be placed in a secure area with appropriate climate control.

8. The memory cards (PCMCIA cards), results tapes, voter access cards, supervisor's card, ballot encoder devices, electors lists, numbered lists of voters, voter certificates, recap sheets, and other such paperwork shall be transported to the office of the election superintendent by the poll manager and at least one other poll officer. The election superintendent or his or her designee shall receive the materials and shall issue a receipt to the poll manager for the materials.

(b) Electronic Transmission of Precinct Results to Central Office.

1. After accumulating all of the vote totals for the precinct, if directed to do so by the election superintendent, the poll manager shall connect the accumulator DRE unit to an analog telephone line and electronically transmit the accumulated vote totals for the precinct to the central office. The DRE unit shall not be connected to a telephone line during the time while the polls are open.

2. Vote totals reported electronically from the precinct to the central office shall be unofficial and shall not be used in preparing the official returns for the primary, election, or runoff.

(c) Consolidation of Results.

1. All persons involved with the tabulation and consolidation of the election results and who will operate the computer programs or handle the memory cards (PCMCIA cards) shall be sworn before entering into their duties.

2. No persons except those persons who are employed by the election superintendent and who have been duly sworn shall perform any duties in connection with the tabulation or consolidation of election results. No persons who are not employed by the election superintendent and have been duly sworn shall touch or be in contact with any container, returns, tapes, device, memory card (PCMCIA card), or any other such election materials. Only persons who are employed by the election superintendent and have been duly sworn shall be in the immediate area of the tabulating center designated by the superintendent for the officers to conduct the tabulation and consolidation of the election results.

3. The tabulation and consolidation shall be performed in public. However, the election superintendent may make reasonable rules and regulations for conduct at the tabulating center to ensure the security of the results and the returns and to avoid interference with the tabulating center personnel.

4. Upon the delivery of the memory cards (PCMCIA cards) from each precinct, the election superintendent or his or her designee shall provide a receipt to the poll manager for the memory cards (PCMCIA cards) and precinct election materials.

5. Upon receiving the memory cards (PCMCIA cards), the election superintendent shall verify the signatures on the sealed envelopes and verify that the seals are intact, that the envelopes have not been opened, and that there is no evidence of tampering with the envelopes or their contents.

6. In the case of elections for county, state, and federal office, after verifying that the envelopes are properly sealed and have not been opened or tampered with, the election superintendent shall break the seal and open each envelope and remove the memory card (PCMCIA card) and results tapes. The election superintendent or his or her designee shall then insert the memory card (PCMCIA card) into the election management system computer and transfer the vote totals from the memory card (PCMCIA card) into the election management system for official tabulation and consolidation.

7. After transferring all of the vote totals from the memory cards (PCMCIA cards) to the election management system and

consolidating such totals with the totals from the absentee ballot system and such votes from any provisional ballots which have been found by the registrars to be authorized pursuant to O.C.G.A. § 21-2-419, the election superintendent shall prepare the official consolidated re-turns for the primary, election, or runoff.

8. The election superintendent shall not list and certify in the official consolidated returns for an election any results for write in candidates who were not properly qualified under O.C.G.A. § 21-2-133.

9. In the case of primaries, elections, and runoffs for county, state, and federal office, the county election superintendent shall transmit to the Secretary of State the election returns by precinct for the county in electronic format or by electronic means, as may be specified by the Secretary of State, within seven days following a primary, election, or runoff.

(d) Electronic Transmission of Precinct Results to Central Office. The election superintendent shall transmit to the Secretary of State unofficial election results for all races for state offices in any primary, election, or runoff as soon as possible after the closing of the polls, for such primary, election, or runoff. Such results shall be transmitted in a format prescribed by the Secretary of State. At a minimum, the results shall be transmitted upon one third of the precincts reporting results, upon two thirds of the precincts reporting results, and upon all precincts reporting results, including absentee ballots within all precincts. Except upon notice to and consultation with the Secretary of State, no election superintendent shall conclude the tabulation of votes on election night in any primary, election, or runoff in which there are contested races for federal and state offices until and unless all such unofficial results, including absentee ballots, have been transmitted to the Secretary of State.

#### (6) Storage of Returns.

(a) After tabulating and consolidating the results, the election superintendent shall prepare a CD-ROM which shall contain a copy of the information contained on each memory card (PCMCIA card) which shall include all ballot images as well as vote totals and a copy of the consolidated returns from the election management system.

(b) The CD-ROM shall be placed in a sealed envelope and shall become a part of the election materials which shall be deposited with the clerk of superior court or the municipal clerk, as appropriate, in accordance with O.C.G.A. § 21-2-500. In addition, the signed results tape from each DRE unit containing the signed zero tape shall also be deposited with the clerk of superior court.

(c) The memory cards (PCMCIA cards) shall be sealed in an appropriate container and securely maintained by the election superintendent until the period for requesting a recount of the primary, election, or run off results has expired. The election superintendent and at least one other sworn individual in the tabulating center shall seal the container and sign the seal such that the container cannot be opened without destroying or damaging the seal. Upon the expiration of the period for requesting a recount, the election superintendent may use the memory cards (PCMCIA cards) for programming DRE units for the next primary, election, or runoff.

(d) The election results, ballot styles, ballot images, and other information for each election stored in the internal memory storage of each DRE unit shall be maintained for a minimum of one month following each election after which time the results may be erased provided that there are no election contests pending concerning such election.

#### (7) Recounts and Recanvass.

(a) The election superintendent shall, either of his or her own motion, or upon petition of any candidate or political party or three electors of the county or municipality, as may be the case, order a recanvass of all the memory cards (PCMCIA cards) for a particular precinct or precincts for one or more offices in which it shall appear that a discrepancy or error, although not apparent on the face of the returns, has been made. Such recanvass may be held at any time prior to the certification of the consolidated returns by the election superintendent and shall be conducted under the direction of the election superintendent. Before making such recanvass, the election superintendent shall give notice in writing to each candidate and to the county chairperson of each party or body affected by the recanvass. Each such candidate may be present in person or by representative and each such political party or body may send two

representatives to be present at such recanvass. If upon such recanvass, it shall appear that the original vote count was incorrect, such returns and all papers being prepared by the election superintendent shall be corrected accordingly.

(b) The election superintendent shall conduct the recanvass by breaking the seal, if the ballots cards have been sealed, on the container containing the memory cards (PCMCIA cards) and removing those memory cards (PCMCIA cards) for the precinct or precincts for which the recanvass is being conducted. The election superintendent shall then cause the vote totals on each of the memory cards (PCMCIA cards) to be transferred to either an accumulator DRE unit or to the election management system computer. After all of the vote totals from the memory cards (PCMCIA cards) for the precinct or precincts for which the recanvass is being conducted have been entered, the election superintendent shall cause a printout to be made of the results and shall compare the results to the results previously obtained. If an error is found, the election superintendent shall correct the error in the returns accordingly.

(c) Recounts pursuant to O.C.G.A. § 21-2-495(c) shall be conducted in the same manner as other recounts under these rules.

#### (8) Maintenance of Equipment.

(a) Each county shall be responsible for maintaining the DRE units, computers, and software provided to such county by the Secretary of State or purchased by such county and shall either purchase a maintenance agreement for such equipment and software or shall self insure such equipment and software.

(b) In the event of any malfunction or problem with DRE units, the county election superintendent shall document the problem and its resolution and shall provide such information to the Secretary of State. The documentation shall include a detailed description of the malfunction or problem, the steps taken to correct the malfunction or problem, and the cause of such malfunction or problem if a cause can be determined.

(9) Use of Equipment by Municipalities. The county election superintendent is authorized to permit any municipality within the county to conduct its election with the DRE equipment through a written intergovernmental agreement between the county and the municipality; provided that the municipality agrees to maintain and operate the equipment in accordance with law, these rules and regulations, and the manufacturer's guidelines and specifications and provided further that the municipality trains all of its election personnel and poll workers in the proper operation and conduct of elections utilizing such equipment through a training program conducted by or approved by the Secretary of State.

(10) Sample Ballots. DRE units that are used for demonstration and education purposes shall not utilize or be programmed with the official ballot to be used in the primary or election for demonstrational or educational purposes. The units shall utilize or be programmed with a ballot containing the names of fictitious or historical persons whose names do not appear on the official ballot for such primary or election.

### **183-1-12-.06 Provisional Ballots.**

(1) This rule shall govern the casting of provisional ballots by voters at primaries and elections in accordance with O.C.G.A. §§21-2-418 and 21-2-419.

(2) In each polling place, there shall be established a location or station in the public area of the polling place for the purpose of issuing and receiving provisional ballots.

(3) The election superintendent shall provide each polling place with an adequate supply of provisional ballots in each ballot style (district combination) for the precinct and an inner ballot envelope and an outer ballot envelope. The ballot envelopes shall be so designed that the ballot will fit within the inner ballot envelope and the inner ballot envelope will fit within the outer ballot envelope. The inner ballot envelope shall have printed on it the words "Official Provisional Ballot" and nothing else. The outer envelope shall have places for inserting the person's name, precinct, date and name of election, ballot style (district combination), and whether such ballot is a regular provisional ballot, a provisional ballot cast by a voter who registered to vote for the first time in this state by mail and has not provided the identification required by O.C.G.A. §§21-2-220 and 21-2-417, or a ballot cast during poll hours extended by a court order, or a combination thereof. Primaries and elections conducted by counties shall use optical scan ballots for provisional voting. Optical scan absentee ballots shall be acceptable for use as provisional ballots. Municipalities shall use the same type of ballots as the municipality uses for mail-in absentee voting. The election superintendent shall also provide a booth for voting provisional ballots in the enclosed space which will provide privacy for a person while voting a provisional ballot and a secure container in which the voted provisional ballots shall be placed.

(4) Voters whose names do not appear on electors list.

(a) When a person arrives at a polling place, completes a voter's certificate, and presents it to the poll workers but the person's name does not appear on the official electors list for the precinct, the poll officers shall immediately direct the person to the provisional ballot station. At the provisional ballot station, if a master list of registered electors is available, the poll workers shall check the list to determine if the person is registered at a different precinct. If the person's name appears on the master list for a different precinct, the poll workers shall direct the person to the correct precinct.

(b) If the person's name is not found on the official list of electors for the precinct or the master list, if available, the poll officers shall immediately contact the registrars and the person shall provide such information as the registrars may request to determine if the person is eligible to vote in the election. The registrars shall promptly review the information provided by the person and shall attempt to determine if the person timely and properly registered to vote.

(c) If the registrars can immediately determine that the person timely and validly registered to vote in the primary or election and should be assigned to the precinct at which the person is present, the registrars shall authorize the poll officers to add the person's name to the official electors list for the precinct and shall permit the person to vote in the same manner as other voters in the pre-cinct vote. When there are multiple ballot styles (district combinations) in use in the precinct, the registrars shall also advise the poll officers which ballot style (district combination) should be issued to the person. The person's name shall then be added to the official electors list for the precinct with a notation of the name of the registrar who authorized such addition. Upon presentation of a properly completed voter's certificate and the identification required by O.C.G.A. §21-2-417, the person shall be permitted to vote in the same manner as other voters in the precinct.

(d) If the registrars can immediately determine that the person timely and validly registered to vote in the primary or election but should be assigned to a different precinct from the one at which the person is present, the registrars shall direct the poll officers to send the person to the appropriate other precinct and the registrars shall

notify the officers of such other precinct to add the person's name to the official electors list for such other precinct. When there are multiple ballot styles (district combinations) in use in such other precinct, the registrars shall also advise the poll officers at such other precinct which ballot style (district combination) should be issued to the person. The person's name shall then be added to the official electors list for the other precinct by the poll officers of the other precinct with a notation of the name of the registrar who authorized such addition. Upon the completion of a voter's certificate and the submission of the identification required by O.C.G.A. § 21-2-417, the person shall be permitted to vote in the same manner as other persons in such other precinct. However, if, in the reasonable exercise of discretion by the registrars or the poll workers, there is insufficient time for such person to go to such other precinct before the polls close, the poll workers may allow such person to vote a provisional ballot at the precinct in which the person is present. In such case, all votes cast by such person for candidates for whom such person is properly entitled to vote shall be counted and all votes cast for candidates for whom such person is not properly entitled to vote shall be void and shall not be counted in accordance with O.C.G.A. §21-2-419(c).

(e) If the registrars cannot immediately determine that the person timely and validly registered to vote in the primary or election; but, from the information presented by the person, the person, if properly registered, would be assigned to the precinct at which the person is present, the registrars shall authorize the poll officers to permit the person to cast a provisional ballot at such precinct. When there are multiple ballot styles (district combinations) in use in the precinct, the registrars shall also advise the poll officers which ballot style (district combination) should be issued to the person.

(f) If the registrars cannot immediately determine that the person timely and validly registered to vote in the primary or election; but, from the information presented by the person, the person, if registered, would be assigned to a different precinct from the precinct in the county or municipality at which the person is present, the registrars shall direct the poll officers to send the person to the appropriate precinct. The registrars shall notify the officers of such other precinct to permit the person to vote a provisional ballot when such person arrives at such precinct, completes an official voter

registra-tion form and a provisional ballot voter's certificate, and submits the appropriate identification required by O.C.G.A. §21-2-417. When there are multiple ballot styles (district combinations) in use in such other precinct, the registrars shall also advise the poll officers which ballot style (district combination) should be issued to the person. However, if, in the reasonable exercise of discretion by the registrars or the poll workers, there is insufficient time for such person to go to such other precinct before the polls close, the poll workers may allow such person to vote a provisional ballot at the precinct at which such person is present. In such case, all votes cast by such person for candidates for whom such person is properly entitled to vote shall be counted and all votes cast for candidates for whom such person is not properly entitled to vote shall be void and shall not be counted in accordance with O.C.G.A. §21-2-419(c).

(g) If the person appears at a precinct in a county or municipality in which the person does not reside, the registrars shall instruct the poll officers to direct the person to contact the registrars in the county in which the person resides to determine in which precinct such person should vote.

(h) If the poll officers cannot get in touch with the registrars after making a reasonable effort to do so, the poll officers shall be authorized to permit the person to vote a provisional ballot at the precinct without additional authorization from the registrars. In such case, all votes cast by such person for candidates for whom such person is properly entitled to vote shall be counted and all votes cast for candidates for whom such person is not properly entitled to vote shall be void and shall not be counted in accordance with O.C.G.A. § 21-2-419(c).

(i) Upon receiving authorization to vote a provisional ballot, the person shall complete a provisional ballot voter's certificate and an official voter registration form and submit such completed certificate and form to the poll officers along with the appropriate identification required by O.C.G.A. § 21-2-417. The poll officers shall place the name of the person on the numbered list of provisional ballot voters and issue the person a provisional ballot of the style authorized by the registrars along with an inner ballot envelope and an outer ballot envelope. Before issuing the outer ballot envelope to the person, the poll officers shall enter the person's name, the name of the precinct,

the date and name of the election, and the ballot style (district combination) on the outer envelope. The person shall then re-tire to the provisional ballot voting booth and vote the ballot. Upon completing the ballot, the person shall seal the ballot in the inner ballot envelope and place the inner ballot envelope containing the ballot into the outer ballot envelope and shall seal the outer ballot envelope. The person shall then return the sealed envelope to the poll officers.

(j) Upon receiving the sealed ballot envelope from a person casting a provisional ballot, the poll officers shall verify that the information requested on the outer ballot envelope is complete, shall mark the appropriate box or boxes to designate the type of provisional ballot enclosed therein, and shall direct the person to place the ballot envelope into the secure container for provisional ballots which shall be located within the enclosed space in the polling place where it can be monitored by the poll officers and observed by the public. The provisional ballot voter's certificate and voter registration form shall be attached together and shall be placed in a separate, distinctively marked envelope which shall be placed in a secure location in the polling place.

(5) Voter who registered for first time by mail but did not provide required identification.

(a) When a person arrives at a polling place, completes a voter's certificate, and presents it to the poll workers but does not have the identification required by O.C.G.A. §21-2-417 and the person's name appears on the official electors list for the precinct with a designation that the person registered to vote for the first time in this state by mail but has not provided the required identification to the registrars as required by O.C.G.A. §21-2-220, the poll officers shall immediately direct the person to the provisional ballot station. At the provisional ballot station, the person shall be permitted to cast a provisional ballot at such precinct. When there are multiple ballot styles (district combinations) in use in the precinct, the poll officers shall issue the appropriate ballot style (district combination) to the person as shown on the electors list. The poll officers shall place the name of the person on the numbered list of provisional ballot voters and issue the person a provisional ballot of the style authorized by the registrars along with an inner ballot envelope and an outer ballot

envelope. Before issuing the outer ballot envelope to the person, the poll officers shall enter the person's name, the name of the precinct, the date and name of the election, and the ballot style (district combination) on the outer envelope. The person shall then retire to the provisional ballot, voting booth and vote the ballot. Upon completing the ballot, the person shall seal the ballot in the inner ballot envelope and place the inner ballot envelope containing the ballot into the outer ballot envelope and shall seal the outer ballot envelope. The person shall then return the sealed envelope to the poll officers.

(b) Upon receiving the sealed ballot envelope from a person casting a provisional ballot, the poll officers shall verify that the information requested on the outer ballot envelope is complete, shall mark the appropriate box or boxes to designate the type of provisional ballot enclosed therein, and shall direct the person to place the ballot envelope into the secure container for provisional ballots which shall be located within the enclosed space in the polling place where it can be monitored by the poll officers and observed by the public.

(c) The provisional ballot shall not be counted unless the voter provides the identification required by O.C.G.A. §§ 21-2-220 and 21-2-417 to the registrars before the end of the period set by law for the verification of provisional ballots. Such identification may be provided to the registrars in person or by facsimile transmission or, in the case of disabled voters, by delivery by a third party.

(6) Voters voting during extended polling hours in an election in which federal candidates are on the ballot.

(a) In the event that the polling hours for a polling place are extended by a court order beyond the normal closing time for a primary, election, or runoff in which federal candidates are on the ballot, all voters who vote after the normal closing time for the polling place shall vote by provisional ballot.

(b) Voters whose names appear on the electors list and who have the appropriate identification required by O.C.G.A. § 21-2-417 shall complete a provisional voter's certificate and shall be issued a provisional ballot along with an inner ballot envelope and an outer ballot envelope. Such voters shall not be required to complete a voter

re-gistration form. It also shall not be necessary to obtain approval from the registrars to issue provisional ballots to such voters. The poll officers shall place the name of the person on the numbered list of provisional ballot voters. Before issuing the outer ballot envelope to the person, the poll officers shall enter the person's name, the name of the precinct, the date and name of the election, and the ballot style (district combination) on the outer envelope. The person shall then retire to a provisional ballot voting booth and vote the ballot. Upon completing the ballot, the person shall seal the ballot in the inner ballot envelope and place the inner ballot envelope containing the ballot into the outer ballot envelope and shall seal the outer ballot envelope. The person shall then return the sealed envelope to the poll officers. Upon receiving the sealed ballot envelope from a person casting a provisional ballot, the poll officers shall ver-ify that the information requested on the outer ballot envelope is complete, shall mark the appropriate box to designate that the bal-lot is an extended poll hours provisional ballot, and shall direct the person to place the ballot envelope into the secure container for pro-visional ballots which shall be located within the enclosed space in the polling place where it can be monitored by the poll officers and observed by the public.

(c) If the voter's name is not on the electors list, the poll workers shall follow the provisions of this rule for regular provisional balloting under this rule and, if the voter is authorized by the registrars to vote a provisional ballot under the terms of this rule, shall also mark the appropriate box on the outer ballot envelope to indicate that the ballot was issued during extended poll hours.

(d) If the voter's name is on the electors list but registered to vote for the first time in this state by mail and has not provided the identification required by O.C.G.A. § 21-2-220, the poll officers shall permit the voter to vote in accordance with the provisions of this rule for first time voters who register for the first time in this state by mail without providing the required identification, and shall also mark the appropriate box on the outer ballot envelope to indicate that the ballot was issued during extended poll hours.

(e) The poll officers shall provide each first time voter who registered for the first time in this state by mail without providing the required identification who casts a provisional ballot information on

how the voter may provide the registrars with the appropriate identification in order that the voter's ballot may be counted.

(7) Each voter casting a provisional ballot in a primary, election, or runoff in which federal candidates appear on the ballot shall be given written information explaining how such voter can ascertain if such ballot is counted and, if such ballot is not counted, the reason why such ballot was not counted.

(8) The provisional ballot voter's certificates and voter registration cards may be picked up during the day by a registrar or deputy registrar for the purpose of beginning the process of determining the eligibility of the persons to cast provisional ballots. Before transferring the voter's certificates and registration cards to the registrars during the day, the poll officers shall note the number of certificates and cards being transferred to the registrars. If such voter's certificates and registration cards are not picked up by the registrars by the time that the polls close and the last voter has voted, the envelope in which the provisional ballot voter's certificates and voter registration cards have been deposited shall be securely sealed and shall be returned to the election superintendent with the other materials from the polling place.

(9) After the close of the polls and the last voter has voted, the poll officers shall account for all voted provisional ballots, cancelled and spoiled provisional ballots, and unused provisional ballots. The ballot stubs and unused and spoiled ballots shall then be securely sealed in the container provided for them by the election superintendent. The poll officers shall then proceed to open the secure container in which the provisional ballots were deposited and count the number of voted provisional ballots contained therein. The poll officers shall then compare the total number of persons voting provisional ballots as shown on the numbered list of provisional ballot voters with the number of ballots issued and the number of ballots voted. If these numbers do not equal one another, the poll officers shall determine the reason for the inconsistency and shall correct the problem before going further. The poll officers shall seal the voted provisional ballots in a container for transfer to the election superintendent. The poll officers shall complete and sign a provisional ballot recap sheet and post one copy of the recap sheet on the door of the polling place with the election results from the precinct. The remaining copies of the

provisional ballot recap sheet along with the numbered list of provisional ballot voters shall be returned to the election superintendent with the other election materials from the precinct.

(10) Upon receiving the election materials from the precincts, the election superintendent shall ensure that the envelope containing the provisional ballot voter's certificates and voter registration cards is promptly removed from the other materials and transferred to the registrars for processing. In any event, the voter's certificates and registration cards shall be transferred to the registrars no later than 9:00 a.m. on the day following the day of the primary, election, or runoff. The election superintendent shall also remove the container containing the voted provisional ballots and shall place such container in a secure location within the election superintendent's office.

(11)(a) Upon receiving the provisional ballot voter's certificates and voter registration cards from the election superintendent, the registrars shall promptly proceed to determine the eligibility of each person that voted a provisional ballot.

(b) If the registrars determine that the person did timely register and is eligible and entitled to vote in such primary, election, or runoff, the registrars shall mark on the numbered list of provisional ballot voters that the ballot is accepted and shall notify the election superintendent of the proper ballot style (district combination) for the voter.

(c) If the registrars determine that the person did not timely register to vote for the primary or election or is not eligible and entitled to vote in such primary or election or if the registrars cannot determine by the close of business on the third business day following the day of the primary, election, or runoff if the voter timely registered and was eligible and entitled to vote in such primary or election, the registrars shall mark on the numbered list of provisional ballot voters that the ballot is rejected.

(d) Not later than the close of business on the third business day following the day of the primary, election, or runoff, the registrars shall return to the election superintendent the numbered list of provisional ballot voters reflecting the accepted and rejected provisional ballots.

(e) The names of those persons whose names are accepted shall be added to the official electors list. The voter registration cards of those persons whose ballots are rejected on the numbered list of provisional ballot voters shall be processed by the registrars and, if found to be eligible and qualified, shall be added to the electors list for future elections.

(f) The registrars shall maintain the provisional ballot voter's certificates for the same period of time and under the same conditions as the regular voter's certificates. Voter registration cards completed by provisional ballot electors shall be maintained for the same period of time and under the same conditions as other voter registration cards.

(12) Upon receiving the numbered list of provisional ballot electors from the registrars, the election superintendent shall prepare to count the accepted provisional ballots. The election superintendent shall first compare the precinct designation and election district information with the Style of ballot (district combination) cast by the provisional ballot voter.

(a) If the ballot style (district combination) voted by the voter was correct, then the election superintendent shall open the outer envelope and place the inner envelope containing the ballot into a ballot box.

(b) If the ballot style (district combination) voted by the voter was not correct, then the election superintendent shall open the outer envelope and note the correct ballot style (district combination) on the inner envelope. Each such inner envelope shall then be placed in a separate container until all of the outer envelopes have been opened. The outer envelopes shall then be stored in a location away from the inner envelopes in a manner such that the inner envelope and ballot of a voter cannot be identified as being the ballot of a particular voter. The superintendent shall then open each such inner envelope and remove the ballot and shall place a unique identifying number on the ballot along with the designation of the precinct in the nonreflective area at the top of the ballot. The election superintendent shall then prepare or cause to be prepared a duplicate ballot. The duplicate ballot shall be clearly labeled with the word "Duplicate" and shall bear the name of the precinct and the same

unique identifying number as the original ballot in the nonreflective area at the top of the ballot. The election superintendent shall transfer or cause to be transferred to the duplicate ballot, in the presence of at least two other consolidation assistants and in public, only the votes cast by the provisional ballot voter in the races and on the questions to which such voter was eligible and entitled to vote. The votes entered on the duplicate ballot shall be verified by at least one consolidation assistant. The completed duplicate ballot shall be placed in the ballot box with the other provisional ballots to be counted. The original ballot shall be placed into an appropriate container and retained.

(c) After opening all of the outer envelopes and making all necessary duplicate ballots, the election superintendent shall then open the inner envelopes of the ballots in the ballot box and proceed to count the votes in the same manner as absentee ballots are counted. Upon completing the count, the election superintendent shall add the provisional ballot votes to the other votes cast at the polls and by absentee ballot and shall consolidate and certify the results of the primary, election, or runoff. The provisional ballots and any duplicates shall be retained for the same time period and in the same manner as absentee ballots.

(d) The rejected provisional ballots shall be marked on the outer envelope as “Not Counted” and shall not be opened. The ballots shall be maintained for the same time period and in the same manner as absentee ballots which were returned too late to be counted.

(e) The election superintendent shall notify the registrars of the names of those persons who cast a provisional ballot in the wrong precinct or on an incorrect ballot style (district combination).

(13)(a) Upon identifying the rejected provisional ballot electors, the registrars shall proceed promptly to notify each such person by first-class mail at the address shown on the provisional ballot voter’s certificate that his or her ballot was not counted because of the inability of the registrars to verify that the person timely registered to vote or such other proper reason. If the person’s voter registration card was approved, the registrars shall also notify the person that his or her name will be added to the elector’s list and the person will be eligible to vote in future primaries and elections and that a voter

notification or precinct card will be mailed to the person to provide the voter with the correct precinct and election district information.

(b) Upon receiving notification from the election superintendent of the names of persons who cast provisional ballots in the incorrect precinct or on the incorrect ballot style (district combination), the registrars shall notify such persons of their correct precinct and/or election district information. The sending of a voter notification or precinct card by first-class mail to the address shown on the voter registration card completed by such person when voting by provisional ballot shall be sufficient notice for such voters.

(c) If the person's voter registration is rejected, the registrars shall notify the person of such rejection in accordance with O.C.G.A. § 21-2-226(d).

(d) In addition, the registrars shall establish a free access system, such as a toll-free telephone number or an Internet website, by which voters who cast provisional ballots in a primary, election, or runoff in which federal candidates are on the ballot may ascertain whether their ballots were counted or, if the ballots were not counted, the reasons why such ballots were not counted. The registrars shall establish and maintain reasonable procedures necessary to protect the security, confidentiality, and integrity of personal information collected, stored, or otherwise used by such system. Access to information about an individual provisional ballot shall be restricted to the voter who cast such ballot.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Defective Ballot Cards, Duplication and Tabulation" adopted, F. July 24, 1966; eff. Aug. 12, 1968. **Amended:** F. ## **183-1-12-.07 Preparation of the Electors List and Use of ExpressPoll.**

(1) Beginning July 1, 2006, counties shall use ExpressPoll units at precincts within the county during primaries, elections, and runoffs. The ExpressPoll units shall be utilized in lieu of the printed electors list and ballot encoders in each precinct where in use.

(2) The county election superintendent shall maintain each

ExpressPoll unit, and all components in a secure location under the same conditions as provided for DRE units under Rule 183-1-12-.02(2).

(3) Effective January 1, 2006, the registrars of each county shall utilize the absentee ballot subsystem of the statewide voter registration system for absentee balloting and advance voting.

(4) The registrars of each county shall complete the entry of new and updated voter registrations on a timely basis as required by the Secretary of State and shall notify the Secretary of State upon the completion of such data entry after a registration deadline.

(5) Prior to each primary or election as specified by the Secretary of State, the county election superintendent shall provide to the Secretary of State or his or her designee a final copy of the GEMS database for the county.

(6) The county election superintendent and the registrars shall notify the Secretary of State or his or her designee of any changes to the voter registration file for the county or the GEMS database that occur after the process for creating ExpressPoll flash cards begins.

(7) During the period in which DRE units are tested and prepared prior to delivery to the precincts, the election superintendent shall cause each ExpressPoll unit to undergo logic and accuracy testing. Each ExpressPoll unit must pass such logic and accuracy test prior to being assigned to a precinct. The registrars shall verify the information contained on the ExpressPoll units when assigning the units to precincts.

(8) Prior to delivery to the precincts, the registrars shall ensure that all persons who have been issued or cast absentee ballots are marked accordingly on the ExpressPoll units.

(9) Upon the conclusion of each primary, election, or runoff, the poll officers shall return the ExpressPoll units with the other election materials from the precinct to the election superintendent. The registrars and election superintendent shall coordinate the return of the flash cards from the ExpressPoll units to the Secretary of State such that the cards are returned in the same time period as the

official election returns.

(10) For electors whose names are added to the voter registration rolls after the deadline for preparing the flash cards for the ExpressPoll units, the registrars shall provide a printed supplemental list for use at the affected precincts.

**183-1-14-.02 Use of DRE Units for Absentee Balloting.**

- (1) Counties and municipalities are authorized to use DRE units

for in-person absentee balloting in accordance with the Georgia Election Code (O.C.G.A, Ch. 21-2) and these rules. As used in this rule, the term "Registrars" shall include a county board of registrars, a county board of elections and registration, a joint county-municipal board of elections and registration, a municipal absentee ballot clerk, a municipal registrar, and the designee of any board of registrars, board of elections and registration, or joint county-municipal board of elections and registration. The election superintendent and registrars shall by agreement determine the type of election equipment to be used in such election for in-person absentee voting and for absentee voting by mail or other legally appropriate means in which the ballot is sent or delivered to a voter for voting away from the office of the registrars.

(2) DRE units shall be configured and tested in accordance with the provisions of Rule 183-1-12-.02 prior to use in absentee balloting. Public notice of the time and place for such configuration and testing of the DRE units to be used for absentee balloting shall be given in accordance with O.C.G.A. § 21-2-379.6 and Rule 183-1-12-.02 prior to such configuration and testing.

(3) The DRE units to be used for in-person absentee voting shall be set up in a manner to assure the privacy of the elector while casting his or her ballot while maintaining the security of such units against tampering, damage, or other improper conduct. In addition, there shall be at least one DRE unit configured for use by physically disabled electors.

(4) Voter access cards for use in DRE units for in-person absentee balloting may be encoded by use of ballot encoder devices, DRE units specifically and exclusively set up for that purpose, or by use of the VCProgrammer software on appropriate computers.

(5) Each DRE unit to be used for in-person absentee voting shall be programmed so as to permit the challenging of ballots in accordance with law and the removal of such ballots from the count if such challenges are sustained by the registrars,

(6) On the first day of the absentee voting period, prior to any votes being cast on the DRE units, the registrars shall verify that the seal for each DRE unit is intact and that there is no evidence or

indication of any tampering with the seal or the unit. The registrars shall verify that the number of the seal matches the number of the seal recorded for that unit when such unit was prepared by the election superintendent for the primary, election, or runoff. If a seal number does not match or if there is any evidence or indication of tampering with the seal or unit, the Secretary of State and the election superintendent shall be immediately notified and such unit shall not be used until such matters are resolved by agreement of the Secretary of State, the election superintendent, and the registrars. The set up shall be performed in public and the public may view the set up subject to such reasonable rules and regulations as the registrars may deem appropriate to protect the security of the DRE units and to prevent interference with the duties of the registrars, except that the public view shall not be obstructed. The registrars shall run a zero tape on each DRE unit prior to the beginning of absentee voting on such units. The registrars shall, without removing the tape from the unit, verify that all vote registers shown on the zero tape are set to zero and that there are no votes showing on the unit and shall sign the tape in the space provided. If the zero tape does not show that all vote registers are set to zero and that there are votes on the unit, the election superintendent shall be immediately notified and such unit shall not be used until the unit is cleared and the matter is resolved by agreement of the election superintendent and the registrars. After verifying and signing the zero tape, the registrars shall securely lock the tape compartment leaving the zero tape in place on the unit and shall configure the unit for voting. The registrars shall verify that the election counter on each DRE unit is set at zero. If the election counter is not set to zero, the election superintendent shall be immediately notified and such unit shall not be used until the election counter is set to zero and the matter is resolved by agreement of the election superintendent and the registrars. The registrars shall verify that there is no unauthorized matter affixed to the DRE units or present in the cases or voting booths. The registrars shall affix a card of instructions for voting within each voting booth. Prior to voters entering the voting booth, the registrars may also distribute to such voters a card of instructions for voting on the DRE unit that has been approved or provided by the Secretary of State. Each DRE unit shall be clearly marked with a unique designation that is visible on the exterior of the unit.

(7) If a DRE unit is to be used for the creation of voter access cards, such DRE unit shall be set up properly for such purpose and shall be used exclusively for such purpose and no other purpose during the absentee voting period. The set up shall be performed in public and the public may view the set up subject to such reasonable rules and regulations as the registrars may deem appropriate to protect the security of the DRE unit and to prevent interference with the duties of the registrars, except that the public view shall not be obstructed. The registrars shall run a zero tape on the DRE unit prior to creating any voter access cards on such unit. The registrars shall, without removing the tape from the unit, verify that all vote registers shown on the zero tape are set to zero and that there are no votes showing on the unit and shall sign the tape in the space provided. If the zero tape does not show that all vote registers are set to zero and that there are votes on the unit, the election superintendent shall be immediately notified and such unit shall not be used until the unit is cleared and the matter is resolved by agreement of the election superintendent and the registrars. After verifying and signing the zero tape, the registrars shall securely lock the tape compartment leaving the zero tape in place on the unit and shall configure the unit for the creation of voter access cards. The registrars shall verify that the election counter on the unit is set at zero. If the election counter is not set to zero, the election superintendent shall be immediately notified and such unit shall not be used until the election counter is set to zero and the matter is resolved by agreement of the election superintendent and the registrars. The registrars shall make a notation of the election counter reading on the daily recap sheet.

(8) At the close of business each day during the absentee voting period, the registrars shall document the election counter number on the daily recap sheet. Each DRE unit used for in-person absentee voting shall then be turned off and closed. The memory card (PCMCIA card) shall remain in the unit at all times during the absentee balloting period until the polls close on the day of the primary, election, or runoff. Each DRE unit shall then be sealed and the seal number and the time of sealing shall be recorded on the daily recap sheet. Each DRE unit shall then be secured overnight. In addition, all voter access cards shall be securely stored overnight and when not in use. If a DRE unit is used to program voter access cards, the registrars shall make a notation of the election counter number

on the daily recap sheet. If such number is not zero, the registrars shall notify the Secretary of State immediately and shall ascertain the reason for the discrepancy and shall make a notation of such discrepancy and the reason for it on the daily recap sheet. Such DRE unit shall not be used for creation of voter access cards unless and until the unit is fully tested and reconfigured and the election counter reset at zero pursuant to procedures established by the Secretary of State. The DRE unit shall be turned off and secured for the night.

(9) Each morning during the absentee balloting period, the registrars shall publicly verify the seal numbers on each DRE unit to be used for absentee voting with the number of the seal recorded on the daily recap sheet from the previous day of absentee voting and shall verify that the seal and DRE unit do not show any signs of tampering. If the seal number corresponds to the entry on the daily recap sheet and there is no evidence of tampering, the DRE unit shall be opened and turned on. If the numbers do not match or there is evidence of tampering, the Secretary of State shall be notified immediately and the unit shall not be used until such discrepancy is resolved to the satisfaction of the Secretary of State, the election superintendent, and the registrars. After opening and turning on the unit, the registrars shall verify the election counter number with the number recorded on the daily recap sheet from the previous day of absentee voting. If the numbers do not match, the Secretary of State shall be immediately notified and the unit shall not be used until such discrepancy is resolved to the satisfaction of the Secretary of State, the election superintendent, and the registrars. The election counter number shall then be entered onto the daily recap sheet for that day. If a DRE unit is to be used for programming voter access cards, the registrars shall open and turn on the power for such unit. The registrars shall then verify that the election counter is set on zero. If the election counter is not set at zero, the Secretary of State shall be immediately notified and the unit shall not be used until such discrepancy is resolved to the satisfaction of the Secretary of State, the election superintendent, and the registrars. A notation shall be made on the daily recap sheet of the election counter number and the unit shall be configured to create voter access cards.

(10) Voters who vote absentee ballots in person on the DRE units shall first complete an absentee ballot application and sign an oath

document. After the registrars determine that the voter is eligible to vote by absentee ballot, the registrars shall note the voter's registration number and ballot style on the absentee ballot application. The voter shall then be issued a voter access card. The registrars shall record on the absentee voter log the voter's name, registration number, voter ID number, and designation of the DRE unit on which the voter shall vote. The voter shall then be permitted to vote on the designated DRE unit. After completing voting, the voter shall return the voter access card to the registrars.

(11) At the close of business on the day before the primary, election, or runoff at the end of the absentee balloting period, the registrars shall record the election counter number on the daily recap sheet. The registrars shall publicly configure the DRE units used for absentee voting to end the election and prevent further voting on the units. The units shall then be shut down and sealed. The registrars shall record the seal numbers on the daily recap sheet. The units shall then be secured until time for the tabulation of votes. For the DRE unit used for the creation of voter access cards, such unit shall be secured and returned to the election superintendent. Two zero tapes shall be printed and signed by the registrars confirming that all vote counters are set at zero. The memory card (PCMCIA cards) from the units used for the creation of voter access cards shall be removed from the units and placed along with the signed zero tapes in a sealed envelope which shall be returned to the election superintendent.

(12) At the close of the polls on the day of the primary, election, or runoff, the registrars shall deliver all of the DRE units used for inperson absentee voting and all other absentee ballots received in accordance with the provisions of the Georgia Election Code (O.C.G.A. Ch. 21-2) to the manager of the absentee ballot precinct. The poll officers of the absentee ballot precinct shall count all of the absentee ballots in accordance with the procedures required by law and the rules of the State Election Board. The poll officers shall verify the seal number of each DRE unit with the number recorded on the daily recap sheet form and shall inspect each seal and unit to verify that there is no evidence of tampering with the unit. If the seal numbers are not correct or there is evidence of tampering, the Secretary of State shall be notified immediately and no further action shall be taken with regard to such unit until the reason for the

discrepancy has been determined to the satisfaction of the Secretary of State, the election superintendent, and the manager of the absentee ballot precinct. After verifying the seal number and the integrity of the seal on each unit, the poll managers shall open each unit and turn on the power for the unit. The managers shall then compare the numbers shown on the election counters of the unit with the numbered list of absentee electors, the absentee voter log, and the absentee ballot precinct recap form to verify that there are no discrepancies. If there is a discrepancy, the Secretary of State shall be notified immediately and no further action shall be taken until the reason for the discrepancy has been determined to the satisfaction of the Secretary of State, the election superintendent, and the manager of the absentee ballot precinct. The managers of the absentee ballot precinct shall accept or reject absentee ballots cast on DRE units as directed by the registrars, using the procedures established by the Secretary of State. After completion of the acceptance and re-rejection process for the absentee ballots cast on the DRE units, the poll manager shall cause each DRE unit to print a minimum of three tapes showing the vote totals as cast on that DRE unit. The poll manager and the assistant managers shall sign each of the tapes or shall write on the tapes the reason why the poll manager or the assistant managers will not sign the tapes. One copy of the results tape for each DRE unit shall be posted on the door of the absentee ballot precinct for the information of the public. The memory card (PCMCIA card) and two signed tapes from each DRE unit shall be placed in the appropriate envelope supplied by the election superintendent which shall be sealed and initialed by the poll manager and at least one assistant manager such that the envelope cannot be opened without breaking such seal. After completing the printing of the results, the DRE units shall be turned off and secured in their cases and resealed. The DRE units shall then be placed in a secure area with appropriate climate control. The memory cards (PCMCIA cards), results tapes, voter access cards, supervisor's card, ballot encoder devices, numbered lists of absentee voters, absentee ballot precinct recap forms, and other such paperwork shall be transported to the office of the election superintendent by the poll manager and at least one other poll officer. The election superintendent or his or her designee shall receive the materials and shall issue a receipt to the poll manager for the materials.

(13) Any notices to the Secretary of State about discrepancies in

numbers or seals, zero tapes, or election counters shall also be forwarded to members of the State Election Board, but such information shall be considered confidential if the Secretary of State has in-itiated an investigation of the matter.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Use of DRE Units for Absentee Balloting" adopted. F. Oct. 24, 2003; eff. Nov. 13, 2003.

### **183-1-14-.03 Provisional Absentee Ballots.**

(1) Except as otherwise provided by O.C.G.A. § 21-2-220(c), when the registrars receive a request for an absentee ballot from a voter who registered to vote for the first time in this state by mail and has not provided the identification required by O.C.G.A. § 21-2-220, the registrars shall process the request in the same manner as other requests for absentee ballots. If the voter is found to be eligi-ble to vote by absentee ballot, the registrars shall issue a ballot to the voter and mark the outer oath envelope with the code "IR," In addition to the information concerning how to vote the ballot, the registrars shall also enclose with the absentee ballot instructions on providing proper identification and in accessing the free access system to determine if the ballot was counted as required by O.C.G.A. § 21-2-418(e) and (f).

(2) When an absentee ballot is received from a voter who registered to vote for the first time in this state by mail and has not provided the identification required by O.C.G.A. § 21-2-220, except as otherwise provided by O.C.G.A. § 21-2-220(c), the registrars shall process the ballot as other absentee ballots returned by voters. If the ballot is accepted by the registrars but the voter has not provided the required identification, the ballot shall be treated as a provisional ballot and shall be held separate and apart from the other absentee ballots. The registrars shall maintain a numbered list of provisional absentee ballots.

(3) If an absentee voter whose ballot has been accepted but treated as a provisional ballot for failure to provide the required identification provides the required identification prior to the close of the polls on the day of the election, the voter's ballot shall be treated as a regular absentee ballot and the voter shall be switched from the numbered list of provisional absentee voters to the num-bered list of regular absentee voters.

(4) As soon as practicable after 12:00 Noon on the day of the primary, election, or runoff, the registrars shall begin to deliver all accepted regular and provisional absentee ballots to the absentee ballot precinct in accordance with law. The provisional absentee ballots shall be retained by the poll officers at the absentee ballot precinct or tabulating center, as the case may be, unopened and shall not be counted. The provisional absentee ballots shall be placed in a secure container for provisional ballots and shall be transferred to the election superintendent with the other absentee ballots and election materials from the absentee ballot precinct or tabulating center, as the case may be.

(5) If, by the end of the period set by law for the verification of provisional ballots, the registrars receive the required identification from an absentee voter who failed initially to provide the required identification, then the registrars shall notify the election superintendent to count the ballot of such voter in the same manner as other verified provisional ballots from the polls. If the registrars do not receive the required identification from such absentee voter by the end of the period set by law for the verification of provisional ballots, the registrars shall notify the election superintendent to not count the ballot and the ballot shall remain unopened and sealed and shall be retained in accordance with law with the other provisional ballots which the registrars did not verify for counting.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Provisional Absentee Ballots" adopted. F. Oct. 24, 2003; eff. NOT. 13, 2003.

#### **183-1-14-.04 Reporting Requirements for Absentee Ballots.**

(1) The registrars of each county shall on the 32nd day prior to each statewide general primary and general election submit to the Secretary of State on a form provided by the Secretary of State information concerning absentee ballots requested by electors who are entitled to vote by absentee ballot under the federal Uniformed and Overseas Citizens Absentee Voting Act, 42 U.S.C. § 1973ff, et seq., as amended, Such report shall include the number of absentee ballots requested by each such category of absentee voter, the date on which the absentee ballots were available in the registrars' office, and the date on which the ballots requested by such voters were sent to the voters. The Secretary of State may request further information related to the application for and the transmittal

of such ballots.

(2) The report shall be submitted to the Secretary of State either by facsimile or other electronic means on the 32nd day prior to each statewide general primary and general election.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Absentee Electors and Campaigning in or Near Absentee Polling Places" adopted as ER. 1S3-1-14-0.5-.04. F. Sept. 10, 2004; eff. Sept. 9, 2004, the date of adoption. **Amended:** Permanent Rule entitled "Reporting Requirements for Absentee Ballots" adopted. F. Dec. 21, 2005; eff. Jan. 10, 2006. **Repealed:** New Rule of same title adopted. F. Mar. 17, 2011; eff. Apr. 6, 2011.

### **183-1-14-.05 State Write-In Absentee Ballot.**

(a) The Secretary of State shall design a state write-in absentee ballot for use in runoff primaries and runoff elections by an elector of this state who resides outside the county or the municipality in which the election is being conducted and is: (1) a member of the armed forces of the United States, a member of the merchant marine of the United States, a member of the commissioned corps of the Public Health Service or the National Oceanic and Atmospheric Administration, or a spouse or dependent of such member residing with or accompanying said member; or (2) A citizen of the United States residing outside the United States.

(b) Such state write-in absentee ballot shall be designed in such a manner as to permit the person voting such ballot to write-in the name of a candidate or candidates for state offices that are elected on a state-wide basis and for all federal offices in a runoff primary or runoff election. Such state write-in ballot shall automatically be included with any absentee ballot sent to such eligible electors for any general primary or general election. No special request for such ballot shall be required in such circumstances.

(c) Such ballot shall either have attached to or have included with such ballot two envelopes, One envelope shall have printed on such envelope the words "Official State Write-In Absentee Ballot" and nothing else. The other envelope shall be designed such that the first envelope will fit inside it and shall have printed on one side the absentee elector oath and the other side shall contain a place for the elector to address the ballot to the appropriate board of registrars or board of elections and registration in this state for mailing.

(d) The Secretary of State shall prepare and print instructions for completing and returning such ballot that shall also be enclosed with such ballot. The state write-in absentee ballot, the envelopes for returning it, and the instructions shall be enclosed with the regular absentee ballot, envelopes, and instructions for completing and returning the regular absentee ballot.

(e) Such ballots shall be made available in a downloadable electronic form on the Secretary of State's website as well as in printed form. Additionally, the Secretary of State and the county registrars shall provide for the transmission of such blank ballots by facsimile transmission and electronic mail transmission to electors. Instructions for voting such ballots shall be included on the website and shall accompany any facsimile and electronic mail ballot transmissions. Voted ballots shall not be returned by facsimile or electronic mail.

(f) As soon as practicable after a general primary or general election, the Secretary of State shall cause to be published on the official website of the Secretary of State a list of all federal offices and state offices in which there will be a runoff primary or runoff election, as the case may be, along with the names of the candidates who will be on the ballot in such runoff.

(g) If an elector obtains the ballot by facsimile or by downloading from electronic mail or the Secretary of State's website, the elector shall return the ballot by mail using two envelopes. The elector shall enclose and seal the ballot in a plain envelope and insert that envelope into another envelope for transmission to the registrars. The elector shall copy and sign the appropriate oath onto the back of the outer envelope. The Secretary of State shall provide a sample envelope and oath form on the Secretary of State's website in such a manner that such form may be used by an elector to print out the forms for the purpose of pasting or attaching such forms to an envelope for returning the ballot or for printing an envelope for returning the ballot.

(h) If the registrars receive both the official absentee runoff ballot and the state write-in absentee ballot from an elector during the time period for receiving such ballots, the registrars shall submit only the official absentee runoff ballot for counting. In such case, the state

write-in absentee ballot shall be handled in the same manner as ballots that are received too late for counting. In order to ensure that the correct ballot is counted, the registrars shall hold the ballots of individuals to whom both an official absentee runoff ballot and a state write-in ballot have been sent until the close of the absentee voting period before submitting such ballots for counting.

(i) The failure of an elector to seal the ballot in an inner envelope alone shall not be grounds for rejecting such ballot. The failure of the elector to complete the oath required of absentee voters on the outer envelope shall be cause to reject such ballot.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "State Write-In Absentee Ballot" adopted, F. Dec. 21, 2005; eff. Jan. 10, 2006.

### **183-1-14-.06 Spoiled Absentee Ballots.**

(1) When an absentee ballot is spoiled, the elector may write "Spoiled" across the face of the ballot, then fold the ballot and enclose and securely seal the same in the envelope on which is printed "Official Absentee Ballot." This envelope shall then be placed in the second one, on which is printed the form of the oath of the elector, the name, relationship, and oath of the person assisting, if any, and other required identifying information. The elector shall then fill out the required information on such envelope, without the requirement to subscribe or swear to the oath printed on such envelope. Such envelope shall then be securely sealed and the elector shall write across the face of the envelope "Spoiled" and then mail or personally deliver same to the board of registrars or absentee ballot clerk in accordance with O.C.G.A. Section 21-2-385.

(2) Upon receipt of an absentee ballot upon which the word "Spoiled" has been written across the face of the envelope, a registrar or absentee ballot clerk shall write the day and hour of the receipt of the ballot on its envelope. The registrar or absentee ballot clerk shall, within two days after the receipt of such ballot, mail or issue another official absentee ballot to the elector. All returned spoiled ballots shall be safely kept unopened by the board or absentee ballot clerk and then transferred to the appropriate clerk for storage for the period of time required for the preservation of ballots used at the primary or election and shall then, without being opened, be destroyed in like manner as the used ballots of the primary or

election.

(3) The directions that explain how to cast a vote and how to obtain a new ballot after one is spoiled shall appear immediately under the caption on the ballot in substantially the following form as appropriate for that particular primary or election:

To vote, blacken the Oval (\_\_\_) next to the candidate of your choice. To vote for a person whose name is not on the ballot, manually WRITE his or her name in the write-in section and blacken the Oval (\_\_\_) next to the write-in section. If you desire to vote YES or NO for a PROPOSED QUESTION, blacken the corresponding Oval (\_\_\_). Use only blue or black pen or pencil.

Do not vote for more candidates than the number allowed for each specific office. Do not cross out or erase. If you erase or make other marks on the ballot or tear the ballot, your vote may not count.

If you change your mind or make a mistake, you may return the ballot by writing “Spoiled” across the face of the ballot and return envelope. You may then mail the spoiled ballot back to your county board of registrars, and you will be issued another official absentee ballot. Alternatively, you may surrender the ballot to the poll manager of an early voting site within your county or the precinct to which you are assigned. You will then be permitted to vote a regular ballot.

“I understand that the offer or acceptance of money or any other object of value to vote for any particular candidate, list of candidates, issue, or list of issues included in this election constitutes an act of voter fraud and is a felony under Georgia law.”

Authority O.C.G.A. Secs. 21-2-31, 21-2-284, 21-2-285, 21-2-383, 21-2-388, 21-2-480. **History.** Original Rule entitled “Spoiled Absentee Ballots” adopted. F. Oct. 29, 2009; eff. Nov. 18, 2009.

### **183-1-14-.07 Spoiled Ballot Definition.**

(1) **Definitions.** As used in these rules and the Georgia Election Code, the term:

(a) “Spoiled ballot” includes a ballot

1. that has been torn, defaced, or physically deformed;

2. on which there are cast more than the permitted number of votes;
3. that has been completed in a manner which is illegible or incomprehensible;
4. that contains writing which compromises the secrecy of the ballot;
5. that is marked improperly, inappropriately, or in such a way that it would be rejected;
6. that was issued in error by the election official; or
7. that contains the wrong precinct, party, or style.

(2) A spoiled ballot shall not be reinstated.

Authority O.C.G.A. Secs. 21-2-31, 21-2-284, 21-2-285, 21-2-285.1, 21-2-379.11, 21-2-390, 21-2-433, 21-2-434, 21-2-436, 21-2-437, 21-2-440, 21-2-480, 21-2-483, 21-2-484, 21-2-493, 21-2-587. **History.** Original Rule entitled "Spoiled Ballot Definition" adopted. F. Oct. 29, 2009; off. Nov. 18, 2009.

### **183-1-14-.08 Additional Sites as Additional Registrar's Offices or Places of Registration for Absentee Ballots.**

(1) Definitions. As used in this rule and O.C.G.A. Section 21-2-382, the term:

(a) "Government building generally accessible to the public" means any building or structure which is used by the public:

1. that is owned, leased, operated, or used by, the State of Georgia, its agencies and authorities, and any political subdivision of the state, municipal corporation, or local board or authority created by general, local, or special Act of the General Assembly or by ordinance or resolution of the governing body of a county or municipal corporation individually or jointly with other political subdivisions or municipalities of the State; and

2. that is constructed or renovated in whole or in part by use of state, country, or municipal funds, the funds of any political subdivision of the State; or, to the extent not required otherwise by

federal law or regulations and not beyond the power of the State to regulate, federal funds.

(2) A board of registrars may establish additional sites as additional registrar's offices or places of registration for the purpose of receiving absentee ballots under O.C.G.A. Section 21-2-381 and for the purpose of voting absentee ballots under O.C.G.A. Section 21-2-385. Whenever practicable, a branch of the county courthouse, a courthouse annex, a government service center providing general government services, or another government building generally accessible to the public shall be utilized for such additional sites.

Authority O.C.G.A. Secs. 21-2-31, 21-2-S82, 30-3-2, 31-12A-3. **History.** Original Rule entitled "Additional Sites as Additional Registrar's Offices or Places of Registration for Absentee Ballots" adopted. F. Dec. 15, 2009; eff. Jan. 2010.

### **183-1-14-.09 Voted Absentee Ballots.**

(1) Definitions. As used in this Rule and O.C.G.A. Section 21-2-388, the phrase:

(a) "An absentee ballot which has been voted" means an absentee ballot that has been returned to and received by the board of registrars and has been certified in accordance with subsection (a) of O.C.G.A. Section 21-2-386 by the board of registrars.

(2) When an absentee ballot which has been voted shall be returned to and received by the board of registrars, it shall be deemed to have been voted then and there; and no other ballot shall be issued to the same elector. If the board of registrars or absentee ballot clerk rejects or otherwise fails to certify an absentee ballot in accordance with subsection (a) of O.C.G.A. Section 21-2-386, the elector shall be provided the opportunity to vote in the primary, election, or runoff either by applying for a second absentee ballot prior to the day before such primary, election, or runoff or by voting in person at the elector's polling place on the day of the primary, election, or runoff.

Authority O.C.G.A. Secs. 21-2-31, 21-2-388. **History.** Original Rule entitled "Voted Absentee Ballots" adopted. F. Oct. 29, 2009; eff. Nov. 18, 2009.

**183-1-14-10 Acceptance of Absentee Ballots From Military and Overseas Citizens.** Absentee ballots cast in a primary, election, or runoff by eligible electors who reside outside the county

or municipality in which the primary, election, or runoff is held are members of the armed forces of the United States, members of the merchant marine of the United States, spouses or dependents of members of the armed forces or merchant marine residing with or accompanying such member, or overseas citizens that are received by United States Mail or commercial courier, without bearing a postmark, and within the three-day period following such primary, election, or runoff, if proper in all other respects, shall be valid ballots and shall be counted and included in the certified election results.

Authority O.C.G.A. Secs. 21-2-31, 21-2-388. **History.** Original Rule entitled "Acceptance of Absentee Ballots From Military and Overseas Citizens" adopted. F. Oct. 29, 2009; eff. Nov. 18, 2009.

**183-1-14.11 Mailing and Issuance of Ballots.** During early voting, as additional applicants for absentee ballots are determined to be eligible, the board of registrars or absentee ballot clerk shall mail or issue official absentee ballots to such additional applicants immediately upon determining their eligibility. The board or clerk shall make such determination and mail or issue official absentee ballots to such additional eligible applicants within 3 business days after receiving the absentee ballot applications.

Authority O.C.G.A. Secs. 21-2-31, 21-2-384. **History.** Original Rule entitled "Mailing and Issuance of Ballots" adopted. F. May 27, 2011; eff. June 10, 2011.

### **Rule 183-1-14.12. Eligibility of Application for Absentee Ballot**

The application for an absentee ballot shall be in writing and shall contain sufficient information for proper identification of the elector. To be deemed sufficient, an application for an absentee ballot must contain the signature of the applicant.

1. In the case of the elector making such application for an absentee ballot, the application shall contain the signature of such elector.
2. In the case of a relative making an application on behalf of an elector pursuant to O.C.G.A. § 21-2-381(a)(1)(B), the application shall contain the signature of the elector's relative as well as the relationship of the relative to the elector.

RETURNS OF PRIMARIES AND ELECTIONS**

**TABLE OF CONTENTS**

**183-1-15-.01 Repealed**

**183-1-15-.02 Definition of Vote**

**183-1-15-.01 Repealed.**

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Notification and Certificate of Nomination for Political Party Nominees" adopted. F. May 26, 1970; eff. June 14, 1970. **Amended:** F. Oct. 20, 1975; eff. Nov. 9, 1975. **Amended:** Rule retitled "Certificate of Nomination for Political Party Nominees". F. Mar. 6, 1987; eff. Mar. 26, 1987. **Repealed:** F. Dec. 11, 2003; eff. Dec. 31, 2003.

**183-1-15-.02 Definition of Vote.**

(1) DRE Equipment. A vote cast on a DRE unit shall be the choice made by a voter by:

(a) Pressing the appropriate place on the DRE unit's touchscreen to cause an "X" or similar designation to display adjacent to the name of the candidate or answer to a question for which the voter desires to vote;

(b) Typing on the touchscreen the name of a qualified write-in candidate in accordance with the instructions for voting on the DRE unit; or

(c) Pressing the appropriate buttons on the keypad in the case of persons using the VWD device attached to the DRE unit.

(2) Lever-type Voting Machines. A vote cast on a lever-type voting machine shall be the choice made by a voter by either operating the lever adjacent to the name of the candidate or answer to a question for which the voter desires to vote or by writing of the name of a qualified write-in candidate on the machine in accordance with the instructions for voting on the voting machine and then recording such votes on the machine by the actuation of the main lever which casts such votes and returns the other levers to their original positions.

### (3) Optical Scan Voting Systems.

(a) A vote cast on an optical scan voting system shall be the choice made by a voter by either:

1. Filling in the oval or completing the arrow adjacent to the name of the candidate or answer to a question for which the voter desires to vote; or

2. Filling in the oval or completing the arrow adjacent to the appropriate write-in space and writing the name of a qualified write-in candidate in the appropriate space on the ballot as specified in the instructions for voting such ballot.

(b) In reviewing an optical scan ballot which has been rejected as containing an overvote in accordance with O.C.G.A. § 21-2-483(g)(2), if the voter filled in the oval or completed the arrow next to the name of a candidate whose name appears on the ballot and filled in the oval or completed the arrow adjacent to the write-in space and wrote the name of the same candidate in the write-in space for the same office, the properly cast vote shall be counted and the write-in vote shall be ignored.

(c) If, in reviewing an optical scan ballot which has been rejected as containing an overvote in accordance with O.C.G.A. § 21-2-483(g)(2), it appears that there is a properly cast vote and what is clearly a stray mark which has caused the tabulator to read the vote for such office as an overvote, the properly cast vote shall be counted and the stray mark shall be ignored.

(d) If, in reviewing an optical scan ballot which has been rejected as containing an overvote in accordance with O.C.G.A. § 21-2-483(g)(2), a voter marks his or her ballot in a manner other than that specified by law and this rule, the votes shall be counted if, in the opinion of the vote review panel as provided in O.C.G.A. § 21-2-483(g)(2)(B), the voter has clearly and without question indicated the candidate or candidates and answers to questions for which such voter desires to vote.

(e) When an optical scan ballot contains stray marks or marks which prevent the tabulating machine from properly recording valid

votes as determined under this rule and by law, the ballot shall be duplicated in accordance with law to correct such problems and the duplicate shall then be tabulated.

(4) Paper Ballots.

(a) A vote cast on a paper ballot shall be a choice made by a voter by either:

1. Placing an “X”, a check, or other similar mark in the square adjacent to the name of the candidate or answer to a question for which the voter desires to vote; or

2. Writing the name of a qualified write-in candidate in the appropriate space on the ballot as specified in the instructions for voting such ballot.

(b) If a voter marks his or her paper ballot in a manner other than that specified by law and this rule, the votes shall be counted if, in the opinion of the poll officers as provided in O.C.G.A. § 21-2-439, the voter has clearly and without question indicated the candidate or candidates and answers to questions for which such voter desires to vote.

(c) If the voter marked the square next to the name of a candidate whose name appears on the ballot and wrote in the name of the same candidate in the write-in space for the same office, the properly cast vote shall be counted and the write-in vote shall be ignored.

(5) Write-in Votes. In no event shall votes cast for write-in candidates who have not qualified in accordance with O.C.G.A. § 21-2-133 be counted or recorded.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled “Definition of Vote” adopted. F. Oct. 24, 2003; eff. Nov. 13, 2003.

PENALTIES**

**TABLE OF CONTENTS**

**183-1-20-.01 Giving or Receiving, Offering to Give or Receive, or Participating in the Giving or Receiving of Money or Gifts for Registering as a Voter, Voting, or Voting for a Particular Candidate**

**183-1-19-.01 Giving or Receiving, Offering to Give or Receive, or Participating in the Giving or Receiving of Money or Gifts for Registering as a Voter, Voting, or Voting for a Particular Candidate.** In the interpretation of O.C.G.A. Section 21-2-570, the State Election Board has determined that the prohibition contained therein against the giving or receiving, offering to give or receive, or participating in the giving or receiving of money or gifts for the purpose of registering as a voter or voting does not include the provision of postage to a person solely for the purpose of (1) mailing a voter registration application in order for such person to register to vote or (2) mailing an absentee ballot application or an absentee ballot that was voted and sealed by such person in order for such person to vote.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Giving or Receiving, Offering to Give or Receive, or Participating in the Giving or Receiving of Money or Gifts for Registering as a Voter, Voting, or Voting for a Particular Candidate" adopted, F. Dec. 21, 2005; eff. Jan. 10, 2006.

**RULES  
OF  
STATE ELECTION BOARD  
GEORGIA ELECTION CODE**

**CHAPTER 183-1-20  
GEORGIA VOTER IDENTIFICATION CARD**

**TABLE OF CONTENTS**

**183-1-20-.01 Georgia Voter Identification Card**

**183-1-20-.01 Georgia Voter Identification Card.**

(1) **Intent and Purpose.** These rules are promulgated pursuant to the authority granted the State Election Board under O.C.G.A. §§21-2-417.1 and 21-2-31. It is the intent of the State Election Board to provide for the time, place and manner in which each county Board of Registrars shall issue the Georgia Voter Identification Card to eligible electors and to provide for the acceptable types of documentation necessary to obtain a Georgia Voter Identification Card. To this end, the State Election Board has promulgated these rules and regulations.

(2) **Application for the Georgia Voter Identification Card.**  
Beginning with the July 18, 2006, Party Primary Election each county registrar shall provide the application for the Georgia Voter Identification Card in the form designed and published by the State Election Board or its member designee(s). Any registered voter who meets the criteria in O.C.G.A. § 21-2-417.1 and wishes to obtain a Georgia Voter Identification Card shall be required to submit the information requested in such application. It shall be the responsibility of each county registrar to ensure that each accepted application is complete.

**(3) Availability of the Georgia Voter Identification Card.**

(a) Each county shall provide a place within the voter registrar’s primary or main office location, as previously approved by the Department of Justice, to process applications for Georgia Voter

Identification Cards and to process and distribute such cards.

(b) Each county registrar's office may provide additional locations or extended hours for processing applications for the Georgia Voter Identification Card and processing and distributing the cards but shall be required to comply with criteria for establishment of additional voter registration places as outlined in 183-1-6-.03(3).

(c) Each county registrar's office shall be open a minimum of eight hours per day on Monday through Friday of the week before the final primary, election, or run-off election day, except for legally observed holidays, and shall otherwise be open during normal business hours of the office in order to allow registered voters to apply for and obtain a Georgia Voter Identification Card.

(d) The voter registrar's office of each county shall provide the application and process the Georgia Voter Identification Card using the equipment, forms, supplies, and written training materials and/ or verbal training provided by the State Election Board.

(e) Each county Board of Registrars shall sign and maintain an intergovernmental agreement provided by the State Election Board outlining the use of the equipment.

**(4) Documentation required for application and issuance of the Georgia Voter Identification Card.**

(a) In accordance with O.C.G.A. § 21-2-417.1(e), the Board of Registrars shall require the presentation and verification of the following information before issuing a Georgia Voter Identification Card:

1. A photo identity document, except that nonphoto identity document is acceptable if it includes both the applicant's full legal name and date of birth;

2. Documentation showing the applicant's date of birth;

3. Evidence that the applicant is registered to vote in the State of Georgia, either by voter precinct card, a new voter registration application or confirmation of voter's record on the statewide voter

registration system or by verifying the original application in the voter registrar's office; and

4. Documentation showing the applicant's name and principal residence address.

(b) In determining whether the requirements of O.C.G.A. § 21-2-417.1(e) have been met, the following shall apply:

1. Any of the following which contains a photograph of the applicant shall constitute a photo identity document, as provided in O.C.G.A. § 21-2-417.1(e)(1):

(i) Student ID Card including public or private high school, college, university, or vocational school;

(ii) Transit Card;

(iii) Pilot's License;

(iv) Nursing Home Identification Card;

(v) Employee Identification Card;

(vi) Government Housing Authority Identification Card;

(vii) Any government issued license;

(viii) Any card accepted by local, state or federal government for the provision of benefits; or

(ix) Any card accepted by local, state or federal government for access to buildings.

2. Any of the following shall constitute a nonphoto identity document in lieu of a photo identity document as provided in O.C.G.A. § 21-2-417.1(e)(l) only if it includes both the applicant's full legal name and date of birth:

(i) Original birth certificate or certified copy of birth certificate;

- (ii) Certificate of birth registration;
- (iii) Voter Registration Application;
- (iv) Copy of records filed in court by the applicant or on behalf of the applicant by the applicant's counsel;
- (v) Naturalization documentation;
- (vi) Copy of Marriage License Application;
- (vii) A copy of the applicant's State or Federal Tax Return filed for the previous calendar year;
- (viii) Any other document issued by local, state, or federal government so long as the document provides a reasonably reliable confirmation of the identity of the applicant;
- (ix) Paycheck or paycheck stub bearing the imprinted name of the applicant's employer;
- (x) An original of the annual social security statement received by the applicant for current or preceding calendar year;
- (xi) An original of a Medicare or Medicaid statement received by the applicant;
- (xii) Certified school record or transcript for current or preceding calendar year;
- (xiii) Hospital birth certificate;
- (xiv) An authenticated copy of a doctor's record of post-natal care;  
or
- (xv) A federal Affidavit of Birth, form DS-10.

3. The registrar shall accept as documentation showing the applicant's date of birth under O.C.G.A. § 21-2-417.1(e)(2) any of the documents described in subparagraph (b)2. above.

4. The registrar shall accept as proof of voter registration under

O.C.G.A. § 21-2-417.1(e)(3) the applicant's voter registration application or a voter's precinct card.

5. Any of the documents described in subparagraphs (b)1. and 2. shall be acceptable as documentation showing the applicant's name and address of principal residence under O.C.G.A. § 21-2-417.1(e)(4) if the documentation contains the applicant's name and address of principal residence. In addition, the registrar shall also accept the following as documentation showing the applicant's name and address of principal residence if the applicant's name and address of principal residence appears on the document:

- (i) Voter Precinct Card;
- (ii) Utility or cable bill issued within the last sixty (60) days;
- (iii) Bank statement issued within the last sixty (60) days;
- (iv) Currently valid rental contracts and/or receipts for payments made within the last sixty (60) days for rent payments;
- (v) A copy of the applicant's State or Federal income tax return filed for the preceding calendar year;
- (vi) Homeowners insurance policy or bill for current or preceding calendar year;
- (vii) Mortgage, payment coupon, deed, or property tax bill for current or preceding calendar year;
- (viii) Current Automobile Registration Receipt;
- (ix) Homestead Exemption documentation; or
- (x) W-2 for the preceding calendar year.

6. The application and supporting documentation of any applicant who is denied a Georgia Voter Identification Card shall be immediately forwarded via facsimile and U.S. mail to the State Election Board for automatic review to determine if the applicant has provided reasonably reliable documentary indicia confirming the

identity of the applicant in which case the State Election Board shall direct the voter registrar to issue the Georgia Voter Identification Card.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Georgia Voter Identification Card" adopted. F. June 19, 2006; eff. July 9, 2006.

-------------	---------------------------------	-------------	---

**590-8-1-.01 Certification of Voting Systems.**

**(a) Purpose.**

1. These Rules establish performance requirements and characteristics for voting systems and their components used in the State of Georgia and identify performance characteristics of these systems and components.
2. Compliance with the requirements of these Rules shall be assessed by means of code analysis, formal tests, and documentation review.
3. The intent of these Rules is to assure that hardware, firmware, and software have been shown to be reliable, accurate, and capable of secure operation before they are used in elections in the State. Hardware, firmware, and software products with performance proven in commercial applications are deemed inherently acceptable, provided that they are shown to be compatible with the operational and administrative requirements of the voting environment. Products not in wide commercial use, regardless of their performance histories, shall require Qualification, Certification, and Acceptance tests before they can be used.
4. These rules are intended to assist local jurisdictions in identifying products and provide a standardized terminology which shall facilitate the specification and demonstration of system requirements.

**(b) Applicability.**

1. These Rules are applicable to voting systems first used in the State of Georgia on or after the effective date of these Rules. These Rules are waived for all voting systems in use in the State of Georgia as of the effective date of these Rules. Successful performance during past elections are deemed sufficient evidence of adequate design. These Rules shall apply to systems developed by non-governmental third parties and those developed in-house by a local government.

2. These Rules apply to all equipment and computer programs used in a voting system including, but not limited to, the hardware, firmware, and software required for defining an election, formatting ballots, setting up precincts for voting, recording votes, tallying the results, and producing all reports.

3. These Rules apply to any agency, group, or individual responsible for the analysis, design, manufacture, procurement, or use of voting systems, their subsystems, or their components.

4. Any modification to the hardware, firmware, or software of a voting system which has completed Qualification, Certification, or Acceptance testing in accordance with these Rules shall invalidate the State certification unless it can be shown that the modification does not affect the overall flow of program control or the manner in which the ballots are recorded and the vote data are processed, and the modification falls into one of the following classifications listed below. The Secretary of State shall be the sole judge of whether or not a modification requires additional testing.

(i) The modification is made for the purpose of correcting a defect and procedural and test documentation is provided which verifies that the installation of the hardware change or corrected code does not result in any consequence other than the elimination of the defect.

(ii) The modification is made for the purpose of enabling interaction with other general purpose or approved equipment or computer programs and databases, and procedural and test documentation is provided which verifies that such interaction does not involve or adversely affect vote counting and data storage.

5. The addition or alteration of utility software and device handlers which do not interact with vote counting software except through the

intended input/output channels in the manner originally intended does not constitute a requirement for a mandatory retest.

(c) **Reciprocity.** The Secretary of State may accept the results of the Qualification tests and/or Certification tests from another state or testing agency that has performed the tests described in these Rules. This reciprocity does not extend to the Acceptance tests or any portion of the Certification tests, which are considered to be unique to the State of Georgia.

(d) **Procedure.** This review and approval procedure is limited to those voting systems and equipment that have passed the prototype stage and are in full production and available for immediate installation and use. Qualification tests shall be performed to evaluate the degree to which a system complies with the requirements of the *Voting Systems Standards* issued by the Election Assistance Commission (EAC). Whenever possible, Qualification tests shall be conducted by Independent Test Agencies (ITA) certified by the EAC. In the event that tests by an ITA are not feasible, these tests shall be conducted by a Georgia Certification Agent designated by the Secretary of State.

Certification tests shall be performed to certify that the voting system complies with the Georgia Election Code, the Rules of the Georgia State Election Board, and the Rules of the Secretary of State. A Georgia Certification Agent designated by the Secretary of State shall conduct certification tests. The Qualification and Certification testing of a voting system for use in the State of Georgia shall proceed in the following steps.

1. **Qualification.** Prior to submitting a voting system for certification by the State of Georgia, the proposed voting system's hardware, firmware, and software must have been issued Qualification Certificates from the EAC. These EAC Qualification Certificates must indicate that the proposed voting system has successfully completed the EAC Qualification testing administered by EAC approved ITAs. If for any reason, this level of testing is not available, the Qualification tests shall be conducted by an agency designated by the Secretary of State. In either event, the Qualification tests shall comply with the specifications of the Voting Systems Standards published by the EAC.

**2. Letter of Request.** After the voting system has completed EAC Qualification testing, the evaluation procedure to obtain certification for use of the voting system in the State of Georgia shall be initiated by letter from the vendor of the voting system to the Office of the Secretary of State requesting certification for a specific voting system. The Secretary of State or her representative shall notify the vendor of the earliest date after which the requested evaluation may begin and provide the vendor with the name and telephone number of the designated Georgia Certification Agent.

**3. Submission of Complete Technical Data Package.** The vendor shall submit the Technical Data Package described in section (g) to the Certification Agent designated by the State. The Certification Agent shall review the submission of the Technical Data Package and notify the vendor of any deficiencies. Certification of the voting system shall not proceed until the Technical Data Package is complete.

**4. Preliminary Review.** The Georgia Certification Agent shall conduct a preliminary analysis of the Technical Data Package and prepare an Evaluation Proposal containing the following information:

(i) Components of the voting system requiring evaluation.

(ii) Identification of any hardware or software components requiring additional testing by the EAC ITAs.

(iii) Description of the activities required to complete that portion of the evaluation which is to be performed by the Georgia Certification Agent.

(iv) Estimate of time required to complete the portion of the evaluation, which is to be performed by the Georgia Certification Agent.

(v) Estimate of cost of tests which are to be performed by the Georgia Certification Agent.

**5. Authorization to Proceed.** The vendor shall review the Evaluation Proposal and notify the Secretary of State, in writing, of

the desire to continue or terminate the evaluation process. The evaluation of the system shall not begin until the manufacturer or vendor notifies the Secretary of State to proceed. A copy of this notification shall be sent to the Georgia Certification Agent. A decision to continue shall obligate the vendor to the cost of the evaluation contained in the Evaluation Proposal.

**6. Evaluation.** The vendor shall arrange with the EAC ITAs for any additional required ITA testing identified in the Evaluation Proposal. After any required ITA tests have been successfully completed, the Georgia Certification Agent shall conduct the tests described in the Evaluation Proposal and submit a report of the findings to the Secretary of State.

**7. Certification.** Based on the information contained in the report from the Georgia Certification Agent, and any other information in her possession, the Secretary of State shall determine whether the proposed voting system shall be certified for use in the State of Georgia and so notify the vendor.

**8. Local Jurisdiction Acceptance.** After a voting system is delivered to a local jurisdiction, acceptance tests shall be performed in the user's environment to demonstrate that the voting system as delivered and installed is identical to the system that was certified by the State and satisfies the requirements specified in the procurement documents.

(e) **Proprietary Information.** The State of Georgia shall make every effort to protect the proprietary nature of information provided to the State or its agents during the course of these evaluations in accordance to Georgia law for protecting proprietary information. Any proposed non-disclosure agreements shall be of the type and form in common commercial usage appropriate to similar situations and shall be subject to review and approval by the Georgia Attorney General.

**(f) Audit and Validation of Certification.**

1. It shall be the responsibility of the vendor to ensure that any voting system or component of a voting system that it markets or supplies for use in the State of Georgia has been certified by the Secretary of State. It is also the responsibility of the vendor to submit

any modifications to a previously certified system or component to the Secretary of State for re-certification and to update the Technical Data Package on file in the Office of the Secretary of State to accurately reflect the modifications.

2. If any question arises involving the certification of a voting system or a component of a voting system in use in the State, the Technical Data Package and Certification documentation on file in the Office of the Secretary of State shall be used to verify that the system or component in question is identical to the system or component that was submitted for certification.

(g) **Technical Data Package.** Before evaluation can begin, the vendor must submit to the Georgia Certification Agent the Technical Data Package required to complete the evaluation of the proposed voting system. Each item in the Technical Data Package must be clearly identified. If the Technical Data Package is incomplete or the items in the package are not clearly identified, the entire package may be returned to the vendor and the evaluation of the voting system rescheduled. In most cases, the Technical Data Package submitted to the ITAs shall be sufficient for State certification.

The Technical Data Package shall contain the following items in hard copy and in electronic form when available.

(i) *Customer Maintenance Documentation.* Documentation describing any maintenance that the vendor recommends that can be performed by a customer with minimal knowledge of the system.

(ii) *Operations Manual.* Operations documentation that is normally supplied to the customer for use by the person(s) who shall operate the equipment.

(iii) *Software Source Code.* Source code of all software and firmware in the voting system. The source code shall be supplied in the form of a listing and in a machine-readable form on media that is acceptable to the Georgia Certification Agent. If there is any chance of ambiguity, the required compilers) and/or development environment must be specified.

(iv) *Software System Design.* Documentation describing the logical

design of the software. This documentation should clearly indicate the various modules of the software, their functions, and their interrelationships. The minimum acceptable documentation is a system flowchart. Deviation of the source code from the system design may be cause for rejection of the voting system.

(v) *Customer Documentation.* A complete set of all documentation which is available to the purchaser/user of the voting system. Clearly identify that documentation which is included in the cost of the system and that documentation which is available for an additional charge.

(vi) *ITA Qualification Reports.* Copies of the ITA reports for the hardware and software qualification of the voting system. These reports must be sent directly from the ITA to the Georgia Certification Agent.

(vii) *Formal Complaints and Decertification Notices.* Copies of any formal complaints and/or decertification notices that have been filed against the proposed system. This documentation must clearly identify the jurisdiction filing the complaint or decertification notice and give the details of the resolution.

(viii) *Test Data/Software (Optional).* Any available test data, ballot decks, and/or software that can be used to demonstrate the various functions of the voting system. Although optional, these items can significantly reduce the effort, and hence the time and cost, involved in the evaluation of the system.

Authority O.C.G.A. Secs. 21-2-1, 21-2-50, 21-2-258, 21-2-388, 21-2-379.2. **History.** Original Rule entitled "Certification of Voting Equipment" adapted. F. Jan. 21, 1988; eff. Feb. 10, 1988. **Repealed:** New Rule entitled "Certification of Voting Systems" adopted. F. Mar. 28, 2005; eff. Apr. 17, 2005.

## **590-8-1.02 Verification of Voter Registration Information.**

(1) The board of registrars shall enter the information contained on voter registration applications into the statewide voter registration database in a timely manner.

(2) Verification of applicant's United States citizenship.

(a) Georgia driver's license number or identification card number.

1. If an applicant submits an application for registration and uses the applicant's Georgia driver's license number or identification card number for evidence of United States citizenship purposes, the Secretary of State shall attempt to match such number to the Department of Driver Services database.

2. If the Department of Driver Services records indicate that the applicant is not a United States citizen in the Department of Driver Services database, the Secretary of State shall attempt to verify the applicant's United States citizenship status with the United States Citizenship and Immigration Services utilizing the Systematic Alien Verification for Entitlements program. Such verification will indicate whether the applicant is designated as a citizen of the United States within the Verification Information System database.

3. If the Department of Driver Services cannot confirm that the applicant has provided satisfactory evidence of United States citizenship to the Department of Driver Services and the Secretary of State cannot confirm the applicant's United States citizenship through the Systematic Alien Verification for Entitlements program, the board of registrars shall take the following steps:

(i) The board of registrars shall ensure that the Georgia driver's license number or identification card number was entered correctly into the statewide voter registration system. If the board of registrars determines the number was not entered correctly, the board of registrars shall correct the driver's license number or identification card number in the statewide voter registration system. The Secretary of State shall match the new driver's license number or identification card number to the Department of Driver Services database.

(b) Alien registration number.

1. If only the alien registration number from an applicant's naturalization documents is provided for United States citizenship purposes, the Secretary of State shall attempt to verify the applicant's alien registration number with the United States Citizenship and Immigration Services utilizing the Systematic Alien Verification for Entitlements program.

Authority O.C.G.A. Secs. 21-2-216. **History.** Original Rule entitled "Verification of Voter Registration Information" adopted, F. Dec. 16, 2009; eff. Jan. 5, 2010.

**RULES OF  
OFFICE OF SECRETARY OF STATE  
ELECTIONS DIVISION  
CHAPTER 590-8-2  
HELP AMERICA VOTE ACT OF 2002 PROVISIONS**

**TABLE OF CONTENTS**

690-8-2-.01 Administrative Complaint Procedure  
for Violations of Title III of the Help  
America Vote Act of 2002

**590-8-2-.01 Administrative Complaint Procedure for Violations of Title III of the  
Help America Vote Act of 2002.**

(1) Any person who believes that a violation of any provision of Title III of the Help America Vote Act of 2002 (Public Law 107-252; 42 U.S.C. 15301, et seq.) has occurred, is occurring, or is about to occur may file a complaint with the Secretary of State. Such complaint shall be open to inspection by the public during business hours upon reasonable notice.

(2) Such complaint shall be in writing and shall be signed and sworn to by the person making the complaint and shall be properly notarized in accordance with state law. The complaint shall be delivered to and served upon the Secretary of State as the chief state election official in person, by U.S. Mail, or by guaranteed overnight delivery.

(3) The Secretary of State shall investigate the allegations of such complaint. If more than one complaint is filed concerning the same alleged violation, the Secretary of State may consolidate such complaints for investigation.

(4) If the complainant requests, the Secretary of State or a designee thereof shall conduct a hearing on the allegations of the complaint. Such hearing may be by telephone, conference call, or in person and shall be recorded.

(5) If the Secretary of State or a designee thereof determines that such complaint is unfounded, the Secretary of State may dismiss the complaint and notify the complainant of her decision. The Secretary of State shall make the results of her investigation into the complaint available for public inspection during normal business hours upon reasonable notice after the matter has been resolved.

(6) The Secretary of State or designee thereof shall make a determination of the validity of the complaint within 90 days following the date on which the complaint is received by and filed with the Secretary of State unless the complainant agrees to an extension of such time period.

(7) If the Secretary of State or designee thereof determines that such complaint is valid, the Secretary of State shall take all necessary and appropriate actions within her authority to address the violation; and

(8) If the Secretary of State or designee thereof does not render a final determination on a complaint filed pursuant to this rule within 90 days after the complaint is filed, or within any extension period to which the complainant has agreed, the Secretary of State or designee thereof will, on or before the third business day after the final determination was due to be issued, initiate proceedings for alternative dispute resolution;

(a) To facilitate alternative dispute resolution, the Secretary of State shall maintain a list of qualified independent professionals who are capable of acting as a mediator, from which the Secretary of State or designee thereof and the complainant shall each choose one mediator to review the case.

(b) The Secretary of State or designee thereof shall designate in writing to the complainant the name of a mediator from the list referenced in section (a) to serve on an alternative dispute resolution panel (resolution panel) to review the complaint.

1. If proceedings for alternative dispute resolution are initiated pursuant to this paragraph, not later than 3 business days after the complainant receives such a designation from the Secretary of State or designee thereof, the complainant shall designate in writing to the Secretary of State or designee thereof the name of a second mediator. If the complainant fails to designate a mediator within the time allowed above, the sole mediator shall review the record from the hearing and make a final recommendation based on the submitted record. Not later than 3 business days after such a designation by the complainant, the two mediators so designated shall select a third mediator to complete the resolution panel. If the complainant fails to designate a mediator within the time allowed above, the sole mediator shall review and dispose of the matter without selecting a second or third mediator.

2. The mediator or resolution panel may review the record compiled in connection with the complaint, including, without limitation, the investigative file on the matter, the audio recording of the hearing, any transcript of the hearing and any briefs or memoranda submitted by the parties but shall not receive any additional testimony or evidence to resolve the matter.

3. The mediator or resolution panel by a majority vote, shall after reviewing the record referenced above, provide a recommendation to the Secretary of State not later than 50 days after the final determination of the Secretary of State was due. This period for issuing a written recommendation will not be extended.

4. Upon receipt of the recommendation from the mediator or resolution panel, the Secretary of State or designee thereof shall issue a final order pursuant to the authority granted under O.C.G.A. 21-2- 50.2(c), but such remedy shall not exceed the remedies available under Title III of the Help America Vote Act of 2002.

5. The final order of the Secretary of State or designee thereof will be:

(i) Mailed to the complainant, each respondent and any other person who requested in writing to be advised of the final resolution;

(ii) Posted on the website of the Secretary of State; and

(iii) Made available by the Secretary of State, upon request by any interested person.

6. A final determination by the Secretary of State or designee thereof is not subject to appeal in any state or federal court.

Authority O.C.G.A. Secs. 21-2-1, 21-2-50.2. **History.** Original Rule entitled “Administrative Complaint Procedure for Violations of Title III of the Help America Vote Act of 2002” adopted. F. May 11, 2004; eff. May 31, 2004.

## ADMINISTRATIVE HISTORY

The **Administrative History** following each Rule gives the date on which the Rule was originally filed and its effective date, as well as the date on which any amendment or repeal was filed and its effective date. Principal abbreviations used in the Administrative History are as follows:

- f. — filed
- eff. — effective
- R. — Rule (Abbreviated only at the beginning of the control number)
- Ch. — Chapter (Abbreviated only at the beginning of the control number)
- ER. — Emergency Rule
- Rev. — Revised

**Note: Emergency Rules** are listed in each Rule's Administrative History by Emergency Rule number, date filed and effective date. The Emergency Rule will be in effect for 120 days or until the effective date of a permanent Ride covering the same subject matter superseding this Emergency Rule is adopted, as specified by the Agency.

Chapters 183-6 entitled "Registration of Electors", 183-7 entitled "Election Districts and Polling Places", 183-12-1 entitled "Voting Machines", 183-12-2 entitled "Vote Recorders", 183-13 entitled "Preparation for and Conduct of Primaries and Elections", and 183-14 entitled "Absentee Voting" have been adopted. The following Chapters are reserved: 183-1 to 183-5, 183-8 to 183-11, 183-15 to 183-36. Filed July 24, 1968; effective August 12, 1968.

Rules 183-6-.01, .02, 183-12-2-.04 and .05 have been amended. Rules 183-6-.03 and 183-13-.01 have been repealed. Filed August 5, 1969; effective August 24, 1969.

Rules 183-12-2-.04, .08 and 183-14-.02 have been repealed and new Rules adopted. Rules 183-13-.03 to .05 have been adopted. Chapter 183-15 entitled "Returns of Primaries and Elections" has been adopted. Filed May 26, 1970; effective June 14, 1970.

Chapters 183-24 entitled "Poll Officers", 183-25 entitled "Registration of Electors", 183-26 entitled "Election Districts or Precincts and Polling Places", and 183-27 entitled "Dates of Primaries

and Elections”, 183-31-1 entitled “Voting Machines”, 183-31-2 entitled “Vote Recorders”, 183-32 entitled “Preparation For and Conduct of Primaries and Elections”, and 183-33 entitled “Absentee Voting” have been adopted. Filed August 30, 1973; effective September 19, 1973.

Rules 183-6-.01, 183-14-.01 and .02 have been repealed and new Rules adopted. Rules 183-7-.01 and 183-15-.01 have been amended. Chapter 183-8 entitled “Dates of Primaries and Elections” has been adopted. Filed June 24, 1974; effective July 14, 1974.

Rules 183-6-.01, 183-13-.02, and 183-33-.01 have been repealed. Rules 183-12-2-.06, .07, 183-14-.01, 183-15-.01, 183-33-.02 have been amended. Chapters 183-1 to 183-11, 183-12-1, 183-12-2, 183-13 to 183-20 have been renumbered to 183-1-1 to 183-1-20 by Certification. Chapters 183-21 to 183-31, 183-31-1, 183-31-2 and 183-32 to 183-36 have been renumbered to 183-2-1 to 183-2-16 by Certification. All Rules of said Chapters have been renumbered. Filed October 20, 1975; effective November 9, 1975.

Emergency Rules 183-1-6-0.1-.01 and 183-2-5-0.2-.02 adopted. Filed May 20, 1982; effective May 17, 1982, the date of adoption, to be in effect for 120 days or until the effective date of permanent Rules covering the same subject matter superseding these Emergency Rules are adopted, as specified by the Agency. These Emergency Rules were adopted to prevent voter irregularities in the upcoming elections. (These Emergency Rules will not be published; copies may be obtained from the Agency.)

Rules 183-1-6-.01 and 183-2-5-.02 have been adopted. Filed March 29, 1983; effective April 18, 1983.

Rule 183-1-6-.03 has been adopted. Filed January 22, 1985; effective February 11, 1985.

Rule 183-1-6-.04 has been adopted. Filed August 1, 1986; effective August 21, 1986.

Rule 183-1-6-.04 has been amended. Filed September 18, 1986; effective October 8, 1986.

Chapter 183-1-11 entitled “Ballots” has been adopted. Rule 183-1-12-.10 has been adopted. Filed November 14, 1986; effective December 4, 1986.

Rule 183-1-6-.01 has been repealed. Rules 183-1-6-.02, 183-1-12-.03, .05 to .09, 183-1-13-.03 to .05, 183-1-14-.01, 183-1-15-.01 have been amended. Rule 183-1-7-.01 has been repealed and a new Rule adopted. Filed March 6, 1987; effective March 26, 1987.

Rule 183-1-6-.03 has been amended. Filed January 21, 1988; effective February 10, 1988.

Rule 183-1-6-.03 has been amended. Filed April 10, 1989; effective April 30, 1989.

Rule 183-1-6-.05 has been adopted, Rules 183-1-13-.03, .05 and 183-1-14-.01 have been amended. Filed February 17, 1992; effective March 9, 1992.

Rules 183-1-12-.01 and .02 have been repealed and new Rules adopted. Filed August 30, 2002; effective September 19, 2002. Rule 183-1-12-.06 has been repealed and a new Rule adopted. Filed October 18, 2002; effective November 7, 2002.

Rules 183-1-12-.01, .02, and 183-1-14-.01 have been amended. Rule 183-1-12-.06 has been repealed and a new Rule adopted. Rules 183-1-14-.02, .03 and 183-1-15-.02 have been adopted. Filed October 24, 2003; effective November 13, 2003.

Rules 183-1-6-.02, 183-1-12-.05, .07 to .09, 183-1-15-.01, 183-2-4-.01, 183-2-5-.01, .02, 183-2-6-.01, 183-2-7-.01, 183-2-11-.02 to .09, 183-2-12-.02 to .05, and 183-2-13-.02 have been repealed. Rules 183-1-6-.03 to .05, 183-M2-.03, 183-1-13-.03 to .05 have been amended. Filed December 11, 2003; effective December 31, 2003. Rule 183-1-12-.02 has been amended. Filed May 11, 2004; effective May 31, 2004.

Emergency Rules 183-1-6-0.3-.06, 183-1-12-0.4-.02, and 183-1-14-0.5-.04 adopted. Filed September 10, 2004; effective September 9, 2004, the date of adoption, to be in effect for 120 days or until the effective date of a permanent Rule covering the same subject matter superseding this Emergency rule is adopted, as specified by the Agency. This Emergency Rule was adopted to prevent confidential information being used for fraudulent purposes (Emergency Rule 183-1-6-0.3-.06), voter fraud related to the counting of absentee ballots

(Emergency Rule 183-1-12-0.4-.02, voter coercion or intimidation occurring during the absentee voting period (Emergency Rule 183-1-14-0.5-.04). (This Emergency Rule will not be published; copies may be obtained from the Agency.)

Rules 183-1-12-.06 has been amended. Rules 183-1-14-.04 and .05 have been adopted. Filed December 21, 2005; effective January 10, 2006.

Rules 183-1-6-.03 and 183-1-12-.02 have been amended. Chapter 183-1-19 entitled “Penalties” has been adopted. Filed December 28, 2005; effective January 17, 2006.

Rule 183-1-12-.07 has been adopted. Filed March 8, 2006; effective March 28, 2006.

Rule 183-1-6-.03 has been amended, Filed May 30, 2006; effective June 19, 2006.

Chapter 183-1-20 entitled “Georgia Voter Identification Card” has been adopted. Filed June 19, 2006; effective July 9, 2006.

Chapter 183-1-1 entitled “Preliminary Provisions” has been adopted. Filed February 22, 2008; effective March 13, 2008.

Rules 183-1-6-.01, .02, 183-1-14-.06, .07, .09 and .10 have been adopted. Rules 183-1-6-.03 and 183-1-12-.02 have been repealed and new Rules adopted. Chapter 183-1-10 entitled “Nomination of Candidates” has been adopted. Filed October 29, 2009; effective November 18, 2009.

Rules 183-1-6-.06 and 183-1-14-.08 have been adopted. Filed December 15, 2009; effective January 4, 2010.

Rule 183-1-11-.02 has been adopted. Filed March 3, 2010; effective March 23, 2010.

Rules 183-1-12-.02, .06, and 183-1-14-.04 have been repealed, and new Rules adopted. Rule 183-1-14-.01 has been amended. Filed March 17, 2011; effective April 6, 2011.

Rule 183-1-12-.06 has been repealed and a new Rule adopted. Rule 183-1-14.11 has been adopted. Filed May 27, 2011; effective June 16, 2011.

<b>183-1-1-.01</b>	<b>Procedure to Petition for Adoption of Rules</b>	<b>183-1-1-.02</b>	<b>Review of Initial Decisions</b>
--------------------	--	--------------------	------------------------------------

**183-1-1-.01 Procedure to Petition for Adoption of Rules.**

(1) Interested persons may petition the State Election Board requesting the promulgation, amendment, or repeal of a rule, Such petition should be in the form of a letter addressed to the Board setting forth the language of the proposed rule, amendment, or repeal, and, where applicable, the language of the rule sought to be amended or repealed.

(2) Any interested person desiring to petition the Board requesting the promulgation, amendment, or repeal of a rule shall submit three copies of the petition, in writing, by certified or registered mail, to the Chairperson of the State Election Board, 2 Martin Luther King, Jr. Drive, S.E., Suite 1104, West Tower, Atlanta, Georgia 30334-9000.

(3) Each petition for the promulgation, amendment, or repeal of a rule made pursuant to the Georgia Administrative Procedures Act should be verified under oath, or in proper behalf of, the petitioner and shall contain:

- (a) The name and post office address of the petitioner;
- (b) The full text of the rule requested to be amended or repealed, or the full text of the rule desired to be promulgated;
- (c) The reason(s) such rule should be amended, repealed, or promulgated;
- (d) Any and all pertinent existing facts as to the petitioner's interest in the matter;

(e) Any and all facts known to the petitioner which might influence the decision of the Board to initiate or not initiate rulemaking, including identification of any parties who it is known will or may be affected by the amended, repealed, or promulgated rule; and

(f) Citations of legal authorities, if any, which authorize, support, or require the action requested by the petitioner.

(4) Within thirty (30) days after submission of a petition for the promulgation, amendment, or repeal of a rule or at the next regularly-scheduled meeting of the State Election Board, the Board shall decide upon the action to be taken. The Board shall not be forced to call a special meeting in order to address such a petition. If such a petition is received less than twenty (20) days before a regularly-scheduled meeting, the Board may vote to address the petition at its next regularly-scheduled meeting. Within ten (10) days after addressing the petition, the Board shall inform the petitioner by mail of the decision reached, and shall either decline to take the action requested, stating its reasons for so declining, or shall initiate rulemaking proceedings in accordance with the Georgia Administrative Procedures Act.

Authority O.C.G.A. Sees. 50-13-3, 50-13-17. **History.** Original Rule entitled "Procedure to Petition for Adoption of Rules" adopted. F. Feb. 22, 2006; eff. Mar. 13, 2008.

**183-1-1-.02 Review of Initial Decisions.** The State Election Board (the "Board") does not routinely preside at the reception of the evidence in contested cases before it and typically refers these cases to the Office of State Administrative Hearings ("OSAH"). After receiving the evidence, an OSAH hearing officer may issue an initial decision in such a contested case more than thirty (30) days before the next regularly-scheduled meeting of the Board. On those occasions where the hearing officer issues an initial decision more than thirty (30) days before the Board's next regularly-scheduled meeting, the period of time in which the Board shall render a final decision shall be extended until the date of the next regularly-scheduled meeting of the Board.

Authority O.C.G.A. Sees. 50-13-3, 50-13-17. **History.** Original Rule entitled "Review of Initial Decisions" adopted. F. Feb. 22, 2008; eff. Mar. 13, 2008.

**188-1-6-.01 Acceptance of Voter Registration Applications.**

(1) The board of registrars shall, as of the date received, date stamp all voter registration applications delivered by hand to the board or otherwise received when the application does not have a date stamp affixed by the Secretary of State or a postmark affixed by the United States Postal Service or when the postmark affixed by the United States Postal Service is illegible or bears no date. In any such instance, a voter registration application shall be deemed to have been made as of the date stamp affixed to such application by the board of registrars that receives such application and shall be processed in accordance with subsection (c) of O.C.G.A. Section 21-2-224.

(2) Any application of a person who is a resident of a county in this State that is delivered to the board of registrars of another county through mistake, inadvertence, neglect, or otherwise that does not have a date stamp affixed by the Secretary of State or a postmark affixed by the United States Postal Service or when the postmark affixed by the United States Postal Service is illegible or bears no date shall be date stamped by the receiving board of registrars and shall be forwarded as soon as possible and, in any event, not later than seven days after receipt of the application to the correct board of registrars by the receiving county. In any such instance, a voter registration application shall be deemed to have been made as of the date stamp affixed to such application by the board of registrars that originally receives such application and shall be processed by the correct board

of registrars in accordance with subsection (c) of O.C.G.A. Section 21-2-224.

Authority O.C.G.A. Secs. 21-2-31, 21-2-224. **History.** Original Rule entitled "Special Registration for New (30 day) Residents" adopted. F. July 24, 1968; eff. Aug. 12, 1968. **Amended:** F. Mar. 26, 1987. **Amended:** New Rule entitled "Acceptance of Voter Registration Applications" adopted. F. Oct. 29, 2009; eff. Nov. 18, 2009.

## 183-1-6-.02 Rules for Voter Registration by Private Entities.

(1) **Intent and Purpose.** These rules are promulgated pursuant to the authority granted to the State Election Board by Georgia Laws 1984, p. 1430, (O.C.G.A. Section 21-2-215(f)) and by Georgia Laws 1968, p. 862, (O.C.G.A. Section 21-2-31). It is the intent and purpose of the State Election Board to establish reasonable, necessary, and uniform rules and regulations to carry out the responsibilities of the State of Georgia with respect to the registration of voters in Georgia.

For the benefit and protection of those citizens who choose to entrust their completed voter registration applications to private entities and for the benefit and protection of the public and the fair administration of the electoral process, the State Election Board has promulgated these rules for voter registration by private entities. The State Election Board, within the parameters of the law, has taken care to make voter registration in Georgia as convenient and easy as practicable while retaining the necessary controls to prevent abuse of the system and fraud in the elective process. To this end, the State Election Board has promulgated these rules and regulations.

(2) **Definitions.** As used in this rule, unless otherwise noted, the term:

(a) "Close of registration" means the last day for the registration of voters in a primary or general election, as provided by law.

(b) "Private entity" means an individual who is not acting in an official capacity as a registrar or deputy registrar, or a non-governmental organization or other non-governmental entity that utilizes individuals other than registrars or deputy registrars to conduct voter registration programs.

(c) “Voter registration programs” means the distribution or collection of voter registration applications.

### **(3) Acceptance of Mail Voter Registration Applications.**

(a) A voter registration application postmarked or received by the Secretary of State or a registrar or deputy registrar within the time frames provided by law for the registration of electors shall be processed without regard to whether such application was received by mail or otherwise, was submitted singularly or bundled with other voter registration applications, or was submitted by a private entity. No board of registrars shall reject or refuse to process a voter registration application solely on the basis of how or by whom it was submitted.

(b) Any mail voter registration application received from a private entity (other than from an individual delivering his or her own application to a state or local election official in person) shall be processed in the same manner as an application received by mail, regardless of the manner in which such application was actually delivered.

(c) Nothing in this rule shall be construed to prohibit or in any manner restrict the right of any board of registrars or other authority from investigating and addressing suspected instances of voter registration fraud or to challenge, examine, verify, or determine the validity of voter registration applications or the qualifications and eligibility of persons applying to register to vote.

(4) **Voter Registration Activities of Private Entities.** Nothing in this rule shall be construed to prevent private entities from conducting organized voter registration programs and assisting eligible citizens with voter registration as permitted by state or federal law, including the distribution, collection, and transmittal of mail voter registration applications to the appropriate board of registrars.

### **(5) Instruction and Training of Private Entities.**

(a) Instruction and training for private entity voter registration activities pursuant to this rule shall be offered by the board of registrars. Training requests by private entities shall be made in

writing to the board of registrars. The board of registrars shall respond in writing to such requests with a training confirmation, including the date, time, and location such training will take place.

(b) At a minimum, training shall be provided to each private entity who requests such training on:

1. How to complete the voter registration application designed, published, and distributed by the Secretary of State in accordance with O.C.G.A. Section 21-2-223;

2. The proper security of completed voter registration applications;

3. The time frames within which completed voter registration applications are required to be transmitted to the appropriate board of registrars;

4. The identification requirements to be included with completed voter registration applications;

5. The identification requirements for voting at polling places within the state and the requirements for persons who registered to vote for the first time by mail; and

6. The required and prohibited activities of private entities as set forth in paragraphs (6) and (7) of this rule.

(c) The Secretary of State may develop and provide to the boards of registrars manuals for this instruction. The Secretary of State may also make such manuals available to the public, including via electronic means on the Secretary of State's website. Until such time as the Secretary of State develops such manuals, boards of registrars shall utilize such materials as will meet the training requirements of this rule.

**(6) Required Activities.** While engaging in organized voter registration activity within this state, a private entity shall:

(a) Advise each applicant that such applicant has the option to return his or her voter registration application personally to the appropriate board of registrars or to the Secretary of State or to permit the private entity to return it on the applicant's behalf;

(b) Inform all applicants that they are not officially registered to vote until their eligibility has been determined by the appropriate board of registrars and that, if the applicant has not received notification of the disposition of the application within three to four weeks of submitting the application, the applicant should contact the appropriate board of registrars to determine if such applicant's eligibility has been determined and the applicant's name entered on the official list of electors;

(c) Inform all applicants that, if they are registering to vote for the first time in the jurisdiction by mail or through a private entity, they must present current and valid identification either when registering to vote by mail or through a private entity or when voting for the first time after registering to vote by mail or through a private entity;

(d) Inform all Georgia applicants of the availability of an online registration status check and polling place locator service on the Secretary of State's website and encourage all applicants to access it in advance of a primary or election day to verify their registration status and correct polling place; and

(e) Inform all applicants of their right, under certain circumstances, to cast a provisional ballot in the event that their names do not appear on the official list of electors at the polls.

For purposes of compliance with the notice provisions provided in this paragraph, it shall be sufficient for the private entity either to post such notices in a conspicuous location at any fixed registration site or to provide such notices in written form to the applicant in a brochure, flyer, or other similar manner at the time of application. The Secretary of State may design and make available to private entities an appropriate model form that includes all required notices pursuant to this paragraph.

**(7) Prohibited Activities.** While engaging in voter registration programs within Georgia, a private entity shall not:

(a) Represent to any person that the private entity is a representative of the Secretary of State or a board of registrars authorized by law to receive voter registration applications in person;

(b) Make any statement to an applicant or take any action that the private entity knows or reasonably should know would discourage a qualified applicant from registering to vote;

(c) Refuse to accept and transmit a properly completed and contemporaneously dated voter registration application from any qualified individual;

(d) Be inebriated or otherwise impaired by drugs, alcohol, or other substances;

(e) Conduct voter registration activities at locations where the private entity knows that illegal or criminal activities are being conducted;

(f) Accept a completed registration application from the applicant unless such application has been sealed by the application, without a signed acknowledgement from the applicant that the applicant willingly and knowingly provided the unsealed application to the private entity;

(g) Copy a completed registration application without the express, written permission of the applicant; or

(h) Conduct voter registration activities in places where alcoholic beverages are sold and consumed on the same premises.

#### **(8) Transmittal of Completed Voter Registration Applications.**

(a) A private entity shall promptly transmit all completed voter registration applications to the Secretary of State or the appropriate board of registrars within ten days after receiving the application or by the close of registration, whichever period is earlier. If a private entity receives a completed voter registration application fourteen days or less before the close of registration, the private entity should transmit the application to the Secretary of State or the appropriate board of registrars within seventy-two hours of the date of the execution of the application or by midnight on the close of registration, whichever period is earlier.

(b) Transmittal of completed voter registration applications may be accomplished by in-person delivery, mail, commercial courier,

statutory overnight delivery, or any other form of delivery that is reasonably calculated to secure and ensure the confidential delivery and receipt of such applications by the Secretary of State or the appropriate board of registrars within three business days after transmittal and within the time frames required by these rules and regulations and state and federal law.

(c) With each transmittal of completed voter registration applications, a private entity should include a transmittal summary sheet which, at a minimum, provides the name of the submitting individual, the name of the private entity sponsoring the voter registration programs (if different than the submitting individual), the physical residence or business address of the submitting individual, the daytime and evening telephone numbers of the submitting individual, and the total number of applications being submitted. The Secretary of State may design and make available to private entities a model transmittal summary sheet containing the information requested in this subparagraph. The failure to include the transmittal summary sheet shall not by itself be grounds for rejecting the submitted applications. The private entity may enclose a postage-prepaid, self-addressed envelope, along with a copy of the completed transmittal summary sheet, if the private entity desires a date stamped receipt of the transmittal summary sheet from the board of registrars, in which case the board of registrars shall promptly acknowledge such receipt by returning a date stamped copy of the transmittal summary sheet to the private entity.

### **(9) Confidentiality of Completed Voter Registration Applications.**

(a) A private entity shall keep all completed original voter registration applications in the possession of the private entity in a secure and confidential manner at all times until such applications are submitted to the Secretary of State or the appropriate board of registrars. Except as otherwise provided in this rule, a private entity shall not disclose any such applications or information contained therein, except as specifically provided in these rules and regulations to any member of the public. A private entity may collaborate with another affiliated private entity in the securing of completed original voter registration applications that are received during the course of a jointly organized voter registration program.

(b) With the express, written consent of the applicant, a private entity may make archival copies of an applicant's original voter registration application and retain such archival copies for use in aiding the applicant with verifying the timely and proper receipt and processing of his/her application by the applicable board of registrars. A private entity may engage the services of a commercial copying or document management service to make such archival copies provided that the company agrees to maintain the confidentiality and security of the original applications and any copies of the applications in the same manner as is required by private entities pursuant this rule.

(c) A private entity shall keep any such archival copies in a secure and confidential manner at all times and shall not disclose any such archival copies to any member of the public; provided, how-ever, that a private entity may disclose such archival copies to another affiliated private entity as necessary for use in aiding the applicant with verifying the timely and proper receipt and processing of his/her application by the applicable board of registrars. Archival copies of completed voter registration applications must be discarded by the private entity not later than 90 days following the transmittal of the completed voter registration application to the Secretary of State or board of registrars. Whenever such archival copies are discarded by the private entity, they must be discarded in the manner contemplated by O.C.G.A. § 10-15-2 for the destruction by businesses of records containing personal information.

(d) A private entity may create and keep a separate record of any information contained on the applicant's voter registration application that could otherwise be made available for public inspection pursuant to O.C.G.A. § 21-2-225(b) if collected and maintained by the Secretary of State on the official list of electors. No such information may be used by the private entity or any other person for commercial purposes. Whenever such information is discarded by the private entity, it must be discarded in the manner contemplated by O.C.G.A. § 10-15-2 for the destruction by businesses of records containing personal information.

Authority O.C.G.A. Sec. 21-2-91. **History.** Original Rule entitled "Duplicate Voting, Procedure for Checking" adopted. F. July 24, 1968, eff. Aug. 12, 1968. **Amended:** F. Aug. 5, 1969; eff. Aug. 24, 1969. **Amended:** F. Mar. 6, 1987; eff. Mar. 26, 1987. **Repealed:** F. Dec. 11, 2003; eff. Dec. 31, 2003. **Amended:** New Rule entitled "Rules for Voter Registration by Private Entities" adopted. F. Oct. 29, 2009; eff. Nov. 18, 2009.

**183-1-6-.03 Rules and Regulations for Voter Registration by Registrars and Deputy Registrars.****(1) Intent and Purpose.**

(a) These rules are promulgated pursuant to the authority granted the State Election Board by Georgia Laws 1984, p. 1430, (O.C.G.A. Section 21-2-215(0) and by Georgia Laws 1968, p. 862, (O.C.G.A. Section 21-2-31). It is the intent of the State Election Board to increase the level of participation in the elective process in the State of Georgia by encouraging the registration of voters within the State. It is the intent and purpose of the State Election Board, within the parameters of the law, to make voter registration in Georgia as convenient and as easy as practicable while retaining the necessary controls to prevent abuse of the system and fraud in the elective process. To this end, the State Election Board has promulgated these rules and regulations.

(b) Nothing in this rule shall be construed to prohibit any voter registration activity that is permitted pursuant to the National Voter Registration Act of 1993, 42 U.S.C. §§ 1973gg et seq., or any other federal or state law or regulation.

(c) Rules and regulations governing voter registration by private entities are provided in a separately numbered rule within this Chapter.

**(2) Criteria for Appointment of Deputy Registrars.** The board of registrars in each county may appoint deputy registrars to aid them in the discharge of their duties. The number of deputy registrars appointed to serve shall be determined by the board of registrars.

(a) Deputy registrars appointed by each county board of registrars shall meet the following qualifications:

1. be a registered voter in the State of Georgia;
2. be able to read, write and speak the English language;
3. have legible handwriting unless the voter registration applications are to be completed by typewriter or electronic means;
4. satisfactorily complete such training as shall be required by the board of registrars;

5. not have been convicted of a felony or of any crime involving fraud or moral turpitude;

6. not be a candidate for nomination or election to any office except as allowed by O.C.G.A. § 21-2-214; and

7. not have been removed as a deputy registrar for improper conduct in the performance of the duties of deputy registrar.

(b) Deputy registrars shall not engage in political activity on behalf of a candidate, political party or body, or question while actually conducting the duties of their office. While conducting the duties of their office, each person serving as a deputy registrar shall wear a badge or display identification which shall state no more than the person's name and the fact that the person is a deputy registrar of the county. There shall be available for inspection, upon request to verify the authority of the persons involved, the names of the authorized deputy registrars serving at the site.

(c) The following activities shall subject a deputy registrar to immediate revocation of appointment as a deputy registrar:

1. registering voters at unapproved sites, times, and hours, including door to door registration;

2. intoxication while on duty;

3. falsification of registration records;

4. improper handling of registration applications;

5. engaging in any communication, wearing badges, buttons, or clothing that advocates or criticizes a particular candidate, office holder, political party or body, or ballot question while on duty, such as making verbal statements and distributing campaign literature. However, deputy registrars shall identify themselves as deputy registrars of the county by wearing the badges or displaying the identification described in paragraph (b) above; and

6. failure to appear or remain at the deputy registrar's assigned site at or during the assigned hours without adequate notice to the board of registrars or without a proper replacement.

### **(3) Criteria for Establishment of Additional Voter Registration Places:**

(a) The Board of Registrars, in addition to its main office, may designate other fixed places throughout the county as would be reasonably necessary to receive applications for registration and for the registration of electors.

(b) Such additional registration places shall be located in facilities which are open to and frequented by the general public. No place shall be used as an additional registration place unless the general public is freely admitted without regard to race, color, creed, religion, gender, or national origin,

(c) Churches which are open to all persons and which are, in fact, attended for any purpose by persons who are not members of the church shall be considered to be open to and frequented by the general public.

(d) The offices or facilities of community, civic, service, social, civil rights, patriotic, fraternal, and labor organizations shall be considered to be open to and frequented by the general public if non members of the organization in fact attend various activities sponsored by the organization at its offices and facilities and such offices or facilities are open to all persons. However, offices or facilities of political parties, political bodies or candidates shall not be used as additional voter registration places.

(e) The fact that a facility is used primarily or exclusively by the general public of one race or ethnic group or socioeconomic group shall not, for that reason alone, bar its designation as a registration place.

(f) When employers or business owners request the use of their place of business as a registration place, registration shall be conducted only in that part of the place of business which is open to the general public. Such part of the place of business shall be considered to be open to and frequented by the general public if it is an area which is maintained for use by the general public and is known to serve the general public for the purpose of conducting business or engaging in other transactions with the business.

(g) Organizations, employers, offices, and businesses that register voters at their facilities shall not limit registration to their members, employees, or customers, but must register any qualified applicant.

(h) Registration of voters shall be prohibited in places where alcoholic beverages are sold and consumed on the same premises.

(i) No registration of voters shall take place where criminal activities are permitted to occur.

(j) Registration places may be established on a temporary or permanent basis. Permanent places are those which operate on a fixed schedule for an indefinite period of time. Temporary places are those which operate on a temporary schedule and, among other things, may be used in voter registration drives.

1. The deputy registrars appointed by the board of registrars who staff registration places may be unpaid volunteers, employees of the board of registrars, or employees of government offices or of private businesses.

(k) Persons acting as individuals or as representatives of organizations and businesses may request the establishment of additional voter registration places. The board of registrars shall consider such requests.

1. If the request is approved, the board of registrars shall make provisions for having a deputy registrar who has been appointed by the board of registrars available at the additional voter registration places at all times which have been designated by the board of registrars and which have been precleared by the United States Department of Justice for the purpose of voter registration. The board of registrars shall inform such persons that registration may be conducted only at such times as are designated by the board of registrars, precleared by the United States Department of Justice, and advertised as required by law.

(l) The board of registrars shall retain the ultimate responsibility for the submission of additional registration places, dates, and times to the United States Department of Justice for preclearance pursuant to the Voting Rights Act of 1965 and for the advertising of registration places as required by law. The board of registrars shall also retain the ultimate responsibility for the appointment and training of deputy registrars, the proper conduct of voter registration, and the security of completed registration applications; but the board of registrars may

use deputy registrars to assist them in carrying out these duties.

(m) The board of registrars shall instruct deputy registrars in the law and procedure for registration prior to the administration of the oath of office to the deputy registrars. Such training shall include the duties and obligations of deputy registrars, the proper completion of registration applications, the proper security of registration applications, the protection of the integrity of the registration process, and the taking of oaths of registrants and the procedures for appeal upon rejection of the applications for registration.

(n) The Secretary of State shall provide the board of registrars of each county manuals for the use of deputy registrars which include simple instructions on the rules and procedures for the proper conduct of voter registration. The form and content of these manuals shall be determined by the Secretary of State. The board of registrars shall provide each deputy registrar with a copy of the manual.

(o) In order to ensure that the same degree of supervision and security provided at the main office of the board of registrars to prevent voter registration irregularities is maintained for the additional voter registration places, the following rules shall apply:

1. Except as provided in this rule, completed registration applications may be maintained by registrars and deputy registrars only:

(i) at the additional voter registration place during the hours of operation;

(ii) in transit to the main office of the board of registrars;

(iii) at the main office of the board of registrars;

(iv) at permanent additional voter registration places overnight but not beyond the end of the next business day; and

(v) at sites mandated as voter registration sites under O.C.G.A. §21-2-221 and 21-2-222 but not longer than the time permitted under those Code sections.

2. Notwithstanding any provision of this rule to the contrary, a valid registration application that is timely received by the Secretary of State or the registrars shall be accepted.

(p) The board of registrars should identify and establish additional voter registration places where the public congregates for commerce, recreation, worship, education, employment, and other such purposes which are most likely to facilitate registration and suit the convenience of the general public throughout the county. These places should be open at hours to suit the convenience of the general public including times other than the regular hours of the main office of the board of registrars.

(q) Wherever practicable, the Board of Registrars should fully utilize federal, state, county, and municipal offices located within the county which are open during regular business hours and other hours for the purpose of taking voter registration applications.

(r) All additional voter registration sites which are staffed by volunteer deputy registrars shall have prominently displayed a sign, placard, or banner which shall state that voter registration at that location is being conducted under the authority of the Board of Registrars of the county or, in counties in which the duties of the Board of Registrars are performed by Boards of Election, the county Board of Elections. If the volunteer deputy registrars are provided by an organization, club, or other group, the sign, placard, or banner may also identify the organization, club, or group providing the volunteer deputy registrars. The language contained on the sign, placard, or banner shall conform substantially to the following: "Voter registration at this location is being conducted under the authority of the Board of (Registrars or Elections) of \_\_\_\_\_ County. The volunteer deputy registrars at this location are provided by \_\_\_\_\_".

Authority O.C.G.A. Secs. 21-2-31, 21-2-218. **History.** Original Rule entitled "Rules and Regulations for Voter Registration" adopted. F. Jan. 22, 1985; eff. Feb. 11, 1985. **Amended:** F. Oct. 29, 2009; eff. Nov. 18, 2009.

#### **183-1-6-.04 Accessibility for Elderly and Disabled Voters.**

(1) **Preamble.** In order to implement the provisions of the Voting Accessibility for the Elderly and Handicapped Act (P.L. 98-435), the

State Election Board promulgates the following rules and regulations.

(2) **Definitions.** As used in this Rule, the terms:

(a) “Accessible” shall mean that a facility has a continuous unobstructed path connecting the parking area and the area within the facility which is being used for voting or voter registration, whichever the case may be, which complies with the relevant provisions of Sections 3 and 4 of American National Standards Institute specifications A117.1-1980 for making buildings and facilities accessible to and usable by physically disabled individuals.

(b) “Disabled” shall mean a temporary or permanent physical disability.

(c) “Elderly” shall mean persons 65 years of age or older.

(d) “Polling place” means the room provided in each precinct for voting at a primary or election.

(e) “Registration place” shall mean any place, either temporary or permanent, designated by the registrars of a county or municipality as a place to be used for voter registration.

(3) **Polling Places.** All polling places in the State of Georgia shall be accessible to disabled and elderly electors.

(4) **Reserved.**

(5) **Implementation.**

(a) **Polling Places.** The election superintendent of each county and municipality shall conduct, or cause to be conducted, an on-site inspection of each polling place located within the county or municipality to determine if the polling place is accessible. This inspection shall be reported to the Secretary of State on forms prepared by the Secretary of State at such times as the Secretary of State shall prescribe. Any polling place found not to be accessible shall either be made accessible prior to its use in a primary or election or shall not be used as a polling place.

(6) **Waivers.** No waiver shall be granted for polling places which are not accessible.

(7) **Printed Instructions.** The Secretary of State shall provide instructions for use by election superintendents at polling places and registrars at voter registration places, printed in large type, to assist visually and hearing impaired electors in voting and registering to vote.

(8) **Notice and Advertisement.**

(a) Each election superintendent shall mark or cause to be marked in a prominent manner the accessible path for elderly and disabled voters at all polling places.

(b) The display of the international disabled access symbol shall be sufficient marking of a polling place if the symbol is of a size and is located such that it can easily be seen by the public and if the accessible path from the parking area to the polling place is the same as the path used by non-disabled persons.

(c) Election superintendents shall take reasonable steps to inform disabled and elderly electors of the availability of accessible polling places.

(9) **Voting Aids.** The election superintendent of each county and municipality shall provide at least one magnifying glass at each polling place during each primary and election for use by visually impaired electors.

(10) If the voting equipment is not accessible to a disabled voter, the disabled voter shall be permitted to use a paper ballot.

(11) **Enforcement.**

(a) Election superintendents and boards of registrars shall investigate all complaints concerning accessibility to polling places and voter registration places and shall take such corrective action as may be necessary to ensure compliance with these rules concerning accessibility.

(b) Election superintendents and boards of registrars shall report in writing to the State Election Board through the Secretary of State all complaints concerning accessibility, the results of the investigation of the complaints, and any corrective actions taken.

(c) The State Election Board may, in its discretion, investigate these complaints further and take such actions as it deems

appropriate to ensure that these rules concerning accessibility are implemented and effectuated.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Accessibility for Elderly and Handicapped Voters" adopted, F. Aug. 1, 1986; eff. Aug. 21, 1986. **Amended:** F. Sept. 18, 1986; eff. Oct. 8, 1986. **Amended:** F. Dec. 11, 2003; eff. Dec. 31, 2003.

### **183-1-6.05 Registration of Persons by College Presidents or Their Designees.**

(1) **Authority.** The president of each public or private college or university located in the State of Georgia is authorized to register to vote all qualified students, staff, and faculty at the college or university. For students domiciled in the State of Georgia, the college or university president or designee of the president shall be a deputy registrar on behalf of all boards of registration in the State of Georgia for the purpose of taking applications for voter registration for these students. For staff and faculty domiciled in the county in which the college or university is located, each college or university president or designee of the president shall be a deputy registrar of the county in which the college or university is located for the purpose of taking applications for voter registration for those faculty and staff members.

(2) **Designees.** Each college or university president is authorized to designate such persons as the college or university president deems appropriate for the purpose of aiding the college or university president in the exercise of the president's voter registration duties. It shall not be necessary for any person so designated to be a resident of the county in which the college or university is located. However, each person so designated shall be a registered voter in the State of Georgia and shall take an oath as a deputy registrar. The designation shall be in writing and shall be forwarded by the college or university president to the chief registrar of the county in which the college or university is located. Registration applications completed by persons who are not designated in writing to the chief registrar by the college or university president to register persons on behalf of the college or university president shall be rejected.

(3) **Training.** Each person designated by a college or university president to register voters on behalf of the president shall immediately contact the chief registrar of the county in which the college or university is located to undergo such training board of registrars of the county ordinarily provides for deputy registrars. Such training shall be completed prior to the individual taking any application for voter registration.

(4) **Registration Applications.** The board of registrars in each county in which a college or university is located shall provide to the college or university president a sufficient number of registration applications for use in registering qualified students, staff, and faculty at the college or university.

(5) **Security.** Any person designated by a college or university president to take voter registration applications on behalf of the college or university president shall also take such steps as are necessary to provide appropriate and adequate security for the registration applications which are placed in that person's possession. Completed voter registration applications shall be returned to the board of registrars in the county in which the college or university is located as soon as possible, but, in no event, later than the next business day.

(6) **Voter Registration Places.** Each place utilized for the collection and receipt of applications for voter registration by the college or university president or designee of the president shall be precleared under Section 5 of the Voting Rights Act of 1965 (42 U.S.C. Section 1973c). The board of registrars of the county in which the college or university is located shall be responsible for obtaining this preclearance. No registration shall be conducted at locations which have not been precleared. Door-to-door registration is prohibited.

(7) **Receipt of Completed Applications.** Upon the receipt of completed voter registration applications from a college or university, the board of registrars of the county in which the college or university is located shall retain those applications completed by individuals who are domiciled in the county in which the college or university is located and shall forward the remainder of the applications completed by individuals domiciled in other counties directly to the appropriate county registration offices.

(8) **Limitations on Presidents and Their Designees.** College and university presidents and their designees are limited to registering only those qualified students, staff and faculty at the college and university and may not register any other individuals.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Registration of Persons by College Presidents or Their Designees" adopted. F. Feb. 17, 1992; eff. Mar. 8, 1992. **Amended:** F. Dec. 11, 2003; eff. Dec. 31, 2003.

**183-1-6-.06 Verification of United States Citizenship of Applicants for Voter Registration.**

(1) On and after January 1, 2010, an application for registration to vote shall be accompanied by satisfactory evidence of United States citizenship.

(2) Satisfactory evidence of citizenship shall include any of the following:

(a) Verified Georgia Driver's License Number or Identification Card Number or Out of State Driver's License or Identification Card.

1. An applicant may provide as satisfactory evidence of citizenship, the number of the applicant's driver's license or identification card issued by the Georgia Department of Driver Services, upon verification by the Secretary of State that the applicant has provided satisfactory evidence of United States citizenship to the Georgia Department of Driver Services.

2. An applicant may provide as satisfactory evidence of citizenship, the applicant's driver's license or identification card, or legible photocopy thereof, issued by a state driver's license agency of another state equivalent to the Georgia Department of Driver Services, or a legible photocopy thereof, if such agency indicates on the driver's license or identification card that the applicant has provided satisfactory evidence of United States citizenship to such agency.

(b) Birth Certificate.

1. An applicant's birth certificate, or a legible photocopy thereof, is satisfactory evidence of citizenship so long as the birth certificate shows that the applicant was born within the United States. In the event that the birth certificate contains a different first, middle, or last name from the name contained on the application for registration, the board of registrars shall require additional supporting legal documentation to establish that the applicant is the same individual as the individual identified on the birth certificate, including but not limited to a marriage certificate or court order confirming change of name.

2. A Certificate of Birth Abroad, or legible photocopy thereof, obtained by a United States citizen when such individual registers with the Department of State in the event such individual is born

abroad in a non-military installation, shall be accepted and treated as a birth certificate.

(c) United States Passport.

1. An applicant's United States passport, or a legible photocopy of pages of the applicant's United States passport which contain the passport number, name, nationality, date of birth, place of birth, and signature, shall serve as satisfactory evidence of citizenship.

(d) United States Naturalization Documents or Verified Alien Registration Number.

1. An applicant may provide the board of registrars with the applicant's United States Certificate of Naturalization issued by the United States Citizenship and Immigration Services.

(i) Registrars and deputy registrars who attend naturalization ceremonies may assist new citizens in registering to vote. In such event, the registrar or deputy registrar shall examine the applicant's United State Certificate of Naturalization and initial and date the application for registration. If applicants from outside the county apply at the ceremony, the registrar or deputy registrar conducting the voter registration activities shall bundle the registrations by county and send them to the appropriate county board of registrars with an official cover letter stating that all naturalization documents were verified by the registrar or deputy registrar. A county that receives applications in this manner shall accept the applications without requiring further evidence of citizenship from the applicant.

2. If only the alien registration number from naturalization documents is provided for citizenship purposes, the applicant shall not be found eligible to vote until the applicant's alien registration number is verified with the United States Citizenship and Immigration Services by the Secretary of State utilizing the Systematic Alien Verification for Entitlements program.

(e) Documents or methods of proof that are established pursuant to the federal Immigration Reform and Control Act of 1986 (P. L. 99-603).

(f) Bureau of Indian Affairs Card Number, Tribal Treaty Card Number, or Tribal Enrollment Number.

(g) Other Documents and Methods of Proof.

1. Applicants who do not have any of the documents enumerated in subparagraphs (g)(2)(A) through (F) of O.C.G.A. Section 21-2-216 and who are residents of this State and United States citizens may provide any of the following as satisfactory evidence of United States citizenship:

(i) Certificate of Citizenship issued by the United States Immigration and Naturalization Service;

(ii) Consular Report of Birth Abroad of a Citizen of the United States of America;

(iii) Certification of Report of Birth issued by the United States Department of State;

(iv) United States Citizen Identification card;

(v) American Indian Card issued by the United States Department of Homeland Security with the classification code "KIC";

(vi) Final adoption decree showing the applicant's name and United States birthplace;

(vii) Evidence of the applicant's civil service employment by the United States government before June 1976;

(viii) An official United States military record of service showing a United States place of birth;

(ix) A Northern Mariana Identification Card issued by the United States Immigration and Naturalization Service; or

(x) Extract of United States hospital record of birth created at the time of the person's birth indicating a United States place of birth.

2. If the applicant cannot obtain any of the documents described in subparagraphs (g)(2)(A) through (F) of O.C.G.A. Section 21-2-216 and (g)1. above, the applicant may request a hearing for the board of registrars to review other evidence of the applicant's United States citizenship. The board of registrars shall schedule a hearing to review such evidence provided by applicants at least once per month and on the last day to verify provisional ballots for any election pursuant to O.C.G.A. Section 21-2-419. The hearing shall be conducted as follows:

(IX) Statement signed by the birth physician or midwife who was in attendance at the time of birth; or

(X) If other forms of documentation cannot be obtained, documentation may be provided at the hearing by written affidavit, signed under penalty of perjury, from two citizens, one of whom cannot be related to the person in question, who have specific knowledge of event(s) establishing the applicant's United States citizenship status. The applicant or another knowledgeable individual must also submit an affidavit stating why the documents are not available. Such affidavits are only expected to be used in rare circumstances.

3. The board of registrars may accept legible copies of documents bearing on United States citizenship received via United States Mail, facsimile, electronic mail, personal delivery, or other means.

4. Having a Social Security card or being a member of the United States military is not, in and of itself, sufficient evidence that an individual is a United States citizen.

(3) If an application for registration is completed in person at the board of registrars' office or other registration place and the applicant provides satisfactory evidence of citizenship at that time, the registrar or deputy registrar shall indicate on the voter registration application:

(a) That the person provided satisfactory evidence of citizenship,

(b) The type of evidence of citizenship provided, and

(c) The initials of the registrar or deputy registrar who made the verification.

(4) If an applicant fails to supply satisfactory evidence of citizenship with the application for registration, the board of registrars shall, within 10 days of receipt of the application, notify the applicant of the failure to present satisfactory evidence of United States citizenship as follows:

(a) The board of registrars shall send the notice by nonforwardable, first-class mail to the mailing address listed on the application and shall inform the applicant of the missing information and that the application will be rejected if satisfactory evidence of United States citizenship is not provided to the board of registrars within 30 days following the sending of the notice.

(b) If the applicant does not provide satisfactory evidence of United States citizenship to the board of registrars within 30 days of the sending of the notice, the board of registrars shall reject the application and shall immediately notify the applicant of the rejection in writing by nonforwardable, first-class mail at the mailing address listed on the application.

(c) If the initial application is received prior to the close of voter registration prior to a primary or election and the primary or election occurs within 30 days following the sending of the notice, the applicant may supply satisfactory evidence of United States citizenship on or prior to the date of the election. If the applicant supplies satisfactory evidence of United States citizenship and is found eligible to vote, the applicant shall be added to the list of electors and shall be permitted to vote in the election and any run-off elections resulting therefrom and subsequent elections.

(5) The board of registrars shall not determine the eligibility of an applicant unless and until satisfactory evidence of United States citizenship is supplied by the applicant.

(6) United States citizenship question on application for registration.

(a) Regardless of whether an applicant provides satisfactory evidence of United States citizenship, if such applicant fails to answer the question on the application for registration asking, “Are you a citizen of the United States of America?”, the registration shall be considered incomplete until the board of registrars obtains a completed application. The registrar shall return a copy of the application by letter sent by nonforwardable, first-class mail and request that the applicant complete the question by answering “Yes” or “No” to the question regarding United States citizenship. For the purpose of voter registration, an appropriate indicator includes marking a check mark in the box, placing “X” in the box, circling the box, shading the box, or any other method involving the “Yes” box that indicates the applicant is a citizen of the United States.

(b) If the citizenship box is marked “No”, the board of registrars shall reject the application and shall immediately notify the applicant of the rejection in writing by nonforwardable, first-class mail at the mailing address listed on the application.

BALLOTS**

**TABLE OF CONTENTS**

<b>183-1-11-.01</b>	<b>Ballot Secrecy</b>	<b>183-1-11-.02</b>	<b>Appearance of Candidate's Name on Ballot</b>
---------------------	-----------------------	---------------------	---

**183-1-11-.01 Ballot Secrecy.** Each Superintendent of Elections shall ensure that handicapped persons casting their vote at the polls are able to do so in private by providing such facilities and equipment as necessary to maintain the secrecy of the ballot.

Authority O.C.G.A. Secs. 21-2-218, 21-2-31. **History.** Original Rule entitled "Ballot Secrecy adopted. F. Nov. 14, 1986; eff. Dec. 4, 1986.

**183-1-11-.02 Appearance of Candidate's Name on Ballot.**

- (1) A candidate's name shall include a family surname and a given or first name, middle name, or nickname, or an abbreviated version of such given or first name or middle name or appropriate initials such as "Bob" for "Robert", "Jim" for "James", "Wm." for "William", or "S." for "Samuel".
- (2) A candidate's name may include a nickname by which the candidate is commonly known in the community but shall not contain any spurious phrases, title or degree designating the business, fraternal, religious, or professional affiliation of the candidate, or political slogan or message. A title or degree includes, but is not limited to, military or professional title or rank, or references such as "Dr.", "Rev.", "Judge", "Mr.", "Ms.", "Mrs.", or "Miss". A determination as to whether a nickname violates this Rule lies within the sound discretion of the election superintendent.

(3) An abbreviated name or nickname shall always appear set off within quotation marks and immediately before the last name. Periods shall follow all abbreviations or initials. Additional qualifiers following the last name, such as "Jr" or "III" shall not be separated from the last name by a comma and shall be followed by a period.

(4) A candidate's name shall always appear in the following form: given or first name or initial, if desired by the candidate; middle name or names or initials, if desired by the candidate; nickname, if desired by the candidate; and last or surname in full. All names shall be in substantially the following form: John Lincoln "Jack" Doe; or J. Lincoln "Jack" Doe; or J. L. "Jack" Doe Jr.; or any of the above combinations without the intervening nickname.

(5) The total number of spaces, inclusive of letters, spaces, and punctuation, which may be utilized on the ballot for a candidate's name and, if any, nickname, shall be twenty-five (25). Notwithstanding the listing of the candidate's name on the filing papers, spaces, periods, quotation marks, and commas necessary for proper punctuation shall be added by the Secretary of State or the election superintendent, as appropriate. No candidate's name shall exceed twenty-five (25) spaces. The Secretary of State or the election superintendent, as appropriate, shall determine the correct listing for any candidate whose name exceeds twenty-five (25) spaces to conform to this requirement.

Authority O.C.G.A. Sees. 21-2-31, 21-2-132, 21-2-284, 21-2-284.1, 21-2-285, 21-2-285.1, 21-2-287, 21-2-325.

**183-1-12-.01 Conduct of Elections.** Beginning with the November 2002 General Election, all federal, state, and county general primaries and elections, special primaries and elections, and refer-endums in the State of Georgia shall be conducted at the polls through the use of direct recording electronic (DRE) voting units supplied by the Secretary of State or purchased by the counties with the authorization of the Secretary of State. In addition, absentee balloting shall be conducted through the use of optical scan ballots which shall be tabulated on optical scan vote tabulation systems furnished by the Secretary of State or purchased by the counties with the authorization of the Secretary of State; provided, however, that the use of direct recording electronic (DRE) voting units is authorized by the Secretary of State for persons desiring to vote by absentee ballot in person.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled “Voting Machines” adopted. F. July 24, 1968; eff. Aug. 12, 1968. **Repealed:** New Rule entitled “Conduct of Elections” adopted. F. Aug. 30, 2002; eff. Sept. 19, 2002. **Amended:** F. Oct. 24, 2003; eff. Nov. 13, 2003.

**183-1-12-.02 Direct Recording Electronic Voting Equipment.**

(1) Definitions. As used in this rule, the term:

(a) “Assist”, “assisted”, “assisting”, or “assistance” means the act of marking a voter registration application, application for absentee ballot, or ballot on behalf of a voter who is unable to read the English language or has a disability which renders him or her unable to see or mark the voter registration application, application for absentee ballot, or ballot or operate the voting equipment, or to enter the voting compartment or booth unaccompanied, in the manner personally

requested and communicated by such voter. This definition will apply equally to Code Sections 21-2-322, 21-2-365, 21-2- 379.1, 21-2-384, 21-2-385, 21-2-385.1, 21-2-400, 21-2-402, 21-2-409, 21-2-409.1, 21-2-413, 21-2-456, 21-2-500, 21-2-568, 21-2-579, 21-2- 587, 21-2-590, 21-2-591, 21-2-592.

(b) “Ballot” shall mean the offices, candidates, and questions to be submitted to the voters at a primary, election, or runoff for each county or municipality.

(c) “Ballot Encoder Device” shall mean the electronic device by which the poll officers program the voter access card to authorize the voter to vote on the DRE units.

(d) “Ballot Style” shall mean the presentation of the offices, candidates, and questions to be submitted to the voters at a primary, election, or runoff on a DRE unit that contains only the offices and questions for the voters of specified districts within the precinct.

(e) “Counter” shall mean the registers on each DRE unit which increment by one each time a vote is cast on the unit. The “election counter” is the register which is reset for each election and records the number of ballots voted on a DRE unit in a particular election. The “system counter” is the register which cannot be reset and records the number of ballots voted on a DRE unit over the course of the life of the unit.

(f) “DRE unit” shall mean a direct recording electronic voting device which is a computer driven unit for casting and counting votes on which a voter casts his or her votes through the use of a touch screen or VWD device. The term shall include both state supplied devices and devices purchased by counties.

(g) “Early voting period” shall mean that period of time preceding a primary or election in which the board of registrars or absentee ballot clerk shall mail or issue official absentee ballots to all eligible applicants.

(h) “Enclosed space” shall mean that area within a polling place enclosed with a guardrail or barrier closing the inner portion of such area so that only such persons as are inside such guardrail or barrier can approach within six feet of the ballot box, voting compartments,

voting booths, or voting machines.

(i) “Memory Card” shall mean the electronic card (PCMCIA card) on which the ballot styles for a particular precinct are electronically stored and which is inserted into the direct recording electronic voting unit (DRE) to program the DRE unit for voting and on which vote totals are recorded for the DRE unit during the voting process.

(j) “Opening of the Polls” shall mean the commencement of voting in a particular primary, election, or runoff. Opening of the polls does not refer to the unlocking or opening of the doors of the polling place. Similarly, the term “Closing of the Polls” shall mean the cessation of voting in a particular primary, election, or runoff and not the locking or dosing of the doors of the polling place.

(k) “Supervisor’s Card” shall mean the electronic card to be used by the poll manager which is inserted into the DRE unit in order to configure the DRE unit for voting, to test the DRE unit, to terminate or suspend voting on the DRE unit, or to access other utility functions on the DRE unit.

(l) “Voter Access Card” shall mean the electronic card issued to a voter which is inserted into a DRE unit to authorize the voter to cast a ballot on the DRE unit.

(m) “VWD Device” is a device for use by illiterate and/or visually impaired voters in voting on a DRE unit and consists of an audio headset and a keypad by which the ballot can be provided to the voter aurally and the voter can cast his or her vote by use of the keypad.

(n) “Zero Tape” shall mean a tape printed out by the DRE unit which shows that all vote registers in the DRE unit for recording votes for candidates and questions are set to zero and that no votes are present on the unit.

## (2) Receipt, Maintenance, and Storage.

(a) Acceptance tests. Upon the receipt of each new direct recording electronic voting unit (DRE), the election superintendent of the county is responsible to ensure that an acceptance test is performed on the device in accordance with standards issued by the Secretary of State. No DRE unit shall be accepted by the county or placed into service

until such time as the unit satisfactorily passes the prescribed acceptance tests.

(b) Storage of DRE units.

1. The election superintendent of the county shall maintain the DRE units in accordance with the requirements of this rule, the directives of the Secretary of State, and the specifications and requirements of the manufacturer.

2. The DRE units shall be stored in a climate controlled space in which the temperature and humidity levels are maintained at acceptable levels year-round which shall not be lower than 5 degrees Celsius (41 degrees Fahrenheit) nor higher than 40 degrees Celsius (104 degrees Fahrenheit) and not lower than 35 percent relative humidity and not higher than 85 percent relative humidity such that no condensation forms on such units. The units shall not be stored in an area in which liquids or fluids stand, pool, or accumulate at any time or in areas that are subject to such standing, pooling, or accumulating liquids or fluids. The space in which the units are stored shall be secured and shall be accessible only to persons authorized by the election superintendent to have access to such units or such space. The DRE units may be stacked atop each other but no more than five units may be in a stack unless a rack system has been constructed for the storage of the units. The election superintendent shall ensure that the batteries in each unit are charged at least quarterly in accordance with the manufacturer's specifications.

3. The storage areas for DRE units shall be equipped with one or more of the following forms of electronic surveillance and protection: keypads or electronic locks, motion detectors, video surveillance, or a security system that is connected to an outside monitoring source, such as the police department or fire department. In lieu of providing electronic surveillance and protection, the DRE units may be interlocked through the use of a cable or chain that is secured by a padlock or other type of locking system.

4. The election superintendent shall maintain numbered seals on all DRE units in storage and all seal, numbers shall be recorded and on file in the office of the election superintendent.

5. Upon delivery to a polling place in preparation for a primary, election, or runoff, the DRE units shall be secured and protected from unauthorized access by storing the DRE units in a locked and secure room at the polling place, having the person taking possession of the units personally supervise the units at all times prior to the opening of the polls, or by interlocking the DRE units with a cable or chain that is secured by a padlock or other type of locking system.

6. The expenses for the implementation of the storage and security requirements of this rule shall be the responsibility of the county or municipal governing authority, as applicable, unless such security features are provided by the state.

(c) Software security. The software contained in each DRE unit, regardless of whether the unit is owned by the county or the state, and the software used to program the unit and to tabulate and consolidate election results shall not be modified, upgraded, or changed in any way without the specific approval of the Secretary of State. No other software shall be loaded onto or maintained “or used on computers on which the GEMS software is located except as specifically authorized by the Secretary of State.

(d) Maintenance of DRE units. After the end of the initial warranty period for state owned DRE units and computers for use in programming the DRE units and tabulating and consolidating the vote totals, the county shall be responsible for the maintenance and upkeep of such devices, including the repair and/or replacement of any devices which are destroyed, damaged, or otherwise rendered incapable of use in elections.

(e) Access to GEMS servers.

1. The room in which the GEMS server is located shall be locked at all times when the server is not directly under the supervision of the election superintendent or the election superintendent's designee. Lock and key access to the room where the GEMS server is located shall be limited to the county election superintendent; members of the county board of elections; the election supervisor, if any; personnel of the county election superintendent's office designated by the county election superintendent; building maintenance personnel; and emergency personnel. Building maintenance personnel shall have

access to the room in which the GEMS server is located only to the extent necessary to carry out their maintenance duties. The election superintendent shall maintain on file at all times in the office of the election superintendent a complete and up to date list of all maintenance personnel with access to the room in which the GEMS server is located. Emergency personnel shall have access to the room in which the GEMS server is located only as necessary in the event of an emergency and only for the duration of such emergency condition.

2. The GEMS server shall remain locked at all times when not in use. The key or keys to the GEMS server shall remain in the possession of the election superintendent or the designee of the election superintendent at all times.

(f) Security of DRE units and accessories. All DRE units, optical scanner devices, voter access cards, supervisor cards, memory cards, DRE unit keys, voting system software, and encoders shall be stored under lock and key at all times when not in use. Lock and key access to such items shall be limited to the county election superintendent; members of the county board of elections; the election supervisor, if any; personnel of the county election superintendent's office designated by the county election superintendent; building maintenance personnel; and emergency personnel. Building maintenance personnel shall have access to the area where such items are stored only to the extent necessary to carry out their maintenance duties. The election superintendent shall maintain on file at all times in the office of the election superintendent a complete and up to date list of all maintenance personnel with access to the area in which such items are stored. Emergency personnel shall have access to the area where such items are stored only as necessary in the event of an emergency and only for the duration of such emergency condition. Whenever maintenance or emergency personnel are required to enter the storage area, the election superintendent must be notified of that entry within 24 hours and the election superintendent must maintain a log of those persons who entered the storage area.

(g) Voting system handling requirements.

1. All personnel, with the exception of the permanent employees of the Office of the Secretary of State and permanent employees of the county or municipal election superintendent, who prepare voting

equipment for use in a primary, election, or runoff shall complete an oath of custodian before each election. One copy of the oath shall be placed on file in the office of the election superintendent and an additional copy shall be filed with the records for the election filed with the clerk of superior court or the municipal clerk, as appropriate. The oath of custodian shall be in the following form:

STATE OF GEORGIA  
COUNTY/MUNICIPALITY OF \_\_\_\_\_  
OATH OF CUSTODIANS AND DEPUTY CUSTODIANS  
OF DRE UNITS

I, \_\_\_\_\_, do swear (or affirm) that I will as a (deputy) custodian of the voting systems for the County/Municipality of \_\_\_\_\_, faithfully perform all of my duties in accordance with state law; that I will prepare in accordance with all applicable rules and regulations governing the use of the voting system all DRE units to be used in primaries, elections, and runoffs in this county/municipality; that I will use my best endeavors to prevent any fraud, deceit, or abuse in carrying out my duties while preparing the DRE units for use in primaries, elections, and runoffs; and that I am not disqualified by law to hold the position of (deputy) custodian.

\_\_\_\_\_  
(Deputy) Custodian

Administered by, sworn to,  
and subscribed before me,  
this \_\_\_\_\_ day of \_\_\_\_\_, 200\_\_\_\_.

\_\_\_\_\_  
Superintendent

(Required by O.C.G.A. Section 21-2-379.6(b))

2. All DRE units and accessories that are removed from storage for educational or training purposes must be signed in and out on an equipment log maintained by the election superintendent. The log shall contain, at a minimum, a description of the item being checked out, including any serial number or identifying number; the date and time when the item is checked out; the name of the person checking out the item; and the date and time when the item is returned to

storage. The items checked out of storage shall remain in the custody and control of the person checking out the items at all times and the person checking out the items shall personally return such items. Each person who utilizes equipment for educational or training purposes must be adequately trained in the use of the equipment prior to the release of the equipment into such person's custody.

3. The GEMS server shall not be moved or relocated for educational or training purposes. Should it become necessary to relocate the GEMS server or any of its components from one facility to another, the election superintendent shall notify the Secretary of State in writing of the reason for the relocation and the proposed new location. Under no circumstances shall the GEMS server or any of its components be relocated unless and until written authorization for the relocation is received from the Secretary of State except in the event of an emergency situation beyond the control of the election superintendent.

4. The poll manager shall sign a receipt for all supervisor cards, encoders, voter access cards, memory cards, and DRE unit keys assigned to such poll manager's precinct. Upon returning election supplies to the election superintendent's office following the close of the polls, the poll manager shall account for all such items and shall certify that all such items have been returned or shall describe any missing items and explain why such items have not been returned. The Secretary of State shall prepare and provide a chain of custody sheet for this purpose.

5. All supervisor cards, encoders, voter access cards, memory cards, DRE unit keys, and other equipment assigned to designated county election technicians shall be accounted for on the night of a primary, election, or runoff and shall be returned to storage. Each technician shall sign a receipt for all such items issued to such technician and, upon returning such items to the election superintendent's office following the close of the polls, the technician shall account for all such items and shall certify that all such items have been returned or shall describe any missing items and explain why such items have not been returned. The Secretary of State shall prepare and provide a chain of custody sheet for this purpose.

6. The election superintendent shall notify the Secretary of State of

any instances of unaccounted for DRE units, optical scanner devices, voter access cards, supervisor cards, memory cards, DRE unit keys, voting system software, and encoders at the completion of certification by delivering such notification to the Secretary of State when the certified election results are delivered to the Secretary of State.

(3) Preparation for Elections.

(a) Ballots.

1. The election superintendent shall cause the memory cards (PCMCIA cards) to be used in each precinct to be prepared in accordance with law and applicable rules and regulations.

2. Each memory card (PCMCIA card) shall be appropriately labeled with the name of the precinct for which it is programmed for use. The election superintendent shall ensure that each memory card (PCMCIA card) shall be programmed and tested to ensure that the proper ballot style or styles for the precinct for which it is programmed are included on the card and no other ballot styles.

3. Each ballot and ballot style shall be proofread by the election superintendent or a person or persons under the direction of the superintendent to ensure that the ballot contains the proper offices, candidates, and questions to be submitted to the voters, that the offices and names are spelled and designated correctly, that political party or body affiliations and incumbency of candidates are correctly designated where applicable, and that the questions are presented in accordance with law and this rule and that the correct offices and questions are presented on each ballot style.

4. For each office on the ballot, the ballot shall state the name of the office; the post, position, or person presently holding the office if necessary to identify the specific office subject to election; the number of candidates for which the voter may vote for such office; the names of the candidates; the residence address of the candidates if there has been a determination that the names are sufficiently similar to so require such information under O.C.G.A. § 21-2-379.5; in partisan elections, the name of the political party or body that nominated the candidate or a designation of the candidate as an independent candidate; and the designation of the incumbency of a candidate seeking reelection to the office which the candidate then holds.

5. The offices, candidates, and questions shall be listed on the ballot in the order specified in O.C.G.A. §§ 21-2-379.4 and 21-2-379.5.

6. The ballot shall be displayed in the following fonts:

(i) The words “Official Ballot” shall be displayed in 16 point Arial Bold.

(ii) All text beneath the words “Official Ballot” which designate the county or municipality conducting the election, precinct, type of election, and date of the election shall be displayed in 12 point Arial Bold.

(iii) The words “I understand that the offer or acceptance of money or any other object of value to vote for any particular candidate, list of candidates, issue, or list of issues included in this election constitutes an act of voter fraud and is a felony under Georgia law.” shall be displayed in 8 point Arial Narrow Italicized.

(iv) The name of the office shall be displayed in 12 point Arial Bold.

(v) Information on the designation of the office (“To succeed \_\_\_\_\_”) and the number of candidates for which an elector may vote for each office shall be displayed in 10 point Arial.

(vi) The names of candidates shall be displayed in 10 point Arial Narrow Bold in all capital letters.

(vii) Incumbency designations shall be displayed in 8 point Arial Narrow Bold.

(viii) Political party or body and independent designations shall be displayed in 9 point Arial Narrow.

(ix) The text of questions to be submitted to the electors shall be displayed in 10 point Arial Narrow Bold.

(x) The choices for voting on a question (i.e., “YES” and “NO”) shall be displayed in 10 point Arial Narrow Bold.

7. The ballot shall be displayed in the following colors:

(i) All text, designations, and names shall be displayed in black letters.

(ii) The background colors shall be as follows:

(I) The overall page shall be blue (Hue: 180, Sat: 240, Lum: 60, Red: 64, Green: 0, Blue: 128).

(II) The general election header shall be yellow (Hue: 40, Sat: 240, Lum: 120, Red: 255, Green: 255, Blue: 0).

(III) The Democratic Party Primary header shall be white (Hue: 160, Sat: 0, Lum: 240, Red: 255, Green: 255, Blue: 255).

(IV) The Republican Party Primary header shall be light blue (Hue: 120, Sat: 240, Lum: 120, Red: 0, Green: 255, Blue: 255).

(V) The nonpartisan election header shall be light green (Hue: 60, Sat: 240, Lum: 120, Red: 128, Green: 255, Blue: 0).

(VI) The box containing the contest or question to be voted upon shall be burnt orange (Hue: 20, Sat: 240, Lum: 120, Red: 255, Green: 128, Blue: 0).

(VII) The box containing the names of the candidates or the answers or responses to a referendum question for which an elector may vote shall be white (Hue: 160, Sat: 0, Lum: 240, Red: 255, Green: 255, Blue: 255).

8. In addition to the displayed ballot, the election superintendent shall cause an audio ballot to be prepared for use with the VWD devices. The superintendent shall ensure that all matters are recorded correctly and that the names of the candidates are pronounced correctly in the audio recordings. The election superintendent shall also ensure that no candidate's name; political party, political body, or independent designation; incumbency; or other such information nor any referendum question or answer or response thereto is emphasized, stressed, or otherwise inflected in any manner to distinguish a particular candidate, party or body, question, answer or response to a referendum question either negatively or positively or to suggest whether to vote for or against such candidates or questions in such

audio recordings. The election superintendent shall also ensure that the audio recordings are presented at a rate not to exceed 130 words per minute or 2.2 words per second on average and at a volume which shall not be less than 75 decibels nor more than 85 decibels.

(b) Setup and Testing.

1. Primaries and Elections.

(i) On or before the third day preceding a primary or election, including special primaries, special elections, and referendum elections, the election superintendent shall commence the preparation and testing of the DRE units for use on Election Day. On or before the third day preceding the early voting period, the election superintendent shall commence the preparation and testing of the DRE units for use during the early voting period. At least five days prior to the commencement of such preparation and testing, the election superintendent shall publish a notice in the legal organ of the county stating the date, time, and place or places where preparation and testing of the DRE units for use in the primary or election will commence and stating that such preparation shall continue from day to day until such preparation is complete and that such preparation and testing shall be open to the public and that members of the public are entitled to be present during the preparation and testing of the DRE units. The election superintendent shall cause such preparation and testing to begin on such date and time and at such place or places. Such preparation and testing shall be open to members of the public to observe; however, such members of the public shall not in any manner interfere with the preparation and testing of the DRE units. Any person found to be interfering with the preparation and testing process may be asked to leave the testing process and may be cited for interfering with an election official while in performance of election duties. Any questions and/or complaints from the general public regarding the preparation and testing process must be directed to the election superintendent and not to the individual personnel conducting the preparation and testing process. The election superintendent may make such reasonable rules and regulations concerning the conduct of such members of the public observing such preparation and testing as the election superintendent deems necessary and appropriate; provided, however, that such rules and regulations shall not prevent members of the public from fairly observing the preparation and testing of the DRE units.

In addition to any reasonable rules and regulations, that the election superintendent may create for the public to observe the preparation and testing process, the election superintendent or designee thereof, shall:

During the first day of preparation and testing, at the beginning of the day or for the first hour of public observation be available to explain the preparation and testing process and to respond to questions and provide answers regarding the purpose and the process of preparation and testing;

(b) maintain a presence at all times during the preparation and testing process if an outside source is conducting the preparation and testing process;

(c) administer an oath of custodian prior to beginning the preparation and testing process to any county personnel (except permanent state, county, or municipal election staff) appointed by the election superintendent to conduct the preparation and testing process;

(d) establish an area reasonable in proximity for the public to observe the preparation and testing process. Such area shall provide reasonable accommodations for the public insofar as space permits, but shall not be so established as to deny the general public the opportunity to view the process; however the area should not be of such a nature so as to allow the preparation and testing process to be interfered with by the general public;

(e) allow only election office personnel or individuals assigned to conduct the preparation and testing to enter the testing area during the preparation and testing process;

(a) prohibit any preparation and testing reports created for recording the seal numbers and/or serial numbers of the DRE unit from being photocopied for public disclosure;

(g) prohibit the security seals and serial numbers of the DRE units from being photographed or copied for public disclosure;

(h) prohibit photographic and audio equipment, of any kind, including cell phone cameras from being used to record the serial numbers of the DRE units or to record the security seal numbers used

to secure the DRE units, provided that this rule shall not prohibit the news media from reporting on the preparation and testing process, so long as seal numbers and serial numbers on the DRE units are not recorded or displayed in any manner;

(ii) During the public preparation and testing of the DRE units to be used in a particular primary or election, the election superintendent shall cause each DRE unit to be programmed with the memory card (PCMCIA card) for the precinct at which the DRE unit will be used. After placing the memory card (PCMCIA card) in the DRE unit, the DRE unit shall have such internal diagnostic tests performed as shall be directed by the Secretary of State or the election superintendent. Following the completion of the diagnostic tests, the DRE unit shall have an internal logic and accuracy test performed using the memory card (PCMCIA card) for the primary or election for which the unit is being prepared. If the DRE unit fails any of the diagnostic or logic and accuracy tests, the unit shall not be used in a primary or election until such unit is repaired and inspected and found capable of proper functioning and passes the diagnostic and logic and accuracy tests. Upon the successful completion of the logic and accuracy test, the DRE unit shall be cleared of any accumulated vote totals for the primary or election and a zero tape run to verify that the vote registers in the unit are set at zero. After verifying that the vote registers are set at zero, the tape shall be attached to the custodian's certification form to document the logic and accuracy testing and the unit shall be configured for voting. The unit shall then be securely closed in its case and a numbered seal placed on its case such that the case may not be opened until and unless the seal is broken.

(iii) The election superintendent or the custodian responsible for preparing the DRE units, if one has been appointed by the election superintendent in accordance with O.C.G.A. § 21-2-379.6(b), shall make a certification stating for each DRE unit the serial number of the DRE unit, the number on the system counter of the DRE unit, the number on the seal with which the DRE unit is sealed, and that the election counter and each vote register on the unit was set at zero. The case shall be appropriately labeled with the name of the precinct in which the unit is to be used and the serial number of the DRE unit. The custodian's certification shall be retained with the records for such primary runoff or election runoff and shall be stored with such

records with the clerk of superior court or municipal clerk, as appropriate, for the same period of time as required by law for other election records.

(iv) After being prepared for voting, each DRE unit shall be safely and securely stored until such time as the unit is transported to the precinct in which such unit is to be used.

## 2. Primary Runoffs and Election Runoffs.

(i) On or before the third day preceding a primary runoff or election runoff, including special primary runoffs and special election runoffs, the election superintendent shall commence the preparation and testing of the DRE units for use in the primary runoff or election runoff. At least 24 hours prior to the commencement of such preparation and testing, the election superintendent shall publish a notice in the legal organ of the county stating the date, time, and place or places where preparation and testing of the DRE units for use in the runoff will commence and stating that such preparation shall continue from day to day until such preparation is complete and that such preparation and testing shall be open to the public and that members of the public are entitled to be present during the preparation and testing of the DRE units. The election superintendent shall cause such preparation and testing to begin on such date and time and at such place or places. Such preparation and testing shall be open to members of the public to observe; however, such members of the public shall not in any manner interfere with the preparation and testing of the DRE units. Any person found to be interfering with the preparation and testing process may be asked to leave the preparation and testing process and may be cited for interfering with an election official while in performance of election duties. Any questions and/or complaints from the general public regarding the preparation and testing process must be directed to the election superintendent and not to the individual personnel conducting the preparation and testing process. The election superintendent may make such reasonable rules and regulations concerning the conduct of such members of the public observing such preparation and testing as the election superintendent deems necessary and appropriate; provided, however, that such rules and regulations shall not prevent members of the public from fairly observing the preparation and testing of the DRE units.

In addition to any reasonable rules and regulations that the election superintendent may create for the public to observe the preparation and testing process, the election superintendent or designee thereof, shall:

During the first day of preparation and testing, at the beginning of the day or for the first hour of public observation be available to explain the preparation and testing process and to respond to questions and provide answers regarding the purpose and the process of preparation and testing;

(b) maintain a presence at all times during the preparation and testing process if an outside source is conducting the preparation and testing process;

(c) administer an oath of custodian prior to beginning the preparation and testing process to any county personnel (except permanent state, county, or municipal election staff) appointed by the election superintendent to conduct the preparation and testing process;

(d) establish an area reasonable in proximity for the public to observe the preparation and testing process. Such area shall provide reasonable accommodations for the public insofar as space permits, but shall not be so established as to deny the general public the opportunity to view the process; however the area should not be of such a nature so as to allow the preparation and testing process to be interfered with by the general public;

(e) allow only election office personnel or individuals assigned to conduct the preparation and testing to enter the preparation and testing area during the preparation and testing process;

(f) prohibit any preparation and testing reports created for recording the seal numbers and/or serial numbers of the DRE units from being photocopied for public disclosure;

(g) prohibit the security seals and serial numbers from being photographed or copied for public disclosure;

(h) prohibit photographic and audio equipment, of any kind, including cell phone cameras from being used to record the serial

numbers of the DRE units or to record the security seal numbers used to secure the DRE units, provided that this rule shall not prohibit the news media from reporting on the preparation and testing process, so long as seal numbers and serial numbers on the voting units are not recorded or displayed in any manner;

(ii) During the public preparation and testing of the DRE units to be used in a particular primary runoff or election runoff, the election superintendent shall cause each DRE unit to be programmed with the memory card (PCMCIA card) for the precinct at which the DRE unit will be used. After placing the memory card (PCMCIA card) in the DRE unit, the DRE unit shall have such internal diagnostic tests performed as shall be directed by the Secretary of State and the election superintendent. Following the completion of the diagnostic tests, the superintendent shall cause a number of random DRE units as provided by law to undergo an internal logic and accuracy test using the memory card (PCMCIA card) for the primary runoff or election runoff for which the unit is being prepared. If a DRE unit fails any of the diagnostic or logic and accuracy tests, the unit shall not be used in any primary, election, or runoff until such unit is repaired and inspected and found capable of proper functioning and passes the diagnostic and logic and accuracy tests. Upon the successful completion of the logic and accuracy test, the DRE unit shall be cleared of any accumulated test vote totals for the primary runoff or election runoff and a zero tape run to verify that the vote registers in the unit are set at zero. After verifying that the vote registers are set at zero, the tape shall be attached to the custodian's certification form to document the logic and accuracy testing and the unit shall be configured for voting. The unit shall then be securely closed in its case and a numbered seal placed on its case such that the case may not be opened until and unless the seal is broken. The custodian's certification shall be retained with the records for such primary runoff or election runoff and shall be stored with such records with the clerk of superior court or municipal clerk, as appropriate, for the same period of time as required by law for other election records.

(iii) All memory cards to be used in the runoff shall be tested.

(iv) The election superintendent or the custodian responsible for preparing the DRE units, if one has been appointed by the election superintendent in accordance with O.C.G.A. § 21-2-379.6(b), shall

make a certification stating for each DRE unit the serial number of the DRE unit, the number on the system counter of the DRE unit, the number on the seal with which the DRE unit is sealed, and that the election counter and each vote register on the unit was set at zero. The case shall be appropriately labeled with the name of the precinct in which the unit is to be used and the serial number of the DRE unit.

(v) After being prepared for voting, each sealed DRE unit shall be safely and securely stored until such time as the unit is transported to the precinct in which such unit is to be used.

(c) Transport to Polls.

1. The election superintendent shall take all necessary measures to ensure that the DRE units are safely and securely transported to the polling places.

2. The election superintendent shall cause the DRE units for each precinct to be delivered to the polling place for the precinct at least one hour before the time for the opening of the polls.

3. If the DRE units are stored at a polling place after being configured for voting and sealed, the election superintendent shall ensure that the units are stored in a secure area with appropriate climate control.

4. The election superintendent shall deliver the supervisor's card, a sufficient quantity of voter access cards, and the key to the DRE units to the chief manager not later than one hour before the time set for the opening of the polls and shall obtain a receipt for the cards and key. The supervisor's card shall be sealed in an envelope and shall not be opened until the polls are closed unless all of the ballot encoding devices at the precinct fail and it is necessary to use the supervisor's card to configure a DRE unit to encode the voter access cards at the precinct. In such cases, the use of the supervisor's card before the close of the polls shall be documented in the records for the election at that precinct. In addition, the superintendent shall deliver on the appropriate form a listing containing the serial number of each DRE unit, and the number of the seal placed on each such unit.

(d) Before the Opening of the Polls.

1. The poll officers shall set up the DRE units for voting prior to the opening of the polls. The set up shall be performed in public and the public may view the set up subject to such reasonable rules and regulations as the election superintendent may deem appropriate to protect the security of the DRE units and to prevent interference with the duties of the poll officers.

2. The poll officers shall verify that the seal for each unit is intact and that there is no evidence or indication of any tampering with the seal or the unit. The poll officers shall verify that the number of the seal matches the number of the seal recorded for that unit when such unit was prepared by the election superintendent for the primary, election, or runoff. If a seal number does not match or if there is any evidence or indication of tampering with the seal or unit, the election superintendent shall be immediately notified and such unit shall not be used until such matters are resolved by agreement of the election superintendent and the poll manager.

3. Each DRE unit shall be set up and its power turned on and the privacy screens for the unit erected and its screen lifted into place.

4. The poll manager shall run a zero tape on each DRE unit prior to the opening of the polls. The poll manager, along with the other assistant managers, shall, without removing the tape from the unit, verify that all vote registers shown on the zero tape are set to zero and that there are no votes showing on the unit and shall sign the tape in the space provided. If the zero tape does not show that all vote registers are set to zero and that there are votes on the unit, the election superintendent shall be immediately notified and such unit shall not be used until the unit is cleared and the matter is resolved by agreement of the election superintendent and the poll manager.

5. After verifying and signing the zero tape, the poll manager shall securely lock the tape compartment leaving the zero tape in place on the unit and shall configure the unit for voting. The poll manager shall verify that the election counter on each DRE unit is set at zero. If the election counter is not set to zero, the election superintendent shall be immediately notified and such unit shall not be used until the election counter is set to zero and the matter is

resolved by agreement of the election superintendent and the poll manager.

6. The poll officers shall verify that there is no unauthorized matter affixed to the DRE units or present in the cases or voting booths.

7. The poll officers shall affix a card of instructions for voting within each voting booth and shall place at least two printed sample ballots and at least two voting instructions posters approved or provided by the Secretary of State outside the enclosed space at the polling place for the information of the voters. Prior to voters entering the enclosed space, the poll officers may also distribute to such voters a card of instructions for voting on the DRE unit that has been approved or provided by the Secretary of State.

#### (4) Conducting Elections.

(a) As each voter presents himself or herself at the polling place for the purpose of voting during the time during which the polls are open for voting, each voter shall be offered instruction by a poll officer in the method of voting on the DRE units. In providing such instruction, the poll officers shall not in any manner request, suggest, or seek to persuade or induce any voter to vote any particular ticket or for any particular candidate or for or against any particular question.

(b) When a person presents himself or herself at the polling place for the purpose of voting during the time during which the polls are open for voting, the person shall complete a voter's certificate and submit it to the poll officers. The poll officers shall then verify the identity of the person and that the person is a registered voter of the precinct and, if so, shall approve the voter's certificate and enter an appropriate designation on the electors list for the precinct reflecting that the voter has voted in the primary, election, or runoff being conducted. The voter's name shall then be entered on the appropriate numbered list of voters. The poll manager or the poll officer who has been designated by the poll manager to issue voter access cards shall then use the ballot encoder device to encode and issue the voter an appropriate voter access card authorizing the voter to vote the correct ballot style in the DRE units at the polling place. Upon a DRE unit being available, the voter shall then enter the enclosed space in the

polling place and insert the voter access card into an available DRE unit and proceed to vote his or her choices. Upon completion of voting, the voter shall press the “cast ballot” button, remove the voter access card from the DRE unit, and return the card to a poll officer.

Then the voter shall exit the enclosed area of the polling place.

(c) At least once each hour during the time while the polls are open, the poll officers shall examine the face of each DRE unit and each voting booth to verify and ensure that no unauthorized matter has been affixed to the unit or placed in the voting booth and that the unit has not been tampered with in any manner.

(d) The polling place shall be so arranged in such a manner as to ensure the privacy of the elector while voting on a DRE unit, to allow monitoring of each DRE unit by the poll officers while the polls are open, and to permit the public to observe the voting without affecting the privacy of the electors as they vote. In addition, at least one DRE unit shall be configured for voting by physically disabled voters in wheelchairs and provisions shall be made to ensure the privacy of such electors while voting.

(e) It shall be permissible under O.C.G.A. § 21-2-410 and shall not constitute assistance in voting under O.C.G.A. § 21-2-409 for poll officers to assist a voter in inserting the voter card in the DRE unit and in explaining the operation of the unit to the voter; provided that the poll officer withdraws from the voting booth prior to the voter pressing the “start” button or beginning voting. The poll officers shall not in any manner request, suggest, or seek to persuade or induce any voter to vote any particular ticket or for any particular candidate or for or against any particular question.

(f) Voters utilizing a VWD device to vote on the DRE units without the assistance of any other individual shall not be considered as receiving assistance in voting and shall not be required to complete the forms required for receiving assistance in voting pursuant to O.C.G.A. § 21-2-409.

(g) The poll officers shall ensure that voters return the voter access cards to the poll officials prior to leaving the enclosed space in the polling place. The poll officers shall arrange and configure the polling

place and provide staffing at such places at the polling place to ensure that a voter will not leave the polling place with a voter access card.

(h) If a voter leaves a DRE unit prior to completing the process of voting and exits the polling place and does not return to the unit to complete the voting process, the poll officers shall cancel or void the vote on the DRE unit without attempting in any manner to see how the voter voted and shall make a notation of the incident in the election records for the precinct.

(i) A voter may request information from the poll officers concerning how to vote on the DRE unit at any time during the voting process; provided, however, that the poll officers shall not observe or view the voter's ballot on the DRE unit or make any attempt to see how the voter has voted. However, once the voter casts his or her ballot, even if the ballot is blank with no votes cast, such voter shall be deemed to have voted and may not thereafter vote again in the same primary, election, or runoff on that election day.

(j) If a voter discovers that the ballot presented on the DRE unit is not correct or is not the ballot that the voter desired to vote, the voter shall immediately notify a poll officer. The poll officer shall cancel or void the ballot on the DRE unit without attempting in any manner to see how the voter has voted and shall then take the necessary steps to provide the voter with the correct ballot by encoding and issuing a new voter access card to the voter and making any necessary corrections to the voter's certificate of the voter, the electors list, and the numbered list of voters. If the voter presses the "cast ballot" button prior to notifying the poll officials of the error in the ballot, the voter shall be deemed to have voted and shall not be permitted to cast another ballot in the same primary, election, or runoff on that election day.

(k) If a DRE unit malfunctions during the day of a primary, election, or runoff, the poll manager shall immediately notify the election superintendent and shall not allow any voter to use the unit until and unless the malfunction is corrected. The election superintendent shall immediately arrange for the repair of the DRE unit or shall provide a replacement DRE unit as soon as practicable to replace the malfunctioning unit. A replacement DRE unit shall not be used as a replacement unit unless it has been appropriately tested prior to its use.

(5) Tabulating Results.

(a) After the Polls Close.

1. Immediately after the polls close and the last voter has voted, the poll manager shall open the envelope containing the supervisor's card and use the supervisor's card to close each of the DRE units in the precinct against further voting.

2. The poll officers shall then compare the total number of persons voting as shown by the number of voters certificates, the number of persons marked on the electors list, the number of voters on the numbered list of voters, and the number of persons shown as voting on the election counters of the DRE units. If these numbers do not equal one another, the poll officers shall determine the reason for the inconsistency; correct the inconsistency, if possible; and fully document the inconsistency or problem along with any corrective measures taken before going further.

3. After completing the comparison of the total number of persons voting as shown by the electors list, the voter's certificates, the numbered list of voters, and the election counters of the DRE units, the poll manager shall cause each DRE unit to print a minimum of two tapes showing the vote totals as cast on that DRE unit. The poll manager and at least one assistant manager shall also compare the number of ballots voted as shown on the tape with the number of ballots voted as shown on the election counter of the DRE unit. If these numbers are not identical, the poll manager shall document the discrepancy. The poll manager and the assistant managers shall sign each of the tapes or shall write on the tapes the reason why the poll manager or the assistant managers will not sign the tapes.

4. If directed by the election superintendent, the poll manager shall designate one of the DRE units as the accumulator unit to accumulate the votes for the precinct. After printing all of the tapes for the individual DRE units, the poll manager shall accumulate the totals for the accumulator DRE unit and remove the memory card (PCMCIA card) from the accumulator DRE unit. The poll manager shall then collect and retain the two signed tapes (one of which shall include the zero tape) with the memory card (PCMCIA card) from each

DRE unit and shall place the memory card (PCMCIA card) in the appropriate envelope provided by the election superintendent. The poll manager shall then begin removing the memory cards (PCMCIA cards) from the remaining DRE units one by one and inserting the memory cards (PCMCIA cards) into the accumulator DRE unit and accumulating the vote totals from the other DRE units into the accumulator DRE unit. Upon the vote totals for each memory card (PCMCIA card) being entered into the accumulator DRE unit, the memory card (PCMCIA card) shall be removed from the accumulator DRE unit and two signed tapes (one of which shall contain the zero tape) shall be collected and retained with the card. Each memory card (PCMCIA card) shall then be placed into the appropriate envelope provided by the election superintendent. After the results from the last memory card (PCMCIA card) are entered into the accumulator DRE unit and the last memory card (PCMCIA card) has been placed in the envelope, the envelope containing the memory cards (PCMCIA cards) and tapes shall be sealed and secured by the poll manager and at least one assistant manager in an envelope container provided by the election superintendent which shall be sealed and initialed by the poll manager and the two assistant managers such that the envelope cannot be opened without breaking such seal.

5. After all of the results have been entered into the accumulator DRE unit, the poll manager shall cause a minimum of three tapes to be printed out by the DRE unit showing the total votes cast for the precinct. The poll manager and the assistant managers shall sign each of the tapes or shall write on the tapes the reason why the poll manager or the assistant managers will not sign the tapes. One tape shall be posted on the door of the polling place for the information of the public along with a copy of the provisional ballot recap sheet for the precinct. The other tapes shall be placed into the envelope provided by the election superintendent for that purpose and sealed and initialed by the poll manager and at least one assistant manager.

6. If the election superintendent does not direct that the results of the precinct be accumulated, then the poll manager shall cause each DRE unit to print an additional results tape which shall be verified and signed in the same manner as provided in paragraph 3 of this subparagraph. Such additional results tape for each DRE unit shall be posted on the door of the polling place for the information of the public along with a copy of the provisional ballot recap sheet for the

precinct. The memory card (PCMCIA card) and two signed tapes from each DRE unit shall be placed in the appropriate envelope supplied by the election superintendent which shall be sealed and initialed by the poll manager and at least one assistant manager such that the envelope cannot be opened without breaking such seal.

7. After completing the printing of the results, the DRE units shall be turned off and secured in their cases and resealed, The number of each seal shall be entered on the appropriate form along with the serial number of the DRE unit case in which it is inserted. The DRE units shall then be placed in a secure area with appropriate climate control.

8. The memory cards (PCMCIA cards), results tapes, voter access cards, supervisor's card, ballot encoder devices, electors lists, numbered lists of voters, voter certificates, recap sheets, and other such paperwork shall be transported to the office of the election superintendent by the poll manager and at least one other poll officer. The election superintendent or his or her designee shall receive the materials and shall issue a receipt to the poll manager for the materials.

(b) Electronic Transmission of Precinct Results to Central Office.

1. After accumulating all of the vote totals for the precinct, if directed to do so by the election superintendent, the poll manager shall connect the accumulator DRE unit to an analog telephone line and electronically transmit the accumulated vote totals for the precinct to the central office. The DRE unit shall not be connected to a telephone line during the time while the polls are open.

2. Vote totals reported electronically from the precinct to the central office shall be unofficial and shall not be used in preparing the official returns for the primary, election, or runoff.

(c) Consolidation of Results.

1. All persons involved with the tabulation and consolidation of the election results and who will operate the computer programs or handle the memory cards (PCMCIA cards) shall be sworn before entering into their duties.

2. No persons except those persons who are employed by the election superintendent and who have been duly sworn shall perform any duties in connection with the tabulation or consolidation of election results. No persons who are not employed by the election superintendent and have been duly sworn shall touch or be in contact with any container, returns, tapes, device, memory card (PCMCIA card), or any other such election materials. Only persons who are employed by the election superintendent and have been duly sworn shall be in the immediate area of the tabulating center designated by the superintendent for the officers to conduct the tabulation and consolidation of the election results.

3. The tabulation and consolidation shall be performed in public. However, the election superintendent may make reasonable rules and regulations for conduct at the tabulating center to ensure the security of the results and the returns and to avoid interference with the tabulating center personnel.

4. Upon the delivery of the memory cards (PCMCIA cards) from each precinct, the election superintendent or his or her designee shall provide a receipt to the poll manager for the memory cards (PCMCIA cards) and precinct election materials.

5. Upon receiving the memory cards (PCMCIA cards), the election superintendent shall verify the signatures on the sealed envelopes and verify that the seals are intact, that the envelopes have not been opened, and that there is no evidence of tampering with the envelopes or their contents.

6. In the case of elections for county, state, and federal office, after verifying that the envelopes are properly sealed and have not been opened or tampered with, the election superintendent shall break the seal and open each envelope and remove the memory card (PCMCIA card) and results tapes. The election superintendent or his or her designee shall then insert the memory card (PCMCIA card) into the election management system computer and transfer the vote totals from the memory card (PCMCIA card) into the election management system for official tabulation and consolidation.

7. After transferring all of the vote totals from the memory cards (PCMCIA cards) to the election management system and

consolidating such totals with the totals from the absentee ballot system and such votes from any provisional ballots which have been found by the registrars to be authorized pursuant to O.C.G.A. § 21-2-419, the election superintendent shall prepare the official consolidated re-turns for the primary, election, or runoff.

8. The election superintendent shall not list and certify in the official consolidated returns for an election any results for write in candidates who were not properly qualified under O.C.G.A. § 21-2-133.

9. In the case of primaries, elections, and runoffs for county, state, and federal office, the county election superintendent shall transmit to the Secretary of State the election returns by precinct for the county in electronic format or by electronic means, as may be specified by the Secretary of State, within seven days following a primary, election, or runoff.

(d) Electronic Transmission of Precinct Results to Central Office. The election superintendent shall transmit to the Secretary of State unofficial election results for all races for state offices in any primary, election, or runoff as soon as possible after the closing of the polls, for such primary, election, or runoff. Such results shall be transmitted in a format prescribed by the Secretary of State. At a minimum, the results shall be transmitted upon one third of the precincts reporting results, upon two thirds of the precincts reporting results, and upon all precincts reporting results, including absentee ballots within all precincts. Except upon notice to and consultation with the Secretary of State, no election superintendent shall conclude the tabulation of votes on election night in any primary, election, or runoff in which there are contested races for federal and state offices until and unless all such unofficial results, including absentee ballots, have been transmitted to the Secretary of State.

#### (6) Storage of Returns.

(a) After tabulating and consolidating the results, the election superintendent shall prepare a CD-ROM which shall contain a copy of the information contained on each memory card (PCMCIA card) which shall include all ballot images as well as vote totals and a copy of the consolidated returns from the election management system.

(b) The CD-ROM shall be placed in a sealed envelope and shall become a part of the election materials which shall be deposited with the clerk of superior court or the municipal clerk, as appropriate, in accordance with O.C.G.A. § 21-2-500. In addition, the signed results tape from each DRE unit containing the signed zero tape shall also be deposited with the clerk of superior court.

(c) The memory cards (PCMCIA cards) shall be sealed in an appropriate container and securely maintained by the election superintendent until the period for requesting a recount of the primary, election, or run off results has expired. The election superintendent and at least one other sworn individual in the tabulating center shall seal the container and sign the seal such that the container cannot be opened without destroying or damaging the seal. Upon the expiration of the period for requesting a recount, the election superintendent may use the memory cards (PCMCIA cards) for programming DRE units for the next primary, election, or runoff.

(d) The election results, ballot styles, ballot images, and other information for each election stored in the internal memory storage of each DRE unit shall be maintained for a minimum of one month following each election after which time the results may be erased provided that there are no election contests pending concerning such election.

#### (7) Recounts and Recanvass.

(a) The election superintendent shall, either of his or her own motion, or upon petition of any candidate or political party or three electors of the county or municipality, as may be the case, order a recanvass of all the memory cards (PCMCIA cards) for a particular precinct or precincts for one or more offices in which it shall appear that a discrepancy or error, although not apparent on the face of the returns, has been made. Such recanvass may be held at any time prior to the certification of the consolidated returns by the election superintendent and shall be conducted under the direction of the election superintendent. Before making such recanvass, the election superintendent shall give notice in writing to each candidate and to the county chairperson of each party or body affected by the recanvass. Each such candidate may be present in person or by representative and each such political party or body may send two

representatives to be present at such recanvass. If upon such recanvass, it shall appear that the original vote count was incorrect, such returns and all papers being prepared by the election superintendent shall be corrected accordingly.

(b) The election superintendent shall conduct the recanvass by breaking the seal, if the ballots cards have been sealed, on the container containing the memory cards (PCMCIA cards) and removing those memory cards (PCMCIA cards) for the precinct or precincts for which the recanvass is being conducted. The election superintendent shall then cause the vote totals on each of the memory cards (PCMCIA cards) to be transferred to either an accumulator DRE unit or to the election management system computer. After all of the vote totals from the memory cards (PCMCIA cards) for the precinct or precincts for which the recanvass is being conducted have been entered, the election superintendent shall cause a printout to be made of the results and shall compare the results to the results previously obtained. If an error is found, the election superintendent shall correct the error in the returns accordingly.

(c) Recounts pursuant to O.C.G.A. § 21-2-495(c) shall be conducted in the same manner as other recounts under these rules.

#### (8) Maintenance of Equipment.

(a) Each county shall be responsible for maintaining the DRE units, computers, and software provided to such county by the Secretary of State or purchased by such county and shall either purchase a maintenance agreement for such equipment and software or shall self insure such equipment and software.

(b) In the event of any malfunction or problem with DRE units, the county election superintendent shall document the problem and its resolution and shall provide such information to the Secretary of State. The documentation shall include a detailed description of the malfunction or problem, the steps taken to correct the malfunction or problem, and the cause of such malfunction or problem if a cause can be determined.

(9) Use of Equipment by Municipalities. The county election superintendent is authorized to permit any municipality within the county to conduct its election with the DRE equipment through a written intergovernmental agreement between the county and the municipality; provided that the municipality agrees to maintain and operate the equipment in accordance with law, these rules and regulations, and the manufacturer's guidelines and specifications and provided further that the municipality trains all of its election personnel and poll workers in the proper operation and conduct of elections utilizing such equipment through a training program conducted by or approved by the Secretary of State.

(10) Sample Ballots. DRE units that are used for demonstration and education purposes shall not utilize or be programmed with the official ballot to be used in the primary or election for demonstrational or educational purposes. The units shall utilize or be programmed with a ballot containing the names of fictitious or historical persons whose names do not appear on the official ballot for such primary or election.

### **183-1-12-.06 Provisional Ballots.**

(1) This rule shall govern the casting of provisional ballots by voters at primaries and elections in accordance with O.C.G.A. §§21-2-418 and 21-2-419.

(2) In each polling place, there shall be established a location or station in the public area of the polling place for the purpose of issuing and receiving provisional ballots.

(3) The election superintendent shall provide each polling place with an adequate supply of provisional ballots in each ballot style (district combination) for the precinct and an inner ballot envelope and an outer ballot envelope. The ballot envelopes shall be so designed that the ballot will fit within the inner ballot envelope and the inner ballot envelope will fit within the outer ballot envelope. The inner ballot envelope shall have printed on it the words "Official Provisional Ballot" and nothing else. The outer envelope shall have places for inserting the person's name, precinct, date and name of election, ballot style (district combination), and whether such ballot is a regular provisional ballot, a provisional ballot cast by a voter who registered to vote for the first time in this state by mail and has not provided the identification required by O.C.G.A. §§21-2-220 and 21-2-417, or a ballot cast during poll hours extended by a court order, or a combination thereof. Primaries and elections conducted by counties shall use optical scan ballots for provisional voting. Optical scan absentee ballots shall be acceptable for use as provisional ballots. Municipalities shall use the same type of ballots as the municipality uses for mail-in absentee voting. The election superintendent shall also provide a booth for voting provisional ballots in the enclosed space which will provide privacy for a person while voting a provisional ballot and a secure container in which the voted provisional ballots shall be placed.

(4) Voters whose names do not appear on electors list.

(a) When a person arrives at a polling place, completes a voter's certificate, and presents it to the poll workers but the person's name does not appear on the official electors list for the precinct, the poll officers shall immediately direct the person to the provisional ballot station. At the provisional ballot station, if a master list of registered electors is available, the poll workers shall check the list to determine if the person is registered at a different precinct. If the person's name appears on the master list for a different precinct, the poll workers shall direct the person to the correct precinct.

(b) If the person's name is not found on the official list of electors for the precinct or the master list, if available, the poll officers shall immediately contact the registrars and the person shall provide such information as the registrars may request to determine if the person is eligible to vote in the election. The registrars shall promptly review the information provided by the person and shall attempt to determine if the person timely and properly registered to vote.

(c) If the registrars can immediately determine that the person timely and validly registered to vote in the primary or election and should be assigned to the precinct at which the person is present, the registrars shall authorize the poll officers to add the person's name to the official electors list for the precinct and shall permit the person to vote in the same manner as other voters in the pre-cinct vote. When there are multiple ballot styles (district combinations) in use in the precinct, the registrars shall also advise the poll officers which ballot style (district combination) should be issued to the person. The person's name shall then be added to the official electors list for the precinct with a notation of the name of the registrar who authorized such addition. Upon presentation of a properly completed voter's certificate and the identification required by O.C.G.A. §21-2-417, the person shall be permitted to vote in the same manner as other voters in the precinct.

(d) If the registrars can immediately determine that the person timely and validly registered to vote in the primary or election but should be assigned to a different precinct from the one at which the person is present, the registrars shall direct the poll officers to send the person to the appropriate other precinct and the registrars shall

notify the officers of such other precinct to add the person's name to the official electors list for such other precinct. When there are multiple ballot styles (district combinations) in use in such other precinct, the registrars shall also advise the poll officers at such other precinct which ballot style (district combination) should be issued to the person. The person's name shall then be added to the official electors list for the other precinct by the poll officers of the other precinct with a notation of the name of the registrar who authorized such addition. Upon the completion of a voter's certificate and the submission of the identification required by O.C.G.A. § 21-2-417, the person shall be permitted to vote in the same manner as other persons in such other precinct. However, if, in the reasonable exercise of discretion by the registrars or the poll workers, there is insufficient time for such person to go to such other precinct before the polls close, the poll workers may allow such person to vote a provisional ballot at the precinct in which the person is present. In such case, all votes cast by such person for candidates for whom such person is properly entitled to vote shall be counted and all votes cast for candidates for whom such person is not properly entitled to vote shall be void and shall not be counted in accordance with O.C.G.A. §21-2-419(c).

(e) If the registrars cannot immediately determine that the person timely and validly registered to vote in the primary or election; but, from the information presented by the person, the person, if properly registered, would be assigned to the precinct at which the person is present, the registrars shall authorize the poll officers to permit the person to cast a provisional ballot at such precinct. When there are multiple ballot styles (district combinations) in use in the precinct, the registrars shall also advise the poll officers which ballot style (district combination) should be issued to the person.

(f) If the registrars cannot immediately determine that the person timely and validly registered to vote in the primary or election; but, from the information presented by the person, the person, if registered, would be assigned to a different precinct from the precinct in the county or municipality at which the person is present, the registrars shall direct the poll officers to send the person to the appropriate precinct. The registrars shall notify the officers of such other precinct to permit the person to vote a provisional ballot when such person arrives at such precinct, completes an official voter

registra-tion form and a provisional ballot voter's certificate, and submits the appropriate identification required by O.C.G.A. §21-2-417. When there are multiple ballot styles (district combinations) in use in such other precinct, the registrars shall also advise the poll officers which ballot style (district combination) should be issued to the person. However, if, in the reasonable exercise of discretion by the registrars or the poll workers, there is insufficient time for such person to go to such other precinct before the polls close, the poll workers may allow such person to vote a provisional ballot at the precinct at which such person is present. In such case, all votes cast by such person for candidates for whom such person is properly entitled to vote shall be counted and all votes cast for candidates for whom such person is not properly entitled to vote shall be void and shall not be counted in accordance with O.C.G.A. §21-2-419(c).

(g) If the person appears at a precinct in a county or municipality in which the person does not reside, the registrars shall instruct the poll officers to direct the person to contact the registrars in the county in which the person resides to determine in which precinct such person should vote.

(h) If the poll officers cannot get in touch with the registrars after making a reasonable effort to do so, the poll officers shall be authorized to permit the person to vote a provisional ballot at the precinct without additional authorization from the registrars. In such case, all votes cast by such person for candidates for whom such person is properly entitled to vote shall be counted and all votes cast for candidates for whom such person is not properly entitled to vote shall be void and shall not be counted in accordance with O.C.G.A. § 21-2-419(c).

(i) Upon receiving authorization to vote a provisional ballot, the person shall complete a provisional ballot voter's certificate and an official voter registration form and submit such completed certificate and form to the poll officers along with the appropriate identification required by O.C.G.A. § 21-2-417. The poll officers shall place the name of the person on the numbered list of provisional ballot voters and issue the person a provisional ballot of the style authorized by the registrars along with an inner ballot envelope and an outer ballot envelope. Before issuing the outer ballot envelope to the person, the poll officers shall enter the person's name, the name of the precinct,

the date and name of the election, and the ballot style (district combination) on the outer envelope. The person shall then re-tire to the provisional ballot voting booth and vote the ballot. Upon completing the ballot, the person shall seal the ballot in the inner ballot envelope and place the inner ballot envelope containing the ballot into the outer ballot envelope and shall seal the outer ballot envelope. The person shall then return the sealed envelope to the poll officers.

(j) Upon receiving the sealed ballot envelope from a person casting a provisional ballot, the poll officers shall verify that the information requested on the outer ballot envelope is complete, shall mark the appropriate box or boxes to designate the type of provisional ballot enclosed therein, and shall direct the person to place the ballot envelope into the secure container for provisional ballots which shall be located within the enclosed space in the polling place where it can be monitored by the poll officers and observed by the public. The provisional ballot voter's certificate and voter registration form shall be attached together and shall be placed in a separate, distinctively marked envelope which shall be placed in a secure location in the polling place.

(5) Voter who registered for first time by mail but did not provide required identification.

(a) When a person arrives at a polling place, completes a voter's certificate, and presents it to the poll workers but does not have the identification required by O.C.G.A. §21-2-417 and the person's name appears on the official electors list for the precinct with a designation that the person registered to vote for the first time in this state by mail but has not provided the required identification to the registrars as required by O.C.G.A. §21-2-220, the poll officers shall immediately direct the person to the provisional ballot station. At the provisional ballot station, the person shall be permitted to cast a provisional ballot at such precinct. When there are multiple ballot styles (district combinations) in use in the precinct, the poll officers shall issue the appropriate ballot style (district combination) to the person as shown on the electors list. The poll officers shall place the name of the person on the numbered list of provisional ballot voters and issue the person a provisional ballot of the style authorized by the registrars along with an inner ballot envelope and an outer ballot

envelope. Before issuing the outer ballot envelope to the person, the poll officers shall enter the person's name, the name of the precinct, the date and name of the election, and the ballot style (district combination) on the outer envelope. The person shall then retire to the provisional ballot, voting booth and vote the ballot. Upon completing the ballot, the person shall seal the ballot in the inner ballot envelope and place the inner ballot envelope containing the ballot into the outer ballot envelope and shall seal the outer ballot envelope. The person shall then return the sealed envelope to the poll officers.

(b) Upon receiving the sealed ballot envelope from a person casting a provisional ballot, the poll officers shall verify that the information requested on the outer ballot envelope is complete, shall mark the appropriate box or boxes to designate the type of provisional ballot enclosed therein, and shall direct the person to place the ballot envelope into the secure container for provisional ballots which shall be located within the enclosed space in the polling place where it can be monitored by the poll officers and observed by the public.

(c) The provisional ballot shall not be counted unless the voter provides the identification required by O.C.G.A. §§ 21-2-220 and 21-2-417 to the registrars before the end of the period set by law for the verification of provisional ballots. Such identification may be provided to the registrars in person or by facsimile transmission or, in the case of disabled voters, by delivery by a third party.

(6) Voters voting during extended polling hours in an election in which federal candidates are on the ballot.

(a) In the event that the polling hours for a polling place are extended by a court order beyond the normal closing time for a primary, election, or runoff in which federal candidates are on the ballot, all voters who vote after the normal closing time for the polling place shall vote by provisional ballot.

(b) Voters whose names appear on the electors list and who have the appropriate identification required by O.C.G.A. § 21-2-417 shall complete a provisional voter's certificate and shall be issued a provisional ballot along with an inner ballot envelope and an outer ballot envelope. Such voters shall not be required to complete a voter

re-gistration form. It also shall not be necessary to obtain approval from the registrars to issue provisional ballots to such voters. The poll officers shall place the name of the person on the numbered list of provisional ballot voters. Before issuing the outer ballot envelope to the person, the poll officers shall enter the person's name, the name of the precinct, the date and name of the election, and the ballot style (district combination) on the outer envelope. The person shall then retire to a provisional ballot voting booth and vote the ballot. Upon completing the ballot, the person shall seal the ballot in the inner ballot envelope and place the inner ballot envelope containing the ballot into the outer ballot envelope and shall seal the outer ballot envelope. The person shall then return the sealed envelope to the poll officers. Upon receiving the sealed ballot envelope from a person casting a provisional ballot, the poll officers shall ver-ify that the information requested on the outer ballot envelope is complete, shall mark the appropriate box to designate that the bal-lot is an extended poll hours provisional ballot, and shall direct the person to place the ballot envelope into the secure container for pro-visional ballots which shall be located within the enclosed space in the polling place where it can be monitored by the poll officers and observed by the public.

(c) If the voter's name is not on the electors list, the poll workers shall follow the provisions of this rule for regular provisional balloting under this rule and, if the voter is authorized by the registrars to vote a provisional ballot under the terms of this rule, shall also mark the appropriate box on the outer ballot envelope to indicate that the ballot was issued during extended poll hours.

(d) If the voter's name is on the electors list but registered to vote for the first time in this state by mail and has not provided the identification required by O.C.G.A. § 21-2-220, the poll officers shall permit the voter to vote in accordance with the provisions of this rule for first time voters who register for the first time in this state by mail without providing the required identification, and shall also mark the appropriate box on the outer ballot envelope to indicate that the ballot was issued during extended poll hours.

(e) The poll officers shall provide each first time voter who registered for the first time in this state by mail without providing the required identification who casts a provisional ballot information on

how the voter may provide the registrars with the appropriate identification in order that the voter's ballot may be counted.

(7) Each voter casting a provisional ballot in a primary, election, or runoff in which federal candidates appear on the ballot shall be given written information explaining how such voter can ascertain if such ballot is counted and, if such ballot is not counted, the reason why such ballot was not counted.

(8) The provisional ballot voter's certificates and voter registration cards may be picked up during the day by a registrar or deputy registrar for the purpose of beginning the process of determining the eligibility of the persons to cast provisional ballots. Before transferring the voter's certificates and registration cards to the registrars during the day, the poll officers shall note the number of certificates and cards being transferred to the registrars. If such voter's certificates and registration cards are not picked up by the registrars by the time that the polls close and the last voter has voted, the envelope in which the provisional ballot voter's certificates and voter registration cards have been deposited shall be securely sealed and shall be returned to the election superintendent with the other materials from the polling place.

(9) After the close of the polls and the last voter has voted, the poll officers shall account for all voted provisional ballots, cancelled and spoiled provisional ballots, and unused provisional ballots. The ballot stubs and unused and spoiled ballots shall then be securely sealed in the container provided for them by the election superintendent. The poll officers shall then proceed to open the secure container in which the provisional ballots were deposited and count the number of voted provisional ballots contained therein. The poll officers shall then compare the total number of persons voting provisional ballots as shown on the numbered list of provisional ballot voters with the number of ballots issued and the number of ballots voted. If these numbers do not equal one another, the poll officers shall determine the reason for the inconsistency and shall correct the problem before going further. The poll officers shall seal the voted provisional ballots in a container for transfer to the election superintendent. The poll officers shall complete and sign a provisional ballot recap sheet and post one copy of the recap sheet on the door of the polling place with the election results from the precinct. The remaining copies of the

provisional ballot recap sheet along with the numbered list of provisional ballot voters shall be returned to the election superintendent with the other election materials from the precinct.

(10) Upon receiving the election materials from the precincts, the election superintendent shall ensure that the envelope containing the provisional ballot voter's certificates and voter registration cards is promptly removed from the other materials and transferred to the registrars for processing. In any event, the voter's certificates and registration cards shall be transferred to the registrars no later than 9:00 a.m. on the day following the day of the primary, election, or runoff. The election superintendent shall also remove the container containing the voted provisional ballots and shall place such container in a secure location within the election superintendent's office.

(11)(a) Upon receiving the provisional ballot voter's certificates and voter registration cards from the election superintendent, the registrars shall promptly proceed to determine the eligibility of each person that voted a provisional ballot.

(b) If the registrars determine that the person did timely register and is eligible and entitled to vote in such primary, election, or runoff, the registrars shall mark on the numbered list of provisional ballot voters that the ballot is accepted and shall notify the election superintendent of the proper ballot style (district combination) for the voter.

(c) If the registrars determine that the person did not timely register to vote for the primary or election or is not eligible and entitled to vote in such primary or election or if the registrars cannot determine by the close of business on the third business day following the day of the primary, election, or runoff if the voter timely registered and was eligible and entitled to vote in such primary or election, the registrars shall mark on the numbered list of provisional ballot voters that the ballot is rejected.

(d) Not later than the close of business on the third business day following the day of the primary, election, or runoff, the registrars shall return to the election superintendent the numbered list of provisional ballot voters reflecting the accepted and rejected provisional ballots.

(e) The names of those persons whose names are accepted shall be added to the official electors list. The voter registration cards of those persons whose ballots are rejected on the numbered list of provisional ballot voters shall be processed by the registrars and, if found to be eligible and qualified, shall be added to the electors list for future elections.

(f) The registrars shall maintain the provisional ballot voter's certificates for the same period of time and under the same conditions as the regular voter's certificates. Voter registration cards completed by provisional ballot electors shall be maintained for the same period of time and under the same conditions as other voter registration cards.

(12) Upon receiving the numbered list of provisional ballot electors from the registrars, the election superintendent shall prepare to count the accepted provisional ballots. The election superintendent shall first compare the precinct designation and election district information with the Style of ballot (district combination) cast by the provisional ballot voter.

(a) If the ballot style (district combination) voted by the voter was correct, then the election superintendent shall open the outer envelope and place the inner envelope containing the ballot into a ballot box.

(b) If the ballot style (district combination) voted by the voter was not correct, then the election superintendent shall open the outer envelope and note the correct ballot style (district combination) on the inner envelope. Each such inner envelope shall then be placed in a separate container until all of the outer envelopes have been opened. The outer envelopes shall then be stored in a location away from the inner envelopes in a manner such that the inner envelope and ballot of a voter cannot be identified as being the ballot of a particular voter. The superintendent shall then open each such inner envelope and remove the ballot and shall place a unique identifying number on the ballot along with the designation of the precinct in the nonreflective area at the top of the ballot. The election superintendent shall then prepare or cause to be prepared a duplicate ballot. The duplicate ballot shall be clearly labeled with the word "Duplicate" and shall bear the name of the precinct and the same

unique identifying number as the original ballot in the nonreflective area at the top of the ballot. The election superintendent shall transfer or cause to be transferred to the duplicate ballot, in the presence of at least two other consolidation assistants and in public, only the votes cast by the provisional ballot voter in the races and on the questions to which such voter was eligible and entitled to vote. The votes entered on the duplicate ballot shall be verified by at least one consolidation assistant. The completed duplicate ballot shall be placed in the ballot box with the other provisional ballots to be counted. The original ballot shall be placed into an appropriate container and retained.

(c) After opening all of the outer envelopes and making all necessary duplicate ballots, the election superintendent shall then open the inner envelopes of the ballots in the ballot box and proceed to count the votes in the same manner as absentee ballots are counted. Upon completing the count, the election superintendent shall add the provisional ballot votes to the other votes cast at the polls and by absentee ballot and shall consolidate and certify the results of the primary, election, or runoff. The provisional ballots and any duplicates shall be retained for the same time period and in the same manner as absentee ballots.

(d) The rejected provisional ballots shall be marked on the outer envelope as “Not Counted” and shall not be opened. The ballots shall be maintained for the same time period and in the same manner as absentee ballots which were returned too late to be counted.

(e) The election superintendent shall notify the registrars of the names of those persons who cast a provisional ballot in the wrong precinct or on an incorrect ballot style (district combination).

(13)(a) Upon identifying the rejected provisional ballot electors, the registrars shall proceed promptly to notify each such person by first-class mail at the address shown on the provisional ballot voter's certificate that his or her ballot was not counted because of the inability of the registrars to verify that the person timely registered to vote or such other proper reason. If the person's voter registration card was approved, the registrars shall also notify the person that his or her name will be added to the elector's list and the person will be eligible to vote in future primaries and elections and that a voter

notification or precinct card will be mailed to the person to provide the voter with the correct precinct and election district information.

(b) Upon receiving notification from the election superintendent of the names of persons who cast provisional ballots in the incorrect precinct or on the incorrect ballot style (district combination), the registrars shall notify such persons of their correct precinct and/or election district information. The sending of a voter notification or precinct card by first-class mail to the address shown on the voter registration card completed by such person when voting by provisional ballot shall be sufficient notice for such voters.

(c) If the person's voter registration is rejected, the registrars shall notify the person of such rejection in accordance with O.C.G.A. § 21-2-226(d).

(d) In addition, the registrars shall establish a free access system, such as a toll-free telephone number or an Internet website, by which voters who cast provisional ballots in a primary, election, or runoff in which federal candidates are on the ballot may ascertain whether their ballots were counted or, if the ballots were not counted, the reasons why such ballots were not counted. The registrars shall establish and maintain reasonable procedures necessary to protect the security, confidentiality, and integrity of personal information collected, stored, or otherwise used by such system. Access to information about an individual provisional ballot shall be restricted to the voter who cast such ballot.

## 183-1-12-.07 Preparation of the Electors List and Use of ExpressPoll.

(1) Beginning July 1, 2006, counties shall use ExpressPoll units at precincts within the county during primaries, elections, and runoffs. The ExpressPoll units shall be utilized in lieu of the printed electors list and ballot encoders in each precinct where in use.

(2) The county election superintendent shall maintain each

ExpressPoll unit, and all components in a secure location under the same conditions as provided for DRE units under Rule 183-1-12-.02(2).

(3) Effective January 1, 2006, the registrars of each county shall utilize the absentee ballot subsystem of the statewide voter registration system for absentee balloting and advance voting.

(4) The registrars of each county shall complete the entry of new and updated voter registrations on a timely basis as required by the Secretary of State and shall notify the Secretary of State upon the completion of such data entry after a registration deadline.

(5) Prior to each primary or election as specified by the Secretary of State, the county election superintendent shall provide to the Secretary of State or his or her designee a final copy of the GEMS database for the county.

(6) The county election superintendent and the registrars shall notify the Secretary of State or his or her designee of any changes to the voter registration file for the county or the GEMS database that occur after the process for creating ExpressPoll flash cards begins.

(7) During the period in which DRE units are tested and prepared prior to delivery to the precincts, the election superintendent shall cause each ExpressPoll unit to undergo logic and accuracy testing. Each ExpressPoll unit must pass such logic and accuracy test prior to being assigned to a precinct. The registrars shall verify the information contained on the ExpressPoll units when assigning the units to precincts.

(8) Prior to delivery to the precincts, the registrars shall ensure that all persons who have been issued or cast absentee ballots are marked accordingly on the ExpressPoll units.

(9) Upon the conclusion of each primary, election, or runoff, the poll officers shall return the ExpressPoll units with the other election materials from the precinct to the election superintendent. The registrars and election superintendent shall coordinate the return of the flash cards from the ExpressPoll units to the Secretary of State such that the cards are returned in the same time period as the

official election returns.

(10) For electors whose names are added to the voter registration rolls after the deadline for preparing the flash cards for the ExpressPoll units, the registrars shall provide a printed supplemental list for use at the affected precincts.

Apr. 6, 2011.

**183-1-14-.02 Use of DRE Units for Absentee Balloting.**

- (1) Counties and municipalities are authorized to use DRE units

for in-person absentee balloting in accordance with the Georgia Election Code (O.C.G.A, Ch. 21-2) and these rules. As used in this rule, the term "Registrars" shall include a county board of registrars, a county board of elections and registration, a joint county-municipal board of elections and registration, a municipal absentee ballot clerk, a municipal registrar, and the designee of any board of registrars, board of elections and registration, or joint county-municipal board of elections and registration. The election superintendent and registrars shall by agreement determine the type of election equipment to be used in such election for in-person absentee voting and for absentee voting by mail or other legally appropriate means in which the ballot is sent or delivered to a voter for voting away from the office of the registrars.

(2) DRE units shall be configured and tested in accordance with the provisions of Rule 183-1-12-.02 prior to use in absentee balloting. Public notice of the time and place for such configuration and testing of the DRE units to be used for absentee balloting shall be given in accordance with O.C.G.A. § 21-2-379.6 and Rule 183-1-12-.02 prior to such configuration and testing.

(3) The DRE units to be used for in-person absentee voting shall be set up in a manner to assure the privacy of the elector while casting his or her ballot while maintaining the security of such units against tampering, damage, or other improper conduct. In addition, there shall be at least one DRE unit configured for use by physically disabled electors.

(4) Voter access cards for use in DRE units for in-person absentee balloting may be encoded by use of ballot encoder devices, DRE units specifically and exclusively set up for that purpose, or by use of the VCProgrammer software on appropriate computers.

(5) Each DRE unit to be used for in-person absentee voting shall be programmed so as to permit the challenging of ballots in accordance with law and the removal of such ballots from the count if such challenges are sustained by the registrars,

(6) On the first day of the absentee voting period, prior to any votes being cast on the DRE units, the registrars shall verify that the seal for each DRE unit is intact and that there is no evidence or

indication of any tampering with the seal or the unit. The registrars shall verify that the number of the seal matches the number of the seal recorded for that unit when such unit was prepared by the election superintendent for the primary, election, or runoff. If a seal number does not match or if there is any evidence or indication of tampering with the seal or unit, the Secretary of State and the election superintendent shall be immediately notified and such unit shall not be used until such matters are resolved by agreement of the Secretary of State, the election superintendent, and the registrars. The set up shall be performed in public and the public may view the set up subject to such reasonable rules and regulations as the registrars may deem appropriate to protect the security of the DRE units and to prevent interference with the duties of the registrars, except that the public view shall not be obstructed. The registrars shall run a zero tape on each DRE unit prior to the beginning of absentee voting on such units. The registrars shall, without removing the tape from the unit, verify that all vote registers shown on the zero tape are set to zero and that there are no votes showing on the unit and shall sign the tape in the space provided. If the zero tape does not show that all vote registers are set to zero and that there are votes on the unit, the election superintendent shall be immediately notified and such unit shall not be used until the unit is cleared and the matter is resolved by agreement of the election superintendent and the registrars. After verifying and signing the zero tape, the registrars shall securely lock the tape compartment leaving the zero tape in place on the unit and shall configure the unit for voting. The registrars shall verify that the election counter on each DRE unit is set at zero. If the election counter is not set to zero, the election superintendent shall be immediately notified and such unit shall not be used until the election counter is set to zero and the matter is resolved by agreement of the election superintendent and the registrars. The registrars shall verify that there is no unauthorized matter affixed to the DRE units or present in the cases or voting booths. The registrars shall affix a card of instructions for voting within each voting booth. Prior to voters entering the voting booth, the registrars may also distribute to such voters a card of instructions for voting on the DRE unit that has been approved or provided by the Secretary of State. Each DRE unit shall be clearly marked with a unique designation that is visible on the exterior of the unit.

(7) If a DRE unit is to be used for the creation of voter access cards, such DRE unit shall be set up properly for such purpose and shall be used exclusively for such purpose and no other purpose during the absentee voting period. The set up shall be performed in public and the public may view the set up subject to such reasonable rules and regulations as the registrars may deem appropriate to protect the security of the DRE unit and to prevent interference with the duties of the registrars, except that the public view shall not be obstructed. The registrars shall run a zero tape on the DRE unit prior to creating any voter access cards on such unit. The registrars shall, without removing the tape from the unit, verify that all vote registers shown on the zero tape are set to zero and that there are no votes showing on the unit and shall sign the tape in the space provided. If the zero tape does not show that all vote registers are set to zero and that there are votes on the unit, the election superintendent shall be immediately notified and such unit shall not be used until the unit is cleared and the matter is resolved by agreement of the election superintendent and the registrars. After verifying and signing the zero tape, the registrars shall securely lock the tape compartment leaving the zero tape in place on the unit and shall configure the unit for the creation of voter access cards. The registrars shall verify that the election counter on the unit is set at zero. If the election counter is not set to zero, the election superintendent shall be immediately notified and such unit shall not be used until the election counter is set to zero and the matter is resolved by agreement of the election superintendent and the registrars. The registrars shall make a notation of the election counter reading on the daily recap sheet.

(8) At the close of business each day during the absentee voting period, the registrars shall document the election counter number on the daily recap sheet. Each DRE unit used for in-person absentee voting shall then be turned off and closed. The memory card (PCMCIA card) shall remain in the unit at all times during the absentee balloting period until the polls close on the day of the primary, election, or runoff. Each DRE unit shall then be sealed and the seal number and the time of sealing shall be recorded on the daily recap sheet. Each DRE unit shall then be secured overnight. In addition, all voter access cards shall be securely stored overnight and when not in use. If a DRE unit is used to program voter access cards, the registrars shall make a notation of the election counter number

on the daily recap sheet. If such number is not zero, the registrars shall notify the Secretary of State immediately and shall ascertain the reason for the discrepancy and shall make a notation of such discrepancy and the reason for it on the daily recap sheet. Such DRE unit shall not be used for creation of voter access cards unless and until the unit is fully tested and reconfigured and the election counter reset at zero pursuant to procedures established by the Secretary of State. The DRE unit shall be turned off and secured for the night.

(9) Each morning during the absentee balloting period, the registrars shall publicly verify the seal numbers on each DRE unit to be used for absentee voting with the number of the seal recorded on the daily recap sheet from the previous day of absentee voting and shall verify that the seal and DRE unit do not show any signs of tampering. If the seal number corresponds to the entry on the daily recap sheet and there is no evidence of tampering, the DRE unit shall be opened and turned on. If the numbers do not match or there is evidence of tampering, the Secretary of State shall be notified immediately and the unit shall not be used until such discrepancy is resolved to the satisfaction of the Secretary of State, the election superintendent, and the registrars. After opening and turning on the unit, the registrars shall verify the election counter number with the number recorded on the daily recap sheet from the previous day of absentee voting. If the numbers do not match, the Secretary of State shall be immediately notified and the unit shall not be used until such discrepancy is resolved to the satisfaction of the Secretary of State, the election superintendent, and the registrars. The election counter number shall then be entered onto the daily recap sheet for that day. If a DRE unit is to be used for programming voter access cards, the registrars shall open and turn on the power for such unit. The registrars shall then verify that the election counter is set on zero. If the election counter is not set at zero, the Secretary of State shall be immediately notified and the unit shall not be used until such discrepancy is resolved to the satisfaction of the Secretary of State, the election superintendent, and the registrars. A notation shall be made on the daily recap sheet of the election counter number and the unit shall be configured to create voter access cards.

(10) Voters who vote absentee ballots in person on the DRE units shall first complete an absentee ballot application and sign an oath

document. After the registrars determine that the voter is eligible to vote by absentee ballot, the registrars shall note the voter's registration number and ballot style on the absentee ballot application. The voter shall then be issued a voter access card. The registrars shall record on the absentee voter log the voter's name, registration number, voter ID number, and designation of the DRE unit on which the voter shall vote. The voter shall then be permitted to vote on the designated DRE unit. After completing voting, the voter shall return the voter access card to the registrars.

(11) At the close of business on the day before the primary, election, or runoff at the end of the absentee balloting period, the registrars shall record the election counter number on the daily recap sheet. The registrars shall publicly configure the DRE units used for absentee voting to end the election and prevent further voting on the units. The units shall then be shut down and sealed. The registrars shall record the seal numbers on the daily recap sheet. The units shall then be secured until time for the tabulation of votes. For the DRE unit used for the creation of voter access cards, such unit shall be secured and returned to the election superintendent. Two zero tapes shall be printed and signed by the registrars confirming that all vote counters are set at zero. The memory card (PCMCIA cards) from the units used for the creation of voter access cards shall be removed from the units and placed along with the signed zero tapes in a sealed envelope which shall be returned to the election superintendent.

(12) At the close of the polls on the day of the primary, election, or runoff, the registrars shall deliver all of the DRE units used for inperson absentee voting and all other absentee ballots received in accordance with the provisions of the Georgia Election Code (O.C.G.A. Ch. 21-2) to the manager of the absentee ballot precinct. The poll officers of the absentee ballot precinct shall count all of the absentee ballots in accordance with the procedures required by law and the rules of the State Election Board. The poll officers shall verify the seal number of each DRE unit with the number recorded on the daily recap sheet form and shall inspect each seal and unit to verify that there is no evidence of tampering with the unit. If the seal numbers are not correct or there is evidence of tampering, the Secretary of State shall be notified immediately and no further action shall be taken with regard to such unit until the reason for the

discrepancy has been determined to the satisfaction of the Secretary of State, the election superintendent, and the manager of the absentee ballot precinct. After verifying the seal number and the integrity of the seal on each unit, the poll managers shall open each unit and turn on the power for the unit. The managers shall then compare the numbers shown on the election counters of the unit with the numbered list of absentee electors, the absentee voter log, and the absentee ballot precinct recap form to verify that there are no discrepancies. If there is a discrepancy, the Secretary of State shall be notified immediately and no further action shall be taken until the reason for the discrepancy has been determined to the satisfaction of the Secretary of State, the election superintendent, and the manager of the absentee ballot precinct. The managers of the absentee ballot precinct shall accept or reject absentee ballots cast on DRE units as directed by the registrars, using the procedures established by the Secretary of State. After completion of the acceptance and re-rejection process for the absentee ballots cast on the DRE units, the poll manager shall cause each DRE unit to print a minimum of three tapes showing the vote totals as cast on that DRE unit. The poll manager and the assistant managers shall sign each of the tapes or shall write on the tapes the reason why the poll manager or the assistant managers will not sign the tapes. One copy of the results tape for each DRE unit shall be posted on the door of the absentee ballot precinct for the information of the public. The memory card (PCMCIA card) and two signed tapes from each DRE unit shall be placed in the appropriate envelope supplied by the election superintendent which shall be sealed and initialed by the poll manager and at least one assistant manager such that the envelope cannot be opened without breaking such seal. After completing the printing of the results, the DRE units shall be turned off and secured in their cases and resealed. The DRE units shall then be placed in a secure area with appropriate climate control. The memory cards (PCMCIA cards), results tapes, voter access cards, supervisor's card, ballot encoder devices, numbered lists of absentee voters, absentee ballot precinct recap forms, and other such paperwork shall be transported to the office of the election superintendent by the poll manager and at least one other poll officer. The election superintendent or his or her designee shall receive the materials and shall issue a receipt to the poll manager for the materials.

(13) Any notices to the Secretary of State about discrepancies in

numbers or seals, zero tapes, or election counters shall also be forwarded to members of the State Election Board, but such information shall be considered confidential if the Secretary of State has in-iti-ated an investigation of the matter.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Use of DRE Units for Absentee Balloting" adopted. F. Oct. 24, 2003; eff. Nov. 13, 2003.

### **183-1-14-.03 Provisional Absentee Ballots.**

(1) Except as otherwise provided by O.C.G.A. § 21-2-220(c), when the registrars receive a request for an absentee ballot from a voter who registered to vote for the first time in this state by mail and has not provided the identification required by O.C.G.A. § 21-2-220, the registrars shall process the request in the same manner as other requests for absentee ballots. If the voter is found to be eligi-ble to vote by absentee ballot, the registrars shall issue a ballot to the voter and mark the outer oath envelope with the code "IR," In addition to the information concerning how to vote the ballot, the registrars shall also enclose with the absentee ballot instructions on providing proper identification and in accessing the free access system to determine if the ballot was counted as required by O.C.G.A. § 21-2-418(e) and (f).

(2) When an absentee ballot is received from a voter who registered to vote for the first time in this state by mail and has not provided the identification required by O.C.G.A. § 21-2-220, except as otherwise provided by O.C.G.A. § 21-2-220(c), the registrars shall process the ballot as other absentee ballots returned by voters. If the ballot is accepted by the registrars but the voter has not provided the required identification, the ballot shall be treated as a provisional ballot and shall be held separate and apart from the other absentee ballots. The registrars shall maintain a numbered list of provisional absentee ballots.

(3) If an absentee voter whose ballot has been accepted but treated as a provisional ballot for failure to provide the required identification provides the required identification prior to the close of the polls on the day of the election, the voter's ballot shall be treated as a regular absentee ballot and the voter shall be switched from the numbered list of provisional absentee voters to the num-bered list of regular absentee voters.

(4) As soon as practicable after 12:00 Noon on the day of the primary, election, or runoff, the registrars shall begin to deliver all accepted regular and provisional absentee ballots to the absentee ballot precinct in accordance with law. The provisional absentee ballots shall be retained by the poll officers at the absentee ballot precinct or tabulating center, as the case may be, unopened and shall not be counted. The provisional absentee ballots shall be placed in a secure container for provisional ballots and shall be transferred to the election superintendent with the other absentee ballots and election materials from the absentee ballot precinct or tabulating center, as the case may be.

(5) If, by the end of the period set by law for the verification of provisional ballots, the registrars receive the required identification from an absentee voter who failed initially to provide the required identification, then the registrars shall notify the election superintendent to count the ballot of such voter in the same manner as other verified provisional ballots from the polls. If the registrars do not receive the required identification from such absentee voter by the end of the period set by law for the verification of provisional ballots, the registrars shall notify the election superintendent to not count the ballot and the ballot shall remain unopened and sealed and shall be retained in accordance with law with the other provisional ballots which the registrars did not verify for counting.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Provisional Absentee Ballots" adopted. F. Oct. 24, 2003; eff. NOT. 13, 2003.

#### **183-1-14-.04 Reporting Requirements for Absentee Ballots.**

(1) The registrars of each county shall on the 32nd day prior to each statewide general primary and general election submit to the Secretary of State on a form provided by the Secretary of State information concerning absentee ballots requested by electors who are entitled to vote by absentee ballot under the federal Uniformed and Overseas Citizens Absentee Voting Act, 42 U.S.C. § 1973ff, et seq., as amended, Such report shall include the number of absentee ballots requested by each such category of absentee voter, the date on which the absentee ballots were available in the registrars' office, and the date on which the ballots requested by such voters were sent to the voters. The Secretary of State may request further information related to the application for and the transmittal

of such ballots.

(2) The report shall be submitted to the Secretary of State either by facsimile or other electronic means on the 32nd day prior to each statewide general primary and general election.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Absentee Electors and Campaigning in or Near Absentee Polling Places" adopted as ER. 1S3-1-14-0.5-.04. F. Sept. 10, 2004; eff. Sept. 9, 2004, the date of adoption. **Amended:** Permanent Rule entitled "Reporting Requirements for Absentee Ballots" adopted. F. Dec. 21, 2005; eff. Jan. 10, 2006. **Repealed:** New Rule of same title adopted. F. Mar. 17, 2011; eff. Apr. 6, 2011.

### **183-1-14-.05 State Write-In Absentee Ballot.**

(a) The Secretary of State shall design a state write-in absentee ballot for use in runoff primaries and runoff elections by an elector of this state who resides outside the county or the municipality in which the election is being conducted and is: (1) a member of the armed forces of the United States, a member of the merchant marine of the United States, a member of the commissioned corps of the Public Health Service or the National Oceanic and Atmospheric Administration, or a spouse or dependent of such member residing with or accompanying said member; or (2) A citizen of the United States residing outside the United States.

(b) Such state write-in absentee ballot shall be designed in such a manner as to permit the person voting such ballot to write-in the name of a candidate or candidates for state offices that are elected on a state-wide basis and for all federal offices in a runoff primary or runoff election. Such state write-in ballot shall automatically be included with any absentee ballot sent to such eligible electors for any general primary or general election. No special request for such ballot shall be required in such circumstances.

(c) Such ballot shall either have attached to or have included with such ballot two envelopes, One envelope shall have printed on such envelope the words "Official State Write-In Absentee Ballot" and nothing else. The other envelope shall be designed such that the first envelope will fit inside it and shall have printed on one side the absentee elector oath and the other side shall contain a place for the elector to address the ballot to the appropriate board of registrars or board of elections and registration in this state for mailing.

(d) The Secretary of State shall prepare and print instructions for completing and returning such ballot that shall also be enclosed with such ballot. The state write-in absentee ballot, the envelopes for returning it, and the instructions shall be enclosed with the regular absentee ballot, envelopes, and instructions for completing and returning the regular absentee ballot.

(e) Such ballots shall be made available in a downloadable electronic form on the Secretary of State's website as well as in printed form. Additionally, the Secretary of State and the county registrars shall provide for the transmission of such blank ballots by facsimile transmission and electronic mail transmission to electors. Instructions for voting such ballots shall be included on the website and shall accompany any facsimile and electronic mail ballot transmissions. Voted ballots shall not be returned by facsimile or electronic mail.

(f) As soon as practicable after a general primary or general election, the Secretary of State shall cause to be published on the official website of the Secretary of State a list of all federal offices and state offices in which there will be a runoff primary or runoff election, as the case may be, along with the names of the candidates who will be on the ballot in such runoff.

(g) If an elector obtains the ballot by facsimile or by downloading from electronic mail or the Secretary of State's website, the elector shall return the ballot by mail using two envelopes. The elector shall enclose and seal the ballot in a plain envelope and insert that envelope into another envelope for transmission to the registrars. The elector shall copy and sign the appropriate oath onto the back of the outer envelope. The Secretary of State shall provide a sample envelope and oath form on the Secretary of State's website in such a manner that such form may be used by an elector to print out the forms for the purpose of pasting or attaching such forms to an envelope for returning the ballot or for printing an envelope for returning the ballot.

(h) If the registrars receive both the official absentee runoff ballot and the state write-in absentee ballot from an elector during the time period for receiving such ballots, the registrars shall submit only the official absentee runoff ballot for counting. In such case, the state

write-in absentee ballot shall be handled in the same manner as ballots that are received too late for counting. In order to ensure that the correct ballot is counted, the registrars shall hold the ballots of individuals to whom both an official absentee runoff ballot and a state write-in ballot have been sent until the close of the absentee voting period before submitting such ballots for counting.

(i) The failure of an elector to seal the ballot in an inner envelope alone shall not be grounds for rejecting such ballot. The failure of the elector to complete the oath required of absentee voters on the outer envelope shall be cause to reject such ballot.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "State Write-In Absentee Ballot" adopted, F. Dec. 21, 2005; eff. Jan. 10, 2006.

### **183-1-14-.06 Spoiled Absentee Ballots.**

(1) When an absentee ballot is spoiled, the elector may write "Spoiled" across the face of the ballot, then fold the ballot and enclose and securely seal the same in the envelope on which is printed "Official Absentee Ballot." This envelope shall then be placed in the second one, on which is printed the form of the oath of the elector, the name, relationship, and oath of the person assisting, if any, and other required identifying information. The elector shall then fill out the required information on such envelope, without the requirement to subscribe or swear to the oath printed on such envelope. Such envelope shall then be securely sealed and the elector shall write across the face of the envelope "Spoiled" and then mail or personally deliver same to the board of registrars or absentee ballot clerk in accordance with O.C.G.A. Section 21-2-385.

(2) Upon receipt of an absentee ballot upon which the word "Spoiled" has been written across the face of the envelope, a registrar or absentee ballot clerk shall write the day and hour of the receipt of the ballot on its envelope. The registrar or absentee ballot clerk shall, within two days after the receipt of such ballot, mail or issue another official absentee ballot to the elector. All returned spoiled ballots shall be safely kept unopened by the board or absentee ballot clerk and then transferred to the appropriate clerk for storage for the period of time required for the preservation of ballots used at the primary or election and shall then, without being opened, be destroyed in like manner as the used ballots of the primary or

election.

(3) The directions that explain how to cast a vote and how to obtain a new ballot after one is spoiled shall appear immediately under the caption on the ballot in substantially the following form as appropriate for that particular primary or election:

To vote, blacken the Oval (\_\_\_) next to the candidate of your choice. To vote for a person whose name is not on the ballot, manually WRITE his or her name in the write-in section and blacken the Oval (\_\_\_) next to the write-in section. If you desire to vote YES or NO for a PROPOSED QUESTION, blacken the corresponding Oval (\_\_\_). Use only blue or black pen or pencil.

Do not vote for more candidates than the number allowed for each specific office. Do not cross out or erase. If you erase or make other marks on the ballot or tear the ballot, your vote may not count.

If you change your mind or make a mistake, you may return the ballot by writing “Spoiled” across the face of the ballot and return envelope. You may then mail the spoiled ballot back to your county board of registrars, and you will be issued another official absentee ballot. Alternatively, you may surrender the ballot to the poll manager of an early voting site within your county or the precinct to which you are assigned. You will then be permitted to vote a regular ballot.

“I understand that the offer or acceptance of money or any other object of value to vote for any particular candidate, list of candidates, issue, or list of issues included in this election constitutes an act of voter fraud and is a felony under Georgia law.”

Authority O.C.G.A Secs. 21-2-31, 21-2-284, 21-2-285, 21-2-383, 21-2-388, 21-2-480. **History.** Original Rule entitled “Spoiled Absentee Ballots” adopted. F. Oct. 29, 2009; eff. Nov. 18, 2009.

### **183-1-14-.07 Spoiled Ballot Definition.**

(1) **Definitions.** As used in these rules and the Georgia Election Code, the term:

(a) “Spoiled ballot” includes a ballot

1. that has been torn, defaced, or physically deformed;

2. on which there are cast more than the permitted number of votes;
3. that has been completed in a manner which is illegible or incomprehensible;
4. that contains writing which compromises the secrecy of the ballot;
5. that is marked improperly, inappropriately, or in such a way that it would be rejected;
6. that was issued in error by the election official; or
7. that contains the wrong precinct, party, or style.

(2) A spoiled ballot shall not be reinstated.

Authority O.C.G.A. Secs. 21-2-31, 21-2-284, 21-2-285, 21-2-285.1, 21-2-379.11, 21-2-390, 21-2-433, 21-2-434, 21-2-436, 21-2-437, 21-2-440, 21-2-480, 21-2-483, 21-2-484, 21-2-493, 21-2-587. **History.** Original Rule entitled "Spoiled Ballot Definition" adopted. F. Oct. 29, 2009; off. Nov. 18, 2009.

**183-1-14-.08 Additional Sites as Additional Registrar's Offices or Places of Registration for Absentee Ballots.**

(1) Definitions. As used in this rule and O.C.G.A. Section 21-2- 382, the term:

(a) "Government building generally accessible to the public" means any building or structure which is used by the public:

1. that is owned, leased, operated, or used by, the State of Georgia, its agencies and authorities, and any political subdivision of the state, municipal corporation, or local board or authority created by general, local, or special Act of the General Assembly or by ordinance or resolution of the governing body of a county or municipal corporation individually or jointly with other political subdivisions or municipalities of the State; and

2. that is constructed or renovated in whole or in part by use of state, country, or municipal funds, the funds of any political subdivision of the State; or, to the extent not required otherwise by

federal law or regulations and not beyond the power of the State to regulate, federal funds.

(2) A board of registrars may establish additional sites as additional registrar's offices or places of registration for the purpose of receiving absentee ballots under O.C.G.A. Section 21-2-381 and for the purpose of voting absentee ballots under O.C.G.A. Section 21-2-385. Whenever practicable, a branch of the county courthouse, a courthouse annex, a government service center providing general government services, or another government building generally accessible to the public shall be utilized for such additional sites.

Authority O.C.G.A. Secs. 21-2-31, 21-2-S82, 30-3-2, 31-12A-3. **History.** Original Rule entitled "Additional Sites as Additional Registrar's Offices or Places of Registration for Absentee Ballots" adopted. F. Dec. 15, 2009; eff. Jan. 2010.

### **183-1-14-.09 Voted Absentee Ballots.**

(1) Definitions. As used in this Rule and O.C.G.A. Section 21-2-388, the phrase:

(a) "An absentee ballot which has been voted" means an absentee ballot that has been returned to and received by the board of registrars and has been certified in accordance with subsection (a) of O.C.G.A. Section 21-2-386 by the board of registrars.

(2) When an absentee ballot which has been voted shall be returned to and received by the board of registrars, it shall be deemed to have been voted then and there; and no other ballot shall be issued to the same elector. If the board of registrars or absentee ballot clerk rejects or otherwise fails to certify an absentee ballot in accordance with subsection (a) of O.C.G.A. Section 21-2-386, the elector shall be provided the opportunity to vote in the primary, election, or runoff either by applying for a second absentee ballot prior to the day before such primary, election, or runoff or by voting in person at the elector's polling place on the day of the primary, election, or runoff.

Authority O.C.G.A. Secs. 21-2-31, 21-2-388. **History.** Original Rule entitled "Voted Absentee Ballots" adopted. F. Oct. 29, 2009; eff. Nov. 18, 2009.

**183-1-14-10 Acceptance of Absentee Ballots From Military and Overseas Citizens.** Absentee ballots cast in a primary, election, or runoff by eligible electors who reside outside the county

or municipality in which the primary, election, or runoff is held are members of the armed forces of the United States, members of the merchant marine of the United States, spouses or dependents of members of the armed forces or merchant marine residing with or accompanying such member, or overseas citizens that are received by United States Mail or commercial courier, without bearing a postmark, and within the three-day period following such primary, election, or runoff, if proper in all other respects, shall be valid ballots and shall be counted and included in the certified election results.

Authority O.C.G.A. Secs. 21-2-31, 21-2-388. **History.** Original Rule entitled "Acceptance of Absentee Ballots From Military and Overseas Citizens" adopted. F. Oct. 29, 2009; eff. Nov. 18, 2009.

**183-1-14.11 Mailing and Issuance of Ballots.** During early voting, as additional applicants for absentee ballots are determined to be eligible, the board of registrars or absentee ballot clerk shall mail or issue official absentee ballots to such additional applicants immediately upon determining their eligibility. The board or clerk shall make such determination and mail or issue official absentee ballots to such additional eligible applicants within 3 business days after receiving the absentee ballot applications.

Authority O.C.G.A. Secs. 21-2-31, 21-2-384. **History.** Original Rule entitled "Mailing and Issuance of Ballots" adopted. F. May 27, 2011; eff. June 10, 2011.

### **Rule 183-1-14.12. Eligibility of Application for Absentee Ballot**

The application for an absentee ballot shall be in writing and shall contain sufficient information for proper identification of the elector. To be deemed sufficient, an application for an absentee ballot must contain the signature of the applicant.

1. In the case of the elector making such application for an absentee ballot, the application shall contain the signature of such elector.
2. In the case of a relative making an application on behalf of an elector pursuant to O.C.G.A. § 21-2-381(a)(1)(B), the application shall contain the signature of the elector's relative as well as the relationship of the relative to the elector.

**183-1-15-.02 Definition of Vote.**

(1) DRE Equipment. A vote cast on a DRE unit shall be the choice made by a voter by:

(a) Pressing the appropriate place on the DRE unit's touchscreen to cause an "X" or similar designation to display adjacent to the name of the candidate or answer to a question for which the voter desires to vote;

(b) Typing on the touchscreen the name of a qualified write-in candidate in accordance with the instructions for voting on the DRE unit; or

(c) Pressing the appropriate buttons on the keypad in the case of persons using the VWD device attached to the DRE unit.

(2) Lever-type Voting Machines. A vote cast on a lever-type voting machine shall be the choice made by a voter by either operating the lever adjacent to the name of the candidate or answer to a question for which the voter desires to vote or by writing of the name of a qualified write-in candidate on the machine in accordance with the instructions for voting on the voting machine and then recording such votes on the machine by the actuation of the main lever which casts such votes and returns the other levers to their original positions.

### (3) Optical Scan Voting Systems.

(a) A vote cast on an optical scan voting system shall be the choice made by a voter by either:

1. Filling in the oval or completing the arrow adjacent to the name of the candidate or answer to a question for which the voter desires to vote; or

2. Filling in the oval or completing the arrow adjacent to the appropriate write-in space and writing the name of a qualified write-in candidate in the appropriate space on the ballot as specified in the instructions for voting such ballot.

(b) In reviewing an optical scan ballot which has been rejected as containing an overvote in accordance with O.C.G.A. § 21-2-483(g)(2), if the voter filled in the oval or completed the arrow next to the name of a candidate whose name appears on the ballot and filled in the oval or completed the arrow adjacent to the write-in space and wrote the name of the same candidate in the write-in space for the same office, the properly cast vote shall be counted and the write-in vote shall be ignored.

(c) If, in reviewing an optical scan ballot which has been rejected as containing an overvote in accordance with O.C.G.A. § 21-2-483(g)(2), it appears that there is a properly cast vote and what is clearly a stray mark which has caused the tabulator to read the vote for such office as an overvote, the properly cast vote shall be counted and the stray mark shall be ignored.

(d) If, in reviewing an optical scan ballot which has been rejected as containing an overvote in accordance with O.C.G.A. § 21-2-483(g)(2), a voter marks his or her ballot in a manner other than that specified by law and this rule, the votes shall be counted if, in the opinion of the vote review panel as provided in O.C.G.A. § 21-2-483(g)(2)(B), the voter has clearly and without question indicated the candidate or candidates and answers to questions for which such voter desires to vote.

(e) When an optical scan ballot contains stray marks or marks which prevent the tabulating machine from properly recording valid

votes as determined under this rule and by law, the ballot shall be duplicated in accordance with law to correct such problems and the duplicate shall then be tabulated.

(4) Paper Ballots.

(a) A vote cast on a paper ballot shall be a choice made by a voter by either:

1. Placing an “X”, a check, or other similar mark in the square adjacent to the name of the candidate or answer to a question for which the voter desires to vote; or

2. Writing the name of a qualified write-in candidate in the appropriate space on the ballot as specified in the instructions for voting such ballot.

(b) If a voter marks his or her paper ballot in a manner other than that specified by law and this rule, the votes shall be counted if, in the opinion of the poll officers as provided in O.C.G.A. § 21-2-439, the voter has clearly and without question indicated the candidate or candidates and answers to questions for which such voter desires to vote.

(c) If the voter marked the square next to the name of a candidate whose name appears on the ballot and wrote in the name of the same candidate in the write-in space for the same office, the properly cast vote shall be counted and the write-in vote shall be ignored.

(5) Write-in Votes. In no event shall votes cast for write-in candidates who have not qualified in accordance with O.C.G.A. § 21-2-133 be counted or recorded.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled “Definition of Vote” adopted. F. Oct. 24, 2003; eff. Nov. 13, 2003.

PENALTIES**

**TABLE OF CONTENTS**

**183-1-20-.01 Giving or Receiving, Offering to Give or Receive, or Participating in the Giving or Receiving of Money or Gifts for Registering as a Voter, Voting, or Voting for a Particular Candidate**

**183-1-19-.01 Giving or Receiving, Offering to Give or Receive, or Participating in the Giving or Receiving of Money or Gifts for Registering as a Voter, Voting, or Voting for a Particular Candidate.** In the interpretation of O.C.G.A. Section 21-2-570, the State Election Board has determined that the prohibition contained therein against the giving or receiving, offering to give or receive, or participating in the giving or receiving of money or gifts for the purpose of registering as a voter or voting does not include the provision of postage to a person solely for the purpose of (1) mailing a voter registration application in order for such person to register to vote or (2) mailing an absentee ballot application or an absentee ballot that was voted and sealed by such person in order for such person to vote.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Giving or Receiving, Offering to Give or Receive, or Participating in the Giving or Receiving of Money or Gifts for Registering as a Voter, Voting, or Voting for a Particular Candidate" adopted, F. Dec. 21, 2005; eff. Jan. 10, 2006.

**RULES  
OF  
STATE ELECTION BOARD  
GEORGIA ELECTION CODE**

**CHAPTER 183-1-20  
GEORGIA VOTER IDENTIFICATION CARD**

**TABLE OF CONTENTS**

**183-1-20-.01 Georgia Voter Identification Card**

**183-1-20-.01 Georgia Voter Identification Card.**

(1) **Intent and Purpose.** These rules are promulgated pursuant to the authority granted the State Election Board under O.C.G.A. §§21-2-417.1 and 21-2-31. It is the intent of the State Election Board to provide for the time, place and manner in which each county Board of Registrars shall issue the Georgia Voter Identification Card to eligible electors and to provide for the acceptable types of documentation necessary to obtain a Georgia Voter Identification Card. To this end, the State Election Board has promulgated these rules and regulations.

(2) **Application for the Georgia Voter Identification Card.**  
Beginning with the July 18, 2006, Party Primary Election each county registrar shall provide the application for the Georgia Voter Identification Card in the form designed and published by the State Election Board or its member designee(s). Any registered voter who meets the criteria in O.C.G.A. § 21-2-417.1 and wishes to obtain a Georgia Voter Identification Card shall be required to submit the information requested in such application. It shall be the responsibility of each county registrar to ensure that each accepted application is complete.

**(3) Availability of the Georgia Voter Identification Card.**

(a) Each county shall provide a place within the voter registrar’s primary or main office location, as previously approved by the Department of Justice, to process applications for Georgia Voter

Identification Cards and to process and distribute such cards.

(b) Each county registrar's office may provide additional locations or extended hours for processing applications for the Georgia Voter Identification Card and processing and distributing the cards but shall be required to comply with criteria for establishment of additional voter registration places as outlined in 183-1-6-.03(3).

(c) Each county registrar's office shall be open a minimum of eight hours per day on Monday through Friday of the week before the final primary, election, or run-off election day, except for legally observed holidays, and shall otherwise be open during normal business hours of the office in order to allow registered voters to apply for and obtain a Georgia Voter Identification Card.

(d) The voter registrar's office of each county shall provide the application and process the Georgia Voter Identification Card using the equipment, forms, supplies, and written training materials and/ or verbal training provided by the State Election Board.

(e) Each county Board of Registrars shall sign and maintain an intergovernmental agreement provided by the State Election Board outlining the use of the equipment.

**(4) Documentation required for application and issuance of the Georgia Voter Identification Card.**

(a) In accordance with O.C.G.A. § 21-2-417.1(e), the Board of Registrars shall require the presentation and verification of the following information before issuing a Georgia Voter Identification Card:

1. A photo identity document, except that nonphoto identity document is acceptable if it includes both the applicant's full legal name and date of birth;

2. Documentation showing the applicant's date of birth;

3. Evidence that the applicant is registered to vote in the State of Georgia, either by voter precinct card, a new voter registration application or confirmation of voter's record on the statewide voter

registration system or by verifying the original application in the voter registrar's office; and

4. Documentation showing the applicant's name and principal residence address.

(b) In determining whether the requirements of O.C.G.A. § 21-2-417.1(e) have been met, the following shall apply:

1. Any of the following which contains a photograph of the applicant shall constitute a photo identity document, as provided in O.C.G.A. § 21-2-417.1(e)(1):

(i) Student ID Card including public or private high school, college, university, or vocational school;

(ii) Transit Card;

(iii) Pilot's License;

(iv) Nursing Home Identification Card;

(v) Employee Identification Card;

(vi) Government Housing Authority Identification Card;

(vii) Any government issued license;

(viii) Any card accepted by local, state or federal government for the provision of benefits; or

(ix) Any card accepted by local, state or federal government for access to buildings.

2. Any of the following shall constitute a nonphoto identity document in lieu of a photo identity document as provided in O.C.G.A. § 21-2-417.1(e)(l) only if it includes both the applicant's full legal name and date of birth:

(i) Original birth certificate or certified copy of birth certificate;

- (ii) Certificate of birth registration;
- (iii) Voter Registration Application;
- (iv) Copy of records filed in court by the applicant or on behalf of the applicant by the applicant's counsel;
- (v) Naturalization documentation;
- (vi) Copy of Marriage License Application;
- (vii) A copy of the applicant's State or Federal Tax Return filed for the previous calendar year;
- (viii) Any other document issued by local, state, or federal government so long as the document provides a reasonably reliable confirmation of the identity of the applicant;
- (ix) Paycheck or paycheck stub bearing the imprinted name of the applicant's employer;
- (x) An original of the annual social security statement received by the applicant for current or preceding calendar year;
- (xi) An original of a Medicare or Medicaid statement received by the applicant;
- (xii) Certified school record or transcript for current or preceding calendar year;
- (xiii) Hospital birth certificate;
- (xiv) An authenticated copy of a doctor's record of post-natal care;  
or
- (xv) A federal Affidavit of Birth, form DS-10.

3. The registrar shall accept as documentation showing the applicant's date of birth under O.C.G.A. § 21-2-417.1(e)(2) any of the documents described in subparagraph (b)2. above.

4. The registrar shall accept as proof of voter registration under

O.C.G.A. § 21-2-417.1(e)(3) the applicant's voter registration application or a voter's precinct card.

5. Any of the documents described in subparagraphs (b)1. and 2. shall be acceptable as documentation showing the applicant's name and address of principal residence under O.C.G.A. § 21-2-417.1(e)(4) if the documentation contains the applicant's name and address of principal residence. In addition, the registrar shall also accept the following as documentation showing the applicant's name and address of principal residence if the applicant's name and address of principal residence appears on the document:

- (i) Voter Precinct Card;
- (ii) Utility or cable bill issued within the last sixty (60) days;
- (iii) Bank statement issued within the last sixty (60) days;
- (iv) Currently valid rental contracts and/or receipts for payments made within the last sixty (60) days for rent payments;
- (v) A copy of the applicant's State or Federal income tax return filed for the preceding calendar year;
- (vi) Homeowners insurance policy or bill for current or preceding calendar year;
- (vii) Mortgage, payment coupon, deed, or property tax bill for current or preceding calendar year;
- (viii) Current Automobile Registration Receipt;
- (ix) Homestead Exemption documentation; or
- (x) W-2 for the preceding calendar year.

6. The application and supporting documentation of any applicant who is denied a Georgia Voter Identification Card shall be immediately forwarded via facsimile and U.S. mail to the State Election Board for automatic review to determine if the applicant has provided reasonably reliable documentary indicia confirming the

identity of the applicant in which case the State Election Board shall direct the voter registrar to issue the Georgia Voter Identification Card.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Georgia Voter Identification Card" adopted. F. June 19, 2006; eff. July 9, 2006.

CERTIFICATION OF VOTING SYSTEMS**

**TABLE OF CONTENTS**

590-8-1-.01	Certification of Voting Systems	590-8-1-.02	Verifications of Voter Registration Information
-------------	---------------------------------	-------------	---

**590-8-1-.01 Certification of Voting Systems.**

**(a) Purpose.**

1. These Rules establish performance requirements and characteristics for voting systems and their components used in the State of Georgia and identify performance characteristics of these systems and components.
2. Compliance with the requirements of these Rules shall be assessed by means of code analysis, formal tests, and documentation review.
3. The intent of these Rules is to assure that hardware, firmware, and software have been shown to be reliable, accurate, and capable of secure operation before they are used in elections in the State. Hardware, firmware, and software products with performance proven in commercial applications are deemed inherently acceptable, provided that they are shown to be compatible with the operational and administrative requirements of the voting environment. Products not in wide commercial use, regardless of their performance histories, shall require Qualification, Certification, and Acceptance tests before they can be used.
4. These rules are intended to assist local jurisdictions in identifying products and provide a standardized terminology which shall facilitate the specification and demonstration of system requirements.

**(b) Applicability.**

1. These Rules are applicable to voting systems first used in the State of Georgia on or after the effective date of these Rules. These Rules are waived for all voting systems in use in the State of Georgia as of the effective date of these Rules. Successful performance during past elections are deemed sufficient evidence of adequate design. These Rules shall apply to systems developed by non-governmental third parties and those developed in-house by a local government.

2. These Rules apply to all equipment and computer programs used in a voting system including, but not limited to, the hardware, firmware, and software required for defining an election, formatting ballots, setting up precincts for voting, recording votes, tallying the results, and producing all reports.

3. These Rules apply to any agency, group, or individual responsible for the analysis, design, manufacture, procurement, or use of voting systems, their subsystems, or their components.

4. Any modification to the hardware, firmware, or software of a voting system which has completed Qualification, Certification, or Acceptance testing in accordance with these Rules shall invalidate the State certification unless it can be shown that the modification does not affect the overall flow of program control or the manner in which the ballots are recorded and the vote data are processed, and the modification falls into one of the following classifications listed below. The Secretary of State shall be the sole judge of whether or not a modification requires additional testing.

(i) The modification is made for the purpose of correcting a defect and procedural and test documentation is provided which verifies that the installation of the hardware change or corrected code does not result in any consequence other than the elimination of the defect.

(ii) The modification is made for the purpose of enabling interaction with other general purpose or approved equipment or computer programs and databases, and procedural and test documentation is provided which verifies that such interaction does not involve or adversely affect vote counting and data storage.

5. The addition or alteration of utility software and device handlers which do not interact with vote counting software except through the

intended input/output channels in the manner originally intended does not constitute a requirement for a mandatory retest.

(c) **Reciprocity.** The Secretary of State may accept the results of the Qualification tests and/or Certification tests from another state or testing agency that has performed the tests described in these Rules. This reciprocity does not extend to the Acceptance tests or any portion of the Certification tests, which are considered to be unique to the State of Georgia.

(d) **Procedure.** This review and approval procedure is limited to those voting systems and equipment that have passed the prototype stage and are in full production and available for immediate installation and use. Qualification tests shall be performed to evaluate the degree to which a system complies with the requirements of the *Voting Systems Standards* issued by the Election Assistance Commission (EAC). Whenever possible, Qualification tests shall be conducted by Independent Test Agencies (ITA) certified by the EAC. In the event that tests by an ITA are not feasible, these tests shall be conducted by a Georgia Certification Agent designated by the Secretary of State.

Certification tests shall be performed to certify that the voting system complies with the Georgia Election Code, the Rules of the Georgia State Election Board, and the Rules of the Secretary of State. A Georgia Certification Agent designated by the Secretary of State shall conduct certification tests. The Qualification and Certification testing of a voting system for use in the State of Georgia shall proceed in the following steps.

1. **Qualification.** Prior to submitting a voting system for certification by the State of Georgia, the proposed voting system's hardware, firmware, and software must have been issued Qualification Certificates from the EAC. These EAC Qualification Certificates must indicate that the proposed voting system has successfully completed the EAC Qualification testing administered by EAC approved ITAs. If for any reason, this level of testing is not available, the Qualification tests shall be conducted by an agency designated by the Secretary of State. In either event, the Qualification tests shall comply with the specifications of the Voting Systems Standards published by the EAC.

**2. Letter of Request.** After the voting system has completed EAC Qualification testing, the evaluation procedure to obtain certification for use of the voting system in the State of Georgia shall be initiated by letter from the vendor of the voting system to the Office of the Secretary of State requesting certification for a specific voting system. The Secretary of State or her representative shall notify the vendor of the earliest date after which the requested evaluation may begin and provide the vendor with the name and telephone number of the designated Georgia Certification Agent.

**3. Submission of Complete Technical Data Package.** The vendor shall submit the Technical Data Package described in section (g) to the Certification Agent designated by the State. The Certification Agent shall review the submission of the Technical Data Package and notify the vendor of any deficiencies. Certification of the voting system shall not proceed until the Technical Data Package is complete.

**4. Preliminary Review.** The Georgia Certification Agent shall conduct a preliminary analysis of the Technical Data Package and prepare an Evaluation Proposal containing the following information:

(i) Components of the voting system requiring evaluation.

(ii) Identification of any hardware or software components requiring additional testing by the EAC ITAs.

(iii) Description of the activities required to complete that portion of the evaluation which is to be performed by the Georgia Certification Agent.

(iv) Estimate of time required to complete the portion of the evaluation, which is to be performed by the Georgia Certification Agent.

(v) Estimate of cost of tests which are to be performed by the Georgia Certification Agent.

**5. Authorization to Proceed.** The vendor shall review the Evaluation Proposal and notify the Secretary of State, in writing, of

the desire to continue or terminate the evaluation process. The evaluation of the system shall not begin until the manufacturer or vendor notifies the Secretary of State to proceed. A copy of this notification shall be sent to the Georgia Certification Agent. A decision to continue shall obligate the vendor to the cost of the evaluation contained in the Evaluation Proposal.

**6. Evaluation.** The vendor shall arrange with the EAC ITAs for any additional required ITA testing identified in the Evaluation Proposal. After any required ITA tests have been successfully completed, the Georgia Certification Agent shall conduct the tests described in the Evaluation Proposal and submit a report of the findings to the Secretary of State.

**7. Certification.** Based on the information contained in the report from the Georgia Certification Agent, and any other information in her possession, the Secretary of State shall determine whether the proposed voting system shall be certified for use in the State of Georgia and so notify the vendor.

**8. Local Jurisdiction Acceptance.** After a voting system is delivered to a local jurisdiction, acceptance tests shall be performed in the user's environment to demonstrate that the voting system as delivered and installed is identical to the system that was certified by the State and satisfies the requirements specified in the procurement documents.

(e) **Proprietary Information.** The State of Georgia shall make every effort to protect the proprietary nature of information provided to the State or its agents during the course of these evaluations in accordance to Georgia law for protecting proprietary information. Any proposed non-disclosure agreements shall be of the type and form in common commercial usage appropriate to similar situations and shall be subject to review and approval by the Georgia Attorney General.

**(f) Audit and Validation of Certification.**

1. It shall be the responsibility of the vendor to ensure that any voting system or component of a voting system that it markets or supplies for use in the State of Georgia has been certified by the Secretary of State. It is also the responsibility of the vendor to submit

any modifications to a previously certified system or component to the Secretary of State for re-certification and to update the Technical Data Package on file in the Office of the Secretary of State to accurately reflect the modifications.

2. If any question arises involving the certification of a voting system or a component of a voting system in use in the State, the Technical Data Package and Certification documentation on file in the Office of the Secretary of State shall be used to verify that the system or component in question is identical to the system or component that was submitted for certification.

(g) **Technical Data Package.** Before evaluation can begin, the vendor must submit to the Georgia Certification Agent the Technical Data Package required to complete the evaluation of the proposed voting system. Each item in the Technical Data Package must be clearly identified. If the Technical Data Package is incomplete or the items in the package are not clearly identified, the entire package may be returned to the vendor and the evaluation of the voting system rescheduled. In most cases, the Technical Data Package submitted to the ITAs shall be sufficient for State certification.

The Technical Data Package shall contain the following items in hard copy and in electronic form when available.

(i) *Customer Maintenance Documentation.* Documentation describing any maintenance that the vendor recommends that can be performed by a customer with minimal knowledge of the system.

(ii) *Operations Manual.* Operations documentation that is normally supplied to the customer for use by the person(s) who shall operate the equipment.

(iii) *Software Source Code.* Source code of all software and firmware in the voting system. The source code shall be supplied in the form of a listing and in a machine-readable form on media that is acceptable to the Georgia Certification Agent. If there is any chance of ambiguity, the required compilers) and/or development environment must be specified.

(iv) *Software System Design.* Documentation describing the logical

design of the software. This documentation should clearly indicate the various modules of the software, their functions, and their interrelationships. The minimum acceptable documentation is a system flowchart. Deviation of the source code from the system design may be cause for rejection of the voting system.

(v) *Customer Documentation.* A complete set of all documentation which is available to the purchaser/user of the voting system. Clearly identify that documentation which is included in the cost of the system and that documentation which is available for an additional charge.

(vi) *ITA Qualification Reports.* Copies of the ITA reports for the hardware and software qualification of the voting system. These reports must be sent directly from the ITA to the Georgia Certification Agent.

(vii) *Formal Complaints and Decertification Notices.* Copies of any formal complaints and/or decertification notices that have been filed against the proposed system. This documentation must clearly identify the jurisdiction filing the complaint or decertification notice and give the details of the resolution.

(viii) *Test Data/Software (Optional).* Any available test data, ballot decks, and/or software that can be used to demonstrate the various functions of the voting system. Although optional, these items can significantly reduce the effort, and hence the time and cost, involved in the evaluation of the system.

Authority O.C.G.A. Secs. 21-2-1, 21-2-50, 21-2-258, 21-2-388, 21-2-379.2. **History.** Original Rule entitled "Certification of Voting Equipment" adapted. F. Jan. 21, 1988; eff. Feb. 10, 1988. **Repealed:** New Rule entitled "Certification of Voting Systems" adopted. F. Mar. 28, 2005; eff. Apr. 17, 2005.

## **590-8-1.02 Verification of Voter Registration Information.**

(1) The board of registrars shall enter the information contained on voter registration applications into the statewide voter registration database in a timely manner.

(2) Verification of applicant's United States citizenship.

(a) Georgia driver's license number or identification card number.

1. If an applicant submits an application for registration and uses the applicant's Georgia driver's license number or identification card number for evidence of United States citizenship purposes, the Secretary of State shall attempt to match such number to the Department of Driver Services database.

2. If the Department of Driver Services records indicate that the applicant is not a United States citizen in the Department of Driver Services database, the Secretary of State shall attempt to verify the applicant's United States citizenship status with the United States Citizenship and Immigration Services utilizing the Systematic Alien Verification for Entitlements program. Such verification will indicate whether the applicant is designated as a citizen of the United States within the Verification Information System database.

3. If the Department of Driver Services cannot confirm that the applicant has provided satisfactory evidence of United States citizenship to the Department of Driver Services and the Secretary of State cannot confirm the applicant's United States citizenship through the Systematic Alien Verification for Entitlements program, the board of registrars shall take the following steps:

(i) The board of registrars shall ensure that the Georgia driver's license number or identification card number was entered correctly into the statewide voter registration system. If the board of registrars determines the number was not entered correctly, the board of registrars shall correct the driver's license number or identification card number in the statewide voter registration system. The Secretary of State shall match the new driver's license number or identification card number to the Department of Driver Services database.

(b) Alien registration number.

1. If only the alien registration number from an applicant's naturalization documents is provided for United States citizenship purposes, the Secretary of State shall attempt to verify the applicant's alien registration number with the United States Citizenship and Immigration Services utilizing the Systematic Alien Verification for Entitlements program.

Authority O.C.G.A. Secs. 21-2-216. **History.** Original Rule entitled "Verification of Voter Registration Information" adopted, F. Dec. 16, 2009; eff. Jan. 5, 2010.

**RULES OF  
OFFICE OF SECRETARY OF STATE  
ELECTIONS DIVISION  
CHAPTER 590-8-2  
HELP AMERICA VOTE ACT OF 2002 PROVISIONS**

**TABLE OF CONTENTS**

690-8-2-.01 Administrative Complaint Procedure  
for Violations of Title III of the Help  
America Vote Act of 2002

**590-8-2-.01 Administrative Complaint Procedure for Violations of Title III of the  
Help America Vote Act of 2002.**

(1) Any person who believes that a violation of any provision of Title III of the Help America Vote Act of 2002 (Public Law 107-252; 42 U.S.C. 15301, et seq.) has occurred, is occurring, or is about to occur may file a complaint with the Secretary of State. Such complaint shall be open to inspection by the public during business hours upon reasonable notice.

(2) Such complaint shall be in writing and shall be signed and sworn to by the person making the complaint and shall be properly notarized in accordance with state law. The complaint shall be delivered to and served upon the Secretary of State as the chief state election official in person, by U.S. Mail, or by guaranteed overnight delivery.

(3) The Secretary of State shall investigate the allegations of such complaint. If more than one complaint is filed concerning the same alleged violation, the Secretary of State may consolidate such complaints for investigation.

(4) If the complainant requests, the Secretary of State or a designee thereof shall conduct a hearing on the allegations of the complaint. Such hearing may be by telephone, conference call, or in person and shall be recorded.

(5) If the Secretary of State or a designee thereof determines that such complaint is unfounded, the Secretary of State may dismiss the complaint and notify the complainant of her decision. The Secretary of State shall make the results of her investigation into the complaint available for public inspection during normal business hours upon reasonable notice after the matter has been resolved.

(6) The Secretary of State or designee thereof shall make a determination of the validity of the complaint within 90 days following the date on which the complaint is received by and filed with the Secretary of State unless the complainant agrees to an extension of such time period.

(7) If the Secretary of State or designee thereof determines that such complaint is valid, the Secretary of State shall take all necessary and appropriate actions within her authority to address the violation; and

(8) If the Secretary of State or designee thereof does not render a final determination on a complaint filed pursuant to this rule within 90 days after the complaint is filed, or within any extension period to which the complainant has agreed, the Secretary of State or designee thereof will, on or before the third business day after the final determination was due to be issued, initiate proceedings for alternative dispute resolution;

(a) To facilitate alternative dispute resolution, the Secretary of State shall maintain a list of qualified independent professionals who are capable of acting as a mediator, from which the Secretary of State or designee thereof and the complainant shall each choose one mediator to review the case.

(b) The Secretary of State or designee thereof shall designate in writing to the complainant the name of a mediator from the list referenced in section (a) to serve on an alternative dispute resolution panel (resolution panel) to review the complaint.

1. If proceedings for alternative dispute resolution are initiated pursuant to this paragraph, not later than 3 business days after the complainant receives such a designation from the Secretary of State or designee thereof, the complainant shall designate in writing to the Secretary of State or designee thereof the name of a second mediator. If the complainant fails to designate a mediator within the time allowed above, the sole mediator shall review the record from the hearing and make a final recommendation based on the submitted record. Not later than 3 business days after such a designation by the complainant, the two mediators so designated shall select a third mediator to complete the resolution panel. If the complainant fails to designate a mediator within the time allowed above, the sole mediator shall review and dispose of the matter without selecting a second or third mediator.

2. The mediator or resolution panel may review the record compiled in connection with the complaint, including, without limitation, the investigative file on the matter, the audio recording of the hearing, any transcript of the hearing and any briefs or memoranda submitted by the parties but shall not receive any additional testimony or evidence to resolve the matter.

3. The mediator or resolution panel by a majority vote, shall after reviewing the record referenced above, provide a recommendation to the Secretary of State not later than 50 days after the final determination of the Secretary of State was due. This period for issuing a written recommendation will not be extended.

4. Upon receipt of the recommendation from the mediator or resolution panel, the Secretary of State or designee thereof shall issue a final order pursuant to the authority granted under O.C.G.A. 21-2- 50.2(c), but such remedy shall not exceed the remedies available under Title III of the Help America Vote Act of 2002.

5. The final order of the Secretary of State or designee thereof will be:

(i) Mailed to the complainant, each respondent and any other person who requested in writing to be advised of the final resolution;

(ii) Posted on the website of the Secretary of State; and

(iii) Made available by the Secretary of State, upon request by any interested person.

6. A final determination by the Secretary of State or designee thereof is not subject to appeal in any state or federal court.

**Rule 183-1-14-.12. Eligibility of Application for Absentee Ballot**

The application for an absentee ballot shall be in writing and shall contain sufficient information for proper identification of the elector. To be deemed sufficient, an application for an absentee ballot must contain the signature of the applicant.

1. In the case of the elector making such application for an absentee ballot, the application shall contain the signature of such elector.
2. In the case of a relative making an application on behalf of an elector pursuant to O.C.G.A. § 21-2-381(a)(1)(B), the application shall contain the signature of the elector's relative as well as the relationship of the relative to the elector.

## Ga. Comp. R. & Regs. r. 183-1-11-.02 Apperance of Candidate's Name on Ballot

Georgia Administrative Code

Department 183. STATE ELECTION BOARD

Chapter 183-1. GEORGIA ELECTION CODE

Subject 183-1-11. BALLOTS

*Current through Rules filed through January 26, 2017*

### ★ Rule 183-1-11-.02. Apperance of Candidate's Name on Ballot

- (1) A candidate's name on the ballot shall include the candidate's last name shown on the candidate's voter registration records and at least one of: (1) the first name shown on the candidate's voter registration records or corresponding initial, (2) the middle name shown on the candidate's voter registration records or corresponding initial, (3) an abbreviated name by which the candidate is commonly known in the community, or (4) a nickname by which the candidate is commonly known in the community. Any nickname is subject to Section (2) of this rule.
- (2) A candidate's name may include a nickname by which the candidate is commonly known in the community but shall not contain any spurious phrases, title or degree designating the business, fraternal, religious, or professional affiliation of the candidate, or political slogan or message. A title or degree includes, but is not limited to, military or professional title or rank, or references such as "Dr.", "Rev.", "Judge", "Mr.", "Ms.", "Mrs.", or "Miss". A determination as to whether a nickname violates this Rule lies within the sound discretion of the Secretary of State or election superintendent, as appropriate.
- (3) The total number of spaces, inclusive of letters, spaces, and punctuation, which may be utilized on the ballot for a candidate's name and, if any, nickname, shall be twenty-five (25). Notwithstanding the listing of the candidate's name on the filing papers, spaces, periods, quotation marks, and commas necessary for proper punctuation shall be added by the Secretary of State or the election superintendent, as appropriate. No candidate's name shall exceed twenty-five (25) spaces. The Secretary of State or the election superintendent, as appropriate, shall determine the correct

listing for any candidate whose name exceeds twenty-five (25) spaces to conform to this requirement.

- (4) A determination as to whether the candidate's requested name on the ballot complies with this Rule shall be within the discretion of the Secretary of State or election superintendent, as appropriate. Upon a determination that the requested name does not comply with this Rule, the Secretary of State or election superintendent, as appropriate shall modify the candidate's name on the ballot so that it complies with this Rule.

Question / Comment: Tried to Vote today at the Alpharetta Library where I have voted for 12 years and just voted in the recent presidential election at that location with no issues. Was told today I was not allowed to vote there - I was told 4 different places to vote (with no addresses). I was told had a voted yesterday I could have voted at the Alpharetta library. No one could accurately confirm where I could vote with exact addresses or which of the 4 locations. I received no information since the presidential election that my voter location was changed. Left the voting location and called the Fulton County Voter phone number to see if I could determine where to vote. Was told that I was not registered to vote and they could not find a record of me. I have lived at the same address for 12 years - voted in multiple elections and served on jury duty a good number of times at the state and county level. There has been no change in my voter information for 12 years. Asked to be reconnected to someone else whom can help me. The person informed me that my last name was misspelled. Although my husband's was not. I was given a polling place that I have NEVER used in 12 years to vote that is backwards from my house and crosses 4 different schools - so basically impossible for me to go vote and not be late for work since it was now 7:45am. So they changed the spelling of my name. I feel that by changing my polling location and then not providing me the correct information of where to vote and telling me I am not registered - that you are making it very difficult for me to VOTE in this election. Multiple people at the polling place were told their polling place had been changed - when they had voted at that location in the past. This election is not valid if you do not provide ample information to a voter of where they are able to vote. Seems real deceptive to change this at the last minute. Very disappointed - that we pay taxes, serve on juries, (including my husband served on a capital murder case sequestered for 2 months) and yet I am treated in this manner when I am trying to exercise my right to vote. If I do not

vote today - because I cannot make it in time to the poll then at least you know why I no longer have confidence in the voting process. Sadly disappointed.

Ms. Andrzejewski,

Thank you for contacting the Secretary of State's Office. Your polling place is:

ALPHARETTA CRABAPPLE GOVT CNTR  
12624 BROADWELL ROAD  
ALPHARETTA, GA 30004 - 6633

I am also going to follow up with the Fulton County Elections Office to find out why you did not receive a precinct card notifying you that your polling place changed.

Please let me know if you have any questions.

Thanks,

Jessica

This election is not valid if you do not provide ample information to a voter of where they are able to vote. Seems real deceptive to change this at the last minute. Very disappointed - that we pay taxes, serve on juries, (including my husband served on a capital murder case sequestered for 2 months) and yet I am treated in this manner when I am trying to exercise my right to vote. If I do not vote today - because I cannot make it in time to the poll then at least you know why I no longer have confidence in the voting process. Sadly disappointed.

**E-mail:** [REDACTED][@comcast.net](mailto:[REDACTED]@comcast.net)

Question / Comment: Tried to Vote today at the Alpharetta Library where I have voted for 12 years and just voted in the recent presidential election at that location with no issues. Was told today I was not allowed to vote there - I was told 4 different places to vote (with no addresses). I was told had a voted yesterday I could have voted at the Alpharetta library. No one could accurately confirm where I could vote with exact addresses or which of the 4 locations. I received no information since the presidential election that my voter location was changed. Left the voting location and called the Fulton County Voter phone number to see if I could determine where to vote. Was told that I was not registered to vote and they could not find a record of me. I have lived at the same address for 12 years - voted in multiple elections and served on jury duty a good number of times at the state and county level. There has been no change in my voter information for 12 years. Asked to be reconnected to someone else whom can help me. The person informed me that my last name was misspelled. Although my husband's was not. I was given a polling place that I have NEVER used in 12 years to vote that is backwards from my house and crosses 4 different schools - so basically impossible for me to go vote and not be late for work since it was now 7:45am. So they changed the spelling of my name. I feel that by changing my polling location and then not providing me the correct information of where to vote and telling me I am not registered - that you are making it very difficult for me to VOTE in this election. Multiple people at the polling place were told their polling place had been changed - when they had voted at that location in the past. This election is not valid if you do not provide ample information to a voter of where they are able to vote. Seems real deceptive to change this at the last minute. Very disappointed - that we pay taxes, serve on juries, (including my husband served on a capital murder case sequestered for 2 months) and yet I am treated in this manner when I am trying to exercise my right to vote. If I do not vote today - because I cannot make it in time to the poll then at least you know why I no longer have confidence in the voting process. Sadly disappointed.

## ADMINISTRATIVE HISTORY

The **Administrative History** following each Rule gives the date on which the Rule was originally filed and its effective date, as well as the date on which any amendment or repeal was filed and its effective date. Principal abbreviations used in the Administrative History are as follows:

- f. — filed
- eff. — effective
- R. — Rule (Abbreviated only at the beginning of the control number)
- Ch. — Chapter (Abbreviated only at the beginning of the control number)
- ER. — Emergency Rule
- Rev. — Revised

**Note: Emergency Rules** are listed in each Rule's Administrative History by Emergency Rule number, date filed and effective date. The Emergency Rule will be in effect for 120 days or until the effective date of a permanent Ride covering the same subject matter superseding this Emergency Rule is adopted, as specified by the Agency.

Chapters 183-6 entitled "Registration of Electors", 183-7 entitled "Election Districts and Polling Places", 183-12-1 entitled "Voting Machines", 183-12-2 entitled "Vote Recorders", 183-13 entitled "Preparation for and Conduct of Primaries and Elections", and 183-14 entitled "Absentee Voting" have been adopted. The following Chapters are reserved: 183-1 to 183-5, 183-8 to 183-11, 183-15 to 183-36. Filed July 24, 1968; effective August 12, 1968.

Rules 183-6-.01, .02, 183-12-2-.04 and .05 have been amended. Rules 183-6-.03 and 183-13-.01 have been repealed. Filed August 5, 1969; effective August 24, 1969.

Rules 183-12-2-.04, .08 and 183-14-.02 have been repealed and new Rules adopted. Rules 183-13-.03 to .05 have been adopted. Chapter 183-15 entitled "Returns of Primaries and Elections" has been adopted. Filed May 26, 1970; effective June 14, 1970.

Chapters 183-24 entitled "Poll Officers", 183-25 entitled "Registration of Electors", 183-26 entitled "Election Districts or Precincts and Polling Places", and 183-27 entitled "Dates of Primaries

and Elections”, 183-31-1 entitled “Voting Machines”, 183-31-2 entitled “Vote Recorders”, 183-32 entitled “Preparation For and Conduct of Primaries and Elections”, and 183-33 entitled “Absentee Voting” have been adopted. Filed August 30, 1973; effective September 19, 1973.

Rules 183-6-.01, 183-14-.01 and .02 have been repealed and new Rules adopted. Rules 183-7-.01 and 183-15-.01 have been amended. Chapter 183-8 entitled “Dates of Primaries and Elections” has been adopted. Filed June 24, 1974; effective July 14, 1974.

Rules 183-6-.01, 183-13-.02, and 183-33-.01 have been repealed. Rules 183-12-2-.06, .07, 183-14-.01, 183-15-.01, 183-33-.02 have been amended. Chapters 183-1 to 183-11, 183-12-1, 183-12-2, 183-13 to 183-20 have been renumbered to 183-1-1 to 183-1-20 by Certification. Chapters 183-21 to 183-31, 183-31-1, 183-31-2 and 183-32 to 183-36 have been renumbered to 183-2-1 to 183-2-16 by Certification. All Rules of said Chapters have been renumbered. Filed October 20, 1975; effective November 9, 1975.

Emergency Rules 183-1-6-0.1-.01 and 183-2-5-0.2-.02 adopted. Filed May 20, 1982; effective May 17, 1982, the date of adoption, to be in effect for 120 days or until the effective date of permanent Rules covering the same subject matter superseding these Emergency Rules are adopted, as specified by the Agency. These Emergency Rules were adopted to prevent voter irregularities in the upcoming elections. (These Emergency Rules will not be published; copies may be obtained from the Agency.)

Rules 183-1-6-.01 and 183-2-5-.02 have been adopted. Filed March 29, 1983; effective April 18, 1983.

Rule 183-1-6-.03 has been adopted. Filed January 22, 1985; effective February 11, 1985.

Rule 183-1-6-.04 has been adopted. Filed August 1, 1986; effective August 21, 1986.

Rule 183-1-6-.04 has been amended. Filed September 18, 1986; effective October 8, 1986.

Chapter 183-1-11 entitled “Ballots” has been adopted. Rule 183-1-12-.10 has been adopted. Filed November 14, 1986; effective December 4, 1986.

Rule 183-1-6-.01 has been repealed. Rules 183-1-6-.02, 183-1-12-.03, .05 to .09, 183-1-13-.03 to .05, 183-1-14-.01, 183-1-15-.01 have been amended. Rule 183-1-7-.01 has been repealed and a new Rule adopted. Filed March 6, 1987; effective March 26, 1987.

Rule 183-1-6-.03 has been amended. Filed January 21, 1988; effective February 10, 1988.

Rule 183-1-6-.03 has been amended. Filed April 10, 1989; effective April 30, 1989.

Rule 183-1-6-.05 has been adopted, Rules 183-1-13-.03, .05 and 183-1-14-.01 have been amended. Filed February 17, 1992; effective March 9, 1992.

Rules 183-1-12-.01 and .02 have been repealed and new Rules adopted. Filed August 30, 2002; effective September 19, 2002. Rule 183-1-12-.06 has been repealed and a new Rule adopted. Filed October 18, 2002; effective November 7, 2002.

Rules 183-1-12-.01, .02, and 183-1-14-.01 have been amended. Rule 183-1-12-.06 has been repealed and a new Rule adopted. Rules 183-1-14-.02, .03 and 183-1-15-.02 have been adopted. Filed October 24, 2003; effective November 13, 2003.

Rules 183-1-6-.02, 183-1-12-.05, .07 to .09, 183-1-15-.01, 183-2-4-.01, 183-2-5-.01, .02, 183-2-6-.01, 183-2-7-.01, 183-2-11-.02 to .09, 183-2-12-.02 to .05, and 183-2-13-.02 have been repealed. Rules 183-1-6-.03 to .05, 183-M2-.03, 183-1-13-.03 to .05 have been amended. Filed December 11, 2003; effective December 31, 2003. Rule 183-1-12-.02 has been amended. Filed May 11, 2004; effective May 31, 2004.

Emergency Rules 183-1-6-0.3-.06, 183-1-12-0.4-.02, and 183-1-14-0.5-.04 adopted. Filed September 10, 2004; effective September 9, 2004, the date of adoption, to be in effect for 120 days or until the effective date of a permanent Rule covering the same subject matter superseding this Emergency rule is adopted, as specified by the Agency. This Emergency Rule was adopted to prevent confidential information being used for fraudulent purposes (Emergency Rule 183-1-6-0.3-.06), voter fraud related to the counting of absentee ballots

(Emergency Rule 183-1-12-0.4-.02, voter coercion or intimidation occurring during the absentee voting period (Emergency Rule 183-1-14-0.5-.04). (This Emergency Rule will not be published; copies may be obtained from the Agency.)

Rules 183-1-12-.06 has been amended. Rules 183-1-14-.04 and .05 have been adopted. Filed December 21, 2005; effective January 10, 2006.

Rules 183-1-6-.03 and 183-1-12-.02 have been amended. Chapter 183-1-19 entitled “Penalties” has been adopted. Filed December 28, 2005; effective January 17, 2006.

Rule 183-1-12-.07 has been adopted. Filed March 8, 2006; effective March 28, 2006.

Rule 183-1-6-.03 has been amended, Filed May 30, 2006; effective June 19, 2006.

Chapter 183-1-20 entitled “Georgia Voter Identification Card” has been adopted. Filed June 19, 2006; effective July 9, 2006.

Chapter 183-1-1 entitled “Preliminary Provisions” has been adopted. Filed February 22, 2008; effective March 13, 2008.

Rules 183-1-6-.01, .02, 183-1-14-.06, .07, .09 and .10 have been adopted. Rules 183-1-6-.03 and 183-1-12-.02 have been repealed and new Rules adopted. Chapter 183-1-10 entitled “Nomination of Candidates” has been adopted. Filed October 29, 2009; effective November 18, 2009.

Rules 183-1-6-.06 and 183-1-14-.08 have been adopted. Filed December 15, 2009; effective January 4, 2010.

Rule 183-1-11-.02 has been adopted. Filed March 3, 2010; effective March 23, 2010.

Rules 183-1-12-.02, .06, and 183-1-14-.04 have been repealed, and new Rules adopted. Rule 183-1-14-.01 has been amended. Filed March 17, 2011; effective April 6, 2011.

Rule 183-1-12-.06 has been repealed and a new Rule adopted. Rule 183-1-14-.11 has been adopted. Filed May 27, 2011; effective June 16, 2011.

PRELIMINARY PROVISIONS**

**TABLE OF CONTENTS**

<b>183-1-1-.01</b>	<b>Procedure to Petition for Adoption of Rules</b>	<b>183-1-1-.02</b>	<b>Review of Initial Decisions</b>
--------------------	--	--------------------	------------------------------------

**183-1-1-.01 Procedure to Petition for Adoption of Rules.**

(1) Interested persons may petition the State Election Board requesting the promulgation, amendment, or repeal of a rule, Such petition should be in the form of a letter addressed to the Board setting forth the language of the proposed rule, amendment, or repeal, and, where applicable, the language of the rule sought to be amended or repealed.

(2) Any interested person desiring to petition the Board requesting the promulgation, amendment, or repeal of a rule shall submit three copies of the petition, in writing, by certified or registered mail, to the Chairperson of the State Election Board, 2 Martin Luther King, Jr. Drive, S.E., Suite 1104, West Tower, Atlanta, Georgia 30334-9000.

(3) Each petition for the promulgation, amendment, or repeal of a rule made pursuant to the Georgia Administrative Procedures Act should be verified under oath, or in proper behalf of, the petitioner and shall contain:

- (a) The name and post office address of the petitioner;
- (b) The full text of the rule requested to be amended or repealed, or the full text of the rule desired to be promulgated;
- (c) The reason(s) such rule should be amended, repealed, or promulgated;
- (d) Any and all pertinent existing facts as to the petitioner's interest in the matter;

(e) Any and all facts known to the petitioner which might influence the decision of the Board to initiate or not initiate rulemaking, including identification of any parties who it is known will or may be affected by the amended, repealed, or promulgated rule; and

(f) Citations of legal authorities, if any, which authorize, support, or require the action requested by the petitioner.

(4) Within thirty (30) days after submission of a petition for the promulgation, amendment, or repeal of a rule or at the next regularly-scheduled meeting of the State Election Board, the Board shall decide upon the action to be taken. The Board shall not be forced to call a special meeting in order to address such a petition. If such a petition is received less than twenty (20) days before a regularly-scheduled meeting, the Board may vote to address the petition at its next regularly-scheduled meeting. Within ten (10) days after addressing the petition, the Board shall inform the petitioner by mail of the decision reached, and shall either decline to take the action requested, stating its reasons for so declining, or shall initiate rulemaking proceedings in accordance with the Georgia Administrative Procedures Act.

Authority O.C.G.A. Sees. 50-13-3, 50-13-17. **History.** Original Rule entitled "Procedure to Petition for Adoption of Rules" adopted. F. Feb. 22, 2006; eff. Mar. 13, 2008.

**183-1-1-.02 Review of Initial Decisions.** The State Election Board (the "Board") does not routinely preside at the reception of the evidence in contested cases before it and typically refers these cases to the Office of State Administrative Hearings ("OSAH"). After receiving the evidence, an OSAH hearing officer may issue an initial decision in such a contested case more than thirty (30) days before the next regularly-scheduled meeting of the Board. On those occasions where the hearing officer issues an initial decision more than thirty (30) days before the Board's next regularly-scheduled meeting, the period of time in which the Board shall render a final decision shall be extended until the date of the next regularly-scheduled meeting of the Board.

Authority O.C.G.A. Sees. 50-13-3, 50-13-17. **History.** Original Rule entitled "Review of Initial Decisions" adopted. F. Feb. 22, 2008; eff. Mar. 13, 2008.

**RULES  
OF  
STATE ELECTION BOARD  
GEORGIA ELECTION CODE**

**CHAPTER 183-1-6  
REGISTRATION OF ELECTORS**

**TABLE OF CONTENTS**

183-1-6-.01	Acceptance of Voter Registration Applications	183-1-8-.04	Accessibility for Elderly and Disabled Voters
183-1-6-.02	Rules for Voter Registration by Private Entities	183-1-8-.05	Registration of Persons by College Presidents or Their Designees
183-1-6-.03	Rules and Regulations for Voter Registration by Registrars and Deputy Registrars	183-1-6-.06	Verification of United States Citizenship of Applicants for Voter Registration

**188-1-6-.01 Acceptance of Voter Registration Applications.**

(1) The board of registrars shall, as of the date received, date stamp all voter registration applications delivered by hand to the board or otherwise received when the application does not have a date stamp affixed by the Secretary of State or a postmark affixed by the United States Postal Service or when the postmark affixed by the United States Postal Service is illegible or bears no date. In any such instance, a voter registration application shall be deemed to have been made as of the date stamp affixed to such application by the board of registrars that receives such application and shall be processed in accordance with subsection (c) of O.C.G.A. Section 21-2-224.

(2) Any application of a person who is a resident of a county in this State that is delivered to the board of registrars of another county through mistake, inadvertence, neglect, or otherwise that does not have a date stamp affixed by the Secretary of State or a postmark affixed by the United States Postal Service or when the postmark affixed by the United States Postal Service is illegible or bears no date shall be date stamped by the receiving board of registrars and shall be forwarded as soon as possible and, in any event, not later than seven days after receipt of the application to the correct board of registrars by the receiving county. In any such instance, a voter registration application shall be deemed to have been made as of the date stamp affixed to such application by the board of registrars that originally receives such application and shall be processed by the correct board

of registrars in accordance with subsection (c) of O.C.G.A. Section 21-2-224.

Authority O.C.G.A. Secs. 21-2-31, 21-2-224. **History.** Original Rule entitled "Special Registration for New (30 day) Residents" adopted. F. July 24, 1968; eff. Aug. 12, 1968. **Amended:** F. Aug. 5, 1969; eff. Aug. 24, 1969. **Repealed:** New Rule entitled "Special 14-day Registration" adopted. F. June 24, 1974; eff. July 14, 1974. **Repealed:** F. Oct. 20, 1975; eff. Nov. 9, 1975. **Amended:** ER. 183-1-6-0.1-.01 entitled "Proper Identification for Registration" adopted. F. and eff. May 20, 1982, as specified by the Agency. **Amended:** Permanent Rule of same title adopted. F. Mar. 29, 1983; eff. Apr. 18, 1983. **Repealed:** F. Mar. 6, 1987; eff. Mar. 26, 1987. **Amended:** New Rule entitled "Acceptance of Voter Registration Applications" adopted. F. Oct. 29, 2009; eff. Nov. 18, 2009.

## 183-1-6-.02 Rules for Voter Registration by Private Entities.

(1) **Intent and Purpose.** These rules are promulgated pursuant to the authority granted to the State Election Board by Georgia Laws 1984, p. 1430, (O.C.G.A. Section 21-2-215(f)) and by Georgia Laws 1968, p. 862, (O.C.G.A. Section 21-2-31). It is the intent and purpose of the State Election Board to establish reasonable, necessary, and uniform rules and regulations to carry out the responsibilities of the State of Georgia with respect to the registration of voters in Georgia.

For the benefit and protection of those citizens who choose to entrust their completed voter registration applications to private entities and for the benefit and protection of the public and the fair administration of the electoral process, the State Election Board has promulgated these rules for voter registration by private entities. The State Election Board, within the parameters of the law, has taken care to make voter registration in Georgia as convenient and easy as practicable while retaining the necessary controls to prevent abuse of the system and fraud in the elective process. To this end, the State Election Board has promulgated these rules and regulations.

(2) **Definitions.** As used in this rule, unless otherwise noted, the term:

(a) "Close of registration" means the last day for the registration of voters in a primary or general election, as provided by law.

(b) "Private entity" means an individual who is not acting in an official capacity as a registrar or deputy registrar, or a non-governmental organization or other non-governmental entity that utilizes individuals other than registrars or deputy registrars to conduct voter registration programs.

(c) “Voter registration programs” means the distribution or collection of voter registration applications.

### **(3) Acceptance of Mail Voter Registration Applications.**

(a) A voter registration application postmarked or received by the Secretary of State or a registrar or deputy registrar within the time frames provided by law for the registration of electors shall be processed without regard to whether such application was received by mail or otherwise, was submitted singularly or bundled with other voter registration applications, or was submitted by a private entity. No board of registrars shall reject or refuse to process a voter registration application solely on the basis of how or by whom it was submitted.

(b) Any mail voter registration application received from a private entity (other than from an individual delivering his or her own application to a state or local election official in person) shall be processed in the same manner as an application received by mail, regardless of the manner in which such application was actually delivered.

(c) Nothing in this rule shall be construed to prohibit or in any manner restrict the right of any board of registrars or other authority from investigating and addressing suspected instances of voter registration fraud or to challenge, examine, verify, or determine the validity of voter registration applications or the qualifications and eligibility of persons applying to register to vote.

(4) **Voter Registration Activities of Private Entities.** Nothing in this rule shall be construed to prevent private entities from conducting organized voter registration programs and assisting eligible citizens with voter registration as permitted by state or federal law, including the distribution, collection, and transmittal of mail voter registration applications to the appropriate board of registrars.

### **(5) Instruction and Training of Private Entities.**

(a) Instruction and training for private entity voter registration activities pursuant to this rule shall be offered by the board of registrars. Training requests by private entities shall be made in

writing to the board of registrars. The board of registrars shall respond in writing to such requests with a training confirmation, including the date, time, and location such training will take place.

(b) At a minimum, training shall be provided to each private entity who requests such training on:

1. How to complete the voter registration application designed, published, and distributed by the Secretary of State in accordance with O.C.G.A. Section 21-2-223;

2. The proper security of completed voter registration applications;

3. The time frames within which completed voter registration applications are required to be transmitted to the appropriate board of registrars;

4. The identification requirements to be included with completed voter registration applications;

5. The identification requirements for voting at polling places within the state and the requirements for persons who registered to vote for the first time by mail; and

6. The required and prohibited activities of private entities as set forth in paragraphs (6) and (7) of this rule.

(c) The Secretary of State may develop and provide to the boards of registrars manuals for this instruction. The Secretary of State may also make such manuals available to the public, including via electronic means on the Secretary of State's website. Until such time as the Secretary of State develops such manuals, boards of registrars shall utilize such materials as will meet the training requirements of this rule.

**(6) Required Activities.** While engaging in organized voter registration activity within this state, a private entity shall:

(a) Advise each applicant that such applicant has the option to return his or her voter registration application personally to the appropriate board of registrars or to the Secretary of State or to permit the private entity to return it on the applicant's behalf;

(b) Inform all applicants that they are not officially registered to vote until their eligibility has been determined by the appropriate board of registrars and that, if the applicant has not received notification of the disposition of the application within three to four weeks of submitting the application, the applicant should contact the appropriate board of registrars to determine if such applicant's eligibility has been determined and the applicant's name entered on the official list of electors;

(c) Inform all applicants that, if they are registering to vote for the first time in the jurisdiction by mail or through a private entity, they must present current and valid identification either when registering to vote by mail or through a private entity or when voting for the first time after registering to vote by mail or through a private entity;

(d) Inform all Georgia applicants of the availability of an online registration status check and polling place locator service on the Secretary of State's website and encourage all applicants to access it in advance of a primary or election day to verify their registration status and correct polling place; and

(e) Inform all applicants of their right, under certain circumstances, to cast a provisional ballot in the event that their names do not appear on the official list of electors at the polls.

For purposes of compliance with the notice provisions provided in this paragraph, it shall be sufficient for the private entity either to post such notices in a conspicuous location at any fixed registration site or to provide such notices in written form to the applicant in a brochure, flyer, or other similar manner at the time of application. The Secretary of State may design and make available to private entities an appropriate model form that includes all required notices pursuant to this paragraph.

**(7) Prohibited Activities.** While engaging in voter registration programs within Georgia, a private entity shall not:

(a) Represent to any person that the private entity is a representative of the Secretary of State or a board of registrars authorized by law to receive voter registration applications in person;

(b) Make any statement to an applicant or take any action that the private entity knows or reasonably should know would discourage a qualified applicant from registering to vote;

(c) Refuse to accept and transmit a properly completed and contemporaneously dated voter registration application from any qualified individual;

(d) Be inebriated or otherwise impaired by drugs, alcohol, or other substances;

(e) Conduct voter registration activities at locations where the private entity knows that illegal or criminal activities are being conducted;

(f) Accept a completed registration application from the applicant unless such application has been sealed by the application, without a signed acknowledgement from the applicant that the applicant willingly and knowingly provided the unsealed application to the private entity;

(g) Copy a completed registration application without the express, written permission of the applicant; or

(h) Conduct voter registration activities in places where alcoholic beverages are sold and consumed on the same premises.

#### **(8) Transmittal of Completed Voter Registration Applications.**

(a) A private entity shall promptly transmit all completed voter registration applications to the Secretary of State or the appropriate board of registrars within ten days after receiving the application or by the close of registration, whichever period is earlier. If a private entity receives a completed voter registration application fourteen days or less before the close of registration, the private entity should transmit the application to the Secretary of State or the appropriate board of registrars within seventy-two hours of the date of the execution of the application or by midnight on the close of registration, whichever period is earlier.

(b) Transmittal of completed voter registration applications may be accomplished by in-person delivery, mail, commercial courier,

statutory overnight delivery, or any other form of delivery that is reasonably calculated to secure and ensure the confidential delivery and receipt of such applications by the Secretary of State or the appropriate board of registrars within three business days after transmittal and within the time frames required by these rules and regulations and state and federal law.

(c) With each transmittal of completed voter registration applications, a private entity should include a transmittal summary sheet which, at a minimum, provides the name of the submitting individual, the name of the private entity sponsoring the voter registration programs (if different than the submitting individual), the physical residence or business address of the submitting individual, the daytime and evening telephone numbers of the submitting individual, and the total number of applications being submitted. The Secretary of State may design and make available to private entities a model transmittal summary sheet containing the information requested in this subparagraph. The failure to include the transmittal summary sheet shall not by itself be grounds for rejecting the submitted applications. The private entity may enclose a postage-prepaid, self-addressed envelope, along with a copy of the completed transmittal summary sheet, if the private entity desires a date stamped receipt of the transmittal summary sheet from the board of registrars, in which case the board of registrars shall promptly acknowledge such receipt by returning a date stamped copy of the transmittal summary sheet to the private entity.

### **(9) Confidentiality of Completed Voter Registration Applications.**

(a) A private entity shall keep all completed original voter registration applications in the possession of the private entity in a secure and confidential manner at all times until such applications are submitted to the Secretary of State or the appropriate board of registrars. Except as otherwise provided in this rule, a private entity shall not disclose any such applications or information contained therein, except as specifically provided in these rules and regulations to any member of the public. A private entity may collaborate with another affiliated private entity in the securing of completed original voter registration applications that are received during the course of a jointly organized voter registration program.

(b) With the express, written consent of the applicant, a private entity may make archival copies of an applicant's original voter registration application and retain such archival copies for use in aiding the applicant with verifying the timely and proper receipt and processing of his/her application by the applicable board of registrars. A private entity may engage the services of a commercial copying or document management service to make such archival copies provided that the company agrees to maintain the confidentiality and security of the original applications and any copies of the applications in the same manner as is required by private entities pursuant this rule.

(c) A private entity shall keep any such archival copies in a secure and confidential manner at all times and shall not disclose any such archival copies to any member of the public; provided, how-ever, that a private entity may disclose such archival copies to another affiliated private entity as necessary for use in aiding the applicant with verifying the timely and proper receipt and processing of his/her application by the applicable board of registrars. Archival copies of completed voter registration applications must be discarded by the private entity not later than 90 days following the transmittal of the completed voter registration application to the Secretary of State or board of registrars. Whenever such archival copies are discarded by the private entity, they must be discarded in the manner contemplated by O.C.G.A. § 10-15-2 for the destruction by businesses of records containing personal information.

(d) A private entity may create and keep a separate record of any information contained on the applicant's voter registration application that could otherwise be made available for public inspection pursuant to O.C.G.A. § 21-2-225(b) if collected and maintained by the Secretary of State on the official list of electors. No such information may be used by the private entity or any other person for commercial purposes. Whenever such information is discarded by the private entity, it must be discarded in the manner contemplated by O.C.G.A. § 10-15-2 for the destruction by businesses of records containing personal information.

Authority O.C.G.A. Sec. 21-2-91. **History.** Original Rule entitled "Duplicate Voting, Procedure for Checking" adopted. F. July 24, 1968, eff. Aug. 12, 1968. **Amended:** F. Aug. 5, 1969; eff. Aug. 24, 1969. **Amended:** F. Mar. 6, 1987; eff. Mar. 26, 1987. **Repealed:** F. Dec. 11, 2003; eff. Dec. 31, 2003. **Amended:** New Rule entitled "Rules for Voter Registration by Private Entities" adopted. F. Oct. 29, 2009; eff. Nov. 18, 2009.

**183-1-6-.03 Rules and Regulations for Voter Registration by Registrars and Deputy Registrars.****(1) Intent and Purpose.**

(a) These rules are promulgated pursuant to the authority granted the State Election Board by Georgia Laws 1984, p. 1430, (O.C.G.A. Section 21-2-215(0) and by Georgia Laws 1968, p. 862, (O.C.G.A. Section 21-2-31). It is the intent of the State Election Board to increase the level of participation in the elective process in the State of Georgia by encouraging the registration of voters within the State. It is the intent and purpose of the State Election Board, within the parameters of the law, to make voter registration in Georgia as convenient and as easy as practicable while retaining the necessary controls to prevent abuse of the system and fraud in the elective process. To this end, the State Election Board has promulgated these rules and regulations.

(b) Nothing in this rule shall be construed to prohibit any voter registration activity that is permitted pursuant to the National Voter Registration Act of 1993, 42 U.S.C. §§ 1973gg et seq., or any other federal or state law or regulation.

(c) Rules and regulations governing voter registration by private entities are provided in a separately numbered rule within this Chapter.

**(2) Criteria for Appointment of Deputy Registrars.** The board of registrars in each county may appoint deputy registrars to aid them in the discharge of their duties. The number of deputy registrars appointed to serve shall be determined by the board of registrars.

(a) Deputy registrars appointed by each county board of registrars shall meet the following qualifications:

1. be a registered voter in the State of Georgia;
2. be able to read, write and speak the English language;
3. have legible handwriting unless the voter registration applications are to be completed by typewriter or electronic means;
4. satisfactorily complete such training as shall be required by the board of registrars;

5. not have been convicted of a felony or of any crime involving fraud or moral turpitude;

6. not be a candidate for nomination or election to any office except as allowed by O.C.G.A. § 21-2-214; and

7. not have been removed as a deputy registrar for improper conduct in the performance of the duties of deputy registrar.

(b) Deputy registrars shall not engage in political activity on behalf of a candidate, political party or body, or question while actually conducting the duties of their office. While conducting the duties of their office, each person serving as a deputy registrar shall wear a badge or display identification which shall state no more than the person's name and the fact that the person is a deputy registrar of the county. There shall be available for inspection, upon request to verify the authority of the persons involved, the names of the authorized deputy registrars serving at the site.

(c) The following activities shall subject a deputy registrar to immediate revocation of appointment as a deputy registrar:

1. registering voters at unapproved sites, times, and hours, including door to door registration;

2. intoxication while on duty;

3. falsification of registration records;

4. improper handling of registration applications;

5. engaging in any communication, wearing badges, buttons, or clothing that advocates or criticizes a particular candidate, office holder, political party or body, or ballot question while on duty, such as making verbal statements and distributing campaign literature. However, deputy registrars shall identify themselves as deputy registrars of the county by wearing the badges or displaying the identification described in paragraph (b) above; and

6. failure to appear or remain at the deputy registrar's assigned site at or during the assigned hours without adequate notice to the board of registrars or without a proper replacement.

### **(3) Criteria for Establishment of Additional Voter Registration Places:**

(a) The Board of Registrars, in addition to its main office, may designate other fixed places throughout the county as would be reasonably necessary to receive applications for registration and for the registration of electors.

(b) Such additional registration places shall be located in facilities which are open to and frequented by the general public. No place shall be used as an additional registration place unless the general public is freely admitted without regard to race, color, creed, religion, gender, or national origin,

(c) Churches which are open to all persons and which are, in fact, attended for any purpose by persons who are not members of the church shall be considered to be open to and frequented by the general public.

(d) The offices or facilities of community, civic, service, social, civil rights, patriotic, fraternal, and labor organizations shall be considered to be open to and frequented by the general public if non members of the organization in fact attend various activities sponsored by the organization at its offices and facilities and such offices or facilities are open to all persons. However, offices or facilities of political parties, political bodies or candidates shall not be used as additional voter registration places.

(e) The fact that a facility is used primarily or exclusively by the general public of one race or ethnic group or socioeconomic group shall not, for that reason alone, bar its designation as a registration place.

(f) When employers or business owners request the use of their place of business as a registration place, registration shall be conducted only in that part of the place of business which is open to the general public. Such part of the place of business shall be considered to be open to and frequented by the general public if it is an area which is maintained for use by the general public and is known to serve the general public for the purpose of conducting business or engaging in other transactions with the business.

(g) Organizations, employers, offices, and businesses that register voters at their facilities shall not limit registration to their members, employees, or customers, but must register any qualified applicant.

(h) Registration of voters shall be prohibited in places where alcoholic beverages are sold and consumed on the same premises.

(i) No registration of voters shall take place where criminal activities are permitted to occur.

(j) Registration places may be established on a temporary or permanent basis. Permanent places are those which operate on a fixed schedule for an indefinite period of time. Temporary places are those which operate on a temporary schedule and, among other things, may be used in voter registration drives.

1. The deputy registrars appointed by the board of registrars who staff registration places may be unpaid volunteers, employees of the board of registrars, or employees of government offices or of private businesses.

(k) Persons acting as individuals or as representatives of organizations and businesses may request the establishment of additional voter registration places. The board of registrars shall consider such requests.

1. If the request is approved, the board of registrars shall make provisions for having a deputy registrar who has been appointed by the board of registrars available at the additional voter registration places at all times which have been designated by the board of registrars and which have been precleared by the United States Department of Justice for the purpose of voter registration. The board of registrars shall inform such persons that registration may be conducted only at such times as are designated by the board of registrars, precleared by the United States Department of Justice, and advertised as required by law.

(l) The board of registrars shall retain the ultimate responsibility for the submission of additional registration places, dates, and times to the United States Department of Justice for preclearance pursuant to the Voting Rights Act of 1965 and for the advertising of registration places as required by law. The board of registrars shall also retain the ultimate responsibility for the appointment and training of deputy registrars, the proper conduct of voter registration, and the security of completed registration applications; but the board of registrars may

use deputy registrars to assist them in carrying out these duties.

(m) The board of registrars shall instruct deputy registrars in the law and procedure for registration prior to the administration of the oath of office to the deputy registrars. Such training shall include the duties and obligations of deputy registrars, the proper completion of registration applications, the proper security of registration applications, the protection of the integrity of the registration process, and the taking of oaths of registrants and the procedures for appeal upon rejection of the applications for registration.

(n) The Secretary of State shall provide the board of registrars of each county manuals for the use of deputy registrars which include simple instructions on the rules and procedures for the proper conduct of voter registration. The form and content of these manuals shall be determined by the Secretary of State. The board of registrars shall provide each deputy registrar with a copy of the manual.

(o) In order to ensure that the same degree of supervision and security provided at the main office of the board of registrars to prevent voter registration irregularities is maintained for the additional voter registration places, the following rules shall apply:

1. Except as provided in this rule, completed registration applications may be maintained by registrars and deputy registrars only:

(i) at the additional voter registration place during the hours of operation;

(ii) in transit to the main office of the board of registrars;

(iii) at the main office of the board of registrars;

(iv) at permanent additional voter registration places overnight but not beyond the end of the next business day; and

(v) at sites mandated as voter registration sites under O.C.G.A. §21-2-221 and 21-2-222 but not longer than the time permitted under those Code sections.

2. Notwithstanding any provision of this rule to the contrary, a valid registration application that is timely received by the Secretary of State or the registrars shall be accepted.

(p) The board of registrars should identify and establish additional voter registration places where the public congregates for commerce, recreation, worship, education, employment, and other such purposes which are most likely to facilitate registration and suit the convenience of the general public throughout the county. These places should be open at hours to suit the convenience of the general public including times other than the regular hours of the main office of the board of registrars.

(q) Wherever practicable, the Board of Registrars should fully utilize federal, state, county, and municipal offices located within the county which are open during regular business hours and other hours for the purpose of taking voter registration applications.

(r) All additional voter registration sites which are staffed by volunteer deputy registrars shall have prominently displayed a sign, placard, or banner which shall state that voter registration at that location is being conducted under the authority of the Board of Registrars of the county or, in counties in which the duties of the Board of Registrars are performed by Boards of Election, the county Board of Elections. If the volunteer deputy registrars are provided by an organization, club, or other group, the sign, placard, or banner may also identify the organization, club, or group providing the volunteer deputy registrars. The language contained on the sign, placard, or banner shall conform substantially to the following: "Voter registration at this location is being conducted under the authority of the Board of (Registrars or Elections) of \_\_\_\_\_ County. The volunteer deputy registrars at this location are provided by \_\_\_\_\_".

Authority O.C.G.A. Secs. 21-2-31, 21-2-218. **History.** Original Rule entitled "Rules and Regulations for Voter Registration" adopted. F. Jan. 22, 1985; eff. Feb. 11, 1985. **Amended:** F. Jan. 21, 1988; eff. Feb. 10, 1988. **Amended:** F. Apr. 10, 1989; eff. Apr. 30, 1989. **Amended:** F. Dec. 11, 2003; eff. Dec. 31, 2003. **Amended:** F. Dec. 28, 2005; eff. Jan. 17, 2006. **Amended:** F. May 30, 2006; eff. June 19, 2008. **Repealed:** New Rule entitled "Rules and Regulations for Voter Registration by Registrars and Deputy Registrar" adopted. F. Oct. 29, 2009; eff. Nov. 18, 2009.

### 183-1-6-.04 Accessibility for Elderly and Disabled Voters.

(1) **Preamble.** In order to implement the provisions of the Voting Accessibility for the Elderly and Handicapped Act (P.L. 98-435), the

State Election Board promulgates the following rules and regulations.

(2) **Definitions.** As used in this Rule, the terms:

(a) “Accessible” shall mean that a facility has a continuous unobstructed path connecting the parking area and the area within the facility which is being used for voting or voter registration, whichever the case may be, which complies with the relevant provisions of Sections 3 and 4 of American National Standards Institute specifications A117.1-1980 for making buildings and facilities accessible to and usable by physically disabled individuals.

(b) “Disabled” shall mean a temporary or permanent physical disability.

(c) “Elderly” shall mean persons 65 years of age or older.

(d) “Polling place” means the room provided in each precinct for voting at a primary or election.

(e) “Registration place” shall mean any place, either temporary or permanent, designated by the registrars of a county or municipality as a place to be used for voter registration.

(3) **Polling Places.** All polling places in the State of Georgia shall be accessible to disabled and elderly electors.

(4) **Reserved.**

(5) **Implementation.**

(a) **Polling Places.** The election superintendent of each county and municipality shall conduct, or cause to be conducted, an on-site inspection of each polling place located within the county or municipality to determine if the polling place is accessible. This inspection shall be reported to the Secretary of State on forms prepared by the Secretary of State at such times as the Secretary of State shall prescribe. Any polling place found not to be accessible shall either be made accessible prior to its use in a primary or election or shall not be used as a polling place.

(6) **Waivers.** No waiver shall be granted for polling places which are not accessible.

(7) **Printed Instructions.** The Secretary of State shall provide instructions for use by election superintendents at polling places and registrars at voter registration places, printed in large type, to assist visually and hearing impaired electors in voting and registering to vote.

(8) **Notice and Advertisement.**

(a) Each election superintendent shall mark or cause to be marked in a prominent manner the accessible path for elderly and disabled voters at all polling places.

(b) The display of the international disabled access symbol shall be sufficient marking of a polling place if the symbol is of a size and is located such that it can easily be seen by the public and if the accessible path from the parking area to the polling place is the same as the path used by non-disabled persons.

(c) Election superintendents shall take reasonable steps to inform disabled and elderly electors of the availability of accessible polling places.

(9) **Voting Aids.** The election superintendent of each county and municipality shall provide at least one magnifying glass at each polling place during each primary and election for use by visually impaired electors.

(10) If the voting equipment is not accessible to a disabled voter, the disabled voter shall be permitted to use a paper ballot.

(11) **Enforcement.**

(a) Election superintendents and boards of registrars shall investigate all complaints concerning accessibility to polling places and voter registration places and shall take such corrective action as may be necessary to ensure compliance with these rules concerning accessibility.

(b) Election superintendents and boards of registrars shall report in writing to the State Election Board through the Secretary of State all complaints concerning accessibility, the results of the investigation of the complaints, and any corrective actions taken.

(c) The State Election Board may, in its discretion, investigate these complaints further and take such actions as it deems

appropriate to ensure that these rules concerning accessibility are implemented and effectuated.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Accessibility for Elderly and Handicapped Voters" adopted, F. Aug. 1, 1986; eff. Aug. 21, 1986. **Amended:** F. Sept. 18, 1986; eff. Oct. 8, 1986. **Amended:** F. Dec. 11, 2003; eff. Dec. 31, 2003.

### **183-1-6.05 Registration of Persons by College Presidents or Their Designees.**

(1) **Authority.** The president of each public or private college or university located in the State of Georgia is authorized to register to vote all qualified students, staff, and faculty at the college or university. For students domiciled in the State of Georgia, the college or university president or designee of the president shall be a deputy registrar on behalf of all boards of registration in the State of Georgia for the purpose of taking applications for voter registration for these students. For staff and faculty domiciled in the county in which the college or university is located, each college or university president or designee of the president shall be a deputy registrar of the county in which the college or university is located for the purpose of taking applications for voter registration for those faculty and staff members.

(2) **Designees.** Each college or university president is authorized to designate such persons as the college or university president deems appropriate for the purpose of aiding the college or university president in the exercise of the president's voter registration duties. It shall not be necessary for any person so designated to be a resident of the county in which the college or university is located. However, each person so designated shall be a registered voter in the State of Georgia and shall take an oath as a deputy registrar. The designation shall be in writing and shall be forwarded by the college or university president to the chief registrar of the county in which the college or university is located. Registration applications completed by persons who are not designated in writing to the chief registrar by the college or university president to register persons on behalf of the college or university president shall be rejected.

(3) **Training.** Each person designated by a college or university president to register voters on behalf of the president shall immediately contact the chief registrar of the county in which the college or university is located to undergo such training board of registrars of the county ordinarily provides for deputy registrars. Such training shall be completed prior to the individual taking any application for voter registration.

(4) **Registration Applications.** The board of registrars in each county in which a college or university is located shall provide to the college or university president a sufficient number of registration applications for use in registering qualified students, staff, and faculty at the college or university.

(5) **Security.** Any person designated by a college or university president to take voter registration applications on behalf of the college or university president shall also take such steps as are necessary to provide appropriate and adequate security for the registration applications which are placed in that person's possession. Completed voter registration applications shall be returned to the board of registrars in the county in which the college or university is located as soon as possible, but, in no event, later than the next business day.

(6) **Voter Registration Places.** Each place utilized for the collection and receipt of applications for voter registration by the college or university president or designee of the president shall be precleared under Section 5 of the Voting Rights Act of 1965 (42 U.S.C. Section 1973c). The board of registrars of the county in which the college or university is located shall be responsible for obtaining this preclearance. No registration shall be conducted at locations which have not been precleared. Door-to-door registration is prohibited.

(7) **Receipt of Completed Applications.** Upon the receipt of completed voter registration applications from a college or university, the board of registrars of the county in which the college or university is located shall retain those applications completed by individuals who are domiciled in the county in which the college or university is located and shall forward the remainder of the applications completed by individuals domiciled in other counties directly to the appropriate county registration offices.

(8) **Limitations on Presidents and Their Designees.** College and university presidents and their designees are limited to registering only those qualified students, staff and faculty at the college and university and may not register any other individuals.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Registration of Persons by College Presidents or Their Designees" adopted. F. Feb. 17, 1992; eff. Mar. 8, 1992. **Amended:** F. Dec. 11, 2003; eff. Dec. 31, 2003.

**183-1-6-.06 Verification of United States Citizenship of Applicants for Voter Registration.**

(1) On and after January 1, 2010, an application for registration to vote shall be accompanied by satisfactory evidence of United States citizenship.

(2) Satisfactory evidence of citizenship shall include any of the following:

(a) Verified Georgia Driver's License Number or Identification Card Number or Out of State Driver's License or Identification Card.

1. An applicant may provide as satisfactory evidence of citizenship, the number of the applicant's driver's license or identification card issued by the Georgia Department of Driver Services, upon verification by the Secretary of State that the applicant has provided satisfactory evidence of United States citizenship to the Georgia Department of Driver Services.

2. An applicant may provide as satisfactory evidence of citizenship, the applicant's driver's license or identification card, or legible photocopy thereof, issued by a state driver's license agency of another state equivalent to the Georgia Department of Driver Services, or a legible photocopy thereof, if such agency indicates on the driver's license or identification card that the applicant has provided satisfactory evidence of United States citizenship to such agency.

(b) Birth Certificate.

1. An applicant's birth certificate, or a legible photocopy thereof, is satisfactory evidence of citizenship so long as the birth certificate shows that the applicant was born within the United States. In the event that the birth certificate contains a different first, middle, or last name from the name contained on the application for registration, the board of registrars shall require additional supporting legal documentation to establish that the applicant is the same individual as the individual identified on the birth certificate, including but not limited to a marriage certificate or court order confirming change of name.

2. A Certificate of Birth Abroad, or legible photocopy thereof, obtained by a United States citizen when such individual registers with the Department of State in the event such individual is born

abroad in a non-military installation, shall be accepted and treated as a birth certificate.

(c) United States Passport.

1. An applicant's United States passport, or a legible photocopy of pages of the applicant's United States passport which contain the passport number, name, nationality, date of birth, place of birth, and signature, shall serve as satisfactory evidence of citizenship.

(d) United States Naturalization Documents or Verified Alien Registration Number.

1. An applicant may provide the board of registrars with the applicant's United States Certificate of Naturalization issued by the United States Citizenship and Immigration Services.

(i) Registrars and deputy registrars who attend naturalization ceremonies may assist new citizens in registering to vote. In such event, the registrar or deputy registrar shall examine the applicant's United State Certificate of Naturalization and initial and date the application for registration. If applicants from outside the county apply at the ceremony, the registrar or deputy registrar conducting the voter registration activities shall bundle the registrations by county and send them to the appropriate county board of registrars with an official cover letter stating that all naturalization documents were verified by the registrar or deputy registrar. A county that receives applications in this manner shall accept the applications without requiring further evidence of citizenship from the applicant.

2. If only the alien registration number from naturalization documents is provided for citizenship purposes, the applicant shall not be found eligible to vote until the applicant's alien registration number is verified with the United States Citizenship and Immigration Services by the Secretary of State utilizing the Systematic Alien Verification for Entitlements program.

(e) Documents or methods of proof that are established pursuant to the federal Immigration Reform and Control Act of 1986 (P. L. 99-603).

(f) Bureau of Indian Affairs Card Number, Tribal Treaty Card Number, or Tribal Enrollment Number.

(g) Other Documents and Methods of Proof.

1. Applicants who do not have any of the documents enumerated in subparagraphs (g)(2)(A) through (F) of O.C.G.A. Section 21-2-216 and who are residents of this State and United States citizens may provide any of the following as satisfactory evidence of United States citizenship:

(i) Certificate of Citizenship issued by the United States Immigration and Naturalization Service;

(ii) Consular Report of Birth Abroad of a Citizen of the United States of America;

(iii) Certification of Report of Birth issued by the United States Department of State;

(iv) United States Citizen Identification card;

(v) American Indian Card issued by the United States Department of Homeland Security with the classification code "KIC";

(vi) Final adoption decree showing the applicant's name and United States birthplace;

(vii) Evidence of the applicant's civil service employment by the United States government before June 1976;

(viii) An official United States military record of service showing a United States place of birth;

(ix) A Northern Mariana Identification Card issued by the United States Immigration and Naturalization Service; or

(x) Extract of United States hospital record of birth created at the time of the person's birth indicating a United States place of birth.

2. If the applicant cannot obtain any of the documents described in subparagraphs (g)(2)(A) through (F) of O.C.G.A. Section 21-2-216 and (g)1. above, the applicant may request a hearing for the board of registrars to review other evidence of the applicant's United States citizenship. The board of registrars shall schedule a hearing to review such evidence provided by applicants at least once per month and on the last day to verify provisional ballots for any election pursuant to O.C.G.A. Section 21-2-419. The hearing shall be conducted as follows:

(IX) Statement signed by the birth physician or midwife who was in attendance at the time of birth; or

(X) If other forms of documentation cannot be obtained, documentation may be provided at the hearing by written affidavit, signed under penalty of perjury, from two citizens, one of whom cannot be related to the person in question, who have specific knowledge of event(s) establishing the applicant's United States citizenship status. The applicant or another knowledgeable individual must also submit an affidavit stating why the documents are not available. Such affidavits are only expected to be used in rare circumstances.

3. The board of registrars may accept legible copies of documents bearing on United States citizenship received via United States Mail, facsimile, electronic mail, personal delivery, or other means.

4. Having a Social Security card or being a member of the United States military is not, in and of itself, sufficient evidence that an individual is a United States citizen.

(3) If an application for registration is completed in person at the board of registrars' office or other registration place and the applicant provides satisfactory evidence of citizenship at that time, the registrar or deputy registrar shall indicate on the voter registration application:

(a) That the person provided satisfactory evidence of citizenship,

(b) The type of evidence of citizenship provided, and

(c) The initials of the registrar or deputy registrar who made the verification.

(4) If an applicant fails to supply satisfactory evidence of citizenship with the application for registration, the board of registrars shall, within 10 days of receipt of the application, notify the applicant of the failure to present satisfactory evidence of United States citizenship as follows:

(a) The board of registrars shall send the notice by nonforwardable, first-class mail to the mailing address listed on the application and shall inform the applicant of the missing information and that the application will be rejected if satisfactory evidence of United States citizenship is not provided to the board of registrars within 30 days following the sending of the notice.

(b) If the applicant does not provide satisfactory evidence of United States citizenship to the board of registrars within 30 days of the sending of the notice, the board of registrars shall reject the application and shall immediately notify the applicant of the rejection in writing by nonforwardable, first-class mail at the mailing address listed on the application.

(c) If the initial application is received prior to the close of voter registration prior to a primary or election and the primary or election occurs within 30 days following the sending of the notice, the applicant may supply satisfactory evidence of United States citizenship on or prior to the date of the election. If the applicant supplies satisfactory evidence of United States citizenship and is found eligible to vote, the applicant shall be added to the list of electors and shall be permitted to vote in the election and any run-off elections resulting therefrom and subsequent elections.

(5) The board of registrars shall not determine the eligibility of an applicant unless and until satisfactory evidence of United States citizenship is supplied by the applicant.

(6) United States citizenship question on application for registration.

(a) Regardless of whether an applicant provides satisfactory evidence of United States citizenship, if such applicant fails to answer the question on the application for registration asking, “Are you a citizen of the United States of America?”, the registration shall be considered incomplete until the board of registrars obtains a completed application. The registrar shall return a copy of the application by letter sent by nonforwardable, first-class mail and request that the applicant complete the question by answering “Yes” or “No” to the question regarding United States citizenship. For the purpose of voter registration, an appropriate indicator includes marking a check mark in the box, placing “X” in the box, circling the box, shading the box, or any other method involving the “Yes” box that indicates the applicant is a citizen of the United States.

(b) If the citizenship box is marked “No”, the board of registrars shall reject the application and shall immediately notify the applicant of the rejection in writing by nonforwardable, first-class mail at the mailing address listed on the application.

BALLOTS**

**TABLE OF CONTENTS**

<b>183-1-11-.01</b>	<b>Ballot Secrecy</b>	<b>183-1-11-.02</b>	<b>Appearance of Candidate's Name on Ballot</b>
---------------------	-----------------------	---------------------	---

**183-1-11-.01 Ballot Secrecy.** Each Superintendent of Elections shall ensure that handicapped persons casting their vote at the polls are able to do so in private by providing such facilities and equipment as necessary to maintain the secrecy of the ballot.

Authority O.C.G.A. Secs. 21-2-218, 21-2-31. **History.** Original Rule entitled "Ballot Secrecy" adopted. F. Nov. 14, 1986; eff. Dec. 4, 1986.

**183-1-11-.02 Appearance of Candidate's Name on Ballot.**

(1) A candidate's name on the ballot shall include the candidate's last name shown on the candidate's voter registration records and at least on of: (1) the first name shown on the candidate's voter registration records or corresponding initial, (2) the middle name shown on the candidate's voter registration records or corresponding initial, (3) an abbreviated name by which the candidate is commonly know in the community, or (4) a nickname by which the candidate is commonly known in the community. Any nickname is subject to Section (2) of this rule

(2) A candidate's name may include a nickname by which the candidate is commonly known in the community but shall not contain any spurious phrases, title or degree designating the business, fraternal, religious, or professional affiliation of the candidate, or political slogan or message. A title or degree includes, but is not limited to, military or professional title or rank, or references such as "Dr.", "Rev.", "Judge", "Mr.", "Ms.", "Mrs.", or "Miss". A determination as to whether a nickname violates this Rule lies within the sound discretion of the Secretary of State or election superintendent, as appropriate.

(3) The total number of spaces, inclusive of letters, spaces, and

punctuation, which may be utilized on the ballot for a candidate's name and, if any, nickname, shall be twenty-five (25).

Notwithstanding the listing of the candidate's name on the filing papers, spaces, periods, quotation marks, and comma necessary for proper punctuation shall be added by the Secretary of State or the election superintendent, as appropriate. No candidate's name shall exceed twenty-five (25) spaces. The Secretary of State or the election superintendent, as appropriate, shall determine the correct listing for any candidate whose name exceeds twenty-five (25) spaces to conform to this requirement.

(4) A determination as to whether the candidate's requested name on the ballot complies with this Rule shall be within the discretion of the Secretary of State or election superintendent, as appropriate shall modify the candidate's name on the ballot so that it complies with this Rule.

(5) The total number of spaces, inclusive of letters, spaces, and punctuation, which may be utilized on the ballot for a candidate's name and, if any, nickname, shall be twenty-five (25). Notwithstanding the listing of the candidate's name on the filing papers, spaces, periods, quotation marks, and commas necessary for proper punctuation shall be added by the Secretary of State or the election superintendent, as appropriate. No candidate's name shall exceed twenty-five (25) spaces. The Secretary of State or the election superintendent, as appropriate, shall determine the correct listing for any candidate whose name exceeds twenty-five (25) spaces to conform to this requirement.

**183-1-12-.01 Conduct of Elections.** Beginning with the November 2002 General Election, all federal, state, and county general primaries and elections, special primaries and elections, and refer-endums in the State of Georgia shall be conducted at the polls through the use of direct recording electronic (DRE) voting units supplied by the Secretary of State or purchased by the counties with the authorization of the Secretary of State. In addition, absentee balloting shall be conducted through the use of optical scan ballots which shall be tabulated on optical scan vote tabulation systems furnished by the Secretary of State or purchased by the counties with the authorization of the Secretary of State; provided, however, that the use of direct recording electronic (DRE) voting units is authorized by the Secretary of State for persons desiring to vote by absentee ballot in person.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Voting Machines" adopted. F. July 24, 1968; eff. Aug. 12, 1968. **Repealed:** New Rule entitled "Conduct of Elections" adopted. F. Aug. 30, 2002; eff. Sept. 19, 2002. **Amended:** F. Oct. 24, 2003; eff. Nov. 13, 2003.

**183-1-12-.02 Direct Recording Electronic Voting Equipment.**

(1) Definitions. As used in this rule, the term:

(a) "Assist", "assisted", "assisting", or "assistance" means the act of marking a voter registration application, application for absentee ballot, or ballot on behalf of a voter who is unable to read the English language or has a disability which renders him or her unable to see or mark the voter registration application, application for absentee ballot, or ballot or operate the voting equipment, or to enter the voting compartment or booth unaccompanied, in the manner personally

requested and communicated by such voter. This definition will apply equally to Code Sections 21-2-322, 21-2-365, 21-2- 379.1, 21-2-384, 21-2-385, 21-2-385.1, 21-2-400, 21-2-402, 21-2-409, 21-2-409.1, 21-2-413, 21-2-456, 21-2-500, 21-2-568, 21-2-579, 21-2- 587, 21-2-590, 21-2-591, 21-2-592.

(b) “Ballot” shall mean the offices, candidates, and questions to be submitted to the voters at a primary, election, or runoff for each county or municipality.

(c) “Ballot Encoder Device” shall mean the electronic device by which the poll officers program the voter access card to authorize the voter to vote on the DRE units.

(d) “Ballot Style” shall mean the presentation of the offices, candidates, and questions to be submitted to the voters at a primary, election, or runoff on a DRE unit that contains only the offices and questions for the voters of specified districts within the precinct.

(e) “Counter” shall mean the registers on each DRE unit which increment by one each time a vote is cast on the unit. The “election counter” is the register which is reset for each election and records the number of ballots voted on a DRE unit in a particular election. The “system counter” is the register which cannot be reset and records the number of ballots voted on a DRE unit over the course of the life of the unit.

(f) “DRE unit” shall mean a direct recording electronic voting device which is a computer driven unit for casting and counting votes on which a voter casts his or her votes through the use of a touch screen or VWD device. The term shall include both state supplied devices and devices purchased by counties.

(g) “Early voting period” shall mean that period of time preceding a primary or election in which the board of registrars or absentee ballot clerk shall mail or issue official absentee ballots to all eligible applicants.

(h) “Enclosed space” shall mean that area within a polling place enclosed with a guardrail or barrier closing the inner portion of such area so that only such persons as are inside such guardrail or barrier can approach within six feet of the ballot box, voting compartments,

voting booths, or voting machines.

(i) “Memory Card” shall mean the electronic card (PCMCIA card) on which the ballot styles for a particular precinct are electronically stored and which is inserted into the direct recording electronic voting unit (DRE) to program the DRE unit for voting and on which vote totals are recorded for the DRE unit during the voting process.

(j) “Opening of the Polls” shall mean the commencement of voting in a particular primary, election, or runoff. Opening of the polls does not refer to the unlocking or opening of the doors of the polling place. Similarly, the term “Closing of the Polls” shall mean the cessation of voting in a particular primary, election, or runoff and not the locking or dosing of the doors of the polling place.

(k) “Supervisor’s Card” shall mean the electronic card to be used by the poll manager which is inserted into the DRE unit in order to configure the DRE unit for voting, to test the DRE unit, to terminate or suspend voting on the DRE unit, or to access other utility functions on the DRE unit.

(l) “Voter Access Card” shall mean the electronic card issued to a voter which is inserted into a DRE unit to authorize the voter to cast a ballot on the DRE unit.

(m) “VWD Device” is a device for use by illiterate and/or visually impaired voters in voting on a DRE unit and consists of an audio headset and a keypad by which the ballot can be provided to the voter aurally and the voter can cast his or her vote by use of the keypad.

(n) “Zero Tape” shall mean a tape printed out by the DRE unit which shows that all vote registers in the DRE unit for recording votes for candidates and questions are set to zero and that no votes are present on the unit.

## (2) Receipt, Maintenance, and Storage.

(a) Acceptance tests. Upon the receipt of each new direct recording electronic voting unit (DRE), the election superintendent of the county is responsible to ensure that an acceptance test is performed on the device in accordance with standards issued by the Secretary of State. No DRE unit shall be accepted by the county or placed into service

until such time as the unit satisfactorily passes the prescribed acceptance tests.

(b) Storage of DRE units.

1. The election superintendent of the county shall maintain the DRE units in accordance with the requirements of this rule, the directives of the Secretary of State, and the specifications and requirements of the manufacturer.

2. The DRE units shall be stored in a climate controlled space in which the temperature and humidity levels are maintained at acceptable levels year-round which shall not be lower than 5 degrees Celsius (41 degrees Fahrenheit) nor higher than 40 degrees Celsius (104 degrees Fahrenheit) and not lower than 35 percent relative humidity and not higher than 85 percent relative humidity such that no condensation forms on such units. The units shall not be stored in an area in which liquids or fluids stand, pool, or accumulate at any time or in areas that are subject to such standing, pooling, or accumulating liquids or fluids. The space in which the units are stored shall be secured and shall be accessible only to persons authorized by the election superintendent to have access to such units or such space. The DRE units may be stacked atop each other but no more than five units may be in a stack unless a rack system has been constructed for the storage of the units. The election superintendent shall ensure that the batteries in each unit are charged at least quarterly in accordance with the manufacturer's specifications.

3. The storage areas for DRE units shall be equipped with one or more of the following forms of electronic surveillance and protection: keypads or electronic locks, motion detectors, video surveillance, or a security system that is connected to an outside monitoring source, such as the police department or fire department. In lieu of providing electronic surveillance and protection, the DRE units may be interlocked through the use of a cable or chain that is secured by a padlock or other type of locking system.

4. The election superintendent shall maintain numbered seals on all DRE units in storage and all seal, numbers shall be recorded and on file in the office of the election superintendent.

5. Upon delivery to a polling place in preparation for a primary, election, or runoff, the DRE units shall be secured and protected from unauthorized access by storing the DRE units in a locked and secure room at the polling place, having the person taking possession of the units personally supervise the units at all times prior to the opening of the polls, or by interlocking the DRE units with a cable or chain that is secured by a padlock or other type of locking system.

6. The expenses for the implementation of the storage and security requirements of this rule shall be the responsibility of the county or municipal governing authority, as applicable, unless such security features are provided by the state.

(c) Software security. The software contained in each DRE unit, regardless of whether the unit is owned by the county or the state, and the software used to program the unit and to tabulate and consolidate election results shall not be modified, upgraded, or changed in any way without the specific approval of the Secretary of State. No other software shall be loaded onto or maintained “or used on computers on which the GEMS software is located except as specifically authorized by the Secretary of State.

(d) Maintenance of DRE units. After the end of the initial warranty period for state owned DRE units and computers for use in programming the DRE units and tabulating and consolidating the vote totals, the county shall be responsible for the maintenance and upkeep of such devices, including the repair and/or replacement of any devices which are destroyed, damaged, or otherwise rendered incapable of use in elections.

(e) Access to GEMS servers.

1. The room in which the GEMS server is located shall be locked at all times when the server is not directly under the supervision of the election superintendent or the election superintendent's designee. Lock and key access to the room where the GEMS server is located shall be limited to the county election superintendent; members of the county board of elections; the election supervisor, if any; personnel of the county election superintendent's office designated by the county election superintendent; building maintenance personnel; and emergency personnel. Building maintenance personnel shall have

access to the room in which the GEMS server is located only to the extent necessary to carry out their maintenance duties. The election superintendent shall maintain on file at all times in the office of the election superintendent a complete and up to date list of all maintenance personnel with access to the room in which the GEMS server is located. Emergency personnel shall have access to the room in which the GEMS server is located only as necessary in the event of an emergency and only for the duration of such emergency condition.

2. The GEMS server shall remain locked at all times when not in use. The key or keys to the GEMS server shall remain in the possession of the election superintendent or the designee of the election superintendent at all times.

(f) Security of DRE units and accessories. All DRE units, optical scanner devices, voter access cards, supervisor cards, memory cards, DRE unit keys, voting system software, and encoders shall be stored under lock and key at all times when not in use. Lock and key access to such items shall be limited to the county election superintendent; members of the county board of elections; the election supervisor, if any; personnel of the county election superintendent's office designated by the county election superintendent; building maintenance personnel; and emergency personnel. Building maintenance personnel shall have access to the area where such items are stored only to the extent necessary to carry out their maintenance duties. The election superintendent shall maintain on file at all times in the office of the election superintendent a complete and up to date list of all maintenance personnel with access to the area in which such items are stored. Emergency personnel shall have access to the area where such items are stored only as necessary in the event of an emergency and only for the duration of such emergency condition. Whenever maintenance or emergency personnel are required to enter the storage area, the election superintendent must be notified of that entry within 24 hours and the election superintendent must maintain a log of those persons who entered the storage area.

(g) Voting system handling requirements.

1. All personnel, with the exception of the permanent employees of the Office of the Secretary of State and permanent employees of the county or municipal election superintendent, who prepare voting

equipment for use in a primary, election, or runoff shall complete an oath of custodian before each election. One copy of the oath shall be placed on file in the office of the election superintendent and an additional copy shall be filed with the records for the election filed with the clerk of superior court or the municipal clerk, as appropriate. The oath of custodian shall be in the following form:

STATE OF GEORGIA  
COUNTY/MUNICIPALITY OF \_\_\_\_\_  
OATH OF CUSTODIANS AND DEPUTY CUSTODIANS  
OF DRE UNITS

I, \_\_\_\_\_, do swear (or affirm) that I will as a (deputy) custodian of the voting systems for the County/Municipality of \_\_\_\_\_, faithfully perform all of my duties in accordance with state law; that I will prepare in accordance with all applicable rules and regulations governing the use of the voting system all DRE units to be used in primaries, elections, and runoffs in this county/municipality; that I will use my best endeavors to prevent any fraud, deceit, or abuse in carrying out my duties while preparing the DRE units for use in primaries, elections, and runoffs; and that I am not disqualified by law to hold the position of (deputy) custodian.

\_\_\_\_\_  
(Deputy) Custodian

Administered by, sworn to,  
and subscribed before me,  
this \_\_\_\_\_ day of \_\_\_\_\_, 200\_\_\_\_.

\_\_\_\_\_  
Superintendent

(Required by O.C.G.A. Section 21-2-379.6(b))

2. All DRE units and accessories that are removed from storage for educational or training purposes must be signed in and out on an equipment log maintained by the election superintendent. The log shall contain, at a minimum, a description of the item being checked out, including any serial number or identifying number; the date and time when the item is checked out; the name of the person checking out the item; and the date and time when the item is returned to

storage. The items checked out of storage shall remain in the custody and control of the person checking out the items at all times and the person checking out the items shall personally return such items. Each person who utilizes equipment for educational or training purposes must be adequately trained in the use of the equipment prior to the release of the equipment into such person's custody.

3. The GEMS server shall not be moved or relocated for educational or training purposes. Should it become necessary to relocate the GEMS server or any of its components from one facility to another, the election superintendent shall notify the Secretary of State in writing of the reason for the relocation and the proposed new location. Under no circumstances shall the GEMS server or any of its components be relocated unless and until written authorization for the relocation is received from the Secretary of State except in the event of an emergency situation beyond the control of the election superintendent.

4. The poll manager shall sign a receipt for all supervisor cards, encoders, voter access cards, memory cards, and DRE unit keys assigned to such poll manager's precinct. Upon returning election supplies to the election superintendent's office following the close of the polls, the poll manager shall account for all such items and shall certify that all such items have been returned or shall describe any missing items and explain why such items have not been returned. The Secretary of State shall prepare and provide a chain of custody sheet for this purpose.

5. All supervisor cards, encoders, voter access cards, memory cards, DRE unit keys, and other equipment assigned to designated county election technicians shall be accounted for on the night of a primary, election, or runoff and shall be returned to storage. Each technician shall sign a receipt for all such items issued to such technician and, upon returning such items to the election superintendent's office following the close of the polls, the technician shall account for all such items and shall certify that all such items have been returned or shall describe any missing items and explain why such items have not been returned. The Secretary of State shall prepare and provide a chain of custody sheet for this purpose.

6. The election superintendent shall notify the Secretary of State of

any instances of unaccounted for DRE units, optical scanner devices, voter access cards, supervisor cards, memory cards, DRE unit keys, voting system software, and encoders at the completion of certification by delivering such notification to the Secretary of State when the certified election results are delivered to the Secretary of State.

(3) Preparation for Elections.

(a) Ballots.

1. The election superintendent shall cause the memory cards (PCMCIA cards) to be used in each precinct to be prepared in accordance with law and applicable rules and regulations.

2. Each memory card (PCMCIA card) shall be appropriately labeled with the name of the precinct for which it is programmed for use. The election superintendent shall ensure that each memory card (PCMCIA card) shall be programmed and tested to ensure that the proper ballot style or styles for the precinct for which it is programmed are included on the card and no other ballot styles.

3. Each ballot and ballot style shall be proofread by the election superintendent or a person or persons under the direction of the superintendent to ensure that the ballot contains the proper offices, candidates, and questions to be submitted to the voters, that the offices and names are spelled and designated correctly, that political party or body affiliations and incumbency of candidates are correctly designated where applicable, and that the questions are presented in accordance with law and this rule and that the correct offices and questions are presented on each ballot style.

4. For each office on the ballot, the ballot shall state the name of the office; the post, position, or person presently holding the office if necessary to identify the specific office subject to election; the number of candidates for which the voter may vote for such office; the names of the candidates; the residence address of the candidates if there has been a determination that the names are sufficiently similar to so require such information under O.C.G.A. § 21-2-379.5; in partisan elections, the name of the political party or body that nominated the candidate or a designation of the candidate as an independent candidate; and the designation of the incumbency of a candidate seeking reelection to the office which the candidate then holds.

5. The offices, candidates, and questions shall be listed on the ballot in the order specified in O.C.G.A. §§ 21-2-379.4 and 21-2-379.5.

6. The ballot shall be displayed in the following fonts:

(i) The words “Official Ballot” shall be displayed in 16 point Arial Bold.

(ii) All text beneath the words “Official Ballot” which designate the county or municipality conducting the election, precinct, type of election, and date of the election shall be displayed in 12 point Arial Bold.

(iii) The words “I understand that the offer or acceptance of money or any other object of value to vote for any particular candidate, list of candidates, issue, or list of issues included in this election constitutes an act of voter fraud and is a felony under Georgia law.” shall be displayed in 8 point Arial Narrow Italicized.

(iv) The name of the office shall be displayed in 12 point Arial Bold.

(v) Information on the designation of the office (“To succeed \_\_\_\_\_”) and the number of candidates for which an elector may vote for each office shall be displayed in 10 point Arial.

(vi) The names of candidates shall be displayed in 10 point Arial Narrow Bold in all capital letters.

(vii) Incumbency designations shall be displayed in 8 point Arial Narrow Bold.

(viii) Political party or body and independent designations shall be displayed in 9 point Arial Narrow.

(ix) The text of questions to be submitted to the electors shall be displayed in 10 point Arial Narrow Bold.

(x) The choices for voting on a question (i.e., “YES” and “NO”) shall be displayed in 10 point Arial Narrow Bold.

7. The ballot shall be displayed in the following colors:

(i) All text, designations, and names shall be displayed in black letters.

(ii) The background colors shall be as follows:

(I) The overall page shall be blue (Hue: 180, Sat: 240, Lum: 60, Red: 64, Green: 0, Blue: 128).

(II) The general election header shall be yellow (Hue: 40, Sat: 240, Lum: 120, Red: 255, Green: 255, Blue: 0).

(III) The Democratic Party Primary header shall be white (Hue: 160, Sat: 0, Lum: 240, Red: 255, Green: 255, Blue: 255).

(IV) The Republican Party Primary header shall be light blue (Hue: 120, Sat: 240, Lum: 120, Red: 0, Green: 255, Blue: 255).

(V) The nonpartisan election header shall be light green (Hue: 60, Sat: 240, Lum: 120, Red: 128, Green: 255, Blue: 0).

(VI) The box containing the contest or question to be voted upon shall be burnt orange (Hue: 20, Sat: 240, Lum: 120, Red: 255, Green: 128, Blue: 0).

(VII) The box containing the names of the candidates or the answers or responses to a referendum question for which an elector may vote shall be white (Hue: 160, Sat: 0, Lum: 240, Red: 255, Green: 255, Blue: 255).

8. In addition to the displayed ballot, the election superintendent shall cause an audio ballot to be prepared for use with the VWD devices. The superintendent shall ensure that all matters are recorded correctly and that the names of the candidates are pronounced correctly in the audio recordings. The election superintendent shall also ensure that no candidate's name; political party, political body, or independent designation; incumbency; or other such information nor any referendum question or answer or response thereto is emphasized, stressed, or otherwise inflected in any manner to distinguish a particular candidate, party or body, question, answer or response to a referendum question either negatively or positively or to suggest whether to vote for or against such candidates or questions in such

audio recordings. The election superintendent shall also ensure that the audio recordings are presented at a rate not to exceed 130 words per minute or 2.2 words per second on average and at a volume which shall not be less than 75 decibels nor more than 85 decibels.

(b) Setup and Testing.

1. Primaries and Elections.

(i) On or before the third day preceding a primary or election, including special primaries, special elections, and referendum elections, the election superintendent shall commence the preparation and testing of the DRE units for use on Election Day. On or before the third day preceding the early voting period, the election superintendent shall commence the preparation and testing of the DRE units for use during the early voting period. At least five days prior to the commencement of such preparation and testing, the election superintendent shall publish a notice in the legal organ of the county stating the date, time, and place or places where preparation and testing of the DRE units for use in the primary or election will commence and stating that such preparation shall continue from day to day until such preparation is complete and that such preparation and testing shall be open to the public and that members of the public are entitled to be present during the preparation and testing of the DRE units. The election superintendent shall cause such preparation and testing to begin on such date and time and at such place or places. Such preparation and testing shall be open to members of the public to observe; however, such members of the public shall not in any manner interfere with the preparation and testing of the DRE units. Any person found to be interfering with the preparation and testing process may be asked to leave the testing process and may be cited for interfering with an election official while in performance of election duties. Any questions and/or complaints from the general public regarding the preparation and testing process must be directed to the election superintendent and not to the individual personnel conducting the preparation and testing process. The election superintendent may make such reasonable rules and regulations concerning the conduct of such members of the public observing such preparation and testing as the election superintendent deems necessary and appropriate; provided, however, that such rules and regulations shall not prevent members of the public from fairly observing the preparation and testing of the DRE units.

In addition to any reasonable rules and regulations, that the election superintendent may create for the public to observe the preparation and testing process, the election superintendent or designee thereof, shall:

During the first day of preparation and testing, at the beginning of the day or for the first hour of public observation be available to explain the preparation and testing process and to respond to questions and provide answers regarding the purpose and the process of preparation and testing;

(b) maintain a presence at all times during the preparation and testing process if an outside source is conducting the preparation and testing process;

(c) administer an oath of custodian prior to beginning the preparation and testing process to any county personnel (except permanent state, county, or municipal election staff) appointed by the election superintendent to conduct the preparation and testing process;

(d) establish an area reasonable in proximity for the public to observe the preparation and testing process. Such area shall provide reasonable accommodations for the public insofar as space permits, but shall not be so established as to deny the general public the opportunity to view the process; however the area should not be of such a nature so as to allow the preparation and testing process to be interfered with by the general public;

(e) allow only election office personnel or individuals assigned to conduct the preparation and testing to enter the testing area during the preparation and testing process;

(a) prohibit any preparation and testing reports created for recording the seal numbers and/or serial numbers of the DRE unit from being photocopied for public disclosure;

(g) prohibit the security seals and serial numbers of the DRE units from being photographed or copied for public disclosure;

(h) prohibit photographic and audio equipment, of any kind, including cell phone cameras from being used to record the serial numbers of the DRE units or to record the security seal numbers used

to secure the DRE units, provided that this rule shall not prohibit the news media from reporting on the preparation and testing process, so long as seal numbers and serial numbers on the DRE units are not recorded or displayed in any manner;

(ii) During the public preparation and testing of the DRE units to be used in a particular primary or election, the election superintendent shall cause each DRE unit to be programmed with the memory card (PCMCIA card) for the precinct at which the DRE unit will be used. After placing the memory card (PCMCIA card) in the DRE unit, the DRE unit shall have such internal diagnostic tests performed as shall be directed by the Secretary of State or the election superintendent. Following the completion of the diagnostic tests, the DRE unit shall have an internal logic and accuracy test performed using the memory card (PCMCIA card) for the primary or election for which the unit is being prepared. If the DRE unit fails any of the diagnostic or logic and accuracy tests, the unit shall not be used in a primary or election until such unit is repaired and inspected and found capable of proper functioning and passes the diagnostic and logic and accuracy tests. Upon the successful completion of the logic and accuracy test, the DRE unit shall be cleared of any accumulated vote totals for the primary or election and a zero tape run to verify that the vote registers in the unit are set at zero. After verifying that the vote registers are set at zero, the tape shall be attached to the custodian's certification form to document the logic and accuracy testing and the unit shall be configured for voting. The unit shall then be securely closed in its case and a numbered seal placed on its case such that the case may not be opened until and unless the seal is broken.

(iii) The election superintendent or the custodian responsible for preparing the DRE units, if one has been appointed by the election superintendent in accordance with O.C.G.A. § 21-2-379.6(b), shall make a certification stating for each DRE unit the serial number of the DRE unit, the number on the system counter of the DRE unit, the number on the seal with which the DRE unit is sealed, and that the election counter and each vote register on the unit was set at zero. The case shall be appropriately labeled with the name of the precinct in which the unit is to be used and the serial number of the DRE unit. The custodian's certification shall be retained with the records for such primary runoff or election runoff and shall be stored with such

records with the clerk of superior court or municipal clerk, as appropriate, for the same period of time as required by law for other election records.

(iv) After being prepared for voting, each DRE unit shall be safely and securely stored until such time as the unit is transported to the precinct in which such unit is to be used.

## 2. Primary Runoffs and Election Runoffs.

(i) On or before the third day preceding a primary runoff or election runoff, including special primary runoffs and special election runoffs, the election superintendent shall commence the preparation and testing of the DRE units for use in the primary runoff or election runoff. At least 24 hours prior to the commencement of such preparation and testing, the election superintendent shall publish a notice in the legal organ of the county stating the date, time, and place or places where preparation and testing of the DRE units for use in the runoff will commence and stating that such preparation shall continue from day to day until such preparation is complete and that such preparation and testing shall be open to the public and that members of the public are entitled to be present during the preparation and testing of the DRE units. The election superintendent shall cause such preparation and testing to begin on such date and time and at such place or places. Such preparation and testing shall be open to members of the public to observe; however, such members of the public shall not in any manner interfere with the preparation and testing of the DRE units. Any person found to be interfering with the preparation and testing process may be asked to leave the preparation and testing process and may be cited for interfering with an election official while in performance of election duties. Any questions and/or complaints from the general public regarding the preparation and testing process must be directed to the election superintendent and not to the individual personnel conducting the preparation and testing process. The election superintendent may make such reasonable rules and regulations concerning the conduct of such members of the public observing such preparation and testing as the election superintendent deems necessary and appropriate; provided, however, that such rules and regulations shall not prevent members of the public from fairly observing the preparation and testing of the DRE units.

In addition to any reasonable rules and regulations that the election superintendent may create for the public to observe the preparation and testing process, the election superintendent or designee thereof, shall:

During the first day of preparation and testing, at the beginning of the day or for the first hour of public observation be available to explain the preparation and testing process and to respond to questions and provide answers regarding the purpose and the process of preparation and testing;

(b) maintain a presence at all times during the preparation and testing process if an outside source is conducting the preparation and testing process;

(c) administer an oath of custodian prior to beginning the preparation and testing process to any county personnel (except permanent state, county, or municipal election staff) appointed by the election superintendent to conduct the preparation and testing process;

(d) establish an area reasonable in proximity for the public to observe the preparation and testing process. Such area shall provide reasonable accommodations for the public insofar as space permits, but shall not be so established as to deny the general public the opportunity to view the process; however the area should not be of such a nature so as to allow the preparation and testing process to be interfered with by the general public;

(e) allow only election office personnel or individuals assigned to conduct the preparation and testing to enter the preparation and testing area during the preparation and testing process;

(f) prohibit any preparation and testing reports created for recording the seal numbers and/or serial numbers of the DRE units from being photocopied for public disclosure;

(g) prohibit the security seals and serial numbers from being photographed or copied for public disclosure;

(h) prohibit photographic and audio equipment, of any kind, including cell phone cameras from being used to record the serial

numbers of the DRE units or to record the security seal numbers used to secure the DRE units, provided that this rule shall not prohibit the news media from reporting on the preparation and testing process, so long as seal numbers and serial numbers on the voting units are not recorded or displayed in any manner;

(ii) During the public preparation and testing of the DRE units to be used in a particular primary runoff or election runoff, the election superintendent shall cause each DRE unit to be programmed with the memory card (PCMCIA card) for the precinct at which the DRE unit will be used. After placing the memory card (PCMCIA card) in the DRE unit, the DRE unit shall have such internal diagnostic tests performed as shall be directed by the Secretary of State and the election superintendent. Following the completion of the diagnostic tests, the superintendent shall cause a number of random DRE units as provided by law to undergo an internal logic and accuracy test using the memory card (PCMCIA card) for the primary runoff or election runoff for which the unit is being prepared. If a DRE unit fails any of the diagnostic or logic and accuracy tests, the unit shall not be used in any primary, election, or runoff until such unit is repaired and inspected and found capable of proper functioning and passes the diagnostic and logic and accuracy tests. Upon the successful completion of the logic and accuracy test, the DRE unit shall be cleared of any accumulated test vote totals for the primary runoff or election runoff and a zero tape run to verify that the vote registers in the unit are set at zero. After verifying that the vote registers are set at zero, the tape shall be attached to the custodian's certification form to document the logic and accuracy testing and the unit shall be configured for voting. The unit shall then be securely closed in its case and a numbered seal placed on its case such that the case may not be opened until and unless the seal is broken. The custodian's certification shall be retained with the records for such primary runoff or election runoff and shall be stored with such records with the clerk of superior court or municipal clerk, as appropriate, for the same period of time as required by law for other election records.

(iii) All memory cards to be used in the runoff shall be tested.

(iv) The election superintendent or the custodian responsible for preparing the DRE units, if one has been appointed by the election superintendent in accordance with O.C.G.A. § 21-2-379.6(b), shall

make a certification stating for each DRE unit the serial number of the DRE unit, the number on the system counter of the DRE unit, the number on the seal with which the DRE unit is sealed, and that the election counter and each vote register on the unit was set at zero. The case shall be appropriately labeled with the name of the precinct in which the unit is to be used and the serial number of the DRE unit.

(v) After being prepared for voting, each sealed DRE unit shall be safely and securely stored until such time as the unit is transported to the precinct in which such unit is to be used.

(c) Transport to Polls.

1. The election superintendent shall take all necessary measures to ensure that the DRE units are safely and securely transported to the polling places.

2. The election superintendent shall cause the DRE units for each precinct to be delivered to the polling place for the precinct at least one hour before the time for the opening of the polls.

3. If the DRE units are stored at a polling place after being configured for voting and sealed, the election superintendent shall ensure that the units are stored in a secure area with appropriate climate control.

4. The election superintendent shall deliver the supervisor's card, a sufficient quantity of voter access cards, and the key to the DRE units to the chief manager not later than one hour before the time set for the opening of the polls and shall obtain a receipt for the cards and key. The supervisor's card shall be sealed in an envelope and shall not be opened until the polls are closed unless all of the ballot encoding devices at the precinct fail and it is necessary to use the supervisor's card to configure a DRE unit to encode the voter access cards at the precinct. In such cases, the use of the supervisor's card before the close of the polls shall be documented in the records for the election at that precinct. In addition, the superintendent shall deliver on the appropriate form a listing containing the serial number of each DRE unit, and the number of the seal placed on each such unit.

(d) Before the Opening of the Polls.

1. The poll officers shall set up the DRE units for voting prior to the opening of the polls. The set up shall be performed in public and the public may view the set up subject to such reasonable rules and regulations as the election superintendent may deem appropriate to protect the security of the DRE units and to prevent interference with the duties of the poll officers.

2. The poll officers shall verify that the seal for each unit is intact and that there is no evidence or indication of any tampering with the seal or the unit. The poll officers shall verify that the number of the seal matches the number of the seal recorded for that unit when such unit was prepared by the election superintendent for the primary, election, or runoff. If a seal number does not match or if there is any evidence or indication of tampering with the seal or unit, the election superintendent shall be immediately notified and such unit shall not be used until such matters are resolved by agreement of the election superintendent and the poll manager.

3. Each DRE unit shall be set up and its power turned on and the privacy screens for the unit erected and its screen lifted into place.

4. The poll manager shall run a zero tape on each DRE unit prior to the opening of the polls. The poll manager, along with the other assistant managers, shall, without removing the tape from the unit, verify that all vote registers shown on the zero tape are set to zero and that there are no votes showing on the unit and shall sign the tape in the space provided. If the zero tape does not show that all vote registers are set to zero and that there are votes on the unit, the election superintendent shall be immediately notified and such unit shall not be used until the unit is cleared and the matter is resolved by agreement of the election superintendent and the poll manager.

5. After verifying and signing the zero tape, the poll manager shall securely lock the tape compartment leaving the zero tape in place on the unit and shall configure the unit for voting. The poll manager shall verify that the election counter on each DRE unit is set at zero. If the election counter is not set to zero, the election superintendent shall be immediately notified and such unit shall not be used until the election counter is set to zero and the matter is

resolved by agreement of the election superintendent and the poll manager.

6. The poll officers shall verify that there is no unauthorized matter affixed to the DRE units or present in the cases or voting booths.

7. The poll officers shall affix a card of instructions for voting within each voting booth and shall place at least two printed sample ballots and at least two voting instructions posters approved or provided by the Secretary of State outside the enclosed space at the polling place for the information of the voters. Prior to voters entering the enclosed space, the poll officers may also distribute to such voters a card of instructions for voting on the DRE unit that has been approved or provided by the Secretary of State.

#### (4) Conducting Elections.

(a) As each voter presents himself or herself at the polling place for the purpose of voting during the time during which the polls are open for voting, each voter shall be offered instruction by a poll officer in the method of voting on the DRE units. In providing such instruction, the poll officers shall not in any manner request, suggest, or seek to persuade or induce any voter to vote any particular ticket or for any particular candidate or for or against any particular question.

(b) When a person presents himself or herself at the polling place for the purpose of voting during the time during which the polls are open for voting, the person shall complete a voter's certificate and submit it to the poll officers. The poll officers shall then verify the identity of the person and that the person is a registered voter of the precinct and, if so, shall approve the voter's certificate and enter an appropriate designation on the electors list for the precinct reflecting that the voter has voted in the primary, election, or runoff being conducted. The voter's name shall then be entered on the appropriate numbered list of voters. The poll manager or the poll officer who has been designated by the poll manager to issue voter access cards shall then use the ballot encoder device to encode and issue the voter an appropriate voter access card authorizing the voter to vote the correct ballot style in the DRE units at the polling place. Upon a DRE unit being available, the voter shall then enter the enclosed space in the

polling place and insert the voter access card into an available DRE unit and proceed to vote his or her choices. Upon completion of voting, the voter shall press the “cast ballot” button, remove the voter access card from the DRE unit, and return the card to a poll officer.

Then the voter shall exit the enclosed area of the polling place.

(c) At least once each hour during the time while the polls are open, the poll officers shall examine the face of each DRE unit and each voting booth to verify and ensure that no unauthorized matter has been affixed to the unit or placed in the voting booth and that the unit has not been tampered with in any manner.

(d) The polling place shall be so arranged in such a manner as to ensure the privacy of the elector while voting on a DRE unit, to allow monitoring of each DRE unit by the poll officers while the polls are open, and to permit the public to observe the voting without affecting the privacy of the electors as they vote. In addition, at least one DRE unit shall be configured for voting by physically disabled voters in wheelchairs and provisions shall be made to ensure the privacy of such electors while voting.

(e) It shall be permissible under O.C.G.A. § 21-2-410 and shall not constitute assistance in voting under O.C.G.A. § 21-2-409 for poll officers to assist a voter in inserting the voter card in the DRE unit and in explaining the operation of the unit to the voter; provided that the poll officer withdraws from the voting booth prior to the voter pressing the “start” button or beginning voting. The poll officers shall not in any manner request, suggest, or seek to persuade or induce any voter to vote any particular ticket or for any particular candidate or for or against any particular question.

(f) Voters utilizing a VWD device to vote on the DRE units without the assistance of any other individual shall not be considered as receiving assistance in voting and shall not be required to complete the forms required for receiving assistance in voting pursuant to O.C.G.A. § 21-2-409.

(g) The poll officers shall ensure that voters return the voter access cards to the poll officials prior to leaving the enclosed space in the polling place. The poll officers shall arrange and configure the polling

place and provide staffing at such places at the polling place to ensure that a voter will not leave the polling place with a voter access card.

(h) If a voter leaves a DRE unit prior to completing the process of voting and exits the polling place and does not return to the unit to complete the voting process, the poll officers shall cancel or void the vote on the DRE unit without attempting in any manner to see how the voter voted and shall make a notation of the incident in the election records for the precinct.

(i) A voter may request information from the poll officers concerning how to vote on the DRE unit at any time during the voting process; provided, however, that the poll officers shall not observe or view the voter's ballot on the DRE unit or make any attempt to see how the voter has voted. However, once the voter casts his or her ballot, even if the ballot is blank with no votes cast, such voter shall be deemed to have voted and may not thereafter vote again in the same primary, election, or runoff on that election day.

(j) If a voter discovers that the ballot presented on the DRE unit is not correct or is not the ballot that the voter desired to vote, the voter shall immediately notify a poll officer. The poll officer shall cancel or void the ballot on the DRE unit without attempting in any manner to see how the voter has voted and shall then take the necessary steps to provide the voter with the correct ballot by encoding and issuing a new voter access card to the voter and making any necessary corrections to the voter's certificate of the voter, the electors list, and the numbered list of voters. If the voter presses the "cast ballot" button prior to notifying the poll officials of the error in the ballot, the voter shall be deemed to have voted and shall not be permitted to cast another ballot in the same primary, election, or runoff on that election day.

(k) If a DRE unit malfunctions during the day of a primary, election, or runoff, the poll manager shall immediately notify the election superintendent and shall not allow any voter to use the unit until and unless the malfunction is corrected. The election superintendent shall immediately arrange for the repair of the DRE unit or shall provide a replacement DRE unit as soon as practicable to replace the malfunctioning unit. A replacement DRE unit shall not be used as a replacement unit unless it has been appropriately tested prior to its use.

(5) Tabulating Results.

(a) After the Polls Close.

1. Immediately after the polls close and the last voter has voted, the poll manager shall open the envelope containing the supervisor's card and use the supervisor's card to close each of the DRE units in the precinct against further voting.

2. The poll officers shall then compare the total number of persons voting as shown by the number of voters certificates, the number of persons marked on the electors list, the number of voters on the numbered list of voters, and the number of persons shown as voting on the election counters of the DRE units. If these numbers do not equal one another, the poll officers shall determine the reason for the inconsistency; correct the inconsistency, if possible; and fully document the inconsistency or problem along with any corrective measures taken before going further.

3. After completing the comparison of the total number of persons voting as shown by the electors list, the voter's certificates, the numbered list of voters, and the election counters of the DRE units, the poll manager shall cause each DRE unit to print a minimum of two tapes showing the vote totals as cast on that DRE unit. The poll manager and at least one assistant manager shall also compare the number of ballots voted as shown on the tape with the number of ballots voted as shown on the election counter of the DRE unit. If these numbers are not identical, the poll manager shall document the discrepancy. The poll manager and the assistant managers shall sign each of the tapes or shall write on the tapes the reason why the poll manager or the assistant managers will not sign the tapes.

4. If directed by the election superintendent, the poll manager shall designate one of the DRE units as the accumulator unit to accumulate the votes for the precinct. After printing all of the tapes for the individual DRE units, the poll manager shall accumulate the totals for the accumulator DRE unit and remove the memory card (PCMCIA card) from the accumulator DRE unit. The poll manager shall then collect and retain the two signed tapes (one of which shall include the zero tape) with the memory card (PCMCIA card) from each

DRE unit and shall place the memory card (PCMCIA card) in the appropriate envelope provided by the election superintendent. The poll manager shall then begin removing the memory cards (PCMCIA cards) from the remaining DRE units one by one and inserting the memory cards (PCMCIA cards) into the accumulator DRE unit and accumulating the vote totals from the other DRE units into the accumulator DRE unit. Upon the vote totals for each memory card (PCMCIA card) being entered into the accumulator DRE unit, the memory card (PCMCIA card) shall be removed from the accumulator DRE unit and two signed tapes (one of which shall contain the zero tape) shall be collected and retained with the card. Each memory card (PCMCIA card) shall then be placed into the appropriate envelope provided by the election superintendent. After the results from the last memory card (PCMCIA card) are entered into the accumulator DRE unit and the last memory card (PCMCIA card) has been placed in the envelope, the envelope containing the memory cards (PCMCIA cards) and tapes shall be sealed and secured by the poll manager and at least one assistant manager in an envelope container provided by the election superintendent which shall be sealed and initialed by the poll manager and the two assistant managers such that the envelope cannot be opened without breaking such seal.

5. After all of the results have been entered into the accumulator DRE unit, the poll manager shall cause a minimum of three tapes to be printed out by the DRE unit showing the total votes cast for the precinct. The poll manager and the assistant managers shall sign each of the tapes or shall write on the tapes the reason why the poll manager or the assistant managers will not sign the tapes. One tape shall be posted on the door of the polling place for the information of the public along with a copy of the provisional ballot recap sheet for the precinct. The other tapes shall be placed into the envelope provided by the election superintendent for that purpose and sealed and initialed by the poll manager and at least one assistant manager.

6. If the election superintendent does not direct that the results of the precinct be accumulated, then the poll manager shall cause each DRE unit to print an additional results tape which shall be verified and signed in the same manner as provided in paragraph 3 of this subparagraph. Such additional results tape for each DRE unit shall be posted on the door of the polling place for the information of the public along with a copy of the provisional ballot recap sheet for the

precinct. The memory card (PCMCIA card) and two signed tapes from each DRE unit shall be placed in the appropriate envelope supplied by the election superintendent which shall be sealed and initialed by the poll manager and at least one assistant manager such that the envelope cannot be opened without breaking such seal.

7. After completing the printing of the results, the DRE units shall be turned off and secured in their cases and resealed, The number of each seal shall be entered on the appropriate form along with the serial number of the DRE unit case in which it is inserted. The DRE units shall then be placed in a secure area with appropriate climate control.

8. The memory cards (PCMCIA cards), results tapes, voter access cards, supervisor's card, ballot encoder devices, electors lists, numbered lists of voters, voter certificates, recap sheets, and other such paperwork shall be transported to the office of the election superintendent by the poll manager and at least one other poll officer. The election superintendent or his or her designee shall receive the materials and shall issue a receipt to the poll manager for the materials.

(b) Electronic Transmission of Precinct Results to Central Office.

1. After accumulating all of the vote totals for the precinct, if directed to do so by the election superintendent, the poll manager shall connect the accumulator DRE unit to an analog telephone line and electronically transmit the accumulated vote totals for the precinct to the central office. The DRE unit shall not be connected to a telephone line during the time while the polls are open.

2. Vote totals reported electronically from the precinct to the central office shall be unofficial and shall not be used in preparing the official returns for the primary, election, or runoff.

(c) Consolidation of Results.

1. All persons involved with the tabulation and consolidation of the election results and who will operate the computer programs or handle the memory cards (PCMCIA cards) shall be sworn before entering into their duties.

2. No persons except those persons who are employed by the election superintendent and who have been duly sworn shall perform any duties in connection with the tabulation or consolidation of election results. No persons who are not employed by the election superintendent and have been duly sworn shall touch or be in contact with any container, returns, tapes, device, memory card (PCMCIA card), or any other such election materials. Only persons who are employed by the election superintendent and have been duly sworn shall be in the immediate area of the tabulating center designated by the superintendent for the officers to conduct the tabulation and consolidation of the election results.

3. The tabulation and consolidation shall be performed in public. However, the election superintendent may make reasonable rules and regulations for conduct at the tabulating center to ensure the security of the results and the returns and to avoid interference with the tabulating center personnel.

4. Upon the delivery of the memory cards (PCMCIA cards) from each precinct, the election superintendent or his or her designee shall provide a receipt to the poll manager for the memory cards (PCMCIA cards) and precinct election materials.

5. Upon receiving the memory cards (PCMCIA cards), the election superintendent shall verify the signatures on the sealed envelopes and verify that the seals are intact, that the envelopes have not been opened, and that there is no evidence of tampering with the envelopes or their contents.

6. In the case of elections for county, state, and federal office, after verifying that the envelopes are properly sealed and have not been opened or tampered with, the election superintendent shall break the seal and open each envelope and remove the memory card (PCMCIA card) and results tapes. The election superintendent or his or her designee shall then insert the memory card (PCMCIA card) into the election management system computer and transfer the vote totals from the memory card (PCMCIA card) into the election management system for official tabulation and consolidation.

7. After transferring all of the vote totals from the memory cards (PCMCIA cards) to the election management system and

consolidating such totals with the totals from the absentee ballot system and such votes from any provisional ballots which have been found by the registrars to be authorized pursuant to O.C.G.A. § 21-2-419, the election superintendent shall prepare the official consolidated re-turns for the primary, election, or runoff.

8. The election superintendent shall not list and certify in the official consolidated returns for an election any results for write in candidates who were not properly qualified under O.C.G.A. § 21-2-133.

9. In the case of primaries, elections, and runoffs for county, state, and federal office, the county election superintendent shall transmit to the Secretary of State the election returns by precinct for the county in electronic format or by electronic means, as may be specified by the Secretary of State, within seven days following a primary, election, or runoff.

(d) Electronic Transmission of Precinct Results to Central Office. The election superintendent shall transmit to the Secretary of State unofficial election results for all races for state offices in any primary, election, or runoff as soon as possible after the closing of the polls, for such primary, election, or runoff. Such results shall be transmitted in a format prescribed by the Secretary of State. At a minimum, the results shall be transmitted upon one third of the precincts reporting results, upon two thirds of the precincts reporting results, and upon all precincts reporting results, including absentee ballots within all precincts. Except upon notice to and consultation with the Secretary of State, no election superintendent shall conclude the tabulation of votes on election night in any primary, election, or runoff in which there are contested races for federal and state offices until and unless all such unofficial results, including absentee ballots, have been transmitted to the Secretary of State.

#### (6) Storage of Returns.

(a) After tabulating and consolidating the results, the election superintendent shall prepare a CD-ROM which shall contain a copy of the information contained on each memory card (PCMCIA card) which shall include all ballot images as well as vote totals and a copy of the consolidated returns from the election management system.

(b) The CD-ROM shall be placed in a sealed envelope and shall become a part of the election materials which shall be deposited with the clerk of superior court or the municipal clerk, as appropriate, in accordance with O.C.G.A. § 21-2-500. In addition, the signed results tape from each DRE unit containing the signed zero tape shall also be deposited with the clerk of superior court.

(c) The memory cards (PCMCIA cards) shall be sealed in an appropriate container and securely maintained by the election superintendent until the period for requesting a recount of the primary, election, or run off results has expired. The election superintendent and at least one other sworn individual in the tabulating center shall seal the container and sign the seal such that the container cannot be opened without destroying or damaging the seal. Upon the expiration of the period for requesting a recount, the election superintendent may use the memory cards (PCMCIA cards) for programming DRE units for the next primary, election, or runoff.

(d) The election results, ballot styles, ballot images, and other information for each election stored in the internal memory storage of each DRE unit shall be maintained for a minimum of one month following each election after which time the results may be erased provided that there are no election contests pending concerning such election.

#### (7) Recounts and Recanvass.

(a) The election superintendent shall, either of his or her own motion, or upon petition of any candidate or political party or three electors of the county or municipality, as may be the case, order a recanvass of all the memory cards (PCMCIA cards) for a particular precinct or precincts for one or more offices in which it shall appear that a discrepancy or error, although not apparent on the face of the returns, has been made. Such recanvass may be held at any time prior to the certification of the consolidated returns by the election superintendent and shall be conducted under the direction of the election superintendent. Before making such recanvass, the election superintendent shall give notice in writing to each candidate and to the county chairperson of each party or body affected by the recanvass. Each such candidate may be present in person or by representative and each such political party or body may send two

representatives to be present at such recanvass. If upon such recanvass, it shall appear that the original vote count was incorrect, such returns and all papers being prepared by the election superintendent shall be corrected accordingly.

(b) The election superintendent shall conduct the recanvass by breaking the seal, if the ballots cards have been sealed, on the container containing the memory cards (PCMCIA cards) and removing those memory cards (PCMCIA cards) for the precinct or precincts for which the recanvass is being conducted. The election superintendent shall then cause the vote totals on each of the memory cards (PCMCIA cards) to be transferred to either an accumulator DRE unit or to the election management system computer. After all of the vote totals from the memory cards (PCMCIA cards) for the precinct or precincts for which the recanvass is being conducted have been entered, the election superintendent shall cause a printout to be made of the results and shall compare the results to the results previously obtained. If an error is found, the election superintendent shall correct the error in the returns accordingly.

(c) Recounts pursuant to O.C.G.A. § 21-2-495(c) shall be conducted in the same manner as other recounts under these rules.

#### (8) Maintenance of Equipment.

(a) Each county shall be responsible for maintaining the DRE units, computers, and software provided to such county by the Secretary of State or purchased by such county and shall either purchase a maintenance agreement for such equipment and software or shall self insure such equipment and software.

(b) In the event of any malfunction or problem with DRE units, the county election superintendent shall document the problem and its resolution and shall provide such information to the Secretary of State. The documentation shall include a detailed description of the malfunction or problem, the steps taken to correct the malfunction or problem, and the cause of such malfunction or problem if a cause can be determined.

(9) Use of Equipment by Municipalities. The county election superintendent is authorized to permit any municipality within the county to conduct its election with the DRE equipment through a written intergovernmental agreement between the county and the municipality; provided that the municipality agrees to maintain and operate the equipment in accordance with law, these rules and regulations, and the manufacturer's guidelines and specifications and provided further that the municipality trains all of its election personnel and poll workers in the proper operation and conduct of elections utilizing such equipment through a training program conducted by or approved by the Secretary of State.

(10) Sample Ballots. DRE units that are used for demonstration and education purposes shall not utilize or be programmed with the official ballot to be used in the primary or election for demonstrational or educational purposes. The units shall utilize or be programmed with a ballot containing the names of fictitious or historical persons whose names do not appear on the official ballot for such primary or election.

### **183-1-12-.06 Provisional Ballots.**

(1) This rule shall govern the casting of provisional ballots by voters at primaries and elections in accordance with O.C.G.A. §§21-2-418 and 21-2-419.

(2) In each polling place, there shall be established a location or station in the public area of the polling place for the purpose of issuing and receiving provisional ballots.

(3) The election superintendent shall provide each polling place with an adequate supply of provisional ballots in each ballot style (district combination) for the precinct and an inner ballot envelope and an outer ballot envelope. The ballot envelopes shall be so designed that the ballot will fit within the inner ballot envelope and the inner ballot envelope will fit within the outer ballot envelope. The inner ballot envelope shall have printed on it the words "Official Provisional Ballot" and nothing else. The outer envelope shall have places for inserting the person's name, precinct, date and name of election, ballot style (district combination), and whether such ballot is a regular provisional ballot, a provisional ballot cast by a voter who registered to vote for the first time in this state by mail and has not provided the identification required by O.C.G.A. §§21-2-220 and 21-2-417, or a ballot cast during poll hours extended by a court order, or a combination thereof. Primaries and elections conducted by counties shall use optical scan ballots for provisional voting. Optical scan absentee ballots shall be acceptable for use as provisional ballots. Municipalities shall use the same type of ballots as the municipality uses for mail-in absentee voting. The election superintendent shall also provide a booth for voting provisional ballots in the enclosed space which will provide privacy for a person while voting a provisional ballot and a secure container in which the voted provisional ballots shall be placed.

(4) Voters whose names do not appear on electors list.

(a) When a person arrives at a polling place, completes a voter's certificate, and presents it to the poll workers but the person's name does not appear on the official electors list for the precinct, the poll officers shall immediately direct the person to the provisional ballot station. At the provisional ballot station, if a master list of registered electors is available, the poll workers shall check the list to determine if the person is registered at a different precinct. If the person's name appears on the master list for a different precinct, the poll workers shall direct the person to the correct precinct.

(b) If the person's name is not found on the official list of electors for the precinct or the master list, if available, the poll officers shall immediately contact the registrars and the person shall provide such information as the registrars may request to determine if the person is eligible to vote in the election. The registrars shall promptly review the information provided by the person and shall attempt to determine if the person timely and properly registered to vote.

(c) If the registrars can immediately determine that the person timely and validly registered to vote in the primary or election and should be assigned to the precinct at which the person is present, the registrars shall authorize the poll officers to add the person's name to the official electors list for the precinct and shall permit the person to vote in the same manner as other voters in the pre-cinct vote. When there are multiple ballot styles (district combinations) in use in the precinct, the registrars shall also advise the poll officers which ballot style (district combination) should be issued to the person. The person's name shall then be added to the official electors list for the precinct with a notation of the name of the registrar who authorized such addition. Upon presentation of a properly completed voter's certificate and the identification required by O.C.G.A. §21-2-417, the person shall be permitted to vote in the same manner as other voters in the precinct.

(d) If the registrars can immediately determine that the person timely and validly registered to vote in the primary or election but should be assigned to a different precinct from the one at which the person is present, the registrars shall direct the poll officers to send the person to the appropriate other precinct and the registrars shall

notify the officers of such other precinct to add the person's name to the official electors list for such other precinct. When there are multiple ballot styles (district combinations) in use in such other precinct, the registrars shall also advise the poll officers at such other precinct which ballot style (district combination) should be issued to the person. The person's name shall then be added to the official electors list for the other precinct by the poll officers of the other precinct with a notation of the name of the registrar who authorized such addition. Upon the completion of a voter's certificate and the submission of the identification required by O.C.G.A. § 21-2-417, the person shall be permitted to vote in the same manner as other persons in such other precinct. However, if, in the reasonable exercise of discretion by the registrars or the poll workers, there is insufficient time for such person to go to such other precinct before the polls close, the poll workers may allow such person to vote a provisional ballot at the precinct in which the person is present. In such case, all votes cast by such person for candidates for whom such person is properly entitled to vote shall be counted and all votes cast for candidates for whom such person is not properly entitled to vote shall be void and shall not be counted in accordance with O.C.G.A. §21-2-419(c).

(e) If the registrars cannot immediately determine that the person timely and validly registered to vote in the primary or election; but, from the information presented by the person, the person, if properly registered, would be assigned to the precinct at which the person is present, the registrars shall authorize the poll officers to permit the person to cast a provisional ballot at such precinct. When there are multiple ballot styles (district combinations) in use in the precinct, the registrars shall also advise the poll officers which ballot style (district combination) should be issued to the person.

(f) If the registrars cannot immediately determine that the person timely and validly registered to vote in the primary or election; but, from the information presented by the person, the person, if registered, would be assigned to a different precinct from the precinct in the county or municipality at which the person is present, the registrars shall direct the poll officers to send the person to the appropriate precinct. The registrars shall notify the officers of such other precinct to permit the person to vote a provisional ballot when such person arrives at such precinct, completes an official voter

registra-tion form and a provisional ballot voter's certificate, and submits the appropriate identification required by O.C.G.A. §21-2-417. When there are multiple ballot styles (district combinations) in use in such other precinct, the registrars shall also advise the poll officers which ballot style (district combination) should be issued to the person. However, if, in the reasonable exercise of discretion by the registrars or the poll workers, there is insufficient time for such person to go to such other precinct before the polls close, the poll workers may allow such person to vote a provisional ballot at the precinct at which such person is present. In such case, all votes cast by such person for candidates for whom such person is properly entitled to vote shall be counted and all votes cast for candidates for whom such person is not properly entitled to vote shall be void and shall not be counted in accordance with O.C.G.A. §21-2-419(c).

(g) If the person appears at a precinct in a county or municipality in which the person does not reside, the registrars shall instruct the poll officers to direct the person to contact the registrars in the county in which the person resides to determine in which precinct such person should vote.

(h) If the poll officers cannot get in touch with the registrars after making a reasonable effort to do so, the poll officers shall be authorized to permit the person to vote a provisional ballot at the precinct without additional authorization from the registrars. In such case, all votes cast by such person for candidates for whom such person is properly entitled to vote shall be counted and all votes cast for candidates for whom such person is not properly entitled to vote shall be void and shall not be counted in accordance with O.C.G.A. § 21-2-419(c).

(i) Upon receiving authorization to vote a provisional ballot, the person shall complete a provisional ballot voter's certificate and an official voter registration form and submit such completed certificate and form to the poll officers along with the appropriate identification required by O.C.G.A. § 21-2-417. The poll officers shall place the name of the person on the numbered list of provisional ballot voters and issue the person a provisional ballot of the style authorized by the registrars along with an inner ballot envelope and an outer ballot envelope. Before issuing the outer ballot envelope to the person, the poll officers shall enter the person's name, the name of the precinct,

the date and name of the election, and the ballot style (district combination) on the outer envelope. The person shall then re-tire to the provisional ballot voting booth and vote the ballot. Upon completing the ballot, the person shall seal the ballot in the inner ballot envelope and place the inner ballot envelope containing the ballot into the outer ballot envelope and shall seal the outer ballot envelope. The person shall then return the sealed envelope to the poll officers.

(j) Upon receiving the sealed ballot envelope from a person casting a provisional ballot, the poll officers shall verify that the information requested on the outer ballot envelope is complete, shall mark the appropriate box or boxes to designate the type of provisional ballot enclosed therein, and shall direct the person to place the ballot envelope into the secure container for provisional ballots which shall be located within the enclosed space in the polling place where it can be monitored by the poll officers and observed by the public. The provisional ballot voter's certificate and voter registration form shall be attached together and shall be placed in a separate, distinctively marked envelope which shall be placed in a secure location in the polling place.

(5) Voter who registered for first time by mail but did not provide required identification.

(a) When a person arrives at a polling place, completes a voter's certificate, and presents it to the poll workers but does not have the identification required by O.C.G.A. §21-2-417 and the person's name appears on the official electors list for the precinct with a designation that the person registered to vote for the first time in this state by mail but has not provided the required identification to the registrars as required by O.C.G.A. §21-2-220, the poll officers shall immediately direct the person to the provisional ballot station. At the provisional ballot station, the person shall be permitted to cast a provisional ballot at such precinct. When there are multiple ballot styles (district combinations) in use in the precinct, the poll officers shall issue the appropriate ballot style (district combination) to the person as shown on the electors list. The poll officers shall place the name of the person on the numbered list of provisional ballot voters and issue the person a provisional ballot of the style authorized by the registrars along with an inner ballot envelope and an outer ballot

envelope. Before issuing the outer ballot envelope to the person, the poll officers shall enter the person's name, the name of the precinct, the date and name of the election, and the ballot style (district combination) on the outer envelope. The person shall then retire to the provisional ballot, voting booth and vote the ballot. Upon completing the ballot, the person shall seal the ballot in the inner ballot envelope and place the inner ballot envelope containing the ballot into the outer ballot envelope and shall seal the outer ballot envelope. The person shall then return the sealed envelope to the poll officers.

(b) Upon receiving the sealed ballot envelope from a person casting a provisional ballot, the poll officers shall verify that the information requested on the outer ballot envelope is complete, shall mark the appropriate box or boxes to designate the type of provisional ballot enclosed therein, and shall direct the person to place the ballot envelope into the secure container for provisional ballots which shall be located within the enclosed space in the polling place where it can be monitored by the poll officers and observed by the public.

(c) The provisional ballot shall not be counted unless the voter provides the identification required by O.C.G.A. §§ 21-2-220 and 21-2-417 to the registrars before the end of the period set by law for the verification of provisional ballots. Such identification may be provided to the registrars in person or by facsimile transmission or, in the case of disabled voters, by delivery by a third party.

(6) Voters voting during extended polling hours in an election in which federal candidates are on the ballot.

(a) In the event that the polling hours for a polling place are extended by a court order beyond the normal closing time for a primary, election, or runoff in which federal candidates are on the ballot, all voters who vote after the normal closing time for the polling place shall vote by provisional ballot.

(b) Voters whose names appear on the electors list and who have the appropriate identification required by O.C.G.A. § 21-2-417 shall complete a provisional voter's certificate and shall be issued a provisional ballot along with an inner ballot envelope and an outer ballot envelope. Such voters shall not be required to complete a voter

re-gistration form. It also shall not be necessary to obtain approval from the registrars to issue provisional ballots to such voters. The poll officers shall place the name of the person on the numbered list of provisional ballot voters. Before issuing the outer ballot envelope to the person, the poll officers shall enter the person's name, the name of the precinct, the date and name of the election, and the ballot style (district combination) on the outer envelope. The person shall then retire to a provisional ballot voting booth and vote the ballot. Upon completing the ballot, the person shall seal the ballot in the inner ballot envelope and place the inner ballot envelope containing the ballot into the outer ballot envelope and shall seal the outer ballot envelope. The person shall then return the sealed envelope to the poll officers. Upon receiving the sealed ballot envelope from a person casting a provisional ballot, the poll officers shall ver-ify that the information requested on the outer ballot envelope is complete, shall mark the appropriate box to designate that the bal-lot is an extended poll hours provisional ballot, and shall direct the person to place the ballot envelope into the secure container for pro-visional ballots which shall be located within the enclosed space in the polling place where it can be monitored by the poll officers and observed by the public.

(c) If the voter's name is not on the electors list, the poll workers shall follow the provisions of this rule for regular provisional balloting under this rule and, if the voter is authorized by the registrars to vote a provisional ballot under the terms of this rule, shall also mark the appropriate box on the outer ballot envelope to indicate that the ballot was issued during extended poll hours.

(d) If the voter's name is on the electors list but registered to vote for the first time in this state by mail and has not provided the identification required by O.C.G.A. § 21-2-220, the poll officers shall permit the voter to vote in accordance with the provisions of this rule for first time voters who register for the first time in this state by mail without providing the required identification, and shall also mark the appropriate box on the outer ballot envelope to indicate that the ballot was issued during extended poll hours.

(e) The poll officers shall provide each first time voter who registered for the first time in this state by mail without providing the required identification who casts a provisional ballot information on

how the voter may provide the registrars with the appropriate identification in order that the voter's ballot may be counted.

(7) Each voter casting a provisional ballot in a primary, election, or runoff in which federal candidates appear on the ballot shall be given written information explaining how such voter can ascertain if such ballot is counted and, if such ballot is not counted, the reason why such ballot was not counted.

(8) The provisional ballot voter's certificates and voter registration cards may be picked up during the day by a registrar or deputy registrar for the purpose of beginning the process of determining the eligibility of the persons to cast provisional ballots. Before transferring the voter's certificates and registration cards to the registrars during the day, the poll officers shall note the number of certificates and cards being transferred to the registrars. If such voter's certificates and registration cards are not picked up by the registrars by the time that the polls close and the last voter has voted, the envelope in which the provisional ballot voter's certificates and voter registration cards have been deposited shall be securely sealed and shall be returned to the election superintendent with the other materials from the polling place.

(9) After the close of the polls and the last voter has voted, the poll officers shall account for all voted provisional ballots, cancelled and spoiled provisional ballots, and unused provisional ballots. The ballot stubs and unused and spoiled ballots shall then be securely sealed in the container provided for them by the election superintendent. The poll officers shall then proceed to open the secure container in which the provisional ballots were deposited and count the number of voted provisional ballots contained therein. The poll officers shall then compare the total number of persons voting provisional ballots as shown on the numbered list of provisional ballot voters with the number of ballots issued and the number of ballots voted. If these numbers do not equal one another, the poll officers shall determine the reason for the inconsistency and shall correct the problem before going further. The poll officers shall seal the voted provisional ballots in a container for transfer to the election superintendent. The poll officers shall complete and sign a provisional ballot recap sheet and post one copy of the recap sheet on the door of the polling place with the election results from the precinct. The remaining copies of the

provisional ballot recap sheet along with the numbered list of provisional ballot voters shall be returned to the election superintendent with the other election materials from the precinct.

(10) Upon receiving the election materials from the precincts, the election superintendent shall ensure that the envelope containing the provisional ballot voter's certificates and voter registration cards is promptly removed from the other materials and transferred to the registrars for processing. In any event, the voter's certificates and registration cards shall be transferred to the registrars no later than 9:00 a.m. on the day following the day of the primary, election, or runoff. The election superintendent shall also remove the container containing the voted provisional ballots and shall place such container in a secure location within the election superintendent's office.

(11)(a) Upon receiving the provisional ballot voter's certificates and voter registration cards from the election superintendent, the registrars shall promptly proceed to determine the eligibility of each person that voted a provisional ballot.

(b) If the registrars determine that the person did timely register and is eligible and entitled to vote in such primary, election, or runoff, the registrars shall mark on the numbered list of provisional ballot voters that the ballot is accepted and shall notify the election superintendent of the proper ballot style (district combination) for the voter.

(c) If the registrars determine that the person did not timely register to vote for the primary or election or is not eligible and entitled to vote in such primary or election or if the registrars cannot determine by the close of business on the third business day following the day of the primary, election, or runoff if the voter timely registered and was eligible and entitled to vote in such primary or election, the registrars shall mark on the numbered list of provisional ballot voters that the ballot is rejected.

(d) Not later than the close of business on the third business day following the day of the primary, election, or runoff, the registrars shall return to the election superintendent the numbered list of provisional ballot voters reflecting the accepted and rejected provisional ballots.

(e) The names of those persons whose names are accepted shall be added to the official electors list. The voter registration cards of those persons whose ballots are rejected on the numbered list of provisional ballot voters shall be processed by the registrars and, if found to be eligible and qualified, shall be added to the electors list for future elections.

(f) The registrars shall maintain the provisional ballot voter's certificates for the same period of time and under the same conditions as the regular voter's certificates. Voter registration cards completed by provisional ballot electors shall be maintained for the same period of time and under the same conditions as other voter registration cards.

(12) Upon receiving the numbered list of provisional ballot electors from the registrars, the election superintendent shall prepare to count the accepted provisional ballots. The election superintendent shall first compare the precinct designation and election district information with the Style of ballot (district combination) cast by the provisional ballot voter.

(a) If the ballot style (district combination) voted by the voter was correct, then the election superintendent shall open the outer envelope and place the inner envelope containing the ballot into a ballot box.

(b) If the ballot style (district combination) voted by the voter was not correct, then the election superintendent shall open the outer envelope and note the correct ballot style (district combination) on the inner envelope. Each such inner envelope shall then be placed in a separate container until all of the outer envelopes have been opened. The outer envelopes shall then be stored in a location away from the inner envelopes in a manner such that the inner envelope and ballot of a voter cannot be identified as being the ballot of a particular voter. The superintendent shall then open each such inner envelope and remove the ballot and shall place a unique identifying number on the ballot along with the designation of the precinct in the nonreflective area at the top of the ballot. The election superintendent shall then prepare or cause to be prepared a duplicate ballot. The duplicate ballot shall be clearly labeled with the word "Duplicate" and shall bear the name of the precinct and the same

unique identifying number as the original ballot in the nonreflective area at the top of the ballot. The election superintendent shall transfer or cause to be transferred to the duplicate ballot, in the presence of at least two other consolidation assistants and in public, only the votes cast by the provisional ballot voter in the races and on the questions to which such voter was eligible and entitled to vote. The votes entered on the duplicate ballot shall be verified by at least one consolidation assistant. The completed duplicate ballot shall be placed in the ballot box with the other provisional ballots to be counted. The original ballot shall be placed into an appropriate container and retained.

(c) After opening all of the outer envelopes and making all necessary duplicate ballots, the election superintendent shall then open the inner envelopes of the ballots in the ballot box and proceed to count the votes in the same manner as absentee ballots are counted. Upon completing the count, the election superintendent shall add the provisional ballot votes to the other votes cast at the polls and by absentee ballot and shall consolidate and certify the results of the primary, election, or runoff. The provisional ballots and any duplicates shall be retained for the same time period and in the same manner as absentee ballots.

(d) The rejected provisional ballots shall be marked on the outer envelope as “Not Counted” and shall not be opened. The ballots shall be maintained for the same time period and in the same manner as absentee ballots which were returned too late to be counted.

(e) The election superintendent shall notify the registrars of the names of those persons who cast a provisional ballot in the wrong precinct or on an incorrect ballot style (district combination).

(13)(a) Upon identifying the rejected provisional ballot electors, the registrars shall proceed promptly to notify each such person by first-class mail at the address shown on the provisional ballot voter's certificate that his or her ballot was not counted because of the inability of the registrars to verify that the person timely registered to vote or such other proper reason. If the person's voter registration card was approved, the registrars shall also notify the person that his or her name will be added to the elector's list and the person will be eligible to vote in future primaries and elections and that a voter

notification or precinct card will be mailed to the person to provide the voter with the correct precinct and election district information.

(b) Upon receiving notification from the election superintendent of the names of persons who cast provisional ballots in the incorrect precinct or on the incorrect ballot style (district combination), the registrars shall notify such persons of their correct precinct and/or election district information. The sending of a voter notification or precinct card by first-class mail to the address shown on the voter registration card completed by such person when voting by provisional ballot shall be sufficient notice for such voters.

(c) If the person's voter registration is rejected, the registrars shall notify the person of such rejection in accordance with O.C.G.A. § 21-2-226(d).

(d) In addition, the registrars shall establish a free access system, such as a toll-free telephone number or an Internet website, by which voters who cast provisional ballots in a primary, election, or runoff in which federal candidates are on the ballot may ascertain whether their ballots were counted or, if the ballots were not counted, the reasons why such ballots were not counted. The registrars shall establish and maintain reasonable procedures necessary to protect the security, confidentiality, and integrity of personal information collected, stored, or otherwise used by such system. Access to information about an individual provisional ballot shall be restricted to the voter who cast such ballot.

## 183-1-12-.07 Preparation of the Electors List and Use of ExpressPoll.

(1) Beginning July 1, 2006, counties shall use ExpressPoll units at precincts within the county during primaries, elections, and runoffs. The ExpressPoll units shall be utilized in lieu of the printed electors list and ballot encoders in each precinct where in use.

(2) The county election superintendent shall maintain each

ExpressPoll unit, and all components in a secure location under the same conditions as provided for DRE units under Rule 183-1-12-.02(2).

(3) Effective January 1, 2006, the registrars of each county shall utilize the absentee ballot subsystem of the statewide voter registration system for absentee balloting and advance voting.

(4) The registrars of each county shall complete the entry of new and updated voter registrations on a timely basis as required by the Secretary of State and shall notify the Secretary of State upon the completion of such data entry after a registration deadline.

(5) Prior to each primary or election as specified by the Secretary of State, the county election superintendent shall provide to the Secretary of State or his or her designee a final copy of the GEMS database for the county.

(6) The county election superintendent and the registrars shall notify the Secretary of State or his or her designee of any changes to the voter registration file for the county or the GEMS database that occur after the process for creating ExpressPoll flash cards begins.

(7) During the period in which DRE units are tested and prepared prior to delivery to the precincts, the election superintendent shall cause each ExpressPoll unit to undergo logic and accuracy testing. Each ExpressPoll unit must pass such logic and accuracy test prior to being assigned to a precinct. The registrars shall verify the information contained on the ExpressPoll units when assigning the units to precincts.

(8) Prior to delivery to the precincts, the registrars shall ensure that all persons who have been issued or cast absentee ballots are marked accordingly on the ExpressPoll units.

(9) Upon the conclusion of each primary, election, or runoff, the poll officers shall return the ExpressPoll units with the other election materials from the precinct to the election superintendent. The registrars and election superintendent shall coordinate the return of the flash cards from the ExpressPoll units to the Secretary of State such that the cards are returned in the same time period as the

official election returns.

(10) For electors whose names are added to the voter registration rolls after the deadline for preparing the flash cards for the ExpressPoll units, the registrars shall provide a printed supplemental list for use at the affected precincts.

Apr. 6, 2011.

**183-1-14-.02 Use of DRE Units for Absentee Balloting.**

- (1) Counties and municipalities are authorized to use DRE units

for in-person absentee balloting in accordance with the Georgia Election Code (O.C.G.A., Ch. 21-2) and these rules. As used in this rule, the term "Registrars" shall include a county board of registrars, a county board of elections and registration, a joint county-municipal board of elections and registration, a municipal absentee ballot clerk, a municipal registrar, and the designee of any board of registrars, board of elections and registration, or joint county-municipal board of elections and registration. The election superintendent and registrars shall by agreement determine the type of election equipment to be used in such election for in-person absentee voting and for absentee voting by mail or other legally appropriate means in which the ballot is sent or delivered to a voter for voting away from the office of the registrars.

(2) DRE units shall be configured and tested in accordance with the provisions of Rule 183-1-12-.02 prior to use in absentee balloting. Public notice of the time and place for such configuration and testing of the DRE units to be used for absentee balloting shall be given in accordance with O.C.G.A. § 21-2-379.6 and Rule 183-1-12-.02 prior to such configuration and testing.

(3) The DRE units to be used for in-person absentee voting shall be set up in a manner to assure the privacy of the elector while casting his or her ballot while maintaining the security of such units against tampering, damage, or other improper conduct. In addition, there shall be at least one DRE unit configured for use by physically disabled electors.

(4) Voter access cards for use in DRE units for in-person absentee balloting may be encoded by use of ballot encoder devices, DRE units specifically and exclusively set up for that purpose, or by use of the VCProgrammer software on appropriate computers.

(5) Each DRE unit to be used for in-person absentee voting shall be programmed so as to permit the challenging of ballots in accordance with law and the removal of such ballots from the count if such challenges are sustained by the registrars,

(6) On the first day of the absentee voting period, prior to any votes being cast on the DRE units, the registrars shall verify that the seal for each DRE unit is intact and that there is no evidence or

indication of any tampering with the seal or the unit. The registrars shall verify that the number of the seal matches the number of the seal recorded for that unit when such unit was prepared by the election superintendent for the primary, election, or runoff. If a seal number does not match or if there is any evidence or indication of tampering with the seal or unit, the Secretary of State and the election superintendent shall be immediately notified and such unit shall not be used until such matters are resolved by agreement of the Secretary of State, the election superintendent, and the registrars. The set up shall be performed in public and the public may view the set up subject to such reasonable rules and regulations as the registrars may deem appropriate to protect the security of the DRE units and to prevent interference with the duties of the registrars, except that the public view shall not be obstructed. The registrars shall run a zero tape on each DRE unit prior to the beginning of absentee voting on such units. The registrars shall, without removing the tape from the unit, verify that all vote registers shown on the zero tape are set to zero and that there are no votes showing on the unit and shall sign the tape in the space provided. If the zero tape does not show that all vote registers are set to zero and that there are votes on the unit, the election superintendent shall be immediately notified and such unit shall not be used until the unit is cleared and the matter is resolved by agreement of the election superintendent and the registrars. After verifying and signing the zero tape, the registrars shall securely lock the tape compartment leaving the zero tape in place on the unit and shall configure the unit for voting. The registrars shall verify that the election counter on each DRE unit is set at zero. If the election counter is not set to zero, the election superintendent shall be immediately notified and such unit shall not be used until the election counter is set to zero and the matter is resolved by agreement of the election superintendent and the registrars. The registrars shall verify that there is no unauthorized matter affixed to the DRE units or present in the cases or voting booths. The registrars shall affix a card of instructions for voting within each voting booth. Prior to voters entering the voting booth, the registrars may also distribute to such voters a card of instructions for voting on the DRE unit that has been approved or provided by the Secretary of State. Each DRE unit shall be clearly marked with a unique designation that is visible on the exterior of the unit.

(7) If a DRE unit is to be used for the creation of voter access cards, such DRE unit shall be set up properly for such purpose and shall be used exclusively for such purpose and no other purpose during the absentee voting period. The set up shall be performed in public and the public may view the set up subject to such reasonable rules and regulations as the registrars may deem appropriate to protect the security of the DRE unit and to prevent interference with the duties of the registrars, except that the public view shall not be obstructed. The registrars shall run a zero tape on the DRE unit prior to creating any voter access cards on such unit. The registrars shall, without removing the tape from the unit, verify that all vote registers shown on the zero tape are set to zero and that there are no votes showing on the unit and shall sign the tape in the space provided. If the zero tape does not show that all vote registers are set to zero and that there are votes on the unit, the election superintendent shall be immediately notified and such unit shall not be used until the unit is cleared and the matter is resolved by agreement of the election superintendent and the registrars. After verifying and signing the zero tape, the registrars shall securely lock the tape compartment leaving the zero tape in place on the unit and shall configure the unit for the creation of voter access cards. The registrars shall verify that the election counter on the unit is set at zero. If the election counter is not set to zero, the election superintendent shall be immediately notified and such unit shall not be used until the election counter is set to zero and the matter is resolved by agreement of the election superintendent and the registrars. The registrars shall make a notation of the election counter reading on the daily recap sheet.

(8) At the close of business each day during the absentee voting period, the registrars shall document the election counter number on the daily recap sheet. Each DRE unit used for in-person absentee voting shall then be turned off and closed. The memory card (PCMCIA card) shall remain in the unit at all times during the absentee balloting period until the polls close on the day of the primary, election, or runoff. Each DRE unit shall then be sealed and the seal number and the time of sealing shall be recorded on the daily recap sheet. Each DRE unit shall then be secured overnight. In addition, all voter access cards shall be securely stored overnight and when not in use. If a DRE unit is used to program voter access cards, the registrars shall make a notation of the election counter number

on the daily recap sheet. If such number is not zero, the registrars shall notify the Secretary of State immediately and shall ascertain the reason for the discrepancy and shall make a notation of such discrepancy and the reason for it on the daily recap sheet. Such DRE unit shall not be used for creation of voter access cards unless and until the unit is fully tested and reconfigured and the election counter reset at zero pursuant to procedures established by the Secretary of State. The DRE unit shall be turned off and secured for the night.

(9) Each morning during the absentee balloting period, the registrars shall publicly verify the seal numbers on each DRE unit to be used for absentee voting with the number of the seal recorded on the daily recap sheet from the previous day of absentee voting and shall verify that the seal and DRE unit do not show any signs of tampering. If the seal number corresponds to the entry on the daily recap sheet and there is no evidence of tampering, the DRE unit shall be opened and turned on. If the numbers do not match or there is evidence of tampering, the Secretary of State shall be notified immediately and the unit shall not be used until such discrepancy is resolved to the satisfaction of the Secretary of State, the election superintendent, and the registrars. After opening and turning on the unit, the registrars shall verify the election counter number with the number recorded on the daily recap sheet from the previous day of absentee voting. If the numbers do not match, the Secretary of State shall be immediately notified and the unit shall not be used until such discrepancy is resolved to the satisfaction of the Secretary of State, the election superintendent, and the registrars. The election counter number shall then be entered onto the daily recap sheet for that day. If a DRE unit is to be used for programming voter access cards, the registrars shall open and turn on the power for such unit. The registrars shall then verify that the election counter is set on zero. If the election counter is not set at zero, the Secretary of State shall be immediately notified and the unit shall not be used until such discrepancy is resolved to the satisfaction of the Secretary of State, the election superintendent, and the registrars. A notation shall be made on the daily recap sheet of the election counter number and the unit shall be configured to create voter access cards.

(10) Voters who vote absentee ballots in person on the DRE units shall first complete an absentee ballot application and sign an oath

document. After the registrars determine that the voter is eligible to vote by absentee ballot, the registrars shall note the voter's registration number and ballot style on the absentee ballot application. The voter shall then be issued a voter access card. The registrars shall record on the absentee voter log the voter's name, registration number, voter ID number, and designation of the DRE unit on which the voter shall vote. The voter shall then be permitted to vote on the designated DRE unit. After completing voting, the voter shall return the voter access card to the registrars.

(11) At the close of business on the day before the primary, election, or runoff at the end of the absentee balloting period, the registrars shall record the election counter number on the daily recap sheet. The registrars shall publicly configure the DRE units used for absentee voting to end the election and prevent further voting on the units. The units shall then be shut down and sealed. The registrars shall record the seal numbers on the daily recap sheet. The units shall then be secured until time for the tabulation of votes. For the DRE unit used for the creation of voter access cards, such unit shall be secured and returned to the election superintendent. Two zero tapes shall be printed and signed by the registrars confirming that all vote counters are set at zero. The memory card (PCMCIA cards) from the units used for the creation of voter access cards shall be removed from the units and placed along with the signed zero tapes in a sealed envelope which shall be returned to the election superintendent.

(12) At the close of the polls on the day of the primary, election, or runoff, the registrars shall deliver all of the DRE units used for inperson absentee voting and all other absentee ballots received in accordance with the provisions of the Georgia Election Code (O.C.G.A. Ch. 21-2) to the manager of the absentee ballot precinct. The poll officers of the absentee ballot precinct shall count all of the absentee ballots in accordance with the procedures required by law and the rules of the State Election Board. The poll officers shall verify the seal number of each DRE unit with the number recorded on the daily recap sheet form and shall inspect each seal and unit to verify that there is no evidence of tampering with the unit. If the seal numbers are not correct or there is evidence of tampering, the Secretary of State shall be notified immediately and no further action shall be taken with regard to such unit until the reason for the

discrepancy has been determined to the satisfaction of the Secretary of State, the election superintendent, and the manager of the absentee ballot precinct. After verifying the seal number and the integrity of the seal on each unit, the poll managers shall open each unit and turn on the power for the unit. The managers shall then compare the numbers shown on the election counters of the unit with the numbered list of absentee electors, the absentee voter log, and the absentee ballot precinct recap form to verify that there are no discrepancies. If there is a discrepancy, the Secretary of State shall be notified immediately and no further action shall be taken until the reason for the discrepancy has been determined to the satisfaction of the Secretary of State, the election superintendent, and the manager of the absentee ballot precinct. The managers of the absentee ballot precinct shall accept or reject absentee ballots cast on DRE units as directed by the registrars, using the procedures established by the Secretary of State. After completion of the acceptance and re-rejection process for the absentee ballots cast on the DRE units, the poll manager shall cause each DRE unit to print a minimum of three tapes showing the vote totals as cast on that DRE unit. The poll manager and the assistant managers shall sign each of the tapes or shall write on the tapes the reason why the poll manager or the assistant managers will not sign the tapes. One copy of the results tape for each DRE unit shall be posted on the door of the absentee ballot precinct for the information of the public. The memory card (PCMCIA card) and two signed tapes from each DRE unit shall be placed in the appropriate envelope supplied by the election superintendent which shall be sealed and initialed by the poll manager and at least one assistant manager such that the envelope cannot be opened without breaking such seal. After completing the printing of the results, the DRE units shall be turned off and secured in their cases and resealed. The DRE units shall then be placed in a secure area with appropriate climate control. The memory cards (PCMCIA cards), results tapes, voter access cards, supervisor's card, ballot encoder devices, numbered lists of absentee voters, absentee ballot precinct recap forms, and other such paperwork shall be transported to the office of the election superintendent by the poll manager and at least one other poll officer. The election superintendent or his or her designee shall receive the materials and shall issue a receipt to the poll manager for the materials.

(13) Any notices to the Secretary of State about discrepancies in

numbers or seals, zero tapes, or election counters shall also be forwarded to members of the State Election Board, but such information shall be considered confidential if the Secretary of State has in-iti-ated an investigation of the matter.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Use of DRE Units for Absentee Balloting" adopted. F. Oct. 24, 2003; eff. Nov. 13, 2003.

### **183-1-14-.03 Provisional Absentee Ballots.**

(1) Except as otherwise provided by O.C.G.A. § 21-2-220(c), when the registrars receive a request for an absentee ballot from a voter who registered to vote for the first time in this state by mail and has not provided the identification required by O.C.G.A. § 21-2-220, the registrars shall process the request in the same manner as other requests for absentee ballots. If the voter is found to be eligi-ble to vote by absentee ballot, the registrars shall issue a ballot to the voter and mark the outer oath envelope with the code "IR," In addition to the information concerning how to vote the ballot, the registrars shall also enclose with the absentee ballot instructions on providing proper identification and in accessing the free access system to determine if the ballot was counted as required by O.C.G.A. § 21-2-418(e) and (f).

(2) When an absentee ballot is received from a voter who registered to vote for the first time in this state by mail and has not provided the identification required by O.C.G.A. § 21-2-220, except as otherwise provided by O.C.G.A. § 21-2-220(c), the registrars shall process the ballot as other absentee ballots returned by voters. If the ballot is accepted by the registrars but the voter has not provided the required identification, the ballot shall be treated as a provisional ballot and shall be held separate and apart from the other absentee ballots. The registrars shall maintain a numbered list of provisional absentee ballots.

(3) If an absentee voter whose ballot has been accepted but treated as a provisional ballot for failure to provide the required identification provides the required identification prior to the close of the polls on the day of the election, the voter's ballot shall be treated as a regular absentee ballot and the voter shall be switched from the numbered list of provisional absentee voters to the num-bered list of regular absentee voters.

(4) As soon as practicable after 12:00 Noon on the day of the primary, election, or runoff, the registrars shall begin to deliver all accepted regular and provisional absentee ballots to the absentee ballot precinct in accordance with law. The provisional absentee ballots shall be retained by the poll officers at the absentee ballot precinct or tabulating center, as the case may be, unopened and shall not be counted. The provisional absentee ballots shall be placed in a secure container for provisional ballots and shall be transferred to the election superintendent with the other absentee ballots and election materials from the absentee ballot precinct or tabulating center, as the case may be.

(5) If, by the end of the period set by law for the verification of provisional ballots, the registrars receive the required identification from an absentee voter who failed initially to provide the required identification, then the registrars shall notify the election superintendent to count the ballot of such voter in the same manner as other verified provisional ballots from the polls. If the registrars do not receive the required identification from such absentee voter by the end of the period set by law for the verification of provisional ballots, the registrars shall notify the election superintendent to not count the ballot and the ballot shall remain unopened and sealed and shall be retained in accordance with law with the other provisional ballots which the registrars did not verify for counting.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Provisional Absentee Ballots" adopted. F. Oct. 24, 2003; eff. NOT. 13, 2003.

#### **183-1-14-.04 Reporting Requirements for Absentee Ballots.**

(1) The registrars of each county shall on the 32nd day prior to each statewide general primary and general election submit to the Secretary of State on a form provided by the Secretary of State information concerning absentee ballots requested by electors who are entitled to vote by absentee ballot under the federal Uniformed and Overseas Citizens Absentee Voting Act, 42 U.S.C. § 1973ff, et seq., as amended, Such report shall include the number of absentee ballots requested by each such category of absentee voter, the date on which the absentee ballots were available in the registrars' office, and the date on which the ballots requested by such voters were sent to the voters. The Secretary of State may request further information related to the application for and the transmittal

of such ballots.

(2) The report shall be submitted to the Secretary of State either by facsimile or other electronic means on the 32nd day prior to each statewide general primary and general election.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Absentee Electors and Campaigning in or Near Absentee Polling Places" adopted as ER. 1S3-1-14-0.5-.04. F. Sept. 10, 2004; eff. Sept. 9, 2004, the date of adoption. **Amended:** Permanent Rule entitled "Reporting Requirements for Absentee Ballots" adopted. F. Dec. 21, 2005; eff. Jan. 10, 2006. **Repealed:** New Rule of same title adopted. F. Mar. 17, 2011; eff. Apr. 6, 2011.

### **183-1-14-.05 State Write-In Absentee Ballot.**

(a) The Secretary of State shall design a state write-in absentee ballot for use in runoff primaries and runoff elections by an elector of this state who resides outside the county or the municipality in which the election is being conducted and is: (1) a member of the armed forces of the United States, a member of the merchant marine of the United States, a member of the commissioned corps of the Public Health Service or the National Oceanic and Atmospheric Administration, or a spouse or dependent of such member residing with or accompanying said member; or (2) A citizen of the United States residing outside the United States.

(b) Such state write-in absentee ballot shall be designed in such a manner as to permit the person voting such ballot to write-in the name of a candidate or candidates for state offices that are elected on a state-wide basis and for all federal offices in a runoff primary or runoff election. Such state write-in ballot shall automatically be included with any absentee ballot sent to such eligible electors for any general primary or general election. No special request for such ballot shall be required in such circumstances.

(c) Such ballot shall either have attached to or have included with such ballot two envelopes, One envelope shall have printed on such envelope the words "Official State Write-In Absentee Ballot" and nothing else. The other envelope shall be designed such that the first envelope will fit inside it and shall have printed on one side the absentee elector oath and the other side shall contain a place for the elector to address the ballot to the appropriate board of registrars or board of elections and registration in this state for mailing.

(d) The Secretary of State shall prepare and print instructions for completing and returning such ballot that shall also be enclosed with such ballot. The state write-in absentee ballot, the envelopes for returning it, and the instructions shall be enclosed with the regular absentee ballot, envelopes, and instructions for completing and returning the regular absentee ballot.

(e) Such ballots shall be made available in a downloadable electronic form on the Secretary of State's website as well as in printed form. Additionally, the Secretary of State and the county registrars shall provide for the transmission of such blank ballots by facsimile transmission and electronic mail transmission to electors. Instructions for voting such ballots shall be included on the website and shall accompany any facsimile and electronic mail ballot transmissions. Voted ballots shall not be returned by facsimile or electronic mail.

(f) As soon as practicable after a general primary or general election, the Secretary of State shall cause to be published on the official website of the Secretary of State a list of all federal offices and state offices in which there will be a runoff primary or runoff election, as the case may be, along with the names of the candidates who will be on the ballot in such runoff.

(g) If an elector obtains the ballot by facsimile or by downloading from electronic mail or the Secretary of State's website, the elector shall return the ballot by mail using two envelopes. The elector shall enclose and seal the ballot in a plain envelope and insert that envelope into another envelope for transmission to the registrars. The elector shall copy and sign the appropriate oath onto the back of the outer envelope. The Secretary of State shall provide a sample envelope and oath form on the Secretary of State's website in such a manner that such form may be used by an elector to print out the forms for the purpose of pasting or attaching such forms to an envelope for returning the ballot or for printing an envelope for returning the ballot.

(h) If the registrars receive both the official absentee runoff ballot and the state write-in absentee ballot from an elector during the time period for receiving such ballots, the registrars shall submit only the official absentee runoff ballot for counting. In such case, the state

write-in absentee ballot shall be handled in the same manner as ballots that are received too late for counting. In order to ensure that the correct ballot is counted, the registrars shall hold the ballots of individuals to whom both an official absentee runoff ballot and a state write-in ballot have been sent until the close of the absentee voting period before submitting such ballots for counting.

(i) The failure of an elector to seal the ballot in an inner envelope alone shall not be grounds for rejecting such ballot. The failure of the elector to complete the oath required of absentee voters on the outer envelope shall be cause to reject such ballot.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "State Write-In Absentee Ballot" adopted, F. Dec. 21, 2005; eff. Jan. 10, 2006.

### **183-1-14-.06 Spoiled Absentee Ballots.**

(1) When an absentee ballot is spoiled, the elector may write "Spoiled" across the face of the ballot, then fold the ballot and enclose and securely seal the same in the envelope on which is printed "Official Absentee Ballot." This envelope shall then be placed in the second one, on which is printed the form of the oath of the elector, the name, relationship, and oath of the person assisting, if any, and other required identifying information. The elector shall then fill out the required information on such envelope, without the requirement to subscribe or swear to the oath printed on such envelope. Such envelope shall then be securely sealed and the elector shall write across the face of the envelope "Spoiled" and then mail or personally deliver same to the board of registrars or absentee ballot clerk in accordance with O.C.G.A. Section 21-2-385.

(2) Upon receipt of an absentee ballot upon which the word "Spoiled" has been written across the face of the envelope, a registrar or absentee ballot clerk shall write the day and hour of the receipt of the ballot on its envelope. The registrar or absentee ballot clerk shall, within two days after the receipt of such ballot, mail or issue another official absentee ballot to the elector. All returned spoiled ballots shall be safely kept unopened by the board or absentee ballot clerk and then transferred to the appropriate clerk for storage for the period of time required for the preservation of ballots used at the primary or election and shall then, without being opened, be destroyed in like manner as the used ballots of the primary or

election.

(3) The directions that explain how to cast a vote and how to obtain a new ballot after one is spoiled shall appear immediately under the caption on the ballot in substantially the following form as appropriate for that particular primary or election:

To vote, blacken the Oval (\_\_\_) next to the candidate of your choice. To vote for a person whose name is not on the ballot, manually WRITE his or her name in the write-in section and blacken the Oval (\_\_\_) next to the write-in section. If you desire to vote YES or NO for a PROPOSED QUESTION, blacken the corresponding Oval (\_\_\_). Use only blue or black pen or pencil.

Do not vote for more candidates than the number allowed for each specific office. Do not cross out or erase. If you erase or make other marks on the ballot or tear the ballot, your vote may not count.

If you change your mind or make a mistake, you may return the ballot by writing “Spoiled” across the face of the ballot and return envelope. You may then mail the spoiled ballot back to your county board of registrars, and you will be issued another official absentee ballot. Alternatively, you may surrender the ballot to the poll manager of an early voting site within your county or the precinct to which you are assigned. You will then be permitted to vote a regular ballot.

“I understand that the offer or acceptance of money or any other object of value to vote for any particular candidate, list of candidates, issue, or list of issues included in this election constitutes an act of voter fraud and is a felony under Georgia law.”

Authority O.C.G.A. Secs. 21-2-31, 21-2-284, 21-2-285, 21-2-383, 21-2-388, 21-2-480. **History.** Original Rule entitled “Spoiled Absentee Ballots” adopted. F. Oct. 29, 2009; eff. Nov. 18, 2009.

### **183-1-14-.07 Spoiled Ballot Definition.**

(1) **Definitions.** As used in these rules and the Georgia Election Code, the term:

(a) “Spoiled ballot” includes a ballot

1. that has been torn, defaced, or physically deformed;

2. on which there are cast more than the permitted number of votes;
3. that has been completed in a manner which is illegible or incomprehensible;
4. that contains writing which compromises the secrecy of the ballot;
5. that is marked improperly, inappropriately, or in such a way that it would be rejected;
6. that was issued in error by the election official; or
7. that contains the wrong precinct, party, or style.

(2) A spoiled ballot shall not be reinstated.

Authority O.C.G.A. Secs. 21-2-31, 21-2-284, 21-2-285, 21-2-285.1, 21-2-379.11, 21-2-390, 21-2-433, 21-2-434, 21-2-436, 21-2-437, 21-2-440, 21-2-480, 21-2-483, 21-2-484, 21-2-493, 21-2-587. **History.** Original Rule entitled "Spoiled Ballot Definition" adopted. F. Oct. 29, 2009; off. Nov. 18, 2009.

### **183-1-14-.08 Additional Sites as Additional Registrar's Offices or Places of Registration for Absentee Ballots.**

(1) Definitions. As used in this rule and O.C.G.A. Section 21-2-382, the term:

(a) "Government building generally accessible to the public" means any building or structure which is used by the public:

1. that is owned, leased, operated, or used by, the State of Georgia, its agencies and authorities, and any political subdivision of the state, municipal corporation, or local board or authority created by general, local, or special Act of the General Assembly or by ordinance or resolution of the governing body of a county or municipal corporation individually or jointly with other political subdivisions or municipalities of the State; and
2. that is constructed or renovated in whole or in part by use of state, country, or municipal funds, the funds of any political subdivision of the State; or, to the extent not required otherwise by

federal law or regulations and not beyond the power of the State to regulate, federal funds.

(2) A board of registrars may establish additional sites as additional registrar's offices or places of registration for the purpose of receiving absentee ballots under O.C.G.A. Section 21-2-381 and for the purpose of voting absentee ballots under O.C.G.A. Section 21-2-385. Whenever practicable, a branch of the county courthouse, a courthouse annex, a government service center providing general government services, or another government building generally accessible to the public shall be utilized for such additional sites.

Authority O.C.G.A. Secs. 21-2-31, 21-2-S82, 30-3-2, 31-12A-3. **History.** Original Rule entitled "Additional Sites as Additional Registrar's Offices or Places of Registration for Absentee Ballots" adopted. F. Dec. 15, 2009; eff. Jan. 2010.

### **183-1-14-.09 Voted Absentee Ballots.**

(1) Definitions. As used in this Rule and O.C.G.A. Section 21-2-388, the phrase:

(a) "An absentee ballot which has been voted" means an absentee ballot that has been returned to and received by the board of registrars and has been certified in accordance with subsection (a) of O.C.G.A. Section 21-2-386 by the board of registrars.

(2) When an absentee ballot which has been voted shall be returned to and received by the board of registrars, it shall be deemed to have been voted then and there; and no other ballot shall be issued to the same elector. If the board of registrars or absentee ballot clerk rejects or otherwise fails to certify an absentee ballot in accordance with subsection (a) of O.C.G.A. Section 21-2-386, the elector shall be provided the opportunity to vote in the primary, election, or runoff either by applying for a second absentee ballot prior to the day before such primary, election, or runoff or by voting in person at the elector's polling place on the day of the primary, election, or runoff.

Authority O.C.G.A. Secs. 21-2-31, 21-2-388. **History.** Original Rule entitled "Voted Absentee Ballots" adopted. F. Oct. 29, 2009; eff. Nov. 18, 2009.

**183-1-14-10 Acceptance of Absentee Ballots From Military and Overseas Citizens.** Absentee ballots cast in a primary, election, or runoff by eligible electors who reside outside the county

or municipality in which the primary, election, or runoff is held are members of the armed forces of the United States, members of the merchant marine of the United States, spouses or dependents of members of the armed forces or merchant marine residing with or accompanying such member, or overseas citizens that are received by United States Mail or commercial courier, without bearing a postmark, and within the three-day period following such primary, election, or runoff, if proper in all other respects, shall be valid ballots and shall be counted and included in the certified election results.

Authority O.C.G.A. Secs. 21-2-31, 21-2-388. **History.** Original Rule entitled "Acceptance of Absentee Ballots From Military and Overseas Citizens" adopted. F. Oct. 29, 2009; eff. Nov. 18, 2009.

**183-1-14-11 Mailing and Issuance of Ballots.** During early voting, as additional applicants for absentee ballots are determined to be eligible, the board of registrars or absentee ballot clerk shall mail or issue official absentee ballots to such additional applicants immediately upon determining their eligibility. The board or clerk shall make such determination and mail or issue official absentee ballots to such additional eligible applicants within 3 business days after receiving the absentee ballot applications.

Authority O.C.G.A. Secs. 21-2-31, 21-2-384. **History.** Original Rule entitled "Mailing and Issuance of Ballots" adopted. F. May 27, 2011; eff. June 10, 2011.

### **183-1-14-12. Eligibility of Application for Absentee Ballot**

The application for an absentee ballot shall be in writing and shall contain sufficient information for proper identification of the elector. To be deemed sufficient, an application for an absentee ballot must contain the signature of the applicant.

1. In the case of the elector making such application for an absentee ballot, the application shall contain the signature of such elector.
2. In the case of a relative making an application on behalf of an elector pursuant to O.C.G.A. § 21-2-381(a)(1)(B), the application shall contain the signature of the elector's relative as well as the relationship of the relative to the elector.

**Authority:** O.C.G.A. §§ 21-2-31, 21-2-381.

**History.** Original Rule entitled "Eligibility of Application for Absentee Ballot" adopted. F. Dec. 28, 2015; eff. Jan. 17, 2016.

RETURNS OF PRIMARIES AND ELECTIONS**

**TABLE OF CONTENTS**

**183-1-15-.01 Repealed**

**183-1-15-.02 Definition of Vote**

**183-1-15-.01 Repealed.**

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Notification and Certificate of Nomination for Political Party Nominees" adopted. F. May 26, 1970; eff. June 14, 1970. **Amended:** F. Oct. 20, 1975; eff. Nov. 9, 1975. **Amended:** Rule retitled "Certificate of Nomination for Political Party Nominees". F. Mar. 6, 1987; eff. Mar. 26, 1987. **Repealed:** F. Dec. 11, 2003; eff. Dec. 31, 2003.

**183-1-15-.02 Definition of Vote.**

(1) DRE Equipment. A vote cast on a DRE unit shall be the choice made by a voter by:

(a) Pressing the appropriate place on the DRE unit's touchscreen to cause an "X" or similar designation to display adjacent to the name of the candidate or answer to a question for which the voter desires to vote;

(b) Typing on the touchscreen the name of a qualified write-in candidate in accordance with the instructions for voting on the DRE unit; or

(c) Pressing the appropriate buttons on the keypad in the case of persons using the VWD device attached to the DRE unit.

(2) Lever-type Voting Machines. A vote cast on a lever-type voting machine shall be the choice made by a voter by either operating the lever adjacent to the name of the candidate or answer to a question for which the voter desires to vote or by writing of the name of a qualified write-in candidate on the machine in accordance with the instructions for voting on the voting machine and then recording such votes on the machine by the actuation of the main lever which casts such votes and returns the other levers to their original positions.

### (3) Optical Scan Voting Systems.

(a) A vote cast on an optical scan voting system shall be the choice made by a voter by either:

1. Filling in the oval or completing the arrow adjacent to the name of the candidate or answer to a question for which the voter desires to vote; or

2. Filling in the oval or completing the arrow adjacent to the appropriate write-in space and writing the name of a qualified write-in candidate in the appropriate space on the ballot as specified in the instructions for voting such ballot.

(b) In reviewing an optical scan ballot which has been rejected as containing an overvote in accordance with O.C.G.A. § 21-2-483(g)(2), if the voter filled in the oval or completed the arrow next to the name of a candidate whose name appears on the ballot and filled in the oval or completed the arrow adjacent to the write-in space and wrote the name of the same candidate in the write-in space for the same office, the properly cast vote shall be counted and the write-in vote shall be ignored.

(c) If, in reviewing an optical scan ballot which has been rejected as containing an overvote in accordance with O.C.G.A. § 21-2-483(g)(2), it appears that there is a properly cast vote and what is clearly a stray mark which has caused the tabulator to read the vote for such office as an overvote, the properly cast vote shall be counted and the stray mark shall be ignored.

(d) If, in reviewing an optical scan ballot which has been rejected as containing an overvote in accordance with O.C.G.A. § 21-2-483(g)(2), a voter marks his or her ballot in a manner other than that specified by law and this rule, the votes shall be counted if, in the opinion of the vote review panel as provided in O.C.G.A. § 21-2-483(g)(2)(B), the voter has clearly and without question indicated the candidate or candidates and answers to questions for which such voter desires to vote.

(e) When an optical scan ballot contains stray marks or marks which prevent the tabulating machine from properly recording valid

votes as determined under this rule and by law, the ballot shall be duplicated in accordance with law to correct such problems and the duplicate shall then be tabulated.

(4) Paper Ballots.

(a) A vote cast on a paper ballot shall be a choice made by a voter by either:

1. Placing an “X”, a check, or other similar mark in the square adjacent to the name of the candidate or answer to a question for which the voter desires to vote; or

2. Writing the name of a qualified write-in candidate in the appropriate space on the ballot as specified in the instructions for voting such ballot.

(b) If a voter marks his or her paper ballot in a manner other than that specified by law and this rule, the votes shall be counted if, in the opinion of the poll officers as provided in O.C.G.A. § 21-2-439, the voter has clearly and without question indicated the candidate or candidates and answers to questions for which such voter desires to vote.

(c) If the voter marked the square next to the name of a candidate whose name appears on the ballot and wrote in the name of the same candidate in the write-in space for the same office, the properly cast vote shall be counted and the write-in vote shall be ignored.

(5) Write-in Votes. In no event shall votes cast for write-in candidates who have not qualified in accordance with O.C.G.A. § 21-2-133 be counted or recorded.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled “Definition of Vote” adopted. F. Oct. 24, 2003; eff. Nov. 13, 2003.

**RULES  
OF  
STATE ELECTION BOARD  
GEORGIA ELECTION CODE**

**CHAPTER 183-1-20  
GEORGIA VOTER IDENTIFICATION CARD**

**TABLE OF CONTENTS**

**183-1-20-.01 Georgia Voter Identification Card**

**183-1-20-.01 Georgia Voter Identification Card.**

(1) **Intent and Purpose.** These rules are promulgated pursuant to the authority granted the State Election Board under O.C.G.A. §§21-2-417.1 and 21-2-31. It is the intent of the State Election Board to provide for the time, place and manner in which each county Board of Registrars shall issue the Georgia Voter Identification Card to eligible electors and to provide for the acceptable types of documentation necessary to obtain a Georgia Voter Identification Card. To this end, the State Election Board has promulgated these rules and regulations.

(2) **Application for the Georgia Voter Identification Card.**  
Beginning with the July 18, 2006, Party Primary Election each county registrar shall provide the application for the Georgia Voter Identification Card in the form designed and published by the State Election Board or its member designee(s). Any registered voter who meets the criteria in O.C.G.A. § 21-2-417.1 and wishes to obtain a Georgia Voter Identification Card shall be required to submit the information requested in such application. It shall be the responsibility of each county registrar to ensure that each accepted application is complete.

**(3) Availability of the Georgia Voter Identification Card.**

(a) Each county shall provide a place within the voter registrar's primary or main office location, as previously approved by the Department of Justice, to process applications for Georgia Voter

Identification Cards and to process and distribute such cards.

(b) Each county registrar's office may provide additional locations or extended hours for processing applications for the Georgia Voter Identification Card and processing and distributing the cards but shall be required to comply with criteria for establishment of additional voter registration places as outlined in 183-1-6-.03(3).

(c) Each county registrar's office shall be open a minimum of eight hours per day on Monday through Friday of the week before the final primary, election, or run-off election day, except for legally observed holidays, and shall otherwise be open during normal business hours of the office in order to allow registered voters to apply for and obtain a Georgia Voter Identification Card.

(d) The voter registrar's office of each county shall provide the application and process the Georgia Voter Identification Card using the equipment, forms, supplies, and written training materials and/ or verbal training provided by the State Election Board.

(e) Each county Board of Registrars shall sign and maintain an intergovernmental agreement provided by the State Election Board outlining the use of the equipment.

**(4) Documentation required for application and issuance of the Georgia Voter Identification Card.**

(a) In accordance with O.C.G.A. § 21-2-417.1(e), the Board of Registrars shall require the presentation and verification of the following information before issuing a Georgia Voter Identification Card:

1. A photo identity document, except that nonphoto identity document is acceptable if it includes both the applicant's full legal name and date of birth;

2. Documentation showing the applicant's date of birth;

3. Evidence that the applicant is registered to vote in the State of Georgia, either by voter precinct card, a new voter registration application or confirmation of voter's record on the statewide voter

registration system or by verifying the original application in the voter registrar's office; and

4. Documentation showing the applicant's name and principal residence address.

(b) In determining whether the requirements of O.C.G.A. § 21-2-417.1(e) have been met, the following shall apply:

1. Any of the following which contains a photograph of the applicant shall constitute a photo identity document, as provided in O.C.G.A. § 21-2-417.1(e)(1):

(i) Student ID Card including public or private high school, college, university, or vocational school;

(ii) Transit Card;

(iii) Pilot's License;

(iv) Nursing Home Identification Card;

(v) Employee Identification Card;

(vi) Government Housing Authority Identification Card;

(vii) Any government issued license;

(viii) Any card accepted by local, state or federal government for the provision of benefits; or

(ix) Any card accepted by local, state or federal government for access to buildings.

2. Any of the following shall constitute a nonphoto identity document in lieu of a photo identity document as provided in O.C.G.A. § 21-2-417.1(e)(l) only if it includes both the applicant's full legal name and date of birth:

(i) Original birth certificate or certified copy of birth certificate;

- (ii) Certificate of birth registration;
- (iii) Voter Registration Application;
- (iv) Copy of records filed in court by the applicant or on behalf of the applicant by the applicant's counsel;
- (v) Naturalization documentation;
- (vi) Copy of Marriage License Application;
- (vii) A copy of the applicant's State or Federal Tax Return filed for the previous calendar year;
- (viii) Any other document issued by local, state, or federal government so long as the document provides a reasonably reliable confirmation of the identity of the applicant;
- (ix) Paycheck or paycheck stub bearing the imprinted name of the applicant's employer;
- (x) An original of the annual social security statement received by the applicant for current or preceding calendar year;
- (xi) An original of a Medicare or Medicaid statement received by the applicant;
- (xii) Certified school record or transcript for current or preceding calendar year;
- (xiii) Hospital birth certificate;
- (xiv) An authenticated copy of a doctor's record of post-natal care;  
or
- (xv) A federal Affidavit of Birth, form DS-10.

3. The registrar shall accept as documentation showing the applicant's date of birth under O.C.G.A. § 21-2-417.1(e)(2) any of the documents described in subparagraph (b)2. above.

4. The registrar shall accept as proof of voter registration under

O.C.G.A. § 21-2-417.1(e)(3) the applicant's voter registration application or a voter's precinct card.

5. Any of the documents described in subparagraphs (b)1. and 2. shall be acceptable as documentation showing the applicant's name and address of principal residence under O.C.G.A. § 21-2-417.1(e)(4) if the documentation contains the applicant's name and address of principal residence. In addition, the registrar shall also accept the following as documentation showing the applicant's name and address of principal residence if the applicant's name and address of principal residence appears on the document:

- (i) Voter Precinct Card;
- (ii) Utility or cable bill issued within the last sixty (60) days;
- (iii) Bank statement issued within the last sixty (60) days;
- (iv) Currently valid rental contracts and/or receipts for payments made within the last sixty (60) days for rent payments;
- (v) A copy of the applicant's State or Federal income tax return filed for the preceding calendar year;
- (vi) Homeowners insurance policy or bill for current or preceding calendar year;
- (vii) Mortgage, payment coupon, deed, or property tax bill for current or preceding calendar year;
- (viii) Current Automobile Registration Receipt;
- (ix) Homestead Exemption documentation; or
- (x) W-2 for the preceding calendar year.

6. The application and supporting documentation of any applicant who is denied a Georgia Voter Identification Card shall be immediately forwarded via facsimile and U.S. mail to the State Election Board for automatic review to determine if the applicant has provided reasonably reliable documentary indicia confirming the

identity of the applicant in which case the State Election Board shall direct the voter registrar to issue the Georgia Voter Identification Card.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Georgia Voter Identification Card" adopted. F. June 19, 2006; eff. July 9, 2006.

CERTIFICATION OF VOTING SYSTEMS**

**TABLE OF CONTENTS**

590-8-1-.01	Certification of Voting Systems	590-8-1-.02	Verifications of Voter Registration Information
-------------	---------------------------------	-------------	---

**590-8-1-.01 Certification of Voting Systems.**

**(a) Purpose.**

1. These Rules establish performance requirements and characteristics for voting systems and their components used in the State of Georgia and identify performance characteristics of these systems and components.
2. Compliance with the requirements of these Rules shall be assessed by means of code analysis, formal tests, and documentation review.
3. The intent of these Rules is to assure that hardware, firmware, and software have been shown to be reliable, accurate, and capable of secure operation before they are used in elections in the State. Hardware, firmware, and software products with performance proven in commercial applications are deemed inherently acceptable, provided that they are shown to be compatible with the operational and administrative requirements of the voting environment. Products not in wide commercial use, regardless of their performance histories, shall require Qualification, Certification, and Acceptance tests before they can be used.
4. These rules are intended to assist local jurisdictions in identifying products and provide a standardized terminology which shall facilitate the specification and demonstration of system requirements.

**(b) Applicability.**

1. These Rules are applicable to voting systems first used in the State of Georgia on or after the effective date of these Rules. These Rules are waived for all voting systems in use in the State of Georgia as of the effective date of these Rules. Successful performance during past elections are deemed sufficient evidence of adequate design. These Rules shall apply to systems developed by non-governmental third parties and those developed in-house by a local government.

2. These Rules apply to all equipment and computer programs used in a voting system including, but not limited to, the hardware, firmware, and software required for defining an election, formatting ballots, setting up precincts for voting, recording votes, tallying the results, and producing all reports.

3. These Rules apply to any agency, group, or individual responsible for the analysis, design, manufacture, procurement, or use of voting systems, their subsystems, or their components.

4. Any modification to the hardware, firmware, or software of a voting system which has completed Qualification, Certification, or Acceptance testing in accordance with these Rules shall invalidate the State certification unless it can be shown that the modification does not affect the overall flow of program control or the manner in which the ballots are recorded and the vote data are processed, and the modification falls into one of the following classifications listed below. The Secretary of State shall be the sole judge of whether or not a modification requires additional testing.

(i) The modification is made for the purpose of correcting a defect and procedural and test documentation is provided which verifies that the installation of the hardware change or corrected code does not result in any consequence other than the elimination of the defect.

(ii) The modification is made for the purpose of enabling interaction with other general purpose or approved equipment or computer programs and databases, and procedural and test documentation is provided which verifies that such interaction does not involve or adversely affect vote counting and data storage.

5. The addition or alteration of utility software and device handlers which do not interact with vote counting software except through the

intended input/output channels in the manner originally intended does not constitute a requirement for a mandatory retest.

(c) **Reciprocity.** The Secretary of State may accept the results of the Qualification tests and/or Certification tests from another state or testing agency that has performed the tests described in these Rules. This reciprocity does not extend to the Acceptance tests or any portion of the Certification tests, which are considered to be unique to the State of Georgia.

(d) **Procedure.** This review and approval procedure is limited to those voting systems and equipment that have passed the prototype stage and are in full production and available for immediate installation and use. Qualification tests shall be performed to evaluate the degree to which a system complies with the requirements of the *Voting Systems Standards* issued by the Election Assistance Commission (EAC). Whenever possible, Qualification tests shall be conducted by Independent Test Agencies (ITA) certified by the EAC. In the event that tests by an ITA are not feasible, these tests shall be conducted by a Georgia Certification Agent designated by the Secretary of State.

Certification tests shall be performed to certify that the voting system complies with the Georgia Election Code, the Rules of the Georgia State Election Board, and the Rules of the Secretary of State. A Georgia Certification Agent designated by the Secretary of State shall conduct certification tests. The Qualification and Certification testing of a voting system for use in the State of Georgia shall proceed in the following steps.

1. **Qualification.** Prior to submitting a voting system for certification by the State of Georgia, the proposed voting system's hardware, firmware, and software must have been issued Qualification Certificates from the EAC. These EAC Qualification Certificates must indicate that the proposed voting system has successfully completed the EAC Qualification testing administered by EAC approved ITAs. If for any reason, this level of testing is not available, the Qualification tests shall be conducted by an agency designated by the Secretary of State. In either event, the Qualification tests shall comply with the specifications of the Voting Systems Standards published by the EAC.

**2. Letter of Request.** After the voting system has completed EAC Qualification testing, the evaluation procedure to obtain certification for use of the voting system in the State of Georgia shall be initiated by letter from the vendor of the voting system to the Office of the Secretary of State requesting certification for a specific voting system. The Secretary of State or her representative shall notify the vendor of the earliest date after which the requested evaluation may begin and provide the vendor with the name and telephone number of the designated Georgia Certification Agent.

**3. Submission of Complete Technical Data Package.** The vendor shall submit the Technical Data Package described in section (g) to the Certification Agent designated by the State. The Certification Agent shall review the submission of the Technical Data Package and notify the vendor of any deficiencies. Certification of the voting system shall not proceed until the Technical Data Package is complete.

**4. Preliminary Review.** The Georgia Certification Agent shall conduct a preliminary analysis of the Technical Data Package and prepare an Evaluation Proposal containing the following information:

(i) Components of the voting system requiring evaluation.

(ii) Identification of any hardware or software components requiring additional testing by the EAC ITAs.

(iii) Description of the activities required to complete that portion of the evaluation which is to be performed by the Georgia Certification Agent.

(iv) Estimate of time required to complete the portion of the evaluation, which is to be performed by the Georgia Certification Agent.

(v) Estimate of cost of tests which are to be performed by the Georgia Certification Agent.

**5. Authorization to Proceed.** The vendor shall review the Evaluation Proposal and notify the Secretary of State, in writing, of

the desire to continue or terminate the evaluation process. The evaluation of the system shall not begin until the manufacturer or vendor notifies the Secretary of State to proceed. A copy of this notification shall be sent to the Georgia Certification Agent. A decision to continue shall obligate the vendor to the cost of the evaluation contained in the Evaluation Proposal.

**6. Evaluation.** The vendor shall arrange with the EAC ITAs for any additional required ITA testing identified in the Evaluation Proposal. After any required ITA tests have been successfully completed, the Georgia Certification Agent shall conduct the tests described in the Evaluation Proposal and submit a report of the findings to the Secretary of State.

**7. Certification.** Based on the information contained in the report from the Georgia Certification Agent, and any other information in her possession, the Secretary of State shall determine whether the proposed voting system shall be certified for use in the State of Georgia and so notify the vendor.

**8. Local Jurisdiction Acceptance.** After a voting system is delivered to a local jurisdiction, acceptance tests shall be performed in the user's environment to demonstrate that the voting system as delivered and installed is identical to the system that was certified by the State and satisfies the requirements specified in the procurement documents.

**(e) Proprietary Information.** The State of Georgia shall make every effort to protect the proprietary nature of information provided to the State or its agents during the course of these evaluations in accordance to Georgia law for protecting proprietary information. Any proposed non-disclosure agreements shall be of the type and form in common commercial usage appropriate to similar situations and shall be subject to review and approval by the Georgia Attorney General.

**(f) Audit and Validation of Certification.**

1. It shall be the responsibility of the vendor to ensure that any voting system or component of a voting system that it markets or supplies for use in the State of Georgia has been certified by the Secretary of State. It is also the responsibility of the vendor to submit

any modifications to a previously certified system or component to the Secretary of State for re-certification and to update the Technical Data Package on file in the Office of the Secretary of State to accurately reflect the modifications.

2. If any question arises involving the certification of a voting system or a component of a voting system in use in the State, the Technical Data Package and Certification documentation on file in the Office of the Secretary of State shall be used to verify that the system or component in question is identical to the system or component that was submitted for certification.

(g) **Technical Data Package.** Before evaluation can begin, the vendor must submit to the Georgia Certification Agent the Technical Data Package required to complete the evaluation of the proposed voting system. Each item in the Technical Data Package must be clearly identified. If the Technical Data Package is incomplete or the items in the package are not clearly identified, the entire package may be returned to the vendor and the evaluation of the voting system rescheduled. In most cases, the Technical Data Package submitted to the ITAs shall be sufficient for State certification.

The Technical Data Package shall contain the following items in hard copy and in electronic form when available.

(i) *Customer Maintenance Documentation.* Documentation describing any maintenance that the vendor recommends that can be performed by a customer with minimal knowledge of the system.

(ii) *Operations Manual.* Operations documentation that is normally supplied to the customer for use by the person(s) who shall operate the equipment.

(iii) *Software Source Code.* Source code of all software and firmware in the voting system. The source code shall be supplied in the form of a listing and in a machine-readable form on media that is acceptable to the Georgia Certification Agent. If there is any chance of ambiguity, the required compilers) and/or development environment must be specified.

(iv) *Software System Design.* Documentation describing the logical

design of the software. This documentation should clearly indicate the various modules of the software, their functions, and their interrelationships. The minimum acceptable documentation is a system flowchart. Deviation of the source code from the system design may be cause for rejection of the voting system.

(v) *Customer Documentation.* A complete set of all documentation which is available to the purchaser/user of the voting system. Clearly identify that documentation which is included in the cost of the system and that documentation which is available for an additional charge.

(vi) *ITA Qualification Reports.* Copies of the ITA reports for the hardware and software qualification of the voting system. These reports must be sent directly from the ITA to the Georgia Certification Agent.

(vii) *Formal Complaints and Decertification Notices.* Copies of any formal complaints and/or decertification notices that have been filed against the proposed system. This documentation must clearly identify the jurisdiction filing the complaint or decertification notice and give the details of the resolution.

(viii) *Test Data/Software (Optional).* Any available test data, ballot decks, and/or software that can be used to demonstrate the various functions of the voting system. Although optional, these items can significantly reduce the effort, and hence the time and cost, involved in the evaluation of the system.

Authority O.C.G.A. Secs. 21-2-1, 21-2-50, 21-2-258, 21-2-388, 21-2-379.2. **History.** Original Rule entitled "Certification of Voting Equipment" adapted. F. Jan. 21, 1988; eff. Feb. 10, 1988. **Repealed:** New Rule entitled "Certification of Voting Systems" adopted. F. Mar. 28, 2005; eff. Apr. 17, 2005.

## **590-8-1.02 Verification of Voter Registration Information.**

(1) The board of registrars shall enter the information contained on voter registration applications into the statewide voter registration database in a timely manner.

(2) Verification of applicant's United States citizenship.

(a) Georgia driver's license number or identification card number.

1. If an applicant submits an application for registration and uses the applicant's Georgia driver's license number or identification card number for evidence of United States citizenship purposes, the Secretary of State shall attempt to match such number to the Department of Driver Services database.

2. If the Department of Driver Services records indicate that the applicant is not a United States citizen in the Department of Driver Services database, the Secretary of State shall attempt to verify the applicant's United States citizenship status with the United States Citizenship and Immigration Services utilizing the Systematic Alien Verification for Entitlements program. Such verification will indicate whether the applicant is designated as a citizen of the United States within the Verification Information System database.

3. If the Department of Driver Services cannot confirm that the applicant has provided satisfactory evidence of United States citizenship to the Department of Driver Services and the Secretary of State cannot confirm the applicant's United States citizenship through the Systematic Alien Verification for Entitlements program, the board of registrars shall take the following steps:

(i) The board of registrars shall ensure that the Georgia driver's license number or identification card number was entered correctly into the statewide voter registration system. If the board of registrars determines the number was not entered correctly, the board of registrars shall correct the driver's license number or identification card number in the statewide voter registration system. The Secretary of State shall match the new driver's license number or identification card number to the Department of Driver Services database.

(b) Alien registration number.

1. If only the alien registration number from an applicant's naturalization documents is provided for United States citizenship purposes, the Secretary of State shall attempt to verify the applicant's alien registration number with the United States Citizenship and Immigration Services utilizing the Systematic Alien Verification for Entitlements program.

Authority O.C.G.A. Secs. 21-2-216. **History.** Original Rule entitled "Verification of Voter Registration Information" adopted, F. Dec. 16, 2009; eff. Jan. 5, 2010.

**RULES OF  
OFFICE OF SECRETARY OF STATE  
ELECTIONS DIVISION  
CHAPTER 590-8-2  
HELP AMERICA VOTE ACT OF 2002 PROVISIONS**

**TABLE OF CONTENTS**

690-8-2-.01 Administrative Complaint Procedure  
for Violations of Title III of the Help  
America Vote Act of 2002

**590-8-2-.01 Administrative Complaint Procedure for Violations of Title III of the  
Help America Vote Act of 2002.**

(1) Any person who believes that a violation of any provision of Title III of the Help America Vote Act of 2002 (Public Law 107-252; 42 U.S.C. 15301, et seq.) has occurred, is occurring, or is about to occur may file a complaint with the Secretary of State. Such complaint shall be open to inspection by the public during business hours upon reasonable notice.

(2) Such complaint shall be in writing and shall be signed and sworn to by the person making the complaint and shall be properly notarized in accordance with state law. The complaint shall be delivered to and served upon the Secretary of State as the chief state election official in person, by U.S. Mail, or by guaranteed overnight delivery.

(3) The Secretary of State shall investigate the allegations of such complaint. If more than one complaint is filed concerning the same alleged violation, the Secretary of State may consolidate such complaints for investigation.

(4) If the complainant requests, the Secretary of State or a designee thereof shall conduct a hearing on the allegations of the complaint. Such hearing may be by telephone, conference call, or in person and shall be recorded.

(5) If the Secretary of State or a designee thereof determines that such complaint is unfounded, the Secretary of State may dismiss the complaint and notify the complainant of her decision. The Secretary of State shall make the results of her investigation into the complaint available for public inspection during normal business hours upon reasonable notice after the matter has been resolved.

(6) The Secretary of State or designee thereof shall make a determination of the validity of the complaint within 90 days following the date on which the complaint is received by and filed with the Secretary of State unless the complainant agrees to an extension of such time period.

(7) If the Secretary of State or designee thereof determines that such complaint is valid, the Secretary of State shall take all necessary and appropriate actions within her authority to address the violation; and

(8) If the Secretary of State or designee thereof does not render a final determination on a complaint filed pursuant to this rule within 90 days after the complaint is filed, or within any extension period to which the complainant has agreed, the Secretary of State or designee thereof will, on or before the third business day after the final determination was due to be issued, initiate proceedings for alternative dispute resolution;

(a) To facilitate alternative dispute resolution, the Secretary of State shall maintain a list of qualified independent professionals who are capable of acting as a mediator, from which the Secretary of State or designee thereof and the complainant shall each choose one mediator to review the case.

(b) The Secretary of State or designee thereof shall designate in writing to the complainant the name of a mediator from the list referenced in section (a) to serve on an alternative dispute resolution panel (resolution panel) to review the complaint.

1. If proceedings for alternative dispute resolution are initiated pursuant to this paragraph, not later than 3 business days after the complainant receives such a designation from the Secretary of State or designee thereof, the complainant shall designate in writing to the Secretary of State or designee thereof the name of a second mediator. If the complainant fails to designate a mediator within the time allowed above, the sole mediator shall review the record from the hearing and make a final recommendation based on the submitted record. Not later than 3 business days after such a designation by the complainant, the two mediators so designated shall select a third mediator to complete the resolution panel. If the complainant fails to designate a mediator within the time allowed above, the sole mediator shall review and dispose of the matter without selecting a second or third mediator.

2. The mediator or resolution panel may review the record compiled in connection with the complaint, including, without limitation, the investigative file on the matter, the audio recording of the hearing, any transcript of the hearing and any briefs or memoranda submitted by the parties but shall not receive any additional testimony or evidence to resolve the matter.

3. The mediator or resolution panel by a majority vote, shall after reviewing the record referenced above, provide a recommendation to the Secretary of State not later than 50 days after the final determination of the Secretary of State was due. This period for issuing a written recommendation will not be extended.

4. Upon receipt of the recommendation from the mediator or resolution panel, the Secretary of State or designee thereof shall issue a final order pursuant to the authority granted under O.C.G.A. 21-2- 50.2(c), but such remedy shall not exceed the remedies available under Title III of the Help America Vote Act of 2002.

5. The final order of the Secretary of State or designee thereof will be:

(i) Mailed to the complainant, each respondent and any other person who requested in writing to be advised of the final resolution;

(ii) Posted on the website of the Secretary of State; and

(iii) Made available by the Secretary of State, upon request by any interested person.

6. A final determination by the Secretary of State or designee thereof is not subject to appeal in any state or federal court.

Authority O.C.G.A. Secs. 21-2-1, 21-2-50.2. **History.** Original Rule entitled "Administrative Complaint Procedure for Violations of Title III of the Help America Vote Act of 2002" adopted. F. May 11, 2004; eff. May 31, 2004.

So you are aware, I have not yet found a dominion contract and everyone I have talked to here doesn't think we ever contracted with them. Let me know if you have specific information otherwise, but I don't think we ever contracted with Dominion. Regarding third party technology escrow, you can see from the Diebold contract there was an addendum attachment for an escrow contract that was not filled out or completed. So far I have not found a completed escrow contract but I'll keep looking. I'll provide you later today an estimate on your second request involving ES&S and the Fulton Case Files.

Hi Kevin:

I agree in principle to pay the fee- how do I get you payment- is there an electronic way I can pay?? Also, I wonder why you would need to redact any aspect of the contract? I requested the Diebold contract back in 2005 and Cliff Tatum who held your role previously gave me a copy of the full contract without redactions.. so I expect that redactions are not necessary with the contract part of my request....

Secretary of State â Elections  
Brian KempâTs Office  
Open Records Custodian  
214 State Capitol  
Atlanta, GA 30334

Dear Custodian of Records:

Under the Georgia Open Records Act Â§ 50.18.70 et seq., I am requesting an opportunity to obtain copies of public records as follows:

- a. A copy of the Signed Dominion Voting Contract with Georgia including all addendums and SOWs â Statement of work
- b. A copy of all contracts signed with Kennesaw State University â Center for Elections for any aspects of Georgia elections.
- c. All contracts with Technology escrow services such as DSI Technology Escrow Services, Inc.
- d. Any contracts signed with Diebold Election Systems, Inc. or RFPs whether current or signed anytime after 2000.

If there are any fees for searching or copying these records, please inform me of the cost. However, I would also like to request a waiver of all fees in that the disclosure of the requested information is in the public interest and will contribute significantly to the publicâTs understanding of how Georgia Elections are run by 3rd party vendors. I am a citizen who is genuinely entitled to this information. This information is not being sought for commercial purposes.

The Georgia Open Records Act requires a response time within three business days. If access to the records I am requesting will take longer than three

days, please contact me with information about when I might expect copies. I prefer copies sent by:

1. email to [REDACTED]@deblume.com or
2. Fax # 1.866.563.9212

If you deny any or all of this request, please cite each specific exemption you feel justifies the refusal to release the information and notify me of the appeal procedures available to me under the law.

Thank-you for your timely response to my request,

Phyllis Huster, Ladies of Liberty

## PROCEEDINGS

**SECRETARY KEMP:** Okay. Welcome again, everyone to the special call State Election Board meeting, Tuesday, December 17<sup>th</sup>, 9 a.m. I want to go ahead and call the meeting to order.

We think Mr. McIver is en route. So we'll go ahead and get started today. We'll bow our heads – briefly for the invocation and then we'll say the Pledge and then we'll get started.

- - -

## INVOCATION

- - -

## PLEDGE OF ALLEGIANCE

- - -

**SECRETARY KEMP:** Just a couple of quick announcements, Mr. Simpson is not with us today. He had some back surgery so we certainly wish him well with his recovery and look forward to having him back soon. Also, I just want to remind everybody, as I often do, this is a probable cause hearing. Basically, what we're here today to do is to determine if there is enough evidence for the board to take certain actions with the different cases that are before us like being referred to the attorney general's office or send them back for further investigation or dismissing the case altogether.

With that being said, the way this is going to work today is, we're going to let Mr. Harvey present the different cases before us one at a time. Once he goes through that we'll then allow the election board members to ask questions of him and then once we're finished with that we'll let Mr. Walbert, the attorney for Fulton County, give a presentation or make remarks or be able to address the board however he sees fit. And then, we'll also see if there's anyone who would like to make a public comment involved with these cases. So with that Mr. Harvey, I'm going to let you present to us SEB Case No. 2012 No. 156 which is the 2012 General Election case for Fulton County.

**MR. HARVEY:** Thank you, Mr. Secretary, members of the board. This election drew a large amount of scrutiny. It's -- everybody knows that elections are about accountability. Accountability for elected officials and also the accountability of people performing the elections to make sure the results are properly and accurately reported. On November 6, 2012, Fulton County held a general election that included the offices of the President, members of Congress,

and other officials and there were significant problems with the election. What I've got on the screen now is the left side is stacks of provisional ballots and on the right side is a copy of a certification that was submitted by Fulton County in which they say that a true and accurate count of votes cast is represented therein. I think by the end of the presentation there will be reason to believe that that might be called into question.

There are five key areas that I want to discuss on the November 6th general election. They involve pre-election failures, absentee ballot problems, problems at polling places, problems with provisional voting, and problems with provisional tabulation and notification of voters. The pre-election failures begin in the days, weeks, and months prior to the election. One of the most important jobs of election officials prior to election is making sure that election --voter registration applications get processed by the deadline. In this case, the deadline for registering to vote in this election in Georgia was October 9<sup>th</sup>. And there's always a flood of voter registration applications in the days, weeks, and months leading up to the election.

Fulton County, as we were shown, was unable to complete the task of properly entering all those registration applications. These include new voters, voters who were changing addresses, voters who were changing names, voters who had additional information, whether they lacked sufficient ID, or they asked questions of the citizenship status. There were thousands and thousands of these applications that came to Fulton County. In the past, Fulton County had brought in additional data processors to meet this need. In this case, Fulton County did not. There ended up being a significant problem as a result. When they failed to update the voter registration system, they ended up with a huge supplemental list that I'll talk about in a little bit more detail that included over 6000 voters who were not included in the ExpressPoll.

When it came to Election Day Fulton County also failed to prepare precincts with the number of provisional ballots and paperwork and they demonstrated that poll workers were inadequately trained and largely unprepared to deal with a lot of the challenges that they would count. In the electors list, when most people go to vote and they show their identification they're pulled up on a machine that is called an ExpressPoll. And that ExpressPoll contains all the registered voters within a county each; county has their own list. That's important because if somebody is not on that list, according to the poll worker sitting there, they're not eligible to vote and secondary steps have to be taken. In order to complete the ExpressPoll, the information has to be entered in the system, in this case by October 26, 2012. After October 26, any additional entries would not be in the ExpressPoll system and would have to go on the supplemental list. Supplemental list are usually quite small.

In this case, Fulton County had over 6000 voters that were on the provisional -- I'm sorry, that were on the supplemental list. That list was closed on Saturday, November 1<sup>st</sup>. In addition, on Sunday and Monday, days prior to the election, an additional over 300 voters were then added after the supplemental list was posted so those voters were essentially invisible to election officials. They were not going to be able to ExpressPoll and they were not going to be on the supplemental list that poll workers would look for to find voters who were not on the ExpressPoll. There were another 412 voters that were entered after the supplemental list was printed.

And on November 5<sup>th</sup>, this is a copy of an email I sent to Secretary Kemp and the elections director. I sent investigators to Fulton County to check on the – we had gotten a large number of complaints regarding people not showing up as being registered to vote in Fulton County. I sent two investigators over to Fulton County to check with the elections director, Sharon Mitchell, to see if they had solved the problem. Ms. Mitchell informed the investigators that everything was taken care of, everything had been entered. There were a few extra that they had found on Monday, but everything was going to be fine. That ended up not being correct.

This is the short summary of the people that were added after the close of the ExpressPoll: Seventy-three of those people voted. Eleven of those 73 that voted provisional ballots were rejected by Fulton County even though they were properly registered. And this will come up a little bit more when we get into the provisional ballot tabulation system. But these are 11 voters who were entered late into the system by Fulton County and then when they were offered a provisional ballot and voted it when Fulton County went to check on it and Fulton County again said, oh, you're not in the system your ballot is rejected. So these are 11 voters who were not – whose vote did not count.

Fulton County conducted an internal survey, internal audit, into their practices and one of the more telling responses came here from an election official who said, visiting Fulton County, registration elections officials could not obtain clear verification of the staffing and heavy workload requirements because voters registration cards were moved from the sign out location and placed around the office so no one would be able to identify the workload. Cards were hidden at employee work stations, thousands of voter registration cards were not entered into the system or addresses updated and that's from a Fulton County poll worker.

Ralph Jones in Fulton County election office admitted that in the pressure before the election that they stopped entering address changes in the voter registration system, which again, caused a voter who had moved and presumably changed their address to go to the wrong voter precinct attempt to vote and be told that they weren't on the list and either be forced to go somewhere else or vote a provisional ballot. And in a lot of cases people would be in line for several hours getting to the ExpressPoll to be told, oh, you're not registered to vote. You either have to go to a different precinct or you have to go to a provisional ballot.

There was some debate back and forth as to whether or not the Fulton County was largely responsible for the failures to enter the information in the voter registration system or whether not it was the result of errors or delays from the Secretary Of State's office. And what we determined was that the Secretary Of State's office had a system where they had to call Fulton County and in several cases Fulton County would normally come and pick up two boxes of voter registration applications in the days before the cutoff. There were some days when no Fulton County staff responded to pick up those registration applications. There were times when Fulton County said they would only take two even when there were more boxes.

The Secretary Of State's office had an all hands on deck pressed right before the deadline were everybody in the office including upper-level managers and staff were clearing these voter registration applications and sorting them to get to the counties. The evidence is that Fulton County can't really lay the blame for the late registration on the Secretary Of State's office.

There's a 145 report, I cannot profess to say I know exactly what 145 is, but it's a report that summarizes all the data entry that's done by the counties in the days -- you can pick any timeframe. In the days before the election, these show the last time that entries were made. So you can see starting the 26<sup>th</sup> and going through the 5th there were three days when entries were made after 10 p.m., but there were several days where entries were made one, three, and several at the normal closing time.

So the idea that there was some type of huge push doesn't appear to be substantiated by the 145 report. The total 145 report, and this where I'm going to compare Dekalb County to Fulton County, from October 1st until November 1st, 2012, Dekalb County processed 278,190 entries into their VR system. And they did that with 34 workers. And this is everything from absentee ballot applications to new voters to change of address forms to missing ID. This is basic total entry into the voter registration system. Dekalb County did 278,190 in 30 days or between October and November. Fulton County did just slightly more in that same time period with a hundred workers. Fulton County completed 284,317 entries and they still did not complete the entries into the VR system.

I mentioned this before, the most obvious reason why the VR systems is not updated appears to be -- this was reported by Gary Smith, who was the election consultant Fulton County hired to evaluate their elections, he mentioned this and this was also the most constant and consistent complaint that poll workers had in this internal poll I mentioned, was that Fulton County did not supplement their office with temporary workers.

In terms of failing to prepare precincts and poll workers, there was no specific increase in the number of provisional ballots that were distributed after it would've been known that they were going to have a huge supplemental list. They did not identify precincts that might have problems and give them additional provisional ballots. There was no communication with poll workers about this huge supplemental list that was coming. It ended up that almost 2500 provisional ballots had to be printed and distributed on Election Day.

The communication system, which had been billed as state-of-the-art and which may have been state-of-the-art, was ineffective and failed miserably on Election Day. And that's based on reports from poll workers, monitors we had on the ground, and a lot of people. The communications system simply did not work. There are some reports that it was untested before it was put into place. And lastly, poll workers seemed remarkably ill-trained to handle supplemental lists and provisional ballots. Sir?

**SECRETARY KEMP:** I just would like the record to show that Mr. McIver has arrived.

**MR. MCIVER:** Mr. Secretary, my apologies.

**SECRETARY KEMP:** No, no, not a problem. Go ahead Mr. Harvey

**MR. HARVEY:** When you're dealing with 10,000 provisional ballots, which is a huge increase and wouldn't normally happen, many poll workers simply didn't have the experience to deal with that certainly in those numbers and in some cases not at all. And lastly, there were at least

two precincts where the supplemental list was not provided to the poll workers. And this would be devastating to poll workers when you have the VR system and the ExpressPoll that is missing over 6,000 names on it. To not have a supplemental list to go to as your backup list proved pretty damaging to lease two precincts in Fulton County.

As far as absentee ballot problems go, they were relatively small compared to previous elections and in light of everything else that happened. We did get approximately 22 complaints received, most of the ballots didn't arrive, and the ballots arrived late or on Election Day. We had three cases where more than one ballot was sent to individual voters. And we had reports of ballots that were mailed back in plenty of time but were not received and accredited by Fulton County. This is -- again, part of the survey from a poll worker in Fulton County -- it's difficult to read but it says under What did not go well?, on the date that all ballots were to mail out for applications received prior to that date, all ballots did not go out within the two day period.

Once the volume picked up and Advance Voting began, efficiency declined because staff was pulled to work Advance Voting. In addition, there was a lack of communication between the application processing team and the mailing team. This resulted in the entry of absentee ballot issues being late or not entered at all, in violation of state law.

And again, we found that was true although to a much smaller extent than we received in other cases in Fulton County. These are three copies of the second absentee ballot that was sent to three voters in Fulton County. The Hovaters, Mr. and Mrs. Hovater, each received two ballots and Ms. Keuller received two ballots. They both returned -- all three people returned their unvoted second absentee ballots to the Secretary Of State's office. But it's not known if there were others that were mailed out and not returned or voted or what happened to any of them. I mentioned this at the January 31st hearing and I'll just sort of put it into the record again.

Rollie Buchanan, it's a case where he requested an absentee ballot in early October and he did a remarkable job of documenting the steps he took and the conversations he had and the documentation with Fulton County election officials to try to get an absentee ballot mailed to I believe is was New York. And it ended up after repeated phone calls and repeated faxing of applications and repeated assurances that things would happen his ballot arrived actually on Election Day in New York and was unable to be voted and cast by him even though he took extraordinary steps. And again, somebody that has taken extraordinary steps with an absentee ballot and still not getting it is certainly problematic as far as absentee ballots go.

Moving on to the problems at polling places: I've got three complaints that are fairly typical. We received over 120 different complaints about polling places. And again, without reading every single word of all these complaints they're essentially in the record. This gentleman, Mr. Hamby, was lamenting the fact that his 18-year-old son, who was looking forward to his first time voting, was not able to vote. The poll worker shook her head and apologized as this was becoming a frequent occurrence at her polling place. He says how he's really sad how this young man was excited to take part in the American dream and was declined because of the gross mismanagement and complete inaptness of Fulton County.

This is a complaint from Rebecca Roesener who was complaining -- her complaint ends up being

a sort of impression as we'll see later in this report. She reports that she moved to Georgia from across the country. Imagine my frustration when arriving at my polling place I was told multiple times that under no uncertain terms that I would not be allowed to vote even though I was at the proper polling location and had register to vote before the cut-off time. Only when I insisted that I be allowed to speak to the polling judge was I allowed to vote using a provisional ballot. At that point, it was clearly pointed out to me that if Fulton County did not bother to find out if I was a registered voter, they can choose to not count my ballot. I am a registered voter, and yet I was told I am not. If Fulton County can't figure out if I am register in the four weeks between when I registered and the election, how are they planning to do that in the three days following the election?

And the third is from Molly Jones: I moved to Midtown from Fairburn about 3 years ago and have changed my address. My polling place was Grady High School. When I arrived to vote there, they told me that I had to vote in Fairburn. I was not given a provisional ballot and was not allowed to vote. And this is – these next two slides, and you can't read them, but they are in the PowerPoint as the record and they're a little bit more legible. I can certainly make them more legible. These are some of the complaints that we received about polling places. And they contain complaints for everything from long lines to not being allowed to vote provisionally, to machines not working, poll workers not understanding how to work the equipment, waited an hour and a half to get the provisional ballot.

So you can see we were inundated with complaints about polling place problems on the Election Day. And then, sort of a summary of the problems at the polls, you had over 5,000 properly registered voters who had to vote provisional ballots. And this will speak somewhat, I believe, to the performance of the poll workers, 3,732 voters who cast provisional ballots were in the ExpressPoll who should have voted on DRE. It's baffling how that many people who were in the ExpressPoll system were not able to vote on the DRE. Now, you could argue that if every single one of those people went to the wrong precinct they may have voted a provisional ballot. I don't think the evidence would support that at all. Whether the poll workers didn't know how to look people up there's really no explanation why that number of voters would not be allowed to vote on DRE and would have to vote provisional ballots.

In addition, there were about 1100 voters who were on the supplemental list should have been allowed to vote on the DRE but had to vote provisional ballots. There were several precincts that ran out of provisional ballots and caused delays of hours, in some cases, before provisional ballots could be brought to them. If you recall back in January I read some affidavits from people who waited hours and had to make three and sometimes four trips back to polling places to see if more provisional ballots had been delivered, in some cases, having to go after the closing of the polls. As I mentioned, Fulton County printed almost 2500 provisional ballots. The last batch was printed at almost 6:30 p.m. and was delivered after 7 p.m. Of course, people that were in line to vote were still able to vote, but one has to wonder how many people would've made multiple trips back to a polling place after being told there are no provisional ballots to be cast.

There didn't appear to be any coherent or effective plan to deliver or stock the provisional ballots

as they began to run out. Our office contacted Fulton County officials early in the day after we started getting multiple reports that there were an usually high number of provisional ballots and precincts that were running out of ballots. There didn't seem to be much of a plan for delivering those provisional ballots. Poll managers reported spending hours on the telephone trying to get assistance, which often never materialized. And some voters were simply told they would not be able to vote at all because they weren't on the list.

ExpressPoll recapping and DRE recap problems, part of the accounting process at the end of the night with voting is that you have the ExpressPoll which would indicate how many voter cards were created which should indicate the number of people who voted or at least were issued a ballot. The DRE should show the number of votes that were cast on a specific machine or on all the machines in the precinct and those numbers should add up. If there are one or two exceptions it could be accounted for.

Of the 247 recap sheets provided to the Secretary Of State's office, 138 of them appear to be accurate, but 109 of them had errors, omissions, or other problems. This chart highlights some of the worst problems, some of the most disparity in the DRE and ExpressPoll Recap sheets. And if you look at the -- the two arrows show the difference in what the DRE and the statements of votes cast and the ExpressPoll show with these 18 or 19 precincts you end up with a difference of almost 2,000 those between what the ExpressPoll says and with the DRE Recap sheets said. In some cases, recap sheets were not filled out properly. In some cases, they were completed. But again, you've got a massive problem, I think, with accountability trying to reconcile systems.

With regard to provisional ballot problems and this is the largest area of concern in this election I believe. How many people voted provisionally in Fulton County? I'm not confident that anybody would ever be able to answer that question with much precision at all. I'm not sure how well you would be able to ballpark it. Fulton County had approximately 95 - 9600 provisional ballots that were cast on Election Day. Of that, Fulton County reported that almost 2500 were out of precinct provisional ballots. And out of precinct provisional ballots is if I were registered in the Sandy Springs precinct and instead I went a Midtown precinct and it was late they would let me vote a provisional ballot in Midtown because I wouldn't able to get to my precinct is Sandy Springs.

The fact that there were 2442 may not be as obvious as it would appear because remember the voter registration system had not been updated and addresses had not been changed so even if all 2442 voters did go to the wrong precinct, it's not clear that it would've been their fault and it's not clear that all of those voters actually went to the wrong precinct. But anyway, these provisional ballots accounted for about 54 percent of all the provisional ballots cast in the state in that election. And as the board members know, that voting a provisional ballot is sort of a "vote of last resort." It's the last attempt to protect somebody's right to vote if they believe their properly registered. The problem on the backside of that is it becomes incredibly intensive both during the vote casting process and on the backend when it comes to the documentation and the security and the counting and the verification of those ballots.

So as soon as somebody issues -- decides a provisional ballot must be issued they start a chain of

paper and human accountability that goes through several iterations. And if any one of those steps is omitted or failed you can come up with some significant problems. This chart represents different numbers of provisional ballots that were reported. Now granted, some of the early columns were estimates that were given either to the media or the Secretary Of State's office, but the final number appears to be about 9,585 although the report that was given to the Secretary Of State's office said 9,575. It appears they did the math wrong and were off by 10.

You'll see, and I'll point out several times, nowhere in any of this accounting do provisional ballots add up with voters with provisional voter certificates, with the envelopes themselves, with the list of voters, with people getting credit for voting, for people having their provisional votes rejected. And just to quickly run through so that everybody understands how significant this process is, I want to just very quickly go through what a poll worker is supposed to do with a provisional vote. He supposed to have the voter complete a voter's certificate, check the voter's ID, they then enter the voter's name on a list of provisional voters, the poll worker enters the voter's name, precinct and the other data on the outer envelope and they provide the ballot and two envelopes to the voter. The voter then returns it to the poll worker who verifies the information is complete, marks the reason for the provisional ballot, directs voter to deposit the ballot, then takes the voter's certificate and voter registration application puts those together and puts them off to the side.

So you can see that that so far is a fairly -- already it's a document intensive procedure, accounting procedure. The provisional ballot documentation process was practically and largely ignored by many poll workers of Fulton County. I'll go into each of these in a little bit more detail but I just want to get them out there. First, the provisional voter's certificates were often not completed properly if they were completed all. Many provisional ballot envelopes were not properly marked or documented. The lists of provisional voters were often not completed properly, if at all. Many voters were not given voter registration applications as is required in most cases when somebody goes to file a provisional ballot. And all provisional voters were not given information about checking their ballot status after the election.

Completing a provisional voter's certificate is important in determining why a voter is voting provisionally. There are several reasons why somebody might want to vote provisionally. This is what a provisional voter's certificate looks like. You see on the left is the front side and the right is the backside. The front is properly filled out by this voter. You'll notice on the back and this is the actual certificate not just a blank one, none of the information on the back is completed in terms of why this person is indicating why they believe they are eligible to vote and what the poll officer's marking as to the type of provisional voter.

In Precinct 03A, there were 91 certificates that were just like this completed on the front but no indication whatsoever on the back. Like I said, there were 91 provisional voter certificates and most errors were failing to designate why a voter was voting provisionally. All this stuff comes back to the verification processes. Its information, it's not just there because somebody thought it would be a good idea to put in there. There were poll workers that had difficulty accepting and documenting ballot envelopes. There were many poll workers that did not know how to process, secure, and accept provisional ballot envelopes. We mentioned this at the January hearing about

six Bridget Jackson ballots that were accepted by the poll workers.

The reason it's so important for the provisional ballot envelopes to be properly documented is that once they're voted the ballots themselves should be secured in a container until the time that the decision is made whether it should be accepted or rejected. Once the list of accepted ballots is determined then the worker is to go and pull every one of those envelopes that has the accepted person on it and they open it and they count that ballot. When these ballots are put away properly and you get a list of the names of the people that are supposed to vote there's no way to go back and determine who these people are if their names are not properly documented on the ballot envelope. Fulton County explained it was determined that this was an error on the part of the poll worker.

There did not appear to be anything nefarious about it, but you'll notice even as the poll worker improperly put her name rather than the voters name on it, in several cases she failed to complete the provisional code as to why, first of all, what type of election it was and the provisional code. In this case, you'll see the one on the right 90003 she's marked Democrat for some reason. In the general primary that should never be marked. There were several times were she marked some but she didn't mark others and it's just an indication of poor ballot security in this case.

Provisional ballot recaps polls, and this is something that we talked about at the January meeting as well, the recap sheet errors are – again, it's even probably more important for the provisional ballots the documentation be done properly because there is no digital company there's no digital fall back where you can go to ExpressPoll or you can go to DRE and say we definitely have an X number of votes cast on this machine. With provisional ballots you're dealing with people, you're dealing with paper, and dealing with things that can be accidentally destroyed, intentionally destroyed, accidentally altered, intentionally altered, and it became clear that a lot of people simply did not know how to complete recap sheets.

This is an example, again, of what we used in January. This shows Precinct 11G and you'll see that there's no serialization for provisional ballots. There are 59 names on a list where there's absolutely no accounting for how many ballots they started out with, how many were cast, how many were unused. The list of voters on the right again has no ballot style that was issued and no indication as to whether or not ballots were accepted or rejected. You'll notice here the poll worker said that they had to bring some more ballots but there's no indication of how many extra ballots were brought, what happened to the extra ballots were they accounted for, were they destroyed, were they voted, were they transferred to somebody else, there's simply no answer to that.

And this is Precinct 01A provisional recap sheet you can see is completely blank. That's as much documentation that was done in Precinct 018A for the recap sheets. And as you'll see, Precinct 01A had, depending on how you do the math, over a hundred provisional ballots were cast. Again, no indication on any of this stuff, how many did they start with, how many were voted, how many were returned? And then the list of provisional voters, as I mentioned before every voter that votes a provisional ballot was supposed to be added manually to a list. And that list is what's used to document the acceptance or the rejection it's what's supposed to be used to document the acceptance or the rejection of the ballots. The list of provisional voters, again,

many were incomplete, they were incorrect, they were missing, some didn't exist at all, and some were severely undocumented. This again is Precinct 03A, and the list of provisional voters on the left appears to have been done properly at the precinct and you'll see the notations accepted/rejected. You also see the precincts that the voter was voting in, is written in red. And on the right, is a second part of the list that was obviously created after the election for what reason we're not sure, it shows acceptance or rejection of these provisional ballots. In those cases, it doesn't show when they were accepted and what precinct they were voting in. Did the poll manager start doing it properly and then stop, was the one on the right labeling correctly, who completed it, we simply don't know.

This is a random list of provisional voters. There was a stack, a fairly large stack of lists that were just like this. Notice there's no indication whatsoever of what precinct it was, what time it was voted, anything even frankly what election it was. We presume it was from the general election because it was with all the others from the general election, but if you look at this briefly you'll see that it appears that it was worked properly; however, you've got five voters where there's no indication if ballots were accepted or rejected. And in this case, all five of these voters had registered prior to the deadline. None of them received credit for voting and Fulton County did not provide provisional ballot envelopes for these five voters.

You'll notice at the bottom left where it says rejected ballot Gheorghe, Sima or Sima Gheorghe, has a provisional ballot rejected but he was registered prior to the October deadline. We've got voters that were not given credit for voting though the ballots were marked as accepted. So again, you get back to the question, how many people voted, whose votes counted? It's very difficult to understand; very difficult to determine.

More provisional ballot problems at the polls, a lot of poll workers did not provide the required documentation with provisional ballots. When somebody votes a provisional ballot because they are not on the list, they are required to be given a voter registration application. And anyone who votes provisional ballot is required to be given written documentation that explains how they can check on the progress of the ballot. We had many reports of people that didn't receive any voter's registration application for the provisional ballots. I think if you recall back in January the question was raised, how many voter registration applications they have received since the election? They weren't sure.

Fulton County subsequently reported that their provisional voter registration applications got commingled with the regular voter registration applications so they really couldn't say how many provisional voter registration applications came in. But just by example, these are 22 people that we spoke with in the course the investigation who voted a provisional ballot and we just asked them, hey, did you get the voter registration application when you voted a provisional ballot? All 22 of these people did not get voter registration applications. And one of the problems with that is that if these people were, in fact, not registered to vote they're still not registered to vote. That was the reason for issuing the voter registration application because for whatever reason it didn't get entered, it was lost or it was destroyed, it was incorrectly coded now they at least, if they didn't get a vote this election, they'll be registered to vote in the next one.

If you'll notice, based on the registration date entry which is the second last column on the right, all of these people were entered right before the election so it's unlikely that they would have shown up on the ExpressPoll which would indicate that they should assume to have not been registered and should have been given a voter registration application. And we had cases where people assumed they'd been denied the opportunity to even vote a provisional ballot. In some cases, it was because there were simply no provisional ballots to offer them. But in some cases, we had voters who actually asked to vote provisional ballots and were simply told they could not and they left without voting a provisional ballot.

We get to provisional ballot verification process; all provisional ballots have to be determined by 5 o'clock on the Friday after the election. Fulton County didn't even start verifying their 9,575 provisional ballots until Thursday after the election so they lost an entire day of verification. The law actually allows election officials to pick up provisional ballots from the precinct while the polls are still open so that they can start the verification process. And again, when provisional ballots were provisioned by the lawmakers they envisioned one or two people voting provisional ballots had to be checked. They weren't thinking 10,000 people voting provisional ballots in the largest county in the state.

So if they started Thursday morning that gave them 41 hours to validate 9,575 provisional ballots. If they took three and a half minutes per ballot verification, which I think is a pretty conservative estimate, it would have taken 443 hours to complete the process. Fulton officials did not work around the clock, although, they did work some late shifts. Ralph Jones further testified that in addition to one person checking basically we had two people check every provisional vote. So you can take all of those numbers and double them because according to election officials they had every provisional ballot checked by at least two people.

In order to check – just briefly going through the process, they would check the “Go” screen, which was in the VR system that would show whether or not somebody was registered, show where they were registered, when they were registered. If somebody showed up on the “Go” screen they would be approved if they were registered in time, their provisional ballot would be approved and would be moved to the side to be counted. If it was not in the “Go” system the next step would be to go to the unprocessed voter registration applications that had come in that were in boxes and go through each of those to try to find if the person's voter registration application came in late. Lastly, they would check the Department of Driver Services website to determine if somebody registered to vote. So you can see as a three and a half minute per ballot twice that seems a very conservative estimate, and we'll see that there are significant failures with provisional ballot verification.

We had provisional ballots that were rejected for people who registered to vote. In the case of the McGlashans, this was a husband-and-wife who registered at the same time at the same address. They both went to vote at their designated precinct. Mr. McGlashan was allowed to vote Mrs. McGlashan was not. Mr. McGlashan's ballot was accepted Mrs. McGlashan's ballot was not. You also had voters who had provisional ballots accepted even though they weren't registered to vote and I've got some slides that will indicate that. The provisional ballots were not secured during the tabulation process.

When I went over to the Fulton County elections office the day after the election, there were provisional ballot envelopes that were scattered through cubicles, there were 2 or 3 rooms where the ballots were being evaluated, they were at computer stations with individuals handling them, writing on them, marking on them, they were then returned to a central room. So the ballots themselves, which were required to be kept basically under lock-and-key during the verification process, were simply not done at all. Fulton County could not even produce physical evidence that everybody listed as voting provisionally cast a ballot.

I'll get into the 10th Precinct provisional ballot analysis but there were hundreds and hundreds of people that were listed as having voted a provisional ballot but when we asked to see the envelope the person cast Fulton County was not able to present us the envelope and/or the voter's certificate the person would have marked. There were voters that were shown to have voted provisional ballots who never cast provisional ballots. We found 95 names that were listed as having cast provisional ballots and voting on DRE so the concern there was the voter casting two ballots, and that could conceivably happen. What we found when we talked to as many of the 95 as we could, most of those people only voted on DRE. Most of them did not cast a provisional ballot and they did not have a provisional ballot certificate. How they ended up on the list of accepted provisional ballots is a mystery. And this is just documentation on Mrs. McGlashan this is her email explaining her attempts to voting and having been rejected. And on the right is a letter of rejection saying that Fulton County was not able to determine that she was properly registered when in fact she was.

These are people from Precinct 01A whose names were on the list of accepted provisional ballots who don't care to be in the voter registration system. How these people had ballots accepted is a mystery, as well? There didn't appear to be any type of system for the recording acceptance or rejection of a provisional ballot. If you recall on those provisional voter lists some of them indicated if the ballots were accepted or rejected others were completely blank. The envelopes themselves were marked accepted or rejected and as you recall in January Ms. Mitchell testified that that was the ultimate answer as to whether or not a ballot was accepted or rejected. You go to the ballot envelope itself rather than the lists. So how they were able to put together a list of all the provisional ballots that were accepted or rejected is mysterious and is probably why there are so many errors because there was not a single system that was used.

Fulton County didn't follow their own policies regarding handling provisional ballots and the chain of custody that Fulton County had in place on paper was virtually ignored. And this is the 10th Precinct provisional ballot analysis. We showed you this in January, and again, if you go down the columns to the left, if you just take these 10 precincts and take the numbers of list provisional voters the total was 911. If you take the list on the recap sheet it's 789. If you take the provisional voter certificates that Fulton County was able to produce it's 755. If you take the actual provisional ballot envelopes that Fulton County was able to produce you get 649. So almost a 300 voter discrepancy between what's on the list of voters, what's on the recap sheet, and what they were able to actually show us? Here's an envelope that was cast by Joe Lector that shows they voted a provisional ballot.

**SECRETARY KEMP:** Mr. Harvey, just a quick question. Up to this point you've basically been talking about countywide numbers for the election, correct?

**MR. HARVEY:** Yes.

**SECRETARY KEMP:** And then on this provisional ballot your investigators just did 10 precincts out of 300?

**MR. HARVEY:** Yes, sir. Out of 342 I believe. So yeah, these numbers are just for 10 precincts that we highlighted. Certainly, not every precinct was problematic but there were more precincts than this that had similar problems. You can see, just in here you've got a 300 number difference between what's from the beginning to end the highest possible to lowest possible. If you'll also recall in January the poll managers that were subpoenaed to testify in front of the State's Election Board said that none of these poll managers were questioned by election officials when they turned their documents in. They were not asked to account for not having a recap sheet, for not having the same number of provisional ballots that they had listed, for having missing information, nobody was challenged or questioned. And the question is where are all the documents?

You then get into the notification of provisional voter's ballot rejection. The law requires that if a provisional voter's ballot is rejected for any reason that they be notified by US mail of the reason for the rejection. Fulton County provided 4,681 letters of rejection that they sent to provisional ballot voters. The 34 of them had no reason for why the ballots were rejected. Thirty-five of the letters had no city, state, or zip code on the address. 11,154 letters had no mailing address at all. And you'll see this is one where there's no reason for the rejection that would normally be up there; there were 34 of those. Thirty-five of these simply had a street name without any city or zip code. And then, over 1100 of these that were sent out had simply the voters name and had no address at all. There was absolutely no way this letter could've gotten to the voter.

The theory as to why there's no additional information is because the provisional voter certificates were not filled out completely in a lot of these cases and the only way you would get the voters name and address is from a provisional voter certificate. If those are not properly filled out and/or retained and/or used to document the ballots you would end up with the situation that you have here where there is absolutely no way that letter is getting to the voter. Now, if you go, and this is a little more specific than I mentioned before, if you go by the provisional ballots or the voter lists Fulton County is missing 267. If you go to the recap sheets of just these ten precincts Fulton County is missing 131 provisional ballots. If you go according to the number of voter certificates Fulton County is missing 203 provisional ballots. And again, just out of those ten precincts.

This is a document that was presented in January that caused a lot of concern. This is the SS14 where you had voters that were added to the list of provisional voters after it was turned in, in red ink and they were all accepted. If you call, in January when asked about why this was done or what would account for this, the election officials didn't have any explanation. They also didn't have an explanation when we asked them in December about this same issue. It turns out that

apparently, again, apparently these five voters went to the wrong precinct and they may have filled out a voters certificate but they never cast a provisional ballot and the reconciliation process back at the election office somebody thought, well, we need to add these voters. We've got a voter certificate I assume they cast a ballot and so they were added to the list. And then when somebody looked them up to see if their vote should have counted they would've seen, hey, they're in the system we would accept their ballot. So their ballots were accepted when, in fact, they really weren't cast so they didn't vote two ballots. There again, on the left they have -- this is from the list of provisional ballots that were accepted from Fulton County and then the numbered of list of voters from Precinct 7A. And you'll see that Ms. Bradshaw is listed on both lists as are the other four voters that were in SS14.

And again, the concern that there was some type of nefarious activity, I think, is larger than -- I don't believe there's an indication that somebody was intentionally trying to make it appear that somebody was voting twice, but again, unless you go through every single one of these names there's really no way you can determine how many voters cast ballots and why they ended up on one list or another. Of the letters that were provided there were no letters that were sent out of 45, again, that's just out of the ten precincts, 45 Out Of Precinct voters who had their provisional ballots duplicated. And again, if somebody votes out of precinct and they're properly registered their ballot has to be taken and it has to be duplicated down to the point where they're no longer eligible to vote for a candidate. So in this case it was the presidential election.

If I voted in Buckhead and I live in Sandy Springs they would accept my vote for President, Congress, and possibly for County Commissioner, but once it got down to the very local election if I was in a different school board district then if what was available in Buckhead they would not count that. So my ballot would only be completed down to the most common candidate or the most common issue. Forty-five voters were in this position out of these 10 precincts and there were no letters that were sent to them; none indicating that the ballot had been duplicated. Again, this gets back to the other thing about all the red writing and there was a lot of concern about that at the January election.

The standard practice of the election officials explained to the -- when they met at the Fulton County commissioners, I think the next day or maybe two days after the meeting with the State Election Board, they explained, oh, this is very common, we use the red ink so it won't be confused with what happens at the precinct. If you recall, they weren't able to say anything like that on the day that they met with the State Election Board. And frankly, the provisional ballot system was in such a wreck that red writing and trying to manipulate something in the provisional ballot system had been just about all but impossible.

When we get to the list of violations we were able to determine in this case, in Fulton County, we've got I think four pages. I'm not going to go through each of them individually unless somebody would like me to. They range from the registration issues, to the provisional ballot issues, security of provisional ballots, SEB rules regarding documentation of provisional ballots. And again, I'll be happy to go over them if somebody wanted me to but I think that would be pretty time intensive. And at this point, that concludes the presentation of SEB 2012-156.

**SECRETARY KEMP:** Thank you, Mr. Harvey. We're now going to take some questions from

the board for Mr. Harvey and then we'll give Mr. Walbert an opportunity to address the board and make remarks. Three quick questions that I have, it appears to me that we've had people that were disenfranchised that never even got a vote that were not properly registered even though they made the deadline. Would you agree with that?

**MR. HARVEY:** Yes, sir.

**SECRETARY KEMP:** It also appears that we have the disenfranchised that actually voted but then their ballot or vote was rejected?

**MR. HARVEY:** Yes, sir. That's correct too.

**SECRETARY KEMP:** And then, we had people that it appears voted that should not have voted.

**MR. HARVEY:** They're at least recorded as having voted. But then again, in some of these cases peoples name would be on the list of ballots that were accepted and then there's no envelope for them. So whether they actually cast ballots or not we don't know but there are certainly people that are listed as having credit or whose ballots were accepted who were not registered to vote.

**SECRETARY KEMP:** So I guess this is a little in-line with one of the last points you made about the provisional ballots that they were out of precinct and they were not duplicated. Potentially, you could have people that were voting in some of the more local races like the school board or county commission seats because they were voting out of precinct they could have been voting in the wrong election.

**MR. HARVEY:** They could have. I want to just clarify a little bit. Whether all these were duplicated properly we don't know. We do know that, the point I made at the end, was that they were not properly notified that their ballots had been duplicated. That's presuming that they were properly duplicated. That's assuming they were properly duplicated.

**SECRETARY KEMP:** Any other questions from the board for Mr. Harvey? Mr. Walbert.

**MR. WALBERT:** My name is David Walbert. I represent the respondents to some extent in this case. Just to be clear, I don't represent, if there is personal individual cases against the ex-Sam Westmoreland or Ms. Mitchell, I'm here on behalf of the County and I represent them in an official capacity who would be their successor now at this time. My address is Parks Chesin and Walbert, 75 14th Street Northeast, Atlanta, Georgia 30309. And I appreciate the opportunity to respond, the members of the board and Mr. Secretary. I want to say just a few general things here; make a few different points.

Number one, I think it's important to keep in mind that we have never actually, until we got the report from Mr. Harvey dated February 26<sup>th</sup>, that's the first time we've gotten a written specification of allegations against the Fulton County Board with all this almost a year going on at this point. I think one of Mr. Harvey's last points I was disappointed in was his comment that at the January 31st hearing at which time we had been given zero prior notice of what the

allegations would be. That was a matter that Mr. Harvey didn't show at that time and I'm not belittling that but that was all without any notice about what the allegations were. And he sits there and says today Mr. Jones I think it was said that he used red ink on something several days after but didn't offer that at the time of the January 31st hearing. If we put this in context remember that that was a probable cause hearing. There was no evidence given by our side on that, no response of evidence and we had no prior notice at all of what the questions or allegations were. So I think that needs to be put in context.

There are many things in Mr. Harvey's allegations that we would take issue with. In saying that, I don't mean to sit here and say that the Fulton County elections were handled entirely appropriate at that time. But let's do keep in mind several things I think that are most important which is, what happens going forward? Fulton County Board of Elections had gone through some tremendous problems with leadership; we agree to that. I think you all know the history of Mr. Westmoreland how he ended up becoming the chairperson of the board. He was in over his head and that's reflected in the lack of leadership and the changes administratively he implemented like many of the actual problems that occurred since that time.

And then Ms. Mitchell was the interim head or interim director of the department waiting until there was a new permanent director that was hired. And there has been a complete wholesale change in the board itself. They've got four new appointees and chairperson here Mary Carole Cooney who is here today is fantastic in terms of her knowledge, her dedication, and her leadership. Ms. Cooney, I think most of you know, is very experienced, very well-respected attorney and been with the City of Atlanta for years and has been in her own practice subsequent to that point in time. Under her leadership, they have hired just in the last few months a new director of the Atlanta -- executive director of the Fulton County Department of Registration Elections Mr. Rick Barron who was in Austin, Texas prior to that time after a comprehensive and intensive nationwide search for someone who could lead the Department of Elections and get rid of some of the problems it has had in the past.

So on the one hand, we're very much focused on dealing with the future and doing as good a job as is possible. Looking back to these other matters, I think it is appropriate that this be referred to the attorney general because the gulf of factored perception of what happened is so great that I think in that context of hearings, unfortunately, is the only way to kind of shake this down to the kind of -- what really were problems that need to be addressed retrospectively. Just to give you a couple of examples: Mr. Harvey talks about provisional ballots and the number of provisional ballots and that being such a great problem in Fulton County.

There were a large number of provisional ballots in Fulton County which was not at all inconsistent with what is seen in other counties of that size around the nation. And I think you all have at this point a response that we did to the January 31st hearing that we did in March and provided that initially to Mr. Harvey and I understood it didn't get to the board so I sent copies to the board itself. One of the things that we point out in there is very, very important, I think it was glossed over by Mr. Harvey, is what federal law says about provisional ballots. Yes, Fulton County is liberal, for a lack of a different term, in the provision of provisional ballots in these elections and it's our view that we're following a clear explicit mandate of federal law. And it's

says that, and I'm quoting, "in the election for federal office a person must be permitted to cast a -- must be permitted to cast a provisional ballot if his or her name does not appear on the official list of eligible voters for the polling place." So as we read that and that's Section 1542 of 42 USC that law as we read it specifically demands that the County give a provisional ballot to a voter whose voting out of precinct. The State Election Board -- the state law is a little different than that and the State Election Board is different from that. It's more restrictive and it's like Mr. Harvey said in his report. And as he says in here -- and he dances around this issue and doesn't come to grips with it and it's critical to resolve this question of the number of provisional voters, which way Fulton County needs to go. And again, I think the federal law is pretty clear on this but that's something that needs to be resolved because as their current practice is it's going to continue to have a lot of provisional ballots.

It's going to continue to have that if Fulton County continues to do what it historically has, which if you read federal law that seems to be what they need to be doing. Mr. Harvey says, well, you know, you could, and this is more consistent with the state rule, one could have directed people to come to the wrong precinct to go to another precinct. That's really what I recall an exact language in the state rule is required. It would seem to be a direct conflict with what the "must language" of the federal statute. Point being, why there's so many provisional ballots is not because of incompetence or so something like that the vast number of them are because of people and they do have a traditional expectation to be able to vote out of precinct in Fulton County because they have and that does seem to be mandated. If that gets stopped and that's another question that's a legal issue but that's something that needs to be addressed and that goes more to the heart of provisional ballots than anything else that's been said.

**SECRETARY KEMP:** Mr. Walbert, let me ask you a question about that because if you're stating federal law then you're also saying that Fulton would be in violation of that federal law because there are a lot of people that didn't get provisional ballots that tried to go vote.

**MR. WALBERT:** Well, that would be a -- we're going to have the hearing, because that's where we take great issue. I think another problem, Mr. Secretary, is you know one of the things we get is 150 anonymous complaints about the people saying this or that and the ones that we finally get out who it is and we can track it down, you know, it's out of 375,000 voters 150 people are making different complaints about not having been given a voter registration or being offered that and so on.

**SECRETARY KEMP:** You know, you use the word incompetence but, you know, wouldn't you agree that when you don't properly get people registered to vote and they're not in the system correctly whether on the electronic poll or on the paper list and even if they are the paper list doesn't get to the precinct then you get into the part where you're talking about federal law and getting provisional ballots out. The point is that should have never happened to start with and I personally talked to people that tried to vote in the primary election in July that never got registered and they finally gave up and called the Secretary Of State's office and after four calls we finally got the child registered and she got to vote in the general election. I mean, that's where our frustration comes from and that's completely documented. I if you want to dispute that we're glad to see any documentation that you have.

**MR. WALBERT:** Here's what is completely documented is that Fulton County received from the Secretary Of State's office 3,849 applications after the close of the ExpressPolls. That's a fact. So when we talk about we're going out at registration and who got it wrong -- Mr. Harvey says 40 temporary workers were hired by Fulton County and unless I'm having a hearing problem I thought he just said that there were no extra people brought in and that was the problem. In fact, it was 40 temporary people brought in solely to be processing these applications. And almost 4,000 were received from the Secretary's office after the close of the ExpressPoll, which is of course, weeks after the deadline for registering, but they had either got to one of the legally enabled agencies that could take them and they were slow getting them to your office or they were at your office.

As Mr. Harvey said, "all hands on deck" were trying to get those processed in the Secretary Of State's office. They would be there for weeks at times before they got from the Secretary Of State's office to Fulton County. That's what caused 3,849 of them to get there actually after the time then they could have possibly -- even if we put them in instantaneously and 3849 of them ended up too late to even get in the ExpressPoll. So there's problem's all -- I hear the allegations and I think there's two sides to these stories. And I think that's one of the problems about getting all of these things resolved.

I think that's why, unfortunately -- because really, our goal here, and I think Mr. McIver's suggestion was the best thing happened in the January 31st hearing and that is, let's come up with a -- I want to hear a creative solution because the issue here is to make this as good as possible going forward, we're all for that. And we, of course, explored that. I still hope that that will be the outcome of going forward here. We have totally new leadership and we have real professional leadership on the Fulton County Board. We don't want to gloss over what's happened in the past nor do we want to get accused of things that are one side of the story. That's the problem we're having at this point. And I think with the attorney general it's the place to maybe dig into some of the facts more.

There are two sides and some of them are right some of them are wrong, whatever, everybody would be focused I think on what's the best way at going forward. I think that is everybody's interest. So that's really -- I don't want to go through all the litany of accusations and so on and talk about the response. You do have my response from the January 31<sup>st</sup> hearing and I appreciate you all taking that into consideration. But we are in agreement, and I don't know if this my motion, but we are in agreement with the -- being referred to the attorney general so that there can be further investigation of the facts and hearings as necessary or propose resolutions of the entire matter however that falls.

**SECRETARY KEMP:** Any other questions for Mr. Walbert? Mr. Worley.

**MR. WORLEY:** Mr. Walbert, Mr. Harvey indicated in his presentation that there were various numbers, what was the actual number of provisional ballots cast in Fulton County in the general election in 2012? Which is the correct number in your opinion?

**MR. WALBERT:** I thought it was 9575. He said there was a mistake in the arithmetic. I'm not aware of that. And let's be clear, Mr. Worley, about cast, some people use cast meaning

accepted as opposed to filled out. We're talking about filled out.

**MR. WORLEY**: Yes, I meant filled out. How many were filled out in the 2008 general election?

**MR. WALBERT**: That would have been radically different. I don't know that offhand.

**SECRETARY KEMP**: Does anybody from the elections division staff happen to know that number?

(Let the record reflect, there was no response.)

**MR. WALBERT**: One thing I might add, Mr. Worley, I think Mr. Harvey is right that on occasion the reasons for acceptance or rejection of the provisional ballot is not written on the ballot envelope and the reason for that is the primary system for recording that data it's all computerized. When a person does it it's entered into the computer. So it's not like there's no record of that, it's just that it's not duplicated hand written on the thing. Rural counties often just write it and they do it by hand. That's not what you do in a county of this size. And so all those entries and that data is there. So it's not like that data doesn't exist.

**MR. WORLEY**: I have another question. You indicated there had been some personnel changes in the election's office; could you go into that in a little more detail?

**MR. WALBERT**: Yes. More specifically, again, it was a very intensive nationwide search for an executive director with professional leadership abilities and experience in election management with no ax to grind and no agendas and so on. And that was extended out through the very intensive efforts of Ms. Cooney and the other people on the board but Ms. Cooney in particular and advertisement was done nationwide. A number of people were interviewed in June I believe it was. Mr. Rick Barron from Austin, Texas was hired to be the new executive director. He has moved here with his family to Atlanta from Austin and he is the head that we are very optimistic that will be what it needs.

**MR. WORLEY**: Has Mr. Baron made any personnel changes in the office?

**MR. WALBERT**: I don't want to answer that question, Mr. Worley. I think this would be me speaking way out of school but --

**MR. WORLEY**: Is Ms. Mitchell still there?

**MR. WALBERT**: Oh, I'm sorry, Ms. Mitchell is not there.

**MR. WORLEY**: Do you know of any other people who --

**MR. WALBERT**: I don't. I can't say that's accurate. I do think, in all fairness, there needs to be a better system of determining who are poll managers and some sense of greater control of that to make sure that the best possible people are available. And Fulton County, you know, has got financial constraints and so on maybe worse than other people because it's got some special laws and so on. I do think that focusing on and I think Mr. Harvey and I would agree on some

things probably more than one would think from me sitting here throwing trash at him this morning but I think that getting -- making a real effort to get good poll managers is very important.

**SECRETARY KEMP:** Mr. McIver.

**MR. MCIVER:** Mr. Walbert, can you identify for me, who in here is from Fulton County?

**MR. WALBERT:** The chairperson of the board, Ms. Mary Carole Cooney and I don't know -- and this individual here.

**COMMISSIONER HOUSEMAN:** Commissioner Houseman.

**SECRETARY KEMP:** Commissioner Liz Houseman. Welcome to you both.

**MR. MCIVER:** Mr. Barron's not here?

**MR. WALBERT:** No. He asked whether he needed to be here and I said I thought this would be a matter that would be referred. You know, he will certainly see all this. When we get a transcript and he's read the transcript of January. I assure you, his being here is not a lack of interest. Hopefully he's gotten -- it's not that at all.

**MR. MCIVER:** Well, you anticipated my question. Should we draw any inference from that --

**MR. WALBERT:** You should criticize the --

**MR. MCIVER:** -- other than the Commissioner and the Chair seems to be a lack of interest from the staff --

**MR. WALBERT:** You should criticize his lawyer if you're going to criticize someone, Mr. McIver. I didn't see a value of his being here as opposed to something else. Not that this is irrelevant, I actually thought this was going to be a -- I didn't realize we were going to go into this kind of presentation. I actually thought the hearing was going to be something where we would agree it would be referred to the attorney general for further hearing is what I thought. I didn't realize that Mr. Harvey would be getting into this kind of presentation. We will get from Mr. Harvey his slides and I think there's a transcript so I'm sure he would have given -- it did turn out to be substantive in that regard. Mr. Barron will most surely be involved.

**MR. MCIVER:** So we shouldn't draw an inference?

**MR. WALBERT:** No. The only inference you could draw really would be criticizing his lawyer.

**SECRETARY KEMP:** Well, let me just say this for the record. Despite some of the issues, in my opinion anyway, I think we have and continue to have in Fulton County past Mr. Barron has shown a lot of good initiatives through the last election process here in the last few months in working with our office so we're certainly embracing that. And my goal and this Board's to, like Mr. Walbert said, is to have well run elections in Fulton County. But I will caveat that with, you

know, I still remain deeply concerned about what happened. This problem, it seems to recycle every few years and that's, I think, unacceptable in my opinion especially when you're having people that are disenfranchised during the elections process and you're seeing the systematic problems in one county in the state and nowhere else -- you know the rest of the 150 cases. And I think that's what we've got to reach a conclusion so we don't have to deal with this again in the future and that's certainly my goal. Are there any other questions for Mr. Walbert? All right, do we have anyone else that wishes to speak on this matter? Commissioner Houseman, did you want to speak?

**COMMISSIONER HOUSEMAN:** I would like to say that I do have a staff attorney here from Fulton County.

**SECRETARY KEMP:** Let the record show that there is also a staff attorney from Fulton County in the room with Commissioner Houseman. All right, anyone else wishes to speak on this matter? Ms. Ford, if you don't mind I'd like for you to address the board just on exactly how the voter registration process works leading up to the election and what we were doing and what your staff is doing and what our past practice in getting voter registrations to Fulton County and how they are getting them from us just so we're clear on that matter.

**MS. FORD:** Linda Ford, 323 8<sup>th</sup> Street NE Unit 6, Atlanta, Georgia 30309. Our office receives voter registration forms into our mailroom. And it is as has been stated in the weeks and particularly the days before the general election we get thousands of those applications in for every county in the state. We date stamp those so that if an application for example is mailed on the Monday of the voter registration deadline, which I believe was October 9<sup>th</sup> for the general election, if it is date stamped any time up until that Friday coming into our mailroom then that voter registration application is deemed when the County receives it eligible to be registered to vote if it does not have a postmark on it. And so that way we're given -- we're airing on the side of the voter. Because you'd be surprised how many voter registration applications we receive that are not postmarked for whatever reason. And so that way it relieves any doubt when the County gets that.

And then of course, we are also receiving in the mail during that whole week voter registration applications that were mailed on the voter registration deadline, which was October 9<sup>th</sup> of this case. So those are all shipped out to the counties. Every day we get trays and trays of mail and during that week and the week preceding we ask investigators, we ask people from the front office, we have people come up from Macon to go through those applications to make sure they're date stamped, sort them into the counties, and then they're mailed out to the counties. So there is no sorting into a specific county and holding that county. They're all sorted and they're all going out.

For Fulton County, we had an arrangement because, of course, they're only two blocks down the street, where somebody from Fulton County would come every day and pick up those voter registration applications. And that way they don't have to be mailed two blocks down the street and that seemed to have worked out very well. Leading up to the voter registration deadline we did have some issues. Some days they would not come and we had to reach out to Fulton County to ask them to send someone and also some days they would come and not pick up all of

the voter registration applications in which case we call Fulton County and reported that to them. And that was what I believe you heard Mr. Harvey speaking to.

**SECRETARY KEMP:** Any questions for Ms. Ford? Okay, anyone else wishing to speak on this matter?

**MR. HARVEY:** Yes, Mr. Secretary. If I could just clarify two things that are in response to what Mr. Walbert said: One, as far as the provisional ballots go, I don't think that anything I said was necessarily designed to indicate that Fulton County should not issue the provisional ballots. It was unfortunate that the voter registration system caused that to happen but if Fulton County issued 50,000 provisional ballots they're obligated to account for every single one. And I think in my opinion that's the bigger concern not the issuing of provisional ballots but the lack of documentation and security.

And the second, Mr. Walbert mentioned 3,000 voter registration applications were sent after the deadline, it was practice that our office continued to send voter registration applications to the counties even after the deadline. And these could have been some that came in a week before the election. We had a continuous stream so if any county received a voter registration application say the week before the election it would be up to them to determine if they want triage or do they want -- you know we're not going to touch these until after the election because we know these people won't be registered.

**SECRETARY KEMP:** And they shouldn't be registered because they didn't --

**MR. HARVEY:** Correct. The other practice could be that we would just hold everything that came in and then unleash on them after the election but we don't do that. We keep a steady stream of voter registration applications coming through the days leading up to the election. I don't know, specifically, the 3,000 he spoke about, but yes, it would be an accurate statement to say we continue to send voter registration applications after the deadline but they may well be not suitable for registration.

**SECRETARY KEMP:** Anyone else wishing to speak? This is the last call on this particular case, 2012 No. 156. If not, do we have a motion? Any discussion with the board?

**MR. WORLEY:** I make a motion. Mr. Secretary, I make a motion that we refer Case No. SEB 2012-156 to the attorney general's office.

**SECRETARY KEMP:** We have a motion from Mr. Worley do we have a second?

**MR. MCIVER:** Second.

**SECRETARY KEMP:** Second from Mr. McIver. Any other discussions?

**MR. WILLARD:** Mr. Chairman, can the record reflect which respondents the board is finding probable cause against to refer over to our office?

**SECRETARY KEMP:** Mr. Harvey, do you have any suggestions on that?

**MR. HARVEY**: In this case we've got Sharon Mitchell who was the acting election superintendent at the Fulton County Board of Registration and Elections is the only respondents.

**MR. WILLARD**: So I would amend my motion to reflect that we're referring that case and those two respondents to the attorney general's office.

**SECRETARY KEMP**: Okay, and Mr. McIver do you want to second that amended motion?

**MR. MCIVER**: Yes, sir.

**SECRETARY KEMP**: He does. We have a motion and a second to refer the AG's office. Any other discussion amongst the board? Hearing none, all in favor signify by saying, aye.

(Let the record reflect that the vote was aye unanimously.)

**SECRETARY KEMP**: All oppose; same sign. The motion will carry and we have referred that case. Mr. Harvey, we also got SEB Case No. 2012 No. 56, with issues that were dealt with in the primary election. Mr. Walbert, do you want us to present the case or do you have a preference?

**MR. WALBERT**: Thank you, Mr. Secretary. I had the impression from talking to Mr. Harvey that there was on that he was recommending further action and one of them not.

**SECRETARY KEMP**: That's correct. I think the next case dealing with the 2011 case was the recommendation from Mr. Harvey to dismiss. We can certainly do that. I just want to handle this.

**MR. WALBERT**: No problem. We're happy with taking his report and if he wants to put the slides in as part of the complaint if you will and I will deal with that after the referral.

**SECRETARY KEMP**: All right. Let me just call for the record so we can properly do this. Let me just call the next Case SEB No. 2012 No. 56 which is the 2012 primary election case against Fulton County. Mr. Walbert, the County's attorney, has agreed that he will be all right with us referring the case to the AG's office. Was there anyone here that wanted to speak in regard to this case? Did any of the board members have an issue with us doing that without hearing a report? Mr. Harvey, do you need the name of the respondents?

**MR. HARVEY**: In this case, it would be Sam Westmoreland is the elections superintendent and the board.

**SECRETARY KEMP**: Do we have a motion?

**MR. WORLEY**: Mr. Secretary, can we make a motion to accept the PowerPoint presentation and print a copy and send it to the board on SEB 2012-156.

**SECRETARY KEMP**: Well, we can. Is that a motion?

**MR. WORLEY**: Yes.

**SECRETARY KEMP**: All right. Mr. Worley makes a motion to accept the investigative

report, the PowerPoint, and make it part of what we will be taking action on, do we have a second?

**MR. MCIVER**: Second.

**SECRETARY KEMP**: Mr. McIver seconds. Any other discussions? Hearing none, all in favor signify by saying, aye. All oppose; same sign. That motion carries and we have accepted the report. Now, we're ready for a motion on SEB Case No. 56.

(Let the record reflect that the vote was aye unanimously.)

**MR. MCIVER**: I motion to bond over Case No. 56.

**SECRETARY KEMP**: All right, Mr. McIver has a motion to bond over 2012 No. 56 SEB case with Sam Westmoreland and Fulton County Elections as respondents.

**MR. WORLEY**: I second.

**SECRETARY KEMP**: We have a second. Any other discussion? Hearing none, all in favor signify by saying, aye.

(Let the record reflect that the vote was aye unanimously.)

**SECRETARY KEMP**: All oppose; same sign. That motion carries and we have referred that case. The last case on our agenda today is SEB Case No. 2011 No. 110. I'll just call that case. Real quickly, Mr. Harvey, if you would just give us a brief description.

**MR. HARVEY**: Yes, sir. This case involved allegations or concerns that Fulton County former residence of public housing facilities in Fulton County where the facilities had been demolished and people were still registered to vote at those addresses. A previous SEB case in 2009 from a complaint indicated that almost nobody falsely or improperly voted from those addresses. In this case, there was no election at hand. The concern was that there were thousands of people registered at addresses that didn't even exist anymore. That becomes a problem from a voter registration status point of view.

The only way to change somebody's voter registration is to delete them or alter them for a legal reason. Death, felony conviction, somebody rescinding their voter registration, the way the law is written in Georgia with regards to residents, it gives a very wide latitude to voters to move and that plan on returning. There's simply no indication that anybody that was registered in Fulton County had done anything wrong in terms of either voting from where they shouldn't have or anything else. It's possible that any summer all of those voters may have intended to return back to the location after it was rebuilt.

It sort of became a controversy when Mr. Westmoreland sent about 2400 letters to voters saying that they were going to be challenged because they didn't live where they registered. Fulton County backed off of that. They didn't challenge any voters. And then shortly before the general election, Ms. Mitchell decided she replace these voters in a pending status and require them to show proof of residency before they were allowed to vote in the general election.

After receiving some encouragement from our office they checked with their attorneys before they took such a step Fulton County decided not to take that step. So there were no voters that were in any way changed or affected or disenfranchised. There was no violation. Fulton County would have to deal with these questionable voters like any other voters. There simply doesn't appear to be any violation of state election law and I recommend this case be dismissed.

**SECRETARY KEMP**: Any questions for Mr. Harvey? Hearing none, anyone else wishing to speak on this matter? Okay, last call. Hearing none, do we have a motion on SEB Case No. 2011 No. 110? The recommendation is to dismiss. Any thoughts you want to share with us, Mr. McIver?

**MR. MCIVER**: I'm perplexed, sir, that's all. Inaudible.

**SECRETARY KEMP**: Anything else, Mr. Harvey?

**MR. HARVEY**: No, sir.

**MR. WORLEY**: I'll make a motion that we accept Mr. Harvey's recommendation to dismiss.

**SECRETARY KEMP**: We've got a motion to dismiss? Do we have a second? I'll second. All in favor -- or any other discussions? Hearing none, all in favor signify by saying, aye.

**SECRETARY KEMP**: All oppose; same sign.

**MR. MCIVER**: Aye.

**SECRETARY KEMP**: That motion carries 3 to 1 so that case has been dismissed. I believe that takes care of all of our business here today unless the board members have any other comments. I believe this will be our last meeting before Christmas and the holidays so I wish everybody the best this season and safe travels. We'll see you in the New Year. Thank you very much. I guess we need a motion to adjourn.

**MR. MCIVER**: I so move.

**MR. WORLEY**: I second.

**SECRETARY KEMP**: Mr. McIver moves that we adjourn and Mr. Worley seconds. Any discussion? Hearing none, all in favor signify by saying, aye.

(Let the record reflect that the vote was aye unanimously.)

**SECRETARY KEMP**: All oppose; same sign. That motion carries. Everybody have a great day.

(Whereupon, the proceedings ended at 10:35 a.m.)

CERTIFICATE

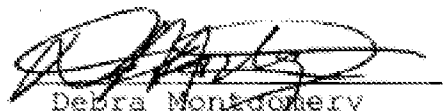

STATE OF GEORGIA        )

COUNTY OF COBB         )

I, Debra Montgomery, Certified Court Reporter,  
certify that the foregoing transcript is a true,  
correct and complete record of the said proceedings;  
that I am not a relative, employee, attorney or  
counsel of any of the parties; nor financially  
interested in the action.

Certificate No. 2838

## The Office of Secretary of State

**Brian P. Kemp**  
SECRETARY OF STATE

**Linda Ford**  
DIRECTOR OF ELECTIONS

**AGENDA  
SPECIAL CALLED  
STATE ELECTION BOARD MEETING  
State Capitol Building  
Room 341  
Atlanta, GA 30334  
Tuesday, December 17, 2013 – 9:00 a.m.**

### **I. CALL TO ORDER**

Invocation and Pledge of Allegiance

### **II. INVESTIGATION REPORT (C. Harvey)**

#### **PROCESS OF MEETING:**

#### **Chris Harvey to present on SEB Case No. 2012-156 (2012 General Election)**

- a) State Election Board can then ask questions in regards to the report; Chris Harvey may then field those questions.
- b) Mr. Waldrup is allowed to then give the response on behalf of Fulton County.
- c) Public response allowed by gallery and attendants.

#### **Chris Harvey to present on SEB Case No. 2012-56 (2012 Primary Election) found on page 24**

- a) State Election Board can then ask questions in regards to the report; Chris Harvey may then field those questions.
- b) Mr. Waldrup is allowed to then give the response on behalf of Fulton County.
- c) Public response allowed by gallery and attendants.

#### **Chris Harvey to present on SEB Case No. 2011-110 (no specific election) found on page 24**

- a) State Election Board can then ask questions in regards to the report; Chris Harvey may then field those questions.
- b) Mr. Waldrup is allowed to then give the response on behalf of Fulton County.
- c) Public response allowed by gallery and attendants.

**MINUTES**  
**STATE ELECTION BOARD MEETING**  
**State Capitol Building**  
**Room 341**  
**Atlanta, Georgia 30334**  
**Tuesday, December 17, 2013 – 9:00 AM**

Due notice having been given for the State Election Board Meeting pursuant to O.C.G.A. § 50-14-1 et seq.

**MEMBERS IN ATTENDANCE**

Brian P. Kemp, Chairman  
Rebecca Sullivan  
Tex McIver  
David Worley

**I. CALL TO ORDER**

Chairman Kemp called the State Election Board (SEB) Meeting to order at approximately 9:04 a.m. A quorum was established with the following board members in attendance: Chairman Kemp, David Worley and Rebecca Sullivan. Tex McIver was late due to a scheduling issue and was in the area and would arrive shortly. Chairman Kemp led everyone in the Invocation and Pledge of Allegiance.

Chairman Kemp called for the next order of business: Public Comment

**II. PUBLIC COMMENTS**

There were no public speakers.

Chairman Kemp preceded to the next portion the meeting. He laid out the framework of this particular meeting; allowing Chris Harvey to present his information and then Fulton County's attorney would be able to address the Board. He invited Inspector Chris Harvey to begin the Investigation Report on Fulton County.

Ted McIver arrived to the meeting at 9:18 a.m.

**III. INVESTIGATIONS REPORT (C. Harvey)**

**Fulton County Report:**

**A. SEB Case No. 2012-156 (2012 General Election)** – Chris Harvey presented this case via Power Point presentation. Lengthy violations were presented. Chris Harvey recommended that this case be bound to the Attorney General's office.

Public speakers included; David F. Walbert, attorney for Fulton County Board of Elections and Registration and Linda Ford, Elections Director for the Secretary of State's office.

David Worley made a motion to bind the case to the Attorney General's office, Tex McIver seconded; the motion passed 4-0.

Page 2 of 2

- B. SEB Case No. 2012-56 (2012 Primary Election)** – Chris Harvey presented this case and recommended the case be bound over to the Attorney General’s office. David Worley made a motion to accept Chris Harvey’s entire presentation, Tex McIver seconded; the motion passed 4-0 to accept Chris Harvey’s presentation.

Public speakers included; David F. Walbert, attorney for Fulton County Board of Elections and Registration.

Tex McIver made a motion to bind the case to the Attorney General’s office, Rebecca Sullivan seconded; the motion passed 4-0.

- C. SEB Case No. 2011-110** – Chris Harvey presented this case and recommended the case be dismissed.

Public speakers included; David F. Walbert, attorney for Fulton County Board of Elections and Registration.

David Worley made a motion to dismiss the case, Chairman Kemp seconded; the motion passed 3-1 with Tex McIver voting in opposition.

## IV. ADJOURNMENT

Chairman Kemp commended the Board, staff and investigators for their work. Personally welcomed members of Fulton County for attendance.

Tex McIver made a motion to adjourn the meeting, David Worley seconded; the motion passed unanimously, 4 - 0. Being no further business, the meeting was adjourned at approximately 10:35 a.m.

## STATE ELECTION BOARD

**APPROVED BY:**

**SUMMARY**  
**STATE ELECTION BOARD MEETING**  
**State Capital Building**  
**Room 341**  
**Atlanta, Georgia 30334**  
**Tuesday, December 17, 2013 – 9:00 a.m.**

1. Chairman Kemp called the State Election Board (SEB) Meeting to order at approximately 9:04 a.m. A quorum was established with the following board members in attendance: Chairman Kemp, David Worley and Rebecca Sullivan. Tex McIver was late due to a scheduling issue and was in the area and would arrive shortly.
2. Chairman Kemp everyone in the Invocation and Pledge of Allegiance.
3. Chairman Kemp called for the next order of business: Public Comment.  
There were no public speakers.
4. Chairman Kemp preceded to the next portion the meeting. He laid out the framework of this particular meeting; allowing Chris Harvey to present his information and then Fulton County's attorney would be able to address the Board. He invited Inspector Chris Harvey to begin the Investigation Report on Fulton County.
5. Tex McIver arrived to the meeting at 9:18 a.m.

Fulton County Report:

- a. **SEB Case No. 2012-156 (2012 General Election)** – Chris Harvey presented this case via Power Point presentation. Lengthy violations were presented. Chris Harvey recommended that this case be bound to the Attorney General's office.

Public speakers included; David F.Walbert, attorney for Fulton County Board of Elections and Registration and Linda Ford, Elections Director for the Secretary of State's office.

David Worley made a motion to bind the case to the Attorney General's office, Tex McIver seconded; the motion passed 4-0.

- b. **SEB Case No. 2012-56 (2012 Primary Election)** – Chris Harvey presented this case and recommended the case be bound over to the Attorney General's office. David Worley made a motion to accept Chris Harvey's entire presentation, Tex McIver seconded; the motion passed 4-0 to accept Chris Harvey's presentation.

Public speakers included; David F.Walbert, attorney for Fulton County Board of Elections and Registration.

Tex McIver made a motion to bind the case to the Attorney General's office, Rebecca Sullivan seconded; the motion passed 4-0.

- c. **SEB Case No. 2011-110** – Chris Harvey presented this case and recommended the case be dismissed.

Public speakers included; David F.Walbert, attorney for Fulton County Board of Elections and Registration.

David Worley made a motion to dismiss the case, Chairman Kemp seconded; the motion passed 3-1 with Tex McIver voting in opposition.

6. Chairman Kemp commended the Board, staff and investigators for their work. Personally welcomed members of Fulton County for attendance.
7. Tex McIver made a motion to adjourn the meeting, David Worley seconded; the motion passed unanimously, 4 - 0. Being no further business, the meeting was adjourned at approximately 10:35 a.m.

## **Report, 2012 Fulton County Elections**

This Report concerns three investigations into violations of Title 21 of Georgia law and rules of the State Election Board.

State Election Board Cases

### **SEB 2012-156 (2012 General Election)**

**Respondents: Sharon Mitchell and Fulton County Board of Registrations and Elections**

### **SEB 2012-56 (2012 Primary Election)**

**Respondents: Sam Westmoreland and Fulton County Board of Registrations and Elections**

### **SEB 2011-110 (no specific election)**

**Respondent: Fulton County Board of Elections and Registration**

Report Date

November 26, 2013

By

Chris Harvey, Chief Investigator, Georgia Secretary of State's Office

On January 31, 2013, the Georgia State Election Board (SEB) will convene an investigative hearing on three election investigations involving significant allegations of violating election laws and SEB Rules in Fulton County. Two of the cases (SEB 2012-56 and SEB 2012-156) deal with specific elections: the 2012 General Primary and the 2012 General Election. SEB 2011-110 deals with voter registration and residency issues, and while not necessarily specific to an election, the issue of accurate and timely voter registration played a role in the aforementioned elections.

### **SEB 2012-156 General Election**

The vast majority of complaints in this election were tied to voters having to vote provisional ballots after being told that their names did not appear on the ExpressPoll. There appear to be a number of issues that started with problems in the voter registration process in Fulton County. Voter registration applications were being entered into the voter registration system until the day before the election, which was ten days after the final list of voters were entered into the ExpressPoll system. These problems were aggravated by a poorly executed and inconsistent procedure for properly handling and documenting provisional ballots.

#### **Voter Registration**

Proper Procedure: When a voter submits a voter registration application (or a change to an existing voter registration such as a new address or name change) the information is manually entered into the computer voter registration database. This database normally receives a lot of new applications and alterations in the weeks leading up to the registration deadline (October 9, 2012 for this General Election.) Fulton County, as did most other counties, received a large number of these applications in the weeks before the General Election, and they struggled and ultimately failed to enter all of the data by the deadlines they faced. When all of the applications are entered into the system, the system produces a complete Electors List for each precinct, naming all qualified voters. The system which handles the Electors List and contains all of the registered voters on election day (or during early voting) is commonly referred to as “ExpressPoll” (which is actually the name of the computers which allow voters to be “checked in” and have a voting access card created for them to vote on the voting machine (DRE.)

Kennesaw State University’s (KSU) Election Center handles the “loading” of all of the information from the voter registration system onto the actual ExpressPoll machines that are used at each precinct to identify voters and allow voter access cards to be created for them. In order to allow the counties to set up their election systems, KSU “closes” the information that will be loaded onto the ExpressPoll machines at the end of the day on the second Thursday prior to the Election Day. Any voter registration information that is added to the statewide voter registration system by any county *after* the close of that Thursday, will still be eligible to vote (assuming the registration application was received by the earlier October deadline) but those voters names (or new information) will only appear on a printed “supplemental list” that should be sent to every precinct.

For example, if my first-ever voter registration application was processed on October 30, 2012, and I went to my polling place to vote, I would be told by the poll worker, “You are not showing up in our system.” The poll worker should then check the printed “supplemental list” of voters where my name should appear. At that point, that I was present and showed proper ID would be noted on the list, and the poll worker should create a voter access card for me on the ExpressPoll machine, and I should vote on the DRE just as if I had been in ExpressPoll for years. If a voter did not appear on either the ExpressPoll or supplemental list, and the voter declared that they believed they had registered in time to vote, they should be given a provisional (paper) ballot on which to vote. Provisional ballots will be addressed in detail later in this report.

Therefore, it should be clear that the timely entrance of data into the voter registration system can keep the “supplemental list” to a minimum and keep the poll workers working at maximum efficiency by relying primarily on ExpressPoll (which is where the vast majority of the voters should be found.) In some counties, there are no supplemental lists on election day because all of the qualified voter registration applications were entered into the voter registration system by October 25, 2012. Failure to meet these data-entry deadlines caused cascading problems on election day.

Fulton County received a large number of voter registration applications, and was unable to enter the applications by the time the ExpressPoll records were finalized and loaded into the ExpressPolls. Fulton County failed to follow previous practices of supplementing data entry workers to keep up with the demands of the incoming registrations. KSU even gave Fulton County one extra day, until the end of October 26<sup>th</sup>, to enter information that would go into ExpressPoll. Fulton County was entering voter registrations into the system as late as the day before the election. This fact required the use of a “supplemental list” of voters who should have been allowed to vote on a DRE just like any other voter. Fulton County reported that their “supplemental list” contained approximately 6,000 voters. This is a very unusually high number of voters on a supplemental list.

Fulton County has claimed that the Secretary of State's Office was responsible for the late receipt of the voter registration applications, but the Secretary of State has multiple witnesses who will testify that the voter registration applications were made available to Fulton County as soon as they came into the office.

In post-election surveys completed by Fulton County election workers, there were many mentions of inadequate staffing to process the incoming voter registration applications. Ralph Jones admitted that the office also stopped processing changes in address requests in favor of adding new voter registration applicants. There was a particularly damning survey response which revealed,

***"Visiting Fulton County Registration and Election Officials couldn't obtain clear verification of the staffing and heavy workload requirements because voter's registration cards were moved from the sign-out location and placed around the office so no one would be able to identify the workload. Cards were hidden at employee work stations."***

Poll managers reportedly received their documents and election items the evening of Sunday, November 4, 2012. Due to an oversight in the Fulton County Voter Registration Office approximately 300 voters were added to the supplemental list during the day, Monday, November 5, 2012, after the first Supplemental List had already been given to the poll managers, so, at least, those 300 new voters would not appear on ExpressPoll or on a printed Supplemental List of voters if *any* of those 300 voters attempted to vote. Fulton County was distributing supplemental lists on Election Day, however, it is unknown if the lists were additional voters, replacement lists, lists that were never delivered, and/or some or all of the above. There were reports of poll managers either not getting any supplemental list, not knowing they got the supplemental list, not knowing what to do with the supplemental list they got, or not getting updated supplemental lists. Sandy Springs Precinct 22 did not have a copy of any supplemental list until after 11:00 AM on Election Day after over 800 people voted. Fulton County has acknowledged that two precincts did not receive the supplemental lists until almost noon on election day.

Approximately **1,100** voters, whose registration records were either entered or changed *after* October 26, voted provisional ballots that were accepted by Fulton County. Many of these voters should have appeared on the printed supplemental list and should have voted on DREs (the exceptions would be voters on the supplemental list who were voting out of their assigned precinct.)

**Potential Violations:**

O.C.G.A 21-2-226-Determining Eligibility of Voters

O.C.G.A. 21-2-227-Furnish List of Electors for Elections

O.C.G.A. 21-2-228-Examination of Elector' Qualifications

Problems at Precincts on Election Day

The Secretary of State's Office received approximately 150 complaints regarding Fulton County's performance on Election Day. Some of these complaints were regarding issues that were not necessarily the fault of Fulton County Election Officials, such as inconvenient polling place locations, and frustrated poll workers. Most of the complaints, however, came from voters who were either not allowed to vote

at all, or were required to vote provisionally even though they knew, and in some cases had documentation, that they were properly registered to vote.

Here is a sampling of the complaints

- Address on driver's license differed from registration address, so voter could not vote
- Voter had requested an absentee ballot, which voter denied, and voter was forced to vote provisional
- Excessively long lines and waits (in excess of three and four hours) due to difficulties in getting voters the voter access cards because the voters could not be found in ExpressPoll or supplemental list
- Elector not in the system, cannot vote
- Provisional ballots denied to voters who requested them for various reasons
- Voter had already voted, which voter denied (sometime provisional offered, but other times not)
- Lines with waits of over two hours saw many voters leave without voting
- Illegal campaigning in a polling place
- Slow procedure to create Voter Access Cards even though there were plenty of DREs
- Precincts ran out of supplies including provisional ballots
- Some waits for provisional ballots were in excess of four hours, and even then, small numbers of provisional ballots were delivered after that extended wait
- Some poll workers suggested that voters go to other precincts to try to find provisional ballots
- Polling places were unorganized and directionless
- Polling places did not open in time
- The advocacy group, Election Protection itself gathered and reported to the Secretary of State's Office more than twenty complaints, including four affidavits that were almost exclusively reports of declared registered voters not being allowed to vote on DREs, and, in most cases, experiencing hours of waiting time for provisional ballots
- In addition, after Election Day, several poll managers sent complaints about problems with getting provisional ballots and communicating with the Fulton Election Office downtown

Investigators from the Secretary of State's Office visited several precincts on Election Day and reported some dire conditions, particularly at Venetian Hills Precinct. There they saw the poll manager on the phone practically the entire time, voters wandering in the enclosed space, voters waiting hours to get provisional ballots, and voters being told they should try other precincts in the hopes of getting a provisional ballot somewhere else.

**Potential Violations:**

O.C.G.A. 21-2-413 Conduct of voters, campaigners

O.C.G.A. 21-2-418 Provisional ballots

O.C.G.A. 21-2-596 Failure to perform duty

O.C.G.A. 21-2-591 Allowing unlawful assistance to voters

O.C.G.A. 21-2-403 Time for opening of polls

### Registered Voters Having to Vote Provisional Ballots

**3,732** Fulton County voters who voted provisional ballots on Election Day were in the ExpressPoll System by October 26, 2012. There are only a few legitimate reasons for a registered voter in ExpressPoll to vote a provisional ballot:

- Voter is voting out of precinct
- Voter does not have valid identification
- Voter cannot be found in ExpressPoll by poll worker

However, untrained or unequipped poll workers who did not have access to, or full knowledge of working an ExpressPoll or printed Supplemental List, would have to choose between allowing a voter to vote provisionally, and not letting the person vote at all.

Below is a summary of Fulton County Provisional Ballot Reporting:

<u>Reason for Prov. Ballot</u>	<u># P.B. voted</u>	<u># P.B. accepted</u>
Wrong Precinct/Not on List	9429	5101
No ID	72	0
Other Reasons	84	3
Total	<b>9585</b> (FC report to SOS lists <b>9575</b> )	5104

Fulton County accounted for 54% of provisional ballots cast in the entire state  
(DeKalb, Gwinnet, Chatham, and Muscogee Counties combined issued 2,879 provisional ballots)

3,732 voters were in ExpressPoll and 1,100 voters who voted provisionally were, or should have been, on the printed Supplemental List. These two numbers account for 4,832 voters who should have voted on a DRE on Election Day. This would have cut the number of provisional ballots by almost 50%.

A caveat to the 3,732 voters is that if a voter went to a precinct other than where they were registered and assigned, they could have:

1. Been directed to their proper precinct (if sufficient time allowed for the travel)  
Or,
2. Voted a provisional ballot at the wrong precinct

Fulton County apparently had inconsistent practices in handling voters at wrong precincts, and the workers were ultimately trained that, "When in doubt, give a provisional ballot." Some voters too seem to have become accustomed to such treatment and arrived at precincts knowing they were not registered there, but expecting a provisional ballot for the sake of convenience.

Lastly, reports show that of the 5079 records that Fulton County reported as accepted provisional ballots, **95** of those registration numbers **also** had voter access cards created for those registration numbers in ExpressPoll. This might indicate that the "registration number/voter" voted on a DRE and provisionally, and both votes were counted.

### Provisional Ballot Problems

Approximately 9,575 voters voted provisional ballots in Fulton County, which accounted for 54% of the total provisional ballots cast in the entire state. Nowhere, however, do the numbers and lists of names

and accepted and rejected ballots add up. Fulton County election officials were simply not prepared to handle the demand and backlog of unprocessed voter registration applications (which Fulton County created) for provisional ballots at the polling places. There appeared to be little to no consistency in the proper handling of provisional ballots. The failure by Fulton County to properly follow documentation and handling requirements in place to ensure the security and integrity of the provisional ballots made verifying provisional ballots with much certainty almost impossible.

Poll managers and workers did not follow state law or SEB Rules when handling and documenting provisional ballots. There was a very weak supply chain to deliver new provisional ballots to precincts, and the communication system between poll workers and election officials left much to be desired. Laws and SEB rules regarding the handling and documenting of provisional ballots were violated or ignored on a massive scale:

- There was insufficient dissemination about the system in place to allow voters to check the status of their provisional ballot
- One person appeared to vote *seven* provisional ballots at the same precinct, and *all seven ballots were marked as accepted*. Fulton County claims to have identified who these voters were, however, with no other identification on the provisional ballot envelopes, there no way to tell if that is true, and is frankly, rather unlikely.
- Some voters were denied provisional ballots, even after requesting one
- Provisional ballots were not kept in secure locations during validation (the status of the chain of custody for the provisional ballots is unknown)
- Fulton County could not even produce all of the provisional ballot envelopes that they appeared to have received
- There was no uniform recording of the *reasons* for rejecting provisional ballots
- Documents recording provisional ballot appear to be **created and altered** by someone after the documents were submitted by poll officials
- Provisional Ballot recap sheets were often done improperly, incompletely, or not at all
- Voters were listed as having provisional ballots accepted when they did not vote provisional ballots
- Voters were not notified until January 9, 2013 (66 days after the election) that their provisional ballots were rejected
- More than 1,000 of these *mailed notices* had no address for the elector, so there is no way that the notices *could have gotten to the electors*
- Many provisional ballot *rejections* appear to be recorded without a way to determine why a ballot was rejected, and inform the voter of the same
- The total number of voted provisional ballots differs from source to source
- Many provisional ballot recap sheets do not correlate to the statement of votes cast on the official results
- Fulton County has not reported how many provisional ballots had to be duplicated (all out of precincts provisional ballots)
- It is unknown how many voter registration applications were completed when voters were issued provisional ballots, but a review of specific complainants shows that at least 20 provisional voters were not given voter registration applications
- Printed instructions for checking the status of one's provisional ballot were not available for every provisional ballot issued

- As recently as September and October of 2012, Pamela Coman, Election Training Director for Fulton County asked for and received clarification about provisional ballots because she was preparing to begin the online training from the training staff at the Secretary of State's Office
- The heavy reliance on provisional ballots on Election Day set the stage for failures in the verification of provisional ballots in the days after the election. As woeful as was the requirement that so many voters had to cast provisional ballots in the first place, the more striking failure was Fulton County's inability to execute the acceptance and rejection of absentee ballots with anything resembling accuracy or reliable documentation
- More than 1000 rejection letters were mailed to voters with incomplete mailing addresses, and could not have been delivered
- Fulton County failed to notify provisional voter who voted out of precinct that their ballot had been duplicated and counted

#### Detailed Examination of Ten Precincts' Provisional Ballots

Investigators from the Secretary of State's Office examined only ten precincts' handling of provisional ballots in great detail, and what they discovered was a lack of consistency or much of anything that could even be described as a "system," that yielded inaccuracy after inaccuracy in the proper documentation of provisional ballots. Not *one* of the ten precincts and county officials could even account for the proper *number* of provisional ballots. The details from each of the ten precincts are included in the exhibits in this packet, but below is a chart that shows the errors and wide-ranging inconsistencies with provisional ballots.

Following the chart is a point-by-point analysis of the provisional ballots from each of the ten precincts examined in detail.

### Fulton County Provisional Analysis

Precinct	# on Prov. Numbered List of Voters	Prov. Ballots Marked As Listed on Prov. Recap Sheet	No. Prov. ## Recap and Provisional Analysis for Precinct 01A

### Provisional Recap and Provisional Numbered List of Voters

- A provisional ballot recap sheet was not completed for the precinct
- 158 names listed on the Numbered List of Provisional Voters. All names were written in red ink in what appeared to be the same handwriting.

### Voter Certificates

- Voter certificates were provided for only 42 of the 158 names on the numbered list.
- 1 voter certificate was completed by poll officer only on the provisional section
- 41 of the voter certificates were not completed on the provisional section

### Provisional Ballot Analysis

According to the provisional numbered list, 136 provisional ballots were accepted and 22 were rejected. The voter certificates and voter registration system were reviewed for all voters and the following was determined:

- 28 Rejected
- 3 were voted by persons registered in other counties.

- 23 were not found in the voter registration system.
- 2 were voted by persons in delete status.

46 Accepted

- 35 were registered in precinct 01A.
- 12 of the 35 were found on the supplemental list of voters for the precinct.
- 15 of the 35 were entered after the Express Poll and supplements lists were generated. These voters were not available at the precinct.
- 7 of the 35 were listed in the Express Poll used on Election Day.
- 1 voter had previously requested an absentee ballot
- 11 were registered in other Fulton County precincts

#### Additional Observations

- One voter was listed as a non-citizen. It is unknown if the voter returned to Fulton County after the election with proof of citizenship.
- 4 of the voters were listed on the numbered list 2 times.
- 5 ballots were accepted from voters who were also given credit for voting on a DRE unit. Accepted ballot envelopes were provided for these individuals.
- One person listed had two registration records in the registration system.
- 3 voters could not be identified due to a voter certificate not being provided and multiple records were found in the registration system.
- 70 voters were listed on the provisional numbered list of voters and they were also given credit for voting in the registration system by voting on a DRE unit. Provisional ballot envelopes were not provided for any of these individuals.

#### Provisional Ballot Envelopes

- 58 provisional ballot envelopes were provided by Fulton County for review. 47 accepted and 11 rejected.
- Review of the envelopes indicated the ballots that were accepted and rejected were marked the same as the numbered list of provisional voters.

## **Recap and Provisional Analysis for Precinct 02F1\02F2**

#### Provisional Recap and Provisional Numbered List of Voters

- 83 provisional ballots issued listed on the Provisional Ballot Recap Sheet
- 83 names listed on the Numbered List of Provisional Voters

#### Voter Certificates

- Voter certificates were provided for 83 of the names on the numbered The provisional section of the voter certificates was not completed on any of the certificates.

#### Provisional Ballot Analysis

- According to the provisional numbered list, 60 provisional ballots were accepted and 23 were rejected. The voter certificates and voter registration system was reviewed for all voters and the following was determined:

#### 23 Rejected

- 13 were voted by persons registered in other counties.
- 9 were not found in the voter registration system
- 1 was voted by a person marked as a non-citizen.

#### 59 Accepted

- 36 were registered in precinct 02F/02F1.
- 6 of the 36 were found on the supplemental list of voters for the precinct.
- 7 of the 36 voters were listed in the Express Poll used on Election Day.
- 23 of the 36 voters were entered after the Express Poll and supplement lists were generated. These voters were not available at the precinct.
- 23 voters were registered in other Fulton County precincts.

#### Provisional Ballot Envelopes

- 72 provisional ballot envelopes were provided by Fulton County for review. 56 accepted and 16 rejected.
- Provisional ballot envelopes were not provided for 11 voters.
- Review of the envelopes indicated the ballots that were accepted and rejected were marked the same as the numbered list of provisional voters.

## **Recap and Provisional Analysis for Precinct 02S**

#### Provisional Recap and Provisional Numbered List of Voters

- 84 provisional ballots issued listed on the Provisional Ballot Recap Sheet
- 79 names listed on the Numbered List of Provisional Voters

#### Voter Certificates

- Voter certificates were provided for 40 of the names on the numbered.
- The provisional section was completed by the voter and poll worker on 1 voter certificate.
- The provisional section was completed by the poll worker only on 28 voter certificates.
- The provisional section was not completed on 11 of the voter certificates provided.

#### Provisional Ballot Analysis

- According to the provisional numbered list, 31 provisional ballots were accepted and 48 were rejected. The voter certificates and voter registration system were reviewed for all voters and the following was determined:

#### 34 Rejected

- 17 were voted by persons registered in other counties.
- 11 were not found in the voter registration system.
- 6 were voted by persons in delete status.

#### 32 Accepted

- 17 were registered in precinct 02S.
- 3 of the 17 voters were found on the supplemental list of voters for the precinct.
- 13 of the 17 voters were entered after the Express Poll and supplement lists were generated. These voters were not available at the precinct.
- 1 of the 17 had previously requested an absentee ballot..
- 15 were registered at other Fulton County precincts

#### Additional Comments

- One ballot was listed as rejected and the provisional list was marked that the voter could not be found. The voter information from the voter certificate was compared to the voter registration system. A record was found for a Fulton County voter with the same name and address. The date of birth on the voter certificate was not valid and could not be compared to the voter record. It appears should have been duplicated to the voter's precinct and accepted. A provisional ballot envelope for the voter was not provided.
- One ballot was listed as rejected on the provisional list; however, the voter was listed on the supplemental list of voters for the precinct. The voter certificate was marked accepted. A provisional ballot envelope for the voter was not provided.
- 9 of the voters could not be identified due to a voter certificate not being provided and multiple records were found in the voter registration system.

#### Provisional Ballot Envelopes

- 45 provisional ballot envelopes were provided by Fulton County for review. 30 accepted and 15 rejected.
- One provisional ballot was accepted for voter who was marked as having voted during the early voting period.
- One ballot was rejected because the voter was listed as registered in Gwinnett County. Review of the voter registration system indicated there were 2 registration numbers for the same person. The Fulton County record appeared to occur after the Gwinnett record and should have replaced the Gwinnett record. The registration in Fulton County was on the supplemental list. It appears the ballot should have been accepted.
- Two accepted provisional ballot envelopes were provided for voters that were not listed on the provisional numbered list of voters.

## **Recap and Provisional Analysis for Precinct 03A**

### Provisional Recap and Provisional Numbered List of Voters

- 132 provisional ballots issued listed on the Provisional Ballot Recap Sheet
- 134 names listed on the Numbered List of Provisional Voters
- 53 names were written in red ink which appears to be the same ink used for marking whether the ballot was accepted or rejected. The names are written in the same handwriting and appear to be listed in reverse alphabetical order.

### Voter Certificates

- Voter certificates were provided for 132 of the names on the numbered list.
- 17 voter certificates were completed by poll officer only on the provisional section
- 73 of the voter certificates were not completed on the provisional section
- 42 voter certificates were not copied to include the back side

### Provisional Ballot Analysis

According to the provisional numbered list, 59 provisional ballots were accepted and 75 were rejected. The voter certificates and voter registration system were reviewed for all voters and the following was determined:

#### 71 Rejected

- 37 were voted by persons registered in other counties.
- 30 were not found in the voter registration system.
- 4 were voted by persons in delete status.

#### 55 Accepted

- 23 were registered in precinct 03A.
- 15 of the 23 were found on the supplemental list of voters for the precinct.
- 6 of the 23 were entered after the Express Poll and supplements lists were generated. These voters were not available at the precinct.
- 2 of the 23 were listed in the Express Poll used on Election Day.
- 32 voters were registered in other Fulton County precincts.

### Additional Comments

- 1 voter could not be identified due to a voter certificate not being provided and multiple records were found in the registration system.

### Provisional Ballot Envelopes

- 128 provisional ballot envelopes were provided by Fulton County for review. 56 accepted and 72 rejected.
- 2 ballots were rejected because the voters were not registered in Fulton County. The registrations were found in the registration system as being received by the deadline but they were not entered until December. The ballots should have been accepted.

- One ballot was accepted for a voter in which the registration system indicated she voted during the early voting period.
- 2 ballots were accepted for voters who could not be found in the registration system. It is unclear what steps Fulton County took to verify the voter's registration and whether the ballot should have been accepted.
- One ballot was accepted for a voter who provided a Florida address on the voter certificate and no date of birth. There was no identifying information on the voter certificate to verify the voter's eligibility.

## **Recap and Provisional Analysis for Precinct 04B**

### **Provisional Recap and Provisional Numbered List of Voters**

- 110 provisional ballots issued listed on the Provisional Ballot Recap Sheet
- 110 names listed on the Numbered List of Provisional Voters

### **Voter Certificates**

- Voter certificates were provided for 109 of the names on the numbered list.
- 8 voter certificates were completed by poll officer only on the provisional section
- 6 voter certificates were completed by the voter only on the provisional section
- 95 of the voter certificates were not completed on the provisional section

### **Provisional Ballot Analysis**

According to the provisional numbered list, 55 provisional ballots were accepted and 55 were rejected. The voter certificates and voter registration system were reviewed for all voters and the following was determined:

#### **53 Rejected**

- 14 were voted by persons registered in other counties.
- 36 were not found in the voter registration system.
- 3 were voted by persons in delete status.

#### **56 Accepted**

- 42 were registered in precinct 04B.
- 26 of the 42 were found on the supplemental list of voters for the precinct.
- 4 of the 41 were entered after the Express Poll and supplements lists were generated. These voters were not available at the precinct.
- 5 of the 42 were listed in the Express Poll used on Election Day.
- 6 of the 42 were in "Verify" status. These voters should have listed on Express Poll and the voter should have been able to vote on a DRE unit.
- 1 of the 42 was in "Pending" status reason type "A". This voter was included in the "pending" voters with questionable addresses.
- 1 voter was marked as a non-citizen

- 13 voters were registered in other Fulton County precincts.

#### Additional Comments

- One was listed as rejected; however, the voter was found in the registration system. No ballot envelope was provided for the voter.

#### Provisional Ballot Envelopes

- 103 provisional ballot envelopes were provided by Fulton County for review. 52 accepted and 51 rejected.
- Review of the envelopes indicated the ballots that were accepted and rejected were marked the same as the numbered list of provisional voters.

## **Recap and Provisional Analysis for Precinct 04W**

#### Provisional Recap and Provisional Numbered List of Voters

- 249 provisional ballots issued on the Provisional Ballot Recap Sheet
- 232 names listed on the Numbered List of Provisional Voters.

#### Voter Certificates

- Voter certificates were provided for 227 of the names on the numbered list.
- 15 voter certificates were completed by the voter only on the provisional section
- 50 voter certificates were completed by poll officer only on the provisional section
- 157 voter certificates were completed by the voter and poll officer on the provisional section
- 36 of the voter certificates were not completed on the provisional section
- One voter certificate did include the backside.
- 32 voter certificates were provided for persons not on the numbered list of provisional voters.

#### Provisional Ballot Analysis

According to the provisional numbered list, 129 provisional ballots were accepted and 102 were rejected. The voter certificates and voter registration system were reviewed for all voters and the following was determined:

#### 110 Rejected

- 45 were voted by persons registered in other counties.
- 62 were not found in the voter registration system.
- 3 were voted by persons in delete status.

116 Accepted

- 36 were registered in precinct 04W.
- 20 of the 36 were found on the supplemental list of voters for the precinct.
- 9 of the 36 were entered after the Express Poll and supplements lists were generated. These voters were not available at the precinct.
- 4 of the 36 were listed in the Express Poll used on Election Day.
- 3 of the 36 were in “Verify” status. These voters should have been listed on Express Poll and the voter should have been able to vote on a DRE unit.
- 80 voters were registered in other Fulton County precincts.

#### Additional Comments

- 3 voters have two registration records in the registration system.
- One voter had no precinct assigned to the registration record.
- 2 of the voters were listed on the numbered list 2 times.
- 1 voter could not be identified due to a voter certificate not being provided and multiple records were found in the registration system.

#### Provisional Ballot Envelopes

- 159 provisional ballot envelopes were provided by Fulton County for review. 80 accepted and 79 rejected.
- 2 ballots were accepted from voters who could not be found in the system. It is unclear what Fulton County used to verify the voter’s registration and whether the ballot counted.
- One ballot was rejected from a voter who submitted a change of address prior to the deadline but it was not entered until December. The voter requested an absentee ballot and it is unclear if the ballot was returned to the previous county of residence. A rejected provisional ballot envelope was provided.

## **Recap and Provisional Analysis for Precinct 06H**

#### Provisional Recap and Provisional Numbered List of Voters

- 5 provisional ballots issued listed on the Provisional Ballot Recap Sheet
- 5 names listed on the Numbered List of Provisional Voters

#### Voter Certificates

- Voter certificates were provided for 1 of the names on the provisional numbered list.
- The back of the voter certificate was not provided.

#### Provisional Ballot Analysis

- According to the provisional numbered list, 1 provisional ballot was accepted and 4 were rejected.

#### 4 Rejected

- Voter certificates were not provided for the rejected voters. Investigators could not determine in the registration system why the provisional ballot was rejected. This was due to not having identifying information other than the name of the voter and there being multiple records in the registration system for the name on the provisional list of voters.
- The reason the provisional ballot was rejected was not marked on the provisional numbered list of voters.

#### 1 Accepted

- The voter was registered in 06H. The voter was also listed on the supplemental list of voters.

#### Provisional Ballot Envelopes

- 1 provisional ballot envelope was provided by Fulton County for review. The ballot envelope was marked accepted and was the same name listed as the ballot marked accepted on the provisional numbered list of voters.
- Provisional ballot envelopes were not provided for the persons marked rejected on the provisional numbered list of voters.

## Recap and Provisional Analysis for Precinct 11G

#### Provisional Recap and Provisional Numbered List of Voters

- 65 provisional ballots issued listed on the Provisional Ballot Recap Sheet
- 59 names listed on the Numbered List of Provisional Voters

#### Voter Certificates

- Voter certificates were provided for 65 of the names on the numbered list.
- 9 voter certificates were provided for persons not listed on the provisional list of voter.
- 3 voter certificates were completed by the voter and poll officer on the provisional section
- 1 voter certificates were completed by poll officer only on the provisional section
- 52 of the voter certificates were not completed on the provisional section

#### Provisional Ballot Analysis

The numbered list of provisional voters was not marked as whether a voter's ballot was accepted or rejected. The voter certificates and voter registration system were reviewed for all voters and the following was determined:

#### 16 Rejected

- 5 were voted by persons registered in other counties.
- 6 were not found in the voter registration system.
- 5 were voted by persons in delete status.

37 Accepted

- 9 were registered in precinct 11G.
- 3 of the 9 were found on the supplemental list of voters for the precinct.
- 4 of the 9 were entered after the Express Poll and supplements lists were generated. These voters were not available at the precinct.
- 2 of the 9 were listed in the Express Poll used on Election Day.
- 28 voters were registered in other Fulton County precincts.

Additional Comments

- 2 voters could not be identified due to the voter certificate not being provided and multiple records were found in the voter registration system.
- 1 could not be located in the registration system. It is unclear what Fulton County used to verify the voter's registration and whether the ballot counted.
- On ballot was listed as rejected; however the voter's registration was reviewed and indicated they had submitted their registration by the deadline but it was not added to the registration system until December. It is unknown if the ballot was accepted because a provisional ballot envelope was not provided.

Provisional Ballot Envelopes

- 15 provisional ballot envelopes were provided by Fulton County for review. 9 accepted and 6 rejected.
- A ballot was accepted for a voter whose registration record indicated they were given credit for voting on a DRE unit.  
One ballot was rejected; however, a registration record was found for the voter. According to the registration system the voter's registration application was received by the deadline but was not entered until December 2012. The ballot should have been accepted.

## **Recap and Provisional Analysis for Precinct SS14**

Provisional Recap and Provisional Numbered List of Voters

- 15 provisional ballots issued listed on the Provisional Ballot Recap Sheet
- 20 names listed on the Numbered List of Provisional Voters
- Names 16 through 20 are written in red ink which appears to be the same ink used for marking whether the ballot was accepted or rejected.

Voter Certificates

- Voter certificates were provided for 19 of the names on the numbered list.
- 12 voter certificates were completed on the provisional section by the voter and poll officer
- 4 voter certificates were completed by poll officer only
- 2 voter certificates were not completed by the voter
- 1 voter certificate was not completed

#### Provisional Ballot Analysis

- According to the provisional numbered list, 14 provisional ballots were accepted and 6 were rejected. The voter certificates and voter registration system was reviewed for all voters and the following was determined

##### 6 Rejected

- 5 were voted by persons registered in other counties.
- 1 was voted by a person marked as a non-citizen.

##### 9 Accepted

- 5 were registered in precinct SS14. All 5 voters were listed on the supplemental list of voters.
- 3 were registered in other Fulton County precincts.
- Registration information was reviewed and revealed 5 of the 8 provisional voters registered at other precincts were given credit for voting by the Express Poll. This would indicate they voted on DRE units at their registered precinct.
- 1 could not be located in the registration system. It is unclear what Fulton County used to verify the voter's registration and whether the ballot counted.

#### Additional Comments

- Review of the voters whose names were written in red indicated they had voted on a DRE unit at the precinct they were registered at. The voters were contacted and all stated they originally went to precinct SS14 and were told they were registered at other precincts. The voters said they went the precinct they were told to vote at and voted on the DRE units. None of the persons written in red ink said they voted a provisional or paper ballot at precinct SS14. Provisional ballot envelopes were not provided for the voters.

#### Provisional Ballot Envelopes

- 15 provisional ballot envelopes were provided by Fulton County for review. 9 accepted and 6 rejected.
- Provisional ballot envelopes were not provided for the persons whose names were added in red ink to the provisional list of voters.
- Review of the envelopes indicated the ballots that were accepted and rejected were marked the same as the numbered list of provisional voters.

#### Statement of Votes Cast

- According to the Statement of Votes Cast report, 1 provisional ballot was counted for precinct SS14. There were 5 provisional ballots listed on the numbered list of voters for precinct SS14 that should have been counted.

## **Recap and Provisional Analysis for Precinct SS22**

### Provisional Recap and Provisional Numbered List of Voters

- 46 provisional ballots issued listed on the Provisional Ballot Recap Sheet
- 46 names listed on the Numbered List of Provisional Voters

### Voter Certificates

- Voter certificates were provided for all 46 names on the provisional numbered list of voters.
- The provisional section was completed by the voter and poll worker on 3 voter certificates.
- The provisional section was completed by the poll worker only on 39 voter certificates.
- The provisional section was not completed on 4 of the voter certificates provided.

### Provisional Ballot Analysis

- According to the provisional numbered list, 24 provisional ballots were accepted and 22 were rejected. The voter certificates and voter registration system were reviewed for all voters and the following was determined:

#### 19 Rejected

- 6 were voted by persons registered in other counties.
- 9 were not found in the voter registration system.
- 4 were voted by persons in delete status.

#### 24 Accepted

- 15 were registered in precinct SS22.
- 4 of the 15 voters were found on the supplemental list of voters for the precinct.
- 2 of the 15 voters were listed in the Express Poll used on Election Day.
- 9 of the 15 voters were entered after the Express Poll and supplement lists were generated. These voters were not available at the precinct.
- 8 voters were registered in other Fulton County precincts.

#### Additional Comments

- Three ballots were listed as rejected; however, the voters' registration was found in the registration system. Two voters were registered at different precincts. These ballots should have been duplicated and accepted. One voter was added to the registration system after the Express Poll and supplemental lists were generated. This ballot should have been accepted. Ballot envelopes were not provided for any of these voters. Two voters received credit for voting, one voter did not.

- One ballot was accepted for a voter that did not provided identification at the poll location. A report previously by Fulton County indicated no who voted a provisional ballot because they did not have ID returned to Fulton County with ID prior to the close of business the Friday following the elections.

#### Provisional Ballot Envelopes

- 41 provisional ballot envelopes were provided by Fulton County for review. 20 accepted and 21 rejected.
- Review of the envelopes indicated the ballots that were accepted and rejected were marked the same as the numbered list of provisional voters.

#### Potential Violations for Provisional Ballots:

O.C.G.A. 21-2-587(3) and (4) Frauds by poll officers  
 O.C.G.A. 21-2-562(a)(1) and (a)(2) Fraudulent entries  
 O.C.G.A. 21-2-418(a) Provisional ballots-allowing to be cast  
 O.C.G.A. 21-2-418(c) Provisional ballots-provisional voter registration application  
 O.C.G.A. 21-2-418(f) Give written information to provisional voters  
 O.C.G.A. 21-2-419(b) Securing provisional ballots  
 O.C.G.A. 21-2-419(d)(1) Notify rejected provisional voters in writing  
 O.C.G.A. 21-2-419(d)(2) Notify voters who voted out of precinct in writing  
 SEB 183-1-12.06(3) Providing adequate provisional ballots to precincts  
 SEB 183-1-12.06(4)(a) Checking master list of electors before voting provisional  
 SEB 183-1-12.06(4)(b) Checking with Registrar before voting provisionally  
 SEB 183-1-12.06(4)(c) Adding verified voters to precinct (using supplemental list)  
 SEB 183-1-12.06(4)(d) Sending to proper precinct  
 SEB 183-1-12.064(f) Completing provisional ballot certificate  
 SEB 183-1-12.06(4)(i) Completing complete ballot and paperwork  
 SEB 183-1-12.06(4)(j) Verifying paperwork is correct  
 SEB 183-1-12.06(7) Providing paperwork to provisional voter  
 SEB 183-1-12.06(9) Accounting for all provisional ballots and other documentation  
 SEB 183-1-12.06(10) Securing provisional ballots  
 SEB 183-1-12.06(12)(b) Duplicating provisional ballots  
 SEB 183-1-12.06(13)(a) Notifying rejected provisional voters  
 SEB 183-1-12.06(13)(b) Notifying voters who voted in wrong precinct in writing

#### Errors on Recap and Statement of Votes Cast

Of the 247 DRE and ExpressPoll Recap sheets submitted by Fulton County, there were 109 precincts forms that contained errors, omissions, and/or inaccuracies.

Common discrepancies included:

- DRE Recap sheets were not totaled
- The number of “voters marked” listed on the ExpressPoll Recap did not match the numbered list of voters pulled from the ExpressPoll
- Explanations for mis-matching numbers was not provided

- ExpressPoll count and DRE count of voters differed
- Recap sheets were not properly signed by all parties (managers)
- Provisional voters were listed as supplemental voters on the ExpressPoll recap sheet

The attached table identifies 19 of the worst examples of inaccurate reporting:

### Absentee Ballot System Execution Questions

There were three reports where voters (Katrina Keuller, Rodney Hovater, and Paula Hovater) reported they received more than one absentee ballot packages when they made their absentee ballot requests. These voters turned their additional ballots over to SOS investigators.

The following complaint, from a voter who is temporarily in New York appears to expose numerous flaws in the system and/or the execution of the system for requesting an absentee ballot in the general election (emphasis added C.H. :)

Sent: Sunday, December 09, 2012 11:53 PM  
To: Office of Secretary of State  
Subject: Web E-Mail From Rollie O. Buchanan

Question / Comment: Mr. Kemp,

The local, state and national elections of November 6, 2012 have passed. However I am submitting this complaint regarding my experience with absentee voting through Fulton County, which ultimately prevented me from voting due to no fault of my own.

Wednesday, October 3

I mailed my application for an official absentee ballot.

Approximately a week later, a colleague that submitted his after I did, indicated he had received and submitted his absentee ballot via Cobb County within a 10 day period. This seemed odd and caused me to question the status of my absentee ballot.

**Thursday, October 18**

I prepared a second application for mailing. However I wanted to talk with someone in the Fulton County office to ensure I was following the directions correctly, to ensure my opportunity to vote.

**Friday, October 19**

I called the general number and was transferred to a woman who checked my records. I indicated an application had been mail approximately three (3) week earlier, etc. She indicated there was no record of receipt of the absentee application, but to speed up the process, I could fax my second application instead of mailing it.

Given this information, I faxed it at 4:17 pm EST (as indicated by FAX confirmation) to 404.730.8839. My belief was that the absentee ballot would be in the mail by Monday or Tuesday, October 22 or 23, with arrival to my residence by Saturday, October 26, at the latest.

Nothing arrived on October 26, 28 or 29.

**Tuesday, October 30**

I called the main Fulton County office number and was transferred to a "Marcia", who served as coordinator for some aspect of the unit. I informed her that the FAX had been sent on October 19 but nothing had been received, even though I had a confirmation of delivery by fax. Marcia indicated that I re-fax the form again. I told her I would within the hour and she gave me her direct line if I had any problems.

At 12:50 pm EST I re-faxed the application for an absentee ballot. I called her four (4) times that afternoon leaving messages and a number for a return phone call to confirm receipt of the document and mailing of the absentee ballot. I received no return phone call for the remainder of the day.

**Wednesday, October 31**

I called 1-2 more times first thing in the morning and left additional messages. At approximately 3:15 pm EST, "Marcia" returned my call.

While talking with her, **she indicated the faxes from October 30, 2012 had not been pulled up, but that she would do it while I was on the phone. I sat on the phone listening while she pulled it up, confirmed that it had been received and processed it for 5-10 minutes. Keep in mind this only happened while I was on the phone, after a previous conversation and several messages on October 30 and 31. "Marcia" indicated it was processed and would go out right away.**

Given the lateness of the day, I anticipated it would go out either later on October 31 or on November 1, with an arrival on November 3 or 6, at the latest.

When the ballot did not arrive on November 3, I began making plans to leave work early, to get home in time to fill it out and pay (at my expense) for overnight delivery to ensure its arrival by noon on November 6.

**Monday, November 5**

I rushed home early, through rush hour traffic with the idea that I would have to vote and get it to the post office before 5:00 pm EST to ensure pick-up for overnight delivery to Fulton County Election office.

***To my extreme disappointment, there was no ballot in the mailbox. I cannot express how disappointed I was; particularly after I did everything I could in a timely manner, yet the ball kept being dropped in Fulton County.***

This meant I would have no opportunity to vote after spending over a month with one (1) mailing, two (2) faxes and numerous conversations and messages with staff, particularly the one in charge of this process, "Marcia".

**Tuesday, November 6**

Out of disappointment and frustration, I contacted your office to express my frustration and asked if there was anything I could do.

I was informed that I was not the only one that had called and complained about this particular office and its handling of absentee ballot applications. I was then directed to this page to submit a complaint.

Later the same evening, I pulled my mail around 10:00 pm EST to find an absentee ballot. This reminded me of my earlier frustration. ***However what I found more upsetting was that after the fax was processed on October 31 while I was on the phone, according to the metered postmark, the absentee ballot was not mailed until November 2, This was a full two (2) days after my conversation with "Marcia".***

I did a search on the internet and found that this office has been under "investigation" for a number of reasons within the past few months. To find this out was rather disheartening, given that my opportunity to vote had been lost in what appeared to be their inability to perform their important duties for the public they serve.

I am asking that my case be investigated with some sort of resolution that is communicated back to me.

The problems illustrated in this complaint indicate a series of apparently admitted failures on Fulton County's Election staff to process absentee ballot applications efficiently. It took Herculean efforts for this voter to even get his ballot to him too late for him to vote the ballot. How many other voters, whose applications were not pulled from the FAX line, did not get their absentee ballots?

Another voter, this time overseas, requested his absentee ballot early. Here is his story (C.H. emails condensed and edited for spelling :)

Sent: Tuesday, January 15, 2013 4:31 PM  
To: Office of Secretary of State  
Subject: Web E-Mail from John L. Turbiville

Question / Comment: I would like to add my protest concerning the functioning of the Fulton County Voter Registration Office. I requested officially many months ago an absentee ballot, based on my former address in Atlanta (my last U.S. address before moving to Europe); with no response I sent an e-mail; still no response, I telephoned the office, and I was promised that the ballot would be sent. Still nothing. So, about 2 weeks before the Nov 6 election, I sent in a "Federal Write-in Ballot". Last week, I received a notice that my ballot was not counted because it arrived too late.

I first sent in the form for registration for absentee voting in February 2012, to confirm my previous registration (I have voted in Federal elections several times by absentee, always using my last U.S. address 28-28th St NW, Atlanta 30309).

In September, I believe, I sent an email to the office requesting my status, with no reply. In October I telephoned the office and the representative assured me that all was in order for my ballot. But the ballot was never received, and about two weeks before the Nov. election, I sent in the Federal write-in ballot. So I was surprised when the notice came that this was received in early January, too late to be counted. I have always found that mail in general between France and the U.S. is delivered within one week.

I found one name with who I was in contact at the Fulton County office; it was [brianna.alexander@fultoncountyga.gov](mailto:brianna.alexander@fultoncountyga.gov)

By telephone she told me that my registration was valid and that I would receive an absentee ballot, but it never happened.

Fulton County reported that the absentee ballot FAX line was checked every hour, but this does not appear to be accurate based on these complaints.

There were approximately twenty-three complaints about voters having problems getting or returning absentee ballots.

#### **Potential Violations in Absentee Ballot Problems:**

O.C.G.A. 21-2-381(b)(2)(A) Mailing absentee ballots failures (multiple times)

#### Election Training

Pamela Coman, Training Director for Fulton County Elections Office provided copies of training manuals and an explanation of the requirements for training.

She said that each poll worker get four hours of training (two hours online and two hours in person.)

Ms. Coman asked for and received specific answers from the Secretary of State's Office shortly before the General Election, and Ms. Coman said that she specifically trained the poll workers in all areas regarding provisional ballots and specifically with regards to provisional ballots and voter who were not found in ExpressPoll (checking the supplemental list.)

#### Pending Status Voters

As a result of letters sent to approximately 1,100 voters in June 2012 (the subject of SEB 2011-110), voters who were suspected of not having homes at addresses where they were registered had their voter registration status changed without any due process. These voters were expected to arrive at the polls and prove their residential address to the satisfaction of poll workers. If they were able to do so, they would be allowed to vote on DRE, and their status changed. If they were not able to provide proof, they would have to vote a provisional ballot.

On November 2, 2012, Sharon Mitchell informed the Secretary of State's Office, which had questioned the changing of voter status without due process, that Fulton County would not place such voters in "P" status.

Sharon Mitchell told investigators that all voters who had been placed in "Pending" status by Fulton County on October 26, 2012 had been restored to their regular voter registration status, prior to Election Day, but 626 voters *still* showed to be in status "Pending" as late as December 2012.

No voters were impacted as a result of a "P Status," and, therefore, there appears to be no violation.

#### Interview with Election Officials

On December 14, 2012, SOS Investigations staff interviewed Sharon Mitchell, Dwight Brower, Ralph Jones, and Pamela Coman in the presence of their attorney, David Walbert. The interview last approximately 1 ¾ hours and it covered a wide-ranging list of topics. The goal was to get a general picture of the events in the election and determine where the investigation needed to be focused. The overall tone of the election officials was that there were a few problems, mostly at the precinct level, but nothing systematic, major, or dramatic happened.

Condensed List of Violations in Fulton SEB 2012-156 [*italics indicate broad charges that may be applied to one or more situations*]

- 21-2-224(f) the official list of electors eligible to vote in any primary or election shall be prepared and completed at least five calendar day prior to the date of the primary of election in which the list is to be used. 734 voters
- 21-2-224(g) providing complete elector lists  
**[TWO PRECINCTS AFFECTED]**
- 21-2-226(a) It shall be the duty of the county board of registrars to determine the eligibility of each person applying to register to vote in such county.
- [21-2-226(b) *upon finding an elector eligible to vote in the county, the county board of registrars shall have the duty of determining and placing the elector in the proper districts*]

- 21-2-418(b) failure of the poll officials to ensure provisional voters completed a provisional ballot voting certificate which included information about the place, manner, and approximate date on which the person registered to vote. AT LEAST 600 VOTERS
- Rule 183-1-12-.06(4)(i) upon receiving authorization to vote a provisional ballot, the person shall complete a provisional ballot voter's certificate and an official voter registration form. AT LEAST 199 VOTERS
- 21-2-224 All persons whose names appear on the list of electors placed in the possession of the managers in each precinct and no others, except as otherwise provided in this article, shall be allowed to deposit their ballots according to law at the precinct in which they are registered. AT LEAST 215 VOTERS
- 21-2-418(b) the Fulton County Board of Registrars failed to make a good faith estimate to determine whether the persons casting the provisional ballots were entitled to vote AT LEAST 24 VOTERS  
**[24 VOTERS BALLOTS WERE REJECTED WHEN THEY SHOULD HAVE BEEN ACCEPTED]** 21-2-590(3) refuses to permit any duly registered and qualified person to vote at any primary or election, with the knowledge that such person is entitled to vote
- Rule 183-1-12-.06(4)(i) Before issuing the outer envelope to the person, the poll officers shall enter the person's name, the name of the precinct, the date and name of the election, and the ballot style on the outer envelope. AT LEAST 450 VOTERS
- 21-2-419(d)(1) the board of registrars shall notify in writing those persons whose provisional ballots were not counted that their ballots were not counted because of the inability of the registrars to verify that the persons timely registered to vote or other proper reason. AT LEAST 1200 VOTERS
- 21-2-418(b) such person voting a provisional ballot shall complete an official voter registration form SEVERAL THOUSAND VOTERS

### **SEB 2012-56 July 31, 2012 General Primary Election**

The July 31, 2012 General Primary in Fulton County was beset with numerous problems, some of which were systemic, and some were less systemic, but all were serious and problematic for Fulton County.

#### Districting and Ballot Errors

There were multiple areas in Fulton County where, upon redistricting the voters following the census, problems arose on Election Day.

In House District 62, an entire street, Chicory Cove, was incorrectly placed in House District 64.

In the Sandy Springs area there were approximately 350 people who were incorrectly listed as being in Senate District **56**, when they should have been listed as being in Senate District **6**. When redistricting was done, a number of addresses were not changed, causing those residents to appear to live in districts that offered candidates on the ballot that were not candidates for their residential district.

The Lang Carson Precinct (05A) (100 Flat Shoals Ave), experienced a similar problem. This precinct was a combined precinct for House Districts 58 and 59; however, every voter who appeared to vote was given a ballot that only applied to residents of HR 58. Many voters noticed this early in the day, and the Secretary of State's office started receiving numerous calls and emails. Poll managers seemed incapable of solving the problem and multiple people made calls to Fulton County Election Officials to try to get a person on the scene that could solve the problem. The response of the Fulton County Election Officials to calls for assistance was delayed and woeful. At 9:30, Fulton election officials told the poll workers how to create ballots for HD 59, but the poll workers had no way of knowing which district the voter lived in, unless the voter knew, and further, had no way to verify if the voter's declaration of House District was accurate. The workers were promised a map by 12:00 pm, but it was not until approximately 3:45 PM that an election official arrived with a map that was large enough to allow poll workers to determine which ballot a voter was supposed to get, based on their address. A volunteer who was at the precinct was able to identify at least 16 voters who got and voted the wrong ballot, and reported that there were more people with whom she did not speak. There is no way to determine how many voters either got the wrong ballot or were not able to vote because poll workers could not create proper cards until approximately 9:30 AM.

On Election Day, Sam Westmoreland when asked about the problem at the Lang Carson Precinct told a candidate that two streets not being districted properly caused the problem, although he could not identify *which* two streets were involved. In an interview with Fulton County election officials in December 2012, Dwight Brower said that, "about ten" streets were not properly districted and that was the cause of the problem. It is unknown how many voters cast their ballots in a race that was not for their district. An investigator from the Secretary of State's Office was at the precinct shortly after the problem was reported, and he described a citizen with a map trying to help determine to which districts voters' addresses corresponded. The delayed and inadequate response to the critical situation of voters not being able to cast the proper ballot on Election Day was notable.

It was also reported that House District 25 had districting errors as well. HD 25 is made up of precincts JC04 and JC03. The unopposed candidate received 293 votes in JC04 and 3 votes in JC14 (which was not near his district).

**Potential Violation:**

O.C.G.A. 21-2-226 Duty to place elector in proper district (multiple violations)

O.C.G.A. 21-2-596 Failure to perform duty

Dual Database of Voters

Once Fulton County realized that their districts were not correct, they made the choice to employ a "dual database" for the election. This essentially "froze" the election up to that point, during advanced voting, and then redistricted voters who had not yet voted. Of course, the redistricting was not done properly at that time either as was evidenced by the previous portion of this report. The problem with a dual database is that, while it seems like a quick solution at the time, creating a dual database creates two complete, separate sets of election results that must be manually calculated and entered into the

GEMS server. While this sounds simple, it is not as simple as adding two numbers and getting the total (*before* plus *after*=total.) There are thousands of individual results that must be entered, and thousands of computations to be done, and the entry can only be done on a single GEMS server, by one person at a time.

Fulton County displayed results in a way that was confusing to the public. They initially showed only the Election Day database (database #2) as their final results. Then, when they completed their second database, they displayed the *combined total* as being only database #1. At least one candidate thought that this was a manipulation of votes by Fulton County.

#### Delays in Counting Votes and not certifying the Election in Time

Largely as a result of working with a dual-database in the Primary Election, Fulton County was not able to complete the tabulation and certification of the election results by the deadline required by the law. Fulton County certified their results approximately one hour after the deadline (Monday, August 6, 2012 at 5:00 pm.)

#### **Potential Violation:**

O.C.G.A. 21-2-493(k) Failing to certifying election by 5:00 PM on the Monday after the election

#### Absentee Ballot Complaints

Glenda Heyer, when requesting an absentee ballot for her son, *got the wrong absentee ballot three times* (two Republican and one non-Partisan.) Her son was not able to vote.

#### **Potential Violation:**

O.C.G.A. 21-2-384(2)

#### Early Opening and Tabulating of Absentee Ballots

Fulton County started opening and tabulating absentee ballots on Monday, July 30, 2012, a full 24 hours before the code allows early opening and counting. People involved were not sequestered Monday, except during working hours.

#### **Potential Violation:**

O.C.G.A. 21-2-386(G)(3) Early opening and tabulation of absentee ballots

#### Not Getting Ballot of Choice

Wheat Street Towers Precinct, at least two voters were told that they must either pick Republican or Democrat ballots, and could not get a non-partisan ballot. Voters had no choice but to pick what was offered to them.

#### **Potential Violation:**

O.C.G.A 21-2-431(a) Not getting proper ballot

SEB Rule 183-1-12(4)(b) Not getting appropriate ballot

#### Polls Not Opening on Time

James Orange Park Precinct was not open until approximately 7:30 AM; however, the cause was that the site key-holder had car trouble. At least one voter had to leave before the precinct opened and could not vote.

#### Poll Closing Prematurely

East Point Library-A voter arrived at 6:55 PM, and was told the polls were closed. The voter started back to her car. Apparently, the voters were able to convince poll workers that it was 6:55 PM, and they opened the doors, but by the time the complaining voter got back to the door, she was told that now the polls were closed, even though she had been in line with the other voters disputing the closing time.

#### **Potential Violation:**

O.C.G.A. 21-2-403 Polls closing before 7:00 PM

#### Outrageous Results

Precinct 1C2 showed 233 ballots cast with a turn-out of 23,300%. This was as a result of a redistricting error that placed all of the voters in one precinct in the same district when they should have been distributed among two districts. This was a reporting error, which may have impacted the credibility of the reporting, but did not affect any results.

#### DRE Malfunctioning and Manager Casting Voter's Ballot

Mr. John Mattox, who voted at 10M (Tennis Center), reported that his ballot, as reflected by the DRE did not show him, having selected a candidate for sheriff, when he said he previously selected a candidate. He called a poll worker to his station, and she reviewed his ballot and he tried again. He selected his candidate, but when the DRE got to the summary page which showed which candidates he selected, there was no "x" on the sheriff candidate. He said the poll manager cast his ballot by pressing the button herself, and told him he was done. He was dismayed that the DRE unit was left in use.

Subsequent investigation determined that there was insufficient evidence to sustain a violation of election law.

### **Violations SEB2012-056 Fulton County Primary Election**

**Allegation:** 60 voters were assigned the incorrect precinct during the July 31, 2012 Primary Election

- **Violation 21-2-226(b)** upon finding an elector eligible to vote in the county, the county board of registrars shall have the duty of determining and placing the elector in the proper districts and precinct.

**Allegation:** Fulton County Elections failed to certify the July 31, 2012 Primary Election by the deadline – Election results were certified at 6:30 pm, Monday November 12, 2012; 1 ½ hours after the deadline

- **Violation 21-2-493(k)** returns shall be certified by the superintendent not later than 5:00 pm on the Monday following the date on which such election was held.

**Allegation:** Fulton County opened absentee ballots the Monday prior to the July 31, 2012 Election – absentee ballots were opened and scanned on the Monday prior to the election

- **Violation 21-2-386(a)(3)** a county, at his or her discretion, after 7:00 am on the day of the primary, election, or runoff open the inner envelopes.
- **21-2-386(a)(5)** no absentee ballots shall be tabulated before 7:00 am on the day of a primary, election, or runoff.

### **SEB 2011-110 Demolished Residences**

This case involves a complaint that was brought by a complainant who reported that there were at least 1,300 people registered to vote in Fulton County, however, the homes where these registered voters claimed residency, no longer existed. The complainant provided specific names and addresses along with photographs that apparently showed that listed addresses contained only empty lots with no structures. Preliminary investigation indicated that many of the addresses referred by the complainant did appear to show vacant lots while voters still used that address as a registered address for voting. There was concern that people who might have moved out of their districts were still registered to vote and were voting in Fulton County Elections.

A previous SEB case (2009-62) investigated allegations that voters had done just that in the 2009 City of Atlanta Municipal Election.

Examination of O.C.G.A. § 21-2-218 indicated that while this situation was odd on its face, the registration of a voter who moves his residence is affected differently depending on whether the voter leaves the district, or municipality, county, or state. Paragraph (d) states that a voter who moves to a different address within the county or municipality, but fails to notify the registrar by the fifth Monday before an election, “shall vote in the precinct of such elector’s former residence for such election...” Then, paragraph (e) of this code section states a voter, “who moves from one county or municipality to another after the fifth Monday prior to a primary or election may vote in the county or municipality or precinct in which such elector is registered to vote.”

It was also unknown when these electors moved and/or if they moved to a different county or municipality. It was also unknown if the voters intended to return to these addresses and were living temporarily at another location, while intending to retain their residency as allowed under O.C.G.A. § 21-2-217(a)(2).

In May, 2012 I met personally with Fulton County Elections Director, Samuel Westmoreland, in Savannah to discuss this issue with him. At the time, I believed that Fulton County was not aware of the allegation or set of circumstances. I gave Mr. Westmoreland a very brief synopsis of the allegations. I was surprised to hear him respond that his office was already aware of the situation and that they were already working on it. He then volunteered that he had found [paraphrased] “elements in the office that were corrupt and/or covering the situation up.” I told him that I was very interested in working with him and Fulton County in addressing the issues. Mr. Westmoreland then said that he would rather not discuss the matter further in public (we were in the lobby of the hotel where the SEB Meeting was taking place). I offered to come to his office the following week, and he immediately said that he did want me there, but he would come to my office instead. After not hearing from him during the following

week, I called him, and he made another cryptic comment along the lines of, "People in my office don't want this dealt with." I told him that he could not mention knowledge of corruption and cover-up, and then simply drop the matter. He said that he would meet with me, "off campus" at a Starbucks, and that he would call me to arrange the meeting. I did not receive return calls, nor hear from Mr. Westmoreland again.

[At this point, this case connects to the November General Election]

In June, 2012, Fulton County sent approximately 2,400 letters to voters. The letters were challenges to each registered voters registration status. A hearing date was set for June 14, 2012. Fulton County officials believed these voters did not have homes where they were registered to vote. What Fulton County officials did not know was that some of the addresses had been rebuilt and occupied and/or were never razed in the first place. The AJC did a story about voters who were informed that they did not live where they were registered when; in fact they did live where they were registered to vote. Fulton County sent out another letter to the 2,400 voters and essentially dropped the matter, for the time being. Fulton County has not formally challenged these voters as far as we know.

At some point shortly before the November 6, 2012 General Election, Fulton County decided to place approximately 1,100 registered voters, who were suspected of not having homes at their registered addresses, in a voter registrations status of "P" (for Pending.) It was Fulton County's intent to use this to identify such voters and require them to complete a change of address form. It is unknown whether the plan was to allow the voters to vote on a DRE, provisionally, or at all, however, an email from Sharon Mitchell to Linda Ford suggests that the plan was to not allow these voters to vote on a DRE, since their names, apparently, would not appear on the ExpressPoll in this "P" status. In an interview with Sharon Mitchell in December 2012, Ms. Mitchell said that no voters were actually ever placed in a "P" status. Sharon Mitchell intended the "P" to be a "flag" for election officials to clarify residential address, however, a "P" status would have prevented the voter's name from appearing on the ExpressPoll and there is a very high probability that they would not be allowed to vote on a DRE. There were 636 voters in "P" status in Fulton County on Election Day, November 6, 2012.

It does not appear the Fulton County has decided if or how to handle these registered voters, though there was a mention of holding hearings on the voters.

It is also unknown if there was some person or persons in the Fulton County Election Office who was attempting to either keep people as registered voter while having knowledge that they might be ineligible, or oppositely, trying to interfere with the rights of registered voters.

### Conclusions

These multiple failures seem to be linked to poor planning, insufficient training, poor communication, and poor decision-making.

Perhaps most troubling is the apparent utter disregard for the security and integrity of practically the entirety of the provisional ballot process.

Almost 10,000 votes were essentially un-documented or under-documented and under-secured.

The lack of accountability with provisional ballots calls every provisional ballot into question, and at approximately 9,600 ballots, that is not an insignificant number of votes.

It is not a far leap to move from incompetence to genuine election fraud when lists of voters are being altered, and fictitious reports of counting ballots are made, and documentation is so haphazard that seven provisional ballots that appear to be from the same voter are accepted.

It should be noted that even a cursory exploration of other election documents from the 2012 General Election (DRE Recap sheets, supplemental voter lists, and provisional ballot documents, to name a few) show a similar pattern of incompleteness, inaccuracy. Were an exhaustive, point-by-point examination of every precinct be made, the numbers of violations would likely increase exponentially.

## INVESTIGATIONS DIVISION

### SUMMARY

---

CASE NAME: Fulton County Recovered Nov. 2012 Documents  
SEB CASE #: 2012-0000156  
INVESTIGATOR: Frances Watson  
DATE OF REPORT: January 27, 2014

---

#### **COMPLAINT:**

On January 21, 2014 the Secretary of State Investigations Division received notification that election documents had been located by employees at a business in Fulton County.

#### **COUNTY AND ELECTION INVOLVED:**

Fulton County, Fulton County Special Election held July 31, 2012

#### **JURISDICTION/VENUE:**

Jurisdiction will be with the State Election Board, Atlanta, Fulton County, Georgia.  
Venue on any criminal prosecution will lie in Fulton County, Georgia

#### **ELECTION STAFF:**

Combined Board of Elections and Registration

#### **ELECTION CERTIFICATION:**

Dwight Brower 04/10/2006  
Shauna Dozier 06/14/2011

## **RESPONDENT(S):**

Dwight Brower Chief of Elections and Fulton County Board of Registration and Elections  
130 Peachtree St  
Suite 2186  
Atlanta, GA 30303  
(404) 612-7020 (Phone) (404) 730-7024 (Fax)

## **FINDING(S):**

The investigation reveals that Fulton County did rent a vehicle for the November 06, 2012 election. The vehicle was rented from 10/26/2012 -11/12/2012. There was a box of documents clearly marked as election documents left inside the rental vehicle when it was returned to the rental company. The rental company advised they contacted the person listed on the rental contract and notified them of the documents when they were located. The documents were never picked up. The rental company notified the Secretary of State's Office about the documents on January 21, 2014. The box was immediately retrieved and inventoried. There was an assortment of documents located inside the box. Including at least 268 voter registration applications. Many of the applications contained complete social security numbers, names, addresses, and date of births.

A complete inventory of the documents was completed and a spreadsheet included in the case file. It was determined that sufficient evidence exist to support violations of Georgia O.C.G.A. 21-2-40, O.C.G.A. 21-2-225 (a), and SEB rule 183-1-6.01 (01).

## **POTENTIAL VIOLATIONS:**

### **Georgia O.C.G.A 21-2-40 (268 violations)**

There is evidence to suggest that Fulton County Board of Elections and Registration did not fulfill their duty to enter the 268 Voter Registration Applications completed on November 06, 2012 at the polling place in violation of stated duties in Georgia O.C.G.A 21-2-40. The listed documents were left in a box unsecured in a vehicle after the close of the polls and not secured properly or turned over to the Board of Elections and Registration.

### **Georgia O.C.G.A. 21-2-225 (a) (268 violations)**

There is evidence that Fulton County Board of Elections and Registration failed to fulfill their duties in securing the 268 Voter Registration Cards/Applications in accordance with Georgia O.C.G.A. 21-2-225(a). The listed documents were left in a box unsecured in a vehicle, and not turned over to the Board of Elections and Registration. The documents were not kept confidential or secured.

### **SEB RULE 183-1-6.01(1) Acceptance of Voter Registration Applications (268 violations)**

There is evidence that Fulton County Board of Elections and Registration failed to fulfill their duties in receiving and processing the voter applications in accordance with subsection (c) of

O.C.G.A. Section 21-2-224. Fulton County failed to receive, date stamp 268 voter registration applications dated November 06, 2012 and left in a rental vehicle, unsecured.

**INVESTIGATIVE SUMMARY:**

On January 21, 2014 at approximately Chief Harvey received information that election documents had been left in a rental truck after the November 2012 election. The vehicle had been rented by Fulton County. Chief Harvey requested Investigator Watson to respond to an address at 5909 Peachtree Dunwoody Road to pick up the box of election documents. Investigator Watson arrived at approximately 11:08 a.m. and received a box with a white sheet of paper taped to the outside with typed "CHANGE OF ADDRESS VOTER REGISTRATION APPLICATIONS ENVELOPE #10 PROVISIONAL BALLOT STUBBS, SPOILED 7 CANCELLED BALLOTS (BALLOTS NOT CAST) ENVELOPE #11", displayed. Investigator Watson took a photograph of the box, (Exhibit #2). Investigator Watson completed an inventory of the documents inside the box and completed a spreadsheet listing the types and quantities of documents (Exhibit #3).

Investigator Watson then scanned and printed the Voter Registration Applications and turned the originals over to Chief Harvey on January 22, 2014. The printed copies were returned to the box inside a manila envelope marked as copies. Investigator Watson then checked the Absentee Ballots to make sure that the listed voters had voted on a DRE on Nov. 06, 2012, All but 2 Absentee Ballots that had voter information listed were accounted for as having voted on a DRE. The two remaining Absentee Ballots that had been completed belonged to Doris B Anderson and Ebony D. Harrold II.

Investigator Watson contacted Doris Anderson and Ebony Harrold on January 23, 2014. Doris Anderson advised that she did not remember what she did with the Absentee Ballot (Exhibit #5). Ebony Harrold advised that she had voted on a DRE in Atlanta and had dropped the Absentee Ballot in a bag at the precinct. Doris Anderson and Ebony Harrold II do not show as having voted in the November 06, 2012 election (Exhibit #4). Doris Anderson does not believe that she turned the Absentee Ballot in. Ebony Harrold was under the impression that she voted in the November 06, 2012 election.

On January 27, 2014 Investigator Watson received an email regarding the rental of the vehicle by Fulton County Elections on 10/26/2012-11/12/2012 (Exhibit #6).

**FINDINGS:**

The investigation reveals that election documents including:

- provisional issuance records
- unvoted provisional ballots
- provisional ballot stubbs,
- blank voter certificates,
- affidavits,
- unvoted absentee ballots
- voter registration applications completed and blank
- Absentee ballots
- spoiled absentee ballots
- deceased list
- precinct card
- voted ballot
- provisional ballot recap sheet
- absentee ballot canceled
- oaths
- pieces of torn up voter certificates
- absentee ballot envelope completed
- voter registration change of address
- election official name tag (blank),

were within the box. See spreadsheet for specifics of quantity of each document (Exhibit #3)

### **POTENTIAL VIOLATIONS:**

#### **Georgia O.C.G.A 21-2-40 (268 violations)**

There is evidence to suggest that Fulton County Board of Elections and Registration did not fulfill their duty to enter the 268 Voter Registration Applications completed on November 06, 2012 at the polling place in violation of stated duties in Georgia O.C.G.A 21-2-40. The listed documents were left in a box unsecured in a vehicle after the close of the polls and not secured properly or turned over to the Board of Elections and Registration.

#### **Georgia O.C.G.A. 21-2-225 (a) (268 violations)**

There is evidence that Fulton County Board of Elections and Registration failed to fulfill their duties in securing the 268 Voter Registration Cards/Applications in accordance with Georgia O.C.G.A. 21-2-225(a). The listed documents were left in a box unsecured in a vehicle, and not turned over to the Board of Elections and Registration. The documents were not kept confidential or secured.

#### **SEB RULE 183-1-6.01(1) Acceptance of Voter Registration Applications (268 violations)**

There is evidence that Fulton County Board of Elections and Registration failed to fulfill their duties in receiving and processing the voter applications in accordance with subsection (c) of O.C.G.A. Section

21-2-224. Fulton County failed to receive, date stamp 268 voter registration applications dated November 06, 2012 and left in a rental vehicle, unsecured.

**EXHIBITS**

1. Witness List
2. Photograph of box
3. Inventory of box
4. MOI Ebony Harrold II
5. MOI Doris Anderson
6. Copy of email regarding Fulton County Board of Elections rental of vehicle

### Memorandum of Interview

---

**Case Number:** SEB 2012-156

**Case Name:** Fulton County Recovered Nov. 2102 Documents

**Person Interviewed:** Ebony D. Harrold II

**Date of Interview:** January 23, 2014 (Via Phone)

---

On January 23, 2014 at 10:45 a.m. Investigator Watson contacted Ebony D. Harrold II at 229-██████. Investigator Watson asked Ebony Harrold if she recalled requesting an Absentee Ballot for the November 2012 Presidential Election. Ebony stated that she request one and took it with her to a voting precinct in Atlanta. She completed a white sheet of paper, voted on a machine, and dropped the Absentee Ballot in a bag. Ebony could not recall the location or the name of the precinct. Ebony believed it was called The White House School precinct and that Martin Luther King had voted at that precinct.

**Person Interviewed:** Doris B. Anderson

**Date of Interview:** January 23, 2014 (Via Phone)

---

On January 23, 2014 at 10:35 a.m. Investigator Watson contacted Doris B. Anderson at 404-████████. Investigator Watson asked Doris Anderson if she recalled requesting an Absentee Ballot for the November 2012 Presidential Election. Doris stated that she did remember requesting one. Doris stated that she did not go to a precinct and does not know where her precinct is. In 2012 Doris had just lost her husband who had passed away. She had sold her house in Florida and moved to Georgia. Doris stated that she did not recall what she did with the Absentee Ballot.

**To:** Watson, Frances  
**Subject:** RE: Election materials

Ms. Watson,

Here is what I have been able to find so far. There were three rentals in the last half of 2012 to Fulton County Elections.

1<sup>st</sup> rental 6/4/2012 – 7/4/2012 Nadine Fulton County Elections

2<sup>nd</sup> rental 7/4/2012 – 8/3/2012 Nadine Fulton County Elections (This was a re-write of the ticket which we do at the 30 day mark)

3<sup>rd</sup> rental 10/26/12 – 11/12/2012 Elections Fulton County

The branch manager that was at that store is no longer with the company. The Group Manager recalls that one of our employees that cleans the cars returning from rent found the box and turned it over to the manager. The manager contacted the number for the Fulton County Elections that was listed on the contract. I have not tried to reach out to the employee that left the company at this time. According to the group manager, their main point of contact was Nadine and a part time employee that works during elections. I have not been able to track down who they specifically talked to when reporting the box of envelopes.

Let me know if you have further questions.

Thank you.

Jeff

**Georgia governor heads to France, Italy for weeklong trade mission**

**By Greg Bluestein**  
**Monday, October 16**

Gov. Nathan Deal is in Europe this week for a weeklong trade mission to drum up more business in Italy and France.

The governor departed for Paris on Saturday with several economic development aides and will head to northern Italy on Tuesday. He will meet with several businesses that already have operations in Georgia, such as Luxottica and Pirelli, and sit down with potential prospects.

The trips include a Wednesday reception hosted by the U.S. consul general in Milan and a Thursday event held by the Trentino Manufacturing Industry Organization to try to build inroads into a northern Italy region that's a relatively new market.

State officials see Italy as a solid trade partner with potential to grow. The state shipped about \$530 million worth of goods to Italy in 2016 and imported about \$1.7 billion in products in 2016. At least 66 Italian firms are operating in Georgia, employing about 700 people.

The governor, nearing his final year in office, has gone on a range of economic development trips during his two terms. His stops include missions to Brazil, Canada, China, Israel, Japan, Korea and Panama.

Pat Wilson, his economic development commissioner, said the in-person visits send a "strong signal that we are open for business."

"A handshake and a face-to-face conversation is an extremely valuable business development tool," he said.

### **This is how Georgia became a leader in feature film production** **Saturday, October 14**

Atlanta, with its fast-growing film industry, has been called the Hollywood of the South. A 2016 study shows that maybe Hollywood should be called the Atlanta of the West.

The study found that Georgia has the most feature films in production, making the Peach State the new film capital of the world, ahead of California, New York and Louisiana, according to Project Casting's reporting.

From Atlanta to Savannah, Columbus to Rome, Georgia hosted primary production for 17 of the 100 top-grossing domestic feature films released in 2016, according to an expansive study by LA Film.

California hosted 12, finishing fourth behind the United Kingdom and Canada.

Georgia more than doubled its 2015 total of eight, and hosted almost three times as many productions as fifth place New York and Louisiana.

### **Aggressive legislation put Georgia on top**

The No. 1 ranking is the most recent success in the state's years-long efforts to attract showbiz dollars. Tax policies targeting the entertainment industry have made Georgia a financially attractive location for feature film production.

In 2008, a new law gave a 30 percent tax break to productions filmed in Georgia—and that was enough to entice Hollywood producers to make the big move to the Deep South. Eight years later, the dream of Georgia having the most feature films in production had become a reality.

Big-time films like "The Hunger Games" and "Divergent," along with AMC's smash-hit TV drama, "The Walking Dead" have helped boost Georgia's reputation among producers, according to Project Casting.

In October 2017, 48 TV shows and movies were filming in Georgia, the website reported. Among them, Kevin Hart returns to Atlanta to shoot his new comedy "Night School," which is about a group of adults attending night school to pass a GED exam. The Marvel connection continues to bring Georgia more feature film production, this time filming "Ant-Man and the Wasp" starring Paul Rudd and Evangeline Lilly.

### **Georgia's film industry by the numbers**

The bold move of 2008 has never failed to see more return than money spent on taxpayer investment, and the numbers have grown steadily. The first year, the tax breaks amounted to \$260.4 million, but the economic impact was almost twice that at almost \$465 million.

The next year, the impact topped \$1 billion, and by 2015, the investment of \$1.7 billion brought in \$6 billion, according to the Atlanta Journal-Constitution.

It's only the beginning, said Georgia Gov. Nathan Deal.

"The film industry has created a home in Georgia, and I am committed to retaining this relationship by constructing a strong, film-ready workforce that will continue to help the industry thrive."

### **3. Columbus CEO**

#### **State of the Georgia Ports: Surge of Private Investments, Record Cargo Volumes Monday, October 16**

During his annual State of the Port Address, Georgia Ports Authority Executive Director Griff Lynch announced record cargo volumes, infrastructure development and two new customers bringing a combined 1 million square feet of additional distribution center space to Savannah.

"We're expanding on all fronts," Lynch said. "We're adding market share through organic growth and the addition of new accounts, and we're building the new infrastructure necessary to continue processing this cargo with world-class efficiency."

Georgia Gov. Nathan Deal, who attended the event hosted by the Savannah Propeller Club, credited the Authority Board and the GPA team for achieving growth of 8.3 percent in total tonnage across all terminals during Fiscal Year 2017, and doing it safely and without congestion. Savannah handled 3.85 million twenty-foot equivalent units, and Brunswick moved 607,000 auto and machinery units. No other port in the Southeast recorded greater volumes for these commodities.

"Our ports' outstanding FY17 performance highlights the value these assets bring to economic development throughout Georgia," Deal said. "Growing capabilities in Savannah and Brunswick support the expansion of manufacturing and distribution, and the jobs these private developments provide for our citizens."

GPA Board Chairman Jimmy Allgood said the success of Georgia's thriving logistics industry is due to a unified vision of the state's future.

"Like most enterprises, it starts from the top, with Governor Deal, who has been a tireless champion of our ports and logistics networks," Allgood said. "Both the Governor's and the Legislature's support of port deepening and transportation projects have helped make Savannah and Brunswick what they are today. None of this would have been possible without GPA's leadership team and 1,200 employees whose dedication to superior service is second to none."

During his presentation, Lynch announced two major e-commerce developments. Noble House, a national furniture supplier, will build a 630,000 square-foot facility to serve the eastern half of the U.S., while home accessories company Best Choice will build 345,000 square feet. These announcements are in addition to 3 million square feet of distribution center space completed within the last year, and 5.2 million square feet currently under construction. Including Thursday's announcements, this new activity will bring Savannah's industrial inventory to more than 57 million square feet, of which less than 2 percent is currently available.

"Today's announcements are the result of the strong collaboration of Georgia's entire maritime community, including GPA, the International Longshoremen's Association, stevedores, motor carriers, rail and third-party service providers," Lynch said. "We thank Noble House and Best Choice and the many other business leaders who have selected Georgia and the Georgia Ports this year. E-commerce is a growing opportunity for Georgia as companies take advantage of cost savings related to landing cargo closer to population centers in the Eastern U.S."

Port-related e-commerce announcements from FY2017 include an 846,000 square-foot distribution center for Wayfair, which will add 150 jobs; and a 753,000 square-foot facility for Tory Burch, bringing another 150 jobs to Georgia.

Lynch outlined plans to accommodate record growth and expand new markets. Those plans include:

**A \$128 million Mega-Rail Project.** Additional track on terminal will allow the GPA to better handle 10,000-foot long unit trains. More efficient rail offerings will position Savannah to rapidly increase service to an arc of inland markets, from Atlanta to Memphis, St. Louis, Chicago and the Ohio Valley.

Construction is expected to begin in the first quarter of Calendar Year 2018. Completion is expected at the end of 2020.

**Growing Savannah's crane fleet.** The Port of Savannah has 10 Super Post-Panamax ship-to-shore cranes on order, for a total of 36 cranes. Four will arrive in 2018, and the final six by 2020. Having 36 cranes on dock will allow Garden City Terminal to move 1,300 containers per hour on and off vessels.

**The Appalachian Regional Port.** The GPA broke ground on this inland rail yard in Chatsworth, Ga., in FY2017. Its completion in the fall of 2018 will cut Atlanta truck traffic by 50,000 trips per year, and expand GPA's reach into Tennessee, Northeast Alabama and parts of Kentucky.

**Adding capacity for motor carriers.** The GPA will expand its current gate structure by adding six truck lanes, giving Garden City Terminal a total of 54 lanes, a 12.5 percent increase.

**Statewide logistics expansion.** Off-terminal, the state of Georgia is investing \$10 billion over 10 years into freight mobility. The plan will create dedicated truck lanes, alleviate traffic and improve safety across the state. Within five years, the state will deliver the Brampton Road Connector, linking Garden City Terminal to I-516, and extend the Jimmy Deloach Parkway from I-95 to I-16. This will form a complete cargo beltway for motor carriers between the port and the interstate system.

The Savannah Harbor Expansion Project. Overseen by the U.S. Army Corps of Engineers, the project will deepen the outer harbor to 49 feet at low tide (56 feet at high tide), and the inner harbor to 47 feet (54 feet at high tide). SHEP is 35 percent complete, with a finish date in late 2020. It will allow the largest vessels calling on the Port of Savannah to take on heavier loads and to transit the river without having to wait for high tide. Since the opening of the expanded Panama Canal at the start of FY2017, the percentage of the fleet calling on Savannah that are neo-Panamax vessels has grown from 42 percent to 60 percent.

#### **4. AJC**

##### **Georgia close to picking school turnaround chief**

**By Ty Tagami**

**Friday, October 13**

A search committee has winnowed a list of candidates to lead Georgia's school turnaround effort, and the state education board will interview the finalists Tuesday.

The Education Turnaround Advisory Council has been meeting since June, soon after it was established under a new state law for improving low-performing schools.

Members conducted telephone and Skype interviews to reduce the list of 58 applicants. The finalists -- their names are not yet public -- will meet with the state school board at the Georgia Department of Education offices in downtown Atlanta at 8:45 a.m.

One of the advisory council members, Jimmy Stokes, said he was pleased with both the process and the people selected.

"They're very well qualified," said Stokes, the executive director of the Georgia Association of Educational Leaders, which represents school administrators. The three to be interviewed Tuesday have experience with statewide school turnaround efforts, he said. He wouldn't name them but said none is currently employed in Georgia.

Stokes said all the finalists are also "very nurturing, down to earth people." Diplomacy will be key, given the delicate task at hand: the Chief Turnaround Officer will have to rely on collaboration with local school districts and the Georgia Department of Education, since she or he will have a relatively small staff. The state has set aside \$1 million in the budget to fund the office, with \$1.25 million more expected to come from a grant program.

There's opportunity for ill will: school districts targeted by the new chief will be compelled by the Georgia Board of Education to improve their schools or face consequences, such as loss of control; and the Georgia Department of Education will be expected to collaborate though it lost its bid to direct the project.

The state agency's leader, Superintendent Richard Woods, tussled with Gov. Nathan Deal for control over the turnaround effort, and lost. The Georgia General Assembly put the turnaround chief under the authority of the state school board, which is appointed by the governor.

#### **5. WJCL**

##### **Funeral services Sunday for fallen Lyons soldier**

**Sunday, October 15**

A Toombs County soldier killed in an attack will be remembered with funeral services this weekend.

Staff Sgt. Dustin M. Wright, 29, was among four Green Berets killed in an attack on October 4 in southwest Niger. The Department of Defense said the men came under hostile fire while on a reconnaissance patrol.

His funeral is Sunday at Booster Stadium in Lyons.

Georgia Governor Nathan Deal ordered flags to fly at half-staff Friday as a show of respect for the memory and sacrifice of Wright.

Also killed in the attack were: Staff Sgt. Bryan C. Black, 35, Puyallup, Washington, Staff Sgt. Jeremiah W. Johnson, 39, Springboro, Ohio, and Sgt. La David T. Johnson, 25, Miami Gardens, Florida.

All four were assigned to 3rd Special Forces Group (Airborne), Fort Bragg, North Carolina.

## **6. AJC**

### **Finances force some Georgia school systems to still furlough teachers**

**By James Salzer**

**Sunday, October 15**

Gov. Nathan Deal and lawmakers were unhappy last year when only 40 percent of Georgia school districts gave teachers the salary hikes the General Assembly promised.

This year most gave at least the 2 percent increase approved by lawmakers, according to a state Department of Education survey obtained by The Atlanta Journal-Constitution. But the survey found something else: Eight years after the Great Recession ended, a few rural school districts still have to furlough staffers to keep their doors open.

That surprised House Appropriations Chairman Terry England, R-Auburn, who has sought to get financial help to rural districts in the past.

“Part of it is that their property tax revenues have not caught up with pre-recession levels,” England said. “There is very little happening in any of those (communities) that will turn that around.”

The desperate plight of small-town hospitals has been well documented in recent years, but rural school districts have long faced some of the same challenges: a shrinking or stagnant population and small commercial base, which in turn means property tax revenue to supplement state funding is hard to come by.

On top of that, state budgets have included, for more than a decade, “austerity cuts,” reductions in what the funding formula says districts are supposed to receive to educate children. Deal and lawmakers have whittled down what had been an annual cut of about \$1 billion to \$166 million in recent years.

But those “austerity cuts,” which grew during the Great Recession, are one of the reasons many districts say they diverted teacher raise money in the past for other things, such as reducing furloughs or adding back instruction days to shortened school years.

Politically, lawmakers want to be able to brag about giving teachers raises, particularly when they put hundreds of millions of dollars into the budget for that purpose. Besides cost-of-living raises funded by the state, many educators also get longevity increases for teaching another year.

Until this year, Deal and legislators had given local school boards the flexibility to decide how to spend the money for cost-of-living raises. Many chose to use it to get them back to where they were before the recession or for one-time bonuses to teachers that wouldn't obligate them to pay the same amount the next year.

This year, Deal and lawmakers all but mandated 2 percent pay raises, and the Education Department survey showed only three districts and a handful of state charter schools didn't give any pay hikes. A few others gave teachers one-time bonuses, such as Cobb County, where the school board approved 1.1 percent awards.

Deal expected every district to comply with the General Assembly's wishes.

"It's disappointing to see certain school systems did not pass on raises clearly intended for pay raises," said his spokeswoman, Jen Ryan.

One of the districts listed as giving no raises was the Chattooga County School District.

However, Chattooga Superintendent Jimmy Lenderman said the survey was wrong, and his teachers got the state raise.

Two others on the list, Calhoun County Schools in southwest Georgia and Dublin City Schools, are both facing financial issues. Dublin officials have been trying to whittle away at a sizable deficit.

Calhoun officials said in the survey that they saw a \$234,000 cut this year in state funding meant to aid districts with low property wealth.

Calhoun was also one of the district that reported having furloughs — seven days' worth this school year. Attempts to reach officials in the district were unsuccessful.

Furloughs of teachers and school staff were common from 2009 to 2012 as the state tried to dig its way out of the Great Recession. The downturn brought a major decline in state tax revenue, and lawmakers cut school funding to balance the budget.

The Education Department report said 11 school districts had furloughs in fiscal 2017, which ended June 30. Five districts planned furloughs this year, although one has since decided against them.

The Meriwether County School System, southwest of Atlanta, reported that its staffers will take five furlough days without pay this year.

Tim Dixon, the district's superintendent of schools, said the system has been working to get out of debt. When he arrived two years ago, district staffers had to take off 10 days a year without pay. By next year he's hoping the furloughs will be eliminated.

"We are like many other small districts," Dixon said. "We are losing what little industry we have and our enrollment continues to decline."

Despite that, Dixon said the local school board "felt compelled" to give teachers raises.

"Like teachers in other districts, our folks work hard and we did not feel like five furloughs on top of no pay raise was fair to our folks," he said. "I have never been a fan of balancing the budget on the backs of our teachers and staff."

England, the lawmaker, said the Education Department survey showed most districts got the message members

of the General Assembly intended to send: Pay raise money should go for pay raises.

Angela Palm of the Georgia School Boards Associations touted it as a sign that most districts have stabilized financially enough to give raises.

But she added: “For all the reasons you see in other reports, many rural districts are struggling financially because their community is struggling. Hopefully the focus being put on rural issues will help us find new or better ways to address these problems.”

The House and Senate both have committees traveling across the state studying the problems of rural Georgia, and they expect to make recommendations before the General Assembly reconvenes in January.

John Palmer, a Cobb County educator and spokesman for the teacher group TRAGIC, said the financial “shell games” of state leaders — touting pay raises while maintaining “austerity cuts” — hasn’t helped the situation.

“Those districts who have been able to absorb the cuts locally are keeping their heads above water, but districts without a strong commercial tax base are still struggling to keep their doors open,” Palmer said. “The austerity cuts and continual shifting of costs to local districts are creating a two-tiered system of education in Georgia.

“All of Georgia’s students deserve a quality education, not just the ones who live in districts who can raise their own local taxes to cover the lack of state funding for schools.”

## **7. AJC**

### **Donald Trump in our midst: Do you ignore, join or oppose him?**

**By Jim Galloway**

**Friday, October 13**

Donald Trump hasn’t set foot in Atlanta since April, but the president’s insatiable appetite for attention has done what PlayStation hasn’t. At least not yet.

Via Twitter and actual policy, Trump has become a virtual reality in our midst, roiling not just Georgia politics, but the state’s business climate as well.

Decisions abound: Do you engage or avoid, join or oppose? Recent days have brought three case studies to the foreground.

We begin with Ed Bastian, CEO of Delta Air Lines. Last December, Bastian pronounced himself “very encouraged” by Trump’s emphasis on fair trade. Delta has long pointed at airlines in the Middle East, complaining that government subsidies, and in some cases outright ownership, pose an unfair advantage.

After a White House visit in February, Bastian declared himself still satisfied with the administration’s attitude “on issues important to Delta, our employees and our customers.” Early this month, the Delta CEO praised the White House’s tax reform proposal, sight unseen.

And then.

Last week, Delta found itself on the wrong side of Trump’s “America First” theory of economics. The airline has negotiated to purchase to purchase 75 jets from Bombardier, a Canadian aircraft manufacturer.

The Boeing Co., an American firm, has accused Bombardier of “dumping” its aircraft on the U.S. market. And

Delta's jets now might carry a tariff of nearly 300 percent, courtesy of Trump and the U.S. Commerce Department.

Suddenly, a \$25 million jet could cost the corporate giant \$100 million. Multiply that times 75, and soon you're talking real money. As in \$5 billion and more.

"We will not pay those tariffs, and that is very clear," Bastian said Tuesday. "We intend to take the aircraft. I can't tell you how it's going to eventually work out."

As Delta's relationship with Trump has taken a turn, so has Bastian's language.

Only a day earlier, the CEO addressed the Hispanic Corporate Council of Atlanta, emphasizing the 49 percent stake that Delta now has in Aeromexico. Bastian never mentioned Trump. Just his wall.

"I don't know what they're going to do with the wall they keep talking about, but we're going to fly over that damn thing, whatever it is," Bastian said Monday.

"There's a lot of anxiety, a lot of fear that cuts into the heart of who we are as a society. It's caused a lot of people to wonder what's going on and where are we going," he said.

Case No. 2 involves Councilwoman Mary Norwood. The Atlanta race for mayor is formally nonpartisan. That said, the Atlanta voters who live in Fulton County, arguably more conservative as a group than those who live in DeKalb, gave Democrat Hillary Clinton 86 percent of their votes last November, to 16 percent for Trump.

Clinton won every ward in the city, including GOP-dominated District 8.

Norwood may be the frontrunner in polls, but her lead is slipping. The Democratic Party of Georgia is already attempting to wrap Norwood in Republican cellophane, as it did eight years ago. Should she make it to the run-off, Norwood must know that her rival will try to drape Trump around her neck, too.

And so it was a surprise to see video of a Monday forum in which Norwood bobbled a simple question: What do you think about Donald Trump?

"We have a president," she said on a second try, careful not to mention names, and indulging in relaxed syntax. "I am telling you that I do not support those policies. I am saying to this audience that I do not support any policies that are bigotry, that are racism, that are in any way related to --"

The crowd cut her off.

Fortunately, forums in the Atlanta race for mayor aren't hard to come by. On Thursday morning, in a debate hosted by the Atlanta Press Club, Norwood first made sure to say that she voted for Clinton last November. Then she expressed disappointment with Trump, though not by name.

"The first year in office has been disappointing to many citizens in this country. The policies that have come out of this administration have not been policies, for the most part, that I have agreed with at all," she said. "But I will say this -- I will work closely to get the right policies for Atlanta."

In Case No. 3, we have Lt. Gov. Casey Cagle and a dog that hasn't barked. Not yet.

Cagle, one of several Republicans in the 2018 hunt for governor, would no doubt argue that he's a strong and faithful supporter of President Trump. But last month, Alabama taught us that this is not necessarily enough.

U.S. Sen. Luther Strange, an incumbent Republican in good standing with both Trump and Senate Majority Leader Mitch McConnell, R-Ky., was soundly defeated by twice-ousted Supreme Court jurist Roy Moore in the Alabama GOP primary runoff.

Steve Bannon, the former White House strategist who helped orchestrate Moore's victory, now stalks the land — promising a nationwide pitchfork revolution within the Republican party. On Trump's behalf.

This week, the Cagle campaign made public an internal poll that it bought and paid for. We don't normally put much stock in such things, but the survey of 600 GOP primary voters, conducted Sept. 28 to Oct. 1, helps explain why beads of sweat aren't popping out on the lieutenant governor's forehead.

Trump scored extremely well, but so did Gov. Nathan Deal. As did Cagle, who was first elected lieutenant governor in 2006. A large majority say the state is on the "right track."

In other words, at least according to the Cagle campaign, Breitbart fever has yet to infect Georgia.

And none of Cagle's rivals — Secretary of State Brian Kemp, state Sen. Michael Williams of Cumming, former state senator Hunter Hill of Atlanta, and Clay Tippins of Cobb County — have so far consolidated the pitchfork vote.

But it's still early. By the time a June runoff rolls around, this race, too, is likely to be as volatile as Donald Trump's Twitter account.

Perhaps, in part, because of Donald Trump's Twitter account.

### **Gov. Deal Proclaims Dispute Resolution Week**

**By Katheryn Tucker**

**Friday, October 13**

Gov. Nathan Deal—lawyer, former juvenile court judge, father of a superior court judge and leader of a nationally known criminal justice reform effort—is encouraging litigants to settle their differences outside the courthouse.

The Judicial Council of Georgia announced Friday that Deal signed a proclamation recognizing Oct. 15-21, 2017, as "Dispute Resolution Week" in Georgia.

The council explained in a news release that Dispute Resolution Week supports the education of judges, members of the bar, and the public in finding "durable solutions to resolve disputes outside of a courtroom by utilizing mediation, arbitration, and other restorative processes."

The week is intended to empower individuals, families, communities, organizations and businesses to find common ground through collaborative problem solving, the council said. The Georgia Commission on Dispute Resolution, State Bar of Georgia Dispute Resolution Section, and Georgia Office of Dispute Resolution will be working together to promote these values and advocate for champions in the field of dispute resolution, the release said.

#### **The Future Is Here**

**By Susan Percy**

**Monday, October 16**

Technology has changed Georgia's multi-billion-dollar manufacturing industry dramatically. For workers with the right skills, job opportunities have never been better.

Jason Moss says the very word "manufacturing" makes a lot of people think of Lucy and Ethel in the candy factory, the classic I Love Lucy scene. "They think of it as a production-line-only job. That's far from the truth," says Moss, who is founder and CEO of the Georgia Manufacturing Alliance.

Funny as that scene is, the old black-and-white image of TV comics stuffing chocolates in their mouths to keep up with a fast-moving conveyor belt doesn't begin to reflect the reality of advanced manufacturing in Georgia and the sophisticated technology it uses. Truth is, unskilled work and workers are rapidly disappearing.

"Technical advances are helping companies automate processes to be more efficient and to utilize less human capital and to be more exact in their processes," says Tom Croteau, deputy commissioner for global commerce at the Georgia Department of Economic Development (GDEcD).

These changes, which have occurred over the last few years – spurred by the recession and the loss of factories to places where labor is cheaper – are helping revive the manufacturing industry even as they are creating a huge demand for the skilled labor needed to make the advanced processes work.

"The perception people have of manufacturing has not caught up with reality," says Brian Cooksey, director of operations training and development for Shaw Industries, the carpet and flooring manufacturer based in Dalton. "They still think these are dirty jobs in dark plants – but the reality is that you are using your mind as much if not more than your muscles. Our plants are clean and bright – you're engaging, you're problem solving, you're thinking on the fly, collaborating with others. These are really good jobs with lots of growth opportunities."

### **By the Numbers**

Today Georgia has more than 10,000 manufacturing facilities employing upwards of 360,000 workers; the industry makes up more than 11 percent of the state's economy. The figures include traditional – there is still some of that around – and advanced manufacturing. Total manufacturing output for 2015 was \$54.8 billion, and manufactured goods accounted for 91 percent of Georgia's total exports in 2016.

"I don't believe there are many operations that are left today that are not employing automation and technology," says Croteau. "We've become such a global economy that you just can't survive if you are not efficient with your processes."

"An infusion of technology and the idea of advanced manufacturing are really offering the opportunity to bring all kinds of manufacturing back to Georgia, from apparel to flooring to wood industries," he says.

A new 74,000-square-foot adidas SPEED FACTORY, which will use robots to manufacture running shoes, is set to open in Cherokee County before the end of the year.

Advanced techniques are in play across the manufacturing spectrum; the automotive industry is usually the one that comes to mind first. The Kia plant in West Point, which relies heavily on robotics, has the capacity to

produce 360,000 cars every year.

But even older, more traditionally human-labor-intensive industries have adopted technology, Croteau points out. In agriculture, crop irrigation techniques rely on satellite imagery, remote programming and in-ground sensors. And the timber industry: “These days when trees come in,” he says, “they are scanned optically and measured out with lasers to provide the equipment with what the optimal cut will be. They know exactly how many cuts they can get out of that tree.”

## **Cause and Effect**

So exactly what turned manufacturing into advanced manufacturing?

“Hard times,” Croteau says. “I would say somewhere in early- to mid-2002, we were going through a phase where a lot of jobs were going offshore. We were losing a lot of jobs to Mexico, to China, to other places. Then we went into the recession years – 2008 to 2012. That all caused companies to need to be leaner and more efficient to compete with offshore manufacturing.”

He references Cooper Tires, the Albany plant that closed in 2008. “Because they were using traditional manufacturing methods, they were being beaten out by some of the new tire manufacturers using more advanced methods. We now have multiple tire manufacturers here in Georgia using advanced manufacturing: Pirelli in Rome, Toyo in Bartow, Kumho in Macon. Sentury, a Chinese tire maker, is coming to LaGrange with a \$530-million investment and over 1,000 jobs.”

West Georgia Technical College’s Steve Cromer, senior director of advanced manufacturing, credits consumer demand for high-quality goods at lower costs for boosting advanced manufacturing.

“The only way to drive costs down and improve quality is to make it an automated process,” he says, “because machines do the job perfectly every time. They don’t show up late for work, they run 24 hours a day, seven days a week. Companies have been replacing non-skilled labor with machines. That’s been the trend for the past 15 or 18 years, and it’s going to only increase going forward.”

## **Revivals**

Advanced manufacturing techniques have been a real boon for flooring, which endured some tough times.

“Our industry certainly was faced with some challenges,” says Shaw’s Cooksey. “Not only was the industry hit by the recession and decreases in housing, but at the same time was facing some shifts in consumer preferences. It used to be carpet was the main type of flooring that was in demand, then [it] shifted to more hard-surface products. A lot of things were happening at the same time.

“As technology has advanced and is more available, it really gave our company an opportunity to look at where we were, where we needed to be. We’ve invested billions of dollars back into our business over the last five to eight years,” he says. “Almost every plant has new technology that really covers the gamut – how we deal with raw material processing, how we produce a product, how we handle the finished inventory – every aspect of our business, even transportation.”

When Standard Textile made the decision four years ago to bring its manufacturing operations back to the U.S., all the efforts started at its plant in Thomaston, says Gary Heiman, president and CEO. The plant opened in April 2015 and employs about 200 people to make bed and bath products, including all towels used by the Marriott hotel chain in North America. The company is headquartered in Cincinnati.

“The major inhibiting factor in the U.S. is the cost of labor,” Heiman says, “with all that includes – healthcare, and so on and so forth.

“We committed ourselves to invest heavily in using the Internet of Things, digitally moving information back and forth from plant to management, creating dashboards, having all our machines with sensors on them so our machines could speak to management, and so management could speak back.”

By design, this eliminated a lot of manual labor. “You don’t have to have tens and tens of people dealing with quality control and quality assurance and many, many other factors where you’re using the human eye,” he says.

“We committed to bring manufacturing back to the U.S. and to significantly collapse the supply chain – so from fiber to yarn to fabric to finishing, it’s all done right here,” he says. “We’ve been able to do things better, faster, more efficiently and with far more creativity in this way.”

### **Keeping it Up**

The same factors that made Georgia a good place for traditional manufacturing work for advanced manufacturing operations: favorable business climate, business-savvy state leadership, great location and a logistical system that makes it easy to import raw materials and export finished goods.

“We are known as a pro-business state, a right-to-work state, which is very important,” says Croteau, “a state that has great talent coming out of its universities and the technical college system, with what is widely known as the best worker training program in the U.S. – Quick Start.”

For international companies, he says, the diversity in and around the city of Atlanta adds an extra level of comfort.

All good, of course. But the reality is there is a real shortage of skilled workers to fill the new jobs that are opening up.

The manufacturing alliance’s Moss recalls a recent conversation with a home goods manufacturer in North Georgia who told him he has four machines he can’t run because he doesn’t have enough people. “I need workers today,” the man told him. “I’ll pay them X amount if they show up every day and pass the drug test. I’ll train them on everything else, and they can have a life-long career. I need people.”

Lots of folks are working to help fill that demand, especially Georgia’s technical college system, the economic development department, the manufacturing industry itself and individual companies.

“We’ve got to have a workforce,” says Shaw’s Cooksey. “What we’ve seen work here in Dalton and the northwest Georgia area is really having those collaborative partnerships with business and industry at the table – your K-12 institutions, your post- secondary partners, your chamber of commerce, your city and county government all being together.”

“Going forward,” Croteau says, “we need to continue to recognize where the gaps are, where private industry is having trouble identifying qualified job candidates or workers to be sure we’re putting emphasis on educating people with that type of training to meet that demand.”

### **Educating a Workforce**

Gains in manufacturing efficiencies have made training and re-training even more crucial for companies that

need employees to work with the new processes and for workers who can no longer get by without skills.

In the new world of advanced manufacturing, non-skilled positions are rapidly disappearing, says Steve Cromer, senior director of advanced manufacturing at West Georgia Technical College.

“Go on a factory floor today,” he says, “and there may be 500 employees. Go back in five years, and they’ll be doing more operations at a faster pace and higher quality and maybe have 150 or 200 less positions,” because non-skilled jobs will be automated.

West Georgia’s training focus is precision manufacturing, which supports manufacturers in the region, including but not limited to automotive. “Anything in the production facility that moves product from one point to another in automated fashion without a human interaction is what we’re training the students to work on,” he says.

The college has three different locations – LaGrange, Coweta and Carrollton – where the classes are taught. The placement record for students who graduate, he says, is 100 percent.

Kathryn Hornsby, assistant commissioner for technical education for the Technical College System of Georgia, says, “All 22 colleges offer some form of manufacturing [training], whether it be degree, diploma or certification.”

More than 1,800 students are enrolled each year in those programs; nine within the system have a special advanced manufacturing focus, like West Georgia’s. Georgia Piedmont Technical College is set to open a new advanced manufacturing lab in November at its Newton campus.

The technical college system operates Georgia’s top-rated Quick Start program, which helps new or expanding operations train their workers to companies’ specific needs. And Hornsby says the system is putting a great deal of effort into apprenticeship programs and working with students in the Move On When Ready program, which allows them to earn college credits while they are still in high school.

“Training beyond high school is crucial,” Hornsby says. “The day when you could only have a high school diploma is over.” – Susan Percy

## **2. Rome News-Tribune**

### **Quick Start: A major key to Georgia’s manufacturing sector successes**

**By Doug Walker**

**Sunday, October 15**

Georgia Quick Start, a division of the Technical College System of Georgia, has once again been voted the number one workforce training program in the U.S. for the eighth consecutive year, according to a survey conducted by “Area Development” magazine, a trade publication for professional site locators.

Quick Start is a customized program, with experts who are able to develop and implement innovative training programs for workers across a broad spectrum of applications from bio-engineering to advanced manufacturing, even food and beverage jobs.

“Quick Start is one of the major economic development incentives for attracting new jobs to Georgia,” said TCSG Commissioner Gretchen Corbin in a press release. Prior to assuming the reins of the TCSG, Corbin had been deputy commissioner of the Georgia Department of Economic Development. “In Georgia a huge percentage of the companies the State of Georgia is working with to grow, or locate, receive Quick Start

Assistance.”

“It is a very important incentive, an important tool in the kit for us to market,” said Rome Floyd Chamber President Al Hodge. “It relates to the priority that companies are placing on education and the workforce. That’s so important to employers and site selection consultants and the rest of the network.”

“I’ll call it a secret weapon but it’s really not a secret, they keep getting all these wonderful accolades,” said Melinda Lemmon, director of the office of economic development for Cartersville and Bartow County. “Other states try to emulate what they do, but not nearly with the same success of the Georgia Quick Start program.”

Lemmon said the program is incredibly valuable not only for industrial recruitment but for retention and expansion of existing industries.

Quick Start is more than what the traditional Technical College System of Georgia would offer, such as forklift training or management programs where the curriculum is already designed. “This is customized,” Lemmon said. “The services are available at no cost to companies who are expanding or adding new jobs in Georgia.”

The September 2017 issue of the magazine reports Quick Start has handled more than 6,500 projects, training more than 1 million employees, and has been the “deciding factor” for many companies choosing Georgia.

“Our team works diligently to stay current with all the latest advanced manufacturing techniques, and approaches every project, large or small, with the same level of professionalism and quality,” said Jackie Rohosky, assistant commissioner for Economic Development Programs at TCSG and head of Quick Start in a press release. “And, it’s rewarding to see our efforts recognized.”

Commissioner Corbin said in the event a new company brings proprietary technology to the market, if the Quick Start program doesn’t have in-house expertise, they will contract with a company that can provide that expertise on the equipment, such as a specific manufacturer.

Georgia Northwestern Technical College President Pete McDonald said the re-training aspect of the program for existing industries’ expansion is a particularly critical component of the program. F&P Georgia has had four or five expansions since their start-up in 2002, and each of those times they have taken advantage of Quick Start, McDonald said.

“They may have brought in a different kind of technology and some of the existing employees had to be retrained to adapt to the new processes they are using.”

“We have an excellent track record with the customized employment through Quick Start and the technical college system,” Hodge said.

“Quick Start is what sealed the deal,” said Jim Hawk, president of Toyo Tire North America in White.

Asked if Quick Start had not been available would Rome and Floyd County have missed out on any prospects, Hodge said, “Perhaps. I do know that it certainly has been an important part of the package that is offered to companies.”

Corbin’s office in Atlanta provided data indicating that at least 18 companies in Floyd County have taken advantage of the Quick Start training program. F&P Georgia, Pirelli, Suzuki, Neaton and Kellogg’s have all used Quick Start training on more than one occasion.

In Bartow County, 32 companies have taken advantage of the program. Gerdau Ameristeel and Toyo Tire have

used it on multiple occasions.

No one in the immediate mid-Coosa Valley area surrounding Rome has used the program more often than HON Industries in Cedartown. HON has taken advantage of Quick Start training 11 times.

Beyond the assistance in recruiting new companies, or facilitating the expansion of existing companies, Commissioner Corbin said when she talks with managers who used Quick Start, “They tell us they knew Quick Start was going to be important, but that they never could have guessed how important it was going to be. Most importantly, all of their employees were ready for the job beginning day one.”

In the same survey, Georgia was recognized by professional site locators as the best state in the country for doing business. It marks the fourth time Georgia has netted the ranking. The state was praised for having the most cooperative and responsive government, speed of permitting and the most professional statewide economic development organization.

#### **Study-abroad programs ready technical college students to work at foreign-owned companies in Georgia**

**By Janet Jones Kendall**

**Sunday, October 15**

Six years ago, the Technical College System of Georgia set out to make study abroad opportunities as familiar to its students as they are to those at four-year institutions.

“The Technical College System of Georgia recognizes that adding an international dimension to the faculty and student experience in strategic industry sectors, identified by the Governor’s High Demand Career Initiative as critical to the state’s economic growth, greatly enhances the global skills of Georgia workers,” said Gretchen Corbin, technical college system commissioner.

Now, two-thirds of the system’s colleges are collaborating globally to increase workforce support for companies from the state’s top investing countries.

The Technical College System of Georgia (TCSG) is the winner of the 2017 Georgia International Award for International Education Program. The Georgia International Awards are presented by Atlanta Business Chronicle in partnership with the Georgia Department of Economic Development and the World Trade Center — Atlanta.

“The greatest strength the Technical College System of Georgia holds for international business is the workforce we train,” said Ian Bond, the executive director of the International Center at TCSG, who Corbin credits with spearheading the effort. “Whether it’s companies operating in Georgia, expanding here or locating here, we have the ability to connect them with the workers they need. Our international program is focused on anticipating their needs.”

This year, 80 students and 15 faculty members have participated in learning abroad programs, which is more than double the 30 students and five instructors who did so in 2016.

Bond cites TCSG’s partnership with Kia Motors Manufacturing Georgia Inc. as one big success story.

“The Kia Georgia Training Center, built and operated by our Quick Start economic development arm, and the company’s continued partnership with West Georgia Technical College, preceded much of what we do today and taught us a lot about what international companies need in terms of workforce,” Bond said.

There are other examples, including North Georgia Tech and Chattahoochee Tech participating this year in a student exchange with Ireland's Waterford Institute of Technology, which is known for its engineering and precision manufacturing school. Lanier Tech undertook a Customized Educational Programs Abroad-Europe study tour focusing on German manufacturing and automotive industries.

Central Georgia Tech, Southeastern Tech and Georgia Northwestern Tech students studied international business and humanities and computer and information systems at Robert Gordon University in Scotland.

To support the energy industry, students at Augusta Tech have partnered with the U.K. National College for Nuclear at Lakes College, West Cumbria, United Kingdom, through online collaborations.

"All of our colleges are involved in training for international companies, and we will continue to grow and expand that ability to support the governor, the Georgia Department of Economic Development and the Georgia communities who recruit companies to the state," Bond said.

Alvetta Peterman Thomas, president of Southern Crescent Technical College in Griffin, credited Bond with the technical college system's rapid growth in the area of international education in the last six years.

"His experience and ability to navigate the international landscape have created enormous opportunities and partnerships for all involved," Thomas said.

#### **4. Atlanta Business Chronicle**

##### **Focused recruitment led to global manufacturing cluster in Cartersville-Bartow**

**By Janet Jones Kendall**

**Sunday, October 15**

Toyo Tire. Beauflor. voestalpine. And, as of 2008, Anheuser-Busch/InBev.

These companies are just a few from the roster of 35 manufacturers from 18 different countries that call Cartersville and Bartow County home today.

International business was one of the keys to the area's recovery from the economic downturn. For example, Anheuser-Busch, which has operated a plant in the community since 1993 and is one of the largest employers in the state, became an international business in 2008 when it was purchased by Belgian and Brazilian brewing giant InBev. It continues to be a driver of the local economy in direct and indirect ways.

Knowing good international relations could produce major economic results, leaders at the Cartersville-Bartow Department of Economic Development worked to grow their global manufacturing sector. That led to the opening of voestalpine Automotive Components Cartersville Inc., a subsidiary of Austrian manufacturing giant voestalpine AG. The \$70 million facility will employ 220 people by next year.

This is partly why Cartersville-Bartow County's economic development team won the 2017 Georgia International Award for International Community. The Georgia International Awards are presented by Atlanta Business Chronicle in partnership with the Georgia Department of Economic Development and the World Trade Center — Atlanta.

"Cartersville and Bartow (County) have been effective in attracting international business for many reasons," Cartersville Mayor Matt Santini said. "The (Bartow-Cartersville Joint Development Authority, which oversees the economic development department) staff has worked closely with the state in identifying industries and

companies that would be a good fit for our workforce. Our community has invested time and money in developing Highland 75 Industrial Park. Most importantly, I believe that current and previous leadership in Cartersville and Bartow County have created and maintained an atmosphere that is conducive to success.”

The proof? Cartersville-Bartow is home to 35 international manufacturers from 18 different countries.

“International aspects of our organization are important because we value diversity for the strength it brings to our community,” said Melinda Lemmon, executive director of the Cartersville-Bartow County Department of Economic Development.

County Commissioner Steve Taylor credited Lemmon and her staff for much of the area’s growth.

“Their willingness to travel to a company’s facilities allows them to more clearly understand that company’s needs so they are able to fit them to the perfect location,” Taylor said. “They’re not only committed to capturing new businesses and industry, but they’re also committed to our existing companies, those that have been with us for many years, like Shaw Industries, Toyo Tire and Anheuser-Busch.”

Cartersville-Bartow purchased and developed more than 700 acres in the county to create the Highland 75 Industrial Park. The area is easily accessible from Atlanta and Chattanooga, Tenn., via Interstate 75, and also offers 12,000-acre Lake Allatoona.

The international businesses in Cartersville-Bartow also help each other. Anheuser-Busch InBev has opened up close to 1,000 acres the company owns between the existing plant and Cassville-White Road for potential use as a mega-industrial park. It sold more than 150 acres to the JDA to be used to recruit Beauflor, an international manufacturer of vinyl flooring.

Hard work goes into the achievements, Santini said.

“We have had legal counsel working on memos of understanding while on vacation abroad,” he said. “We have left conferences early to meet with potential clients. The JDA works closely with local leadership to make sure we are keeping the process moving as quickly as our clients need. This didn’t happen overnight. ”

## **5. Saporta Report**

### **Metro traffic congestion to be eased as seaport cargo shifts from truck to rail**

**By David Pendered**

**Friday, October 13**

Metro Atlanta commuters can find solace in a factoid nestled in a report released Thursday by the Georgia Ports Authority. Some 50,000 trucks a year are to be removed from the region’s highways once an inland port served by rail opens next year in Chatsworth, officials say.

The number of truck trips that are eliminated is likely to rise in the future.

The inland cargo transfer yard that’s to open in 2018 is poised to help handle increasing amounts of cargo that’s to be diverted from highways to the CSX railroad. This will become more significant as the amount of cargo increases as Savannah handles the huge container ships built to use the expanded Panama Canal.

Savannah’s reach as a seaport could extend into the Mississippi Valley, according to some forecasts. Such a service district likely would spur big increases in the number of imported containers and those headed for export.

This increased reliance on rail addresses concerns raised in the past by board members of GRTA. GRTA is the state agency that advises on mobility and air quality in metro Atlanta. GRTA also advises on the Xpress commuter buses that serve 12 metro counties.

In particular, GRTA board member J.T. Williams has raised the issue that highways in metro Atlanta likely are to become more burdened as the port spurs an uptick in truck movements. The additional vehicles could worsen mobility and air quality.

If the inland port takes just 50,000 trucks a year off the roads, an average of 137 trucks a day that won't be passing through metro Atlanta on I-285 and the I-75 corridor, according to a quick calculation of the port's figures. The number presumes trucks travel each day of the year.

The actual number of trucks that are diverted could be significantly higher.

That's because shippers sometimes have to send a truck into metro Atlanta to retrieve a container to carry the cargo. Sometimes shippers have to send a truck all the way to the Savannah port to retrieve a container.

In each situation, a truck passes through the region to pick up a container; the truck passes through the region to deliver the container; the truck passes through a third time en route to the seaport.

The Georgia Ports Authority broke ground this year on the Appalachian Regional Port, in Chatsworth. Chatsworth is in Murray County, about 15 miles east of Dalton.

Here are highlights of the Georgia Ports Authority forecast about the Dalton cargo handling facility. The facility:

- "Expands GPA's reach into Tennessee, Northeast Alabama and parts of Kentucky.
- "Will cut Atlanta truck traffic by 50,000 trips per year;
- "Each container moved by the Appalachian Regional Port will offset 355 truck miles, reducing 8 million miles in the first year;
- "Trucks will travel shorter distances and make less frequent trips, while still providing a vital gateway for U.S. manufacturers in global markets."

A sister facility in Cordele is providing similar relief for roadways in South Georgia. Port officials on Friday released a report that shows shippers are using it to reach markets from South Georgia to the Florida Panhandle, Alabama and Mississippi.

The Cordele facility is served by two short lines that travel to and from the port in Savannah, Heart of Georgia and Georgia Central. The facility is owned by the Crisp County Development Authority.

The facility handled a total of nearly 30,000 containers in the fiscal year that ended June 30, according to the report. The cargo includes 10,000 containers headed to Savannah for export, and 8,300 containers that were imported via the port.

## **6. Athens Banner-Herald**

### **Construction begins on new distribution facility for ALDI in Jackson County**

**Saturday, October 14**

A M King, a design and construction firm, has announced its third project for discount grocer ALDI at the distribution site near Jefferson.

The new cold storage distribution center will boost the company's existing perishables space, providing the ability to offer a larger selection of products and is expected to spur overall company growth, according to a news release from A M King.

Construction is scheduled to conclude by May 2018.

A M King will build the 55,000-square feet of perishable expansion and renovate 100,000-square-feet of existing perishable areas.

The project will also include renovation of the employee welfare areas and adding docks on the backside of the Dry Warehouse for special buy items.

*"The owner has requested that we fast track this project to meet required product release dates," said Carl Morse, A M King senior project manager. "We are also focusing on a major interior renovation, specifically in the perishable area, that will house ALDI's expanding line of products."*

### **IRS suspends Equifax contract, cites 'new information'**

**By Michael E. Kanell**

**Friday, October 13**

The Internal Revenue Service has suspended its \$7.25 million contract with Atlanta-based Equifax, the agency announced Friday.

The decision came a day after the company was forced to shut down one of its customer service web sites, a page that had been manipulated by hackers who had apparently placed malicious software on the site.

That hijacking was acknowledged by Equifax after the misuse of the site was reported by tech magazine Ars Technica.

The IRS, no-bid contract was granted to Equifax, "to provide fraud prevention and taxpayer identification services." The deal was roundly criticized, since it came in the wake of disclosure of the breach in which hackers gained access to information about 145 million people.

According to a statement issued by Equifax Friday afternoon the IRS had notified the company of the suspension.

"We remain confident that we are the best party to perform the services required in this contract," the statement said. "We are engaging IRS officials to review the facts and clarify available options."

The IRS had awarded the contract to Equifax in late September, the same week that the company's former chief executive was testifying before Congress about the massive data breach suffered by the company.

That decision had been harshly criticized in Congress. IRS officials faced tough questions about the deal in early October during hearings before a U.S. House Ways and Means subcommittee.

For example, Rep. Jackie Walorski (R-Indiana) called the contract award "an abject failure."

Sen. Jeff Merkley (D-Oregon) tweeted: “Have the people who awarded this contract been living under a rock for the last month??”

On Friday, the IRS described the suspension as temporary and said the action was taken “following new information available today.”

“During this suspension, the IRS will continue its review of Equifax systems and security,” the IRS said.

The agency said it does not believe that any data shared by the IRS with Equifax had been compromised. The suspension was taken as “a precautionary step as the IRS continues its review,” the agency said.

Losing the contract does only modest financial damage to the \$3.14 billion-a-year company, but it adds to the public relations beating that the company has been taking — just this week.

On Tuesday, the Wall Street Journal reported that data for 10.9 million driver’s licenses was including in the huge breach the company announced last month. Then came the tampering with the firm’s customer service web site.

The company said Thursday that the problems with that site had involved a “third party” and did not give hackers any information held by Equifax. However, the danger, experts said, was that the software tricked visitors into providing data thinking they were giving it to Equifax.

With the contract’s suspension, taxpayers cannot open new “Secure Access” accounts at the IRS, accounts that offer a variety of online tools to help a taxpayer prepare for filing taxes. However, existing accounts are apparently not affected.

## **8. Atlanta Business Chronicle**

### **US banks to introduce new anti-fraud measures after Equifax hack**

**By Alistair Gray**

**Monday, October 16**

US banks are stepping up anti-fraud controls after the data breach at credit checking group Equifax put about half the country’s population at risk of identity theft.

Executives at banks including Citigroup and Wells Fargo said customers would face new checks because of the increased risk of identity fraud, a problem that already costs an estimated \$16bn a year in the US.

While many companies from Yahoo to Deloitte have been targeted in cyber raids, the attack on Equifax earlier this year is particularly worrying for banks both because of its scale and the type of information that was compromised.

Hackers stole records on as many as 146m Americans, including personal details such as social security numbers that consumer finance companies typically use to verify customers.

"You've got to put on some additional screening to make sure that you really are dealing with the person who they purport to be," said John Gerspach, chief financial officer at Citigroup.

"We've got other techniques, and other questions we can ask that are not part of the database that's been breached."

Companies that provide alternative authentication technology said banks were taking more interest as a direct result of the Equifax breach.

"A lot the banks are saying it's a lightbulb moment for them," said Vijay Balasubramanian, co-founder of Pindrop, which analyses voices to prevent phone fraud. "If you look at the information that got out, it's everything banks use to identify you."

John Shrewsberry, chief financial officer at Wells Fargo, said "there will have to be incremental precautions" following the Equifax data loss. He added that the additional steps could "mean a little bit more inconvenience" for legitimate consumers.

Financial security professionals said it was particularly tricky for banks to confirm the identities of prospective customers applying for new accounts. Techniques to verify existing ones, such as "two-step authentication", were also vulnerable in part because fraudsters can claim to have forgotten the passwords or lost the devices.

"That can all be bypassed by providing information such as birthday and social security number," said Alex Heid, chief research officer at SecurityScorecard. "That's where the core of the problem is."

Banks are starting to gather more sophisticated data on how consumers interact with their devices - typing speed, force or accuracy, for example - to learn user behaviour and spot fraudsters.

Analysts have been quizzing banks about the impact of the Equifax hack on banks' bottom lines as more consumers order credit freezes on their accounts, preventing companies checking financial histories.

However, executives said not enough individuals had put the restrictions in place to have much of an impact.

"While the number of locks and freezes has grown a lot [after the Equifax hack], it is still a relatively small percentage of the overall credit population," said Citigroup's Mr Gerspach. "So it really hasn't had a significant impact as yet on our ability to acquire customers."

Identity fraudsters stole \$16bn from 15.4m victims in the US last year, \$2m more than 2015, according to a study by Javelin Strategy & Research.

### **1. Georgia Health News**

**Trump's latest move shakes ACA, but effect was foreseen in Georgia**

**By Andy Miller**

**Friday, October 13**

On one level, the White House's pledge late Thursday to stop cost-sharing payments to health insurers under the Affordable Care Act won't make a major difference in Georgia.

That's because three of the four health insurers offering coverage on the state exchange have already factored in the likely elimination of the payments in their huge 2018 premium increases.

The ACA created the exchanges to help people without job-based or government insurance to buy affordable coverage. The cost-sharing subsidies that will be eliminated have been going to insurers, which use them to lower the out-of-pocket costs, such as deductibles and copays, for lower-income exchange customers.

The three insurers already had raised exchange premiums in Georgia by more than 50 percent — above their initial rate requests — due to an assumption that the federal payments would stop coming in.

Media reports say Georgia's premium hikes in the exchange are the largest in the country.

The fourth exchange insurer, Kaiser Permanente, told GHN on Friday that it was evaluating the situation in the wake of the administration's decision.

But on the heels of his executive order to ease rules on association health plans and short-term policies, Trump has shown that he's willing to make a variety of moves to unravel the ACA as much as he can, after Republicans in Congress failed to repeal it, as they had long pledged.

Trump went on Twitter to urge Democrats to make a deal: "The Democrats ObamaCare is imploding," he wrote. "Massive subsidy payments to their pet insurance companies has stopped. Dems should call me to fix!"

Some Democrats have expressed a willingness to make changes to the ACA, often called Obamacare, but they have balked at broad revisions backed by Republicans, or anything equivalent to repeal.

### **Rough times on the exchanges**

Across Georgia and the nation, individuals and families needing exchange coverage were already lined up for spikes in their premiums.

Experts pointed out, though, that as premiums soar in the exchanges, 85 percent of Georgians getting that coverage will also see their subsidies rise to cushion that blow.

"The net premium stays the same" for those getting subsidies (with incomes from 100 percent to 400 percent of the federal poverty level), said Russ Childers, a health insurance agent based in Americus.

But Childers said Friday that if the Trump administration had promised to pay the insurers the cost-sharing money, rather than forcing them to shoulder the cost of subsidies, consumers could have seen either lower premiums or possible rebates.

Childers said the individual insurance market was already broken before the ACA was passed in 2010. "In general, we just traded old problems for new problems," he said.

With the new decision on payments, the insurance companies may still be able to drop out of the exchange for 2018, Childers said.

"I think the message is, everybody is really frustrated with the way things are."

In a fundamental way, the government decision to end the cost-sharing reductions to insurers won't save money, experts said.

The higher premiums will replace the payments to insurers, noted Bill Custer, a health insurance expert with Georgia State University. Taxpayers will pay by funding higher individual subsidies that accompany the rate hikes, he said.

The other 15 percent on the exchanges, who do not get individual subsidies, are the ones facing real sticker shock on premiums. "They're going to buy less coverage," Custer said. "When the price goes up, people will buy less coverage."

Insurers still must keep the lower deductibles and copays for many of the exchange customers, as required by the ACA.

The annual cost to the government of the insurer payments is currently about \$7 billion.

With the administration moves, Custer said, the individual market will be less attractive to insurers.” The net effect in the long term will be less choice and less coverage, he added.

“The vision of the ACA is to make a competitive insurance market. The Trump administration has moved in the opposite direction.”

Kaiser was the only exchange insurer in Georgia to have a rate hike approved that was less than 50 percent. The nonprofit’s increase was set at 30 percent.

The state department of insurance said Kaiser would need to work with federal health officials to examine its options. “We have completed our review,” said Glenn Allen, a spokesman for the agency.

Open enrollment for the ACA begins Nov. 1. Almost 500,000 Georgians signed up for coverage for this year.

“Already this year, insurers in Georgia requested premium increases of over 50% based largely on the looming threat that the cost-sharing reduction payments would be terminated,” said Beth Stephens of Georgia Watch, an advocacy group. The ending of insurer payments, she said, “could result in an exodus of insurers from the market and jeopardize the availability of affordable health insurance for many Georgians.”

### **More changes ahead?**

Congress can appropriate the funds needed to keep the payments in place, Stephens said. “We will continue to urge bipartisan solutions that will stabilize the marketplaces.”

State Rep. Sharon Cooper (R-Marietta), chair of the House Health and Human Services Committee, told GHN at a conference Friday that “Obamacare is failing,” noting the high deductibles that many consumers have in exchange coverage.

Cooper said moving health care decision-making to the states may help improve the insurance situation. “I believe that states can come up with a solution that is tailored for their citizens,” she said.

Several states are in the process of requesting “waivers” from the federal government to alter the federal insurance requirements under the ACA.

“We are at a crisis situation,” said Kelly McCutchen of the Georgia Public Policy Foundation, a proponent of a waiver approach, at a conference his group sponsored Friday. As a state, he said, “we’ve got to do something.”

The president’s action is likely to trigger a lawsuit from state attorneys general, who contend the subsidies to insurers are fully authorized by federal law, and say the president’s position is reckless, the Associated Press reported.

“We are prepared to sue,” said California Attorney General Xavier Becerra. “We’ve taken the Trump administration to court before and won.”

Some leading GOP lawmakers have called for continuation of the payments to insurers, at least temporarily, so

constituents can maintain access to health insurance. Senate Health, Education, Labor and Pensions Committee Chairman Lamar Alexander (R-Tenn.) is working on such legislation with Democratic Sen. Patty Murray of Washington state, the AP noted.

The administration's moves came just hours after it ordered a loosening of the rules on association health plans and short-term health policies.

Trump said these would give consumers more insurance options.

Critics have warned, though, that such actions could attract the healthiest customers to the newly structured plans through lower premiums and stripped-down coverage, and thus destabilize the more regulated health plans.

These new health plans could avoid some currently enforced requirements of the ACA, critics say.

The Trump administration also has reduced support for the ACA in other ways, including by shortening the enrollment period for the exchanges, and by cutting funding for efforts to reach potential exchange customers and sign them up.

And the administration has hinted that it may stop enforcing the tax penalty for those who do not obtain health coverage. This could effectively nullify the insurance mandate that is a pillar of the entire health law.

### **Gerrymandering is unseemly, not illegal**

**By Kyle Wingfield**

**Friday, October 13**

Gerrymandering is ugly business; there's no getting around that. The question pending at the U.S. Supreme Court, and in two federal lawsuits filed in Georgia, is whether judges can impose a remedy that, to borrow from James Madison, is not worse than the disease.

As things stand, it doesn't appear so.

Let's start with the Georgia cases. Plaintiffs say the state House district map, which the GOP-controlled General Assembly redrew in 2015, violates the Voting Rights Act. While they claim racial discrimination, it's plain they are motivated by partisanship.

The 2015 bill altered 17 House districts, including a pair in Gwinnett and Henry counties where GOP incumbents narrowly won re-election in 2014. Bill sponsors say they were acting on requests from lawmakers in both parties. Plaintiffs say the bill weakened minority voting strength.

But their exact language, as reported in an AJC news article about the second suit, which was filed Oct. 3, drags partisanship into the mix. The bill, the plaintiffs say, "specifically targets districts where white Republicans have become increasingly vulnerable to challenge by African-American Democratic candidates, moving voters in and out of House districts based on their race so as to shore up the incumbent Republicans' prospects in future elections."

To the extent impure motives may have been at play, the operative words are not "white" and "African-American," but "Republicans" and "Democratic." It may be a shame "white" and "Republicans" are (in the aggregate) political synonyms in Georgia, as are "African-American" and "Democratic." But it doesn't violate

the Voting Rights Act.

That brings us to partisanship, and a case out of Wisconsin that coincidentally was argued Oct. 3 should be instructive about the Georgia map's fate.

An issue in the Wisconsin case is the idea gerrymandering is not only unseemly but quantifiable — and thus subject to the kind of legal test courts use to evaluate legislative behavior.

The Wisconsin plaintiffs claim gerrymandering can be measured by an “efficiency gap,” which purports to tell us if the number of seats a party wins is justified by the total votes cast for the party.

The gap is expressed as a percentage: e.g., a party might win 10 percent more seats than its vote count suggests was fair.

The problems with this approach are manifold. The standard the Wisconsin plaintiffs propose, barring maps with efficiency gaps of more than 7 percent, would implicate between one-third and one-half of all state legislative maps drawn in the past 45 years. Unelected judges would be embarking on a massive intervention into a legislative process.

As the defendants point out, even the state's map from the 2000s would have failed the 7 percent test in three straight elections — and it was drawn not by legislators, but by judges.

Which vote count should be used? Many state legislators go unchallenged, and not always because of gerrymandering; often, the other party knows it has no chance even in a fairly drawn district. Such races skew the vote totals. Should we use statewide results instead? Which ones? In Georgia last year, Republicans won 51 percent in the presidential election, 55 percent in a Senate race, and 67 percent in a Public Service Commission race. Which is their “real” level of support?

Ultimately, the most honest observation about gerrymandering echoes U.S. Supreme Court Justice Potter Stewart's famous remark about obscenity in the 1964 *Jacobellis v. Ohio* case: “I know it when I see it.” That didn't suffice as a legal standard for barring obscenity. It's no more workable for gerrymandering.

### **3. AJC**

#### **First test starts Monday for new paper-ballot machines in Georgia**

**By Kristina Torres**

**Sunday, October 15**

A crucial test for the future of Georgia elections begins Monday when early voting opens across the state ahead of the Nov. 7 local and special elections.

Voters in Conyers will begin casting paper ballots along with new voting and tabulating machines as they decide on a new mayor and two City Council seats.

The pilot program comes as advocates have sued to force the state to dump its aging all-electronic system amid fears of hacking and security breaches.

And it could pave the way for the first elections system reboot in Georgia since 2002.

“Everything is still on track and we are ready to go,” said Cynthia Welch, the elections supervisor for Rockdale County, which is running the Conyers election.

Welch and her team have spent the past several weeks demonstrating the system, including to other local elections officials as well as lawmakers.

That excitement, however, is tempered by the fact that the program for now is a one-off effort meant to demonstrate how Georgia could get past its current system, which was considered state-of-the-art when it was adopted 15 years ago but is now universally acknowledged by experts to be vulnerable to security risks and buggy software.

Experts also recommend some kind of paper trail as a way to ensure accuracy of the tally. In Georgia, meanwhile, there's currently no paper record for most ballots cast in elections.

Any decision would likely be a three- to four-year proposition for the state and, depending on the type of system officials pick, could cost more than \$100 million. Cheaper options are available, but the state's leaders all need to agree on what they want.

### **Early voting in Georgia**

Be sure to check with your local elections office to confirm where to go cast an early ballot, since early voting locations are not the same as regular neighborhood polling places.

The municipalities are only opening select sites during the early voting period, which for many may only be the main county elections office.

Any registered voter can vote early.

Use the Secretary of State Office's online "my voter page" website ([www.mvp.sos.ga.gov/MVP/mvp.do](http://www.mvp.sos.ga.gov/MVP/mvp.do)) to find a sample ballot or specific early voting location.

You can also call your local elections office to find early voting locations or look for the "advance voting info" link under the elections tab of the Secretary of State Office's website ([www.sos.ga.gov](http://www.sos.ga.gov)).

Don't forget to bring photo identification, which can include a Georgia driver's license, even if it's expired; a state-issued voter identification card; a valid U.S. passport; or a valid U.S. military photo ID.

No "ballot selfies" are allowed at the polls, so wait to snap a photo until you're outside. It is illegal in Georgia to take pictures of a ballot or voting equipment, but the Secretary of State Office has said it has seen voters in previous elections post "ballot selfies" on social media — something that could get you in trouble with the law.

Information about local elections and your "My Voter Page" can also be found on the free "GA SOS" app for your smartphone via iTunes or Google Play for Android.

### **Atlanta mayor race moves into final sprint**

**By Greg Bluestein and J. Scott Trubey**

**Sunday, October 15**

The race for Atlanta mayor enters an unpredictable new phase Monday with the start of early voting framing a make-or-break dash to November for the crowded field of contenders.

The airwaves will soon crackle with more ads. Mailboxes in Atlanta will get more stuffed with flyers, households with landlines more inundated with robocalls. And the candidates competing to succeed a term-limited Kasim Reed will be under more pressure to step up their games or pay the price.

“Now is the time they’ve got to make their moves,” said Mark Rountree, a pollster with Landmark Communications. “This is when they have to shake up the field.”

There are already signs that the Nov. 7 contest between a dozen candidates is starting to crystallize.

Councilwoman Mary Norwood has been atop the polls for months, seeming like a sure lock for a spot in a likely December runoff among the top two finishers. But sustained attacks from her rivals, including the Democratic Party of Georgia and Reed, could be taking a toll as she’s dropped from the high 20s to the low 20s since March.

At the same time, Councilwoman Keisha Lance Bottoms has emerged from the pack, pulling to within a few percentage points of Norwood last week in a Landmark poll commissioned by Channel 2 Action News. Bolstered by Reed’s endorsement, Bottoms is hoping to consolidate the splintered African-American vote over the next three weeks.

Also within striking distance is former Atlanta Chief Operating Officer Peter Aman, who is polling in the double-digits and aims to gain more ground by eating into Norwood’s base on Atlanta’s Northside.

Several other high-profile candidates are still in the chase, including ex-Fulton Commission Chairman John Eaves, former state Sen. Vincent Fort, City Councilman Kwanza Hall, City Council President Ceasar Mitchell and ex-Atlanta Council President Cathy Woolard.

In the final stretch, they’re quickly emptying campaign coffers stuffed with hundreds of thousands of dollars they raised for this very purpose. Many have telegraphed their final moves; at last week’s Atlanta Press Club debate, four contenders leveled bruising attacks at Bottoms. Meanwhile, Aman ripped into his favorite target, Norwood.

The trailing candidates are quick to offer a cautionary reminder that Atlanta mayoral contests can shift in a flash. After all, Reed was polling in the single-digits less than two months before the 2009 vote. He went on to win a runoff against Norwood by about 700 votes.

### **The real work**

Beyond the dizzying miasma of competing strategies — and each campaign is quick to tout its own tantalizing path to victory — the real work over the next weeks will play out in call centers and neighborhoods where candidates and their volunteers make personal contact with voters.

The door-to-door plodding and phone bank pizza parties are the backbones of painstaking efforts to target likely voters and then make sure they get to the polls. Woolard calls her field operation the “secret sauce” of her campaign, which she said has planned 200 house parties through Election Day — including some Sundays featuring three or four in one day.

“What we do, and what a lot of candidates don’t have the discipline to do, is focus on the ground game, knocking on doors, making phone calls,” she said.

It’s in this hunt where candidates with the most passionate supporters hope to flex their muscles. Fort’s populist

campaign hinges on volunteers inspired by his endorsement from Vermont U.S. Sen. Bernie Sanders and the dozens of unions who have pledged to mobilize new voters.

“We have at this point hundreds and hundreds of people who have pledged to volunteer, but we need more,” Fort told supporters at a recent campaign rally. “We need more people on the phones, we need more people knocking on doors and we need people to canvass. And we sure enough need money.”

As essential as it is, the field operations can also be highly embarrassing. Aman was forced to fire a paid canvasser who was caught on tape falsely telling a Woolard supporter she is preparing to support his campaign. Aman apologized to Woolard; her campaign posted a video of the incident on its website under the headline “Shameless.”

## **Long memories**

In Norwood’s camp, stinging memories of her narrow defeat to Reed eight years ago are used to galvanize her supporters in this contest.

“She lost by only 700 votes in 2009. We’re not going to let that happen again,” said Paul Gerdish, the president of the International Association of Fire Fighters Local 134. “We believe we can be a difference maker in this race.”

Anti-Norwood forces are mobilizing, too. The Democratic Party of Georgia launched a full-scale online attack against “Mary the Republican,” casting her as a far-right conservative. And Bottoms rolled out a 60-second campaign ad to magnify the Democratic assault on Norwood. In it, Reed warns of a “Republican takeover of City Hall” if Bottoms fails.

Norwood, a self-described independent, responded to the attacks by publishing on her website a list of prominent Democratic supporters.

Even as Bottoms ratchets up the rhetoric, she’s facing more attacks from rivals gunning for the No. 2 spot. At last week’s debate, she was targeted with questions about her water bills, campaign donations she returned from a contractor whose office was raided by the FBI and her job on the Atlanta-Fulton County Recreation Authority.

“Strategically, you now have two front-runners. And if you’re not one of those two, you have to knock them off that perch,” said Rountree, the pollster.

“They’ve been in the marathon stage,” he added. “Now they’re about to move to the sprint stage.”

## **5. AJC**

**Feds: Ga. foreclosure program soaked up admin fees and failed needy**

**By Willoughby Mariano**

**Friday, October 13**

A state-run program to save struggling homeowners from foreclosure was so mismanaged that it has awarded only a portion of the \$370 million that it was supposed to give to Georgia residents, according to an audit released Friday by a federal watchdog agency.

The Department of Community Affairs (DCA) was warned by federal watchdogs 25 times in five years that its HomeSafe Georgia program failed to help residents quickly enough. Even so, the department “slow walked” the aid, paying itself \$32 million in administrative fees as it turned down worthy applicants, the report by the Office

of the Inspector General for the Troubled Asset Relief Program states.

This inaction helped slow the state's housing market recovery after the Great Recession, it said.

Other states have already spent all of their assistance funds. The report singled out problems in the Atlanta area, where DCA turned down 6,200 Clayton, DeKalb and Fulton county applicants.

U.S. Rep. John Lewis, who requested the audit, called the results "a shame and a disgrace."

"We have all of these dollars that have not been spent in metro Atlanta, in DeKalb and Clayton and Fulton counties," Lewis said. "We can do better."

Department of Community Affairs spokeswoman MaryBrown Sandys defended HomeSafe, saying it spent taxpayer funds responsibly and improved its services over time. Clayton, DeKalb and Fulton counties comprised nearly 39 percent of the funds even though they comprise only 20 percent of the state's population, she said.

"At the end of the day, we have met the program's goal of preserving home ownership while also being responsible stewards of taxpayer dollars," Sandys said.

The audit states that the program has spent less than half of its funds. Figures provided by DCA show the program has spent or committed three fourths of its funding as of Thursday.

Hank Johnson, D-Lithonia, also requested the audit. Overall, HomeSafe turned away two thirds of its applicants, one of the highest rejection rates among state programs nationwide, the audit said.

### **Georgians fell through the cracks**

The U.S. Department of the Treasury's Hardest Hit Fund, which funds the HomeSafe program, was created in 2010 to help homeowners during the deep real estate downturn of the Great Recession.

Metro Atlanta experienced some of the worst of the nationwide mortgage meltdown. Some 30 percent of the mortgages in Clayton County remain underwater, eight years after the recession officially ended, according to a July report by online real estate data firm Zillow.

The state program in Georgia originally estimated it would assist more some 9,000 homeowners in its first year. Instead, it took six years for HomeSafe to reach that number, the report states.

At first, HomeSafe would only accept homeowners who were unemployed or underemployed and not more than six months behind on their payments, said Atlanta Legal Aid Society Senior Attorney Kristen Tullos. This let many Georgians fall through the cracks who would have been eligible for assistance had they lived in other states, the report said.

Elected officials and homeowner advocates have raised concerns for years. Lewis expressed concerns that the requirements were too restrictive in 2011, the report states. The Treasury Department asked DCA to revise its requirements in 2012, while Legal Aid and other groups wrote formal letters suggesting improvements.

The program required applicants to obtain special documentation from the U.S. Internal Revenue Service and their mortgage companies within 30 days, which was too little time for those bureaucracies to respond, the report said. It also gave homeowners little guidance on how to complete its confusing application process.

“The alarm was sounded, analyses were done,” said former State Sen. Vincent Fort, who pushed for program reforms. “There are so many Georgians out here who needed help, and for them to be put in this position is just an outrage.”

### **Problems persist**

The Department has since extended the six-month limit to twelve months and broadened other eligibility requirements, Tullos said, but serious problems continue.

The website contained inaccurate information that could lead an eligible applicant to believe they’d be rejected, Tullos said, and Special Inspector General Christy Goldsmith Romero said she recently had trouble getting it to work.

The HomeSafe’s customer service line sometimes hangs up on callers, Tullos said.

“The improvements fall under the category of ‘too little, too late’,” Tullos said.

Goldsmith Romero said there’s still time for DCA officials to improve the program and help thousands of Georgians. Some \$164 million in funds have yet to be distributed by the 2021 deadline, the report states.

“I would hope they would not look at it defensively, but instead say, ‘Now’s the time, things have to change’,” Goldsmith Romero said. The report singled out problems in the Atlanta area, where DCA turned down 6,200 Clayton, DeKalb and Fulton county applicants, the report states.

## **6. WABE**

### **Georgia’s Blueberry Farmers Seek Better NAFTA Deal**

**By Tasnim Shamma**

**Friday, October 13**

This week, leaders from the U.S., Mexico and Canada are meeting in Arlington, Va., to talk about reworking NAFTA.

It’s the fourth round of negotiations and was extended an additional two days through Tuesday, Oct. 17 to discuss more than two dozen negotiation topics, agriculture is expected to be among them.

### **NAFTA**

President Donald Trump has called NAFTA, the North American Free Trade Agreement, which was first enforced in 1994, “the worst trade deal ever made.” By 2008, tariffs, duties and quantitative restrictions, except for a few agricultural products traded with Canada, were eliminated.

Charles Shapiro is president of the World Affairs Council of Atlanta, a retired State department official and former U.S. ambassador to Venezuela. He’s also a non-tenured faculty member at Georgia State University. Shapiro calls himself a “free trader.”

“[NAFTA] is out of date and it does need to be modernized, but it’s good for the United States, good for Mexico and good for Canada,” Shapiro said. “NAFTA’s a package deal. All three countries give a little bit, get a little bit. It’s a huge negotiation across the whole range of goods and services that each of the three countries exports and imports.”

## **Exports To Mexico**

Mexico was the United States' second largest export market for goods in 2016. Last year, the U.S. exported \$18 billion worth of agricultural products to Mexico.

Shapiro said abrogating the agricultural portion of NAFTA, would mean returning to cost-prohibitive tariffs on U.S. agricultural exports to Mexico.

## **Southern Blueberries**

NAFTA works well because countries have different climates and growing seasons so all countries involved can benefit with access to fruits and vegetables all year. But, the berry season in the South overlaps with Mexico's berry season.

This has led to stiff competition from Mexico, which has cheaper labor and production costs. Georgia's blueberry farmers said they're looking for a better NAFTA deal.

Renée Allen at the University of Georgia works with blueberry farmers statewide.

"Growers are being forced to take less and less money for their crop. And the farmers are having difficulty recouping their cost, much less making a profit for their livelihood for their families," Allen said. "I think the concern is that ultimately these types of imports during our market window, could potentially put the U.S. farmer out of business."

She said the farmers don't know what the solution is, but "some sort of volume control" could help the situation.

Brandon Wade is the plant manager for Alma Nursery and Berry Farms. The city of Alma in Bacon County is considered Georgia's blueberry capital, about four hours south of Atlanta.

"I don't think [potential tariffs on foreign berries] would be productive for the entire country necessarily," Wade said. "It might gain us a little bit in the blueberry industry, but end up losing actual dollars to our economy."

Wade is also president of the Georgia Blueberry Growers Association. He said the group does not yet have an official position on the NAFTA negotiations.

## **Negotiations**

Farmers don't agree on exactly whether to impose tariffs or enforce quotas to prevent what they consider "illegal dumping" from Mexico.

"The hardest stuff you always keep to the last round of negotiations," Shapiro said. "In each of these rounds, some stuff is resolved and the hardest stuff doesn't get resolved 'til the very end. So it's very difficult early on in negotiations."

He noted the Trans-Pacific Partnership (TPP) trade deal, which had its final negotiation meeting in Atlanta in October 2015, involved 15 meetings. The TPP involves 12 countries that border the Pacific Ocean. The United States withdrew from the TPP in January.

## **7. Atlanta Business Chronicle**

### **Atlanta Confederate monuments review committee named**

**Friday, October 13**

An 11-member advisory committee named Friday will review street names and public monuments in the city of Atlanta linked to the Confederacy and recommend whether they should be kept or removed.

Mayor Kasim Reed appointed six members of the committee, and the Atlanta City Council passed a resolution naming the other five.

Street names and monuments across the South honoring the Confederacy or Confederate political and military leaders have been under fire since August, when violence broke out in Charlottesville, Va., during a demonstration by white supremacists protesting the city's plan to remove a statue honoring Confederate Gen. Robert E. Lee. One person was killed and another injured when a man crashed his car into a crowd of counter-demonstrators.

"The tragic events in Charlottesville, Va., brought renewed attention to Confederate markers and street names around the country, with many elected officials, clergy and members of the public calling for their removal," Reed said. "To ensure that we approach this in a thoughtful manner, and that we include community input in the process, my administration and the Atlanta City Council worked to assemble a group of advisors to consider each marker."

The committee will hold its first meeting Oct. 18 at Atlanta City Hall.

#### **The members of the panel include:**

- Douglas Blackmon, senior fellow and director of public programs, University of Virginia's Miller Center
- Regina Brewer, preservation consultant
- Sonji Jacobs Dade, senior director of corporate affairs, Cox Enterprises
- Larry Gellerstedt, CEO, Cousins Properties
- Nina Gentry, owner, Gentry Planning Services
- Sheffield Hale, president and CEO, Atlanta History Center
- Martha Porter Hall, community advocate
- Derrick Kayongo, CEO, Center for Civil and Human Rights
- Dan Moore, founder, APEX Museum
- Brenda Muhammad, executive director, Atlanta Victim Assistance
- Shelley Rose, senior associate director, Southeast Region, Anti-Defamation League

## **8. Statesboro Herald**

### **Kemp advocates cap on state spending**

**By Al Hackle**

**Friday, October 13**

As a step toward cutting taxes, Georgia Secretary of State Brian Kemp proposes to put a cap on state spending, adjusted to population growth and inflation, if he is elected governor.

The spending cap and advocacy for high-speed internet in rural parts of the state were two relatively specific ideas Kemp shared in remarks to the Statesboro Board of Realtors earlier this week. He talked in more general terms about regulatory reform and support for small businesses. But the first element in Kemp's four-point campaign, he said, is making Georgia the leading state for small businesses.

Gov. Nathan Deal “has done a great job of getting us to the point of being the number-one state in the country in which to do business, but I feel like we need to build off of that foundation and really go down to helping the small-business people,” Kemp said.

In his second plank, which he described as “fundamentally reforming state government,” Kemp proposes two initiatives, which he said are based on things he accomplished in the Secretary of State’s Office.

“One is implementing a state spending cap where we tie our spending to population and inflation so we’re not overspending in our budgets, we continue to conserve,” Kemp told the local real estate professionals.

“Governor Deal has done a great job of getting us a really good rainy-day fund so we can protect our triple-A bond rating, but now that we have that, if we continue to budget conservatively, we can bank that money and then return it to you all, the taxpayers,” he said.

Exactly how the spending cap would work remains to be fleshed out, Kemp acknowledged in a follow-up interview.

“Well, we’re actually working on the details of that right now, but it will be a simple formula where it’s based on population and inflation, so you set a rate that you’re going to follow every year, so if the population goes up a certain amount, inflation goes up, then that will set your spending levels for that year,” he said.

The cap would include an override provision for responding to a crisis, but the override would require a vote by a substantial majority in the Legislature, he said.

Kemp proposes this flexible spending cap as the first step to a broad-based tax cut.

“The last several years everybody talks about taxes, there’s a lot of people talking about taxes in the governor’s race, and the only people that have gotten tax breaks are people that have a lobbyist or they’re a special interest group,” he said. “Well, to me you all are my special interest group. I want to help every taxpayer. That’s why I want to start with the spending cap.”

## **Regulatory reform**

The other tack in Kemp’s broader reform plank is a focus on simplifying regulations.

“And that’s really what we’ve done in the Secretary of State’s Office,” he said. “When the budget got tough, we reduced our budget by 25 percent. We had to use technology to make things more efficient where we could literally do more with less.”

Kemp has overseen technological improvements such as simplified online filing of corporate certification renewals. In another change, professional licenses, previously all laminated and mailed, are now in a digital format. Licensees can print these out for themselves or order a formal mailed copy for a higher fee. His agency set up a “Cut red tape” website for suggestions.

The 25 percent spending reduction came during state austerity measures earlier in his tenure. Some of the funding has been restored, but the agency’s spending remains well below where it started, he said.

Kemp is in the third year of his second four-year elected term as secretary of state, after being appointed in early 2010 to complete a term.

As governor, his approach to regulatory reform would be to have “a good group of business people, not bureaucrats” study each agency, but also to get suggestions from the agencies themselves, Kemp said.

### **Rural internet**

He described his third campaign plank as “moving our state forward and really focusing on strengthening rural Georgia.”

Expansion of high-speed internet in rural areas “can help with innovation on the family farm or agribusiness ..., with rural health care when you think about telemedicine and other ways that we can be more efficient and cut costs, and certainly with education,” Kemp said.

He described his fourth plank as “fighting for working Georgians” instead of “the special interests, the politically correct, those that are here illegally.”

“And that’s nothing against any of those people. It’s just, I’m going to be for you,” Kemp said.

His campaign website associates this “Put Georgia First” element with defunding “sanctuary cities and campuses” and stopping “taxpayer funded subsidies for illegal immigrants.” He wasn’t interviewed about this aspect, but Georgia already has laws, passed in 2009 and 2016, prohibiting cities from serving as sanctuaries for undocumented immigrants, and a 2017 law attempts to bar colleges from becoming sanctuary campuses.

In the interview Kemp also answered questions about changes in Georgia’s handling of elections, under his purview as secretary of state, and the possibility of replacing voting equipment statewide.

Kemp, 53, describes himself as a lifelong small business owner. He previously owned a real estate investment company in Athens and still owns rental properties and other businesses. He served in the state Senate for four years before becoming secretary of state.

He is one of at least five announced candidates for the Republican nomination for governor heading toward the May 22 party primaries. Others are Lt. Gov. Casey Cagle, former state Sen. Hunter Hill, businessman and former Navy SEAL Clay Tippins and state Sen. Michael Williams.

**Subject:** Re: Election night results

It's state law — O.C.G.A. 21-2-386 — that they have to wait until Election Day.

State Election Board rules specify how the cards must be transported and uploaded. It is referenced in rule 183-1-12-.02.

Subject: Election night results

Mark,

Excuse any formatting issues with this email. I'm typing it out on my work phone, and it can get weird.

Counties can begin tabulating mail ballots at 7 AM on Election Day in a quarantined and sequestered area so long as notice is given to the state. Some counties take advantage of this capability; others use their resources to get the polls up and running and start mail ballot tabulation later in the day.

Counties can phone in election results to election offices now. However, this process is not a mechanism to upload the results to Georgia's Election Night Reporting (ENR) system visible to

the public. It must be done electronically from a central location in each of the counties.

Security of election results remains our top priority. Each card from each voting machine must be transported and uploaded individually each election night. As many of the larger counties provide many polling places, this physical transporting of the memory cards is sometimes a long process. We are always willing to consult with counties to improve the efficiency of this process, which may be done through training and practice, but the essential mechanics will not change while we use our current voting system.

We are constantly working to see what technology is available with our partners in the counties and the General Assembly to see if any statutory changes could be made to improve the process. In the Secretary of State's office, our goal will always be secure, accessible, and fair elections.

Shortly, I'll be sending over final upload times from the metro counties to our election night reporting website from the past year or so. The bottom line is that we can only publish results to our website when we get them from the counties.

Let me know if you have any questions.

Candice

Chris,

Would you mind instructing Dekalb to go ahead and travel to Fannin and pick up the transferring units? We can then travel to Dekalb and test the units in the Dekalb warehouse. I suspect we won't try to test these units until I get setup in our new operation after the first of the year.

Thanks,  
Michael

Hi Rachel,

Attached is the first digital proof for the SEB rulebook. After reviewing the supplied file, it appears the content changes were already done.

I did swap out the seal on the cover with a higher resolution image seal and I think there might be a typo in the table of contents. If you look above the page number listings, it says "Pate" instead of Page. I have not yet corrected as I wanted to make sure it was an error before proceeding with the correction.

Let us know if additional corrections are needed or if the order is approved for production. We will await your feedback and place the order on hold in the meantime.

Many thanks,

**Pre-Press Department**

**Subject:** RE: SEB rulebook

Hi Charity-

We would like to go ahead with the order. I do have some changes that someone has submitted. We plan to proof the book before the final printing of it.

Thanks for your help.

Typo in header of pdf page 38/book page 23. Currently says "NOMINATGION OF CANDIDATES"

183-1-11-.01 The authority has a typo. It is missing the closed quotation mark that is in yellow below:

Authority O.C.G.A. Secs. 21-2-218, 21-2-31. History. Original Rule entitled "Ballot Secrecy" adopted. F. Nov. 14, 1986; eff. Dec. 4, 1986.

183-1-11-.02 They didn't replace the old rule with the newly adopted rule...

Typo: Comma after History should be a period. off. should be eff.

183-1-13-.02 Repealed.

Authority 1064 Ga. Election Code, as amended. History, Original Rule entitled "Ballots, Paper, Validity of Marketing" adopted. F. July 24, 1968; eff. Aug. 12, 1968. Repealed: F. Oct. 20, 1975; off. Nov. 9, 1975.

For 183-1-14-.12, Remove the word Rule. Improve formatting, put a new line after bold title and the first sentence. Put a new line after 2nd sentence and the set apart "1.". Put a new line after the set apart "1." and the set apart "2." Remove the language "Cite as Ga. Comp. R. & Regs. R. 183-1-14-.12" have the authority and history section the same font and style as other rules.

Rule 183-1-14-.12. Eligibility of Application for Absentee Ballot

The application for an absentee ballot shall be in writing and shall contain sufficient information for proper identification of the elector. To be deemed sufficient, an application for an absentee ballot must contain the signature of the applicant.

1. In the case of the elector making such application for an absentee ballot, the application shall contain the signature of such elector.
2. In the case of a relative making an application on behalf of an elector pursuant to O.C.G.A. § 21-2-381(a)(1)(B), the application shall contain the signature of the elector's relative as well as the relationship of the relative to the elector.  
Cite as Ga. Comp. R. & Regs. R. 183-1-14-.12  
Authority: O.C.G.A. §§ 21-2-31, 21-2-381.  
History: Original Rule entitled "Eligibility of Application for Absentee Ballot" adopted. F. Dec. 28, 2015; eff. Jan. 17, 2016.

**Subject:** RE: SEB rulebook

Good Morning Rachell –

All the specs such as:

Are we scanning the hardcopy or do you have electronic files?- I only have the pdf. I can send you the actual book if that would help.

What is the final size of the book?

What is cover stock run on?

What is text stock run on?- regular copy paper

Bound – as in perfect bound like paperback book that you would buy at a book store?-like a paperback

Does it run black ink only or color ink?- black ink

How many pages are there (not sheets, impressions)?

Does it print double sided or single sided?-double sided

What quantity would you like printed?-1500

Do you need to see a hardcopy proof or is a pdf proof acceptable?-hard copy

Is this delivering back to you or is there another delivery location, if so, what is the address?- we have a warehouse in Hapeville or we can pick up

Is this something we can do in standard turn time or is there certain date we have to hit? (this one may be depending on the quantity and complexity of the job if we can meet the deadline)- Mid January if possible, if not February would be fine.

I hope that helps!

-Charity

## ADMINISTRATIVE HISTORY

The **Administrative History** following each Rule gives the date on which the Rule was originally filed and its effective date, as well as the date on which any amendment or repeal was filed and its effective date. Principal abbreviations used in the Administrative History are as follows:

- f. — filed
- eff. — effective
- R. — Rule (Abbreviated only at the beginning of the control number)
- Ch. — Chapter (Abbreviated only at the beginning of the control number)
- ER. — Emergency Rule
- Rev. — Revised

**Note: Emergency Rules** are listed in each Rule's Administrative History by Emergency Rule number, date filed and effective date. The Emergency Rule will be in effect for 120 days or until the effective date of a permanent Ride covering the same subject matter superseding this Emergency Rule is adopted, as specified by the Agency.

Chapters 183-6 entitled "Registration of Electors", 183-7 entitled "Election Districts and Polling Places", 183-12-1 entitled "Voting Machines", 183-12-2 entitled "Vote Recorders", 183-13 entitled "Preparation for and Conduct of Primaries and Elections", and 183-14 entitled "Absentee Voting" have been adopted. The following Chapters are reserved: 183-1 to 183-5, 183-8 to 183-11, 183-15 to 183-36. Filed July 24, 1968; effective August 12, 1968.

Rules 183-6-.01, .02, 183-12-2-.04 and .05 have been amended. Rules 183-6-.03 and 183-13-.01 have been repealed. Filed August 5, 1969; effective August 24, 1969.

Rules 183-12-2-.04, .08 and 183-14-.02 have been repealed and new Rules adopted. Rules 183-13-.03 to .05 have been adopted. Chapter 183-15 entitled "Returns of Primaries and Elections" has been adopted. Filed May 26, 1970; effective June 14, 1970.

Chapters 183-24 entitled "Poll Officers", 183-25 entitled "Registration of Electors", 183-26 entitled "Election Districts or Precincts and Polling Places", and 183-27 entitled "Dates of Primaries

and Elections", 183-31-1 entitled "Voting Machines", 183-31-2 entitled "Vote Recorders", 183-32 entitled "Preparation For and Conduct of Primaries and Elections", and 183-33 entitled "Absentee Voting" have been adopted. Filed August 30, 1973; effective September 19, 1973.

Rules 183-6-.01, 183-14-.01 and .02 have been repealed and new Rules adopted. Rules 183-7-.01 and 183-15-.01 have been amended. Chapter 183-8 entitled "Dates of Primaries and Elections" has been adopted. Filed June 24, 1974; effective July 14, 1974.

Rules 183-6-.01, 183-13-.02, and 183-33-.01 have been repealed. Rules 183-12-2-.06, .07, 183-14-.01, 183-15-.01, 183-33-.02 have been amended. Chapters 183-1 to 183-11, 183-12-1, 183-12-2, 183-13 to 183-20 have been renumbered to 183-1-1 to 183-1-20 by Certification. Chapters 183-21 to 183-31, 183-31-1, 183-31-2 and 183-32 to 183-36 have been renumbered to 183-2-1 to 183-2-16 by Certification. All Rules of said Chapters have been renumbered. Filed October 20, 1975; effective November 9, 1975.

Emergency Rules 183-1-6-0.1-.01 and 183-2-5-0.2-.02 adopted. Filed May 20, 1982; effective May 17, 1982, the date of adoption, to be in effect for 120 days or until the effective date of permanent Rules covering the same subject matter superseding these Emergency Rules are adopted, as specified by the Agency. These Emergency Rules were adopted to prevent voter irregularities in the upcoming elections. (These Emergency Rules will not be published; copies may be obtained from the Agency.)

Rules 183-1-6-.01 and 183-2-5-.02 have been adopted. Filed March 29, 1983; effective April 18, 1983.

Rule 183-1-6-.03 has been adopted. Filed January 22, 1985; effective February 11, 1985.

Rule 183-1-6-.04 has been adopted. Filed August 1, 1986; effective August 21, 1986.

Rule 183-1-6-.04 has been amended. Filed September 18, 1986; effective October 8, 1986.

Chapter 183-1-11 entitled "Ballots" has been adopted. Rule 183-1-12-.10 has been adopted. Filed November 14, 1986; effective December 4, 1986.

Rule 183-1-6-.01 has been repealed. Rules 183-1-6-.02, 183-1-12-.03, .05 to .09, 183-1-13-.03 to .05, 183-1-14-.01, 183-1-15-.01 have been amended. Rule 183-1-7-.01 has been repealed and a new Rule adopted. Filed March 6, 1987; effective March 26, 1987.

Rule 183-1-6-.03 has been amended. Filed January 21, 1988; effective February 10, 1988.

Rule 183-1-6-.03 has been amended. Filed April 10, 1989; effective April 30, 1989.

Rule 183-1-6-.05 has been adopted, Rules 183-1-13-.03, .05 and 183-1-14-.01 have been amended. Filed February 17, 1992; effective March 9, 1992.

Rules 183-1-12-.01 and .02 have been repealed and new Rules adopted. Filed August 30, 2002; effective September 19, 2002. Rule 183-1-12-.06 has been repealed and a new Rule adopted. Filed October 18, 2002; effective November 7, 2002.

Rules 183-1-12-.01, .02, and 183-1-14-.01 have been amended. Rule 183-1-12-.06 has been repealed and a new Rule adopted. Rules 183-1-14-.02, .03 and 183-1-15-.02 have been adopted. Filed October 24, 2003; effective November 13, 2003.

Rules 183-1-6-.02, 183-1-12-.05, .07 to .09, 183-1-15-.01, 183-2-4-.01, 183-2-5-.01, .02, 183-2-6-.01, 183-2-7-.01, 183-2-11-.02 to .09, 183-2-12-.02 to .05, and 183-2-13-.02 have been repealed. Rules 183-1-6-.03 to .05, 183-M2-.03, 183-1-13-.03 to .05 have been amended. Filed December 11, 2003; effective December 31, 2003. Rule 183-1-12-.02 has been amended. Filed May 11, 2004; effective May 31, 2004.

Emergency Rules 183-1-6-0.3-.06, 183-1-12-0.4-.02, and 183-1-14-0.5-.04 adopted. Filed September 10, 2004; effective September 9, 2004, the date of adoption, to be in effect for 120 days or until the effective date of a permanent Rule covering the same subject matter superseding this Emergency rule is adopted, as specified by the Agency. This Emergency Rule was adopted to prevent confidential information being used for fraudulent purposes (Emergency Rule 183-1-6-0.3-.06), voter fraud related to the counting of absentee ballots

(Emergency Rule 183-1-12-0.4-.02, voter coercion or intimidation occurring during the absentee voting period (Emergency Rule 183-1-14-0.5-.04). (This Emergency Rule will not be published; copies may be obtained from the Agency.)

Rules 183-1-12-.06 has been amended. Rules 183-1-14-.04 and .05 have been adopted. Filed December 21, 2005; effective January 10, 2006.

Rules 183-1-6-.03 and 183-1-12-.02 have been amended. Chapter 183-1-19 entitled "Penalties" has been adopted. Filed December 28, 2005; effective January 17, 2006.

Rule 183-1-12-.07 has been adopted. Filed March 8, 2006; effective March 28, 2006.

Rule 183-1-6-.03 has been amended, Filed May 30, 2006; effective June 19, 2006.

Chapter 183-1-20 entitled "Georgia Voter Identification Card" has been adopted. Filed June 19, 2006; effective July 9, 2006.

Chapter 183-1-1 entitled "Preliminary Provisions" has been adopted. Filed February 22, 2008; effective March 13, 2008.

Rules 183-1-6-.01, .02, 183-1-14-.06, .07, .09 and .10 have been adopted. Rules 183-1-6-.03 and 183-1-12-.02 have been repealed and new Rules adopted. Chapter 183-1-10 entitled "Nomination of Candidates" has been adopted. Filed October 29, 2009; effective November 18, 2009.

Rules 183-1-6-.06 and 183-1-14-.08 have been adopted. Filed December 15, 2009; effective January 4, 2010.

Rule 183-1-11-.02 has been adopted. Filed March 3, 2010; effective March 23, 2010.

Rules 183-1-12-.02, .06, and 183-1-14-.04 have been repealed, and new Rules adopted. Rule 183-1-14-.01 has been amended. Filed March 17, 2011; effective April 6, 2011.

Rule 183-1-12-.06 has been repealed and a new Rule adopted. Rule 183-1-14-.11 has been adopted. Filed May 27, 2011; effective June 16, 2011.

183-1-1-.01	Procedure to Petition for Adoption of Rules	183-1-1-.02	Review of Initial Decisions
-------------	---	-------------	-----------------------------

**183-1-1-.01 Procedure to Petition for Adoption of Rules.**

(1) Interested persons may petition the State Election Board requesting the promulgation, amendment, or repeal of a rule, Such petition should be in the form of a letter addressed to the Board setting forth the language of the proposed rule, amendment, or repeal, and, where applicable, the language of the rule sought to be amended or repealed.

(2) Any interested person desiring to petition the Board requesting the promulgation, amendment, or repeal of a rule shall submit three copies of the petition, in writing, by certified or registered mail, to the Chairperson of the State Election Board, 2 Martin Luther King, Jr. Drive, S.E., Suite 1104, West Tower, Atlanta, Georgia 30334-9000.

(3) Each petition for the promulgation, amendment, or repeal of a rule made pursuant to the Georgia Administrative Procedures Act should be verified under oath, or in proper behalf of, the petitioner and shall contain:

- (a) The name and post office address of the petitioner;
- (b) The full text of the rule requested to be amended or repealed, or the full text of the rule desired to be promulgated;
- (c) The reason(s) such rule should be amended, repealed, or promulgated;
- (d) Any and all pertinent existing facts as to the petitioner's interest in the matter;

(e) Any and all facts known to the petitioner which might influence the decision of the Board to initiate or not initiate rulemaking, including identification of any parties who it is known will or may be affected by the amended, repealed, or promulgated rule; and

(f) Citations of legal authorities, if any, which authorize, support, or require the action requested by the petitioner.

(4) Within thirty (30) days after submission of a petition for the promulgation, amendment, or repeal of a rule or at the next regularly-scheduled meeting of the State Election Board, the Board shall decide upon the action to be taken. The Board shall not be forced to call a special meeting in order to address such a petition. If such a petition is received less than twenty (20) days before a regularly-scheduled meeting, the Board may vote to address the petition at its next regularly-scheduled meeting. Within ten (10) days after addressing the petition, the Board shall inform the petitioner by mail of the decision reached, and shall either decline to take the action requested, stating its reasons for so declining, or shall initiate rulemaking proceedings in accordance with the Georgia Administrative Procedures Act.

Authority O.C.G.A. Sees. 50-13-3, 50-13-17. **History.** Original Rule entitled "Procedure to Petition for Adoption of Rules" adopted. F. Feb. 22, 2006; eff. Mar. 13, 2008.

**183-1-1-.02 Review of Initial Decisions.** The State Election Board (the "Board") does not routinely preside at the reception of the evidence in contested cases before it and typically refers these cases to the Office of State Administrative Hearings ("OSAH"). After receiving the evidence, an OSAH hearing officer may issue an initial decision in such a contested case more than thirty (30) days before the next regularly-scheduled meeting of the Board. On those occasions where the hearing officer issues an initial decision more than thirty (30) days before the Board's next regularly-scheduled meeting, the period of time in which the Board shall render a final decision shall be extended until the date of the next regularly-scheduled meeting of the Board.

Authority O.C.G.A. Sees. 50-13-3, 50-13-17. **History.** Original Rule entitled "Review of Initial Decisions" adopted. F. Feb. 22, 2008; eff. Mar. 13, 2008.

**188-1-6-.01 Acceptance of Voter Registration Applications.**

(1) The board of registrars shall, as of the date received, date stamp all voter registration applications delivered by hand to the board or otherwise received when the application does not have a date stamp affixed by the Secretary of State or a postmark affixed by the United States Postal Service or when the postmark affixed by the United States Postal Service is illegible or bears no date. In any such instance, a voter registration application shall be deemed to have been made as of the date stamp affixed to such application by the board of registrars that receives such application and shall be processed in accordance with subsection (c) of O.C.G.A. Section 21-2-224.

(2) Any application of a person who is a resident of a county in this State that is delivered to the board of registrars of another county through mistake, inadvertence, neglect, or otherwise that does not have a date stamp affixed by the Secretary of State or a postmark affixed by the United States Postal Service or when the postmark affixed by the United States Postal Service is illegible or bears no date shall be date stamped by the receiving board of registrars and shall be forwarded as soon as possible and, in any event, not later than seven days after receipt of the application to the correct board of registrars by the receiving county. In any such instance, a voter registration application shall be deemed to have been made as of the date stamp affixed to such application by the board of registrars that originally receives such application and shall be processed by the correct board

of registrars in accordance with subsection (c) of O.C.G.A. Section 21-2-224.

Authority O.C.G.A. Secs. 21-2-31, 21-2-224. **History.** Original Rule entitled "Special Registration for New (30 day) Residents" adopted. F. July 24, 1968; eff. Aug. 12, 1968. **Amended:** F. Aug. 5, 1969; eff. Aug. 24, 1969. **Repealed:** New Rule entitled "Special 14-day Registration" adopted. F. June 24, 1974; eff. July 14, 1974. **Repealed:** F. Oct. 20, 1975; eff. Nov. 9, 1975. **Amended:** ER. 183-1-6-0.1-.01 entitled "Proper Identification for Registration" adopted. F. and eff. May 20, 1982, as specified by the Agency. **Amended:** Permanent Rule of same title adopted. F. Mar. 29, 1983; eff. Apr. 18, 1983. **Repealed:** F. Mar. 6, 1987; eff. Mar. 26, 1987. **Amended:** New Rule entitled "Acceptance of Voter Registration Applications" adopted. F. Oct. 29, 2009; eff. Nov. 18, 2009.

### 183-1-6-.02 Rules for Voter Registration by Private Entities.

(1) **Intent and Purpose.** These rules are promulgated pursuant to the authority granted to the State Election Board by Georgia Laws 1984, p. 1430, (O.C.G.A. Section 21-2-215(f)) and by Georgia Laws 1968, p. 862, (O.C.G.A. Section 21-2-31). It is the intent and purpose of the State Election Board to establish reasonable, necessary, and uniform rules and regulations to carry out the responsibilities of the State of Georgia with respect to the registration of voters in Georgia.

For the benefit and protection of those citizens who choose to entrust their completed voter registration applications to private entities and for the benefit and protection of the public and the fair administration of the electoral process, the State Election Board has promulgated these rules for voter registration by private entities. The State Election Board, within the parameters of the law, has taken care to make voter registration in Georgia as convenient and easy as practicable while retaining the necessary controls to prevent abuse of the system and fraud in the elective process. To this end, the State Election Board has promulgated these rules and regulations.

(2) **Definitions.** As used in this rule, unless otherwise noted, the term:

(a) "Close of registration" means the last day for the registration of voters in a primary or general election, as provided by law.

(b) "Private entity" means an individual who is not acting in an official capacity as a registrar or deputy registrar, or a non-governmental organization or other non-governmental entity that utilizes individuals other than registrars or deputy registrars to conduct voter registration programs.

(c) "Voter registration programs" means the distribution or collection of voter registration applications.

### **(3) Acceptance of Mail Voter Registration Applications.**

(a) A voter registration application postmarked or received by the Secretary of State or a registrar or deputy registrar within the time frames provided by law for the registration of electors shall be processed without regard to whether such application was received by mail or otherwise, was submitted singularly or bundled with other voter registration applications, or was submitted by a private entity. No board of registrars shall reject or refuse to process a voter registration application solely on the basis of how or by whom it was submitted.

(b) Any mail voter registration application received from a private entity (other than from an individual delivering his or her own application to a state or local election official in person) shall be processed in the same manner as an application received by mail, regardless of the manner in which such application was actually delivered.

(c) Nothing in this rule shall be construed to prohibit or in any manner restrict the right of any board of registrars or other authority from investigating and addressing suspected instances of voter registration fraud or to challenge, examine, verify, or determine the validity of voter registration applications or the qualifications and eligibility of persons applying to register to vote.

**(4) Voter Registration Activities of Private Entities.** Nothing in this rule shall be construed to prevent private entities from conducting organized voter registration programs and assisting eligible citizens with voter registration as permitted by state or federal law, including the distribution, collection, and transmittal of mail voter registration applications to the appropriate board of registrars.

### **(5) Instruction and Training of Private Entities.**

(a) Instruction and training for private entity voter registration activities pursuant to this rule shall be offered by the board of registrars. Training requests by private entities shall be made in

writing to the board of registrars. The board of registrars shall respond in writing to such requests with a training confirmation, including the date, time, and location such training will take place.

(b) At a minimum, training shall be provided to each private entity who requests such training on:

1. How to complete the voter registration application designed, published, and distributed by the Secretary of State in accordance with O.C.G.A. Section 21-2-223;

2. The proper security of completed voter registration applications;

3. The time frames within which completed voter registration applications are required to be transmitted to the appropriate board of registrars;

4. The identification requirements to be included with completed voter registration applications;

5. The identification requirements for voting at polling places within the state and the requirements for persons who registered to vote for the first time by mail; and

6. The required and prohibited activities of private entities as set forth in paragraphs (6) and (7) of this rule.

(c) The Secretary of State may develop and provide to the boards of registrars manuals for this instruction. The Secretary of State may also make such manuals available to the public, including via electronic means on the Secretary of State's website. Until such time as the Secretary of State develops such manuals, boards of registrars shall utilize such materials as will meet the training requirements of this rule.

**(6) Required Activities.** While engaging in organized voter registration activity within this state, a private entity shall:

(a) Advise each applicant that such applicant has the option to return his or her voter registration application personally to the appropriate board of registrars or to the Secretary of State or to permit the private entity to return it on the applicant's behalf;

(b) Inform all applicants that they are not officially registered to vote until their eligibility has been determined by the appropriate board of registrars and that, if the applicant has not received notification of the disposition of the application within three to four weeks of submitting the application, the applicant should contact the appropriate board of registrars to determine if such applicant's eligibility has been determined and the applicant's name entered on the official list of electors;

(c) Inform all applicants that, if they are registering to vote for the first time in the jurisdiction by mail or through a private entity, they must present current and valid identification either when registering to vote by mail or through a private entity or when voting for the first time after registering to vote by mail or through a private entity;

(d) Inform all Georgia applicants of the availability of an online registration status check and polling place locator service on the Secretary of State's website and encourage all applicants to access it in advance of a primary or election day to verify their registration status and correct polling place; and

(e) Inform all applicants of their right, under certain circumstances, to cast a provisional ballot in the event that their names do not appear on the official list of electors at the polls.

For purposes of compliance with the notice provisions provided in this paragraph, it shall be sufficient for the private entity either to post such notices in a conspicuous location at any fixed registration site or to provide such notices in written form to the applicant in a brochure, flyer, or other similar manner at the time of application. The Secretary of State may design and make available to private entities an appropriate model form that includes all required notices pursuant to this paragraph.

**(7) Prohibited Activities.** While engaging in voter registration programs within Georgia, a private entity shall not:

(a) Represent to any person that the private entity is a representative of the Secretary of State or a board of registrars authorized by law to receive voter registration applications in person;

(b) Make any statement to an applicant or take any action that the private entity knows or reasonably should know would discourage a qualified applicant from registering to vote;

(c) Refuse to accept and transmit a properly completed and contemporaneously dated voter registration application from any qualified individual;

(d) Be inebriated or otherwise impaired by drugs, alcohol, or other substances;

(e) Conduct voter registration activities at locations where the private entity knows that illegal or criminal activities are being conducted;

(f) Accept a completed registration application from the applicant unless such application has been sealed by the application, without a signed acknowledgement from the applicant that the applicant willingly and knowingly provided the unsealed application to the private entity;

(g) Copy a completed registration application without the express, written permission of the applicant; or

(h) Conduct voter registration activities in places where alcoholic beverages are sold and consumed on the same premises.

#### **(8) Transmittal of Completed Voter Registration Applications.**

(a) A private entity shall promptly transmit all completed voter registration applications to the Secretary of State or the appropriate board of registrars within ten days after receiving the application or by the close of registration, whichever period is earlier. If a private entity receives a completed voter registration application fourteen days or less before the close of registration, the private entity should transmit the application to the Secretary of State or the appropriate board of registrars within seventy-two hours of the date of the execution of the application or by midnight on the close of registration, whichever period is earlier.

(b) Transmittal of completed voter registration applications may be accomplished by in-person delivery, mail, commercial courier,

statutory overnight delivery, or any other form of delivery that is reasonably calculated to secure and ensure the confidential delivery and receipt of such applications by the Secretary of State or the appropriate board of registrars within three business days after transmittal and within the time frames required by these rules and regulations and state and federal law.

(c) With each transmittal of completed voter registration applications, a private entity should include a transmittal summary sheet which, at a minimum, provides the name of the submitting individual, the name of the private entity sponsoring the voter registration programs (if different than the submitting individual), the physical residence or business address of the submitting individual, the daytime and evening telephone numbers of the submitting individual, and the total number of applications being submitted. The Secretary of State may design and make available to private entities a model transmittal summary sheet containing the information requested in this subparagraph. The failure to include the transmittal summary sheet shall not by itself be grounds for rejecting the submitted applications. The private entity may enclose a postage-prepaid, self-addressed envelope, along with a copy of the completed transmittal summary sheet, if the private entity desires a date stamped receipt of the transmittal summary sheet from the board of registrars, in which case the board of registrars shall promptly acknowledge such receipt by returning a date stamped copy of the transmittal summary sheet to the private entity.

#### **(9) Confidentiality of Completed Voter Registration Applications.**

(a) A private entity shall keep all completed original voter registration applications in the possession of the private entity in a secure and confidential manner at all times until such applications are submitted to the Secretary of State or the appropriate board of registrars. Except as otherwise provided in this rule, a private entity shall not disclose any such applications or information contained therein, except as specifically provided in these rules and regulations to any member of the public. A private entity may collaborate with another affiliated private entity in the securing of completed original voter registration applications that are received during the course of a jointly organized voter registration program.

(b) With the express, written consent of the applicant, a private entity may make archival copies of an applicant's original voter registration application and retain such archival copies for use in aiding the applicant with verifying the timely and proper receipt and processing of his/her application by the applicable board of registrars. A private entity may engage the services of a commercial copying or document management service to make such archival copies provided that the company agrees to maintain the confidentiality and security of the original applications and any copies of the applications in the same manner as is required by private entities pursuant this rule.

(c) A private entity shall keep any such archival copies in a secure and confidential manner at all times and shall not disclose any such archival copies to any member of the public; provided, how-ever, that a private entity may disclose such archival copies to another affiliated private entity as necessary for use in aiding the applicant with verifying the timely and proper receipt and processing of his/her application by the applicable board of registrars. Archival copies of completed voter registration applications must be discarded by the private entity not later than 90 days following the transmittal of the completed voter registration application to the Secretary of State or board of registrars. Whenever such archival copies are discarded by the private entity, they must be discarded in the manner contemplated by O.C.G.A. § 10-15-2 for the destruction by businesses of records containing personal information.

(d) A private entity may create and keep a separate record of any information contained on the applicant's voter registration application that could otherwise be made available for public inspection pursuant to O.C.G.A. § 21-2-225(b) if collected and maintained by the Secretary of State on the official list of electors. No such information may be used by the private entity or any other person for commercial purposes. Whenever such information is discarded by the private entity, it must be discarded in the manner contemplated by O.C.G.A. § 10-15-2 for the destruction by businesses of records containing personal information.

Authority O.C.G.A. Sec. 21-2-91. **History.** Original Rule entitled "Duplicate Voting, Procedure for Checking" adopted. F. July 24, 1968, eff. Aug. 12, 1968. **Amended:** F. Aug. 5, 1969; eff. Aug. 24, 1969. **Amended:** F. Mar. 6, 1987; eff. Mar. 26, 1987. **Repealed:** F. Dec. 11, 2003; eff. Dec. 31, 2003. **Amended:** New Rule entitled "Rules for Voter Registration by Private Entities" adopted. F. Oct. 29, 2009; eff. Nov. 18, 2009.

**183-1-6-.03 Rules and Regulations for Voter Registration by Registrars and Deputy Registrars.****(1) Intent and Purpose.**

(a) These rules are promulgated pursuant to the authority granted the State Election Board by Georgia Laws 1984, p. 1430, (O.C.G.A. Section 21-2-215(0) and by Georgia Laws 1968, p. 862, (O.C.G.A. Section 21-2-31). It is the intent of the State Election Board to increase the level of participation in the elective process in the State of Georgia by encouraging the registration of voters within the State. It is the intent and purpose of the State Election Board, within the parameters of the law, to make voter registration in Georgia as convenient and as easy as practicable while retaining the necessary controls to prevent abuse of the system and fraud in the elective process. To this end, the State Election Board has promulgated these rules and regulations.

(b) Nothing in this rule shall be construed to prohibit any voter registration activity that is permitted pursuant to the National Voter Registration Act of 1993, 42 U.S.C. §§ 1973gg et seq., or any other federal or state law or regulation.

(c) Rules and regulations governing voter registration by private entities are provided in a separately numbered rule within this Chapter.

**(2) Criteria for Appointment of Deputy Registrars.** The board of registrars in each county may appoint deputy registrars to aid them in the discharge of their duties. The number of deputy registrars appointed to serve shall be determined by the board of registrars.

(a) Deputy registrars appointed by each county board of registrars shall meet the following qualifications:

1. be a registered voter in the State of Georgia;
2. be able to read, write and speak the English language;
3. have legible handwriting unless the voter registration applications are to be completed by typewriter or electronic means;
4. satisfactorily complete such training as shall be required by the board of registrars;

5. not have been convicted of a felony or of any crime involving fraud or moral turpitude;

6. not be a candidate for nomination or election to any office except as allowed by O.C.G.A. § 21-2-214; and

7. not have been removed as a deputy registrar for improper conduct in the performance of the duties of deputy registrar.

(b) Deputy registrars shall not engage in political activity on behalf of a candidate, political party or body, or question while actually conducting the duties of their office. While conducting the duties of their office, each person serving as a deputy registrar shall wear a badge or display identification which shall state no more than the person's name and the fact that the person is a deputy registrar of the county. There shall be available for inspection, upon request to verify the authority of the persons involved, the names of the authorized deputy registrars serving at the site.

(c) The following activities shall subject a deputy registrar to immediate revocation of appointment as a deputy registrar:

1. registering voters at unapproved sites, times, and hours, including door to door registration;

2. intoxication while on duty;

3. falsification of registration records;

4. improper handling of registration applications;

5. engaging in any communication, wearing badges, buttons, or clothing that advocates or criticizes a particular candidate, office holder, political party or body, or ballot question while on duty, such as making verbal statements and distributing campaign literature. However, deputy registrars shall identify themselves as deputy registrars of the county by wearing the badges or displaying the identification described in paragraph (b) above; and

6. failure to appear or remain at the deputy registrar's assigned site at or during the assigned hours without adequate notice to the board of registrars or without a proper replacement.

**(3) Criteria for Establishment of Additional Voter Registration Places:**

(a) The Board of Registrars, in addition to its main office, may designate other fixed places throughout the county as would be reasonably necessary to receive applications for registration and for the registration of electors.

(b) Such additional registration places shall be located in facilities which are open to and frequented by the general public. No place shall be used as an additional registration place unless the general public is freely admitted without regard to race, color, creed, religion, gender, or national origin,

(c) Churches which are open to all persons and which are, in fact, attended for any purpose by persons who are not members of the church shall be considered to be open to and frequented by the general public.

(d) The offices or facilities of community, civic, service, social, civil rights, patriotic, fraternal, and labor organizations shall be considered to be open to and frequented by the general public if non members of the organization in fact attend various activities sponsored by the organization at its offices and facilities and such offices or facilities are open to all persons. However, offices or facilities of political parties, political bodies or candidates shall not be used as additional voter registration places.

(e) The fact that a facility is used primarily or exclusively by the general public of one race or ethnic group or socioeconomic group shall not, for that reason alone, bar its designation as a registration place.

(f) When employers or business owners request the use of their place of business as a registration place, registration shall be conducted only in that part of the place of business which is open to the general public. Such part of the place of business shall be considered to be open to and frequented by the general public if it is an area which is maintained for use by the general public and is known to serve the general public for the purpose of conducting business or engaging in other transactions with the business.

(g) Organizations, employers, offices, and businesses that register voters at their facilities shall not limit registration to their members, employees, or customers, but must register any qualified applicant.

(h) Registration of voters shall be prohibited in places where alcoholic beverages are sold and consumed on the same premises.

(i) No registration of voters shall take place where criminal activities are permitted to occur.

(j) Registration places may be established on a temporary or permanent basis. Permanent places are those which operate on a fixed schedule for an indefinite period of time. Temporary places are those which operate on a temporary schedule and, among other things, may be used in voter registration drives.

1. The deputy registrars appointed by the board of registrars who staff registration places may be unpaid volunteers, employees of the board of registrars, or employees of government offices or of private businesses.

(k) Persons acting as individuals or as representatives of organizations and businesses may request the establishment of additional voter registration places. The board of registrars shall consider such requests.

1. If the request is approved, the board of registrars shall make provisions for having a deputy registrar who has been appointed by the board of registrars available at the additional voter registration places at all times which have been designated by the board of registrars and which have been precleared by the United States Department of Justice for the purpose of voter registration. The board of registrars shall inform such persons that registration may be conducted only at such times as are designated by the board of registrars, precleared by the United States Department of Justice, and advertised as required by law.

(l) The board of registrars shall retain the ultimate responsibility for the submission of additional registration places, dates, and times to the United States Department of Justice for preclearance pursuant to the Voting Rights Act of 1965 and for the advertising of registration places as required by law. The board of registrars shall also retain the ultimate responsibility for the appointment and training of deputy registrars, the proper conduct of voter registration, and the security of completed registration applications; but the board of registrars may

use deputy registrars to assist them in carrying out these duties.

(m) The board of registrars shall instruct deputy registrars in the law and procedure for registration prior to the administration of the oath of office to the deputy registrars. Such training shall include the duties and obligations of deputy registrars, the proper completion of registration applications, the proper security of registration applications, the protection of the integrity of the registration process, and the taking of oaths of registrants and the procedures for appeal upon rejection of the applications for registration.

(n) The Secretary of State shall provide the board of registrars of each county manuals for the use of deputy registrars which include simple instructions on the rules and procedures for the proper conduct of voter registration. The form and content of these manuals shall be determined by the Secretary of State. The board of registrars shall provide each deputy registrar with a copy of the manual.

(o) In order to ensure that the same degree of supervision and security provided at the main office of the board of registrars to prevent voter registration irregularities is maintained for the additional voter registration places, the following rules shall apply:

1. Except as provided in this rule, completed registration applications may be maintained by registrars and deputy registrars only:

(i) at the additional voter registration place during the hours of operation;

(ii) in transit to the main office of the board of registrars;

(iii) at the main office of the board of registrars;

(iv) at permanent additional voter registration places overnight but not beyond the end of the next business day; and

(v) at sites mandated as voter registration sites under O.C.G.A. §21-2-221 and 21-2-222 but not longer than the time permitted under those Code sections.

2. Notwithstanding any provision of this rule to the contrary, a valid registration application that is timely received by the Secretary of State or the registrars shall be accepted.

(p) The board of registrars should identify and establish additional voter registration places where the public congregates for commerce, recreation, worship, education, employment, and other such purposes which are most likely to facilitate registration and suit the convenience of the general public throughout the county. These places should be open at hours to suit the convenience of the general public including times other than the regular hours of the main office of the board of registrars.

(q) Wherever practicable, the Board of Registrars should fully utilize federal, state, county, and municipal offices located within the county which are open during regular business hours and other hours for the purpose of taking voter registration applications.

(r) All additional voter registration sites which are staffed by volunteer deputy registrars shall have prominently displayed a sign, placard, or banner which shall state that voter registration at that location is being conducted under the authority of the Board of Registrars of the county or, in counties in which the duties of the Board of Registrars are performed by Boards of Election, the county Board of Elections. If the volunteer deputy registrars are provided by an organization, club, or other group, the sign, placard, or banner may also identify the organization, club, or group providing the volunteer deputy registrars. The language contained on the sign, placard, or banner shall conform substantially to the following: "Voter registration at this location is being conducted under the authority of the Board of (Registrars or Elections) of \_\_\_\_\_ County. The volunteer deputy registrars at this location are provided by \_\_\_\_\_".

Authority O.C.G.A. Secs. 21-2-31, 21-2-218. **History.** Original Rule entitled "Rules and Regulations for Voter Registration" adopted. F. Jan. 22, 1985; eff. Feb. 11, 1985. **Amended:** F. Jan. 21, 1988; eff. Feb. 10, 1988. **Amended:** F. Apr. 10, 1989; eff. Apr. 30, 1989. **Amended:** F. Dec. 11, 2003; eff. Dec. 31, 2003. **Amended:** F. Dec. 28, 2005; eff. Oct. 29, 2009; eff. Nov. 18, 2009.

### **183-1-6-.04 Accessibility for Elderly and Disabled Voters.**

(1) **Preamble.** In order to implement the provisions of the Voting Accessibility for the Elderly and Handicapped Act (P.L. 98-435), the

State Election Board promulgates the following rules and regulations.

(2) **Definitions.** As used in this Rule, the terms:

(a) "Accessible" shall mean that a facility has a continuous unobstructed path connecting the parking area and the area within the facility which is being used for voting or voter registration, whichever the case may be, which complies with the relevant provisions of Sections 3 and 4 of American National Standards Institute specifications A117.1-1980 for making buildings and facilities accessible to and usable by physically disabled individuals.

(b) "Disabled" shall mean a temporary or permanent physical disability.

(c) "Elderly" shall mean persons 65 years of age or older.

(d) "Polling place" means the room provided in each precinct for voting at a primary or election.

(e) "Registration place" shall mean any place, either temporary or permanent, designated by the registrars of a county or municipality as a place to be used for voter registration.

(3) **Polling Places.** All polling places in the State of Georgia shall be accessible to disabled and elderly electors.

(4) **Reserved.**

(5) **Implementation.**

(a) **Polling Places.** The election superintendent of each county and municipality shall conduct, or cause to be conducted, an on-site inspection of each polling place located within the county or municipality to determine if the polling place is accessible. This inspection shall be reported to the Secretary of State on forms prepared by the Secretary of State at such times as the Secretary of State shall prescribe. Any polling place found not to be accessible shall either be made accessible prior to its use in a primary or election or shall not be used as a polling place.

(6) **Waivers.** No waiver shall be granted for polling places which are not accessible.

(7) **Printed Instructions.** The Secretary of State shall provide instructions for use by election superintendents at polling places and registrars at voter registration places, printed in large type, to assist visually and hearing impaired electors in voting and registering to vote.

(8) **Notice and Advertisement.**

(a) Each election superintendent shall mark or cause to be marked in a prominent manner the accessible path for elderly and disabled voters at all polling places.

(b) The display of the international disabled access symbol shall be sufficient marking of a polling place if the symbol is of a size and is located such that it can easily be seen by the public and if the accessible path from the parking area to the polling place is the same as the path used by non-disabled persons.

(c) Election superintendents shall take reasonable steps to inform disabled and elderly electors of the availability of accessible polling places.

(9) **Voting Aids.** The election superintendent of each county and municipality shall provide at least one magnifying glass at each polling place during each primary and election for use by visually impaired electors.

(10) If the voting equipment is not accessible to a disabled voter, the disabled voter shall be permitted to use a paper ballot.

(11) **Enforcement.**

(a) Election superintendents and boards of registrars shall investigate all complaints concerning accessibility to polling places and voter registration places and shall take such corrective action as may be necessary to ensure compliance with these rules concerning accessibility.

(b) Election superintendents and boards of registrars shall report in writing to the State Election Board through the Secretary of State all complaints concerning accessibility, the results of the investigation of the complaints, and any corrective actions taken.

(c) The State Election Board may, in its discretion, investigate these complaints further and take such actions as it deems

appropriate to ensure that these rules concerning accessibility are implemented and effectuated.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Accessibility for Elderly and Handicapped Voters" adopted. F. Aug. 1, 1986; eff. Aug. 21, 1986. **Amended:** F. Sept. 18, 1986; eff. Oct. 8, 1986. **Amended:** F. Dec. 11, 2003; eff. Dec. 31, 2003.

### **183-1-6-.05 Registration of Persons by College Presidents or Their Designees.**

(1) **Authority.** The president of each public or private college or university located in the State of Georgia is authorized to register to vote all qualified students, staff, and faculty at the college or university. For students domiciled in the State of Georgia, the college or university president or designee of the president shall be a deputy registrar on behalf of all boards of registration in the State of Georgia for the purpose of taking applications for voter registration for these students. For staff and faculty domiciled in the county in which the college or university is located, each college or university president or designee of the president shall be a deputy registrar of the county in which the college or university is located for the purpose of taking applications for voter registration for those faculty and staff members.

(2) **Designees.** Each college or university president is authorized to designate such persons as the college or university president deems appropriate for the purpose of aiding the college or university president in the exercise of the president's voter registration duties. It shall not be necessary for any person so designated to be a resident of the county in which the college or university is located. However, each person so designated shall be a registered voter in the State of Georgia and shall take an oath as a deputy registrar. The designation shall be in writing and shall be forwarded by the college or university president to the chief registrar of the county in which the college or university is located. Registration applications completed by persons who are not designated in writing to the chief registrar by the college or university president to register persons on behalf of the college or university president shall be rejected.

(3) **Training.** Each person designated by a college or university president to register voters on behalf of the president shall immediately contact the chief registrar of the county in which the college or university is located to undergo such training board of registrars of the county ordinarily provides for deputy registrars. Such training shall be completed prior to the individual taking any application for voter registration.

(4) **Registration Applications.** The board of registrars in each county in which a college or university is located shall provide to the college or university president a sufficient number of registration applications for use in registering qualified students, staff, and faculty at the college or university.

(5) **Security.** Any person designated by a college or university president to take voter registration applications on behalf of the college or university president shall also take such steps as are necessary to provide appropriate and adequate security for the registration applications which are placed in that person's possession. Completed voter registration applications shall be returned to the board of registrars in the county in which the college or university is located as soon as possible, but, in no event, later than the next business day.

(6) **Voter Registration Places.** Each place utilized for the collection and receipt of applications for voter registration by the college or university president or designee of the president shall be precleared under Section 5 of the Voting Rights Act of 1965 (42 U.S.C. Section 1973c). The board of registrars of the county in which the college or university is located shall be responsible for obtaining this preclearance. No registration shall be conducted at locations which have not been precleared. Door-to-door registration is prohibited.

(7) **Receipt of Completed Applications.** Upon the receipt of completed voter registration applications from a college or university, the board of registrars of the county in which the college or university is located shall retain those applications completed by individuals who are domiciled in the county in which the college or university is located and shall forward the remainder of the applications completed by individuals domiciled in other counties directly to the appropriate county registration offices.

(8) **Limitations on Presidents and Their Designees.** College and university presidents and their designees are limited to registering only those qualified students, staff and faculty at the college and university and may not register any other individuals.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Registration of Persons by College Presidents or Their Designees" adopted. F. Feb. 17, 1992; eff. Mar. 8, 1992. **Amended:** F. Dec. 11, 2003; eff. Dec. 31, 2003.

**183-1-6-.06 Verification of United States Citizenship of Applicants for Voter Registration.**

(1) On and after January 1, 2010, an application for registration to vote shall be accompanied by satisfactory evidence of United States citizenship.

(2) Satisfactory evidence of citizenship shall include any of the following:

(a) Verified Georgia Driver's License Number or Identification Card Number or Out of State Driver's License or Identification Card.

1. An applicant may provide as satisfactory evidence of citizenship, the number of the applicant's driver's license or identification card issued by the Georgia Department of Driver Services, upon verification by the Secretary of State that the applicant has provided satisfactory evidence of United States citizenship to the Georgia Department of Driver Services.

2. An applicant may provide as satisfactory evidence of citizenship, the applicant's driver's license or identification card, or legible photocopy thereof, issued by a state driver's license agency of another state equivalent to the Georgia Department of Driver Services, or a legible photocopy thereof, if such agency indicates on the driver's license or identification card that the applicant has provided satisfactory evidence of United States citizenship to such agency.

(b) Birth Certificate.

1. An applicant's birth certificate, or a legible photocopy thereof, is satisfactory evidence of citizenship so long as the birth certificate shows that the applicant was born within the United States. In the event that the birth certificate contains a different first, middle, or last name from the name contained on the application for registration, the board of registrars shall require additional supporting legal documentation to establish that the applicant is the same individual as the individual identified on the birth certificate, including but not limited to a marriage certificate or court order confirming change of name.

2. A Certificate of Birth Abroad, or legible photocopy thereof, obtained by a United States citizen when such individual registers with the Department of State in the event such individual is born

abroad in a non-military installation, shall be accepted and treated as a birth certificate.

(c) United States Passport.

1. An applicant's United States passport, or a legible photocopy of pages of the applicant's United States passport which contain the passport number, name, nationality, date of birth, place of birth, and signature, shall serve as satisfactory evidence of citizenship.

(d) United States Naturalization Documents or Verified Alien Registration Number.

1. An applicant may provide the board of registrars with the applicant's United States Certificate of Naturalization issued by the United States Citizenship and Immigration Services.

(i) Registrars and deputy registrars who attend naturalization ceremonies may assist new citizens in registering to vote. In such event, the registrar or deputy registrar shall examine the applicant's United State Certificate of Naturalization and initial and date the application for registration. If applicants from outside the county apply at the ceremony, the registrar or deputy registrar conducting the voter registration activities shall bundle the registrations by county and send them to the appropriate county board of registrars with an official cover letter stating that all naturalization documents were verified by the registrar or deputy registrar. A county that receives applications in this manner shall accept the applications without requiring further evidence of citizenship from the applicant.

2. If only the alien registration number from naturalization documents is provided for citizenship purposes, the applicant shall not be found eligible to vote until the applicant's alien registration number is verified with the United States Citizenship and Immigration Services by the Secretary of State utilizing the Systematic Alien Verification for Entitlements program.

(e) Documents or methods of proof that are established pursuant to the federal Immigration Reform and Control Act of 1986 (P. L. 99-603).

(f) Bureau of Indian Affairs Card Number, Tribal Treaty Card Number, or Tribal Enrollment Number.

(g) Other Documents and Methods of Proof.

1. Applicants who do not have any of the documents enumerated in subparagraphs (g)(2)(A) through (F) of O.C.G.A. Section 21-2-216 and who are residents of this State and United States citizens may provide any of the following as satisfactory evidence of United States citizenship:

(i) Certificate of Citizenship issued by the United States Immigration and Naturalization Service;

(ii) Consular Report of Birth Abroad of a Citizen of the United States of America;

(iii) Certification of Report of Birth issued by the United States Department of State;

(iv) United States Citizen Identification card;

(v) American Indian Card issued by the United States Department of Homeland Security with the classification code "KIC";

(vi) Final adoption decree showing the applicant's name and United States birthplace;

(vii) Evidence of the applicant's civil service employment by the United States government before June 1976;

(viii) An official United States military record of service showing a United States place of birth;

(ix) A Northern Mariana Identification Card issued by the United States Immigration and Naturalization Service; or

(x) Extract of United States hospital record of birth created at the time of the person's birth indicating a United States place of birth.

2. If the applicant cannot obtain any of the documents described in subparagraphs (g)(2)(A) through (F) of O.C.G.A. Section 21-2-216 and (g)1. above, the applicant may request a hearing for the board of registrars to review other evidence of the applicant's United States citizenship. The board of registrars shall schedule a hearing to review such evidence provided by applicants at least once per month and on the last day to verify provisional ballots for any election pursuant to O.C.G.A. Section 21-2-419. The hearing shall be conducted as follows:

(IX) Statement signed by the birth physician or midwife who was in attendance at the time of birth; or

(X) If other forms of documentation cannot be obtained, documentation may be provided at the hearing by written affidavit, signed under penalty of perjury, from two citizens, one of whom cannot be related to the person in question, who have specific knowledge of event(s) establishing the applicant's United States citizenship status. The applicant or another knowledgeable individual must also submit an affidavit stating why the documents are not available. Such affidavits are only expected to be used in rare circumstances.

3. The board of registrars may accept legible copies of documents bearing on United States citizenship received via United States Mail, facsimile, electronic mail, personal delivery, or other means.

4. Having a Social Security card or being a member of the United States military is not, in and of itself, sufficient evidence that an individual is a United States citizen.

(3) If an application for registration is completed in person at the board of registrars' office or other registration place and the applicant provides satisfactory evidence of citizenship at that time, the registrar or deputy registrar shall indicate on the voter registration application:

(a) That the person provided satisfactory evidence of citizenship,

(b) The type of evidence of citizenship provided, and

(c) The initials of the registrar or deputy registrar who made the verification.

(4) If an applicant fails to supply satisfactory evidence of citizenship with the application for registration, the board of registrars shall, within 10 days of receipt of the application, notify the applicant of the failure to present satisfactory evidence of United States citizenship as follows:

(a) The board of registrars shall send the notice by nonforwardable, first-class mail to the mailing address listed on the application and shall inform the applicant of the missing information and that the application will be rejected if satisfactory evidence of United States citizenship is not provided to the board of registrars within 30 days following the sending of the notice.

(b) If the applicant does not provide satisfactory evidence of United States citizenship to the board of registrars within 30 days of the sending of the notice, the board of registrars shall reject the application and shall immediately notify the applicant of the rejection in writing by nonforwardable, first-class mail at the mailing address listed on the application.

(c) If the initial application is received prior to the close of voter registration prior to a primary or election and the primary or election occurs within 30 days following the sending of the notice, the applicant may supply satisfactory evidence of United States citizenship on or prior to the date of the election. If the applicant supplies satisfactory evidence of United States citizenship and is found eligible to vote, the applicant shall be added to the list of electors and shall be permitted to vote in the election and any run-off elections resulting therefrom and subsequent elections.

(5) The board of registrars shall not determine the eligibility of an applicant unless and until satisfactory evidence of United States citizenship is supplied by the applicant.

(6) United States citizenship question on application for registration.

(a) Regardless of whether an applicant provides satisfactory evidence of United States citizenship, if such applicant fails to answer the question on the application for registration asking, "Are you a citizen of the United States of America?", the registration shall be considered incomplete until the board of registrars obtains a completed application. The registrar shall return a copy of the application by letter sent by nonforwardable, first-class mail and request that the applicant complete the question by answering "Yes" or "No" to the question regarding United States citizenship. For the purpose of voter registration, an appropriate indicator includes marking a check mark in the box, placing "X" in the box, circling the box, shading the box, or any other method involving the "Yes" box that indicates the applicant is a citizen of the United States.

(b) If the citizenship box is marked "No", the board of registrars shall reject the application and shall immediately notify the applicant of the rejection in writing by nonforwardable, first-class mail at the mailing address listed on the application.

NOMINATION OF CANDIDATES**

**TABLE OF CONTENTS**

183-1-10-.01    Qualification of Candidates for Office;  
                    Time Period During Which Bank, Credit  
                    Union, or Other Financial Institution  
                    May Certify Error in Returning Check

**183-1-10-.01 Qualification of Candidates for Office; Time  
Period During Which Bank, Credit Union, or Other Financial  
Institution May Certify Error in Returning Check.**

(1) In the event a candidate for federal or state office pays his or her qualifying fee with a check that is subsequently returned for insufficient funds, the Secretary of State shall automatically find that such candidate has not met the qualifications for holding the office being sought. A written certification from the bank, credit union, or other financial institution returning the check that it erred in returning the check will prevent such an automatic finding so long as the certification is received by the Secretary of State within two weeks after the deadline for qualifying.

(2) In the event a candidate for county or municipal office pays his or her qualifying fee with a check that is subsequently returned for insufficient funds, the superintendent shall automatically find that such candidate has not met the qualifications for holding the office being sought. A written certification from the bank, credit union, or other financial institution returning the check that it erred in returning the check will prevent such an automatic finding so long as the certification is received by the superintendent within two weeks after the deadline for qualifying.

BALLOTS**

**TABLE OF CONTENTS**

<b>183-1-11-.01</b>	<b>Ballot Secrecy</b>	<b>183-1-11-.02</b>	<b>Appearance of Candidate's Name on Ballot</b>
---------------------	-----------------------	---------------------	---

**183-1-11-.01 Ballot Secrecy.** Each Superintendent of Elections shall ensure that handicapped persons casting their vote at the polls are able to do so in private by providing such facilities and equipment as necessary to maintain the secrecy of the ballot.

Authority O.C.G.A. Secs. 21-2-218, 21-2-31. **History.** Original Rule entitled "Ballot Secrecy" adopted. F. Nov. 14, 1986; eff. Dec. 4, 1986.

**183-1-11-.02 Appearance of Candidate's Name on Ballot.**

(1) A candidate's name on the ballot shall include the candidate's last name shown on the candidate's voter registration records and at least one of: (1) the first name shown on the candidate's voter registration records or corresponding initial, (2) the middle name shown on the candidate's voter registration records or corresponding initial, (3) an abbreviated name by which the candidate is commonly known in the community, or (4) a nickname by which the candidate is commonly known in the community. Any nickname is subject to Section (2) of this rule

(2) A candidate's name may include a nickname by which the candidate is commonly known in the community but shall not contain any spurious phrases, title or degree designating the business, fraternal, religious, or professional affiliation of the candidate, or political slogan or message. A title or degree includes, but is not limited to, military or professional title or rank, or references such as "Dr.", "Rev.", "Judge", "Mr.", "Ms.", "Mrs.", or "Miss". A determination as to whether a nickname violates this Rule lies within the sound discretion of the Secretary of State or election superintendent, as appropriate.

(3) The total number of spaces, inclusive of letters, spaces, and

punctuation, which may be utilized on the ballot for a candidate's name and, if any, nickname, shall be twenty-five (25).

Notwithstanding the listing of the candidate's name on the filing papers, spaces, periods, quotation marks, and comma necessary for proper punctuation shall be added by the Secretary of State or the election superintendent, as appropriate. No candidate's name shall exceed twenty-five (25) spaces. The Secretary of State or the election superintendent, as appropriate, shall determine the correct listing for any candidate whose name exceeds twenty-five (25) spaces to conform to this requirement.

(4) A determination as to whether the candidate's requested name on the ballot complies with this Rule shall be within the discretion of the Secretary of State or election superintendent, as appropriate shall modify the candidate's name on the ballot so that it complies with this Rule.

(5) The total number of spaces, inclusive of letters, spaces, and punctuation, which may be utilized on the ballot for a candidate's name and, if any, nickname, shall be twenty-five (25). Notwithstanding the listing of the candidate's name on the filing papers, spaces, periods, quotation marks, and commas necessary for proper punctuation shall be added by the Secretary of State or the election superintendent, as appropriate. No candidate's name shall exceed twenty-five (25) spaces. The Secretary of State or the election superintendent, as appropriate, shall determine the correct listing for any candidate whose name exceeds twenty-five (25) spaces to conform to this requirement.

183-1-12-.05	Repealed	183-1-12-.10	Use of Absentee Ballots When Voting Machines are Inaccessible

**183-1-12-.01 Conduct of Elections.** Beginning with the November 2002 General Election, all federal, state, and county general primaries and elections, special primaries and elections, and refer-endums in the State of Georgia shall be conducted at the polls through the use of direct recording electronic (DRE) voting units supplied by the Secretary of State or purchased by the counties with the authorization of the Secretary of State. In addition, absentee balloting shall be conducted through the use of optical scan ballots which shall be tabulated on optical scan vote tabulation systems furnished by the Secretary of State or purchased by the counties with the authorization of the Secretary of State; provided, however, that the use of direct recording electronic (DRE) voting units is authorized by the Secretary of State for persons desiring to vote by absentee ballot in person.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Voting Machines" adopted. F. July 24, 1968; eff. Aug. 12, 1968. **Repealed:** New Rule entitled "Conduct of Elections" adopted. F. Aug. 30, 2002; eff. Sept. 19, 2002. **Amended:** F. Oct. 24, 2003; eff. Nov. 13, 2003.

**183-1-12-.02 Direct Recording Electronic Voting Equipment.**

(1) Definitions. As used in this rule, the term:

(a) "Assist", "assisted", "assisting", or "assistance" means the act of marking a voter registration application, application for absentee ballot, or ballot on behalf of a voter who is unable to read the English language or has a disability which renders him or her unable to see or mark the voter registration application, application for absentee ballot, or ballot or operate the voting equipment, or to enter the voting compartment or booth unaccompanied, in the manner personally

requested and communicated by such voter. This definition will apply equally to Code Sections 21-2-322, 21-2-365, 21-2- 379.1, 21-2-384, 21-2-385, 21-2-385.1, 21-2-400, 21-2-402, 21-2-409, 21-2-409.1, 21-2-413, 21-2-456, 21-2-500, 21-2-568, 21-2-579, 21-2- 587, 21-2-590, 21-2-591, 21-2-592.

(b) “Ballot” shall mean the offices, candidates, and questions to be submitted to the voters at a primary, election, or runoff for each county or municipality.

(c) “Ballot Encoder Device” shall mean the electronic device by which the poll officers program the voter access card to authorize the voter to vote on the DRE units.

(d) “Ballot Style” shall mean the presentation of the offices, candidates, and questions to be submitted to the voters at a primary, election, or runoff on a DRE unit that contains only the offices and questions for the voters of specified districts within the precinct.

(e) “Counter” shall mean the registers on each DRE unit which increment by one each time a vote is cast on the unit. The “election counter” is the register which is reset for each election and records the number of ballots voted on a DRE unit in a particular election. The “system counter” is the register which cannot be reset and records the number of ballots voted on a DRE unit over the course of the life of the unit.

(f) “DRE unit” shall mean a direct recording electronic voting device which is a computer driven unit for casting and counting votes on which a voter casts his or her votes through the use of a touch screen or VWD device. The term shall include both state supplied devices and devices purchased by counties.

(g) “Early voting period” shall mean that period of time preceding a primary or election in which the board of registrars or absentee ballot clerk shall mail or issue official absentee ballots to all eligible applicants.

(h) “Enclosed space” shall mean that area within a polling place enclosed with a guardrail or barrier closing the inner portion of such area so that only such persons as are inside such guardrail or barrier can approach within six feet of the ballot box, voting compartments,

voting booths, or voting machines.

(i) “Memory Card” shall mean the electronic card (PCMCIA card) on which the ballot styles for a particular precinct are electronically stored and which is inserted into the direct recording electronic voting unit (DRE) to program the DRE unit for voting and on which vote totals are recorded for the DRE unit during the voting process.

(j) “Opening of the Polls” shall mean the commencement of voting in a particular primary, election, or runoff. Opening of the polls does not refer to the unlocking or opening of the doors of the polling place. Similarly, the term “Closing of the Polls” shall mean the cessation of voting in a particular primary, election, or runoff and not the locking or dosing of the doors of the polling place.

(k) “Supervisor’s Card” shall mean the electronic card to be used by the poll manager which is inserted into the DRE unit in order to configure the DRE unit for voting, to test the DRE unit, to terminate or suspend voting on the DRE unit, or to access other utility functions on the DRE unit.

(l) “Voter Access Card” shall mean the electronic card issued to a voter which is inserted into a DRE unit to authorize the voter to cast a ballot on the DRE unit.

(m) “VWD Device” is a device for use by illiterate and/or visually impaired voters in voting on a DRE unit and consists of an audio headset and a keypad by which the ballot can be provided to the voter aurally and the voter can cast his or her vote by use of the keypad.

(n) “Zero Tape” shall mean a tape printed out by the DRE unit which shows that all vote registers in the DRE unit for recording votes for candidates and questions are set to zero and that no votes are present on the unit.

## (2) Receipt, Maintenance, and Storage.

(a) Acceptance tests. Upon the receipt of each new direct recording electronic voting unit (DRE), the election superintendent of the county is responsible to ensure that an acceptance test is performed on the device in accordance with standards issued by the Secretary of State. No DRE unit shall be accepted by the county or placed into service

until such time as the unit satisfactorily passes the prescribed acceptance tests.

(b) Storage of DRE units.

1. The election superintendent of the county shall maintain the DRE units in accordance with the requirements of this rule, the directives of the Secretary of State, and the specifications and requirements of the manufacturer.

2. The DRE units shall be stored in a climate controlled space in which the temperature and humidity levels are maintained at acceptable levels year-round which shall not be lower than 5 degrees Celsius (41 degrees Fahrenheit) nor higher than 40 degrees Celsius (104 degrees Fahrenheit) and not lower than 35 percent relative humidity and not higher than 85 percent relative humidity such that no condensation forms on such units. The units shall not be stored in an area in which liquids or fluids stand, pool, or accumulate at any time or in areas that are subject to such standing, pooling, or accumulating liquids or fluids. The space in which the units are stored shall be secured and shall be accessible only to persons authorized by the election superintendent to have access to such units or such space. The DRE units may be stacked atop each other but no more than five units may be in a stack unless a rack system has been constructed for the storage of the units. The election superintendent shall ensure that the batteries in each unit are charged at least quarterly in accordance with the manufacturer's specifications.

3. The storage areas for DRE units shall be equipped with one or more of the following forms of electronic surveillance and protection: keypads or electronic locks, motion detectors, video surveillance, or a security system that is connected to an outside monitoring source, such as the police department or fire department. In lieu of providing electronic surveillance and protection, the DRE units may be interlocked through the use of a cable or chain that is secured by a padlock or other type of locking system.

4. The election superintendent shall maintain numbered seals on all DRE units in storage and all seal, numbers shall be recorded and on file in the office of the election superintendent.

5. Upon delivery to a polling place in preparation for a primary, election, or runoff, the DRE units shall be secured and protected from unauthorized access by storing the DRE units in a locked and secure room at the polling place, having the person taking possession of the units personally supervise the units at all times prior to the opening of the polls, or by interlocking the DRE units with a cable or chain that is secured by a padlock or other type of locking system.

6. The expenses for the implementation of the storage and security requirements of this rule shall be the responsibility of the county or municipal governing authority, as applicable, unless such security features are provided by the state.

(c) Software security. The software contained in each DRE unit, regardless of whether the unit is owned by the county or the state, and the software used to program the unit and to tabulate and consolidate election results shall not be modified, upgraded, or changed in any way without the specific approval of the Secretary of State. No other software shall be loaded onto or maintained "or used on computers on which the GEMS software is located except as specifically authorized by the Secretary of State.

(d) Maintenance of DRE units. After the end of the initial warranty period for state owned DRE units and computers for use in programming the DRE units and tabulating and consolidating the vote totals, the county shall be responsible for the maintenance and upkeep of such devices, including the repair and/or replacement of any devices which are destroyed, damaged, or otherwise rendered incapable of use in elections.

(e) Access to GEMS servers.

1. The room in which the GEMS server is located shall be locked at all times when the server is not directly under the supervision of the election superintendent or the election superintendent's designee. Lock and key access to the room where the GEMS server is located shall be limited to the county election superintendent; members of the county board of elections; the election supervisor, if any; personnel of the county election superintendent's office designated by the county election superintendent; building maintenance personnel; and emergency personnel. Building maintenance personnel shall have

access to the room in which the GEMS server is located only to the extent necessary to carry out their maintenance duties. The election superintendent shall maintain on file at all times in the office of the election superintendent a complete and up to date list of all maintenance personnel with access to the room in which the GEMS server is located. Emergency personnel shall have access to the room in which the GEMS server is located only as necessary in the event of an emergency and only for the duration of such emergency condition.

2. The GEMS server shall remain locked at all times when not in use. The key or keys to the GEMS server shall remain in the possession of the election superintendent or the designee of the election superintendent at all times.

(f) Security of DRE units and accessories. All DRE units, optical scanner devices, voter access cards, supervisor cards, memory cards, DRE unit keys, voting system software, and encoders shall be stored under lock and key at all times when not in use. Lock and key access to such items shall be limited to the county election superintendent; members of the county board of elections; the election supervisor, if any; personnel of the county election superintendent's office designated by the county election superintendent; building maintenance personnel; and emergency personnel. Building maintenance personnel shall have access to the area where such items are stored only to the extent necessary to carry out their maintenance duties. The election superintendent shall maintain on file at all times in the office of the election superintendent a complete and up to date list of all maintenance personnel with access to the area in which such items are stored. Emergency personnel shall have access to the area where such items are stored only as necessary in the event of an emergency and only for the duration of such emergency condition. Whenever maintenance or emergency personnel are required to enter the storage area, the election superintendent must be notified of that entry within 24 hours and the election superintendent must maintain a log of those persons who entered the storage area.

(g) Voting system handling requirements.

1. All personnel, with the exception of the permanent employees of the Office of the Secretary of State and permanent employees of the county or municipal election superintendent, who prepare voting

equipment for use in a primary, election, or runoff shall complete an oath of custodian before each election. One copy of the oath shall be placed on file in the office of the election superintendent and an additional copy shall be filed with the records for the election filed with the clerk of superior court or the municipal clerk, as appropriate. The oath of custodian shall be in the following form:

STATE OF GEORGIA  
COUNTY/MUNICIPALITY OF \_\_\_\_\_  
OATH OF CUSTODIANS AND DEPUTY CUSTODIANS  
OF DRE UNITS

I, \_\_\_\_\_, do swear (or affirm) that I will as a (deputy) custodian of the voting systems for the County/Municipality of \_\_\_\_\_, faithfully perform all of my duties in accordance with state law; that I will prepare in accordance with all applicable rules and regulations governing the use of the voting system all DRE units to be used in primaries, elections, and runoffs in this county/municipality; that I will use my best endeavors to prevent any fraud, deceit, or abuse in carrying out my duties while preparing the DRE units for use in primaries, elections, and runoffs; and that I am not disqualified by law to hold the position of (deputy) custodian.

\_\_\_\_\_  
(Deputy) Custodian

Administered by, sworn to,  
and subscribed before me,  
this \_\_\_\_\_ day of \_\_\_\_\_, 200 \_\_\_\_.

\_\_\_\_\_  
Superintendent

(Required by O.C.G.A. Section 21-2-379.6(b))

2. All DRE units and accessories that are removed from storage for educational or training purposes must be signed in and out on an equipment log maintained by the election superintendent. The log shall contain, at a minimum, a description of the item being checked out, including any serial number or identifying number; the date and time when the item is checked out; the name of the person checking out the item; and the date and time when the item is returned to

storage. The items checked out of storage shall remain in the custody and control of the person checking out the items at all times and the person checking out the items shall personally return such items. Each person who utilizes equipment for educational or training purposes must be adequately trained in the use of the equipment prior to the release of the equipment into such person's custody.

3. The GEMS server shall not be moved or relocated for educational or training purposes. Should it become necessary to relocate the GEMS server or any of its components from one facility to another, the election superintendent shall notify the Secretary of State in writing of the reason for the relocation and the proposed new location. Under no circumstances shall the GEMS server or any of its components be relocated unless and until written authorization for the relocation is received from the Secretary of State except in the event of an emergency situation beyond the control of the election superintendent.

4. The poll manager shall sign a receipt for all supervisor cards, encoders, voter access cards, memory cards, and DRE unit keys assigned to such poll manager's precinct. Upon returning election supplies to the election superintendent's office following the close of the polls, the poll manager shall account for all such items and shall certify that all such items have been returned or shall describe any missing items and explain why such items have not been returned. The Secretary of State shall prepare and provide a chain of custody sheet for this purpose.

5. All supervisor cards, encoders, voter access cards, memory cards, DRE unit keys, and other equipment assigned to designated county election technicians shall be accounted for on the night of a primary, election, or runoff and shall be returned to storage. Each technician shall sign a receipt for all such items issued to such technician and, upon returning such items to the election superintendent's office following the close of the polls, the technician shall account for all such items and shall certify that all such items have been returned or shall describe any missing items and explain why such items have not been returned. The Secretary of State shall prepare and provide a chain of custody sheet for this purpose.

6. The election superintendent shall notify the Secretary of State of

any instances of unaccounted for DRE units, optical scanner devices, voter access cards, supervisor cards, memory cards, DRE unit keys, voting system software, and encoders at the completion of certification by delivering such notification to the Secretary of State when the certified election results are delivered to the Secretary of State.

(3) Preparation for Elections.

(a) Ballots.

1. The election superintendent shall cause the memory cards (PCMCIA cards) to be used in each precinct to be prepared in accordance with law and applicable rules and regulations.

2. Each memory card (PCMCIA card) shall be appropriately labeled with the name of the precinct for which it is programmed for use. The election superintendent shall ensure that each memory card (PCMCIA card) shall be programmed and tested to ensure that the proper ballot style or styles for the precinct for which it is programmed are included on the card and no other ballot styles.

3. Each ballot and ballot style shall be proofread by the election superintendent or a person or persons under the direction of the superintendent to ensure that the ballot contains the proper offices, candidates, and questions to be submitted to the voters, that the offices and names are spelled and designated correctly, that political party or body affiliations and incumbency of candidates are correctly designated where applicable, and that the questions are presented in accordance with law and this rule and that the correct offices and questions are presented on each ballot style.

4. For each office on the ballot, the ballot shall state the name of the office; the post, position, or person presently holding the office if necessary to identify the specific office subject to election; the number of candidates for which the voter may vote for such office; the names of the candidates; the residence address of the candidates if there has been a determination that the names are sufficiently similar to so require such information under O.C.G.A. § 21-2-379.5; in partisan elections, the name of the political party or body that nominated the candidate or a designation of the candidate as an independent candidate; and the designation of the incumbency of a candidate seeking reelection to the office which the candidate then holds.

5. The offices, candidates, and questions shall be listed on the ballot in the order specified in O.C.G.A. §§ 21-2-379.4 and 21-2- 379.5.

6. The ballot shall be displayed in the following fonts:

(i) The words “Official Ballot” shall be displayed in 16 point Arial Bold.

(ii) All text beneath the words “Official Ballot” which designate the county or municipality conducting the election, precinct, type of election, and date of the election shall be displayed in 12 point Arial Bold.

(iii) The words “I understand that the offer or acceptance of money or any other object of value to vote for any particular candidate, list of candidates, issue, or list of issues included in this election constitutes an act of voter fraud and is a felony under Georgia law.” shall be displayed in 8 point Arial Narrow Italicized.

(iv) The name of the office shall be displayed in 12 point Arial Bold.

(v) Information on the designation of the office (“To succeed \_\_\_\_\_”) and the number of candidates for which an elector may vote for each office shall be displayed in 10 point Arial.

(vi) The names of candidates shall be displayed in 10 point Arial Narrow Bold in all capital letters.

(vii) Incumbency designations shall be displayed in 8 point Arial Narrow Bold.

(viii) Political party or body and independent designations shall be displayed in 9 point Arial Narrow.

(ix) The text of questions to be submitted to the electors shall be displayed in 10 point Arial Narrow Bold.

(x) The choices for voting on a question (i.e., “YES” and “NO”) shall be displayed in 10 point Arial Narrow Bold.

7. The ballot shall be displayed in the following colors:

(i) All text, designations, and names shall be displayed in black letters.

(ii) The background colors shall be as follows:

(I) The overall page shall be blue (Hue: 180, Sat: 240, Lum: 60, Red: 64, Green: 0, Blue: 128).

(II) The general election header shall be yellow (Hue: 40, Sat: 240, Lum: 120, Red: 255, Green: 255, Blue: 0).

(III) The Democratic Party Primary header shall be white (Hue: 160, Sat: 0, Lum: 240, Red: 255, Green: 255, Blue: 255).

(IV) The Republican Party Primary header shall be light blue (Hue: 120, Sat: 240, Lum: 120, Red: 0, Green: 255, Blue: 255).

(V) The nonpartisan election header shall be light green (Hue: 60, Sat: 240, Lum: 120, Red: 128, Green: 255, Blue: 0).

(VI) The box containing the contest or question to be voted upon shall be burnt orange (Hue: 20, Sat: 240, Lum: 120, Red: 255, Green: 128, Blue: 0).

(VII) The box containing the names of the candidates or the answers or responses to a referendum question for which an elector may vote shall be white (Hue: 160, Sat: 0, Lum: 240, Red: 255, Green: 255, Blue: 255).

8. In addition to the displayed ballot, the election superintendent shall cause an audio ballot to be prepared for use with the VWD devices. The superintendent shall ensure that all matters are recorded correctly and that the names of the candidates are pronounced correctly in the audio recordings. The election superintendent shall also ensure that no candidate's name; political party, political body, or independent designation; incumbency; or other such information nor any referendum question or answer or response thereto is emphasized, stressed, or otherwise inflected in any manner to distinguish a particular candidate, party or body, question, answer or response to a referendum question either negatively or positively or to suggest whether to vote for or against such candidates or questions in such

audio recordings. The election superintendent shall also ensure that the audio recordings are presented at a rate not to exceed 130 words per minute or 2.2 words per second on average and at a volume which shall not be less than 75 decibels nor more than 85 decibels.

(b) Setup and Testing.

1. Primaries and Elections.

(i) On or before the third day preceding a primary or election, including special primaries, special elections, and referendum elections, the election superintendent shall commence the preparation and testing of the DRE units for use on Election Day. On or before the third day preceding the early voting period, the election superintendent shall commence the preparation and testing of the DRE units for use during the early voting period. At least five days prior to the commencement of such preparation and testing, the election superintendent shall publish a notice in the legal organ of the county stating the date, time, and place or places where preparation and testing of the DRE units for use in the primary or election will commence and stating that such preparation shall continue from day to day until such preparation is complete and that such preparation and testing shall be open to the public and that members of the public are entitled to be present during the preparation and testing of the DRE units. The election superintendent shall cause such preparation and testing to begin on such date and time and at such place or places. Such preparation and testing shall be open to members of the public to observe; however, such members of the public shall not in any manner interfere with the preparation and testing of the DRE units. Any person found to be interfering with the preparation and testing process may be asked to leave the testing process and may be cited for interfering with an election official while in performance of election duties. Any questions and/or complaints from the general public regarding the preparation and testing process must be directed to the election superintendent and not to the individual personnel conducting the preparation and testing process. The election superintendent may make such reasonable rules and regulations concerning the conduct of such members of the public observing such preparation and testing as the election superintendent deems necessary and appropriate; provided, however, that such rules and regulations shall not prevent members of the public from fairly observing the preparation and testing of the DRE units.

In addition to any reasonable rules and regulations, that the election superintendent may create for the public to observe the preparation and testing process, the election superintendent or designee thereof, shall:

During the first day of preparation and testing, at the beginning of the day or for the first hour of public observation be available to explain the preparation and testing process and to respond to questions and provide answers regarding the purpose and the process of preparation and testing;

(b) maintain a presence at all times during the preparation and testing process if an outside source is conducting the preparation and testing process;

(c) administer an oath of custodian prior to beginning the preparation and testing process to any county personnel (except permanent state, county, or municipal election staff) appointed by the election superintendent to conduct the preparation and testing process;

(d) establish an area reasonable in proximity for the public to observe the preparation and testing process. Such area shall provide reasonable accommodations for the public insofar as space permits, but shall not be so established as to deny the general public the opportunity to view the process; however the area should not be of such a nature so as to allow the preparation and testing process to be interfered with by the general public;

(e) allow only election office personnel or individuals assigned to conduct the preparation and testing to enter the testing area during the preparation and testing process;

(a) prohibit any preparation and testing reports created for recording the seal numbers and/or serial numbers of the DRE unit from being photocopied for public disclosure;

(g) prohibit the security seals and serial numbers of the DRE units from being photographed or copied for public disclosure;

(h) prohibit photographic and audio equipment, of any kind, including cell phone cameras from being used to record the serial numbers of the DRE units or to record the security seal numbers used

to secure the DRE units, provided that this rule shall not prohibit the news media from reporting on the preparation and testing process, so long as seal numbers and serial numbers on the DRE units are not recorded or displayed in any manner;

(ii) During the public preparation and testing of the DRE units to be used in a particular primary or election, the election superintendent shall cause each DRE unit to be programmed with the memory card (PCMCIA card) for the precinct at which the DRE unit will be used. After placing the memory card (PCMCIA card) in the DRE unit, the DRE unit shall have such internal diagnostic tests performed as shall be directed by the Secretary of State or the election superintendent. Following the completion of the diagnostic tests, the DRE unit shall have an internal logic and accuracy test performed using the memory card (PCMCIA card) for the primary or election for which the unit is being prepared. If the DRE unit fails any of the diagnostic or logic and accuracy tests, the unit shall not be used in a primary or election until such unit is repaired and inspected and found capable of proper functioning and passes the diagnostic and logic and accuracy tests. Upon the successful completion of the logic and accuracy test, the DRE unit shall be cleared of any accumulated vote totals for the primary or election and a zero tape run to verify that the vote registers in the unit are set at zero. After verifying that the vote registers are set at zero, the tape shall be attached to the custodian's certification form to document the logic and accuracy testing and the unit shall be configured for voting. The unit shall then be securely closed in its case and a numbered seal placed on its case such that the case may not be opened until and unless the seal is broken.

(iii) The election superintendent or the custodian responsible for preparing the DRE units, if one has been appointed by the election superintendent in accordance with O.C.G.A. § 21-2-379.6(b), shall make a certification stating for each DRE unit the serial number of the DRE unit, the number on the system counter of the DRE unit, the number on the seal with which the DRE unit is sealed, and that the election counter and each vote register on the unit was set at zero. The case shall be appropriately labeled with the name of the precinct in which the unit is to be used and the serial number of the DRE unit. The custodian's certification shall be retained with the records for such primary runoff or election runoff and shall be stored with such

records with the clerk of superior court or municipal clerk, as appropriate, for the same period of time as required by law for other election records.

(iv) After being prepared for voting, each DRE unit shall be safely and securely stored until such time as the unit is transported to the precinct in which such unit is to be used.

## 2. Primary Runoffs and Election Runoffs.

(i) On or before the third day preceding a primary runoff or election runoff, including special primary runoffs and special election runoffs, the election superintendent shall commence the preparation and testing of the DRE units for use in the primary runoff or election runoff. At least 24 hours prior to the commencement of such preparation and testing, the election superintendent shall publish a notice in the legal organ of the county stating the date, time, and place or places where preparation and testing of the DRE units for use in the runoff will commence and stating that such preparation shall continue from day to day until such preparation is complete and that such preparation and testing shall be open to the public and that members of the public are entitled to be present during the preparation and testing of the DRE units. The election superintendent shall cause such preparation and testing to begin on such date and time and at such place or places. Such preparation and testing shall be open to members of the public to observe; however, such members of the public shall not in any manner interfere with the preparation and testing of the DRE units. Any person found to be interfering with the preparation and testing process may be asked to leave the preparation and testing process and may be cited for interfering with an election official while in performance of election duties. Any questions and/or complaints from the general public regarding the preparation and testing process must be directed to the election superintendent and not to the individual personnel conducting the preparation and testing process. The election superintendent may make such reasonable rules and regulations concerning the conduct of such members of the public observing such preparation and testing as the election superintendent deems necessary and appropriate; provided, however, that such rules and regulations shall not prevent members of the public from fairly observing the preparation and testing of the DRE units.

In addition to any reasonable rules and regulations that the election superintendent may create for the public to observe the preparation and testing process, the election superintendent or designee thereof, shall:

During the first day of preparation and testing, at the beginning of the day or for the first hour of public observation be available to explain the preparation and testing process and to respond to questions and provide answers regarding the purpose and the process of preparation and testing;

(b) maintain a presence at all times during the preparation and testing process if an outside source is conducting the preparation and testing process;

(c) administer an oath of custodian prior to beginning the preparation and testing process to any county personnel (except permanent state, county, or municipal election staff) appointed by the election superintendent to conduct the preparation and testing process;

(d) establish an area reasonable in proximity for the public to observe the preparation and testing process. Such area shall provide reasonable accommodations for the public insofar as space permits, but shall not be so established as to deny the general public the opportunity to view the process; however the area should not be of such a nature so as to allow the preparation and testing process to be interfered with by the general public;

(e) allow only election office personnel or individuals assigned to conduct the preparation and testing to enter the preparation and testing area during the preparation and testing process;

(f) prohibit any preparation and testing reports created for recording the seal numbers and/or serial numbers of the DRE units from being photocopied for public disclosure;

(g) prohibit the security seals and serial numbers from being photographed or copied for public disclosure;

(h) prohibit photographic and audio equipment, of any kind, including cell phone cameras from being used to record the serial

numbers of the DRE units or to record the security seal numbers used to secure the DRE units, provided that this rule shall not prohibit the news media from reporting on the preparation and testing process, so long as seal numbers and serial numbers on the voting units are not recorded or displayed in any manner;

(ii) During the public preparation and testing of the DRE units to be used in a particular primary runoff or election runoff, the election superintendent shall cause each DRE unit to be programmed with the memory card (PCMCIA card) for the precinct at which the DRE unit will be used. After placing the memory card (PCMCIA card) in the DRE unit, the DRE unit shall have such internal diagnostic tests performed as shall be directed by the Secretary of State and the election superintendent. Following the completion of the diagnostic tests, the superintendent shall cause a number of random DRE units as provided by law to undergo an internal logic and accuracy test using the memory card (PCMCIA card) for the primary runoff or election runoff for which the unit is being prepared. If a DRE unit fails any of the diagnostic or logic and accuracy tests, the unit shall not be used in any primary, election, or runoff until such unit is repaired and inspected and found capable of proper functioning and passes the diagnostic and logic and accuracy tests. Upon the successful completion of the logic and accuracy test, the DRE unit shall be cleared of any accumulated test vote totals for the primary runoff or election runoff and a zero tape run to verify that the vote registers in the unit are set at zero. After verifying that the vote registers are set at zero, the tape shall be attached to the custodian's certification form to document the logic and accuracy testing and the unit shall be configured for voting. The unit shall then be securely closed in its case and a numbered seal placed on its case such that the case may not be opened until and unless the seal is broken. The custodian's certification shall be retained with the records for such primary runoff or election runoff and shall be stored with such records with the clerk of superior court or municipal clerk, as appropriate, for the same period of time as required by law for other election records.

(iii) All memory cards to be used in the runoff shall be tested.

(iv) The election superintendent or the custodian responsible for preparing the DRE units, if one has been appointed by the election superintendent in accordance with O.C.G.A. § 21-2-379.6(b), shall

make a certification stating for each DRE unit the serial number of the DRE unit, the number on the system counter of the DRE unit, the number on the seal with which the DRE unit is sealed, and that the election counter and each vote register on the unit was set at zero. The case shall be appropriately labeled with the name of the precinct in which the unit is to be used and the serial number of the DRE unit.

(v) After being prepared for voting, each sealed DRE unit shall be safely and securely stored until such time as the unit is transported to the precinct in which such unit is to be used.

(c) Transport to Polls.

1. The election superintendent shall take all necessary measures to ensure that the DRE units are safely and securely transported to the polling places.

2. The election superintendent shall cause the DRE units for each precinct to be delivered to the polling place for the precinct at least one hour before the time for the opening of the polls.

3. If the DRE units are stored at a polling place after being configured for voting and sealed, the election superintendent shall ensure that the units are stored in a secure area with appropriate climate control.

4. The election superintendent shall deliver the supervisor's card, a sufficient quantity of voter access cards, and the key to the DRE units to the chief manager not later than one hour before the time set for the opening of the polls and shall obtain a receipt for the cards and key. The supervisor's card shall be sealed in an envelope and shall not be opened until the polls are closed unless all of the ballot encoding devices at the precinct fail and it is necessary to use the supervisor's card to configure a DRE unit to encode the voter access cards at the precinct. In such cases, the use of the supervisor's card before the close of the polls shall be documented in the records for the election at that precinct. In addition, the superintendent shall deliver on the appropriate form a listing containing the serial number of each DRE unit, and the number of the seal placed on each such unit.

(d) Before the Opening of the Polls.

1. The poll officers shall set up the DRE units for voting prior to the opening of the polls. The set up shall be performed in public and the public may view the set up subject to such reasonable rules and regulations as the election superintendent may deem appropriate to protect the security of the DRE units and to prevent interference with the duties of the poll officers.

2. The poll officers shall verify that the seal for each unit is intact and that there is no evidence or indication of any tampering with the seal or the unit. The poll officers shall verify that the number of the seal matches the number of the seal recorded for that unit when such unit was prepared by the election superintendent for the primary, election, or runoff. If a seal number does not match or if there is any evidence or indication of tampering with the seal or unit, the election superintendent shall be immediately notified and such unit shall not be used until such matters are resolved by agreement of the election superintendent and the poll manager.

3. Each DRE unit shall be set up and its power turned on and the privacy screens for the unit erected and its screen lifted into place.

4. The poll manager shall run a zero tape on each DRE unit prior to the opening of the polls. The poll manager, along with the other assistant managers, shall, without removing the tape from the unit, verify that all vote registers shown on the zero tape are set to zero and that there are no votes showing on the unit and shall sign the tape in the space provided. If the zero tape does not show that all vote registers are set to zero and that there are votes on the unit, the election superintendent shall be immediately notified and such unit shall not be used until the unit is cleared and the matter is resolved by agreement of the election superintendent and the poll manager.

5. After verifying and signing the zero tape, the poll manager shall securely lock the tape compartment leaving the zero tape in place on the unit and shall configure the unit for voting. The poll manager shall verify that the election counter on each DRE unit is set at zero. If the election counter is not set to zero, the election superintendent shall be immediately notified and such unit shall not be used until the election counter is set to zero and the matter is

resolved by agreement of the election superintendent and the poll manager.

6. The poll officers shall verify that there is no unauthorized matter affixed to the DRE units or present in the cases or voting booths.

7. The poll officers shall affix a card of instructions for voting within each voting booth and shall place at least two printed sample ballots and at least two voting instructions posters approved or provided by the Secretary of State outside the enclosed space at the polling place for the information of the voters. Prior to voters entering the enclosed space, the poll officers may also distribute to such voters a card of instructions for voting on the DRE unit that has been approved or provided by the Secretary of State.

#### (4) Conducting Elections.

(a) As each voter presents himself or herself at the polling place for the purpose of voting during the time during which the polls are open for voting, each voter shall be offered instruction by a poll officer in the method of voting on the DRE units. In providing such instruction, the poll officers shall not in any manner request, suggest, or seek to persuade or induce any voter to vote any particular ticket or for any particular candidate or for or against any particular question.

(b) When a person presents himself or herself at the polling place for the purpose of voting during the time during which the polls are open for voting, the person shall complete a voter's certificate and submit it to the poll officers. The poll officers shall then verify the identity of the person and that the person is a registered voter of the precinct and, if so, shall approve the voter's certificate and enter an appropriate designation on the electors list for the precinct reflecting that the voter has voted in the primary, election, or runoff being conducted. The voter's name shall then be entered on the appropriate numbered list of voters. The poll manager or the poll officer who has been designated by the poll manager to issue voter access cards shall then use the ballot encoder device to encode and issue the voter an appropriate voter access card authorizing the voter to vote the correct ballot style in the DRE units at the polling place. Upon a DRE unit being available, the voter shall then enter the enclosed space in the

polling place and insert the voter access card into an available DRE unit and proceed to vote his or her choices. Upon completion of voting, the voter shall press the “cast ballot” button, remove the voter access card from the DRE unit, and return the card to a poll officer.

Then the voter shall exit the enclosed area of the polling place.

(c) At least once each hour during the time while the polls are open, the poll officers shall examine the face of each DRE unit and each voting booth to verify and ensure that no unauthorized matter has been affixed to the unit or placed in the voting booth and that the unit has not been tampered with in any manner.

(d) The polling place shall be so arranged in such a manner as to ensure the privacy of the elector while voting on a DRE unit, to allow monitoring of each DRE unit by the poll officers while the polls are open, and to permit the public to observe the voting without affecting the privacy of the electors as they vote. In addition, at least one DRE unit shall be configured for voting by physically disabled voters in wheelchairs and provisions shall be made to ensure the privacy of such electors while voting.

(e) It shall be permissible under O.C.G.A. § 21-2-410 and shall not constitute assistance in voting under O.C.G.A. § 21-2-409 for poll officers to assist a voter in inserting the voter card in the DRE unit and in explaining the operation of the unit to the voter; provided that the poll officer withdraws from the voting booth prior to the voter pressing the “start” button or beginning voting. The poll officers shall not in any manner request, suggest, or seek to persuade or induce any voter to vote any particular ticket or for any particular candidate or for or against any particular question.

(f) Voters utilizing a VWD device to vote on the DRE units without the assistance of any other individual shall not be considered as receiving assistance in voting and shall not be required to complete the forms required for receiving assistance in voting pursuant to O.C.G.A. § 21-2-409.

(g) The poll officers shall ensure that voters return the voter access cards to the poll officials prior to leaving the enclosed space in the polling place. The poll officers shall arrange and configure the polling

place and provide staffing at such places at the polling place to ensure that a voter will not leave the polling place with a voter access card.

(h) If a voter leaves a DRE unit prior to completing the process of voting and exits the polling place and does not return to the unit to complete the voting process, the poll officers shall cancel or void the vote on the DRE unit without attempting in any manner to see how the voter voted and shall make a notation of the incident in the election records for the precinct.

(i) A voter may request information from the poll officers concerning how to vote on the DRE unit at any time during the voting process; provided, however, that the poll officers shall not observe or view the voter's ballot on the DRE unit or make any attempt to see how the voter has voted. However, once the voter casts his or her ballot, even if the ballot is blank with no votes cast, such voter shall be deemed to have voted and may not thereafter vote again in the same primary, election, or runoff on that election day.

(j) If a voter discovers that the ballot presented on the DRE unit is not correct or is not the ballot that the voter desired to vote, the voter shall immediately notify a poll officer. The poll officer shall cancel or void the ballot on the DRE unit without attempting in any manner to see how the voter has voted and shall then take the necessary steps to provide the voter with the correct ballot by encoding and issuing a new voter access card to the voter and making any necessary corrections to the voter's certificate of the voter, the electors list, and the numbered list of voters. If the voter presses the "cast ballot" button prior to notifying the poll officials of the error in the ballot, the voter shall be deemed to have voted and shall not be permitted to cast another ballot in the same primary, election, or runoff on that election day.

(k) If a DRE unit malfunctions during the day of a primary, election, or runoff, the poll manager shall immediately notify the election superintendent and shall not allow any voter to use the unit until and unless the malfunction is corrected. The election superintendent shall immediately arrange for the repair of the DRE unit or shall provide a replacement DRE unit as soon as practicable to replace the malfunctioning unit. A replacement DRE unit shall not be used as a replacement unit unless it has been appropriately tested prior to its use.

(5) Tabulating Results.

(a) After the Polls Close.

1. Immediately after the polls close and the last voter has voted, the poll manager shall open the envelope containing the supervisor's card and use the supervisor's card to close each of the DRE units in the precinct against further voting.

2. The poll officers shall then compare the total number of persons voting as shown by the number of voters certificates, the number of persons marked on the electors list, the number of voters on the numbered list of voters, and the number of persons shown as voting on the election counters of the DRE units. If these numbers do not equal one another, the poll officers shall determine the reason for the inconsistency; correct the inconsistency, if possible; and fully document the inconsistency or problem along with any corrective measures taken before going further.

3. After completing the comparison of the total number of persons voting as shown by the electors list, the voter's certificates, the numbered list of voters, and the election counters of the DRE units, the poll manager shall cause each DRE unit to print a minimum of two tapes showing the vote totals as cast on that DRE unit. The poll manager and at least one assistant manager shall also compare the number of ballots voted as shown on the tape with the number of ballots voted as shown on the election counter of the DRE unit. If these numbers are not identical, the poll manager shall document the discrepancy. The poll manager and the assistant managers shall sign each of the tapes or shall write on the tapes the reason why the poll manager or the assistant managers will not sign the tapes.

4. If directed by the election superintendent, the poll manager shall designate one of the DRE units as the accumulator unit to accumulate the votes for the precinct. After printing all of the tapes for the individual DRE units, the poll manager shall accumulate the totals for the accumulator DRE unit and remove the memory card (PCMCIA card) from the accumulator DRE unit. The poll manager shall then collect and retain the two signed tapes (one of which shall include the zero tape) with the memory card (PCMCIA card) from each

DRE unit and shall place the memory card (PCMCIA card) in the appropriate envelope provided by the election superintendent. The poll manager shall then begin removing the memory cards (PCMCIA cards) from the remaining DRE units one by one and inserting the memory cards (PCMCIA cards) into the accumulator DRE unit and accumulating the vote totals from the other DRE units into the accumulator DRE unit. Upon the vote totals for each memory card (PCMCIA card) being entered into the accumulator DRE unit, the memory card (PCMCIA card) shall be removed from the accumulator DRE unit and two signed tapes (one of which shall contain the zero tape) shall be collected and retained with the card. Each memory card (PCMCIA card) shall then be placed into the appropriate envelope provided by the election superintendent. After the results from the last memory card (PCMCIA card) are entered into the accumulator DRE unit and the last memory card (PCMCIA card) has been placed in the envelope, the envelope containing the memory cards (PCMCIA cards) and tapes shall be sealed and secured by the poll manager and at least one assistant manager in an envelope container provided by the election superintendent which shall be sealed and initialed by the poll manager and the two assistant managers such that the envelope cannot be opened without breaking such seal.

5. After all of the results have been entered into the accumulator DRE unit, the poll manager shall cause a minimum of three tapes to be printed out by the DRE unit showing the total votes cast for the precinct. The poll manager and the assistant managers shall sign each of the tapes or shall write on the tapes the reason why the poll manager or the assistant managers will not sign the tapes. One tape shall be posted on the door of the polling place for the information of the public along with a copy of the provisional ballot recap sheet for the precinct. The other tapes shall be placed into the envelope provided by the election superintendent for that purpose and sealed and initialed by the poll manager and at least one assistant manager.

6. If the election superintendent does not direct that the results of the precinct be accumulated, then the poll manager shall cause each DRE unit to print an additional results tape which shall be verified and signed in the same manner as provided in paragraph 3 of this subparagraph. Such additional results tape for each DRE unit shall be posted on the door of the polling place for the information of the public along with a copy of the provisional ballot recap sheet for the

precinct. The memory card (PCMCIA card) and two signed tapes from each DRE unit shall be placed in the appropriate envelope supplied by the election superintendent which shall be sealed and initialed by the poll manager and at least one assistant manager such that the envelope cannot be opened without breaking such seal.

7. After completing the printing of the results, the DRE units shall be turned off and secured in their cases and resealed. The number of each seal shall be entered on the appropriate form along with the serial number of the DRE unit case in which it is inserted. The DRE units shall then be placed in a secure area with appropriate climate control.

8. The memory cards (PCMCIA cards), results tapes, voter access cards, supervisor's card, ballot encoder devices, electors lists, numbered lists of voters, voter certificates, recap sheets, and other such paperwork shall be transported to the office of the election superintendent by the poll manager and at least one other poll officer. The election superintendent or his or her designee shall receive the materials and shall issue a receipt to the poll manager for the materials.

(b) Electronic Transmission of Precinct Results to Central Office.

1. After accumulating all of the vote totals for the precinct, if directed to do so by the election superintendent, the poll manager shall connect the accumulator DRE unit to an analog telephone line and electronically transmit the accumulated vote totals for the precinct to the central office. The DRE unit shall not be connected to a telephone line during the time while the polls are open.

2. Vote totals reported electronically from the precinct to the central office shall be unofficial and shall not be used in preparing the official returns for the primary, election, or runoff.

(c) Consolidation of Results.

1. All persons involved with the tabulation and consolidation of the election results and who will operate the computer programs or handle the memory cards (PCMCIA cards) shall be sworn before entering into their duties.

2. No persons except those persons who are employed by the election superintendent and who have been duly sworn shall perform any duties in connection with the tabulation or consolidation of election results. No persons who are not employed by the election superintendent and have been duly sworn shall touch or be in contact with any container, returns, tapes, device, memory card (PCMCIA card), or any other such election materials. Only persons who are employed by the election superintendent and have been duly sworn shall be in the immediate area of the tabulating center designated by the superintendent for the officers to conduct the tabulation and consolidation of the election results.

3. The tabulation and consolidation shall be performed in public. However, the election superintendent may make reasonable rules and regulations for conduct at the tabulating center to ensure the security of the results and the returns and to avoid interference with the tabulating center personnel.

4. Upon the delivery of the memory cards (PCMCIA cards) from each precinct, the election superintendent or his or her designee shall provide a receipt to the poll manager for the memory cards (PCMCIA cards) and precinct election materials.

5. Upon receiving the memory cards (PCMCIA cards), the election superintendent shall verify the signatures on the sealed envelopes and verify that the seals are intact, that the envelopes have not been opened, and that there is no evidence of tampering with the envelopes or their contents.

6. In the case of elections for county, state, and federal office, after verifying that the envelopes are properly sealed and have not been opened or tampered with, the election superintendent shall break the seal and open each envelope and remove the memory card (PCMCIA card) and results tapes. The election superintendent or his or her designee shall then insert the memory card (PCMCIA card) into the election management system computer and transfer the vote totals from the memory card (PCMCIA card) into the election management system for official tabulation and consolidation.

7. After transferring all of the vote totals from the memory cards (PCMCIA cards) to the election management system and

consolidating such totals with the totals from the absentee ballot system and such votes from any provisional ballots which have been found by the registrars to be authorized pursuant to O.C.G.A. § 21-2-419, the election superintendent shall prepare the official consolidated re-turns for the primary, election, or runoff.

8. The election superintendent shall not list and certify in the official consolidated returns for an election any results for write in candidates who were not properly qualified under O.C.G.A. § 21-2-133.

9. In the case of primaries, elections, and runoffs for county, state, and federal office, the county election superintendent shall transmit to the Secretary of State the election returns by precinct for the county in electronic format or by electronic means, as may be specified by the Secretary of State, within seven days following a primary, election, or runoff.

(d) Electronic Transmission of Precinct Results to Central Office. The election superintendent shall transmit to the Secretary of State unofficial election results for all races for state offices in any primary, election, or runoff as soon as possible after the closing of the polls, for such primary, election, or runoff. Such results shall be transmitted in a format prescribed by the Secretary of State. At a minimum, the results shall be transmitted upon one third of the precincts reporting results, upon two thirds of the precincts reporting results, and upon all precincts reporting results, including absentee ballots within all precincts. Except upon notice to and consultation with the Secretary of State, no election superintendent shall conclude the tabulation of votes on election night in any primary, election, or runoff in which there are contested races for federal and state offices until and unless all such unofficial results, including absentee ballots, have been transmitted to the Secretary of State.

#### (6) Storage of Returns.

(a) After tabulating and consolidating the results, the election superintendent shall prepare a CD-ROM which shall contain a copy of the information contained on each memory card (PCMCIA card) which shall include all ballot images as well as vote totals and a copy of the consolidated returns from the election management system.

(b) The CD-ROM shall be placed in a sealed envelope and shall become a part of the election materials which shall be deposited with the clerk of superior court or the municipal clerk, as appropriate, in accordance with O.C.G.A. § 21-2-500. In addition, the signed results tape from each DRE unit containing the signed zero tape shall also be deposited with the clerk of superior court.

(c) The memory cards (PCMCIA cards) shall be sealed in an appropriate container and securely maintained by the election superintendent until the period for requesting a recount of the primary, election, or run off results has expired. The election superintendent and at least one other sworn individual in the tabulating center shall seal the container and sign the seal such that the container cannot be opened without destroying or damaging the seal. Upon the expiration of the period for requesting a recount, the election superintendent may use the memory cards (PCMCIA cards) for programming DRE units for the next primary, election, or runoff.

(d) The election results, ballot styles, ballot images, and other information for each election stored in the internal memory storage of each DRE unit shall be maintained for a minimum of one month following each election after which time the results may be erased provided that there are no election contests pending concerning such election.

#### (7) Recounts and Recanvass.

(a) The election superintendent shall, either of his or her own motion, or upon petition of any candidate or political party or three electors of the county or municipality, as may be the case, order a recanvass of all the memory cards (PCMCIA cards) for a particular precinct or precincts for one or more offices in which it shall appear that a discrepancy or error, although not apparent on the face of the returns, has been made. Such recanvass may be held at any time prior to the certification of the consolidated returns by the election superintendent and shall be conducted under the direction of the election superintendent. Before making such recanvass, the election superintendent shall give notice in writing to each candidate and to the county chairperson of each party or body affected by the recanvass. Each such candidate may be present in person or by representative and each such political party or body may send two

representatives to be present at such recanvass. If upon such recanvass, it shall appear that the original vote count was incorrect, such returns and all papers being prepared by the election superintendent shall be corrected accordingly.

(b) The election superintendent shall conduct the recanvass by breaking the seal, if the ballots cards have been sealed, on the container containing the memory cards (PCMCIA cards) and removing those memory cards (PCMCIA cards) for the precinct or precincts for which the recanvass is being conducted. The election superintendent shall then cause the vote totals on each of the memory cards (PCMCIA cards) to be transferred to either an accumulator DRE unit or to the election management system computer. After all of the vote totals from the memory cards (PCMCIA cards) for the precinct or precincts for which the recanvass is being conducted have been entered, the election superintendent shall cause a printout to be made of the results and shall compare the results to the results previously obtained. If an error is found, the election superintendent shall correct the error in the returns accordingly.

(c) Recounts pursuant to O.C.G.A. § 21-2-495(c) shall be conducted in the same manner as other recounts under these rules.

#### (8) Maintenance of Equipment.

(a) Each county shall be responsible for maintaining the DRE units, computers, and software provided to such county by the Secretary of State or purchased by such county and shall either purchase a maintenance agreement for such equipment and software or shall self insure such equipment and software.

(b) In the event of any malfunction or problem with DRE units, the county election superintendent shall document the problem and its resolution and shall provide such information to the Secretary of State. The documentation shall include a detailed description of the malfunction or problem, the steps taken to correct the malfunction or problem, and the cause of such malfunction or problem if a cause can be determined.

(9) Use of Equipment by Municipalities. The county election superintendent is authorized to permit any municipality within the county to conduct its election with the DRE equipment through a written intergovernmental agreement between the county and the municipality; provided that the municipality agrees to maintain and operate the equipment in accordance with law, these rules and regulations, and the manufacturer's guidelines and specifications and provided further that the municipality trains all of its election personnel and poll workers in the proper operation and conduct of elections utilizing such equipment through a training program conducted by or approved by the Secretary of State.

(10) Sample Ballots. DRE units that are used for demonstration and education purposes shall not utilize or be programmed with the official ballot to be used in the primary or election for demonstrational or educational purposes. The units shall utilize or be programmed with a ballot containing the names of fictitious or historical persons whose names do not appear on the official ballot for such primary or election.

### **183-1-12-.06 Provisional Ballots.**

(1) This rule shall govern the casting of provisional ballots by voters at primaries and elections in accordance with O.C.G.A. §§21-2-418 and 21-2-419.

(2) In each polling place, there shall be established a location or station in the public area of the polling place for the purpose of issuing and receiving provisional ballots.

(3) The election superintendent shall provide each polling place with an adequate supply of provisional ballots in each ballot style (district combination) for the precinct and an inner ballot envelope and an outer ballot envelope. The ballot envelopes shall be so designed that the ballot will fit within the inner ballot envelope and the inner ballot envelope will fit within the outer ballot envelope. The inner ballot envelope shall have printed on it the words "Official Provisional Ballot" and nothing else. The outer envelope shall have places for inserting the person's name, precinct, date and name of election, ballot style (district combination), and whether such ballot is a regular provisional ballot, a provisional ballot cast by a voter who registered to vote for the first time in this state by mail and has not provided the identification required by O.C.G.A. §§21-2-220 and 21-2-417, or a ballot cast during poll hours extended by a court order, or a combination thereof. Primaries and elections conducted by counties shall use optical scan ballots for provisional voting. Optical scan absentee ballots shall be acceptable for use as provisional ballots. Municipalities shall use the same type of ballots as the municipality uses for mail-in absentee voting. The election superintendent shall also provide a booth for voting provisional ballots in the enclosed space which will provide privacy for a person while voting a provisional ballot and a secure container in which the voted provisional ballots shall be placed.

(4) Voters whose names do not appear on electors list.

(a) When a person arrives at a polling place, completes a voter's certificate, and presents it to the poll workers but the person's name does not appear on the official electors list for the precinct, the poll officers shall immediately direct the person to the provisional ballot station. At the provisional ballot station, if a master list of registered electors is available, the poll workers shall check the list to determine if the person is registered at a different precinct. If the person's name appears on the master list for a different precinct, the poll workers shall direct the person to the correct precinct.

(b) If the person's name is not found on the official list of electors for the precinct or the master list, if available, the poll officers shall immediately contact the registrars and the person shall provide such information as the registrars may request to determine if the person is eligible to vote in the election. The registrars shall promptly review the information provided by the person and shall attempt to determine if the person timely and properly registered to vote.

(c) If the registrars can immediately determine that the person timely and validly registered to vote in the primary or election and should be assigned to the precinct at which the person is present, the registrars shall authorize the poll officers to add the person's name to the official electors list for the precinct and shall permit the person to vote in the same manner as other voters in the pre-cinct vote. When there are multiple ballot styles (district combinations) in use in the precinct, the registrars shall also advise the poll officers which ballot style (district combination) should be issued to the person. The person's name shall then be added to the official electors list for the precinct with a notation of the name of the registrar who authorized such addition. Upon presentation of a properly completed voter's certificate and the identification required by O.C.G.A. §21-2-417, the person shall be permitted to vote in the same manner as other voters in the precinct.

(d) If the registrars can immediately determine that the person timely and validly registered to vote in the primary or election but should be assigned to a different precinct from the one at which the person is present, the registrars shall direct the poll officers to send the person to the appropriate other precinct and the registrars shall

notify the officers of such other precinct to add the person's name to the official electors list for such other precinct. When there are multiple ballot styles (district combinations) in use in such other precinct, the registrars shall also advise the poll officers at such other precinct which ballot style (district combination) should be issued to the person. The person's name shall then be added to the official electors list for the other precinct by the poll officers of the other precinct with a notation of the name of the registrar who authorized such addition. Upon the completion of a voter's certificate and the submission of the identification required by O.C.G.A. § 21-2-417, the person shall be permitted to vote in the same manner as other persons in such other precinct. However, if, in the reasonable exercise of discretion by the registrars or the poll workers, there is insufficient time for such person to go to such other precinct before the polls close, the poll workers may allow such person to vote a provisional ballot at the precinct in which the person is present. In such case, all votes cast by such person for candidates for whom such person is properly entitled to vote shall be counted and all votes cast for candidates for whom such person is not properly entitled to vote shall be void and shall not be counted in accordance with O.C.G.A. §21-2-419(c).

(e) If the registrars cannot immediately determine that the person timely and validly registered to vote in the primary or election; but, from the information presented by the person, the person, if properly registered, would be assigned to the precinct at which the person is present, the registrars shall authorize the poll officers to permit the person to cast a provisional ballot at such precinct. When there are multiple ballot styles (district combinations) in use in the precinct, the registrars shall also advise the poll officers which ballot style (district combination) should be issued to the person.

(f) If the registrars cannot immediately determine that the person timely and validly registered to vote in the primary or election; but, from the information presented by the person, the person, if registered, would be assigned to a different precinct from the precinct in the county or municipality at which the person is present, the registrars shall direct the poll officers to send the person to the appropriate precinct. The registrars shall notify the officers of such other precinct to permit the person to vote a provisional ballot when such person arrives at such precinct, completes an official voter

registra-tion form and a provisional ballot voter's certificate, and submits the appropriate identification required by O.C.G.A. §21-2-417. When there are multiple ballot styles (district combinations) in use in such other precinct, the registrars shall also advise the poll officers which ballot style (district combination) should be issued to the person. However, if, in the reasonable exercise of discretion by the registrars or the poll workers, there is insufficient time for such person to go to such other precinct before the polls close, the poll workers may allow such person to vote a provisional ballot at the precinct at which such person is present. In such case, all votes cast by such person for candidates for whom such person is properly entitled to vote shall be counted and all votes cast for candidates for whom such person is not properly entitled to vote shall be void and shall not be counted in accordance with O.C.G.A. §21-2-419(c).

(g) If the person appears at a precinct in a county or municipality in which the person does not reside, the registrars shall instruct the poll officers to direct the person to contact the registrars in the county in which the person resides to determine in which precinct such person should vote.

(h) If the poll officers cannot get in touch with the registrars after making a reasonable effort to do so, the poll officers shall be authorized to permit the person to vote a provisional ballot at the precinct without additional authorization from the registrars. In such case, all votes cast by such person for candidates for whom such person is properly entitled to vote shall be counted and all votes cast for candidates for whom such person is not properly entitled to vote shall be void and shall not be counted in accordance with O.C.G.A. § 21-2-419(c).

(i) Upon receiving authorization to vote a provisional ballot, the person shall complete a provisional ballot voter's certificate and an official voter registration form and submit such completed certificate and form to the poll officers along with the appropriate identification required by O.C.G.A. § 21-2-417. The poll officers shall place the name of the person on the numbered list of provisional ballot voters and issue the person a provisional ballot of the style authorized by the registrars along with an inner ballot envelope and an outer ballot envelope. Before issuing the outer ballot envelope to the person, the poll officers shall enter the person's name, the name of the precinct,

the date and name of the election, and the ballot style (district combination) on the outer envelope. The person shall then re-tire to the provisional ballot voting booth and vote the ballot. Upon completing the ballot, the person shall seal the ballot in the inner ballot envelope and place the inner ballot envelope containing the ballot into the outer ballot envelope and shall seal the outer ballot envelope. The person shall then return the sealed envelope to the poll officers.

(j) Upon receiving the sealed ballot envelope from a person casting a provisional ballot, the poll officers shall verify that the information requested on the outer ballot envelope is complete, shall mark the appropriate box or boxes to designate the type of provisional ballot enclosed therein, and shall direct the person to place the ballot envelope into the secure container for provisional ballots which shall be located within the enclosed space in the polling place where it can be monitored by the poll officers and observed by the public. The provisional ballot voter's certificate and voter registration form shall be attached together and shall be placed in a separate, distinctively marked envelope which shall be placed in a secure location in the polling place.

(5) Voter who registered for first time by mail but did not provide required identification.

(a) When a person arrives at a polling place, completes a voter's certificate, and presents it to the poll workers but does not have the identification required by O.C.G.A. §21-2-417 and the person's name appears on the official electors list for the precinct with a designation that the person registered to vote for the first time in this state by mail but has not provided the required identification to the registrars as required by O.C.G.A. §21-2-220, the poll officers shall immediately direct the person to the provisional ballot station. At the provisional ballot station, the person shall be permitted to cast a provisional ballot at such precinct. When there are multiple ballot styles (district combinations) in use in the precinct, the poll officers shall issue the appropriate ballot style (district combination) to the person as shown on the electors list. The poll officers shall place the name of the person on the numbered list of provisional ballot voters and issue the person a provisional ballot of the style authorized by the registrars along with an inner ballot envelope and an outer ballot

envelope. Before issuing the outer ballot envelope to the person, the poll officers shall enter the person's name, the name of the precinct, the date and name of the election, and the ballot style (district combination) on the outer envelope. The person shall then retire to the provisional ballot, voting booth and vote the ballot. Upon completing the ballot, the person shall seal the ballot in the inner ballot envelope and place the inner ballot envelope containing the ballot into the outer ballot envelope and shall seal the outer ballot envelope. The person shall then return the sealed envelope to the poll officers.

(b) Upon receiving the sealed ballot envelope from a person casting a provisional ballot, the poll officers shall verify that the information requested on the outer ballot envelope is complete, shall mark the appropriate box or boxes to designate the type of provisional ballot enclosed therein, and shall direct the person to place the ballot envelope into the secure container for provisional ballots which shall be located within the enclosed space in the polling place where it can be monitored by the poll officers and observed by the public.

(c) The provisional ballot shall not be counted unless the voter provides the identification required by O.C.G.A. §§ 21-2-220 and 21-2-417 to the registrars before the end of the period set by law for the verification of provisional ballots. Such identification may be provided to the registrars in person or by facsimile transmission or, in the case of disabled voters, by delivery by a third party.

(6) Voters voting during extended polling hours in an election in which federal candidates are on the ballot.

(a) In the event that the polling hours for a polling place are extended by a court order beyond the normal closing time for a primary, election, or runoff in which federal candidates are on the ballot, all voters who vote after the normal closing time for the polling place shall vote by provisional ballot.

(b) Voters whose names appear on the electors list and who have the appropriate identification required by O.C.G.A. § 21-2-417 shall complete a provisional voter's certificate and shall be issued a provisional ballot along with an inner ballot envelope and an outer ballot envelope. Such voters shall not be required to complete a voter

re-gistration form. It also shall not be necessary to obtain approval from the registrars to issue provisional ballots to such voters. The poll officers shall place the name of the person on the numbered list of provisional ballot voters. Before issuing the outer ballot envelope to the person, the poll officers shall enter the person's name, the name of the precinct, the date and name of the election, and the ballot style (district combination) on the outer envelope. The person shall then retire to a provisional ballot voting booth and vote the ballot. Upon completing the ballot, the person shall seal the ballot in the inner ballot envelope and place the inner ballot envelope containing the ballot into the outer ballot envelope and shall seal the outer ballot envelope. The person shall then return the sealed envelope to the poll officers. Upon receiving the sealed ballot envelope from a person casting a provisional ballot, the poll officers shall ver-ify that the information requested on the outer ballot envelope is complete, shall mark the appropriate box to designate that the bal-lot is an extended poll hours provisional ballot, and shall direct the person to place the ballot envelope into the secure container for pro-visional ballots which shall be located within the enclosed space in the polling place where it can be monitored by the poll officers and observed by the public.

(c) If the voter's name is not on the electors list, the poll workers shall follow the provisions of this rule for regular provisional balloting under this rule and, if the voter is authorized by the registrars to vote a provisional ballot under the terms of this rule, shall also mark the appropriate box on the outer ballot envelope to indicate that the ballot was issued during extended poll hours.

(d) If the voter's name is on the electors list but registered to vote for the first time in this state by mail and has not provided the identification required by O.C.G.A. § 21-2-220, the poll officers shall permit the voter to vote in accordance with the provisions of this rule for first time voters who register for the first time in this state by mail without providing the required identification, and shall also mark the appropriate box on the outer ballot envelope to indicate that the ballot was issued during extended poll hours.

(e) The poll officers shall provide each first time voter who registered for the first time in this state by mail without providing the required identification who casts a provisional ballot information on

how the voter may provide the registrars with the appropriate identification in order that the voter's ballot may be counted.

(7) Each voter casting a provisional ballot in a primary, election, or runoff in which federal candidates appear on the ballot shall be given written information explaining how such voter can ascertain if such ballot is counted and, if such ballot is not counted, the reason why such ballot was not counted.

(8) The provisional ballot voter's certificates and voter registration cards may be picked up during the day by a registrar or deputy registrar for the purpose of beginning the process of determining the eligibility of the persons to cast provisional ballots. Before transferring the voter's certificates and registration cards to the registrars during the day, the poll officers shall note the number of certificates and cards being transferred to the registrars. If such voter's certificates and registration cards are not picked up by the registrars by the time that the polls close and the last voter has voted, the envelope in which the provisional ballot voter's certificates and voter registration cards have been deposited shall be securely sealed and shall be returned to the election superintendent with the other materials from the polling place.

(9) After the close of the polls and the last voter has voted, the poll officers shall account for all voted provisional ballots, cancelled and spoiled provisional ballots, and unused provisional ballots. The ballot stubs and unused and spoiled ballots shall then be securely sealed in the container provided for them by the election superintendent. The poll officers shall then proceed to open the secure container in which the provisional ballots were deposited and count the number of voted provisional ballots contained therein. The poll officers shall then compare the total number of persons voting provisional ballots as shown on the numbered list of provisional ballot voters with the number of ballots issued and the number of ballots voted. If these numbers do not equal one another, the poll officers shall determine the reason for the inconsistency and shall correct the problem before going further. The poll officers shall seal the voted provisional ballots in a container for transfer to the election superintendent. The poll officers shall complete and sign a provisional ballot recap sheet and post one copy of the recap sheet on the door of the polling place with the election results from the precinct. The remaining copies of the

provisional ballot recap sheet along with the numbered list of provisional ballot voters shall be returned to the election superintendent with the other election materials from the precinct.

(10) Upon receiving the election materials from the precincts, the election superintendent shall ensure that the envelope containing the provisional ballot voter's certificates and voter registration cards is promptly removed from the other materials and transferred to the registrars for processing. In any event, the voter's certificates and registration cards shall be transferred to the registrars no later than 9:00 a.m. on the day following the day of the primary, election, or runoff. The election superintendent shall also remove the container containing the voted provisional ballots and shall place such container in a secure location within the election superintendent's office.

(11)(a) Upon receiving the provisional ballot voter's certificates and voter registration cards from the election superintendent, the registrars shall promptly proceed to determine the eligibility of each person that voted a provisional ballot.

(b) If the registrars determine that the person did timely register and is eligible and entitled to vote in such primary, election, or runoff, the registrars shall mark on the numbered list of provisional ballot voters that the ballot is accepted and shall notify the election superintendent of the proper ballot style (district combination) for the voter.

(c) If the registrars determine that the person did not timely register to vote for the primary or election or is not eligible and entitled to vote in such primary or election or if the registrars cannot determine by the close of business on the third business day following the day of the primary, election, or runoff if the voter timely registered and was eligible and entitled to vote in such primary or election, the registrars shall mark on the numbered list of provisional ballot voters that the ballot is rejected.

(d) Not later than the close of business on the third business day following the day of the primary, election, or runoff, the registrars shall return to the election superintendent the numbered list of provisional ballot voters reflecting the accepted and rejected provisional ballots.

(e) The names of those persons whose names are accepted shall be added to the official electors list. The voter registration cards of those persons whose ballots are rejected on the numbered list of provisional ballot voters shall be processed by the registrars and, if found to be eligible and qualified, shall be added to the electors list for future elections.

(f) The registrars shall maintain the provisional ballot voter's certificates for the same period of time and under the same conditions as the regular voter's certificates. Voter registration cards completed by provisional ballot electors shall be maintained for the same period of time and under the same conditions as other voter registration cards.

(12) Upon receiving the numbered list of provisional ballot electors from the registrars, the election superintendent shall prepare to count the accepted provisional ballots. The election superintendent shall first compare the precinct designation and election district information with the Style of ballot (district combination) cast by the provisional ballot voter.

(a) If the ballot style (district combination) voted by the voter was correct, then the election superintendent shall open the outer envelope and place the inner envelope containing the ballot into a ballot box.

(b) If the ballot style (district combination) voted by the voter was not correct, then the election superintendent shall open the outer envelope and note the correct ballot style (district combination) on the inner envelope. Each such inner envelope shall then be placed in a separate container until all of the outer envelopes have been opened. The outer envelopes shall then be stored in a location away from the inner envelopes in a manner such that the inner envelope and ballot of a voter cannot be identified as being the ballot of a particular voter. The superintendent shall then open each such inner envelope and remove the ballot and shall place a unique identifying number on the ballot along with the designation of the precinct in the nonreflective area at the top of the ballot. The election superintendent shall then prepare or cause to be prepared a duplicate ballot. The duplicate ballot shall be clearly labeled with the word "Duplicate" and shall bear the name of the precinct and the same

unique identifying number as the original ballot in the nonreflective area at the top of the ballot. The election superintendent shall transfer or cause to be transferred to the duplicate ballot, in the presence of at least two other consolidation assistants and in public, only the votes cast by the provisional ballot voter in the races and on the questions to which such voter was eligible and en-titled to vote. The votes entered on the duplicate ballot shall be ver-ified by at least one consolidation assistant. The completed duplicate ballot shall be placed in the ballot box with the other provisional ballots to be counted. The original ballot shall be placed into an ap-propriate container and retained.

(c) After opening all of the outer envelopes and making all necessary duplicate ballots, the election superintendent shall then open the inner envelopes of the ballots in the ballot box and proceed to count the votes in the same manner as absentee ballots are counted. Upon completing the count, the election superintendent shall add the provisional ballot votes to the other votes cast at the polls and by absentee ballot and shall consolidate and certify the results of the primary, election, or runoff. The provisional ballots and any duplicates shall be retained for the same time period and in the same manner as absentee ballots.

(d) The rejected provisional ballots shall be marked on the outer envelope as "Not Counted" and shall not be opened. The ballots shall be maintained for the same time period and in the Bame manner as absentee ballots which were returned too late to be counted.

(e) The election superintendent shall notify the registrars of the names of those persons who cast a provisional ballot in the wrong precinct or on an incorrect ballot style (district combination).

(13)(a) Upon identifying the rejected provisional ballot electors, the registrars shall proceed promptly to notify each such person by first-class mail at the address shown on the provisional ballot voter's certificate that his or her ballot was not counted because of the inability of the registrars to verify that the person timely registered to vote or such other proper reason. If the person's voter regis-tration card was approved, the registrars shall also notify the per-son that his or her name will be added to the elector's list and the person will be eligible to vote in future primaries and elections and that a voter

notification or precinct card will be mailed to the person to provide the voter with the correct precinct and election district information.

(b) Upon receiving notification from the election superintendent of the names of persons who cast provisional ballots in the incorrect precinct or on the incorrect ballot style (district combination), the registrars shall notify such persons of their correct precinct and/or election district information. The sending of a voter notification or precinct card by first-class mail to the address shown on the voter registration card completed by such person when voting by provisional ballot shall be sufficient notice for such voters.

(c) If the person's voter registration is rejected, the registrars shall notify the person of such rejection in accordance with O.C.G.A. § 21-2-226(d).

(d) In addition, the registrars shall establish a free access system, such as a toll-free telephone number or an Internet website, by which voters who cast provisional ballots in a primary, election, or runoff in which federal candidates are on the ballot may ascertain whether their ballots were counted or, if the ballots were not counted, the reasons why such ballots were not counted. The registrars shall establish and maintain reasonable procedures necessary to protect the security, confidentiality, and integrity of personal information collected, stored, or otherwise used by such system. Access to information about an individual provisional ballot shall be restricted to the voter who cast such ballot.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Defective Ballot Cards, Duplication and Tabulation" adopted, F. July 24, 1966; eff. Aug. 12, 1968. **Amended:** F. ### **183-1-12-.07 Preparation of the Electors List and Use of ExpressPoll.**

(1) Beginning July 1, 2006, counties shall use ExpressPoll units at precincts within the county during primaries, elections, and runoffs. The ExpressPoll units shall be utilized in lieu of the printed electors list and ballot encoders in each precinct where in use.

(2) The county election superintendent shall maintain each

ExpressPoll unit, and all components in a secure location under the same conditions as provided for DRE units under Rule 183-1-12-.02(2).

(3) Effective January 1, 2006, the registrars of each county shall utilize the absentee ballot subsystem of the statewide voter registration system for absentee balloting and advance voting.

(4) The registrars of each county shall complete the entry of new and updated voter registrations on a timely basis as required by the Secretary of State and shall notify the Secretary of State upon the completion of such data entry after a registration deadline.

(5) Prior to each primary or election as specified by the Secretary of State, the county election superintendent shall provide to the Secretary of State or his or her designee a final copy of the GEMS database for the county.

(6) The county election superintendent and the registrars shall notify the Secretary of State or his or her designee of any changes to the voter registration file for the county or the GEMS database that occur after the process for creating ExpressPoll flash cards begins.

(7) During the period in which DRE units are tested and prepared prior to delivery to the precincts, the election superintendent shall cause each ExpressPoll unit to undergo logic and accuracy testing. Each ExpressPoll unit must pass such logic and accuracy test prior to being assigned to a precinct. The registrars shall verify the information contained on the ExpressPoll units when assigning the units to precincts.

(8) Prior to delivery to the precincts, the registrars shall ensure that all persons who have been issued or cast absentee ballots are marked accordingly on the ExpressPoll units.

(9) Upon the conclusion of each primary, election, or runoff, the poll officers shall return the ExpressPoll units with the other election materials from the precinct to the election superintendent. The registrars and election superintendent shall coordinate the return of the flash cards from the ExpressPoll units to the Secretary of State such that the cards are returned in the same time period as the

official election returns.

(10) For electors whose names are added to the voter registration rolls after the deadline for preparing the flash cards for the ExpressPoll units, the registrars shall provide a printed supplemental list for use at the affected precincts.

Authority 1964 Ga. Election Code, as amended. **History.** Original Rule entitled "Ballots, Paper, Validity of Marking" adopted. F. July 24, 1968; eff. Aug. 12, 1968. **Repealed:** F. Oct. 20, 1975; eff. Nov. 9, 1975.

**183-1-13-.03 Poll Watchers, Notification to Superintendent.**

At least three days prior to the primary or election, a copy of the designating letter issued by the political party, political body, or independent or nonpartisan candidate as specified in O.C.G.A. Section 21-2-408 shall be sent by the appropriate authority to the election superintendent of the county or municipality in which the poll watcher is to serve.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Poll Watchers, Notification to Superintendent" adopted. F. May 26, 1970; eff. June 14, 1970. **Amended:** F. Mar. 6, 1987; eff. **183-1-14-.01 Absentee Ballot Envelope, Use of Symbols.** Registrars shall either by use of color or symbols on the return absentee ballot envelope (the one on which the oath appears) designate under which category an absentee elector applied for his or her ballot. Suggested symbols; D (physically disabled, unable to see or mark the ballot); E (seventy-five years of age or older); MOS (military, overseas); MST (military, stateside); OSP (overseas, permanent resi-dent who may vote for federal offices only); OST (overseas, tempo-rary resident); and AV (person voting absentee in person without providing reason pursuant to O.C.G.A. §21-2-380(b)). To facilitate counting, a symbol designating the absentee elector's precinct, and in the case of a primary or primary runoff, a symbol designating the party in whose primary or primary runoff the elector is voting shall also be noted on the envelope containing the oath. The following symbols shall also be used as appropriate: PR (provisional ballot); IR (person who registered to vote for the first time by mail and has not provided the identification provided by law); and EH (ballot cast during poll hours extended by court order).

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Absentee Voting, Jurat Validity" adopted, F. July 24, 1968; eff. Aug. 12, 1968. **Repealed:** New Rule entitled "Absentee Ballot Envelope, Use of Symbols" adopted, F. June 24, 1974; eff. July 14, 1974. **Amended:** F. Oct. 20, 1975; eff. Mar. 17, 2011; eff. Apr. 6, 2011.

**183-1-14-.02 Use of DRE Units for Absentee Balloting.**

(1) Counties and municipalities are authorized to use DRE units

for in-person absentee balloting in accordance with the Georgia Election Code (O.C.G.A., Ch. 21-2) and these rules. As used in this rule, the term "Registrars" shall include a county board of registrars, a county board of elections and registration, a joint county-municipal board of elections and registration, a municipal absentee ballot clerk, a municipal registrar, and the designee of any board of registrars, board of elections and registration, or joint county-municipal board of elections and registration. The election superintendent and registrars shall by agreement determine the type of election equipment to be used in such election for in-person absentee voting and for absentee voting by mail or other legally appropriate means in which the ballot is sent or delivered to a voter for voting away from the office of the registrars.

(2) DRE units shall be configured and tested in accordance with the provisions of Rule 183-1-12-.02 prior to use in absentee balloting. Public notice of the time and place for such configuration and testing of the DRE units to be used for absentee balloting shall be given in accordance with O.C.G.A. § 21-2-379.6 and Rule 183-1-12-.02 prior to such configuration and testing.

(3) The DRE units to be used for in-person absentee voting shall be set up in a manner to assure the privacy of the elector while casting his or her ballot while maintaining the security of such units against tampering, damage, or other improper conduct. In addition, there shall be at least one DRE unit configured for use by physically disabled electors.

(4) Voter access cards for use in DRE units for in-person absentee balloting may be encoded by use of ballot encoder devices, DRE units specifically and exclusively set up for that purpose, or by use of the VCProgrammer software on appropriate computers.

(5) Each DRE unit to be used for in-person absentee voting shall be programmed so as to permit the challenging of ballots in accordance with law and the removal of such ballots from the count if such challenges are sustained by the registrars.

(6) On the first day of the absentee voting period, prior to any votes being cast on the DRE units, the registrars shall verify that the seal for each DRE unit is intact and that there is no evidence or

indication of any tampering with the seal or the unit. The registrars shall verify that the number of the seal matches the number of the seal recorded for that unit when such unit was prepared by the election superintendent for the primary, election, or runoff. If a seal number does not match or if there is any evidence or indication of tampering with the seal or unit, the Secretary of State and the election superintendent shall be immediately notified and such unit shall not be used until such matters are resolved by agreement of the Secretary of State, the election superintendent, and the registrars. The set up shall be performed in public and the public may view the set up subject to such reasonable rules and regulations as the registrars may deem appropriate to protect the security of the DRE units and to prevent interference with the duties of the registrars, except that the public view shall not be obstructed. The registrars shall run a zero tape on each DRE unit prior to the beginning of absentee voting on such units. The registrars shall, without removing the tape from the unit, verify that all vote registers shown on the zero tape are set to zero and that there are no votes showing on the unit and shall sign the tape in the space provided. If the zero tape does not show that all vote registers are set to zero and that there are votes on the unit, the election superintendent shall be immediately notified and such unit shall not be used until the unit is cleared and the matter is resolved by agreement of the election superintendent and the registrars. After verifying and signing the zero tape, the registrars shall securely lock the tape compartment leaving the zero tape in place on the unit and shall configure the unit for voting. The registrars shall verify that the election counter on each DRE unit is set at zero. If the election counter is not set to zero, the election superintendent shall be immediately notified and such unit shall not be used until the election counter is set to zero and the matter is resolved by agreement of the election superintendent and the registrars. The registrars shall verify that there is no unauthorized matter affixed to the DRE units or present in the cases or voting booths. The registrars shall affix a card of instructions for voting within each voting booth. Prior to voters entering the voting booth, the registrars may also distribute to such voters a card of instructions for voting on the DRE unit that has been approved or provided by the Secretary of State. Each DRE unit shall be clearly marked with a unique designation that is visible on the exterior of the unit.

(7) If a DRE unit is to be used for the creation of voter access cards, such DRE unit shall be set up properly for such purpose and shall be used exclusively for such purpose and no other purpose during the absentee voting period. The set up shall be performed in public and the public may view the set up subject to such reasonable rules and regulations as the registrars may deem appropriate to protect the security of the DRE unit and to prevent interference with the duties of the registrars, except that the public view shall not be obstructed. The registrars shall run a zero tape on the DRE unit prior to creating any voter access cards on such unit. The registrars shall, without removing the tape from the unit, verify that all vote registers shown on the zero tape are set to zero and that there are no votes showing on the unit and shall sign the tape in the space provided. If the zero tape does not show that all vote registers are set to zero and that there are votes on the unit, the election superintendent shall be immediately notified and such unit shall not be used until the unit is cleared and the matter is resolved by agreement of the election superintendent and the registrars. After verifying and signing the zero tape, the registrars shall securely lock the tape compartment leaving the zero tape in place on the unit and shall configure the unit for the creation of voter access cards. The registrars shall verify that the election counter on the unit is set at zero. If the election counter is not set to zero, the election superintendent shall be immediately notified and such unit shall not be used until the election counter is set to zero and the matter is resolved by agreement of the election superintendent and the registrars. The registrars shall make a notation of the election counter reading on the daily recap sheet.

(8) At the close of business each day during the absentee voting period, the registrars shall document the election counter number on the daily recap sheet. Each DRE unit used for in-person absentee voting shall then be turned off and closed. The memory card (PCMCIA card) shall remain in the unit at all times during the absentee balloting period until the polls close on the day of the primary, election, or runoff. Each DRE unit shall then be sealed and the seal number and the time of sealing shall be recorded on the daily recap sheet. Each DRE unit shall then be secured overnight. In addition, all voter access cards shall be securely stored overnight and when not in use. If a DRE unit is used to program voter access cards, the registrars shall make a notation of the election counter number

on the daily recap sheet. If such number is not zero, the registrars shall notify the Secretary of State immediately and shall ascertain the reason for the discrepancy and shall make a notation of such discrepancy and the reason for it on the daily recap sheet. Such DRE unit shall not be used for creation of voter access cards unless and until the unit is fully tested and reconfigured and the election counter reset at zero pursuant to procedures established by the Secretary of State. The DRE unit shall be turned off and secured for the night.

(9) Each morning during the absentee balloting period, the registrars shall publicly verify the seal numbers on each DRE unit to be used for absentee voting with the number of the seal recorded on the daily recap sheet from the previous day of absentee voting and shall verify that the seal and DRE unit do not show any signs of tampering. If the seal number corresponds to the entry on the daily recap sheet and there is no evidence of tampering, the DRE unit shall be opened and turned on. If the numbers do not match or there is evidence of tampering, the Secretary of State shall be notified immediately and the unit shall not be used until such discrepancy is resolved to the satisfaction of the Secretary of State, the election superintendent, and the registrars. After opening and turning on the unit, the registrars shall verify the election counter number with the number recorded on the daily recap sheet from the previous day of absentee voting. If the numbers do not match, the Secretary of State shall be immediately notified and the unit shall not be used until such discrepancy is resolved to the satisfaction of the Secretary of State, the election superintendent, and the registrars. The election counter number shall then be entered onto the daily recap sheet for that day. If a DRE unit is to be used for programming voter access cards, the registrars shall open and turn on the power for such unit. The registrars shall then verify that the election counter is set on zero. If the election counter is not set at zero, the Secretary of State shall be immediately notified and the unit shall not be used until such discrepancy is resolved to the satisfaction of the Secretary of State, the election superintendent, and the registrars. A notation shall be made on the daily recap sheet of the election counter number and the unit shall be configured to create voter access cards.

(10) Voters who vote absentee ballots in person on the DRE units shall first complete an absentee ballot application and sign an oath

document. After the registrars determine that the voter is eligible to vote by absentee ballot, the registrars shall note the voter's registration number and ballot style on the absentee ballot application. The voter shall then be issued a voter access card. The registrars shall record on the absentee voter log the voter's name, registration number, voter ID number, and designation of the DRE unit on which the voter shall vote. The voter shall then be permitted to vote on the designated DRE unit. After completing voting, the voter shall return the voter access card to the registrars.

(11) At the close of business on the day before the primary, election, or runoff at the end of the absentee balloting period, the registrars shall record the election counter number on the daily recap sheet. The registrars shall publicly configure the DRE units used for absentee voting to end the election and prevent further voting on the units. The units shall then be shut down and sealed. The registrars shall record the seal numbers on the daily recap sheet. The units shall then be secured until time for the tabulation of votes. For the DRE unit used for the creation of voter access cards, such unit shall be secured and returned to the election superintendent. Two zero tapes shall be printed and signed by the registrars confirming that all vote counters are set at zero. The memory card (PCMCIA cards) from the units used for the creation of voter access cards shall be removed from the units and placed along with the signed zero tapes in a sealed envelope which shall be returned to the election superintendent.

(12) At the close of the polls on the day of the primary, election, or runoff, the registrars shall deliver all of the DRE units used for inperson absentee voting and all other absentee ballots received in accordance with the provisions of the Georgia Election Code (O.C.G.A. Ch. 21-2) to the manager of the absentee ballot precinct. The poll officers of the absentee ballot precinct shall count all of the absentee ballots in accordance with the procedures required by law and the rules of the State Election Board. The poll officers shall verify the seal number of each DRE unit with the number recorded on the daily recap sheet form and shall inspect each seal and unit to verify that there is no evidence of tampering with the unit. If the seal numbers are not correct or there is evidence of tampering, the Secretary of State shall be notified immediately and no further action shall be taken with regard to such unit until the reason for the

discrepancy has been determined to the satisfaction of the Secretary of State, the election superintendent, and the manager of the absentee ballot precinct. After verifying the seal number and the integrity of the seal on each unit, the poll managers shall open each unit and turn on the power for the unit. The managers shall then compare the numbers shown on the election counters of the unit with the numbered list of absentee electors, the absentee voter log, and the absentee ballot precinct recap form to verify that there are no discrepancies. If there is a discrepancy, the Secretary of State shall be notified immediately and no further action shall be taken until the reason for the discrepancy has been determined to the satisfaction of the Secretary of State, the election superintendent, and the manager of the absentee ballot precinct. The managers of the absentee ballot precinct shall accept or reject absentee ballots cast on DRE units as directed by the registrars, using the procedures established by the Secretary of State. After completion of the acceptance and rejection process for the absentee ballots cast on the DRE units, the poll manager shall cause each DRE unit to print a minimum of three tapes showing the vote totals as cast on that DRE unit. The poll manager and the assistant managers shall sign each of the tapes or shall write on the tapes the reason why the poll manager or the assistant managers will not sign the tapes. One copy of the results tape for each DRE unit shall be posted on the door of the absentee ballot precinct for the information of the public. The memory card (PCMCIA card) and two signed tapes from each DRE unit shall be placed in the appropriate envelope supplied by the election superintendent which shall be sealed and initialed by the poll manager and at least one assistant manager such that the envelope cannot be opened without breaking such seal. After completing the printing of the results, the DRE units shall be turned off and secured in their cases and resealed. The DRE units shall then be placed in a secure area with appropriate climate control. The memory cards (PCMCIA cards), results tapes, voter access cards, supervisor's card, ballot encoder devices, numbered lists of absentee voters, absentee ballot precinct recap forms, and other such paperwork shall be transported to the office of the election superintendent by the poll manager and at least one other poll officer. The election superintendent or his or her designee shall receive the materials and shall issue a receipt to the poll manager for the materials.

(13) Any notices to the Secretary of State about discrepancies in

numbers or seals, zero tapes, or election counters shall also be forwarded to members of the State Election Board, but such information shall be considered confidential if the Secretary of State has initiated an investigation of the matter.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Use of DRE Units for Absentee Balloting" adopted. F. Oct. 24, 2003; eff. Nov. 13, 2003.

### **183-1-14-.03 Provisional Absentee Ballots.**

(1) Except as otherwise provided by O.C.G.A. § 21-2-220(c), when the registrars receive a request for an absentee ballot from a voter who registered to vote for the first time in this state by mail and has not provided the identification required by O.C.G.A. § 21-2-220, the registrars shall process the request in the same manner as other requests for absentee ballots. If the voter is found to be eligible to vote by absentee ballot, the registrars shall issue a ballot to the voter and mark the outer oath envelope with the code "IR." In addition to the information concerning how to vote the ballot, the registrars shall also enclose with the absentee ballot instructions on providing proper identification and in accessing the free access system to determine if the ballot was counted as required by O.C.G.A. § 21-2-418(e) and (f).

(2) When an absentee ballot is received from a voter who registered to vote for the first time in this state by mail and has not provided the identification required by O.C.G.A. § 21-2-220, except as otherwise provided by O.C.G.A. § 21-2-220(c), the registrars shall process the ballot as other absentee ballots returned by voters. If the ballot is accepted by the registrars but the voter has not provided the required identification, the ballot shall be treated as a provisional ballot and shall be held separate and apart from the other absentee ballots. The registrars shall maintain a numbered list of provisional absentee ballots.

(3) If an absentee voter whose ballot has been accepted but treated as a provisional ballot for failure to provide the required identification provides the required identification prior to the close of the polls on the day of the election, the voter's ballot shall be treated as a regular absentee ballot and the voter shall be switched from the numbered list of provisional absentee voters to the numbered list of regular absentee voters.

(4) As soon as practicable after 12:00 Noon on the day of the primary, election, or runoff, the registrars shall begin to deliver all accepted regular and provisional absentee ballots to the absentee ballot precinct in accordance with law. The provisional absentee ballots shall be retained by the poll officers at the absentee ballot precinct or tabulating center, as the case may be, unopened and shall not be counted. The provisional absentee ballots shall be placed in a secure container for provisional ballots and shall be transferred to the election superintendent with the other absentee ballots and election materials from the absentee ballot precinct or tabulating center, as the case may be.

(5) If, by the end of the period set by law for the verification of provisional ballots, the registrars receive the required identification from an absentee voter who failed initially to provide the required identification, then the registrars shall notify the election superintendent to count the ballot of such voter in the same manner as other verified provisional ballots from the polls. If the registrars do not receive the required identification from such absentee voter by the end of the period set by law for the verification of provisional ballots, the registrars shall notify the election superintendent to not count the ballot and the ballot shall remain unopened and sealed and shall be retained in accordance with law with the other provisional ballots which the registrars did not verify for counting.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Provisional Absentee Ballots" adopted. F. Oct. 24, 2003; eff. NOT. 13, 2003.

#### **183-1-14-.04 Reporting Requirements for Absentee Ballots.**

(1) The registrars of each county shall on the 32nd day prior to each statewide general primary and general election submit to the Secretary of State on a form provided by the Secretary of State information concerning absentee ballots requested by electors who are entitled to vote by absentee ballot under the federal Uniformed and Overseas Citizens Absentee Voting Act, 42 U.S.C. § 1973ff, et seq., as amended, Such report shall include the number of absentee ballots requested by each such category of absentee voter, the date on which the absentee ballots were available in the registrars' office, and the date on which the ballots requested by such voters were sent to the voters. The Secretary of State may request further information related to the application for and the transmittal

of such ballots.

(2) The report shall be submitted to the Secretary of State either by facsimile or other electronic means on the 32nd day prior to each statewide general primary and general election.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Absentee Electors and Campaigning in or Near Absentee Polling Places" adopted as ER. 1S3-1-14-0.5-.04. F. Sept. 10, 2004; eff. Sept. 9, 2004, the date of adoption. **Amended:** Permanent Rule entitled "Reporting Requirements for Absentee Ballots" adopted. F. Dec. 21, 2005; eff. Jan. 10, 2006. **Repealed:** New Rule of same title adopted. F. Mar. 17, 2011; eff. Apr. 6, 2011.

### **183-1-14-.05 State Write-In Absentee Ballot.**

(a) The Secretary of State shall design a state write-in absentee ballot for use in runoff primaries and runoff elections by an elector of this state who resides outside the county or the municipality in which the election is being conducted and is: (1) a member of the armed forces of the United States, a member of the merchant marine of the United States, a member of the commissioned corps of the Public Health Service or the National Oceanic and Atmospheric Administration, or a spouse or dependent of such member residing with or accompanying said member; or (2) A citizen of the United States residing outside the United States.

(b) Such state write-in absentee ballot shall be designed in such a manner as to permit the person voting such ballot to write-in the name of a candidate or candidates for state offices that are elected on a state-wide basis and for all federal offices in a runoff primary or runoff election. Such state write-in ballot shall automatically be included with any absentee ballot sent to such eligible electors for any general primary or general election. No special request for such ballot shall be required in such circumstances.

(c) Such ballot shall either have attached to or have included with such ballot two envelopes. One envelope shall have printed on such envelope the words "Official State Write-In Absentee Ballot" and nothing else. The other envelope shall be designed such that the first envelope will fit inside it and shall have printed on one side the absentee elector oath and the other side shall contain a place for the elector to address the ballot to the appropriate board of registrars or board of elections and registration in this state for mailing.

(d) The Secretary of State shall prepare and print instructions for completing and returning such ballot that shall also be enclosed with such ballot. The state write-in absentee ballot, the envelopes for returning it, and the instructions shall be enclosed with the regular absentee ballot, envelopes, and instructions for completing and returning the regular absentee ballot.

(e) Such ballots shall be made available in a downloadable electronic form on the Secretary of State's website as well as in printed form. Additionally, the Secretary of State and the county registrars shall provide for the transmission of such blank ballots by facsimile transmission and electronic mail transmission to electors. Instructions for voting such ballots shall be included on the website and shall accompany any facsimile and electronic mail ballot transmissions. Voted ballots shall not be returned by facsimile or electronic mail.

(f) As soon as practicable after a general primary or general election, the Secretary of State shall cause to be published on the official website of the Secretary of State a list of all federal offices and state offices in which there will be a runoff primary or runoff election, as the case may be, along with the names of the candidates who will be on the ballot in such runoff.

(g) If an elector obtains the ballot by facsimile or by downloading from electronic mail or the Secretary of State's website, the elector shall return the ballot by mail using two envelopes. The elector shall enclose and seal the ballot in a plain envelope and insert that envelope into another envelope for transmission to the registrars. The elector shall copy and sign the appropriate oath onto the back of the outer envelope. The Secretary of State shall provide a sample envelope and oath form on the Secretary of State's website in such a manner that such form may be used by an elector to print out the forms for the purpose of pasting or attaching such forms to an envelope for returning the ballot or for printing an envelope for returning the ballot.

(h) If the registrars receive both the official absentee runoff ballot and the state write-in absentee ballot from an elector during the time period for receiving such ballots, the registrars shall submit only the official absentee runoff ballot for counting. In such case, the state

write-in absentee ballot shall be handled in the same manner as ballots that are received too late for counting. In order to ensure that the correct ballot is counted, the registrars shall hold the ballots of individuals to whom both an official absentee runoff ballot and a state write-in ballot have been sent until the close of the absentee voting period before submitting such ballots for counting.

(i) The failure of an elector to seal the ballot in an inner envelope alone shall not be grounds for rejecting such ballot. The failure of the elector to complete the oath required of absentee voters on the outer envelope shall be cause to reject such ballot.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "State Write-in Absentee Ballot" adopted, F. Dec. 21, 2005; eff. Jan. 10, 2006.

### **183-1-14-.06 Spoiled Absentee Ballots.**

(1) When an absentee ballot is spoiled, the elector may write "Spoiled" across the face of the ballot, then fold the ballot and enclose and securely seal the same in the envelope on which is printed "Official Absentee Ballot." This envelope shall then be placed in the second one, on which is printed the form of the oath of the elector, the name, relationship, and oath of the person assisting, if any, and other required identifying information. The elector shall then fill out the required information on such envelope, without the requirement to subscribe or swear to the oath printed on such envelope. Such envelope shall then be securely sealed and the elector shall write across the face of the envelope "Spoiled" and then mail or personally deliver same to the board of registrars or absentee ballot clerk in accordance with O.C.G.A. Section 21-2-385.

(2) Upon receipt of an absentee ballot upon which the word "Spoiled" has been written across the face of the envelope, a registrar or absentee ballot clerk shall write the day and hour of the receipt of the ballot on its envelope. The registrar or absentee ballot clerk shall, within two days after the receipt of such ballot, mail or issue another official absentee ballot to the elector. All returned spoiled ballots shall be safely kept unopened by the board or absentee ballot clerk and then transferred to the appropriate clerk for storage for the period of time required for the preservation of ballots used at the primary or election and shall then, without being opened, be destroyed in like manner as the used ballots of the primary or

election.

(3) The directions that explain how to cast a vote and how to obtain a new ballot after one is spoiled shall appear immediately under the caption on the ballot in substantially the following form as appropriate for that particular primary or election:

To vote, blacken the Oval ( ) next to the candidate of your choice. To vote for a person whose name is not on the ballot, manually WRITE his or her name in the write-in section and blacken the Oval ( ) next to the write-in section. If you desire to vote YES or NO for a PROPOSED QUESTION, blacken the corresponding Oval ( ). Use only blue or black pen or pencil.

Do not vote for more candidates than the number allowed for each specific office. Do not cross out or erase. If you erase or make other marks on the ballot or tear the ballot, your vote may not count.

If you change your mind or make a mistake, you may return the ballot by writing "Spoiled" across the face of the ballot and return envelope. You may then mail the spoiled ballot back to your county board of registrars, and you will be issued another official absentee ballot. Alternatively, you may surrender the ballot to the poll manager of an early voting site within your county or the precinct to which you are assigned. You will then be permitted to vote a regular ballot.

"I understand that the offer or acceptance of money or any other object of value to vote for any particular candidate, list of candidates, issue, or list of issues included in this election constitutes an act of voter fraud and is a felony under Georgia law."

Authority O.C.G.A. Secs. 21-2-31, 21-2-284, 21-2-285, 21-2-383, 21-2-388, 21-2-480. **History.** Original Rule entitled "Spoiled Absentee Ballots" adopted. F. Oct. 29, 2009; eff. Nov. 18, 2009.

### **183-1-14.07 Spoiled Ballot Definition.**

(1) **Definitions.** As used in these rules and the Georgia Election Code, the term:

(a) "Spoiled ballot" includes a ballot

1. that has been torn, defaced, or physically deformed;

2. on which there are cast more than the permitted number of votes;

3. that has been completed in a manner which is illegible or incomprehensible;

4. that contains writing which compromises the secrecy of the ballot;

5. that is marked improperly, inappropriately, or in such a way that it would be rejected;

6. that was issued in error by the election official; or

7. that contains the wrong precinct, party, or style.

(2) A spoiled ballot shall not be reinstated.

Authority O.C.G.A. Secs. 21-2-31, 21-2-284, 21-2-285, 21-2-285.1, 21-2-379.11, 21-2-390, 21-2-433, 21-2-434, 21-2-436, 21-2-437, 21-2-440, 21-2-480, 21-2-483, 21-2-484, 21-2-493, 21-2-587. **History.** Original Rule entitled "Spoiled Ballot Definition" adopted. F. Oct. 29, 2009; off. Nov. 18, 2009.

### **183-1-14-.08 Additional Sites as Additional Registrar's Offices or Places of Registration for Absentee Ballots.**

(1) Definitions. As used in this rule and O.C.G.A. Section 21-2- 382, the term:

(a) "Government building generally accessible to the public" means any building or structure which is used by the public:

1. that is owned, leased, operated, or used by, the State of Georgia, its agencies and authorities, and any political subdivision of the state, municipal corporation, or local board or authority created by general, local, or special Act of the General Assembly or by ordinance or resolution of the governing body of a county or municipal corporation individually or jointly with other political subdivisions or municipalities of the State; and

2. that is constructed or renovated in whole or in part by use of state, country, or municipal funds, the funds of any political subdivision of the State; or, to the extent not required otherwise by

federal law or regulations and not beyond the power of the State to regulate, federal funds.

(2) A board of registrars may establish additional sites as additional registrar's offices or places of registration for the purpose of receiving absentee ballots under O.C.G.A. Section 21-2-381 and for the purpose of voting absentee ballots under O.C.G.A. Section 21-2-385. Whenever practicable, a branch of the county courthouse, a courthouse annex, a government service center providing general government services, or another government building generally accessible to the public shall be utilized for such additional sites.

Authority O.C.G.A. Secs. 21-2-31, 21-2-382, 30-3-2, 31-12A-3. **History.** Original Rule entitled "Additional Sites as Additional Registrar's Offices or Places of Registration for Absentee Ballots" adopted. F. Dec. 15, 2009; eff. Jan. 2010.

### **183-1-14-.09 Voted Absentee Ballots.**

(1) Definitions. As used in this Rule and O.C.G.A. Section 21-2-388, the phrase:

(a) "An absentee ballot which has been voted" means an absentee ballot that has been returned to and received by the board of registrars and has been certified in accordance with subsection (a) of O.C.G.A. Section 21-2-386 by the board of registrars.

(2) When an absentee ballot which has been voted shall be returned to and received by the board of registrars, it shall be deemed to have been voted then and there; and no other ballot shall be issued to the same elector. If the board of registrars or absentee ballot clerk rejects or otherwise fails to certify an absentee ballot in accordance with subsection (a) of O.C.G.A. Section 21-2-386, the elector shall be provided the opportunity to vote in the primary, election, or runoff either by applying for a second absentee ballot prior to the day before such primary, election, or runoff or by voting in person at the elector's polling place on the day of the primary, election, or runoff.

Authority O.C.G.A. Secs. 21-2-31, 21-2-388. **History.** Original Rule entitled "Voted Absentee Ballots" adopted. F. Oct. 29, 2009; eff. Nov. 18, 2009.

**183-1-14--10 Acceptance of Absentee Ballots From Military and Overseas Citizens.** Absentee ballots cast in a primary, election, or runoff by eligible electors who reside outside the county

or municipality in which the primary, election, or runoff is held are members of the armed forces of the United States, members of the merchant marine of the United States, spouses or dependents of members of the armed forces or merchant marine residing with or accompanying such member, or overseas citizens that are received by United States Mail or commercial courier, without bearing a postmark, and within the three-day period following such primary, election, or runoff, if proper in all other respects, shall be valid ballots and shall be counted and included in the certified election results.

Authority O.C.G.A. Secs. 21-2-31, 21-2-388. **History.** Original Rule entitled "Acceptance of Absentee Ballots From Military and Overseas Citizens" adopted. F. Oct. 29, 2009; eff. Nov. 18, 2009.

**183-1-14-11 Mailing and Issuance of Ballots.** During early voting, as additional applicants for absentee ballots are determined to be eligible, the board of registrars or absentee ballot clerk shall mail or issue official absentee ballots to such additional applicants immediately upon determining their eligibility. The board or clerk shall make such determination and mail or issue official absentee ballots to such additional eligible applicants within 3 business days after receiving the absentee ballot applications.

Authority O.C.G.A. Secs. 21-2-31, 21-2-384. **History.** Original Rule entitled "Mailing and Issuance of Ballots" adopted. F. May 27, 2011; eff. June 10, 2011.

### **183-1-14-12. Eligibility of Application for Absentee Ballot**

The application for an absentee ballot shall be in writing and shall contain sufficient information for proper identification of the elector. To be deemed sufficient, an application for an absentee ballot must contain the signature of the applicant.

1. In the case of the elector making such application for an absentee ballot, the application shall contain the signature of such elector.
2. In the case of a relative making an application on behalf of an elector pursuant to O.C.G.A. § 21-2-381(a)(1)(B), the application shall contain the signature of the elector's relative as well as the relationship of the relative to the elector.

Authority: O.C.G.A. §§ 21-2-31, 21-2-381.

**History.** Original Rule entitled "Eligibility of Application for Absentee Ballot" adopted. F. Dec. 28, 2015; eff. Jan. 17, 2016.

OF  
STATE ELECTION BOARD**

**CHAPTER 183-1-15**

**RETURNS OF PRIMARIES AND ELECTIONS**

**TABLE OF CONTENTS**

**183-1-15-.01 Repealed**

**183-1-15-.02 Definition of Vote**

**183-1-15-.01 Repealed.**

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Notification and Certificate of Nomination for Political Party Nominees" adopted. F. May 26, 1970; eff. June 14, 1970. **Amended:** F. Oct. 20, 1975; eff. Nov. 9, 1975. **Amended:** Rule retitled "Certificate of Nomination for Political Party Nominees". F. Mar. 6, 1987; eff. Mar. 26, 1987. **Repealed:** F. Dec. 11, 2003; eff. Dec. 31, 2003.

**183-1-15-.02 Definition of Vote.**

(1) DRE Equipment. A vote cast on a DRE unit shall be the choice made by a voter by:

(a) Pressing the appropriate place on the DRE unit's touchscreen to cause an "X" or similar designation to display adjacent to the name of the candidate or answer to a question for which the voter desires to vote;

(b) Typing on the touchscreen the name of a qualified write-in candidate in accordance with the instructions for voting on the DRE unit; or

(c) Pressing the appropriate buttons on the keypad in the case of persons using the VWD device attached to the DRE unit.

(2) Lever-type Voting Machines. A vote cast on a lever-type voting machine shall be the choice made by a voter by either operating the lever adjacent to the name of the candidate or answer to a question for which the voter desires to vote or by writing of the name of a qualified write-in candidate on the machine in accordance with the instructions for voting on the voting machine and then recording such votes on the machine by the actuation of the main lever which casts such votes and returns the other levers to their original positions.

### (3) Optical Scan Voting Systems.

(a) A vote cast on an optical scan voting system shall be the choice made by a voter by either:

1. Filling in the oval or completing the arrow adjacent to the name of the candidate or answer to a question for which the voter desires to vote; or

2. Filling in the oval or completing the arrow adjacent to the appropriate write-in space and writing the name of a qualified write-in candidate in the appropriate space on the ballot as specified in the instructions for voting such ballot.

(b) In reviewing an optical scan ballot which has been rejected as containing an overvote in accordance with O.C.G.A. § 21-2-483(g)(2), if the voter filled in the oval or completed the arrow next to the name of a candidate whose name appears on the ballot and filled in the oval or completed the arrow adjacent to the write-in space and wrote the name of the same candidate in the write-in space for the same office, the properly cast vote shall be counted and the write-in vote shall be ignored.

(c) If, in reviewing an optical scan ballot which has been rejected as containing an overvote in accordance with O.C.G.A. § 21-2-483(g)(2), it appears that there is a properly cast vote and what is clearly a stray mark which has caused the tabulator to read the vote for such office as an overvote, the properly cast vote shall be counted and the stray mark shall be ignored.

(d) If, in reviewing an optical scan ballot which has been rejected as containing an overvote in accordance with O.C.G.A. § 21-2-483(g)(2), a voter marks his or her ballot in a manner other than that specified by law and this rule, the votes shall be counted if, in the opinion of the vote review panel as provided in O.C.G.A. § 21-2-483(g)(2)(B), the voter has clearly and without question indicated the candidate or candidates and answers to questions for which such voter desires to vote.

(e) When an optical scan ballot contains stray marks or marks which prevent the tabulating machine from properly recording valid

votes as determined under this rule and by law, the ballot shall be duplicated in accordance with law to correct such problems and the duplicate shall then be tabulated.

(4) Paper Ballots.

(a) A vote cast on a paper ballot shall be a choice made by a voter by either:

1. Placing an "X", a check, or other similar mark in the square adjacent to the name of the candidate or answer to a question for which the voter desires to vote; or

2. Writing the name of a qualified write-in candidate in the appropriate space on the ballot as specified in the instructions for voting such ballot.

(b) If a voter marks his or her paper ballot in a manner other than that specified by law and this rule, the votes shall be counted if, in the opinion of the poll officers as provided in O.C.G.A. § 21-2-439, the voter has clearly and without question indicated the candidate or candidates and answers to questions for which such voter desires to vote.

(c) If the voter marked the square next to the name of a candidate whose name appears on the ballot and wrote in the name of the same candidate in the write-in space for the same office, the properly cast vote shall be counted and the write-in vote shall be ignored.

(5) Write-in Votes. In no event shall votes cast for write-in candidates who have not qualified in accordance with O.C.G.A. § 21-2-133 be counted or recorded.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Definition of Vote" adopted. F. Oct. 24, 2003; eff. Nov. 13, 2003.

PENALTIES**

**TABLE OF CONTENTS**

**183-1-20-.01 Giving or Receiving, Offering to Give or Receive, or Participating in the Giving or Receiving of Money or Gifts for Registering as a Voter, Voting, or Voting for a Particular Candidate**

**183-1-19-.01 Giving or Receiving, Offering to Give or Receive, or Participating in the Giving or Receiving of Money or Gifts for Registering as a Voter, Voting, or Voting for a Particular Candidate.** In the interpretation of O.C.G.A. Section 21-2-570, the State Election Board has determined that the prohibition contained therein against the giving or receiving, offering to give or receive, or participating in the giving or receiving of money or gifts for the purpose of registering as a voter or voting does not include the provision of postage to a person solely for the purpose of (1) mailing a voter registration application in order for such person to register to vote or (2) mailing an absentee ballot application or an absentee ballot that was voted and sealed by such person in order for such person to vote.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Giving or Receiving, Offering to Give or Receive, or Participating in the Giving or Receiving of Money or Gifts for Registering as a Voter, Voting, or Voting for a Particular Candidate" adopted, F. Dec. 21, 2005; eff. Jan. 10, 2006.

**RULES  
OF  
STATE ELECTION BOARD  
GEORGIA ELECTION CODE**

**CHAPTER 183-1-20  
GEORGIA VOTER IDENTIFICATION CARD**

**TABLE OF CONTENTS**

**183-1-20-.01 Georgia Voter Identification Card**

**183-1-20-.01 Georgia Voter Identification Card.**

(1) **Intent and Purpose.** These rules are promulgated pursuant to the authority granted the State Election Board under O.C.G.A. §§21-2-417.1 and 21-2-31. It is the intent of the State Election Board to provide for the time, place and manner in which each county Board of Registrars shall issue the Georgia Voter Identification Card to eligible electors and to provide for the acceptable types of documentation necessary to obtain a Georgia Voter Identification Card. To this end, the State Election Board has promulgated these rules and regulations.

(2) **Application for the Georgia Voter Identification Card.** Beginning with the July 18, 2006, Party Primary Election each county registrar shall provide the application for the Georgia Voter Identification Card in the form designed and published by the State Election Board or its member designee(s). Any registered voter who meets the criteria in O.C.G.A. § 21-2-417.1 and wishes to obtain a Georgia Voter Identification Card shall be required to submit the information requested in such application. It shall be the responsibility of each county registrar to ensure that each accepted application is complete.

(3) **Availability of the Georgia Voter Identification Card.**

(a) Each county shall provide a place within the voter registrar's primary or main office location, as previously approved by the Department of Justice, to process applications for Georgia Voter

Identification Cards and to process and distribute such cards.

(b) Each county registrar's office may provide additional locations or extended hours for processing applications for the Georgia Voter Identification Card and processing and distributing the cards but shall be required to comply with criteria for establishment of additional voter registration places as outlined in 183-1-6-.03(3).

(c) Each county registrar's office shall be open a minimum of eight hours per day on Monday through Friday of the week before the final primary, election, or run-off election day, except for legally observed holidays, and shall otherwise be open during normal business hours of the office in order to allow registered voters to apply for and obtain a Georgia Voter Identification Card.

(d) The voter registrar's office of each county shall provide the application and process the Georgia Voter Identification Card using the equipment, forms, supplies, and written training materials and/ or verbal training provided by the State Election Board.

(e) Each county Board of Registrars shall sign and maintain an intergovernmental agreement provided by the State Election Board outlining the use of the equipment.

**(4) Documentation required for application and issuance of the Georgia Voter Identification Card.**

(a) In accordance with O.C.G.A. § 21-2-417.1(e), the Board of Registrars shall require the presentation and verification of the following information before issuing a Georgia Voter Identification Card:

1. A photo identity document, except that nonphoto identity document is acceptable if it includes both the applicant's full legal name and date of birth;

2. Documentation showing the applicant's date of birth;

3. Evidence that the applicant is registered to vote in the State of Georgia, either by voter precinct card, a new voter registration application or confirmation of voter's record on the statewide voter

registration system or by verifying the original application in the voter registrar's office; and

4. Documentation showing the applicant's name and principal residence address.

(b) In determining whether the requirements of O.C.G.A. § 21-2-417.1(e) have been met, the following shall apply:

1. Any of the following which contains a photograph of the applicant shall constitute a photo identity document, as provided in O.C.G.A. § 21-2-417.1(e)(1):

(i) Student ID Card including public or private high school, college, university, or vocational school;

(ii) Transit Card;

(iii) Pilot's License;

(iv) Nursing Home Identification Card;

(v) Employee Identification Card;

(vi) Government Housing Authority Identification Card;

(vii) Any government issued license;

(viii) Any card accepted by local, state or federal government for the provision of benefits; or

(ix) Any card accepted by local, state or federal government for access to buildings.

2. Any of the following shall constitute a nonphoto identity document in lieu of a photo identity document as provided in O.C.G.A. § 21-2-417.1(e)(l) only if it includes both the applicant's full legal name and date of birth:

(i) Original birth certificate or certified copy of birth certificate;

- (ii) Certificate of birth registration;
- (iii) Voter Registration Application;
- (iv) Copy of records filed in court by the applicant or on behalf of the applicant by the applicant's counsel;
- (v) Naturalization documentation;
- (vi) Copy of Marriage License Application;
- (vii) A copy of the applicant's State or Federal Tax Return filed for the previous calendar year;
- (viii) Any other document issued by local, state, or federal government so long as the document provides a reasonably reliable confirmation of the identity of the applicant;
- (ix) Paycheck or paycheck stub bearing the imprinted name of the applicant's employer;
- (x) An original of the annual social security statement received by the applicant for current or preceding calendar year;
- (xi) An original of a Medicare or Medicaid statement received by the applicant;
- (xii) Certified school record or transcript for current or preceding calendar year;
- (xiii) Hospital birth certificate;
- (xiv) An authenticated copy of a doctor's record of post-natal care;  
or
- (xv) A federal Affidavit of Birth, form DS-10.

3. The registrar shall accept as documentation showing the applicant's date of birth under O.C.G.A. § 21-2-417.1(e)(2) any of the documents described in subparagraph (b)2. above.

4. The registrar shall accept as proof of voter registration under

O.C.G.A. § 21-2-417.1(e)(3) the applicant's voter registration application or a voter's precinct card.

5. Any of the documents described in subparagraphs (b)1. and 2. shall be acceptable as documentation showing the applicant's name and address of principal residence under O.C.G.A. § 21-2-417.1(e)(4) if the documentation contains the applicant's name and address of principal residence. In addition, the registrar shall also accept the following as documentation showing the applicant's name and address of principal residence if the applicant's name and address of principal residence appears on the document:

- (i) Voter Precinct Card;
- (ii) Utility or cable bill issued within the last sixty (60) days;
- (iii) Bank statement issued within the last sixty (60) days;
- (iv) Currently valid rental contracts and/or receipts for payments made within the last sixty (60) days for rent payments;
- (v) A copy of the applicant's State or Federal income tax return filed for the preceding calendar year;
- (vi) Homeowners insurance policy or bill for current or preceding calendar year;
- (vii) Mortgage, payment coupon, deed, or property tax bill for current or preceding calendar year;
- (viii) Current Automobile Registration Receipt;
- (ix) Homestead Exemption documentation; or
- (x) W-2 for the preceding calendar year.

6. The application and supporting documentation of any applicant who is denied a Georgia Voter Identification Card shall be immediately forwarded via facsimile and U.S. mail to the State Election Board for automatic review to determine if the applicant has provided reasonably reliable documentary indicia confirming the

identity of the applicant in which case the State Election Board shall direct the voter registrar to issue the Georgia Voter Identification Card.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Georgia Voter Identification Card" adopted. F. June 19, 2006; eff. July 9, 2006.

CERTIFICATION OF VOTING SYSTEMS**

**TABLE OF CONTENTS**

590-8-1-.01	Certification of Voting Systems	590-8-1-.02	Verifications of Voter Registration Information
-------------	---------------------------------	-------------	---

**590-8-1-.01 Certification of Voting Systems.**

**(a) Purpose.**

- 1. These Rules establish performance requirements and characteristics for voting systems and their components used in the State of Georgia and identify performance characteristics of these systems and components.
  
- 2. Compliance with the requirements of these Rules shall be assessed by means of code analysis, formal tests, and documentation review.
  
- 3. The intent of these Rules is to assure that hardware, firmware, and software have been shown to be reliable, accurate, and capable of secure operation before they are used in elections in the State. Hardware, firmware, and software products with performance proven in commercial applications are deemed inherently acceptable, provided that they are shown to be compatible with the operational and administrative requirements of the voting environment. Products not in wide commercial use, regardless of their performance histories, shall require Qualification, Certification, and Acceptance tests before they can be used.
  
- 4. These rules are intended to assist local jurisdictions in identifying products and provide a standardized terminology which shall facilitate the specification and demonstration of system requirements.

**(b) Applicability.**

1. These Rules are applicable to voting systems first used in the State of Georgia on or after the effective date of these Rules. These Rules are waived for all voting systems in use in the State of Georgia as of the effective date of these Rules. Successful performance during past elections are deemed sufficient evidence of adequate design. These Rules shall apply to systems developed by non-governmental third parties and those developed in-house by a local government.

2. These Rules apply to all equipment and computer programs used in a voting system including, but not limited to, the hardware, firmware, and software required for defining an election, formatting ballots, setting up precincts for voting, recording votes, tallying the results, and producing all reports.

3. These Rules apply to any agency, group, or individual responsible for the analysis, design, manufacture, procurement, or use of voting systems, their subsystems, or their components.

4. Any modification to the hardware, firmware, or software of a voting system which has completed Qualification, Certification, or Acceptance testing in accordance with these Rules shall invalidate the State certification unless it can be shown that the modification does not affect the overall flow of program control or the manner in which the ballots are recorded and the vote data are processed, and the modification falls into one of the following classifications listed below. The Secretary of State shall be the sole judge of whether or not a modification requires additional testing.

(i) The modification is made for the purpose of correcting a defect and procedural and test documentation is provided which verifies that the installation of the hardware change or corrected code does not result in any consequence other than the elimination of the defect.

(ii) The modification is made for the purpose of enabling interaction with other general purpose or approved equipment or computer programs and databases, and procedural and test documentation is provided which verifies that such interaction does not involve or adversely affect vote counting and data storage.

5. The addition or alteration of utility software and device handlers which do not interact with vote counting software except through the

intended input/output channels in the manner originally intended does not constitute a requirement for a mandatory retest.

(c) **Reciprocity.** The Secretary of State may accept the results of the Qualification tests and/or Certification tests from another state or testing agency that has performed the tests described in these Rules. This reciprocity does not extend to the Acceptance tests or any portion of the Certification tests, which are considered to be unique to the State of Georgia.

(d) **Procedure.** This review and approval procedure is limited to those voting systems and equipment that have passed the prototype stage and are in full production and available for immediate installation and use. Qualification tests shall be performed to evaluate the degree to which a system complies with the requirements of the *Voting Systems Standards* issued by the Election Assistance Commission (EAC). Whenever possible, Qualification tests shall be conducted by Independent Test Agencies (ITA) certified by the EAC. In the event that tests by an ITA are not feasible, these tests shall be conducted by a Georgia Certification Agent designated by the Secretary of State.

Certification tests shall be performed to certify that the voting system complies with the Georgia Election Code, the Rules of the Georgia State Election Board, and the Rules of the Secretary of State. A Georgia Certification Agent designated by the Secretary of State shall conduct certification tests. The Qualification and Certification testing of a voting system for use in the State of Georgia shall proceed in the following steps.

1. **Qualification.** Prior to submitting a voting system for certification by the State of Georgia, the proposed voting system's hardware, firmware, and software must have been issued Qualification Certificates from the EAC. These EAC Qualification Certificates must indicate that the proposed voting system has successfully completed the EAC Qualification testing administered by EAC approved ITAs. If for any reason, this level of testing is not available, the Qualification tests shall be conducted by an agency designated by the Secretary of State. In either event, the Qualification tests shall comply with the specifications of the *Voting Systems Standards* published by the EAC.

**2. Letter of Request.** After the voting system has completed EAC Qualification testing, the evaluation procedure to obtain certification for use of the voting system in the State of Georgia shall be initiated by letter from the vendor of the voting system to the Office of the Secretary of State requesting certification for a specific voting system. The Secretary of State or her representative shall notify the vendor of the earliest date after which the requested evaluation may begin and provide the vendor with the name and telephone number of the designated Georgia Certification Agent.

**3. Submission of Complete Technical Data Package.** The vendor shall submit the Technical Data Package described in section (g) to the Certification Agent designated by the State. The Certification Agent shall review the submission of the Technical Data Package and notify the vendor of any deficiencies. Certification of the voting system shall not proceed until the Technical Data Package is complete.

**4. Preliminary Review.** The Georgia Certification Agent shall conduct a preliminary analysis of the Technical Data Package and prepare an Evaluation Proposal containing the following information:

(i) Components of the voting system requiring evaluation.

(ii) Identification of any hardware or software components requiring additional testing by the EAC ITAs.

(iii) Description of the activities required to complete that portion of the evaluation which is to be performed by the Georgia Certification Agent.

(iv) Estimate of time required to complete the portion of the evaluation, which is to be performed by the Georgia Certification Agent.

(v) Estimate of cost of tests which are to be performed by the Georgia Certification Agent.

**5. Authorization to Proceed.** The vendor shall review the Evaluation Proposal and notify the Secretary of State, in writing, of

the desire to continue or terminate the evaluation process. The evaluation of the system shall not begin until the manufacturer or vendor notifies the Secretary of State to proceed. A copy of this notification shall be sent to the Georgia Certification Agent. A decision to continue shall obligate the vendor to the cost of the evaluation contained in the Evaluation Proposal.

**6. Evaluation.** The vendor shall arrange with the EAC ITAs for any additional required ITA testing identified in the Evaluation Proposal. After any required ITA tests have been successfully completed, the Georgia Certification Agent shall conduct the tests described in the Evaluation Proposal and submit a report of the findings to the Secretary of State.

**7. Certification.** Based on the information contained in the report from the Georgia Certification Agent, and any other information in her possession, the Secretary of State shall determine whether the proposed voting system shall be certified for use in the State of Georgia and so notify the vendor.

**8. Local Jurisdiction Acceptance.** After a voting system is delivered to a local jurisdiction, acceptance tests shall be performed in the user's environment to demonstrate that the voting system as delivered and installed is identical to the system that was certified by the State and satisfies the requirements specified in the procurement documents.

**(e) Proprietary Information.** The State of Georgia shall make every effort to protect the proprietary nature of information provided to the State or its agents during the course of these evaluations in accordance to Georgia law for protecting proprietary information. Any proposed non-disclosure agreements shall be of the type and form in common commercial usage appropriate to similar situations and shall be subject to review and approval by the Georgia Attorney General.

**(f) Audit and Validation of Certification.**

1. It shall be the responsibility of the vendor to ensure that any voting system or component of a voting system that it markets or supplies for use in the State of Georgia has been certified by the Secretary of State. It is also the responsibility of the vendor to submit

any modifications to a previously certified system or component to the Secretary of State for re-certification and to update the Technical Data Package on file in the Office of the Secretary of State to accurately reflect the modifications.

2. If any question arises involving the certification of a voting system or a component of a voting system in use in the State, the Technical Data Package and Certification documentation on file in the Office of the Secretary of State shall be used to verify that the system or component in question is identical to the system or component that was submitted for certification.

(g) **Technical Data Package.** Before evaluation can begin, the vendor must submit to the Georgia Certification Agent the Technical Data Package required to complete the evaluation of the proposed voting system. Each item in the Technical Data Package must be clearly identified. If the Technical Data Package is incomplete or the items in the package are not clearly identified, the entire package may be returned to the vendor and the evaluation of the voting system rescheduled. In most cases, the Technical Data Package submitted to the ITAs shall be sufficient for State certification.

The Technical Data Package shall contain the following items in hard copy and in electronic form when available.

(i) *Customer Maintenance Documentation.* Documentation describing any maintenance that the vendor recommends that can be performed by a customer with minimal knowledge of the system.

(ii) *Operations Manual.* Operations documentation that is normally supplied to the customer for use by the person(s) who shall operate the equipment.

(iii) *Software Source Code.* Source code of all software and firmware in the voting system. The source code shall be supplied in the form of a listing and in a machine-readable form on media that is acceptable to the Georgia Certification Agent. If there is any chance of ambiguity, the required compilers) and/or development environment must be specified.

(iv) *Software System Design.* Documentation describing the logical

design of the software. This documentation should clearly indicate the various modules of the software, their functions, and their interrelationships. The minimum acceptable documentation is a system flowchart. Deviation of the source code from the system design may be cause for rejection of the voting system.

(v) *Customer Documentation.* A complete set of all documentation which is available to the purchaser/user of the voting system. Clearly identify that documentation which is included in the cost of the system and that documentation which is available for an additional charge.

(vi) *ITA Qualification Reports.* Copies of the ITA reports for the hardware and software qualification of the voting system. These reports must be sent directly from the ITA to the Georgia Certification Agent.

(vii) *Formal Complaints and Decertification Notices.* Copies of any formal complaints and/or decertification notices that have been filed against the proposed system. This documentation must clearly identify the jurisdiction filing the complaint or decertification notice and give the details of the resolution.

(viii) *Test Data/Software (Optional).* Any available test data, ballot decks, and/or software that can be used to demonstrate the various functions of the voting system. Although optional, these items can significantly reduce the effort, and hence the time and cost, involved in the evaluation of the system.

Authority O.C.G.A. Secs. 21-2-1, 21-2-50, 21-2-258, 21-2-388, 21-2-379.2. **History.** Original Rule entitled "Certification of Voting Equipment" adopted. F. Jan. 21, 1988; eff. Feb. 10, 1988. **Repealed:** New Rule entitled "Certification of Voting Systems" adopted. F. Mar. 28, 2005; eff. Apr. 17, 2005.

## **590-8-1-.02 Verification of Voter Registration Information.**

(1) The board of registrars shall enter the information contained on voter registration applications into the statewide voter registration database in a timely manner.

(2) Verification of applicant's United States citizenship.

(a) Georgia driver's license number or identification card number.

1. If an applicant submits an application for registration and uses the applicant's Georgia driver's license number or identification card number for evidence of United States citizenship purposes, the Secretary of State shall attempt to match such number to the Department of Driver Services database.

2. If the Department of Driver Services records indicate that the applicant is not a United States citizen in the Department of Driver Services database, the Secretary of State shall attempt to verify the applicant's United States citizenship status with the United States Citizenship and Immigration Services utilizing the Systematic Alien Verification for Entitlements program. Such verification will indicate whether the applicant is designated as a citizen of the United States within the Verification Information System database.

3. If the Department of Driver Services cannot confirm that the applicant has provided satisfactory evidence of United States citizenship to the Department of Driver Services and the Secretary of State cannot confirm the applicant's United States citizenship through the Systematic Alien Verification for Entitlements program, the board of registrars shall take the following steps:

(i) The board of registrars shall ensure that the Georgia driver's license number or identification card number was entered correctly into the statewide voter registration system. If the board of registrars determines the number was not entered correctly, the board of registrars shall correct the driver's license number or identification card number in the statewide voter registration system. The Secretary of State shall match the new driver's license number or identification card number to the Department of Driver Services database.

(b) Alien registration number.

1. If only the alien registration number from an applicant's naturalization documents is provided for United States citizenship purposes, the Secretary of State shall attempt to verify the applicant's alien registration number with the United States Citizenship and Immigration Services utilizing the Systematic Alien Verification for Entitlements program.

Authority O.C.G.A. Secs. 21-2-216. **History.** Original Rule entitled "Verification of Voter Registration Information" adopted. F. Dec. 16, 2009; eff. Jan. 5, 2010.

**RULES OF  
OFFICE OF SECRETARY OF STATE  
ELECTIONS DIVISION  
CHAPTER 590-8-2  
HELP AMERICA VOTE ACT OF 2002 PROVISIONS**

**TABLE OF CONTENTS**

690-8-2-.01 Administrative Complaint Procedure  
for Violations of Title III of the Help  
America Vote Act of 2002

**590-8-2-.01 Administrative Complaint Procedure for Violations of Title III of the  
Help America Vote Act of 2002.**

(1) Any person who believes that a violation of any provision of Title III of the Help America Vote Act of 2002 (Public Law 107-252; 42 U.S.C. 15301, et seq.) has occurred, is occurring, or is about to occur may file a complaint with the Secretary of State. Such complaint shall be open to inspection by the public during business hours upon reasonable notice.

(2) Such complaint shall be in writing and shall be signed and sworn to by the person making the complaint and shall be properly notarized in accordance with state law. The complaint shall be delivered to and served upon the Secretary of State as the chief state election official in person, by U.S. Mail, or by guaranteed overnight delivery.

(3) The Secretary of State shall investigate the allegations of such complaint. If more than one complaint is filed concerning the same alleged violation, the Secretary of State may consolidate such complaints for investigation.

(4) If the complainant requests, the Secretary of State or a designee thereof shall conduct a hearing on the allegations of the complaint. Such hearing may be by telephone, conference call, or in person and shall be recorded.

(5) If the Secretary of State or a designee thereof determines that such complaint is unfounded, the Secretary of State may dismiss the complaint and notify the complainant of her decision. The Secretary of State shall make the results of her investigation into the complaint available for public inspection during normal business hours upon reasonable notice after the matter has been resolved.

(6) The Secretary of State or designee thereof shall make a determination of the validity of the complaint within 90 days following the date on which the complaint is received by and filed with the Secretary of State unless the complainant agrees to an extension of such time period.

(7) If the Secretary of State or designee thereof determines that such complaint is valid, the Secretary of State shall take all necessary and appropriate actions within her authority to address the violation; and

(8) If the Secretary of State or designee thereof does not render a final determination on a complaint filed pursuant to this rule within 90 days after the complaint is filed, or within any extension period to which the complainant has agreed, the Secretary of State or designee thereof will, on or before the third business day after the final determination was due to be issued, initiate proceedings for alternative dispute resolution;

(a) To facilitate alternative dispute resolution, the Secretary of State shall maintain a list of qualified independent professionals who are capable of acting as a mediator, from which the Secretary of State or designee thereof and the complainant shall each choose one mediator to review the case.

(b) The Secretary of State or designee thereof shall designate in writing to the complainant the name of a mediator from the list referenced in section (a) to serve on an alternative dispute resolution panel (resolution panel) to review the complaint.

1. If proceedings for alternative dispute resolution are initiated pursuant to this paragraph, not later than 3 business days after the complainant receives such a designation from the Secretary of State or designee thereof, the complainant shall designate in writing to the Secretary of State or designee thereof the name of a second mediator. If the complainant fails to designate a mediator within the time allowed above, the sole mediator shall review the record from the hearing and make a final recommendation based on the submitted record. Not later than 3 business days after such a designation by the complainant, the two mediators so designated shall select a third mediator to complete the resolution panel. If the complainant fails to designate a mediator within the time allowed above, the sole mediator shall review and dispose of the matter without selecting a second or third mediator.

2. The mediator or resolution panel may review the record compiled in connection with the complaint, including, without limitation, the investigative file on the matter, the audio recording of the hearing, any transcript of the hearing and any briefs or memoranda submitted by the parties but shall not receive any additional testimony or evidence to resolve the matter.

3. The mediator or resolution panel by a majority vote, shall after reviewing the record referenced above, provide a recommendation to the Secretary of State not later than 50 days after the final determination of the Secretary of State was due. This period for issuing a written recommendation will not be extended.

4. Upon receipt of the recommendation from the mediator or resolution panel, the Secretary of State or designee thereof shall issue a final order pursuant to the authority granted under O.C.G.A. 21-2- 50.2(c), but such remedy shall not exceed the remedies available under Title III of the Help America Vote Act of 2002.

5. The final order of the Secretary of State or designee thereof will be:

(i) Mailed to the complainant, each respondent and any other person who requested in writing to be advised of the final resolution;

(ii) Posted on the website of the Secretary of State; and

(iii) Made available by the Secretary of State, upon request by any interested person.

6. A final determination by the Secretary of State or designee thereof is not subject to appeal in any state or federal court.

Authority O.C.G.A. Secs. 21-2-1, 21-2-59.2. **History.** Original Rule entitled "Administrative Complaint Procedure for Violations of Title III of the Help America Vote Act of 2002" adopted. F. May 11, 2004; eff. May 31, 2004.

Good Morning-

Attached are the proofs to the SEB Rulebook. The three rule changes are to 183-1-13-.02, 183-1-13-.06, 183-1-14-.01. I have proofed the changes a few times and would like another person to take a look in case I missed anything.

Thanks.

## ADMINISTRATIVE HISTORY

The **Administrative History** following each Rule gives the date on which the Rule was originally filed and its effective date, as well as the date on which any amendment or repeal was filed and its effective date. Principal abbreviations used in the Administrative History are as follows:

- f. — filed
- eff. — effective
- R. — Rule (Abbreviated only at the beginning of the control number)
- Ch. — Chapter (Abbreviated only at the beginning of the control number)
- ER. — Emergency Rule
- Rev. — Revised

**Note: Emergency Rules** are listed in each Rule's Administrative History by Emergency Rule number, date filed and effective date. The Emergency Rule will be in effect for 120 days or until the effective date of a permanent Ride covering the same subject matter superseding this Emergency Rule is adopted, as specified by the Agency.

Chapters 183-6 entitled "Registration of Electors", 183-7 entitled "Election Districts and Polling Places", 183-12-1 entitled "Voting Machines", 183-12-2 entitled "Vote Recorders", 183-13 entitled "Preparation for and Conduct of Primaries and Elections", and 183-14 entitled "Absentee Voting" have been adopted. The following Chapters are reserved: 183-1 to 183-5, 183-8 to 183-11, 183-15 to 183-36. Filed July 24, 1968; effective August 12, 1968.

Rules 183-6-.01, .02, 183-12-2-.04 and .05 have been amended. Rules 183-6-.03 and 183-13-.01 have been repealed. Filed August 5, 1969; effective August 24, 1969.

Rules 183-12-2-.04, .08 and 183-14-.02 have been repealed and new Rules adopted. Rules 183-13-.03 to .05 have been adopted. Chapter 183-15 entitled "Returns of Primaries and Elections" has been adopted. Filed May 26, 1970; effective June 14, 1970.

Chapters 183-24 entitled "Poll Officers", 183-25 entitled "Registration of Electors", 183-26 entitled "Election Districts or Precincts and Polling Places", and 183-27 entitled "Dates of Primaries

and Elections", 183-31-1 entitled "Voting Machines", 183-31-2 entitled "Vote Recorders", 183-32 entitled "Preparation For and Conduct of Primaries and Elections", and 183-33 entitled "Absentee Voting" have been adopted. Filed August 30, 1973; effective September 19, 1973.

Rules 183-6-.01, 183-14-.01 and .02 have been repealed and new Rules adopted. Rules 183-7-.01 and 183-15-.01 have been amended. Chapter 183-8 entitled "Dates of Primaries and Elections" has been adopted. Filed June 24, 1974; effective July 14, 1974.

Rules 183-6-.01, 183-13-.02, and 183-33-.01 have been repealed. Rules 183-12-2-.06, .07, 183-14-.01, 183-15-.01, 183-33-.02 have been amended. Chapters 183-1 to 183-11, 183-12-1, 183-12-2, 183-13 to 183-20 have been renumbered to 183-1-1 to 183-1-20 by Certification. Chapters 183-21 to 183-31, 183-31-1, 183-31-2 and 183-32 to 183-36 have been renumbered to 183-2-1 to 183-2-16 by Certification. All Rules of said Chapters have been renumbered. Filed October 20, 1975; effective November 9, 1975.

Emergency Rules 183-1-6-0.1-.01 and 183-2-5-0.2-.02 adopted. Filed May 20, 1982; effective May 17, 1982, the date of adoption, to be in effect for 120 days or until the effective date of permanent Rules covering the same subject matter superseding these Emergency Rules are adopted, as specified by the Agency. These Emergency Rules were adopted to prevent voter irregularities in the upcoming elections. (These Emergency Rules will not be published; copies may be obtained from the Agency.)

Rules 183-1-6-.01 and 183-2-5-.02 have been adopted. Filed March 29, 1983; effective April 18, 1983.

Rule 183-1-6-.03 has been adopted. Filed January 22, 1985; effective February 11, 1985.

Rule 183-1-6-.04 has been adopted. Filed August 1, 1986; effective August 21, 1986.

Rule 183-1-6-.04 has been amended. Filed September 18, 1986; effective October 8, 1986.

Chapter 183-1-11 entitled "Ballots" has been adopted. Rule 183-1-12-.10 has been adopted. Filed November 14, 1986; effective December 4, 1986.

Rule 183-1-6-.01 has been repealed. Rules 183-1-6-.02, 183-1-12-.03, .05 to .09, 183-1-13-.03 to .05, 183-1-14-.01, 183-1-15-.01 have been amended. Rule 183-1-7-.01 has been repealed and a new Rule adopted. Filed March 6, 1987; effective March 26, 1987.

Rule 183-1-6-.03 has been amended. Filed January 21, 1988; effective February 10, 1988.

Rule 183-1-6-.03 has been amended. Filed April 10, 1989; effective April 30, 1989.

Rule 183-1-6-.05 has been adopted, Rules 183-1-13-.03, .05 and 183-1-14-.01 have been amended. Filed February 17, 1992; effective March 9, 1992.

Rules 183-1-12-.01 and .02 have been repealed and new Rules adopted. Filed August 30, 2002; effective September 19, 2002. Rule 183-1-12-.06 has been repealed and a new Rule adopted. Filed October 18, 2002; effective November 7, 2002.

Rules 183-1-12-.01, .02, and 183-1-14-.01 have been amended. Rule 183-1-12-.06 has been repealed and a new Rule adopted. Rules 183-1-14-.02, .03 and 183-1-15-.02 have been adopted. Filed October 24, 2003; effective November 13, 2003.

Rules 183-1-6-.02, 183-1-12-.05, .07 to .09, 183-1-15-.01, 183-2-4-.01, 183-2-5-.01, .02, 183-2-6-.01, 183-2-7-.01, 183-2-11-.02 to .09, 183-2-12-.02 to .05, and 183-2-13-.02 have been repealed. Rules 183-1-6-.03 to .05, 183-M2-.03, 183-1-13-.03 to .05 have been amended. Filed December 11, 2003; effective December 31, 2003. Rule 183-1-12-.02 has been amended. Filed May 11, 2004; effective May 31, 2004.

Emergency Rules 183-1-6-0.3-.06, 183-1-12-0.4-.02, and 183-1-14-0.5-.04 adopted. Filed September 10, 2004; effective September 9, 2004, the date of adoption, to be in effect for 120 days or until the effective date of a permanent Rule covering the same subject matter superseding this Emergency rule is adopted, as specified by the Agency. This Emergency Rule was adopted to prevent confidential information being used for fraudulent purposes (Emergency Rule 183-1-6-0.3-.06), voter fraud related to the counting of absentee ballots

(Emergency Rule 183-1-12-0.4-.02, voter coercion or intimidation occurring during the absentee voting period (Emergency Rule 183-1-14-0.5-.04). (This Emergency Rule will not be published; copies may be obtained from the Agency.)

Rules 183-1-12-.06 has been amended. Rules 183-1-14-.04 and .05 have been adopted. Filed December 21, 2005; effective January 10, 2006.

Rules 183-1-6-.03 and 183-1-12-.02 have been amended. Chapter 183-1-19 entitled "Penalties" has been adopted. Filed December 28, 2005; effective January 17, 2006.

Rule 183-1-12-.07 has been adopted. Filed March 8, 2006; effective March 28, 2006.

Rule 183-1-6-.03 has been amended, Filed May 30, 2006; effective June 19, 2006.

Chapter 183-1-20 entitled "Georgia Voter Identification Card" has been adopted. Filed June 19, 2006; effective July 9, 2006.

Chapter 183-1-1 entitled "Preliminary Provisions" has been adopted. Filed February 22, 2008; effective March 13, 2008.

Rules 183-1-6-.01, .02, 183-1-14-.06, .07, .09 and .10 have been adopted. Rules 183-1-6-.03 and 183-1-12-.02 have been repealed and new Rules adopted. Chapter 183-1-10 entitled "Nomination of Candidates" has been adopted. Filed October 29, 2009; effective November 18, 2009.

Rules 183-1-6-.06 and 183-1-14-.08 have been adopted. Filed December 15, 2009; effective January 4, 2010.

Rule 183-1-11-.02 has been adopted. Filed March 3, 2010; effective March 23, 2010.

Rules 183-1-12-.02, .06, and 183-1-14-.04 have been repealed, and new Rules adopted. Rule 183-1-14-.01 has been amended. Filed March 17, 2011; effective April 6, 2011.

Rule 183-1-12-.06 has been repealed and a new Rule adopted. Rule 183-1-14-.11 has been adopted. Filed May 27, 2011; effective June 16, 2011.

183-1-1-.01	Procedure to Petition for Adoption of Rules	183-1-1-.02	Review of Initial Decisions
-------------	---	-------------	-----------------------------

**183-1-1-.01 Procedure to Petition for Adoption of Rules.**

(1) Interested persons may petition the State Election Board requesting the promulgation, amendment, or repeal of a rule, Such petition should be in the form of a letter addressed to the Board setting forth the language of the proposed rule, amendment, or repeal, and, where applicable, the language of the rule sought to be amended or repealed.

(2) Any interested person desiring to petition the Board requesting the promulgation, amendment, or repeal of a rule shall submit three copies of the petition, in writing, by certified or registered mail, to the Chairperson of the State Election Board, 2 Martin Luther King, Jr. Drive, S.E., Suite 1104, West Tower, Atlanta, Georgia 30334-9000.

(3) Each petition for the promulgation, amendment, or repeal of a rule made pursuant to the Georgia Administrative Procedures Act should be verified under oath, or in proper behalf of, the petitioner and shall contain:

- (a) The name and post office address of the petitioner;
- (b) The full text of the rule requested to be amended or repealed, or the full text of the rule desired to be promulgated;
- (c) The reason(s) such rule should be amended, repealed, or promulgated;
- (d) Any and all pertinent existing facts as to the petitioner's interest in the matter;

(e) Any and all facts known to the petitioner which might influence the decision of the Board to initiate or not initiate rulemaking, including identification of any parties who it is known will or may be affected by the amended, repealed, or promulgated rule; and

(f) Citations of legal authorities, if any, which authorize, support, or require the action requested by the petitioner.

(4) Within thirty (30) days after submission of a petition for the promulgation, amendment, or repeal of a rule or at the next regularly-scheduled meeting of the State Election Board, the Board shall decide upon the action to be taken. The Board shall not be forced to call a special meeting in order to address such a petition. If such a petition is received less than twenty (20) days before a regularly-scheduled meeting, the Board may vote to address the petition at its next regularly-scheduled meeting. Within ten (10) days after addressing the petition, the Board shall inform the petitioner by mail of the decision reached, and shall either decline to take the action requested, stating its reasons for so declining, or shall initiate rulemaking proceedings in accordance with the Georgia Administrative Procedures Act.

Authority O.C.G.A. Sees. 50-13-3, 50-13-17. **History.** Original Rule entitled "Procedure to Petition for Adoption of Rules" adopted. F. Feb. 22, 2006; eff. Mar. 13, 2008.

**183-1-1-.02 Review of Initial Decisions.** The State Election Board (the "Board") does not routinely preside at the reception of the evidence in contested cases before it and typically refers these cases to the Office of State Administrative Hearings ("OSAH"). After receiving the evidence, an OSAH hearing officer may issue an initial decision in such a contested case more than thirty (30) days before the next regularly-scheduled meeting of the Board. On those occasions where the hearing officer issues an initial decision more than thirty (30) days before the Board's next regularly-scheduled meeting, the period of time in which the Board shall render a final decision shall be extended until the date of the next regularly-scheduled meeting of the Board.

Authority O.C.G.A. Sees. 50-13-3, 50-13-17. **History.** Original Rule entitled "Review of Initial Decisions" adopted. F. Feb. 22, 2008; eff. Mar. 13, 2008.

GEORGIA ELECTION CODE**

**CHAPTER 183-1-6  
REGISTRATION OF ELECTORS**

**TABLE OF CONTENTS**

183-1-6-01	Acceptance of Voter Registration Applications	183-1-8-04	Accessibility for Elderly and Disabled Voters
183-1-6-02	Rules for Voter Registration by Private Entities	183-1-8-05	Registration of Persons by College Presidents or Their Designees
183-1-6-03	Rules and Regulations for Voter Registration by Registrars and Deputy Registrars	183-1-6-06	Verification of United States Citizenship of Applicants for Voter Registration

**188-1-6-.01 Acceptance of Voter Registration Applications.**

(1) The board of registrars shall, as of the date received, date stamp all voter registration applications delivered by hand to the board or otherwise received when the application does not have a date stamp affixed by the Secretary of State or a postmark affixed by the United States Postal Service or when the postmark affixed by the United States Postal Service is illegible or bears no date. In any such instance, a voter registration application shall be deemed to have been made as of the date stamp affixed to such application by the board of registrars that receives such application and shall be processed in accordance with subsection (c) of O.C.G.A. Section 21-2-224.

(2) Any application of a person who is a resident of a county in this State that is delivered to the board of registrars of another county through mistake, inadvertence, neglect, or otherwise that does not have a date stamp affixed by the Secretary of State or a postmark affixed by the United States Postal Service or when the postmark affixed by the United States Postal Service is illegible or bears no date shall be date stamped by the receiving board of registrars and shall be forwarded as soon as possible and, in any event, not later than seven days after receipt of the application to the correct board of registrars by the receiving county. In any such instance, a voter registration application shall be deemed to have been made as of the date stamp affixed to such application by the board of registrars that originally receives such application and shall be processed by the correct board

of registrars in accordance with subsection (c) of O.C.G.A. Section 21-2-224.

Authority O.C.G.A. Secs. 21-2-31, 21-2-224. **History.** Original Rule entitled "Special Registration for New (30 day) Residents" adopted. F. July 24, 1968; eff. Aug. 12, 1968. **Amended:** F. Aug. 5, 1969; eff. Aug. 24, 1969. **Repealed:** New Rule entitled "Special 14-day Registration" adopted. F. June 24, 1974; eff. July 14, 1974. **Repealed:** F. Oct. 20, 1975; eff. Nov. 9, 1975. **Amended:** ER. 183-1-6-0.1-.01 entitled "Proper Identification for Registration" adopted. F. and eff. May 20, 1982, as specified by the Agency. **Amended:** Permanent Rule of same title adopted. F. Mar. 29, 1983; eff. Apr. 18, 1983. **Repealed:** F. Mar. 6, 1987; eff. Mar. 26, 1987. **Amended:** New Rule entitled "Acceptance of Voter Registration Applications" adopted. F. Oct. 29, 2009; eff. Nov. 18, 2009.

## 183-1-6-.02 Rules for Voter Registration by Private Entities.

(1) **Intent and Purpose.** These rules are promulgated pursuant to the authority granted to the State Election Board by Georgia Laws 1984, p. 1430, (O.C.G.A. Section 21-2-215(f)) and by Georgia Laws 1968, p. 862, (O.C.G.A. Section 21-2-31). It is the intent and purpose of the State Election Board to establish reasonable, necessary, and uniform rules and regulations to carry out the responsibilities of the State of Georgia with respect to the registration of voters in Georgia.

For the benefit and protection of those citizens who choose to entrust their completed voter registration applications to private entities and for the benefit and protection of the public and the fair administration of the electoral process, the State Election Board has promulgated these rules for voter registration by private entities. The State Election Board, within the parameters of the law, has taken care to make voter registration in Georgia as convenient and easy as practicable while retaining the necessary controls to prevent abuse of the system and fraud in the elective process. To this end, the State Election Board has promulgated these rules and regulations.

(2) **Definitions.** As used in this rule, unless otherwise noted, the term:

(a) "Close of registration" means the last day for the registration of voters in a primary or general election, as provided by law.

(b) "Private entity" means an individual who is not acting in an official capacity as a registrar or deputy registrar, or a non-governmental organization or other non-governmental entity that utilizes individuals other than registrars or deputy registrars to conduct voter registration programs.

(c) "Voter registration programs" means the distribution or collection of voter registration applications.

### **(3) Acceptance of Mail Voter Registration Applications.**

(a) A voter registration application postmarked or received by the Secretary of State or a registrar or deputy registrar within the time frames provided by law for the registration of electors shall be processed without regard to whether such application was received by mail or otherwise, was submitted singularly or bundled with other voter registration applications, or was submitted by a private entity. No board of registrars shall reject or refuse to process a voter registration application solely on the basis of how or by whom it was submitted.

(b) Any mail voter registration application received from a private entity (other than from an individual delivering his or her own application to a state or local election official in person) shall be processed in the same manner as an application received by mail, regardless of the manner in which such application was actually delivered.

(c) Nothing in this rule shall be construed to prohibit or in any manner restrict the right of any board of registrars or other authority from investigating and addressing suspected instances of voter registration fraud or to challenge, examine, verify, or determine the validity of voter registration applications or the qualifications and eligibility of persons applying to register to vote.

**(4) Voter Registration Activities of Private Entities.** Nothing in this rule shall be construed to prevent private entities from conducting organized voter registration programs and assisting eligible citizens with voter registration as permitted by state or federal law, including the distribution, collection, and transmittal of mail voter registration applications to the appropriate board of registrars.

### **(5) Instruction and Training of Private Entities.**

(a) Instruction and training for private entity voter registration activities pursuant to this rule shall be offered by the board of registrars. Training requests by private entities shall be made in

writing to the board of registrars. The board of registrars shall respond in writing to such requests with a training confirmation, including the date, time, and location such training will take place.

(b) At a minimum, training shall be provided to each private entity who requests such training on:

1. How to complete the voter registration application designed, published, and distributed by the Secretary of State in accordance with O.C.G.A. Section 21-2-223;

2. The proper security of completed voter registration applications;

3. The time frames within which completed voter registration applications are required to be transmitted to the appropriate board of registrars;

4. The identification requirements to be included with completed voter registration applications;

5. The identification requirements for voting at polling places within the state and the requirements for persons who registered to vote for the first time by mail; and

6. The required and prohibited activities of private entities as set forth in paragraphs (6) and (7) of this rule.

(c) The Secretary of State may develop and provide to the boards of registrars manuals for this instruction. The Secretary of State may also make such manuals available to the public, including via electronic means on the Secretary of State's website. Until such time as the Secretary of State develops such manuals, boards of registrars shall utilize such materials as will meet the training requirements of this rule.

**(6) Required Activities.** While engaging in organized voter registration activity within this state, a private entity shall:

(a) Advise each applicant that such applicant has the option to return his or her voter registration application personally to the appropriate board of registrars or to the Secretary of State or to permit the private entity to return it on the applicant's behalf;

(b) Inform all applicants that they are not officially registered to vote until their eligibility has been determined by the appropriate board of registrars and that, if the applicant has not received notification of the disposition of the application within three to four weeks of submitting the application, the applicant should contact the appropriate board of registrars to determine if such applicant's eligibility has been determined and the applicant's name entered on the official list of electors;

(c) Inform all applicants that, if they are registering to vote for the first time in the jurisdiction by mail or through a private entity, they must present current and valid identification either when registering to vote by mail or through a private entity or when voting for the first time after registering to vote by mail or through a private entity;

(d) Inform all Georgia applicants of the availability of an online registration status check and polling place locator service on the Secretary of State's website and encourage all applicants to access it in advance of a primary or election day to verify their registration status and correct polling place; and

(e) Inform all applicants of their right, under certain circumstances, to cast a provisional ballot in the event that their names do not appear on the official list of electors at the polls.

For purposes of compliance with the notice provisions provided in this paragraph, it shall be sufficient for the private entity either to post such notices in a conspicuous location at any fixed registration site or to provide such notices in written form to the applicant in a brochure, flyer, or other similar manner at the time of application. The Secretary of State may design and make available to private entities an appropriate model form that includes all required notices pursuant to this paragraph.

**(7) Prohibited Activities.** While engaging in voter registration programs within Georgia, a private entity shall not:

(a) Represent to any person that the private entity is a representative of the Secretary of State or a board of registrars authorized by law to receive voter registration applications in person;

(b) Make any statement to an applicant or take any action that the private entity knows or reasonably should know would discourage a qualified applicant from registering to vote;

(c) Refuse to accept and transmit a properly completed and contemporaneously dated voter registration application from any qualified individual;

(d) Be inebriated or otherwise impaired by drugs, alcohol, or other substances;

(e) Conduct voter registration activities at locations where the private entity knows that illegal or criminal activities are being conducted;

(f) Accept a completed registration application from the applicant unless such application has been sealed by the application, without a signed acknowledgement from the applicant that the applicant willingly and knowingly provided the unsealed application to the private entity;

(g) Copy a completed registration application without the express, written permission of the applicant; or

(h) Conduct voter registration activities in places where alcoholic beverages are sold and consumed on the same premises.

#### **(8) Transmittal of Completed Voter Registration Applications.**

(a) A private entity shall promptly transmit all completed voter registration applications to the Secretary of State or the appropriate board of registrars within ten days after receiving the application or by the close of registration, whichever period is earlier. If a private entity receives a completed voter registration application fourteen days or less before the close of registration, the private entity should transmit the application to the Secretary of State or the appropriate board of registrars within seventy-two hours of the date of the execution of the application or by midnight on the close of registration, whichever period is earlier.

(b) Transmittal of completed voter registration applications may be accomplished by in-person delivery, mail, commercial courier,

statutory overnight delivery, or any other form of delivery that is reasonably calculated to secure and ensure the confidential delivery and receipt of such applications by the Secretary of State or the appropriate board of registrars within three business days after transmittal and within the time frames required by these rules and regulations and state and federal law.

(c) With each transmittal of completed voter registration applications, a private entity should include a transmittal summary sheet which, at a minimum, provides the name of the submitting individual, the name of the private entity sponsoring the voter registration programs (if different than the submitting individual), the physical residence or business address of the submitting individual, the daytime and evening telephone numbers of the submitting individual, and the total number of applications being submitted. The Secretary of State may design and make available to private entities a model transmittal summary sheet containing the information requested in this subparagraph. The failure to include the transmittal summary sheet shall not by itself be grounds for rejecting the submitted applications. The private entity may enclose a postage-prepaid, self-addressed envelope, along with a copy of the completed transmittal summary sheet, if the private entity desires a date stamped receipt of the transmittal summary sheet from the board of registrars, in which case the board of registrars shall promptly acknowledge such receipt by returning a date stamped copy of the transmittal summary sheet to the private entity.

#### **(9) Confidentiality of Completed Voter Registration Applications.**

(a) A private entity shall keep all completed original voter registration applications in the possession of the private entity in a secure and confidential manner at all times until such applications are submitted to the Secretary of State or the appropriate board of registrars. Except as otherwise provided in this rule, a private entity shall not disclose any such applications or information contained therein, except as specifically provided in these rules and regulations to any member of the public. A private entity may collaborate with another affiliated private entity in the securing of completed original voter registration applications that are received during the course of a jointly organized voter registration program.

(b) With the express, written consent of the applicant, a private entity may make archival copies of an applicant's original voter registration application and retain such archival copies for use in aiding the applicant with verifying the timely and proper receipt and processing of his/her application by the applicable board of registrars. A private entity may engage the services of a commercial copying or document management service to make such archival copies provided that the company agrees to maintain the confidentiality and security of the original applications and any copies of the applications in the same manner as is required by private entities pursuant this rule.

(c) A private entity shall keep any such archival copies in a secure and confidential manner at all times and shall not disclose any such archival copies to any member of the public; provided, how-ever, that a private entity may disclose such archival copies to another affiliated private entity as necessary for use in aiding the applicant with verifying the timely and proper receipt and processing of his/her application by the applicable board of registrars. Archival copies of completed voter registration applications must be discarded by the private entity not later than 90 days following the transmittal of the completed voter registration application to the Secretary of State or board of registrars. Whenever such archival copies are discarded by the private entity, they must be discarded in the manner contemplated by O.C.G.A. § 10-15-2 for the destruction by businesses of records containing personal information.

(d) A private entity may create and keep a separate record of any information contained on the applicant's voter registration application that could otherwise be made available for public inspection pursuant to O.C.G.A. § 21-2-225(b) if collected and maintained by the Secretary of State on the official list of electors. No such information may be used by the private entity or any other person for commercial purposes. Whenever such information is discarded by the private entity, it must be discarded in the manner contemplated by O.C.G.A. § 10-15-2 for the destruction by businesses of records containing personal information.

Authority O.C.G.A. Sec. 21-2-91. **History.** Original Rule entitled "Duplicate Voting, Procedure for Checking" adopted. F. July 24, 1968, eff. Aug. 12, 1968. **Amended:** F. Aug. 5, 1969; eff. Aug. 24, 1969. **Amended:** F. Mar. 6, 1987; eff. Mar. 26, 1987. **Repealed:** F. Dec. 11, 2003; eff. Dec. 31, 2003. **Amended:** New Rule entitled "Rules for Voter Registration by Private Entities" adopted. F. Oct. 29, 2009; eff. Nov. 18, 2009.

**183-1-6-.03 Rules and Regulations for Voter Registration by Registrars and Deputy Registrars.****(1) Intent and Purpose.**

(a) These rules are promulgated pursuant to the authority granted the State Election Board by Georgia Laws 1984, p. 1430, (O.C.G.A. Section 21-2-215(0) and by Georgia Laws 1968, p. 862, (O.C.G.A. Section 21-2-31). It is the intent of the State Election Board to increase the level of participation in the elective process in the State of Georgia by encouraging the registration of voters within the State. It is the intent and purpose of the State Election Board, within the parameters of the law, to make voter registration in Georgia as convenient and as easy as practicable while retaining the necessary controls to prevent abuse of the system and fraud in the elective process. To this end, the State Election Board has promulgated these rules and regulations.

(b) Nothing in this rule shall be construed to prohibit any voter registration activity that is permitted pursuant to the National Voter Registration Act of 1993, 42 U.S.C. §§ 1973gg et seq., or any other federal or state law or regulation.

(c) Rules and regulations governing voter registration by private entities are provided in a separately numbered rule within this Chapter.

**(2) Criteria for Appointment of Deputy Registrars.** The board of registrars in each county may appoint deputy registrars to aid them in the discharge of their duties. The number of deputy registrars appointed to serve shall be determined by the board of registrars.

(a) Deputy registrars appointed by each county board of registrars shall meet the following qualifications:

1. be a registered voter in the State of Georgia;
2. be able to read, write and speak the English language;
3. have legible handwriting unless the voter registration applications are to be completed by typewriter or electronic means;
4. satisfactorily complete such training as shall be required by the board of registrars;

5. not have been convicted of a felony or of any crime involving fraud or moral turpitude;

6. not be a candidate for nomination or election to any office except as allowed by O.C.G.A. § 21-2-214; and

7. not have been removed as a deputy registrar for improper conduct in the performance of the duties of deputy registrar.

(b) Deputy registrars shall not engage in political activity on behalf of a candidate, political party or body, or question while actually conducting the duties of their office. While conducting the duties of their office, each person serving as a deputy registrar shall wear a badge or display identification which shall state no more than the person's name and the fact that the person is a deputy registrar of the county. There shall be available for inspection, upon request to verify the authority of the persons involved, the names of the authorized deputy registrars serving at the site.

(c) The following activities shall subject a deputy registrar to immediate revocation of appointment as a deputy registrar:

1. registering voters at unapproved sites, times, and hours, including door to door registration;

2. intoxication while on duty;

3. falsification of registration records;

4. improper handling of registration applications;

5. engaging in any communication, wearing badges, buttons, or clothing that advocates or criticizes a particular candidate, office holder, political party or body, or ballot question while on duty, such as making verbal statements and distributing campaign literature. However, deputy registrars shall identify themselves as deputy registrars of the county by wearing the badges or displaying the identification described in paragraph (b) above; and

6. failure to appear or remain at the deputy registrar's assigned site at or during the assigned hours without adequate notice to the board of registrars or without a proper replacement.

**(3) Criteria for Establishment of Additional Voter Registration Places:**

(a) The Board of Registrars, in addition to its main office, may designate other fixed places throughout the county as would be reasonably necessary to receive applications for registration and for the registration of electors.

(b) Such additional registration places shall be located in facilities which are open to and frequented by the general public. No place shall be used as an additional registration place unless the general public is freely admitted without regard to race, color, creed, religion, gender, or national origin,

(c) Churches which are open to all persons and which are, in fact, attended for any purpose by persons who are not members of the church shall be considered to be open to and frequented by the general public.

(d) The offices or facilities of community, civic, service, social, civil rights, patriotic, fraternal, and labor organizations shall be considered to be open to and frequented by the general public if non members of the organization in fact attend various activities sponsored by the organization at its offices and facilities and such offices or facilities are open to all persons. However, offices or facilities of political parties, political bodies or candidates shall not be used as additional voter registration places.

(e) The fact that a facility is used primarily or exclusively by the general public of one race or ethnic group or socioeconomic group shall not, for that reason alone, bar its designation as a registration place.

(f) When employers or business owners request the use of their place of business as a registration place, registration shall be conducted only in that part of the place of business which is open to the general public. Such part of the place of business shall be considered to be open to and frequented by the general public if it is an area which is maintained for use by the general public and is known to serve the general public for the purpose of conducting business or engaging in other transactions with the business.

(g) Organizations, employers, offices, and businesses that register voters at their facilities shall not limit registration to their members, employees, or customers, but must register any qualified applicant.

(h) Registration of voters shall be prohibited in places where alcoholic beverages are sold and consumed on the same premises.

(i) No registration of voters shall take place where criminal activities are permitted to occur.

(j) Registration places may be established on a temporary or permanent basis. Permanent places are those which operate on a fixed schedule for an indefinite period of time. Temporary places are those which operate on a temporary schedule and, among other things, may be used in voter registration drives.

1. The deputy registrars appointed by the board of registrars who staff registration places may be unpaid volunteers, employees of the board of registrars, or employees of government offices or of private businesses.

(k) Persons acting as individuals or as representatives of organizations and businesses may request the establishment of additional voter registration places. The board of registrars shall consider such requests.

1. If the request is approved, the board of registrars shall make provisions for having a deputy registrar who has been appointed by the board of registrars available at the additional voter registration places at all times which have been designated by the board of registrars and which have been precleared by the United States Department of Justice for the purpose of voter registration. The board of registrars shall inform such persons that registration may be conducted only at such times as are designated by the board of registrars, precleared by the United States Department of Justice, and advertised as required by law.

(l) The board of registrars shall retain the ultimate responsibility for the submission of additional registration places, dates, and times to the United States Department of Justice for preclearance pursuant to the Voting Rights Act of 1965 and for the advertising of registration places as required by law. The board of registrars shall also retain the ultimate responsibility for the appointment and training of deputy registrars, the proper conduct of voter registration, and the security of completed registration applications; but the board of registrars may

use deputy registrars to assist them in carrying out these duties.

(m) The board of registrars shall instruct deputy registrars in the law and procedure for registration prior to the administration of the oath of office to the deputy registrars. Such training shall include the duties and obligations of deputy registrars, the proper completion of registration applications, the proper security of registration applications, the protection of the integrity of the registration process, and the taking of oaths of registrants and the procedures for appeal upon rejection of the applications for registration.

(n) The Secretary of State shall provide the board of registrars of each county manuals for the use of deputy registrars which include simple instructions on the rules and procedures for the proper conduct of voter registration. The form and content of these manuals shall be determined by the Secretary of State. The board of registrars shall provide each deputy registrar with a copy of the manual.

(o) In order to ensure that the same degree of supervision and security provided at the main office of the board of registrars to prevent voter registration irregularities is maintained for the additional voter registration places, the following rules shall apply:

1. Except as provided in this rule, completed registration applications may be maintained by registrars and deputy registrars only:

(i) at the additional voter registration place during the hours of operation;

(ii) in transit to the main office of the board of registrars;

(iii) at the main office of the board of registrars;

(iv) at permanent additional voter registration places overnight but not beyond the end of the next business day; and

(v) at sites mandated as voter registration sites under O.C.G.A. §21-2-221 and 21-2-222 but not longer than the time permitted under those Code sections.

2. Notwithstanding any provision of this rule to the contrary, a valid registration application that is timely received by the Secretary of State or the registrars shall be accepted.

(p) The board of registrars should identify and establish additional voter registration places where the public congregates for commerce, recreation, worship, education, employment, and other such purposes which are most likely to facilitate registration and suit the convenience of the general public throughout the county. These places should be open at hours to suit the convenience of the general public including times other than the regular hours of the main office of the board of registrars.

(q) Wherever practicable, the Board of Registrars should fully utilize federal, state, county, and municipal offices located within the county which are open during regular business hours and other hours for the purpose of taking voter registration applications.

(r) All additional voter registration sites which are staffed by volunteer deputy registrars shall have prominently displayed a sign, placard, or banner which shall state that voter registration at that location is being conducted under the authority of the Board of Registrars of the county or, in counties in which the duties of the Board of Registrars are performed by Boards of Election, the county Board of Elections. If the volunteer deputy registrars are provided by an organization, club, or other group, the sign, placard, or banner may also identify the organization, club, or group providing the volunteer deputy registrars. The language contained on the sign, placard, or banner shall conform substantially to the following: "Voter registration at this location is being conducted under the authority of the Board of (Registrars or Elections) of \_\_\_\_\_ County. The volunteer deputy registrars at this location are provided by \_\_\_\_\_".

Authority O.C.G.A. Secs. 21-2-31, 21-2-218. **History.** Original Rule entitled "Rules and Regulations for Voter Registration" adopted. F. Jan. 22, 1985; eff. Feb. 11, 1985. **Amended:** F. Jan. 21, 1988; eff. Feb. 10, 1988. **Amended:** F. Apr. 10, 1989; eff. Apr. 30, 1989. **Amended:** F. Dec. 11, 2003; eff. Dec. 31, 2003. **Amended:** F. Dec. 28, 2005; eff. Oct. 29, 2009; eff. Nov. 18, 2009.

### **183-1-6-.04 Accessibility for Elderly and Disabled Voters.**

(1) **Preamble.** In order to implement the provisions of the Voting Accessibility for the Elderly and Handicapped Act (P.L. 98-435), the

State Election Board promulgates the following rules and regulations.

(2) **Definitions.** As used in this Rule, the terms:

(a) “Accessible” shall mean that a facility has a continuous unobstructed path connecting the parking area and the area within the facility which is being used for voting or voter registration, whichever the case may be, which complies with the relevant provisions of Sections 3 and 4 of American National Standards Institute specifications A117.1-1980 for making buildings and facilities accessible to and usable by physically disabled individuals.

(b) “Disabled” shall mean a temporary or permanent physical disability.

(c) “Elderly” shall mean persons 65 years of age or older.

(d) “Polling place” means the room provided in each precinct for voting at a primary or election.

(e) “Registration place” shall mean any place, either temporary or permanent, designated by the registrars of a county or municipality as a place to be used for voter registration.

(3) **Polling Places.** All polling places in the State of Georgia shall be accessible to disabled and elderly electors.

(4) **Reserved.**

(5) **Implementation.**

(a) **Polling Places.** The election superintendent of each county and municipality shall conduct, or cause to be conducted, an on-site inspection of each polling place located within the county or municipality to determine if the polling place is accessible. This inspection shall be reported to the Secretary of State on forms prepared by the Secretary of State at such times as the Secretary of State shall prescribe. Any polling place found not to be accessible shall either be made accessible prior to its use in a primary or election or shall not be used as a polling place.

(6) **Waivers.** No waiver shall be granted for polling places which are not accessible.

(7) **Printed Instructions.** The Secretary of State shall provide instructions for use by election superintendents at polling places and registrars at voter registration places, printed in large type, to assist visually and hearing impaired electors in voting and registering to vote.

(8) **Notice and Advertisement.**

(a) Each election superintendent shall mark or cause to be marked in a prominent manner the accessible path for elderly and disabled voters at all polling places.

(b) The display of the international disabled access symbol shall be sufficient marking of a polling place if the symbol is of a size and is located such that it can easily be seen by the public and if the accessible path from the parking area to the polling place is the same as the path used by non-disabled persons.

(c) Election superintendents shall take reasonable steps to inform disabled and elderly electors of the availability of accessible polling places.

(9) **Voting Aids.** The election superintendent of each county and municipality shall provide at least one magnifying glass at each polling place during each primary and election for use by visually impaired electors.

(10) If the voting equipment is not accessible to a disabled voter, the disabled voter shall be permitted to use a paper ballot.

(11) **Enforcement.**

(a) Election superintendents and boards of registrars shall investigate all complaints concerning accessibility to polling places and voter registration places and shall take such corrective action as may be necessary to ensure compliance with these rules concerning accessibility.

(b) Election superintendents and boards of registrars shall report in writing to the State Election Board through the Secretary of State all complaints concerning accessibility, the results of the investigation of the complaints, and any corrective actions taken.

(c) The State Election Board may, in its discretion, investigate these complaints further and take such actions as it deems

appropriate to ensure that these rules concerning accessibility are implemented and effectuated.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Accessibility for Elderly and Handicapped Voters" adopted. F. Aug. 1, 1986; eff. Aug. 21, 1986. **Amended:** F. Sept. 18, 1986; eff. Oct. 8, 1986. **Amended:** F. Dec. 11, 2003; eff. Dec. 31, 2003.

### **183-1-6-.05 Registration of Persons by College Presidents or Their Designees.**

(1) **Authority.** The president of each public or private college or university located in the State of Georgia is authorized to register to vote all qualified students, staff, and faculty at the college or university. For students domiciled in the State of Georgia, the college or university president or designee of the president shall be a deputy registrar on behalf of all boards of registration in the State of Georgia for the purpose of taking applications for voter registration for these students. For staff and faculty domiciled in the county in which the college or university is located, each college or university president or designee of the president shall be a deputy registrar of the county in which the college or university is located for the purpose of taking applications for voter registration for those faculty and staff members.

(2) **Designees.** Each college or university president is authorized to designate such persons as the college or university president deems appropriate for the purpose of aiding the college or university president in the exercise of the president's voter registration duties. It shall not be necessary for any person so designated to be a resident of the county in which the college or university is located. However, each person so designated shall be a registered voter in the State of Georgia and shall take an oath as a deputy registrar. The designation shall be in writing and shall be forwarded by the college or university president to the chief registrar of the county in which the college or university is located. Registration applications completed by persons who are not designated in writing to the chief registrar by the college or university president to register persons on behalf of the college or university president shall be rejected.

(3) **Training.** Each person designated by a college or university president to register voters on behalf of the president shall immediately contact the chief registrar of the county in which the college or university is located to undergo such training board of registrars of the county ordinarily provides for deputy registrars. Such training shall be completed prior to the individual taking any application for voter registration.

(4) **Registration Applications.** The board of registrars in each county in which a college or university is located shall provide to the college or university president a sufficient number of registration applications for use in registering qualified students, staff, and faculty at the college or university.

(5) **Security.** Any person designated by a college or university president to take voter registration applications on behalf of the college or university president shall also take such steps as are necessary to provide appropriate and adequate security for the registration applications which are placed in that person's possession. Completed voter registration applications shall be returned to the board of registrars in the county in which the college or university is located as soon as possible, but, in no event, later than the next business day.

(6) **Voter Registration Places.** Each place utilized for the collection and receipt of applications for voter registration by the college or university president or designee of the president shall be precleared under Section 5 of the Voting Rights Act of 1965 (42 U.S.C. Section 1973c). The board of registrars of the county in which the college or university is located shall be responsible for obtaining this preclearance. No registration shall be conducted at locations which have not been precleared. Door-to-door registration is prohibited.

(7) **Receipt of Completed Applications.** Upon the receipt of completed voter registration applications from a college or university, the board of registrars of the county in which the college or university is located shall retain those applications completed by individuals who are domiciled in the county in which the college or university is located and shall forward the remainder of the applications completed by individuals domiciled in other counties directly to the appropriate county registration offices.

(8) **Limitations on Presidents and Their Designees.** College and university presidents and their designees are limited to registering only those qualified students, staff and faculty at the college and university and may not register any other individuals.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Registration of Persons by College Presidents or Their Designees" adopted. F. Feb. 17, 1992; eff. Mar. 8, 1992. **Amended:** F. Dec. 11, 2003; eff. Dec. 31, 2003.

**183-1-6-.06 Verification of United States Citizenship of Applicants for Voter Registration.**

(1) On and after January 1, 2010, an application for registration to vote shall be accompanied by satisfactory evidence of United States citizenship.

(2) Satisfactory evidence of citizenship shall include any of the following:

(a) Verified Georgia Driver's License Number or Identification Card Number or Out of State Driver's License or Identification Card.

1. An applicant may provide as satisfactory evidence of citizenship, the number of the applicant's driver's license or identification card issued by the Georgia Department of Driver Services, upon verification by the Secretary of State that the applicant has provided satisfactory evidence of United States citizenship to the Georgia Department of Driver Services.

2. An applicant may provide as satisfactory evidence of citizenship, the applicant's driver's license or identification card, or legible photocopy thereof, issued by a state driver's license agency of another state equivalent to the Georgia Department of Driver Services, or a legible photocopy thereof, if such agency indicates on the driver's license or identification card that the applicant has provided satisfactory evidence of United States citizenship to such agency.

(b) Birth Certificate.

1. An applicant's birth certificate, or a legible photocopy thereof, is satisfactory evidence of citizenship so long as the birth certificate shows that the applicant was born within the United States. In the event that the birth certificate contains a different first, middle, or last name from the name contained on the application for registration, the board of registrars shall require additional supporting legal documentation to establish that the applicant is the same individual as the individual identified on the birth certificate, including but not limited to a marriage certificate or court order confirming change of name.

2. A Certificate of Birth Abroad, or legible photocopy thereof, obtained by a United States citizen when such individual registers with the Department of State in the event such individual is born

abroad in a non-military installation, shall be accepted and treated as a birth certificate.

(c) United States Passport.

1. An applicant's United States passport, or a legible photocopy of pages of the applicant's United States passport which contain the passport number, name, nationality, date of birth, place of birth, and signature, shall serve as satisfactory evidence of citizenship.

(d) United States Naturalization Documents or Verified Alien Registration Number.

1. An applicant may provide the board of registrars with the applicant's United States Certificate of Naturalization issued by the United States Citizenship and Immigration Services.

(i) Registrars and deputy registrars who attend naturalization ceremonies may assist new citizens in registering to vote. In such event, the registrar or deputy registrar shall examine the applicant's United State Certificate of Naturalization and initial and date the application for registration. If applicants from outside the county apply at the ceremony, the registrar or deputy registrar conducting the voter registration activities shall bundle the registrations by county and send them to the appropriate county board of registrars with an official cover letter stating that all naturalization documents were verified by the registrar or deputy registrar. A county that receives applications in this manner shall accept the applications without requiring further evidence of citizenship from the applicant.

2. If only the alien registration number from naturalization documents is provided for citizenship purposes, the applicant shall not be found eligible to vote until the applicant's alien registration number is verified with the United States Citizenship and Immigration Services by the Secretary of State utilizing the Systematic Alien Verification for Entitlements program.

(e) Documents or methods of proof that are established pursuant to the federal Immigration Reform and Control Act of 1986 (P. L. 99-603).

(f) Bureau of Indian Affairs Card Number, Tribal Treaty Card Number, or Tribal Enrollment Number.

(g) Other Documents and Methods of Proof.

1. Applicants who do not have any of the documents enumerated in subparagraphs (g)(2)(A) through (F) of O.C.G.A. Section 21-2-216 and who are residents of this State and United States citizens may provide any of the following as satisfactory evidence of United States citizenship:

(i) Certificate of Citizenship issued by the United States Immigration and Naturalization Service;

(ii) Consular Report of Birth Abroad of a Citizen of the United States of America;

(iii) Certification of Report of Birth issued by the United States Department of State;

(iv) United States Citizen Identification card;

(v) American Indian Card issued by the United States Department of Homeland Security with the classification code "KIC";

(vi) Final adoption decree showing the applicant's name and United States birthplace;

(vii) Evidence of the applicant's civil service employment by the United States government before June 1976;

(viii) An official United States military record of service showing a United States place of birth;

(ix) A Northern Mariana Identification Card issued by the United States Immigration and Naturalization Service; or

(x) Extract of United States hospital record of birth created at the time of the person's birth indicating a United States place of birth.

2. If the applicant cannot obtain any of the documents described in subparagraphs (g)(2)(A) through (F) of O.C.G.A. Section 21-2-216 and (g)1. above, the applicant may request a hearing for the board of registrars to review other evidence of the applicant's United States citizenship. The board of registrars shall schedule a hearing to review such evidence provided by applicants at least once per month and on the last day to verify provisional ballots for any election pursuant to O.C.G.A. Section 21-2-419. The hearing shall be conducted as follows:

(IX) Statement signed by the birth physician or midwife who was in attendance at the time of birth; or

(X) If other forms of documentation cannot be obtained, documentation may be provided at the hearing by written affidavit, signed under penalty of perjury, from two citizens, one of whom cannot be related to the person in question, who have specific knowledge of event(s) establishing the applicant's United States citizenship status. The applicant or another knowledgeable individual must also submit an affidavit stating why the documents are not available. Such affidavits are only expected to be used in rare circumstances.

3. The board of registrars may accept legible copies of documents bearing on United States citizenship received via United States Mail, facsimile, electronic mail, personal delivery, or other means.

4. Having a Social Security card or being a member of the United States military is not, in and of itself, sufficient evidence that an individual is a United States citizen.

(3) If an application for registration is completed in person at the board of registrars' office or other registration place and the applicant provides satisfactory evidence of citizenship at that time, the registrar or deputy registrar shall indicate on the voter registration application:

(a) That the person provided satisfactory evidence of citizenship,

(b) The type of evidence of citizenship provided, and

(c) The initials of the registrar or deputy registrar who made the verification.

(4) If an applicant fails to supply satisfactory evidence of citizenship with the application for registration, the board of registrars shall, within 10 days of receipt of the application, notify the applicant of the failure to present satisfactory evidence of United States citizenship as follows:

(a) The board of registrars shall send the notice by nonforwardable, first-class mail to the mailing address listed on the application and shall inform the applicant of the missing information and that the application will be rejected if satisfactory evidence of United States citizenship is not provided to the board of registrars within 30 days following the sending of the notice.

(b) If the applicant does not provide satisfactory evidence of United States citizenship to the board of registrars within 30 days of the sending of the notice, the board of registrars shall reject the application and shall immediately notify the applicant of the rejection in writing by nonforwardable, first-class mail at the mailing address listed on the application.

(c) If the initial application is received prior to the close of voter registration prior to a primary or election and the primary or election occurs within 30 days following the sending of the notice, the applicant may supply satisfactory evidence of United States citizenship on or prior to the date of the election. If the applicant supplies satisfactory evidence of United States citizenship and is found eligible to vote, the applicant shall be added to the list of electors and shall be permitted to vote in the election and any run-off elections resulting therefrom and subsequent elections.

(5) The board of registrars shall not determine the eligibility of an applicant unless and until satisfactory evidence of United States citizenship is supplied by the applicant.

(6) United States citizenship question on application for registration.

(a) Regardless of whether an applicant provides satisfactory evidence of United States citizenship, if such applicant fails to answer the question on the application for registration asking, "Are you a citizen of the United States of America?", the registration shall be considered incomplete until the board of registrars obtains a completed application. The registrar shall return a copy of the application by letter sent by nonforwardable, first-class mail and request that the applicant complete the question by answering "Yes" or "No" to the question regarding United States citizenship. For the purpose of voter registration, an appropriate indicator includes marking a check mark in the box, placing "X" in the box, circling the box, shading the box, or any other method involving the "Yes" box that indicates the applicant is a citizen of the United States.

(b) If the citizenship box is marked "No", the board of registrars shall reject the application and shall immediately notify the applicant of the rejection in writing by nonforwardable, first-class mail at the mailing address listed on the application.

**183-1-8-.01**      **Calls for Primaries and Elections**

**183-1-8-.01 Calls for Primaries and Elections.** All calls for primaries and elections shall bear the date of first publication in a newspaper of the notice of such call, and all computations of time as required by the Georgia Election Code shall be based upon such date. This provision shall not alter in any manner the publication requirements relative to notice as set forth in said Code.

Authority Georgia Election Code 1964 as amended. **Administrative History.** Original Rule was filed on June 24, 1974; effective July 14, 1974.

NOMINATION OF CANDIDATES**

**TABLE OF CONTENTS**

183-1-10-.01    Qualification of Candidates for Office;  
                    Time Period During Which Bank, Credit  
                    Union, or Other Financial Institution  
                    May Certify Error in Returning Check

**183-1-10-.01 Qualification of Candidates for Office; Time  
Period During Which Bank, Credit Union, or Other Financial  
Institution May Certify Error in Returning Check.**

(1) In the event a candidate for federal or state office pays his or her qualifying fee with a check that is subsequently returned for insufficient funds, the Secretary of State shall automatically find that such candidate has not met the qualifications for holding the office being sought. A written certification from the bank, credit union, or other financial institution returning the check that it erred in returning the check will prevent such an automatic finding so long as the certification is received by the Secretary of State within two weeks after the deadline for qualifying.

(2) In the event a candidate for county or municipal office pays his or her qualifying fee with a check that is subsequently returned for insufficient funds, the superintendent shall automatically find that such candidate has not met the qualifications for holding the office being sought. A written certification from the bank, credit union, or other financial institution returning the check that it erred in returning the check will prevent such an automatic finding so long as the certification is received by the superintendent within two weeks after the deadline for qualifying.

Authority O.C.G.A. Secs. 21-2-6, 21-2-6, 21-2-31. **History.** Original Rule entitled "Qualification of Candidates for Office; Time Period During Which Bank, Credit Union, or Other Financial Institution May Certify Error in Returning Check" adopted. F. Oct. 29, 2009; eff. Nov. 18, 2009.

BALLOTS**

**TABLE OF CONTENTS**

<b>183-1-11-.01</b>	<b>Ballot Secrecy</b>	<b>183-1-11-.02</b>	<b>Appearance of Candidate's Name on Ballot</b>
---------------------	-----------------------	---------------------	---

**183-1-11-.01 Ballot Secrecy.** Each Superintendent of Elections shall ensure that handicapped persons casting their vote at the polls are able to do so in private by providing such facilities and equipment as necessary to maintain the secrecy of the ballot.

Authority O.C.G.A. Secs. 21-2-218, 21-2-31. **History.** Original Rule entitled "Ballot Secrecy" adopted. F. Nov. 14, 1986; eff. Dec. 4, 1986.

**183-1-11-.02 Appearance of Candidate's Name on Ballot.**

- (1) A candidate's name on the ballot shall include the candidate's last name shown on the candidate's voter registration records and at least one of: (1) the first name shown on the candidate's voter registration records or corresponding initial, (2) the middle name shown on the candidate's voter registration records or corresponding initial, (3) an abbreviated name by which the candidate is commonly known in the community, or (4) a nickname by which the candidate is commonly known in the community. Any nickname is subject to Section (2) of this rule.
- (2) A candidate's name may include a nickname by which the candidate is commonly known in the community but shall not contain any spurious phrases, title or degree designating the business, fraternal, religious, or professional affiliation of the candidate, or political slogan or message. A title or degree includes, but is not limited to, military or professional title or rank, or references such as "Dr.", "Rev.", "Judge", "Mr.", "Ms.", "Mrs.", or "Miss". A determination as to whether a nickname violates this Rule lies within the sound discretion of the Secretary of State or election superintendent, as appropriate.

- (3) The total number of spaces, inclusive of letters, spaces, and

and punctuation, which may be utilized on the ballot for a candidate's name and, if any, nickname, shall be twenty-five (25). Notwithstanding the listing of the candidate's name on the filing papers, spaces, periods, quotation marks, and commas necessary for proper punctuation shall be added by the Secretary of State or the election superintendent, as appropriate. No candidate's name shall exceed twenty-five (25) spaces. The Secretary of State or the election superintendent, as appropriate, shall determine the correct listing for any candidate whose name exceeds twenty-five (25) spaces to conform to this requirement.

(4) A determination as to whether the candidate's requested name on the ballot complies with this Rule shall be within the discretion of the Secretary of State or election superintendent, as appropriate. Upon a determination that the requested name does not comply with this Rule, the Secretary of State or election superintendent, as appropriate shall modify the candidate's name on the ballot so that it complies with this Rule.

Authority O.C.G.A. §§ 21-2-31, 21-2-132, 21-2-284, 21-2-284.1, 21-2-285, 21-2-285.1, 21-2-287, 21-2-325.

(5) The total number of spaces, inclusive of letters, spaces, and punctuation, which may be utilized on the ballot for a candidate's name and, if any, nickname, shall be twenty-five (25). Notwithstanding the listing of the candidate's name on the filing papers, spaces, periods, quotation marks, and commas necessary for proper punctuation shall be added by the Secretary of State or the election superintendent, as appropriate. No candidate's name shall exceed twenty-five (25) spaces. The Secretary of State or the election superintendent, as appropriate, shall determine the correct listing for any candidate whose name exceeds twenty-five (25) spaces to conform to this requirement.

183-1-12-.05	Repealed	183-1-12-.10	Use of Absentee Ballots When Voting Machines are Inaccessible

**183-1-12-.01 Conduct of Elections.** Beginning with the November 2002 General Election, all federal, state, and county general primaries and elections, special primaries and elections, and refer-endums in the State of Georgia shall be conducted at the polls through the use of direct recording electronic (DRE) voting units supplied by the Secretary of State or purchased by the counties with the authorization of the Secretary of State. In addition, absentee balloting shall be conducted through the use of optical scan ballots which shall be tabulated on optical scan vote tabulation systems furnished by the Secretary of State or purchased by the counties with the authorization of the Secretary of State; provided, however, that the use of direct recording electronic (DRE) voting units is authorized by the Secretary of State for persons desiring to vote by absentee ballot in person.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Voting Machines" adopted. F. July 24, 1968; eff. Aug. 12, 1968. **Repealed:** New Rule entitled "Conduct of Elections" adopted. F. Aug. 30, 2002; eff. Sept. 19, 2002. **Amended:** F. Oct. 24, 2003; eff. Nov. 13, 2003.

**183-1-12-.02 Direct Recording Electronic Voting Equipment.**

(1) Definitions. As used in this rule, the term:

(a) "Assist", "assisted", "assisting", or "assistance" means the act of marking a voter registration application, application for absentee ballot, or ballot on behalf of a voter who is unable to read the English language or has a disability which renders him or her unable to see or mark the voter registration application, application for absentee ballot, or ballot or operate the voting equipment, or to enter the voting compartment or booth unaccompanied, in the manner personally

requested and communicated by such voter. This definition will apply equally to Code Sections 21-2-322, 21-2-365, 21-2- 379.1, 21-2-384, 21-2-385, 21-2-385.1, 21-2-400, 21-2-402, 21-2-409, 21-2-409.1, 21-2-413, 21-2-456, 21-2-500, 21-2-568, 21-2-579, 21-2- 587, 21-2-590, 21-2-591, 21-2-592.

(b) “Ballot” shall mean the offices, candidates, and questions to be submitted to the voters at a primary, election, or runoff for each county or municipality.

(c) “Ballot Encoder Device” shall mean the electronic device by which the poll officers program the voter access card to authorize the voter to vote on the DRE units.

(d) “Ballot Style” shall mean the presentation of the offices, candidates, and questions to be submitted to the voters at a primary, election, or runoff on a DRE unit that contains only the offices and questions for the voters of specified districts within the precinct.

(e) “Counter” shall mean the registers on each DRE unit which increment by one each time a vote is cast on the unit. The “election counter” is the register which is reset for each election and records the number of ballots voted on a DRE unit in a particular election. The “system counter” is the register which cannot be reset and records the number of ballots voted on a DRE unit over the course of the life of the unit.

(f) “DRE unit” shall mean a direct recording electronic voting device which is a computer driven unit for casting and counting votes on which a voter casts his or her votes through the use of a touch screen or VWD device. The term shall include both state supplied devices and devices purchased by counties.

(g) “Early voting period” shall mean that period of time preceding a primary or election in which the board of registrars or absentee ballot clerk shall mail or issue official absentee ballots to all eligible applicants.

(h) “Enclosed space” shall mean that area within a polling place enclosed with a guardrail or barrier closing the inner portion of such area so that only such persons as are inside such guardrail or barrier can approach within six feet of the ballot box, voting compartments,

voting booths, or voting machines.

(i) “Memory Card” shall mean the electronic card (PCMCIA card) on which the ballot styles for a particular precinct are electronically stored and which is inserted into the direct recording electronic voting unit (DRE) to program the DRE unit for voting and on which vote totals are recorded for the DRE unit during the voting process.

(j) “Opening of the Polls” shall mean the commencement of voting in a particular primary, election, or runoff. Opening of the polls does not refer to the unlocking or opening of the doors of the polling place. Similarly, the term “Closing of the Polls” shall mean the cessation of voting in a particular primary, election, or runoff and not the locking or dosing of the doors of the polling place.

(k) “Supervisor’s Card” shall mean the electronic card to be used by the poll manager which is inserted into the DRE unit in order to configure the DRE unit for voting, to test the DRE unit, to terminate or suspend voting on the DRE unit, or to access other utility functions on the DRE unit.

(l) “Voter Access Card” shall mean the electronic card issued to a voter which is inserted into a DRE unit to authorize the voter to cast a ballot on the DRE unit.

(m) “VWD Device” is a device for use by illiterate and/or visually impaired voters in voting on a DRE unit and consists of an audio headset and a keypad by which the ballot can be provided to the voter aurally and the voter can cast his or her vote by use of the keypad.

(n) “Zero Tape” shall mean a tape printed out by the DRE unit which shows that all vote registers in the DRE unit for recording votes for candidates and questions are set to zero and that no votes are present on the unit.

## (2) Receipt, Maintenance, and Storage.

(a) Acceptance tests. Upon the receipt of each new direct recording electronic voting unit (DRE), the election superintendent of the county is responsible to ensure that an acceptance test is performed on the device in accordance with standards issued by the Secretary of State. No DRE unit shall be accepted by the county or placed into service

until such time as the unit satisfactorily passes the prescribed acceptance tests.

(b) Storage of DRE units.

1. The election superintendent of the county shall maintain the DRE units in accordance with the requirements of this rule, the directives of the Secretary of State, and the specifications and requirements of the manufacturer.

2. The DRE units shall be stored in a climate controlled space in which the temperature and humidity levels are maintained at acceptable levels year-round which shall not be lower than 5 degrees Celsius (41 degrees Fahrenheit) nor higher than 40 degrees Celsius (104 degrees Fahrenheit) and not lower than 35 percent relative humidity and not higher than 85 percent relative humidity such that no condensation forms on such units. The units shall not be stored in an area in which liquids or fluids stand, pool, or accumulate at any time or in areas that are subject to such standing, pooling, or accumulating liquids or fluids. The space in which the units are stored shall be secured and shall be accessible only to persons authorized by the election superintendent to have access to such units or such space. The DRE units may be stacked atop each other but no more than five units may be in a stack unless a rack system has been constructed for the storage of the units. The election superintendent shall ensure that the batteries in each unit are charged at least quarterly in accordance with the manufacturer's specifications.

3. The storage areas for DRE units shall be equipped with one or more of the following forms of electronic surveillance and protection: keypads or electronic locks, motion detectors, video surveillance, or a security system that is connected to an outside monitoring source, such as the police department or fire department. In lieu of providing electronic surveillance and protection, the DRE units may be interlocked through the use of a cable or chain that is secured by a padlock or other type of locking system.

4. The election superintendent shall maintain numbered seals on all DRE units in storage and all seal, numbers shall be recorded and on file in the office of the election superintendent.

5. Upon delivery to a polling place in preparation for a primary, election, or runoff, the DRE units shall be secured and protected from unauthorized access by storing the DRE units in a locked and secure room at the polling place, having the person taking possession of the units personally supervise the units at all times prior to the opening of the polls, or by interlocking the DRE units with a cable or chain that is secured by a padlock or other type of locking system.

6. The expenses for the implementation of the storage and security requirements of this rule shall be the responsibility of the county or municipal governing authority, as applicable, unless such security features are provided by the state.

(c) Software security. The software contained in each DRE unit, regardless of whether the unit is owned by the county or the state, and the software used to program the unit and to tabulate and consolidate election results shall not be modified, upgraded, or changed in any way without the specific approval of the Secretary of State. No other software shall be loaded onto or maintained "or used on computers on which the GEMS software is located except as specifically authorized by the Secretary of State.

(d) Maintenance of DRE units. After the end of the initial warranty period for state owned DRE units and computers for use in programming the DRE units and tabulating and consolidating the vote totals, the county shall be responsible for the maintenance and upkeep of such devices, including the repair and/or replacement of any devices which are destroyed, damaged, or otherwise rendered incapable of use in elections.

(e) Access to GEMS servers.

1. The room in which the GEMS server is located shall be locked at all times when the server is not directly under the supervision of the election superintendent or the election superintendent's designee. Lock and key access to the room where the GEMS server is located shall be limited to the county election superintendent; members of the county board of elections; the election supervisor, if any; personnel of the county election superintendent's office designated by the county election superintendent; building maintenance personnel; and emergency personnel. Building maintenance personnel shall have

access to the room in which the GEMS server is located only to the extent necessary to carry out their maintenance duties. The election superintendent shall maintain on file at all times in the office of the election superintendent a complete and up to date list of all maintenance personnel with access to the room in which the GEMS server is located. Emergency personnel shall have access to the room in which the GEMS server is located only as necessary in the event of an emergency and only for the duration of such emergency condition.

2. The GEMS server shall remain locked at all times when not in use. The key or keys to the GEMS server shall remain in the possession of the election superintendent or the designee of the election superintendent at all times.

(f) Security of DRE units and accessories. All DRE units, optical scanner devices, voter access cards, supervisor cards, memory cards, DRE unit keys, voting system software, and encoders shall be stored under lock and key at all times when not in use. Lock and key access to such items shall be limited to the county election superintendent; members of the county board of elections; the election supervisor, if any; personnel of the county election superintendent's office designated by the county election superintendent; building maintenance personnel; and emergency personnel. Building maintenance personnel shall have access to the area where such items are stored only to the extent necessary to carry out their maintenance duties. The election superintendent shall maintain on file at all times in the office of the election superintendent a complete and up to date list of all maintenance personnel with access to the area in which such items are stored. Emergency personnel shall have access to the area where such items are stored only as necessary in the event of an emergency and only for the duration of such emergency condition. Whenever maintenance or emergency personnel are required to enter the storage area, the election superintendent must be notified of that entry within 24 hours and the election superintendent must maintain a log of those persons who entered the storage area.

(g) Voting system handling requirements.

1. All personnel, with the exception of the permanent employees of the Office of the Secretary of State and permanent employees of the county or municipal election superintendent, who prepare voting

equipment for use in a primary, election, or runoff shall complete an oath of custodian before each election. One copy of the oath shall be placed on file in the office of the election superintendent and an additional copy shall be filed with the records for the election filed with the clerk of superior court or the municipal clerk, as appropriate. The oath of custodian shall be in the following form:

STATE OF GEORGIA  
COUNTY/MUNICIPALITY OF \_\_\_\_\_  
OATH OF CUSTODIANS AND DEPUTY CUSTODIANS  
OF DRE UNITS

I, \_\_\_\_\_, do swear (or affirm) that I will as a (deputy) custodian of the voting systems for the County/Municipality of \_\_\_\_\_, faithfully perform all of my duties in accordance with state law; that I will prepare in accordance with all applicable rules and regulations governing the use of the voting system all DRE units to be used in primaries, elections, and runoffs in this county/municipality; that I will use my best endeavors to prevent any fraud, deceit, or abuse in carrying out my duties while preparing the DRE units for use in primaries, elections, and runoffs; and that I am not disqualified by law to hold the position of (deputy) custodian.

\_\_\_\_\_  
(Deputy) Custodian

Administered by, sworn to,  
and subscribed before me,  
this \_\_\_\_\_ day of \_\_\_\_\_, 200 \_\_\_\_.

\_\_\_\_\_  
Superintendent

(Required by O.C.G.A. Section 21-2-379.6(b))

2. All DRE units and accessories that are removed from storage for educational or training purposes must be signed in and out on an equipment log maintained by the election superintendent. The log shall contain, at a minimum, a description of the item being checked out, including any serial number or identifying number; the date and time when the item is checked out; the name of the person checking out the item; and the date and time when the item is returned to

storage. The items checked out of storage shall remain in the custody and control of the person checking out the items at all times and the person checking out the items shall personally return such items. Each person who utilizes equipment for educational or training purposes must be adequately trained in the use of the equipment prior to the release of the equipment into such person's custody.

3. The GEMS server shall not be moved or relocated for educational or training purposes. Should it become necessary to relocate the GEMS server or any of its components from one facility to another, the election superintendent shall notify the Secretary of State in writing of the reason for the relocation and the proposed new location. Under no circumstances shall the GEMS server or any of its components be relocated unless and until written authorization for the relocation is received from the Secretary of State except in the event of an emergency situation beyond the control of the election superintendent.

4. The poll manager shall sign a receipt for all supervisor cards, encoders, voter access cards, memory cards, and DRE unit keys assigned to such poll manager's precinct. Upon returning election supplies to the election superintendent's office following the close of the polls, the poll manager shall account for all such items and shall certify that all such items have been returned or shall describe any missing items and explain why such items have not been returned. The Secretary of State shall prepare and provide a chain of custody sheet for this purpose.

5. All supervisor cards, encoders, voter access cards, memory cards, DRE unit keys, and other equipment assigned to designated county election technicians shall be accounted for on the night of a primary, election, or runoff and shall be returned to storage. Each technician shall sign a receipt for all such items issued to such technician and, upon returning such items to the election superintendent's office following the close of the polls, the technician shall account for all such items and shall certify that all such items have been returned or shall describe any missing items and explain why such items have not been returned. The Secretary of State shall prepare and provide a chain of custody sheet for this purpose.

6. The election superintendent shall notify the Secretary of State of

any instances of unaccounted for DRE units, optical scanner devices, voter access cards, supervisor cards, memory cards, DRE unit keys, voting system software, and encoders at the completion of certification by delivering such notification to the Secretary of State when the certified election results are delivered to the Secretary of State.

(3) Preparation for Elections.

(a) Ballots.

1. The election superintendent shall cause the memory cards (PCMCIA cards) to be used in each precinct to be prepared in accordance with law and applicable rules and regulations.

2. Each memory card (PCMCIA card) shall be appropriately labeled with the name of the precinct for which it is programmed for use. The election superintendent shall ensure that each memory card (PCMCIA card) shall be programmed and tested to ensure that the proper ballot style or styles for the precinct for which it is programmed are included on the card and no other ballot styles.

3. Each ballot and ballot style shall be proofread by the election superintendent or a person or persons under the direction of the superintendent to ensure that the ballot contains the proper offices, candidates, and questions to be submitted to the voters, that the offices and names are spelled and designated correctly, that political party or body affiliations and incumbency of candidates are correctly designated where applicable, and that the questions are presented in accordance with law and this rule and that the correct offices and questions are presented on each ballot style.

4. For each office on the ballot, the ballot shall state the name of the office; the post, position, or person presently holding the office if necessary to identify the specific office subject to election; the number of candidates for which the voter may vote for such office; the names of the candidates; the residence address of the candidates if there has been a determination that the names are sufficiently similar to so require such information under O.C.G.A. § 21-2-379.5; in partisan elections, the name of the political party or body that nominated the candidate or a designation of the candidate as an independent candidate; and the designation of the incumbency of a candidate seeking reelection to the office which the candidate then holds.

5. The offices, candidates, and questions shall be listed on the ballot in the order specified in O.C.G.A. §§ 21-2-379.4 and 21-2- 379.5.

6. The ballot shall be displayed in the following fonts:

(i) The words “Official Ballot” shall be displayed in 16 point Arial Bold.

(ii) All text beneath the words “Official Ballot” which designate the county or municipality conducting the election, precinct, type of election, and date of the election shall be displayed in 12 point Arial Bold.

(iii) The words “I understand that the offer or acceptance of money or any other object of value to vote for any particular candidate, list of candidates, issue, or list of issues included in this election constitutes an act of voter fraud and is a felony under Georgia law.” shall be displayed in 8 point Arial Narrow Italicized.

(iv) The name of the office shall be displayed in 12 point Arial Bold.

(v) Information on the designation of the office (“To succeed \_\_\_\_\_”) and the number of candidates for which an elector may vote for each office shall be displayed in 10 point Arial.

(vi) The names of candidates shall be displayed in 10 point Arial Narrow Bold in all capital letters.

(vii) Incumbency designations shall be displayed in 8 point Arial Narrow Bold.

(viii) Political party or body and independent designations shall be displayed in 9 point Arial Narrow.

(ix) The text of questions to be submitted to the electors shall be displayed in 10 point Arial Narrow Bold.

(x) The choices for voting on a question (i.e., “YES” and “NO”) shall be displayed in 10 point Arial Narrow Bold.

7. The ballot shall be displayed in the following colors:

(i) All text, designations, and names shall be displayed in black letters.

(ii) The background colors shall be as follows:

(I) The overall page shall be blue (Hue: 180, Sat: 240, Lum: 60, Red: 64, Green: 0, Blue: 128).

(II) The general election header shall be yellow (Hue: 40, Sat: 240, Lum: 120, Red: 255, Green: 255, Blue: 0).

(III) The Democratic Party Primary header shall be white (Hue: 160, Sat: 0, Lum: 240, Red: 255, Green: 255, Blue: 255).

(IV) The Republican Party Primary header shall be light blue (Hue: 120, Sat: 240, Lum: 120, Red: 0, Green: 255, Blue: 255).

(V) The nonpartisan election header shall be light green (Hue: 60, Sat: 240, Lum: 120, Red: 128, Green: 255, Blue: 0).

(VI) The box containing the contest or question to be voted upon shall be burnt orange (Hue: 20, Sat: 240, Lum: 120, Red: 255, Green: 128, Blue: 0).

(VII) The box containing the names of the candidates or the answers or responses to a referendum question for which an elector may vote shall be white (Hue: 160, Sat: 0, Lum: 240, Red: 255, Green: 255, Blue: 255).

8. In addition to the displayed ballot, the election superintendent shall cause an audio ballot to be prepared for use with the VWD devices. The superintendent shall ensure that all matters are recorded correctly and that the names of the candidates are pronounced correctly in the audio recordings. The election superintendent shall also ensure that no candidate's name; political party, political body, or independent designation; incumbency; or other such information nor any referendum question or answer or response thereto is emphasized, stressed, or otherwise inflected in any manner to distinguish a particular candidate, party or body, question, answer or response to a referendum question either negatively or positively or to suggest whether to vote for or against such candidates or questions in such

audio recordings. The election superintendent shall also ensure that the audio recordings are presented at a rate not to exceed 130 words per minute or 2.2 words per second on average and at a volume which shall not be less than 75 decibels nor more than 85 decibels.

(b) Setup and Testing.

1. Primaries and Elections.

(i) On or before the third day preceding a primary or election, including special primaries, special elections, and referendum elections, the election superintendent shall commence the preparation and testing of the DRE units for use on Election Day. On or before the third day preceding the early voting period, the election superintendent shall commence the preparation and testing of the DRE units for use during the early voting period. At least five days prior to the commencement of such preparation and testing, the election superintendent shall publish a notice in the legal organ of the county stating the date, time, and place or places where preparation and testing of the DRE units for use in the primary or election will commence and stating that such preparation shall continue from day to day until such preparation is complete and that such preparation and testing shall be open to the public and that members of the public are entitled to be present during the preparation and testing of the DRE units. The election superintendent shall cause such preparation and testing to begin on such date and time and at such place or places. Such preparation and testing shall be open to members of the public to observe; however, such members of the public shall not in any manner interfere with the preparation and testing of the DRE units. Any person found to be interfering with the preparation and testing process may be asked to leave the testing process and may be cited for interfering with an election official while in performance of election duties. Any questions and/or complaints from the general public regarding the preparation and testing process must be directed to the election superintendent and not to the individual personnel conducting the preparation and testing process. The election superintendent may make such reasonable rules and regulations concerning the conduct of such members of the public observing such preparation and testing as the election superintendent deems necessary and appropriate; provided, however, that such rules and regulations shall not prevent members of the public from fairly observing the preparation and testing of the DRE units.

In addition to any reasonable rules and regulations, that the election superintendent may create for the public to observe the preparation and testing process, the election superintendent or designee thereof, shall:

During the first day of preparation and testing, at the beginning of the day or for the first hour of public observation be available to explain the preparation and testing process and to respond to questions and provide answers regarding the purpose and the process of preparation and testing;

(b) maintain a presence at all times during the preparation and testing process if an outside source is conducting the preparation and testing process;

(c) administer an oath of custodian prior to beginning the preparation and testing process to any county personnel (except permanent state, county, or municipal election staff) appointed by the election superintendent to conduct the preparation and testing process;

(d) establish an area reasonable in proximity for the public to observe the preparation and testing process. Such area shall provide reasonable accommodations for the public insofar as space permits, but shall not be so established as to deny the general public the opportunity to view the process; however the area should not be of such a nature so as to allow the preparation and testing process to be interfered with by the general public;

(e) allow only election office personnel or individuals assigned to conduct the preparation and testing to enter the testing area during the preparation and testing process;

(a) prohibit any preparation and testing reports created for recording the seal numbers and/or serial numbers of the DRE unit from being photocopied for public disclosure;

(g) prohibit the security seals and serial numbers of the DRE units from being photographed or copied for public disclosure;

(h) prohibit photographic and audio equipment, of any kind, including cell phone cameras from being used to record the serial numbers of the DRE units or to record the security seal numbers used

to secure the DRE units, provided that this rule shall not prohibit the news media from reporting on the preparation and testing process, so long as seal numbers and serial numbers on the DRE units are not recorded or displayed in any manner;

(ii) During the public preparation and testing of the DRE units to be used in a particular primary or election, the election superintendent shall cause each DRE unit to be programmed with the memory card (PCMCIA card) for the precinct at which the DRE unit will be used. After placing the memory card (PCMCIA card) in the DRE unit, the DRE unit shall have such internal diagnostic tests performed as shall be directed by the Secretary of State or the election superintendent. Following the completion of the diagnostic tests, the DRE unit shall have an internal logic and accuracy test performed using the memory card (PCMCIA card) for the primary or election for which the unit is being prepared. If the DRE unit fails any of the diagnostic or logic and accuracy tests, the unit shall not be used in a primary or election until such unit is repaired and inspected and found capable of proper functioning and passes the diagnostic and logic and accuracy tests. Upon the successful completion of the logic and accuracy test, the DRE unit shall be cleared of any accumulated vote totals for the primary or election and a zero tape run to verify that the vote registers in the unit are set at zero. After verifying that the vote registers are set at zero, the tape shall be attached to the custodian's certification form to document the logic and accuracy testing and the unit shall be configured for voting. The unit shall then be securely closed in its case and a numbered seal placed on its case such that the case may not be opened until and unless the seal is broken.

(iii) The election superintendent or the custodian responsible for preparing the DRE units, if one has been appointed by the election superintendent in accordance with O.C.G.A. § 21-2-379.6(b), shall make a certification stating for each DRE unit the serial number of the DRE unit, the number on the system counter of the DRE unit, the number on the seal with which the DRE unit is sealed, and that the election counter and each vote register on the unit was set at zero. The case shall be appropriately labeled with the name of the precinct in which the unit is to be used and the serial number of the DRE unit. The custodian's certification shall be retained with the records for such primary runoff or election runoff and shall be stored with such

records with the clerk of superior court or municipal clerk, as appropriate, for the same period of time as required by law for other election records.

(iv) After being prepared for voting, each DRE unit shall be safely and securely stored until such time as the unit is transported to the precinct in which such unit is to be used.

## 2. Primary Runoffs and Election Runoffs.

(i) On or before the third day preceding a primary runoff or election runoff, including special primary runoffs and special election runoffs, the election superintendent shall commence the preparation and testing of the DRE units for use in the primary runoff or election runoff. At least 24 hours prior to the commencement of such preparation and testing, the election superintendent shall publish a notice in the legal organ of the county stating the date, time, and place or places where preparation and testing of the DRE units for use in the runoff will commence and stating that such preparation shall continue from day to day until such preparation is complete and that such preparation and testing shall be open to the public and that members of the public are entitled to be present during the preparation and testing of the DRE units. The election superintendent shall cause such preparation and testing to begin on such date and time and at such place or places. Such preparation and testing shall be open to members of the public to observe; however, such members of the public shall not in any manner interfere with the preparation and testing of the DRE units. Any person found to be interfering with the preparation and testing process may be asked to leave the preparation and testing process and may be cited for interfering with an election official while in performance of election duties. Any questions and/or complaints from the general public regarding the preparation and testing process must be directed to the election superintendent and not to the individual personnel conducting the preparation and testing process. The election superintendent may make such reasonable rules and regulations concerning the conduct of such members of the public observing such preparation and testing as the election superintendent deems necessary and appropriate; provided, however, that such rules and regulations shall not prevent members of the public from fairly observing the preparation and testing of the DRE units.

In addition to any reasonable rules and regulations that the election superintendent may create for the public to observe the preparation and testing process, the election superintendent or designee thereof, shall:

During the first day of preparation and testing, at the beginning of the day or for the first hour of public observation be available to explain the preparation and testing process and to respond to questions and provide answers regarding the purpose and the process of preparation and testing;

(b) maintain a presence at all times during the preparation and testing process if an outside source is conducting the preparation and testing process;

(c) administer an oath of custodian prior to beginning the preparation and testing process to any county personnel (except permanent state, county, or municipal election staff) appointed by the election superintendent to conduct the preparation and testing process;

(d) establish an area reasonable in proximity for the public to observe the preparation and testing process. Such area shall provide reasonable accommodations for the public insofar as space permits, but shall not be so established as to deny the general public the opportunity to view the process; however the area should not be of such a nature so as to allow the preparation and testing process to be interfered with by the general public;

(e) allow only election office personnel or individuals assigned to conduct the preparation and testing to enter the preparation and testing area during the preparation and testing process;

(f) prohibit any preparation and testing reports created for recording the seal numbers and/or serial numbers of the DRE units from being photocopied for public disclosure;

(g) prohibit the security seals and serial numbers from being photographed or copied for public disclosure;

(h) prohibit photographic and audio equipment, of any kind, including cell phone cameras from being used to record the serial

numbers of the DRE units or to record the security seal numbers used to secure the DRE units, provided that this rule shall not prohibit the news media from reporting on the preparation and testing process, so long as seal numbers and serial numbers on the voting units are not recorded or displayed in any manner;

(ii) During the public preparation and testing of the DRE units to be used in a particular primary runoff or election runoff, the election superintendent shall cause each DRE unit to be programmed with the memory card (PCMCIA card) for the precinct at which the DRE unit will be used. After placing the memory card (PCMCIA card) in the DRE unit, the DRE unit shall have such internal diagnostic tests performed as shall be directed by the Secretary of State and the election superintendent. Following the completion of the diagnostic tests, the superintendent shall cause a number of random DRE units as provided by law to undergo an internal logic and accuracy test using the memory card (PCMCIA card) for the primary runoff or election runoff for which the unit is being prepared. If a DRE unit fails any of the diagnostic or logic and accuracy tests, the unit shall not be used in any primary, election, or runoff until such unit is repaired and inspected and found capable of proper functioning and passes the diagnostic and logic and accuracy tests. Upon the successful completion of the logic and accuracy test, the DRE unit shall be cleared of any accumulated test vote totals for the primary runoff or election runoff and a zero tape run to verify that the vote registers in the unit are set at zero. After verifying that the vote registers are set at zero, the tape shall be attached to the custodian's certification form to document the logic and accuracy testing and the unit shall be configured for voting. The unit shall then be securely closed in its case and a numbered seal placed on its case such that the case may not be opened until and unless the seal is broken. The custodian's certification shall be retained with the records for such primary runoff or election runoff and shall be stored with such records with the clerk of superior court or municipal clerk, as appropriate, for the same period of time as required by law for other election records.

(iii) All memory cards to be used in the runoff shall be tested.

(iv) The election superintendent or the custodian responsible for preparing the DRE units, if one has been appointed by the election superintendent in accordance with O.C.G.A. § 21-2-379.6(b), shall

make a certification stating for each DRE unit the serial number of the DRE unit, the number on the system counter of the DRE unit, the number on the seal with which the DRE unit is sealed, and that the election counter and each vote register on the unit was set at zero. The case shall be appropriately labeled with the name of the precinct in which the unit is to be used and the serial number of the DRE unit.

(v) After being prepared for voting, each sealed DRE unit shall be safely and securely stored until such time as the unit is transported to the precinct in which such unit is to be used.

(c) Transport to Polls.

1. The election superintendent shall take all necessary measures to ensure that the DRE units are safely and securely transported to the polling places.

2. The election superintendent shall cause the DRE units for each precinct to be delivered to the polling place for the precinct at least one hour before the time for the opening of the polls.

3. If the DRE units are stored at a polling place after being configured for voting and sealed, the election superintendent shall ensure that the units are stored in a secure area with appropriate climate control.

4. The election superintendent shall deliver the supervisor's card, a sufficient quantity of voter access cards, and the key to the DRE units to the chief manager not later than one hour before the time set for the opening of the polls and shall obtain a receipt for the cards and key. The supervisor's card shall be sealed in an envelope and shall not be opened until the polls are closed unless all of the ballot encoding devices at the precinct fail and it is necessary to use the supervisor's card to configure a DRE unit to encode the voter access cards at the precinct. In such cases, the use of the supervisor's card before the close of the polls shall be documented in the records for the election at that precinct. In addition, the superintendent shall deliver on the appropriate form a listing containing the serial number of each DRE unit, and the number of the seal placed on each such unit.

(d) Before the Opening of the Polls.

1. The poll officers shall set up the DRE units for voting prior to the opening of the polls. The set up shall be performed in public and the public may view the set up subject to such reasonable rules and regulations as the election superintendent may deem appropriate to protect the security of the DRE units and to prevent interference with the duties of the poll officers.

2. The poll officers shall verify that the seal for each unit is intact and that there is no evidence or indication of any tampering with the seal or the unit. The poll officers shall verify that the number of the seal matches the number of the seal recorded for that unit when such unit was prepared by the election superintendent for the primary, election, or runoff. If a seal number does not match or if there is any evidence or indication of tampering with the seal or unit, the election superintendent shall be immediately notified and such unit shall not be used until such matters are resolved by agreement of the election superintendent and the poll manager.

3. Each DRE unit shall be set up and its power turned on and the privacy screens for the unit erected and its screen lifted into place.

4. The poll manager shall run a zero tape on each DRE unit prior to the opening of the polls. The poll manager, along with the other assistant managers, shall, without removing the tape from the unit, verify that all vote registers shown on the zero tape are set to zero and that there are no votes showing on the unit and shall sign the tape in the space provided. If the zero tape does not show that all vote registers are set to zero and that there are votes on the unit, the election superintendent shall be immediately notified and such unit shall not be used until the unit is cleared and the matter is resolved by agreement of the election superintendent and the poll manager.

5. After verifying and signing the zero tape, the poll manager shall securely lock the tape compartment leaving the zero tape in place on the unit and shall configure the unit for voting. The poll manager shall verify that the election counter on each DRE unit is set at zero. If the election counter is not set to zero, the election superintendent shall be immediately notified and such unit shall not be used until the election counter is set to zero and the matter is

resolved by agreement of the election superintendent and the poll manager.

6. The poll officers shall verify that there is no unauthorized matter affixed to the DRE units or present in the cases or voting booths.

7. The poll officers shall affix a card of instructions for voting within each voting booth and shall place at least two printed sample ballots and at least two voting instructions posters approved or provided by the Secretary of State outside the enclosed space at the polling place for the information of the voters. Prior to voters entering the enclosed space, the poll officers may also distribute to such voters a card of instructions for voting on the DRE unit that has been approved or provided by the Secretary of State.

#### (4) Conducting Elections.

(a) As each voter presents himself or herself at the polling place for the purpose of voting during the time during which the polls are open for voting, each voter shall be offered instruction by a poll officer in the method of voting on the DRE units. In providing such instruction, the poll officers shall not in any manner request, suggest, or seek to persuade or induce any voter to vote any particular ticket or for any particular candidate or for or against any particular question.

(b) When a person presents himself or herself at the polling place for the purpose of voting during the time during which the polls are open for voting, the person shall complete a voter's certificate and submit it to the poll officers. The poll officers shall then verify the identity of the person and that the person is a registered voter of the precinct and, if so, shall approve the voter's certificate and enter an appropriate designation on the electors list for the precinct reflecting that the voter has voted in the primary, election, or runoff being conducted. The voter's name shall then be entered on the appropriate numbered list of voters. The poll manager or the poll officer who has been designated by the poll manager to issue voter access cards shall then use the ballot encoder device to encode and issue the voter an appropriate voter access card authorizing the voter to vote the correct ballot style in the DRE units at the polling place. Upon a DRE unit being available, the voter shall then enter the enclosed space in the

polling place and insert the voter access card into an available DRE unit and proceed to vote his or her choices. Upon completion of voting, the voter shall press the “cast ballot” button, remove the voter access card from the DRE unit, and return the card to a poll officer.

Then the voter shall exit the enclosed area of the polling place.

(c) At least once each hour during the time while the polls are open, the poll officers shall examine the face of each DRE unit and each voting booth to verify and ensure that no unauthorized matter has been affixed to the unit or placed in the voting booth and that the unit has not been tampered with in any manner.

(d) The polling place shall be so arranged in such a manner as to ensure the privacy of the elector while voting on a DRE unit, to allow monitoring of each DRE unit by the poll officers while the polls are open, and to permit the public to observe the voting without affecting the privacy of the electors as they vote. In addition, at least one DRE unit shall be configured for voting by physically disabled voters in wheelchairs and provisions shall be made to ensure the privacy of such electors while voting.

(e) It shall be permissible under O.C.G.A. § 21-2-410 and shall not constitute assistance in voting under O.C.G.A. § 21-2-409 for poll officers to assist a voter in inserting the voter card in the DRE unit and in explaining the operation of the unit to the voter; provided that the poll officer withdraws from the voting booth prior to the voter pressing the “start” button or beginning voting. The poll officers shall not in any manner request, suggest, or seek to persuade or induce any voter to vote any particular ticket or for any particular candidate or for or against any particular question.

(f) Voters utilizing a VWD device to vote on the DRE units without the assistance of any other individual shall not be considered as receiving assistance in voting and shall not be required to complete the forms required for receiving assistance in voting pursuant to O.C.G.A. § 21-2-409.

(g) The poll officers shall ensure that voters return the voter access cards to the poll officials prior to leaving the enclosed space in the polling place. The poll officers shall arrange and configure the polling

place and provide staffing at such places at the polling place to ensure that a voter will not leave the polling place with a voter access card.

(h) If a voter leaves a DRE unit prior to completing the process of voting and exits the polling place and does not return to the unit to complete the voting process, the poll officers shall cancel or void the vote on the DRE unit without attempting in any manner to see how the voter voted and shall make a notation of the incident in the election records for the precinct.

(i) A voter may request information from the poll officers concerning how to vote on the DRE unit at any time during the voting process; provided, however, that the poll officers shall not observe or view the voter's ballot on the DRE unit or make any attempt to see how the voter has voted. However, once the voter casts his or her ballot, even if the ballot is blank with no votes cast, such voter shall be deemed to have voted and may not thereafter vote again in the same primary, election, or runoff on that election day.

(j) If a voter discovers that the ballot presented on the DRE unit is not correct or is not the ballot that the voter desired to vote, the voter shall immediately notify a poll officer. The poll officer shall cancel or void the ballot on the DRE unit without attempting in any manner to see how the voter has voted and shall then take the necessary steps to provide the voter with the correct ballot by encoding and issuing a new voter access card to the voter and making any necessary corrections to the voter's certificate of the voter, the electors list, and the numbered list of voters. If the voter presses the "cast ballot" button prior to notifying the poll officials of the error in the ballot, the voter shall be deemed to have voted and shall not be permitted to cast another ballot in the same primary, election, or runoff on that election day.

(k) If a DRE unit malfunctions during the day of a primary, election, or runoff, the poll manager shall immediately notify the election superintendent and shall not allow any voter to use the unit until and unless the malfunction is corrected. The election superintendent shall immediately arrange for the repair of the DRE unit or shall provide a replacement DRE unit as soon as practicable to replace the malfunctioning unit. A replacement DRE unit shall not be used as a replacement unit unless it has been appropriately tested prior to its use.

(5) Tabulating Results.

(a) After the Polls Close.

1. Immediately after the polls close and the last voter has voted, the poll manager shall open the envelope containing the supervisor's card and use the supervisor's card to close each of the DRE units in the precinct against further voting.

2. The poll officers shall then compare the total number of persons voting as shown by the number of voters certificates, the number of persons marked on the electors list, the number of voters on the numbered list of voters, and the number of persons shown as voting on the election counters of the DRE units. If these numbers do not equal one another, the poll officers shall determine the reason for the inconsistency; correct the inconsistency, if possible; and fully document the inconsistency or problem along with any corrective measures taken before going further.

3. After completing the comparison of the total number of persons voting as shown by the electors list, the voter's certificates, the numbered list of voters, and the election counters of the DRE units, the poll manager shall cause each DRE unit to print a minimum of two tapes showing the vote totals as cast on that DRE unit. The poll manager and at least one assistant manager shall also compare the number of ballots voted as shown on the tape with the number of ballots voted as shown on the election counter of the DRE unit. If these numbers are not identical, the poll manager shall document the discrepancy. The poll manager and the assistant managers shall sign each of the tapes or shall write on the tapes the reason why the poll manager or the assistant managers will not sign the tapes.

4. If directed by the election superintendent, the poll manager shall designate one of the DRE units as the accumulator unit to accumulate the votes for the precinct. After printing all of the tapes for the individual DRE units, the poll manager shall accumulate the totals for the accumulator DRE unit and remove the memory card (PCMCIA card) from the accumulator DRE unit. The poll manager shall then collect and retain the two signed tapes (one of which shall include the zero tape) with the memory card (PCMCIA card) from each

DRE unit and shall place the memory card (PCMCIA card) in the appropriate envelope provided by the election superintendent. The poll manager shall then begin removing the memory cards (PCMCIA cards) from the remaining DRE units one by one and inserting the memory cards (PCMCIA cards) into the accumulator DRE unit and accumulating the vote totals from the other DRE units into the accumulator DRE unit. Upon the vote totals for each memory card (PCMCIA card) being entered into the accumulator DRE unit, the memory card (PCMCIA card) shall be removed from the accumulator DRE unit and two signed tapes (one of which shall contain the zero tape) shall be collected and retained with the card. Each memory card (PCMCIA card) shall then be placed into the appropriate envelope provided by the election superintendent. After the results from the last memory card (PCMCIA card) are entered into the accumulator DRE unit and the last memory card (PCMCIA card) has been placed in the envelope, the envelope containing the memory cards (PCMCIA cards) and tapes shall be sealed and secured by the poll manager and at least one assistant manager in an envelope container provided by the election superintendent which shall be sealed and initialed by the poll manager and the two assistant managers such that the envelope cannot be opened without breaking such seal.

5. After all of the results have been entered into the accumulator DRE unit, the poll manager shall cause a minimum of three tapes to be printed out by the DRE unit showing the total votes cast for the precinct. The poll manager and the assistant managers shall sign each of the tapes or shall write on the tapes the reason why the poll manager or the assistant managers will not sign the tapes. One tape shall be posted on the door of the polling place for the information of the public along with a copy of the provisional ballot recap sheet for the precinct. The other tapes shall be placed into the envelope provided by the election superintendent for that purpose and sealed and initialed by the poll manager and at least one assistant manager.

6. If the election superintendent does not direct that the results of the precinct be accumulated, then the poll manager shall cause each DRE unit to print an additional results tape which shall be verified and signed in the same manner as provided in paragraph 3 of this subparagraph. Such additional results tape for each DRE unit shall be posted on the door of the polling place for the information of the public along with a copy of the provisional ballot recap sheet for the

precinct. The memory card (PCMCIA card) and two signed tapes from each DRE unit shall be placed in the appropriate envelope supplied by the election superintendent which shall be sealed and initialed by the poll manager and at least one assistant manager such that the envelope cannot be opened without breaking such seal.

7. After completing the printing of the results, the DRE units shall be turned off and secured in their cases and resealed. The number of each seal shall be entered on the appropriate form along with the serial number of the DRE unit case in which it is inserted. The DRE units shall then be placed in a secure area with appropriate climate control.

8. The memory cards (PCMCIA cards), results tapes, voter access cards, supervisor's card, ballot encoder devices, electors lists, numbered lists of voters, voter certificates, recap sheets, and other such paperwork shall be transported to the office of the election superintendent by the poll manager and at least one other poll officer. The election superintendent or his or her designee shall receive the materials and shall issue a receipt to the poll manager for the materials.

(b) Electronic Transmission of Precinct Results to Central Office.

1. After accumulating all of the vote totals for the precinct, if directed to do so by the election superintendent, the poll manager shall connect the accumulator DRE unit to an analog telephone line and electronically transmit the accumulated vote totals for the precinct to the central office. The DRE unit shall not be connected to a telephone line during the time while the polls are open.

2. Vote totals reported electronically from the precinct to the central office shall be unofficial and shall not be used in preparing the official returns for the primary, election, or runoff.

(c) Consolidation of Results.

1. All persons involved with the tabulation and consolidation of the election results and who will operate the computer programs or handle the memory cards (PCMCIA cards) shall be sworn before entering into their duties.

2. No persons except those persons who are employed by the election superintendent and who have been duly sworn shall perform any duties in connection with the tabulation or consolidation of election results. No persons who are not employed by the election superintendent and have been duly sworn shall touch or be in contact with any container, returns, tapes, device, memory card (PCMCIA card), or any other such election materials. Only persons who are employed by the election superintendent and have been duly sworn shall be in the immediate area of the tabulating center designated by the superintendent for the officers to conduct the tabulation and consolidation of the election results.

3. The tabulation and consolidation shall be performed in public. However, the election superintendent may make reasonable rules and regulations for conduct at the tabulating center to ensure the security of the results and the returns and to avoid interference with the tabulating center personnel.

4. Upon the delivery of the memory cards (PCMCIA cards) from each precinct, the election superintendent or his or her designee shall provide a receipt to the poll manager for the memory cards (PCMCIA cards) and precinct election materials.

5. Upon receiving the memory cards (PCMCIA cards), the election superintendent shall verify the signatures on the sealed envelopes and verify that the seals are intact, that the envelopes have not been opened, and that there is no evidence of tampering with the envelopes or their contents.

6. In the case of elections for county, state, and federal office, after verifying that the envelopes are properly sealed and have not been opened or tampered with, the election superintendent shall break the seal and open each envelope and remove the memory card (PCMCIA card) and results tapes. The election superintendent or his or her designee shall then insert the memory card (PCMCIA card) into the election management system computer and transfer the vote totals from the memory card (PCMCIA card) into the election management system for official tabulation and consolidation.

7. After transferring all of the vote totals from the memory cards (PCMCIA cards) to the election management system and

consolidating such totals with the totals from the absentee ballot system and such votes from any provisional ballots which have been found by the registrars to be authorized pursuant to O.C.G.A. § 21-2-419, the election superintendent shall prepare the official consolidated re-turns for the primary, election, or runoff.

8. The election superintendent shall not list and certify in the official consolidated returns for an election any results for write in candidates who were not properly qualified under O.C.G.A. § 21-2-133.

9. In the case of primaries, elections, and runoffs for county, state, and federal office, the county election superintendent shall transmit to the Secretary of State the election returns by precinct for the county in electronic format or by electronic means, as may be specified by the Secretary of State, within seven days following a primary, election, or runoff.

(d) Electronic Transmission of Precinct Results to Central Office. The election superintendent shall transmit to the Secretary of State unofficial election results for all races for state offices in any primary, election, or runoff as soon as possible after the closing of the polls, for such primary, election, or runoff. Such results shall be transmitted in a format prescribed by the Secretary of State. At a minimum, the results shall be transmitted upon one third of the precincts reporting results, upon two thirds of the precincts reporting results, and upon all precincts reporting results, including absentee ballots within all precincts. Except upon notice to and consultation with the Secretary of State, no election superintendent shall conclude the tabulation of votes on election night in any primary, election, or runoff in which there are contested races for federal and state offices until and unless all such unofficial results, including absentee ballots, have been transmitted to the Secretary of State.

#### (6) Storage of Returns.

(a) After tabulating and consolidating the results, the election superintendent shall prepare a CD-ROM which shall contain a copy of the information contained on each memory card (PCMCIA card) which shall include all ballot images as well as vote totals and a copy of the consolidated returns from the election management system.

(b) The CD-ROM shall be placed in a sealed envelope and shall become a part of the election materials which shall be deposited with the clerk of superior court or the municipal clerk, as appropriate, in accordance with O.C.G.A. § 21-2-500. In addition, the signed results tape from each DRE unit containing the signed zero tape shall also be deposited with the clerk of superior court.

(c) The memory cards (PCMCIA cards) shall be sealed in an appropriate container and securely maintained by the election superintendent until the period for requesting a recount of the primary, election, or run off results has expired. The election superintendent and at least one other sworn individual in the tabulating center shall seal the container and sign the seal such that the container cannot be opened without destroying or damaging the seal. Upon the expiration of the period for requesting a recount, the election superintendent may use the memory cards (PCMCIA cards) for programming DRE units for the next primary, election, or runoff.

(d) The election results, ballot styles, ballot images, and other information for each election stored in the internal memory storage of each DRE unit shall be maintained for a minimum of one month following each election after which time the results may be erased provided that there are no election contests pending concerning such election.

#### (7) Recounts and Recanvass.

(a) The election superintendent shall, either of his or her own motion, or upon petition of any candidate or political party or three electors of the county or municipality, as may be the case, order a recanvass of all the memory cards (PCMCIA cards) for a particular precinct or precincts for one or more offices in which it shall appear that a discrepancy or error, although not apparent on the face of the returns, has been made. Such recanvass may be held at any time prior to the certification of the consolidated returns by the election superintendent and shall be conducted under the direction of the election superintendent. Before making such recanvass, the election superintendent shall give notice in writing to each candidate and to the county chairperson of each party or body affected by the recanvass. Each such candidate may be present in person or by representative and each such political party or body may send two

representatives to be present at such recanvass. If upon such recanvass, it shall appear that the original vote count was incorrect, such returns and all papers being prepared by the election superintendent shall be corrected accordingly.

(b) The election superintendent shall conduct the recanvass by breaking the seal, if the ballots cards have been sealed, on the container containing the memory cards (PCMCIA cards) and removing those memory cards (PCMCIA cards) for the precinct or precincts for which the recanvass is being conducted. The election superintendent shall then cause the vote totals on each of the memory cards (PCMCIA cards) to be transferred to either an accumulator DRE unit or to the election management system computer. After all of the vote totals from the memory cards (PCMCIA cards) for the precinct or precincts for which the recanvass is being conducted have been entered, the election superintendent shall cause a printout to be made of the results and shall compare the results to the results previously obtained. If an error is found, the election superintendent shall correct the error in the returns accordingly.

(c) Recounts pursuant to O.C.G.A. § 21-2-495(c) shall be conducted in the same manner as other recounts under these rules.

#### (8) Maintenance of Equipment.

(a) Each county shall be responsible for maintaining the DRE units, computers, and software provided to such county by the Secretary of State or purchased by such county and shall either purchase a maintenance agreement for such equipment and software or shall self insure such equipment and software.

(b) In the event of any malfunction or problem with DRE units, the county election superintendent shall document the problem and its resolution and shall provide such information to the Secretary of State. The documentation shall include a detailed description of the malfunction or problem, the steps taken to correct the malfunction or problem, and the cause of such malfunction or problem if a cause can be determined.

(9) Use of Equipment by Municipalities. The county election superintendent is authorized to permit any municipality within the county to conduct its election with the DRE equipment through a written intergovernmental agreement between the county and the municipality; provided that the municipality agrees to maintain and operate the equipment in accordance with law, these rules and regulations, and the manufacturer's guidelines and specifications and provided further that the municipality trains all of its election personnel and poll workers in the proper operation and conduct of elections utilizing such equipment through a training program conducted by or approved by the Secretary of State.

(10) Sample Ballots. DRE units that are used for demonstration and education purposes shall not utilize or be programmed with the official ballot to be used in the primary or election for demonstrational or educational purposes. The units shall utilize or be programmed with a ballot containing the names of fictitious or historical persons whose names do not appear on the official ballot for such primary or election.

### **183-1-12-.06 Provisional Ballots.**

(1) This rule shall govern the casting of provisional ballots by voters at primaries and elections in accordance with O.C.G.A. §§21-2-418 and 21-2-419.

(2) In each polling place, there shall be established a location or station in the public area of the polling place for the purpose of issuing and receiving provisional ballots.

(3) The election superintendent shall provide each polling place with an adequate supply of provisional ballots in each ballot style (district combination) for the precinct and an inner ballot envelope and an outer ballot envelope. The ballot envelopes shall be so designed that the ballot will fit within the inner ballot envelope and the inner ballot envelope will fit within the outer ballot envelope. The inner ballot envelope shall have printed on it the words "Official Provisional Ballot" and nothing else. The outer envelope shall have places for inserting the person's name, precinct, date and name of election, ballot style (district combination), and whether such ballot is a regular provisional ballot, a provisional ballot cast by a voter who registered to vote for the first time in this state by mail and has not provided the identification required by O.C.G.A. §§21-2-220 and 21-2-417, or a ballot cast during poll hours extended by a court order, or a combination thereof. Primaries and elections conducted by counties shall use optical scan ballots for provisional voting. Optical scan absentee ballots shall be acceptable for use as provisional ballots. Municipalities shall use the same type of ballots as the municipality uses for mail-in absentee voting. The election superintendent shall also provide a booth for voting provisional ballots in the enclosed space which will provide privacy for a person while voting a provisional ballot and a secure container in which the voted provisional ballots shall be placed.

(4) Voters whose names do not appear on electors list.

(a) When a person arrives at a polling place, completes a voter's certificate, and presents it to the poll workers but the person's name does not appear on the official electors list for the precinct, the poll officers shall immediately direct the person to the provisional ballot station. At the provisional ballot station, if a master list of registered electors is available, the poll workers shall check the list to determine if the person is registered at a different precinct. If the person's name appears on the master list for a different precinct, the poll workers shall direct the person to the correct precinct.

(b) If the person's name is not found on the official list of electors for the precinct or the master list, if available, the poll officers shall immediately contact the registrars and the person shall provide such information as the registrars may request to determine if the person is eligible to vote in the election. The registrars shall promptly review the information provided by the person and shall attempt to determine if the person timely and properly registered to vote.

(c) If the registrars can immediately determine that the person timely and validly registered to vote in the primary or election and should be assigned to the precinct at which the person is present, the registrars shall authorize the poll officers to add the person's name to the official electors list for the precinct and shall permit the person to vote in the same manner as other voters in the pre-cinct vote. When there are multiple ballot styles (district combinations) in use in the precinct, the registrars shall also advise the poll officers which ballot style (district combination) should be issued to the person. The person's name shall then be added to the official electors list for the precinct with a notation of the name of the registrar who authorized such addition. Upon presentation of a properly completed voter's certificate and the identification required by O.C.G.A. §21-2-417, the person shall be permitted to vote in the same manner as other voters in the precinct.

(d) If the registrars can immediately determine that the person timely and validly registered to vote in the primary or election but should be assigned to a different precinct from the one at which the person is present, the registrars shall direct the poll officers to send the person to the appropriate other precinct and the registrars shall

notify the officers of such other precinct to add the person's name to the official electors list for such other precinct. When there are multiple ballot styles (district combinations) in use in such other precinct, the registrars shall also advise the poll officers at such other precinct which ballot style (district combination) should be issued to the person. The person's name shall then be added to the official electors list for the other precinct by the poll officers of the other precinct with a notation of the name of the registrar who authorized such addition. Upon the completion of a voter's certificate and the submission of the identification required by O.C.G.A. § 21-2-417, the person shall be permitted to vote in the same manner as other persons in such other precinct. However, if, in the reasonable exercise of discretion by the registrars or the poll workers, there is insufficient time for such person to go to such other precinct before the polls close, the poll workers may allow such person to vote a provisional ballot at the precinct in which the person is present. In such case, all votes cast by such person for candidates for whom such person is properly entitled to vote shall be counted and all votes cast for candidates for whom such person is not properly entitled to vote shall be void and shall not be counted in accordance with O.C.G.A. §21-2-419(c).

(e) If the registrars cannot immediately determine that the person timely and validly registered to vote in the primary or election; but, from the information presented by the person, the person, if properly registered, would be assigned to the precinct at which the person is present, the registrars shall authorize the poll officers to permit the person to cast a provisional ballot at such precinct. When there are multiple ballot styles (district combinations) in use in the precinct, the registrars shall also advise the poll officers which ballot style (district combination) should be issued to the person.

(f) If the registrars cannot immediately determine that the person timely and validly registered to vote in the primary or election; but, from the information presented by the person, the person, if registered, would be assigned to a different precinct from the precinct in the county or municipality at which the person is present, the registrars shall direct the poll officers to send the person to the appropriate precinct. The registrars shall notify the officers of such other precinct to permit the person to vote a provisional ballot when such person arrives at such precinct, completes an official voter

registra-tion form and a provisional ballot voter's certificate, and submits the appropriate identification required by O.C.G.A. §21-2-417. When there are multiple ballot styles (district combinations) in use in such other precinct, the registrars shall also advise the poll officers which ballot style (district combination) should be issued to the person. However, if, in the reasonable exercise of discretion by the registrars or the poll workers, there is insufficient time for such person to go to such other precinct before the polls close, the poll workers may allow such person to vote a provisional ballot at the precinct at which such person is present. In such case, all votes cast by such person for candidates for whom such person is properly entitled to vote shall be counted and all votes cast for candidates for whom such person is not properly entitled to vote shall be void and shall not be counted in accordance with O.C.G.A. §21-2-419(c).

(g) If the person appears at a precinct in a county or municipality in which the person does not reside, the registrars shall instruct the poll officers to direct the person to contact the registrars in the county in which the person resides to determine in which precinct such person should vote.

(h) If the poll officers cannot get in touch with the registrars after making a reasonable effort to do so, the poll officers shall be authorized to permit the person to vote a provisional ballot at the precinct without additional authorization from the registrars. In such case, all votes cast by such person for candidates for whom such person is properly entitled to vote shall be counted and all votes cast for candidates for whom such person is not properly entitled to vote shall be void and shall not be counted in accordance with O.C.G.A. § 21-2-419(c).

(i) Upon receiving authorization to vote a provisional ballot, the person shall complete a provisional ballot voter's certificate and an official voter registration form and submit such completed certificate and form to the poll officers along with the appropriate identification required by O.C.G.A. § 21-2-417. The poll officers shall place the name of the person on the numbered list of provisional ballot voters and issue the person a provisional ballot of the style authorized by the registrars along with an inner ballot envelope and an outer ballot envelope. Before issuing the outer ballot envelope to the person, the poll officers shall enter the person's name, the name of the precinct,

the date and name of the election, and the ballot style (district combination) on the outer envelope. The person shall then re-tire to the provisional ballot voting booth and vote the ballot. Upon completing the ballot, the person shall seal the ballot in the inner ballot envelope and place the inner ballot envelope containing the ballot into the outer ballot envelope and shall seal the outer ballot envelope. The person shall then return the sealed envelope to the poll officers.

(j) Upon receiving the sealed ballot envelope from a person casting a provisional ballot, the poll officers shall verify that the information requested on the outer ballot envelope is complete, shall mark the appropriate box or boxes to designate the type of provisional ballot enclosed therein, and shall direct the person to place the ballot envelope into the secure container for provisional ballots which shall be located within the enclosed space in the polling place where it can be monitored by the poll officers and observed by the public. The provisional ballot voter's certificate and voter registration form shall be attached together and shall be placed in a separate, distinctively marked envelope which shall be placed in a secure location in the polling place.

(5) Voter who registered for first time by mail but did not provide required identification.

(a) When a person arrives at a polling place, completes a voter's certificate, and presents it to the poll workers but does not have the identification required by O.C.G.A. §21-2-417 and the person's name appears on the official electors list for the precinct with a designation that the person registered to vote for the first time in this state by mail but has not provided the required identification to the registrars as required by O.C.G.A. §21-2-220, the poll officers shall immediately direct the person to the provisional ballot station. At the provisional ballot station, the person shall be permitted to cast a provisional ballot at such precinct. When there are multiple ballot styles (district combinations) in use in the precinct, the poll officers shall issue the appropriate ballot style (district combination) to the person as shown on the electors list. The poll officers shall place the name of the person on the numbered list of provisional ballot voters and issue the person a provisional ballot of the style authorized by the registrars along with an inner ballot envelope and an outer ballot

envelope. Before issuing the outer ballot envelope to the person, the poll officers shall enter the person's name, the name of the precinct, the date and name of the election, and the ballot style (district combination) on the outer envelope. The person shall then retire to the provisional ballot, voting booth and vote the ballot. Upon completing the ballot, the person shall seal the ballot in the inner ballot envelope and place the inner ballot envelope containing the ballot into the outer ballot envelope and shall seal the outer ballot envelope. The person shall then return the sealed envelope to the poll officers.

(b) Upon receiving the sealed ballot envelope from a person casting a provisional ballot, the poll officers shall verify that the information requested on the outer ballot envelope is complete, shall mark the appropriate box or boxes to designate the type of provisional ballot enclosed therein, and shall direct the person to place the ballot envelope into the secure container for provisional ballots which shall be located within the enclosed space in the polling place where it can be monitored by the poll officers and observed by the public.

(c) The provisional ballot shall not be counted unless the voter provides the identification required by O.C.G.A. §§ 21-2-220 and 21-2-417 to the registrars before the end of the period set by law for the verification of provisional ballots. Such identification may be provided to the registrars in person or by facsimile transmission or, in the case of disabled voters, by delivery by a third party.

(6) Voters voting during extended polling hours in an election in which federal candidates are on the ballot.

(a) In the event that the polling hours for a polling place are extended by a court order beyond the normal closing time for a primary, election, or runoff in which federal candidates are on the ballot, all voters who vote after the normal closing time for the polling place shall vote by provisional ballot.

(b) Voters whose names appear on the electors list and who have the appropriate identification required by O.C.G.A. § 21-2-417 shall complete a provisional voter's certificate and shall be issued a provisional ballot along with an inner ballot envelope and an outer ballot envelope. Such voters shall not be required to complete a voter

re-gistration form. It also shall not be necessary to obtain approval from the registrars to issue provisional ballots to such voters. The poll officers shall place the name of the person on the numbered list of provisional ballot voters. Before issuing the outer ballot envelope to the person, the poll officers shall enter the person's name, the name of the precinct, the date and name of the election, and the ballot style (district combination) on the outer envelope. The person shall then retire to a provisional ballot voting booth and vote the ballot. Upon completing the ballot, the person shall seal the ballot in the inner ballot envelope and place the inner ballot envelope containing the ballot into the outer ballot envelope and shall seal the outer ballot envelope. The person shall then return the sealed envelope to the poll officers. Upon receiving the sealed ballot envelope from a person casting a provisional ballot, the poll officers shall ver-ify that the information requested on the outer ballot envelope is complete, shall mark the appropriate box to designate that the bal-lot is an extended poll hours provisional ballot, and shall direct the person to place the ballot envelope into the secure container for pro-visional ballots which shall be located within the enclosed space in the polling place where it can be monitored by the poll officers and observed by the public.

(c) If the voter's name is not on the electors list, the poll workers shall follow the provisions of this rule for regular provisional balloting under this rule and, if the voter is authorized by the registrars to vote a provisional ballot under the terms of this rule, shall also mark the appropriate box on the outer ballot envelope to indicate that the ballot was issued during extended poll hours.

(d) If the voter's name is on the electors list but registered to vote for the first time in this state by mail and has not provided the identification required by O.C.G.A. § 21-2-220, the poll officers shall permit the voter to vote in accordance with the provisions of this rule for first time voters who register for the first time in this state by mail without providing the required identification, and shall also mark the appropriate box on the outer ballot envelope to indicate that the ballot was issued during extended poll hours.

(e) The poll officers shall provide each first time voter who registered for the first time in this state by mail without providing the required identification who casts a provisional ballot information on

how the voter may provide the registrars with the appropriate identification in order that the voter's ballot may be counted.

(7) Each voter casting a provisional ballot in a primary, election, or runoff in which federal candidates appear on the ballot shall be given written information explaining how such voter can ascertain if such ballot is counted and, if such ballot is not counted, the reason why such ballot was not counted.

(8) The provisional ballot voter's certificates and voter registration cards may be picked up during the day by a registrar or deputy registrar for the purpose of beginning the process of determining the eligibility of the persons to cast provisional ballots. Before transferring the voter's certificates and registration cards to the registrars during the day, the poll officers shall note the number of certificates and cards being transferred to the registrars. If such voter's certificates and registration cards are not picked up by the registrars by the time that the polls close and the last voter has voted, the envelope in which the provisional ballot voter's certificates and voter registration cards have been deposited shall be securely sealed and shall be returned to the election superintendent with the other materials from the polling place.

(9) After the close of the polls and the last voter has voted, the poll officers shall account for all voted provisional ballots, cancelled and spoiled provisional ballots, and unused provisional ballots. The ballot stubs and unused and spoiled ballots shall then be securely sealed in the container provided for them by the election superintendent. The poll officers shall then proceed to open the secure container in which the provisional ballots were deposited and count the number of voted provisional ballots contained therein. The poll officers shall then compare the total number of persons voting provisional ballots as shown on the numbered list of provisional ballot voters with the number of ballots issued and the number of ballots voted. If these numbers do not equal one another, the poll officers shall determine the reason for the inconsistency and shall correct the problem before going further. The poll officers shall seal the voted provisional ballots in a container for transfer to the election superintendent. The poll officers shall complete and sign a provisional ballot recap sheet and post one copy of the recap sheet on the door of the polling place with the election results from the precinct. The remaining copies of the

provisional ballot recap sheet along with the numbered list of provisional ballot voters shall be returned to the election superintendent with the other election materials from the precinct.

(10) Upon receiving the election materials from the precincts, the election superintendent shall ensure that the envelope containing the provisional ballot voter's certificates and voter registration cards is promptly removed from the other materials and transferred to the registrars for processing. In any event, the voter's certificates and registration cards shall be transferred to the registrars no later than 9:00 a.m. on the day following the day of the primary, election, or runoff. The election superintendent shall also remove the container containing the voted provisional ballots and shall place such container in a secure location within the election superintendent's office.

(11)(a) Upon receiving the provisional ballot voter's certificates and voter registration cards from the election superintendent, the registrars shall promptly proceed to determine the eligibility of each person that voted a provisional ballot.

(b) If the registrars determine that the person did timely register and is eligible and entitled to vote in such primary, election, or runoff, the registrars shall mark on the numbered list of provisional ballot voters that the ballot is accepted and shall notify the election superintendent of the proper ballot style (district combination) for the voter.

(c) If the registrars determine that the person did not timely register to vote for the primary or election or is not eligible and entitled to vote in such primary or election or if the registrars cannot determine by the close of business on the third business day following the day of the primary, election, or runoff if the voter timely registered and was eligible and entitled to vote in such primary or election, the registrars shall mark on the numbered list of provisional ballot voters that the ballot is rejected.

(d) Not later than the close of business on the third business day following the day of the primary, election, or runoff, the registrars shall return to the election superintendent the numbered list of provisional ballot voters reflecting the accepted and rejected provisional ballots.

(e) The names of those persons whose names are accepted shall be added to the official electors list. The voter registration cards of those persons whose ballots are rejected on the numbered list of provisional ballot voters shall be processed by the registrars and, if found to be eligible and qualified, shall be added to the electors list for future elections.

(f) The registrars shall maintain the provisional ballot voter's certificates for the same period of time and under the same conditions as the regular voter's certificates. Voter registration cards completed by provisional ballot electors shall be maintained for the same period of time and under the same conditions as other voter registration cards.

(12) Upon receiving the numbered list of provisional ballot electors from the registrars, the election superintendent shall prepare to count the accepted provisional ballots. The election superintendent shall first compare the precinct designation and election district information with the Style of ballot (district combination) cast by the provisional ballot voter.

(a) If the ballot style (district combination) voted by the voter was correct, then the election superintendent shall open the outer envelope and place the inner envelope containing the ballot into a ballot box.

(b) If the ballot style (district combination) voted by the voter was not correct, then the election superintendent shall open the outer envelope and note the correct ballot style (district combination) on the inner envelope. Each such inner envelope shall then be placed in a separate container until all of the outer envelopes have been opened. The outer envelopes shall then be stored in a location away from the inner envelopes in a manner such that the inner envelope and ballot of a voter cannot be identified as being the ballot of a particular voter. The superintendent shall then open each such inner envelope and remove the ballot and shall place a unique identifying number on the ballot along with the designation of the precinct in the nonreflective area at the top of the ballot. The election superintendent shall then prepare or cause to be prepared a duplicate ballot. The duplicate ballot shall be clearly labeled with the word "Duplicate" and shall bear the name of the precinct and the same

unique identifying number as the original ballot in the nonreflective area at the top of the ballot. The election superintendent shall transfer or cause to be transferred to the duplicate ballot, in the presence of at least two other consolidation assistants and in public, only the votes cast by the provisional ballot voter in the races and on the questions to which such voter was eligible and en-titled to vote. The votes entered on the duplicate ballot shall be ver-ified by at least one consolidation assistant. The completed duplicate ballot shall be placed in the ballot box with the other provisional ballots to be counted. The original ballot shall be placed into an ap-propriate container and retained.

(c) After opening all of the outer envelopes and making all necessary duplicate ballots, the election superintendent shall then open the inner envelopes of the ballots in the ballot box and proceed to count the votes in the same manner as absentee ballots are counted. Upon completing the count, the election superintendent shall add the provisional ballot votes to the other votes cast at the polls and by absentee ballot and shall consolidate and certify the results of the primary, election, or runoff. The provisional ballots and any duplicates shall be retained for the same time period and in the same manner as absentee ballots.

(d) The rejected provisional ballots shall be marked on the outer envelope as "Not Counted" and shall not be opened. The ballots shall be maintained for the same time period and in the Bame manner as absentee ballots which were returned too late to be counted.

(e) The election superintendent shall notify the registrars of the names of those persons who cast a provisional ballot in the wrong precinct or on an incorrect ballot style (district combination).

(13)(a) Upon identifying the rejected provisional ballot electors, the registrars shall proceed promptly to notify each such person by first-class mail at the address shown on the provisional ballot voter's certificate that his or her ballot was not counted because of the inability of the registrars to verify that the person timely registered to vote or such other proper reason. If the person's voter regis-tration card was approved, the registrars shall also notify the per-son that his or her name will be added to the elector's list and the person will be eligible to vote in future primaries and elections and that a voter

notification or precinct card will be mailed to the person to provide the voter with the correct precinct and election district information.

(b) Upon receiving notification from the election superintendent of the names of persons who cast provisional ballots in the incorrect precinct or on the incorrect ballot style (district combination), the registrars shall notify such persons of their correct precinct and/or election district information. The sending of a voter notification or precinct card by first-class mail to the address shown on the voter registration card completed by such person when voting by provisional ballot shall be sufficient notice for such voters.

(c) If the person's voter registration is rejected, the registrars shall notify the person of such rejection in accordance with O.C.G.A. § 21-2-226(d).

(d) In addition, the registrars shall establish a free access system, such as a toll-free telephone number or an Internet website, by which voters who cast provisional ballots in a primary, election, or runoff in which federal candidates are on the ballot may ascertain whether their ballots were counted or, if the ballots were not counted, the reasons why such ballots were not counted. The registrars shall establish and maintain reasonable procedures necessary to protect the security, confidentiality, and integrity of personal information collected, stored, or otherwise used by such system. Access to information about an individual provisional ballot shall be restricted to the voter who cast such ballot.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Defective Ballot Cards, Duplication and Tabulation" adopted, F. July 24, 1966; eff. Aug. 12, 1968. **Amended:** F. Aug. 5, 1969; eff. Aug. 24, 1969. **Amended:** F. Mar. 8, 1987; eff. Mar. 26, 1987. **Repealed:** New Rule entitled "Provisional Ballots" adopted, F. Oct. 18, 2002; eff. ### **183-1-12-.07 Preparation of the Electors List and Use of ExpressPoll.**

(1) Beginning July 1, 2006, counties shall use ExpressPoll units at precincts within the county during primaries, elections, and runoffs. The ExpressPoll units shall be utilized in lieu of the printed electors list and ballot encoders in each precinct where in use.

(2) The county election superintendent shall maintain each

ExpressPoll unit, and all components in a secure location under the same conditions as provided for DRE units under Rule 183-1-12-.02(2).

(3) Effective January 1, 2006, the registrars of each county shall utilize the absentee ballot subsystem of the statewide voter registration system for absentee balloting and advance voting.

(4) The registrars of each county shall complete the entry of new and updated voter registrations on a timely basis as required by the Secretary of State and shall notify the Secretary of State upon the completion of all such data entry after a registration deadline.

(5) Prior to each primary or election as specified by the Secretary of State, the county election superintendent shall provide to the Secretary of State or his or her designee a final copy of the GEMS database for the county.

(6) The county election superintendent and the registrars shall notify the Secretary of State or his or her designee of any changes to the voter registration file for the county or the GEMS database that occur after the process for creating ExpressPoll flash cards begins.

(7) During the period in which DRE units are tested and prepared prior to delivery to the precincts, the election superintendent shall cause each ExpressPoll unit to undergo logic and accuracy testing. Each ExpressPoll unit must pass such logic and accuracy test prior to being assigned to a precinct. The registrars shall verify the information contained on the ExpressPoll units when assigning the units to precincts.

(8) Prior to delivery to the precincts, the registrars shall ensure that all persons who have been issued or cast absentee ballots are marked accordingly on the ExpressPoll units.

(9) Upon the conclusion of each primary, election, or runoff, the poll officers shall return the ExpressPoll units with the other election materials from the precinct to the election superintendent. The registrars and election superintendent shall coordinate the return of the flash cards from the ExpressPoll units to the Secretary of State such that the cards are returned in the same time period as the

official election returns.

(10) For electors whose names are added to the voter registration rolls after the deadline for preparing the flash cards for the ExpressPoll units, the registrars shall provide a printed supplemental list for use at the affected precincts.

Authority 1964 Ga. Election Code, as amended. **History.** Original Rule entitled "Official Observers at Polling Places" adopted. F. July 24, 1968; eff. Aug. 12, 1968. **Repealed:** F. Aug. 5, 1969; eff. Aug. 24, 1969.

**183-1-13-.02 Repealed.**

Authority 1964 Ga. Election Code, as amended. **History.** Original Rule entitled "Ballots, Paper, Validity of Marking" adopted. F. July 24, 1968; eff. Aug. 12, 1968. **Repealed:** F. Oct. 20, 1975; eff. Nov. 9, 1975.

**183-1-13-.03 Poll Watchers, Notification to Superintendent.**

At least three days prior to the primary or election, a copy of the designating letter issued by the political party, political body, or independent or nonpartisan candidate as specified in O.C.G.A. Section 21-2-408 shall be sent by the appropriate authority to the election superintendent of the county or municipality in which the poll watcher is to serve.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Poll Watchers, Notification to Superintendent" adopted. F. May 26, 1970; eff. June 14, 1970. **Amended:** F. Mar. 6, 1987; eff. Mar. 26, 1987. **Amended:** F. Feb. 17, 1992; eff. Mar. 8, 1992. **Amended:** F. Dec. 11, 2003; eff. Dec. 31, 2003.

**183-1-13-.04 Poll Watchers Required to Wear Badge.** The Superintendent shall furnish a badge to each poll watcher containing the words "Official Poll Watcher," the name of the poll watcher, the primary or election in which such poll watcher shall serve, and each precinct or tabulating center in which such poll watcher is to serve. The poll watcher shall wear his or her badge at all times while he or she is serving as a poll watcher.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Poll Watchers Required to Wear Badge" adopted. F. May 26, 1970; eff. June 14, 1970. **Amended:** F. Mar. 6, 1987; eff. Mar. 26, 1987. **Amended:** F. Dec. 11, 2003; eff. Dec. 31, 2003.

**183-1-13-.05 Poll Watchers for Tabulating Center.** In counties and municipalities using central count optical scanning vote tabulation equipment, the election superintendent shall allow each political party to appoint two poll watchers for each primary or election, each political body to appoint two poll watchers for each election, and each independent candidate and each nonpartisan candidate to appoint one poll watcher for each election, to serve in each of the locations designated by the election superintendent within the tabulating center. Such designated places shall include the check-in area, the computer room, the duplication area, and such other areas as the election superintendent may deem necessary to the assurance of fair and honest procedures in the tabulating center. Poll watchers designated for the tabulating center shall be appointed and serve in the same manner as other poll watchers.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Poll Watchers for Tabulating Center" adopted. F. May 26, 1970; eff. June 14, 1970. **Amended:** F. Mar. 6, 1987; eff. Mar. 26, 1987. **Amended:** F. Feb. 17, 1992; eff. Mar. 8, 1992. **Amended:** F. Dec. 11, 2003; eff. Dec. 31, 2003.

**183-1-13-.06 Poll Watchers for Advance Voting.**

For the purposes of applying O.C.G.A. § 21-2-408(a)(2) and (b)(3)(A), a political party, a political body, or independent or non-partisan candidate may designate, or a candidate may submit to a political party, a different poll observer or set of poll observers for each day of advance voting.

Authority O.C.G.A. Sec. 21-2-31, 21-2-408.

**183-1-14-.01 Absentee Ballot Envelope; Definition of Advanced Age; Use of Symbols**

(1) For purposes of applying O.C.G.A. § 21-2-381(a)(l)(G), "advanced age" shall mean any elector who is 65 years of age or older at the time of the absentee ballot request.

(2) For purposes of applying O.C.G.A. § 21-2-381(a)(l)(G), an elector meets the criteria of "disability" when the elector (a) has a physical disability and (b) informs the registrar of his or her status as disabled at the time of the absentee ballot request.

(3) Registrars or absentee ballot clerks shall, in a visible and legible manner, note symbols on the return absentee ballot oath envelope to designate the category under which an absentee elector applied for his or her ballot. Suggested symbols include:

- E - Elderly or of advanced age (65 years of age or older),
- D - Disabled physically,
- MOS - Military overseas,
- MST - Military stateside,
- OST- Overseas temporary,
- OSP - Overseas permanent resident,
- NR - No reason is provided.

To facilitate ballot tabulation, registrars or absentee ballot clerks shall note on the face of the absentee oath envelope the absentee elector's precinct and, in the case of a primary or primary runoff, the party in whose primary or primary runoff the elector is voting and "MIDR" if the voter is voting for the first time pursuant to O.C.G.A. § 21-2-417(c).

**183-1-14-.02 Use of DRE Units for Absentee Balloting.**

184-Counties and municipalities are authorized to use DRE units

for in-person absentee balloting in accordance with the Georgia Election Code (O.C.G.A., Ch. 21-2) and these rules. As used in this rule, the term "Registrars" shall include a county board of registrars, a county board of elections and registration, a joint county-municipal board of elections and registration, a municipal absentee ballot clerk, a municipal registrar, and the designee of any board of registrars, board of elections and registration, or joint county-municipal board of elections and registration. The election superintendent and registrars shall by agreement determine the type of election equipment to be used in such election for in-person absentee voting and for absentee voting by mail or other legally appropriate means in which the ballot is sent or delivered to a voter for voting away from the office of the registrars.

(2) DRE units shall be configured and tested in accordance with the provisions of Rule 183-1-12-.02 prior to use in absentee balloting. Public notice of the time and place for such configuration and testing of the DRE units to be used for absentee balloting shall be given in accordance with O.C.G.A. § 21-2-379.6 and Rule 183-1-12-.02 prior to such configuration and testing.

(3) The DRE units to be used for in-person absentee voting shall be set up in a manner to assure the privacy of the elector while casting his or her ballot while maintaining the security of such units against tampering, damage, or other improper conduct. In addition, there shall be at least one DRE unit configured for use by physically disabled electors.

(4) Voter access cards for use in DRE units for in-person absentee balloting may be encoded by use of ballot encoder devices, DRE units specifically and exclusively set up for that purpose, or by use of the VCProgrammer software on appropriate computers.

(5) Each DRE unit to be used for in-person absentee voting shall be programmed so as to permit the challenging of ballots in accordance with law and the removal of such ballots from the count if such challenges are sustained by the registrars.

(6) On the first day of the absentee voting period, prior to any votes being cast on the DRE units, the registrars shall verify that the seal for each DRE unit is intact and that there is no evidence or

indication of any tampering with the seal or the unit. The registrars shall verify that the number of the seal matches the number of the seal recorded for that unit when such unit was prepared by the election superintendent for the primary, election, or runoff. If a seal number does not match or if there is any evidence or indication of tampering with the seal or unit, the Secretary of State and the election superintendent shall be immediately notified and such unit shall not be used until such matters are resolved by agreement of the Secretary of State, the election superintendent, and the registrars. The set up shall be performed in public and the public may view the set up subject to such reasonable rules and regulations as the registrars may deem appropriate to protect the security of the DRE units and to prevent interference with the duties of the registrars, except that the public view shall not be obstructed. The registrars shall run a zero tape on each DRE unit prior to the beginning of absentee voting on such units. The registrars shall, without removing the tape from the unit, verify that all vote registers shown on the zero tape are set to zero and that there are no votes showing on the unit and shall sign the tape in the space provided. If the zero tape does not show that all vote registers are set to zero and that there are votes on the unit, the election superintendent shall be immediately notified and such unit shall not be used until the unit is cleared and the matter is resolved by agreement of the election superintendent and the registrars. After verifying and signing the zero tape, the registrars shall securely lock the tape compartment leaving the zero tape in place on the unit and shall configure the unit for voting. The registrars shall verify that the election counter on each DRE unit is set at zero. If the election counter is not set to zero, the election superintendent shall be immediately notified and such unit shall not be used until the election counter is set to zero and the matter is resolved by agreement of the election superintendent and the registrars. The registrars shall verify that there is no unauthorized matter affixed to the DRE units or present in the cases or voting booths. The registrars shall affix a card of instructions for voting within each voting booth. Prior to voters entering the voting booth, the registrars may also distribute to such voters a card of instructions for voting on the DRE unit that has been approved or provided by the Secretary of State. Each DRE unit shall be clearly marked with a unique designation that is visible on the exterior of the unit.

(7) If a DRE unit is to be used for the creation of voter access cards, such DRE unit shall be set up properly for such purpose and shall be used exclusively for such purpose and no other purpose during the absentee voting period. The set up shall be performed in public and the public may view the set up subject to such reasonable rules and regulations as the registrars may deem appropriate to protect the security of the DRE unit and to prevent interference with the duties of the registrars, except that the public view shall not be obstructed. The registrars shall run a zero tape on the DRE unit prior to creating any voter access cards on such unit. The registrars shall, without removing the tape from the unit, verify that all vote registers shown on the zero tape are set to zero and that there are no votes showing on the unit and shall sign the tape in the space provided. If the zero tape does not show that all vote registers are set to zero and that there are votes on the unit, the election superintendent shall be immediately notified and such unit shall not be used until the unit is cleared and the matter is resolved by agreement of the election superintendent and the registrars. After verifying and signing the zero tape, the registrars shall securely lock the tape compartment leaving the zero tape in place on the unit and shall configure the unit for the creation of voter access cards. The registrars shall verify that the election counter on the unit is set at zero. If the election counter is not set to zero, the election superintendent shall be immediately notified and such unit shall not be used until the election counter is set to zero and the matter is resolved by agreement of the election superintendent and the registrars. The registrars shall make a notation of the election counter reading on the daily recap sheet.

(8) At the close of business each day during the absentee voting period, the registrars shall document the election counter number on the daily recap sheet. Each DRE unit used for in-person absentee voting shall then be turned off and closed. The memory card (PCMCIA card) shall remain in the unit at all times during the absentee balloting period until the polls close on the day of the primary, election, or runoff. Each DRE unit shall then be sealed and the seal number and the time of sealing shall be recorded on the daily recap sheet. Each DRE unit shall then be secured overnight. In addition, all voter access cards shall be securely stored overnight and when not in use. If a DRE unit is used to program voter access cards, the registrars shall make a notation of the election counter number

on the daily recap sheet. If such number is not zero, the registrars shall notify the Secretary of State immediately and shall ascertain the reason for the discrepancy and shall make a notation of such discrepancy and the reason for it on the daily recap sheet. Such DRE unit shall not be used for creation of voter access cards unless and until the unit is fully tested and reconfigured and the election counter reset at zero pursuant to procedures established by the Secretary of State. The DRE unit shall be turned off and secured for the night.

(9) Each morning during the absentee balloting period, the registrars shall publicly verify the seal numbers on each DRE unit to be used for absentee voting with the number of the seal recorded on the daily recap sheet from the previous day of absentee voting and shall verify that the seal and DRE unit do not show any signs of tampering. If the seal number corresponds to the entry on the daily recap sheet and there is no evidence of tampering, the DRE unit shall be opened and turned on. If the numbers do not match or there is evidence of tampering, the Secretary of State shall be notified immediately and the unit shall not be used until such discrepancy is resolved to the satisfaction of the Secretary of State, the election superintendent, and the registrars. After opening and turning on the unit, the registrars shall verify the election counter number with the number recorded on the daily recap sheet from the previous day of absentee voting. If the numbers do not match, the Secretary of State shall be immediately notified and the unit shall not be used until such discrepancy is resolved to the satisfaction of the Secretary of State, the election superintendent, and the registrars. The election counter number shall then be entered onto the daily recap sheet for that day. If a DRE unit is to be used for programming voter access cards, the registrars shall open and turn on the power for such unit. The registrars shall then verify that the election counter is set on zero. If the election counter is not set at zero, the Secretary of State shall be immediately notified and the unit shall not be used until such discrepancy is resolved to the satisfaction of the Secretary of State, the election superintendent, and the registrars. A notation shall be made on the daily recap sheet of the election counter number and the unit shall be configured to create voter access cards.

(10) Voters who vote absentee ballots in person on the DRE units shall first complete an absentee ballot application and sign an oath

document. After the registrars determine that the voter is eligible to vote by absentee ballot, the registrars shall note the voter's registration number and ballot style on the absentee ballot application. The voter shall then be issued a voter access card. The registrars shall record on the absentee voter log the voter's name, registration number, voter ID number, and designation of the DRE unit on which the voter shall vote. The voter shall then be permitted to vote on the designated DRE unit. After completing voting, the voter shall return the voter access card to the registrars.

(11) At the close of business on the day before the primary, election, or runoff at the end of the absentee balloting period, the registrars shall record the election counter number on the daily recap sheet. The registrars shall publicly configure the DRE units used for absentee voting to end the election and prevent further voting on the units. The units shall then be shut down and sealed. The registrars shall record the seal numbers on the daily recap sheet. The units shall then be secured until time for the tabulation of votes. For the DRE unit used for the creation of voter access cards, such unit shall be secured and returned to the election superintendent. Two zero tapes shall be printed and signed by the registrars confirming that all vote counters are set at zero. The memory card (PCMCIA cards) from the units used for the creation of voter access cards shall be removed from the units and placed along with the signed zero tapes in a sealed envelope which shall be returned to the election superintendent.

(12) At the close of the polls on the day of the primary, election, or runoff, the registrars shall deliver all of the DRE units used for inperson absentee voting and all other absentee ballots received in accordance with the provisions of the Georgia Election Code (O.C.G.A. Ch. 21-2) to the manager of the absentee ballot precinct. The poll officers of the absentee ballot precinct shall count all of the absentee ballots in accordance with the procedures required by law and the rules of the State Election Board. The poll officers shall verify the seal number of each DRE unit with the number recorded on the daily recap sheet form and shall inspect each seal and unit to verify that there is no evidence of tampering with the unit. If the seal numbers are not correct or there is evidence of tampering, the Secretary of State shall be notified immediately and no further action shall be taken with regard to such unit until the reason for the

discrepancy has been determined to the satisfaction of the Secretary of State, the election superintendent, and the manager of the absentee ballot precinct. After verifying the seal number and the integrity of the seal on each unit, the poll managers shall open each unit and turn on the power for the unit. The managers shall then compare the numbers shown on the election counters of the unit with the numbered list of absentee electors, the absentee voter log, and the absentee ballot precinct recap form to verify that there are no discrepancies. If there is a discrepancy, the Secretary of State shall be notified immediately and no further action shall be taken until the reason for the discrepancy has been determined to the satisfaction of the Secretary of State, the election superintendent, and the manager of the absentee ballot precinct. The managers of the absentee ballot precinct shall accept or reject absentee ballots cast on DRE units as directed by the registrars, using the procedures established by the Secretary of State. After completion of the acceptance and rejection process for the absentee ballots cast on the DRE units, the poll manager shall cause each DRE unit to print a minimum of three tapes showing the vote totals as cast on that DRE unit. The poll manager and the assistant managers shall sign each of the tapes or shall write on the tapes the reason why the poll manager or the assistant managers will not sign the tapes. One copy of the results tape for each DRE unit shall be posted on the door of the absentee ballot precinct for the information of the public. The memory card (PCMCIA card) and two signed tapes from each DRE unit shall be placed in the appropriate envelope supplied by the election superintendent which shall be sealed and initialed by the poll manager and at least one assistant manager such that the envelope cannot be opened without breaking such seal. After completing the printing of the results, the DRE units shall be turned off and secured in their cases and resealed. The DRE units shall then be placed in a secure area with appropriate climate control. The memory cards (PCMCIA cards), results tapes, voter access cards, supervisor's card, ballot encoder devices, numbered lists of absentee voters, absentee ballot precinct recap forms, and other such paperwork shall be transported to the office of the election superintendent by the poll manager and at least one other poll officer. The election superintendent or his or her designee shall receive the materials and shall issue a receipt to the poll manager for the materials.

(13) Any notices to the Secretary of State about discrepancies in

numbers or seals, zero tapes, or election counters shall also be forwarded to members of the State Election Board, but such information shall be considered confidential if the Secretary of State has initiated an investigation of the matter.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Use of DRE Units for Absentee Balloting" adopted. F. Oct. 24, 2003; eff. Nov. 13, 2003.

### **183-1-14-.03 Provisional Absentee Ballots.**

(1) Except as otherwise provided by O.C.G.A. § 21-2-220(c), when the registrars receive a request for an absentee ballot from a voter who registered to vote for the first time in this state by mail and has not provided the identification required by O.C.G.A. § 21-2-220, the registrars shall process the request in the same manner as other requests for absentee ballots. If the voter is found to be eligible to vote by absentee ballot, the registrars shall issue a ballot to the voter and mark the outer oath envelope with the code "IR." In addition to the information concerning how to vote the ballot, the registrars shall also enclose with the absentee ballot instructions on providing proper identification and in accessing the free access system to determine if the ballot was counted as required by O.C.G.A. § 21-2-418(e) and (f).

(2) When an absentee ballot is received from a voter who registered to vote for the first time in this state by mail and has not provided the identification required by O.C.G.A. § 21-2-220, except as otherwise provided by O.C.G.A. § 21-2-220(c), the registrars shall process the ballot as other absentee ballots returned by voters. If the ballot is accepted by the registrars but the voter has not provided the required identification, the ballot shall be treated as a provisional ballot and shall be held separate and apart from the other absentee ballots. The registrars shall maintain a numbered list of provisional absentee ballots.

(3) If an absentee voter whose ballot has been accepted but treated as a provisional ballot for failure to provide the required identification provides the required identification prior to the close of the polls on the day of the election, the voter's ballot shall be treated as a regular absentee ballot and the voter shall be switched from the numbered list of provisional absentee voters to the numbered list of regular absentee voters.

(4) As soon as practicable after 12:00 Noon on the day of the primary, election, or runoff, the registrars shall begin to deliver all accepted regular and provisional absentee ballots to the absentee ballot precinct in accordance with law. The provisional absentee ballots shall be retained by the poll officers at the absentee ballot precinct or tabulating center, as the case may be, unopened and shall not be counted. The provisional absentee ballots shall be placed in a secure container for provisional ballots and shall be transferred to the election superintendent with the other absentee ballots and election materials from the absentee ballot precinct or tabulating center, as the case may be.

(5) If, by the end of the period set by law for the verification of provisional ballots, the registrars receive the required identification from an absentee voter who failed initially to provide the required identification, then the registrars shall notify the election superintendent to count the ballot of such voter in the same manner as other verified provisional ballots from the polls. If the registrars do not receive the required identification from such absentee voter by the end of the period set by law for the verification of provisional ballots, the registrars shall notify the election superintendent to not count the ballot and the ballot shall remain unopened and sealed and shall be retained in accordance with law with the other provisional ballots which the registrars did not verify for counting.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Provisional Absentee Ballots" adopted. F. Oct. 24, 2003; eff. NOT. 13, 2003.

#### **183-1-14-.04 Reporting Requirements for Absentee Ballots.**

(1) The registrars of each county shall on the 32nd day prior to each statewide general primary and general election submit to the Secretary of State on a form provided by the Secretary of State information concerning absentee ballots requested by electors who are entitled to vote by absentee ballot under the federal Uniformed and Overseas Citizens Absentee Voting Act, 42 U.S.C. § 1973ff, et seq., as amended, Such report shall include the number of absentee ballots requested by each such category of absentee voter, the date on which the absentee ballots were available in the registrars' office, and the date on which the ballots requested by such voters were sent to the voters. The Secretary of State may request further information related to the application for and the transmittal

of such ballots.

(2) The report shall be submitted to the Secretary of State either by facsimile or other electronic means on the 32nd day prior to each statewide general primary and general election.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Absentee Electors and Campaigning in or Near Absentee Polling Places" adopted as ER. 1S3-1-14-0.5-.04. F. Sept. 10, 2004; eff. Sept. 9, 2004, the date of adoption. **Amended:** Permanent Rule entitled "Reporting Requirements for Absentee Ballots" adopted. F. Dec. 21, 2005; eff. Jan. 10, 2006. **Repealed:** New Rule of same title adopted. F. Mar. 17, 2011; eff. Apr. 6, 2011.

### **183-1-14-.05 State Write-In Absentee Ballot.**

(a) The Secretary of State shall design a state write-in absentee ballot for use in runoff primaries and runoff elections by an elector of this state who resides outside the county or the municipality in which the election is being conducted and is: (1) a member of the armed forces of the United States, a member of the merchant marine of the United States, a member of the commissioned corps of the Public Health Service or the National Oceanic and Atmospheric Administration, or a spouse or dependent of such member residing with or accompanying said member; or (2) A citizen of the United States residing outside the United States.

(b) Such state write-in absentee ballot shall be designed in such a manner as to permit the person voting such ballot to write-in the name of a candidate or candidates for state offices that are elected on a state-wide basis and for all federal offices in a runoff primary or runoff election. Such state write-in ballot shall automatically be included with any absentee ballot sent to such eligible electors for any general primary or general election. No special request for such ballot shall be required in such circumstances.

(c) Such ballot shall either have attached to or have included with such ballot two envelopes. One envelope shall have printed on such envelope the words "Official State Write-In Absentee Ballot" and nothing else. The other envelope shall be designed such that the first envelope will fit inside it and shall have printed on one side the absentee elector oath and the other side shall contain a place for the elector to address the ballot to the appropriate board of registrars or board of elections and registration in this state for mailing.

(d) The Secretary of State shall prepare and print instructions for completing and returning such ballot that shall also be enclosed with such ballot. The state write-in absentee ballot, the envelopes for returning it, and the instructions shall be enclosed with the regular absentee ballot, envelopes, and instructions for completing and returning the regular absentee ballot.

(e) Such ballots shall be made available in a downloadable electronic form on the Secretary of State's website as well as in printed form. Additionally, the Secretary of State and the county registrars shall provide for the transmission of such blank ballots by facsimile transmission and electronic mail transmission to electors. Instructions for voting such ballots shall be included on the website and shall accompany any facsimile and electronic mail ballot transmissions. Voted ballots shall not be returned by facsimile or electronic mail.

(f) As soon as practicable after a general primary or general election, the Secretary of State shall cause to be published on the official website of the Secretary of State a list of all federal offices and state offices in which there will be a runoff primary or runoff election, as the case may be, along with the names of the candidates who will be on the ballot in such runoff.

(g) If an elector obtains the ballot by facsimile or by downloading from electronic mail or the Secretary of State's website, the elector shall return the ballot by mail using two envelopes. The elector shall enclose and seal the ballot in a plain envelope and insert that envelope into another envelope for transmission to the registrars. The elector shall copy and sign the appropriate oath onto the back of the outer envelope. The Secretary of State shall provide a sample envelope and oath form on the Secretary of State's website in such a manner that such form may be used by an elector to print out the forms for the purpose of pasting or attaching such forms to an envelope for returning the ballot or for printing an envelope for returning the ballot.

(h) If the registrars receive both the official absentee runoff ballot and the state write-in absentee ballot from an elector during the time period for receiving such ballots, the registrars shall submit only the official absentee runoff ballot for counting. In such case, the state

write-in absentee ballot shall be handled in the same manner as ballots that are received too late for counting. In order to ensure that the correct ballot is counted, the registrars shall hold the ballots of individuals to whom both an official absentee runoff ballot and a state write-in ballot have been sent until the close of the absentee voting period before submitting such ballots for counting.

(i) The failure of an elector to seal the ballot in an inner envelope alone shall not be grounds for rejecting such ballot. The failure of the elector to complete the oath required of absentee voters on the outer envelope shall be cause to reject such ballot.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "State Write-in Absentee Ballot" adopted, F. Dec. 21, 2005; eff. Jan. 10, 2006.

### **183-1-14-.06 Spoiled Absentee Ballots.**

(1) When an absentee ballot is spoiled, the elector may write "Spoiled" across the face of the ballot, then fold the ballot and enclose and securely seal the same in the envelope on which is printed "Official Absentee Ballot." This envelope shall then be placed in the second one, on which is printed the form of the oath of the elector, the name, relationship, and oath of the person assisting, if any, and other required identifying information. The elector shall then fill out the required information on such envelope, without the requirement to subscribe or swear to the oath printed on such envelope. Such envelope shall then be securely sealed and the elector shall write across the face of the envelope "Spoiled" and then mail or personally deliver same to the board of registrars or absentee ballot clerk in accordance with O.C.G.A. Section 21-2-385.

(2) Upon receipt of an absentee ballot upon which the word "Spoiled" has been written across the face of the envelope, a registrar or absentee ballot clerk shall write the day and hour of the receipt of the ballot on its envelope. The registrar or absentee ballot clerk shall, within two days after the receipt of such ballot, mail or issue another official absentee ballot to the elector. All returned spoiled ballots shall be safely kept unopened by the board or absentee ballot clerk and then transferred to the appropriate clerk for storage for the period of time required for the preservation of ballots used at the primary or election and shall then, without being opened, be destroyed in like manner as the used ballots of the primary or

election.

(3) The directions that explain how to cast a vote and how to obtain a new ballot after one is spoiled shall appear immediately under the caption on the ballot in substantially the following form as appropriate for that particular primary or election:

To vote, blacken the Oval (\_\_\_) next to the candidate of your choice. To vote for a person whose name is not on the ballot, manually WRITE his or her name in the write-in section and blacken the Oval (\_\_\_) next to the write-in section. If you desire to vote YES or NO for a PROPOSED QUESTION, blacken the corresponding Oval (\_\_\_). Use only blue or black pen or pencil.

Do not vote for more candidates than the number allowed for each specific office. Do not cross out or erase. If you erase or make other marks on the ballot or tear the ballot, your vote may not count.

If you change your mind or make a mistake, you may return the ballot by writing "Spoiled" across the face of the ballot and return envelope. You may then mail the spoiled ballot back to your county board of registrars, and you will be issued another official absentee ballot. Alternatively, you may surrender the ballot to the poll manager of an early voting site within your county or the precinct to which you are assigned. You will then be permitted to vote a regular ballot.

"I understand that the offer or acceptance of money or any other object of value to vote for any particular candidate, list of candidates, issue, or list of issues included in this election constitutes an act of voter fraud and is a felony under Georgia law."

Authority O.C.G.A. Secs. 21-2-31, 21-2-284, 21-2-285, 21-2-383, 21-2-388, 21-2-480. **History.** Original Rule entitled "Spoiled Absentee Ballots" adopted. F. Oct. 29, 2009; eff. Nov. 18, 2009.

### **183-1-14.07 Spoiled Ballot Definition.**

(1) **Definitions.** As used in these rules and the Georgia Election Code, the term:

(a) "Spoiled ballot" includes a ballot

1. that has been torn, defaced, or physically deformed;

2. on which there are cast more than the permitted number of votes;

3. that has been completed in a manner which is illegible or incomprehensible;

4. that contains writing which compromises the secrecy of the ballot;

5. that is marked improperly, inappropriately, or in such a way that it would be rejected;

6. that was issued in error by the election official; or

7. that contains the wrong precinct, party, or style.

(2) A spoiled ballot shall not be reinstated.

Authority O.C.G.A. Secs. 21-2-31, 21-2-284, 21-2-285, 21-2-285.1, 21-2-379.11, 21-2-390, 21-2-433, 21-2-434, 21-2-436, 21-2-437, 21-2-440, 21-2-480, 21-2-483, 21-2-484, 21-2-493, 21-2-587. **History.** Original Rule entitled "Spoiled Ballot Definition" adopted. F. Oct. 29, 2009; off. Nov. 18, 2009.

### **183-1-14-.08 Additional Sites as Additional Registrar's Offices or Places of Registration for Absentee Ballots.**

(1) Definitions. As used in this rule and O.C.G.A. Section 21-2- 382, the term:

(a) "Government building generally accessible to the public" means any building or structure which is used by the public:

1. that is owned, leased, operated, or used by, the State of Georgia, its agencies and authorities, and any political subdivision of the state, municipal corporation, or local board or authority created by general, local, or special Act of the General Assembly or by ordinance or resolution of the governing body of a county or municipal corporation individually or jointly with other political subdivisions or municipalities of the State; and

2. that is constructed or renovated in whole or in part by use of state, country, or municipal funds, the funds of any political subdivision of the State; or, to the extent not required otherwise by

federal law or regulations and not beyond the power of the State to regulate, federal funds.

(2) A board of registrars may establish additional sites as additional registrar's offices or places of registration for the purpose of receiving absentee ballots under O.C.G.A. Section 21-2-381 and for the purpose of voting absentee ballots under O.C.G.A. Section 21-2-385. Whenever practicable, a branch of the county courthouse, a courthouse annex, a government service center providing general government services, or another government building generally accessible to the public shall be utilized for such additional sites.

Authority O.C.G.A. Secs. 21-2-31, 21-2-382, 30-3-2, 31-12A-3. **History.** Original Rule entitled "Additional Sites as Additional Registrar's Offices or Places of Registration for Absentee Ballots" adopted. F. Dec. 15, 2009; eff. Jan. 2010.

### **183-1-14-.09 Voted Absentee Ballots.**

(1) Definitions. As used in this Rule and O.C.G.A. Section 21-2-388, the phrase:

(a) "An absentee ballot which has been voted" means an absentee ballot that has been returned to and received by the board of registrars and has been certified in accordance with subsection (a) of O.C.G.A. Section 21-2-386 by the board of registrars.

(2) When an absentee ballot which has been voted shall be returned to and received by the board of registrars, it shall be deemed to have been voted then and there; and no other ballot shall be issued to the same elector. If the board of registrars or absentee ballot clerk rejects or otherwise fails to certify an absentee ballot in accordance with subsection (a) of O.C.G.A. Section 21-2-386, the elector shall be provided the opportunity to vote in the primary, election, or runoff either by applying for a second absentee ballot prior to the day before such primary, election, or runoff or by voting in person at the elector's polling place on the day of the primary, election, or runoff.

Authority O.C.G.A. Secs. 21-2-31, 21-2-388. **History.** Original Rule entitled "Voted Absentee Ballots" adopted. F. Oct. 29, 2009; eff. Nov. 18, 2009.

**183-1-14--10 Acceptance of Absentee Ballots From Military and Overseas Citizens.** Absentee ballots cast in a primary, election, or runoff by eligible electors who reside outside the county

or municipality in which the primary, election, or runoff is held are members of the armed forces of the United States, members of the merchant marine of the United States, spouses or dependents of members of the armed forces or merchant marine residing with or accompanying such member, or overseas citizens that are received by United States Mail or commercial courier, without bearing a postmark, and within the three-day period following such primary, election, or runoff, if proper in all other respects, shall be valid ballots and shall be counted and included in the certified election results.

Authority O.C.G.A. Secs. 21-2-31, 21-2-388. **History.** Original Rule entitled "Acceptance of Absentee Ballots From Military and Overseas Citizens" adopted. F. Oct. 29, 2009; eff. Nov. 18, 2009.

**183-1-14-11 Mailing and Issuance of Ballots.** During early voting, as additional applicants for absentee ballots are determined to be eligible, the board of registrars or absentee ballot clerk shall mail or issue official absentee ballots to such additional applicants immediately upon determining their eligibility. The board or clerk shall make such determination and mail or issue official absentee ballots to such additional eligible applicants within 3 business days after receiving the absentee ballot applications.

Authority O.C.G.A. Secs. 21-2-31, 21-2-384. **History.** Original Rule entitled "Mailing and Issuance of Ballots" adopted. F. May 27, 2011; eff. June 10, 2011.

### **183-1-14-12. Eligibility of Application for Absentee Ballot**

The application for an absentee ballot shall be in writing and shall contain sufficient information for proper identification of the elector. To be deemed sufficient, an application for an absentee ballot must contain the signature of the applicant.

1. In the case of the elector making such application for an absentee ballot, the application shall contain the signature of such elector.
2. In the case of a relative making an application on behalf of an elector pursuant to O.C.G.A. § 21-2-381(a)(1)(B), the application shall contain the signature of the elector's relative as well as the relationship of the relative to the elector.

Authority: O.C.G.A. §§ 21-2-31, 21-2-381.

**History.** Original Rule entitled "Eligibility of Application for Absentee Ballot" adopted. F. Dec. 28, 2015; eff. Jan. 17, 2016.

**CHAPTER 183-1-15  
RETURNS OF PRIMARIES AND ELECTIONS**

**TABLE OF CONTENTS**

**183-1-15-.01 Repealed**

**183-1-15-.02 Definition of Vote**

**183-1-15-.01 Repealed.**

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Notification and Certificate of Nomination for Political Party Nominees" adopted. F. May 26, 1970; eff. June 14, 1970. **Amended:** F. Oct. 20, 1975; eff. Nov. 9, 1975. **Amended:** Rule retitled "Certificate of Nomination for Political Party Nominees". F. Mar. 6, 1987; eff. Mar. 26, 1987. **Repealed:** F. Dec. 11, 2003; eff. Dec. 31, 2003.

**183-1-15-.02 Definition of Vote.**

(1) DRE Equipment. A vote cast on a DRE unit shall be the choice made by a voter by:

(a) Pressing the appropriate place on the DRE unit's touchscreen to cause an "X" or similar designation to display adjacent to the name of the candidate or answer to a question for which the voter desires to vote;

(b) Typing on the touchscreen the name of a qualified write-in candidate in accordance with the instructions for voting on the DRE unit; or

(c) Pressing the appropriate buttons on the keypad in the case of persons using the VWD device attached to the DRE unit.

(2) Lever-type Voting Machines. A vote cast on a lever-type voting machine shall be the choice made by a voter by either operating the lever adjacent to the name of the candidate or answer to a question for which the voter desires to vote or by writing of the name of a qualified write-in candidate on the machine in accordance with the instructions for voting on the voting machine and then recording such votes on the machine by the actuation of the main lever which casts such votes and returns the other levers to their original positions.

### (3) Optical Scan Voting Systems.

(a) A vote cast on an optical scan voting system shall be the choice made by a voter by either:

1. Filling in the oval or completing the arrow adjacent to the name of the candidate or answer to a question for which the voter desires to vote; or

2. Filling in the oval or completing the arrow adjacent to the appropriate write-in space and writing the name of a qualified write-in candidate in the appropriate space on the ballot as specified in the instructions for voting such ballot.

(b) In reviewing an optical scan ballot which has been rejected as containing an overvote in accordance with O.C.G.A. § 21-2-483(g)(2), if the voter filled in the oval or completed the arrow next to the name of a candidate whose name appears on the ballot and filled in the oval or completed the arrow adjacent to the write-in space and wrote the name of the same candidate in the write-in space for the same office, the properly cast vote shall be counted and the write-in vote shall be ignored.

(c) If, in reviewing an optical scan ballot which has been rejected as containing an overvote in accordance with O.C.G.A. § 21-2-483(g)(2), it appears that there is a properly cast vote and what is clearly a stray mark which has caused the tabulator to read the vote for such office as an overvote, the properly cast vote shall be counted and the stray mark shall be ignored.

(d) If, in reviewing an optical scan ballot which has been rejected as containing an overvote in accordance with O.C.G.A. § 21-2-483(g)(2), a voter marks his or her ballot in a manner other than that specified by law and this rule, the votes shall be counted if, in the opinion of the vote review panel as provided in O.C.G.A. § 21-2-483(g)(2)(B), the voter has clearly and without question indicated the candidate or candidates and answers to questions for which such voter desires to vote.

(e) When an optical scan ballot contains stray marks or marks which prevent the tabulating machine from properly recording valid

votes as determined under this rule and by law, the ballot shall be duplicated in accordance with law to correct such problems and the duplicate shall then be tabulated.

(4) Paper Ballots.

(a) A vote cast on a paper ballot shall be a choice made by a voter by either:

1. Placing an "X", a check, or other similar mark in the square adjacent to the name of the candidate or answer to a question for which the voter desires to vote; or

2. Writing the name of a qualified write-in candidate in the appropriate space on the ballot as specified in the instructions for voting such ballot.

(b) If a voter marks his or her paper ballot in a manner other than that specified by law and this rule, the votes shall be counted if, in the opinion of the poll officers as provided in O.C.G.A. § 21-2-439, the voter has clearly and without question indicated the candidate or candidates and answers to questions for which such voter desires to vote.

(c) If the voter marked the square next to the name of a candidate whose name appears on the ballot and wrote in the name of the same candidate in the write-in space for the same office, the properly cast vote shall be counted and the write-in vote shall be ignored.

(5) Write-in Votes. In no event shall votes cast for write-in candidates who have not qualified in accordance with O.C.G.A. § 21-2-133 be counted or recorded.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Definition of Vote" adopted. F. Oct. 24, 2003; eff. Nov. 13, 2003.

**CHAPTER 183-1-19  
PENALTIES**

**TABLE OF CONTENTS**

183-1-20-.01 Giving or Receiving, Offering to Give or Receive, or Participating in the Giving or Receiving of Money or Gifts for Registering as a Voter, Voting, or Voting for a Particular Candidate

**183-1-19-.01 Giving or Receiving, Offering to Give or Receive, or Participating in the Giving or Receiving of Money or Gifts for Registering as a Voter, Voting, or Voting for a Particular Candidate.** In the interpretation of O.C.G.A. Section 21-2-570, the State Election Board has determined that the prohibition contained therein against the giving or receiving, offering to give or receive, or participating in the giving or receiving of money or gifts for the purpose of registering as a voter or voting does not include the provision of postage to a person solely for the purpose of (1) mailing a voter registration application in order for such person to register to vote or (2) mailing an absentee ballot application or an absentee ballot that was voted and sealed by such person in order for such person to vote.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Giving or Receiving, Offering to Give or Receive, or Participating in the Giving or Receiving of Money or Gifts for Registering as a Voter, Voting, or Voting for a Particular Candidate" adopted, F. Dec. 21, 2005; eff. Jan. 10, 2006.

**RULES  
OF  
STATE ELECTION BOARD  
GEORGIA ELECTION CODE**

**CHAPTER 183-1-20  
GEORGIA VOTER IDENTIFICATION CARD**

**TABLE OF CONTENTS**

**183-1-20-.01 Georgia Voter Identification Card**

**183-1-20-.01 Georgia Voter Identification Card.**

(1) **Intent and Purpose.** These rules are promulgated pursuant to the authority granted the State Election Board under O.C.G.A. §§21-2-417.1 and 21-2-31. It is the intent of the State Election Board to provide for the time, place and manner in which each county Board of Registrars shall issue the Georgia Voter Identification Card to eligible electors and to provide for the acceptable types of documentation necessary to obtain a Georgia Voter Identification Card. To this end, the State Election Board has promulgated these rules and regulations.

(2) **Application for the Georgia Voter Identification Card.** Beginning with the July 18, 2006, Party Primary Election each county registrar shall provide the application for the Georgia Voter Identification Card in the form designed and published by the State Election Board or its member designee(s). Any registered voter who meets the criteria in O.C.G.A. § 21-2-417.1 and wishes to obtain a Georgia Voter Identification Card shall be required to submit the information requested in such application. It shall be the responsibility of each county registrar to ensure that each accepted application is complete.

(3) **Availability of the Georgia Voter Identification Card.**

(a) Each county shall provide a place within the voter registrar's primary or main office location, as previously approved by the Department of Justice, to process applications for Georgia Voter

Identification Cards and to process and distribute such cards.

(b) Each county registrar's office may provide additional locations or extended hours for processing applications for the Georgia Voter Identification Card and processing and distributing the cards but shall be required to comply with criteria for establishment of additional voter registration places as outlined in 183-1-6-.03(3).

(c) Each county registrar's office shall be open a minimum of eight hours per day on Monday through Friday of the week before the final primary, election, or run-off election day, except for legally observed holidays, and shall otherwise be open during normal business hours of the office in order to allow registered voters to apply for and obtain a Georgia Voter Identification Card.

(d) The voter registrar's office of each county shall provide the application and process the Georgia Voter Identification Card using the equipment, forms, supplies, and written training materials and/ or verbal training provided by the State Election Board.

(e) Each county Board of Registrars shall sign and maintain an intergovernmental agreement provided by the State Election Board outlining the use of the equipment.

**(4) Documentation required for application and issuance of the Georgia Voter Identification Card.**

(a) In accordance with O.C.G.A. § 21-2-417.1(e), the Board of Registrars shall require the presentation and verification of the following information before issuing a Georgia Voter Identification Card:

1. A photo identity document, except that nonphoto identity document is acceptable if it includes both the applicant's full legal name and date of birth;

2. Documentation showing the applicant's date of birth;

3. Evidence that the applicant is registered to vote in the State of Georgia, either by voter precinct card, a new voter registration application or confirmation of voter's record on the statewide voter

registration system or by verifying the original application in the voter registrar's office; and

4. Documentation showing the applicant's name and principal residence address.

(b) In determining whether the requirements of O.C.G.A. § 21-2-417.1(e) have been met, the following shall apply:

1. Any of the following which contains a photograph of the applicant shall constitute a photo identity document, as provided in O.C.G.A. § 21-2-417.1(e)(1):

(i) Student ID Card including public or private high school, college, university, or vocational school;

(ii) Transit Card;

(iii) Pilot's License;

(iv) Nursing Home Identification Card;

(v) Employee Identification Card;

(vi) Government Housing Authority Identification Card;

(vii) Any government issued license;

(viii) Any card accepted by local, state or federal government for the provision of benefits; or

(ix) Any card accepted by local, state or federal government for access to buildings.

2. Any of the following shall constitute a nonphoto identity document in lieu of a photo identity document as provided in O.C.G.A. § 21-2-417.1(e)(l) only if it includes both the applicant's full legal name and date of birth:

(i) Original birth certificate or certified copy of birth certificate;

- (ii) Certificate of birth registration;
- (iii) Voter Registration Application;
- (iv) Copy of records filed in court by the applicant or on behalf of the applicant by the applicant's counsel;
- (v) Naturalization documentation;
- (vi) Copy of Marriage License Application;
- (vii) A copy of the applicant's State or Federal Tax Return filed for the previous calendar year;
- (viii) Any other document issued by local, state, or federal government so long as the document provides a reasonably reliable confirmation of the identity of the applicant;
- (ix) Paycheck or paycheck stub bearing the imprinted name of the applicant's employer;
- (x) An original of the annual social security statement received by the applicant for current or preceding calendar year;
- (xi) An original of a Medicare or Medicaid statement received by the applicant;
- (xii) Certified school record or transcript for current or preceding calendar year;
- (xiii) Hospital birth certificate;
- (xiv) An authenticated copy of a doctor's record of post-natal care;  
or
- (xv) A federal Affidavit of Birth, form DS-10.

3. The registrar shall accept as documentation showing the applicant's date of birth under O.C.G.A. § 21-2-417.1(e)(2) any of the documents described in subparagraph (b)2. above.

4. The registrar shall accept as proof of voter registration under

O.C.G.A. § 21-2-417.1(e)(3) the applicant's voter registration application or a voter's precinct card.

5. Any of the documents described in subparagraphs (b)1. and 2. shall be acceptable as documentation showing the applicant's name and address of principal residence under O.C.G.A. § 21-2-417.1(e)(4) if the documentation contains the applicant's name and address of principal residence. In addition, the registrar shall also accept the following as documentation showing the applicant's name and address of principal residence if the applicant's name and address of principal residence appears on the document:

- (i) Voter Precinct Card;
- (ii) Utility or cable bill issued within the last sixty (60) days;
- (iii) Bank statement issued within the last sixty (60) days;
- (iv) Currently valid rental contracts and/or receipts for payments made within the last sixty (60) days for rent payments;
- (v) A copy of the applicant's State or Federal income tax return filed for the preceding calendar year;
- (vi) Homeowners insurance policy or bill for current or preceding calendar year;
- (vii) Mortgage, payment coupon, deed, or property tax bill for current or preceding calendar year;
- (viii) Current Automobile Registration Receipt;
- (ix) Homestead Exemption documentation; or
- (x) W-2 for the preceding calendar year.

6. The application and supporting documentation of any applicant who is denied a Georgia Voter Identification Card shall be immediately forwarded via facsimile and U.S. mail to the State Election Board for automatic review to determine if the applicant has provided reasonably reliable documentary indicia confirming the

identity of the applicant in which case the State Election Board shall direct the voter registrar to issue the Georgia Voter Identification Card.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Georgia Voter Identification Card" adopted. F. June 19, 2006; eff. July 9, 2006.

CERTIFICATION OF VOTING SYSTEMS**

**TABLE OF CONTENTS**

590-8-1-.01	Certification of Voting Systems	590-8-1-.02	Verifications of Voter Registration Information
-------------	---------------------------------	-------------	---

**590-8-1-.01 Certification of Voting Systems.**

**(a) Purpose.**

1. These Rules establish performance requirements and characteristics for voting systems and their components used in the State of Georgia and identify performance characteristics of these systems and components.

2. Compliance with the requirements of these Rules shall be assessed by means of code analysis, formal tests, and documentation review.

3. The intent of these Rules is to assure that hardware, firmware, and software have been shown to be reliable, accurate, and capable of secure operation before they are used in elections in the State. Hardware, firmware, and software products with performance proven in commercial applications are deemed inherently acceptable, provided that they are shown to be compatible with the operational and administrative requirements of the voting environment. Products not in wide commercial use, regardless of their performance histories, shall require Qualification, Certification, and Acceptance tests before they can be used.

4. These rules are intended to assist local jurisdictions in identifying products and provide a standardized terminology which shall facilitate the specification and demonstration of system requirements.

**(b) Applicability.**

1. These Rules are applicable to voting systems first used in the State of Georgia on or after the effective date of these Rules. These Rules are waived for all voting systems in use in the State of Georgia as of the effective date of these Rules. Successful performance during past elections are deemed sufficient evidence of adequate design. These Rules shall apply to systems developed by non-governmental third parties and those developed in-house by a local government.

2. These Rules apply to all equipment and computer programs used in a voting system including, but not limited to, the hardware, firmware, and software required for defining an election, formatting ballots, setting up precincts for voting, recording votes, tallying the results, and producing all reports.

3. These Rules apply to any agency, group, or individual responsible for the analysis, design, manufacture, procurement, or use of voting systems, their subsystems, or their components.

4. Any modification to the hardware, firmware, or software of a voting system which has completed Qualification, Certification, or Acceptance testing in accordance with these Rules shall invalidate the State certification unless it can be shown that the modification does not affect the overall flow of program control or the manner in which the ballots are recorded and the vote data are processed, and the modification falls into one of the following classifications listed below. The Secretary of State shall be the sole judge of whether or not a modification requires additional testing.

(i) The modification is made for the purpose of correcting a defect and procedural and test documentation is provided which verifies that the installation of the hardware change or corrected code does not result in any consequence other than the elimination of the defect.

(ii) The modification is made for the purpose of enabling interaction with other general purpose or approved equipment or computer programs and databases, and procedural and test documentation is provided which verifies that such interaction does not involve or adversely affect vote counting and data storage.

5. The addition or alteration of utility software and device handlers which do not interact with vote counting software except through the

intended input/output channels in the manner originally intended does not constitute a requirement for a mandatory retest.

(c) **Reciprocity.** The Secretary of State may accept the results of the Qualification tests and/or Certification tests from another state or testing agency that has performed the tests described in these Rules. This reciprocity does not extend to the Acceptance tests or any portion of the Certification tests, which are considered to be unique to the State of Georgia.

(d) **Procedure.** This review and approval procedure is limited to those voting systems and equipment that have passed the prototype stage and are in full production and available for immediate installation and use. Qualification tests shall be performed to evaluate the degree to which a system complies with the requirements of the *Voting Systems Standards* issued by the Election Assistance Commission (EAC). Whenever possible, Qualification tests shall be conducted by Independent Test Agencies (ITA) certified by the EAC. In the event that tests by an ITA are not feasible, these tests shall be conducted by a Georgia Certification Agent designated by the Secretary of State.

Certification tests shall be performed to certify that the voting system complies with the Georgia Election Code, the Rules of the Georgia State Election Board, and the Rules of the Secretary of State. A Georgia Certification Agent designated by the Secretary of State shall conduct certification tests. The Qualification and Certification testing of a voting system for use in the State of Georgia shall proceed in the following steps.

1. **Qualification.** Prior to submitting a voting system for certification by the State of Georgia, the proposed voting system's hardware, firmware, and software must have been issued Qualification Certificates from the EAC. These EAC Qualification Certificates must indicate that the proposed voting system has successfully completed the EAC Qualification testing administered by EAC approved ITAs. If for any reason, this level of testing is not available, the Qualification tests shall be conducted by an agency designated by the Secretary of State. In either event, the Qualification tests shall comply with the specifications of the *Voting Systems Standards* published by the EAC.

**2. Letter of Request.** After the voting system has completed EAC Qualification testing, the evaluation procedure to obtain certification for use of the voting system in the State of Georgia shall be initiated by letter from the vendor of the voting system to the Office of the Secretary of State requesting certification for a specific voting system. The Secretary of State or her representative shall notify the vendor of the earliest date after which the requested evaluation may begin and provide the vendor with the name and telephone number of the designated Georgia Certification Agent.

**3. Submission of Complete Technical Data Package.** The vendor shall submit the Technical Data Package described in section (g) to the Certification Agent designated by the State. The Certification Agent shall review the submission of the Technical Data Package and notify the vendor of any deficiencies. Certification of the voting system shall not proceed until the Technical Data Package is complete.

**4. Preliminary Review.** The Georgia Certification Agent shall conduct a preliminary analysis of the Technical Data Package and prepare an Evaluation Proposal containing the following information:

(i) Components of the voting system requiring evaluation.

(ii) Identification of any hardware or software components requiring additional testing by the EAC ITAs.

(iii) Description of the activities required to complete that portion of the evaluation which is to be performed by the Georgia Certification Agent.

(iv) Estimate of time required to complete the portion of the evaluation, which is to be performed by the Georgia Certification Agent.

(v) Estimate of cost of tests which are to be performed by the Georgia Certification Agent.

**5. Authorization to Proceed.** The vendor shall review the Evaluation Proposal and notify the Secretary of State, in writing, of

the desire to continue or terminate the evaluation process. The evaluation of the system shall not begin until the manufacturer or vendor notifies the Secretary of State to proceed. A copy of this notification shall be sent to the Georgia Certification Agent. A decision to continue shall obligate the vendor to the cost of the evaluation contained in the Evaluation Proposal.

**6. Evaluation.** The vendor shall arrange with the EAC ITAs for any additional required ITA testing identified in the Evaluation Proposal. After any required ITA tests have been successfully completed, the Georgia Certification Agent shall conduct the tests described in the Evaluation Proposal and submit a report of the findings to the Secretary of State.

**7. Certification.** Based on the information contained in the report from the Georgia Certification Agent, and any other information in her possession, the Secretary of State shall determine whether the proposed voting system shall be certified for use in the State of Georgia and so notify the vendor.

**8. Local Jurisdiction Acceptance.** After a voting system is delivered to a local jurisdiction, acceptance tests shall be performed in the user's environment to demonstrate that the voting system as delivered and installed is identical to the system that was certified by the State and satisfies the requirements specified in the procurement documents.

**(e) Proprietary Information.** The State of Georgia shall make every effort to protect the proprietary nature of information provided to the State or its agents during the course of these evaluations in accordance to Georgia law for protecting proprietary information. Any proposed non-disclosure agreements shall be of the type and form in common commercial usage appropriate to similar situations and shall be subject to review and approval by the Georgia Attorney General.

**(f) Audit and Validation of Certification.**

1. It shall be the responsibility of the vendor to ensure that any voting system or component of a voting system that it markets or supplies for use in the State of Georgia has been certified by the Secretary of State. It is also the responsibility of the vendor to submit

any modifications to a previously certified system or component to the Secretary of State for re-certification and to update the Technical Data Package on file in the Office of the Secretary of State to accurately reflect the modifications.

2. If any question arises involving the certification of a voting system or a component of a voting system in use in the State, the Technical Data Package and Certification documentation on file in the Office of the Secretary of State shall be used to verify that the system or component in question is identical to the system or component that was submitted for certification.

(g) **Technical Data Package.** Before evaluation can begin, the vendor must submit to the Georgia Certification Agent the Technical Data Package required to complete the evaluation of the proposed voting system. Each item in the Technical Data Package must be clearly identified. If the Technical Data Package is incomplete or the items in the package are not clearly identified, the entire package may be returned to the vendor and the evaluation of the voting system rescheduled. In most cases, the Technical Data Package submitted to the ITAs shall be sufficient for State certification.

The Technical Data Package shall contain the following items in hard copy and in electronic form when available.

(i) *Customer Maintenance Documentation.* Documentation describing any maintenance that the vendor recommends that can be performed by a customer with minimal knowledge of the system.

(ii) *Operations Manual.* Operations documentation that is normally supplied to the customer for use by the person(s) who shall operate the equipment.

(iii) *Software Source Code.* Source code of all software and firmware in the voting system. The source code shall be supplied in the form of a listing and in a machine-readable form on media that is acceptable to the Georgia Certification Agent. If there is any chance of ambiguity, the required compilers) and/or development environment must be specified.

(iv) *Software System Design.* Documentation describing the logical

design of the software. This documentation should clearly indicate the various modules of the software, their functions, and their interrelationships. The minimum acceptable documentation is a system flowchart. Deviation of the source code from the system design may be cause for rejection of the voting system.

(v) *Customer Documentation.* A complete set of all documentation which is available to the purchaser/user of the voting system. Clearly identify that documentation which is included in the cost of the system and that documentation which is available for an additional charge.

(vi) *ITA Qualification Reports.* Copies of the ITA reports for the hardware and software qualification of the voting system. These reports must be sent directly from the ITA to the Georgia Certification Agent.

(vii) *Formal Complaints and Decertification Notices.* Copies of any formal complaints and/or decertification notices that have been filed against the proposed system. This documentation must clearly identify the jurisdiction filing the complaint or decertification notice and give the details of the resolution.

(viii) *Test Data/Software (Optional).* Any available test data, ballot decks, and/or software that can be used to demonstrate the various functions of the voting system. Although optional, these items can significantly reduce the effort, and hence the time and cost, involved in the evaluation of the system.

Authority O.C.G.A. Secs. 21-2-1, 21-2-50, 21-2-258, 21-2-388, 21-2-379.2. **History.** Original Rule entitled "Certification of Voting Equipment" adopted. F. Jan. 21, 1988; eff. Feb. 10, 1988. **Repealed:** New Rule entitled "Certification of Voting Systems" adopted. F. Mar. 28, 2005; eff. Apr. 17, 2005.

## **590-8-1-.02 Verification of Voter Registration Information.**

(1) The board of registrars shall enter the information contained on voter registration applications into the statewide voter registration database in a timely manner.

(2) Verification of applicant's United States citizenship.

(a) Georgia driver's license number or identification card number.

1. If an applicant submits an application for registration and uses the applicant's Georgia driver's license number or identification card number for evidence of United States citizenship purposes, the Secretary of State shall attempt to match such number to the Department of Driver Services database.

2. If the Department of Driver Services records indicate that the applicant is not a United States citizen in the Department of Driver Services database, the Secretary of State shall attempt to verify the applicant's United States citizenship status with the United States Citizenship and Immigration Services utilizing the Systematic Alien Verification for Entitlements program. Such verification will indicate whether the applicant is designated as a citizen of the United States within the Verification Information System database.

3. If the Department of Driver Services cannot confirm that the applicant has provided satisfactory evidence of United States citizenship to the Department of Driver Services and the Secretary of State cannot confirm the applicant's United States citizenship through the Systematic Alien Verification for Entitlements program, the board of registrars shall take the following steps:

(i) The board of registrars shall ensure that the Georgia driver's license number or identification card number was entered correctly into the statewide voter registration system. If the board of registrars determines the number was not entered correctly, the board of registrars shall correct the driver's license number or identification card number in the statewide voter registration system. The Secretary of State shall match the new driver's license number or identification card number to the Department of Driver Services database.

(b) Alien registration number.

1. If only the alien registration number from an applicant's naturalization documents is provided for United States citizenship purposes, the Secretary of State shall attempt to verify the applicant's alien registration number with the United States Citizenship and Immigration Services utilizing the Systematic Alien Verification for Entitlements program.

Authority O.C.G.A. Secs. 21-2-216. **History.** Original Rule entitled "Verification of Voter Registration Information" adopted. F. Dec. 16, 2009; eff. Jan. 5, 2010.

**RULES OF  
OFFICE OF SECRETARY OF STATE  
ELECTIONS DIVISION  
CHAPTER 590-8-2  
HELP AMERICA VOTE ACT OF 2002 PROVISIONS**

**TABLE OF CONTENTS**

690-8-2-.01 Administrative Complaint Procedure  
for Violations of Title III of the Help  
America Vote Act of 2002

**590-8-2-.01 Administrative Complaint Procedure for Violations of Title III of the  
Help America Vote Act of 2002.**

(1) Any person who believes that a violation of any provision of Title III of the Help America Vote Act of 2002 (Public Law 107-252; 42 U.S.C. 15301, et seq.) has occurred, is occurring, or is about to occur may file a complaint with the Secretary of State. Such complaint shall be open to inspection by the public during business hours upon reasonable notice.

(2) Such complaint shall be in writing and shall be signed and sworn to by the person making the complaint and shall be properly notarized in accordance with state law. The complaint shall be delivered to and served upon the Secretary of State as the chief state election official in person, by U.S. Mail, or by guaranteed overnight delivery.

(3) The Secretary of State shall investigate the allegations of such complaint. If more than one complaint is filed concerning the same alleged violation, the Secretary of State may consolidate such complaints for investigation.

(4) If the complainant requests, the Secretary of State or a designee thereof shall conduct a hearing on the allegations of the complaint. Such hearing may be by telephone, conference call, or in person and shall be recorded.

(5) If the Secretary of State or a designee thereof determines that such complaint is unfounded, the Secretary of State may dismiss the complaint and notify the complainant of her decision. The Secretary of State shall make the results of her investigation into the complaint available for public inspection during normal business hours upon reasonable notice after the matter has been resolved.

(6) The Secretary of State or designee thereof shall make a determination of the validity of the complaint within 90 days following the date on which the complaint is received by and filed with the Secretary of State unless the complainant agrees to an extension of such time period.

(7) If the Secretary of State or designee thereof determines that such complaint is valid, the Secretary of State shall take all necessary and appropriate actions within her authority to address the violation; and

(8) If the Secretary of State or designee thereof does not render a final determination on a complaint filed pursuant to this rule within 90 days after the complaint is filed, or within any extension period to which the complainant has agreed, the Secretary of State or designee thereof will, on or before the third business day after the final determination was due to be issued, initiate proceedings for alternative dispute resolution;

(a) To facilitate alternative dispute resolution, the Secretary of State shall maintain a list of qualified independent professionals who are capable of acting as a mediator, from which the Secretary of State or designee thereof and the complainant shall each choose one mediator to review the case.

(b) The Secretary of State or designee thereof shall designate in writing to the complainant the name of a mediator from the list referenced in section (a) to serve on an alternative dispute resolution panel (resolution panel) to review the complaint.

1. If proceedings for alternative dispute resolution are initiated pursuant to this paragraph, not later than 3 business days after the complainant receives such a designation from the Secretary of State or designee thereof, the complainant shall designate in writing to the Secretary of State or designee thereof the name of a second mediator. If the complainant fails to designate a mediator within the time allowed above, the sole mediator shall review the record from the hearing and make a final recommendation based on the submitted record. Not later than 3 business days after such a designation by the complainant, the two mediators so designated shall select a third mediator to complete the resolution panel. If the complainant fails to designate a mediator within the time allowed above, the sole mediator shall review and dispose of the matter without selecting a second or third mediator.

2. The mediator or resolution panel may review the record compiled in connection with the complaint, including, without limitation, the investigative file on the matter, the audio recording of the hearing, any transcript of the hearing and any briefs or memoranda submitted by the parties but shall not receive any additional testimony or evidence to resolve the matter.

3. The mediator or resolution panel by a majority vote, shall after reviewing the record referenced above, provide a recommendation to the Secretary of State not later than 50 days after the final determination of the Secretary of State was due. This period for issuing a written recommendation will not be extended.

4. Upon receipt of the recommendation from the mediator or resolution panel, the Secretary of State or designee thereof shall issue a final order pursuant to the authority granted under O.C.G.A. 21-2- 50.2(c), but such remedy shall not exceed the remedies available under Title III of the Help America Vote Act of 2002.

5. The final order of the Secretary of State or designee thereof will be:

(i) Mailed to the complainant, each respondent and any other person who requested in writing to be advised of the final resolution;

(ii) Posted on the website of the Secretary of State; and

(iii) Made available by the Secretary of State, upon request by any interested person.

6. A final determination by the Secretary of State or designee thereof is not subject to appeal in any state or federal court.

Authority O.C.G.A. Secs. 21-2-1, 21-2-59.2. **History.** Original Rule entitled "Administrative Complaint Procedure for Violations of Title III of the Help America Vote Act of 2002" adopted. F. May 11, 2004; eff. May 31, 2004.

# PROOF APPROVAL

## PLEASE REVIEW THOROUGHLY. FINAL APPROVAL FOR PRINT.

This proof is furnished for you to check for typographical, spelling, and grammatical errors or mistakes in layout. Although every effort has been made to see that it is correct, More Business Solutions will not assume responsibility in case of errors in printed materials that were not marked on this proof. To ensure the highest degree of accuracy in your finished product, we recommend printing a copy of your proof to size and reviewing before submitting approval.

Good Morning-

Yes, Pate needs to be change to Page. On the cover 2013 needs to be changed to 2018.

Attached are changes.

Attachment 183-1-11-.02- please use to replace sections 1-4 of the this rule.

Attachment 183-1-13-.06 please add after 183-1-13.05

Attachment 183-1-14-.01- please use to replace the current rule.

Thanks for your help.

**Subject:** PROOF: SEB Rulebook - Order 48740-193741 PROOF1

Hi Rachel,

Attached is the first digital proof for the SEB rulebook. After reviewing the supplied file, it appears the content changes were already done.

I did swap out the seal on the cover with a higher resolution image seal and I think there might be a typo in the table of contents. If you look above the page number listings, it says "Pate" instead of Page. I have not yet corrected as I wanted to make sure it was an error before proceeding with the correction.

Let us know if additional corrections are needed or if the order is approved for production. We will await your feedback and place the order on hold in the meantime.

Many thanks,

---

This email was sent for proof approval of a product. The attached file(s) are being furnished for you to check typographical, spelling, and grammatical errors, as well as mistakes in layout/ formatting. Although every effort has been made to see that the product is correct, More Business Solutions will not assume responsibility in the case of errors in printed materials that were not explicitly stated or marked for correction on the proof approval form. To ensure the highest degree of accuracy in your finished product, we recommend printing a copy of your proof to size and reviewing before submitting approval.

By Signing the Proof Approval form or replying to this email, you accept responsibility for any errors discovered after printing. You agree to pay, in full, the costs incurred with this job. You also understand that a delay in proof approval can result in extension of due date and therefore a delay in product productions or delivery. We will accept written approvals only - you can reply back to this email or submit a scanned proof approval form.

Thank you and we appreciate your business and feedback.

**Subject:** FW: SEB rulebook

Hi Charity-

I am back to work and wanted to follow up on the rulebook. I would like to go ahead and continue with the process of getting the rulebook printed.

Thanks.

**Subject:** RE: SEB rulebook

Hi Charity-

We would like to go ahead with the order. I do have some changes that someone has submitted. We plan to proof the book before the final printing of it.

Thanks for your help.

Typo in header of pdf page 38/book page 23. Currently says "NOMINATGION OF CANDIDATES"

183-1-11-.01 The authority has a typo. It is missing the closed quotation mark that is in yellow below:

Authority O.C.G.A. Secs. 21-2-218, 21-2-31. History. Original Rule entitled "Ballot Secrecy" adopted. F. Nov. 14, 1986; eff. Dec. 4, 1986.

183-1-11-.02 They didn't replace the old rule with the newly adopted rule...

Typo: Comma after History should be a period. off. should be eff.

183-1-13-.02 Repealed.

Authority 1064 Ga. Election Code, as amended. History, Original Rule entitled "Ballots, Paper, Validity of Marketing" adopted. F. July 24, 1968; eff. Aug. 12, 1968. Repealed: F. Oct. 20, 1975; off. Nov. 9, 1975.

For 183-1-14-.12, Remove the word Rule. Improve formatting, put a new line after bold title and the first sentence. Put a new line after 2nd sentence and the set apart "1.". Put a new line after the set apart "1." and the set apart "2." Remove the language "Cite as Ga. Comp. R. & Regs. R. 183-1-14-.12" have the authority and history section the same font and style as other rules.

Rule 183-1-14-.12. Eligibility of Application for Absentee Ballot

The application for an absentee ballot shall be in writing and shall contain sufficient information for proper identification of the elector. To be deemed sufficient, an application for an absentee ballot must contain the signature of the applicant.

1. In the case of the elector making such application for an absentee ballot, the application shall contain the signature of such elector.

2. In the case of a relative making an application on behalf of an elector pursuant to O.C.G.A. § 21-2-381(a)(1)(B), the application shall contain the signature of the elector's relative as well as the relationship of the relative to the elector.

Cite as Ga. Comp. R. & Regs. R. 183-1-14-.12

Authority: O.C.G.A. §§ 21-2-31, 21-2-381.

History. Original Rule entitled "Eligibility of Application for Absentee Ballot" adopted. F. Dec. 28, 2015; eff. Jan. 17, 2016.

**Subject:** RE: SEB rulebook

Good Morning Rachell –

All the specs such as:

Are we scanning the hardcopy or do you have electronic files?- I only have the pdf. I can send you the actual book if that would help.

What is the final size of the book?

What is cover stock run on?

What is text stock run on?- regular copy paper

Bound – as in perfect bound like paperback book that you would buy at a book store?-like a paperback

Does it run black ink only or color ink?- black ink

How many pages are there (not sheets, impressions)?

Does it print double sided or single sided?-double sided

What quantity would you like printed?-1500

Do you need to see a hardcopy proof or is a pdf proof acceptable?-hard copy

Is this delivering back to you or is there another delivery location, if so, what is the address?- we have a warehouse in Hapeville or we can pick up

Is this something we can do in standard turn time or is there certain date we have to hit? (this one may be depending on the quantity and complexity of the job if we can meet the deadline)- Mid January if possible, if not February would be fine.

I hope that helps!

-Charity

## ADMINISTRATIVE HISTORY

The **Administrative History** following each Rule gives the date on which the Rule was originally filed and its effective date, as well as the date on which any amendment or repeal was filed and its effective date. Principal abbreviations used in the Administrative History are as follows:

- f. — filed
- eff. — effective
- R. — Rule (Abbreviated only at the beginning of the control number)
- Ch. — Chapter (Abbreviated only at the beginning of the control number)
- ER. — Emergency Rule
- Rev. — Revised

**Note: Emergency Rules** are listed in each Rule's Administrative History by Emergency Rule number, date filed and effective date. The Emergency Rule will be in effect for 120 days or until the effective date of a permanent Ride covering the same subject matter superseding this Emergency Rule is adopted, as specified by the Agency.

Chapters 183-6 entitled "Registration of Electors", 183-7 entitled "Election Districts and Polling Places", 183-12-1 entitled "Voting Machines", 183-12-2 entitled "Vote Recorders", 183-13 entitled "Preparation for and Conduct of Primaries and Elections", and 183-14 entitled "Absentee Voting" have been adopted. The following Chapters are reserved: 183-1 to 183-5, 183-8 to 183-11, 183-15 to 183-36. Filed July 24, 1968; effective August 12, 1968.

Rules 183-6-.01, .02, 183-12-2-.04 and .05 have been amended. Rules 183-6-.03 and 183-13-.01 have been repealed. Filed August 5, 1969; effective August 24, 1969.

Rules 183-12-2-.04, .08 and 183-14-.02 have been repealed and new Rules adopted. Rules 183-13-.03 to .05 have been adopted. Chapter 183-15 entitled "Returns of Primaries and Elections" has been adopted. Filed May 26, 1970; effective June 14, 1970.

Chapters 183-24 entitled "Poll Officers", 183-25 entitled "Registration of Electors", 183-26 entitled "Election Districts or Precincts and Polling Places", and 183-27 entitled "Dates of Primaries

and Elections", 183-31-1 entitled "Voting Machines", 183-31-2 entitled "Vote Recorders", 183-32 entitled "Preparation For and Conduct of Primaries and Elections", and 183-33 entitled "Absentee Voting" have been adopted. Filed August 30, 1973; effective September 19, 1973.

Rules 183-6-.01, 183-14-.01 and .02 have been repealed and new Rules adopted. Rules 183-7-.01 and 183-15-.01 have been amended. Chapter 183-8 entitled "Dates of Primaries and Elections" has been adopted. Filed June 24, 1974; effective July 14, 1974.

Rules 183-6-.01, 183-13-.02, and 183-33-.01 have been repealed. Rules 183-12-2-.06, .07, 183-14-.01, 183-15-.01, 183-33-.02 have been amended. Chapters 183-1 to 183-11, 183-12-1, 183-12-2, 183-13 to 183-20 have been renumbered to 183-1-1 to 183-1-20 by Certification. Chapters 183-21 to 183-31, 183-31-1, 183-31-2 and 183-32 to 183-36 have been renumbered to 183-2-1 to 183-2-16 by Certification. All Rules of said Chapters have been renumbered. Filed October 20, 1975; effective November 9, 1975.

Emergency Rules 183-1-6-0.1-.01 and 183-2-5-0.2-.02 adopted. Filed May 20, 1982; effective May 17, 1982, the date of adoption, to be in effect for 120 days or until the effective date of permanent Rules covering the same subject matter superseding these Emergency Rules are adopted, as specified by the Agency. These Emergency Rules were adopted to prevent voter irregularities in the upcoming elections. (These Emergency Rules will not be published; copies may be obtained from the Agency.)

Rules 183-1-6-.01 and 183-2-5-.02 have been adopted. Filed March 29, 1983; effective April 18, 1983.

Rule 183-1-6-.03 has been adopted. Filed January 22, 1985; effective February 11, 1985.

Rule 183-1-6-.04 has been adopted. Filed August 1, 1986; effective August 21, 1986.

Rule 183-1-6-.04 has been amended. Filed September 18, 1986; effective October 8, 1986.

Chapter 183-1-11 entitled "Ballots" has been adopted. Rule 183-1-12-.10 has been adopted. Filed November 14, 1986; effective December 4, 1986.

Rule 183-1-6-.01 has been repealed. Rules 183-1-6-.02, 183-1-12-.03, .05 to .09, 183-1-13-.03 to .05, 183-1-14-.01, 183-1-15-.01 have been amended. Rule 183-1-7-.01 has been repealed and a new Rule adopted. Filed March 6, 1987; effective March 26, 1987.

Rule 183-1-6-.03 has been amended. Filed January 21, 1988; effective February 10, 1988.

Rule 183-1-6-.03 has been amended. Filed April 10, 1989; effective April 30, 1989.

Rule 183-1-6-.05 has been adopted, Rules 183-1-13-.03, .05 and 183-1-14-.01 have been amended. Filed February 17, 1992; effective March 9, 1992.

Rules 183-1-12-.01 and .02 have been repealed and new Rules adopted. Filed August 30, 2002; effective September 19, 2002. Rule 183-1-12-.06 has been repealed and a new Rule adopted. Filed October 18, 2002; effective November 7, 2002.

Rules 183-1-12-.01, .02, and 183-1-14-.01 have been amended. Rule 183-1-12-.06 has been repealed and a new Rule adopted. Rules 183-1-14-.02, .03 and 183-1-15-.02 have been adopted. Filed October 24, 2003; effective November 13, 2003.

Rules 183-1-6-.02, 183-1-12-.05, .07 to .09, 183-1-15-.01, 183-2-4-.01, 183-2-5-.01, .02, 183-2-6-.01, 183-2-7-.01, 183-2-11-.02 to .09, 183-2-12-.02 to .05, and 183-2-13-.02 have been repealed. Rules 183-1-6-.03 to .05, 183-M2-.03, 183-1-13-.03 to .05 have been amended. Filed December 11, 2003; effective December 31, 2003. Rule 183-1-12-.02 has been amended. Filed May 11, 2004; effective May 31, 2004.

Emergency Rules 183-1-6-0.3-.06, 183-1-12-0.4-.02, and 183-1-14-0.5-.04 adopted. Filed September 10, 2004; effective September 9, 2004, the date of adoption, to be in effect for 120 days or until the effective date of a permanent Rule covering the same subject matter superseding this Emergency rule is adopted, as specified by the Agency. This Emergency Rule was adopted to prevent confidential information being used for fraudulent purposes (Emergency Rule 183-1-6-0.3-.06), voter fraud related to the counting of absentee ballots

(Emergency Rule 183-1-12-0.4-.02, voter coercion or intimidation occurring during the absentee voting period (Emergency Rule 183-1-14-0.5-.04). (This Emergency Rule will not be published; copies may be obtained from the Agency.)

Rules 183-1-12-.06 has been amended. Rules 183-1-14-.04 and .05 have been adopted. Filed December 21, 2005; effective January 10, 2006.

Rules 183-1-6-.03 and 183-1-12-.02 have been amended. Chapter 183-1-19 entitled "Penalties" has been adopted. Filed December 28, 2005; effective January 17, 2006.

Rule 183-1-12-.07 has been adopted. Filed March 8, 2006; effective March 28, 2006.

Rule 183-1-6-.03 has been amended, Filed May 30, 2006; effective June 19, 2006.

Chapter 183-1-20 entitled "Georgia Voter Identification Card" has been adopted. Filed June 19, 2006; effective July 9, 2006.

**TABLE OF CONTENTS**

183-1-1-.01	Procedure to Petition for Adoption of Rules	183-1-1-.02	Review of Initial Decisions
-------------	---	-------------	-----------------------------

**183-1-1-.01 Procedure to Petition for Adoption of Rules.**

(1) Interested persons may petition the State Election Board requesting the promulgation, amendment, or repeal of a rule, Such petition should be in the form of a letter addressed to the Board setting forth the language of the proposed rule, amendment, or repeal, and, where applicable, the language of the rule sought to be amended or repealed.

(2) Any interested person desiring to petition the Board requesting the promulgation, amendment, or repeal of a rule shall submit three copies of the petition, in writing, by certified or registered mail, to the Chairperson of the State Election Board, 2 Martin Luther King, Jr. Drive, S.E., Suite 1104, West Tower, Atlanta, Georgia 30334-9000.

(3) Each petition for the promulgation, amendment, or repeal of a rule made pursuant to the Georgia Administrative Procedures Act should be verified under oath, or in proper behalf of, the petitioner and shall contain:

- (a) The name and post office address of the petitioner;
- (b) The full text of the rule requested to be amended or repealed, or the full text of the rule desired to be promulgated;
- (c) The reason(s) such rule should be amended, repealed, or promulgated;
- (d) Any and all pertinent existing facts as to the petitioner's interest in the matter;

(e) Any and all facts known to the petitioner which might influence the decision of the Board to initiate or not initiate rulemaking, including identification of any parties who it is known will or may be affected by the amended, repealed, or promulgated rule; and

(f) Citations of legal authorities, if any, which authorize, support, or require the action requested by the petitioner.

(4) Within thirty (30) days after submission of a petition for the promulgation, amendment, or repeal of a rule or at the next regularly-scheduled meeting of the State Election Board, the Board shall decide upon the action to be taken. The Board shall not be forced to call a special meeting in order to address such a petition. If such a petition is received less than twenty (20) days before a regularly-scheduled meeting, the Board may vote to address the petition at its next regularly-scheduled meeting. Within ten (10) days after addressing the petition, the Board shall inform the petitioner by mail of the decision reached, and shall either decline to take the action requested, stating its reasons for so declining, or shall initiate rulemaking proceedings in accordance with the Georgia Administrative Procedures Act.

Authority O.C.G.A. Sees. 50-13-3, 50-13-17. **History.** Original Rule entitled "Procedure to Petition for Adoption of Rules" adopted. F. Feb. 22, 2006; eff. Mar. 13, 2008.

**183-1-1-.02 Review of Initial Decisions.** The State Election Board (the "Board") does not routinely preside at the reception of the evidence in contested cases before it and typically refers these cases to the Office of State Administrative Hearings ("OSAH"). After receiving the evidence, an OSAH hearing officer may issue an initial decision in such a contested case more than thirty (30) days before the next regularly-scheduled meeting of the Board. On those occasions where the hearing officer issues an initial decision more than thirty (30) days before the Board's next regularly-scheduled meeting, the period of time in which the Board shall render a final decision shall be extended until the date of the next regularly-scheduled meeting of the Board.

Authority O.C.G.A. Sees. 50-13-3, 50-13-17. **History.** Original Rule entitled "Review of Initial Decisions" adopted. F. Feb. 22, 2008; eff. Mar. 13, 2008.

**CHAPTER 183-1-6  
REGISTRATION OF ELECTORS**

**TABLE OF CONTENTS**

183-1-6-.01	Acceptance of Voter Registration Applications	183-1-8-.04	Accessibility for Elderly and Disabled Voters
183-1-6-.02	Rules for Voter Registration by Private Entities	183-1-8-.05	Registration of Persons by College Presidents or Their Designees
183-1-6-.03	Rules and Regulations for Voter Registration by Registrars and Deputy Registrars	183-1-6-.06	Verification of United States Citizenship of Applicants for Voter Registration

**188-1-6-.01 Acceptance of Voter Registration Applications.**

(1) The board of registrars shall, as of the date received, date stamp all voter registration applications delivered by hand to the board or otherwise received when the application does not have a date stamp affixed by the Secretary of State or a postmark affixed by the United States Postal Service or when the postmark affixed by the United States Postal Service is illegible or bears no date. In any such instance, a voter registration application shall be deemed to have been made as of the date stamp affixed to such application by the board of registrars that receives such application and shall be processed in accordance with subsection (c) of O.C.G.A. Section 21-2-224.

(2) Any application of a person who is a resident of a county in this State that is delivered to the board of registrars of another county through mistake, inadvertence, neglect, or otherwise that does not have a date stamp affixed by the Secretary of State or a postmark affixed by the United States Postal Service or when the postmark affixed by the United States Postal Service is illegible or bears no date shall be date stamped by the receiving board of registrars and shall be forwarded as soon as possible and, in any event, not later than seven days after receipt of the application to the correct board of registrars by the receiving county. In any such instance, a voter registration application shall be deemed to have been made as of the date stamp affixed to such application by the board of registrars that originally receives such application and shall be processed by the correct board

of registrars in accordance with subsection (c) of O.C.G.A. Section 21-2-224.

Authority O.C.G.A. Secs. 21-2-31, 21-2-224. **History.** Original Rule entitled "Special Registration for New (30 day) Residents" adopted. F. July 24, 1968; eff. Aug. 12, 1968. **Amended:** F. ## 183-1-6-.02 Rules for Voter Registration by Private Entities.

(1) **Intent and Purpose.** These rules are promulgated pursuant to the authority granted to the State Election Board by Georgia Laws 1984, p. 1430, (O.C.G.A. Section 21-2-215(f)) and by Georgia Laws 1968, p. 862, (O.C.G.A. Section 21-2-31). It is the intent and purpose of the State Election Board to establish reasonable, necessary, and uniform rules and regulations to carry out the responsibilities of the State of Georgia with respect to the registration of voters in Georgia.

For the benefit and protection of those citizens who choose to entrust their completed voter registration applications to private entities and for the benefit and protection of the public and the fair administration of the electoral process, the State Election Board has promulgated these rules for voter registration by private entities. The State Election Board, within the parameters of the law, has taken care to make voter registration in Georgia as convenient and easy as practicable while retaining the necessary controls to prevent abuse of the system and fraud in the elective process. To this end, the State Election Board has promulgated these rules and regulations.

(2) **Definitions.** As used in this rule, unless otherwise noted, the term:

(a) "Close of registration" means the last day for the registration of voters in a primary or general election, as provided by law.

(b) "Private entity" means an individual who is not acting in an official capacity as a registrar or deputy registrar, or a non-governmental organization or other non-governmental entity that utilizes individuals other than registrars or deputy registrars to conduct voter registration programs.

(c) “Voter registration programs” means the distribution or collection of voter registration applications.

### **(3) Acceptance of Mail Voter Registration Applications.**

(a) A voter registration application postmarked or received by the Secretary of State or a registrar or deputy registrar within the time frames provided by law for the registration of electors shall be processed without regard to whether such application was received by mail or otherwise, was submitted singularly or bundled with other voter registration applications, or was submitted by a private entity. No board of registrars shall reject or refuse to process a voter registration application solely on the basis of how or by whom it was submitted.

(b) Any mail voter registration application received from a private entity (other than from an individual delivering his or her own application to a state or local election official in person) shall be processed in the same manner as an application received by mail, regardless of the manner in which such application was actually delivered.

(c) Nothing in this rule shall be construed to prohibit or in any manner restrict the right of any board of registrars or other authority from investigating and addressing suspected instances of voter registration fraud or to challenge, examine, verify, or determine the validity of voter registration applications or the qualifications and eligibility of persons applying to register to vote.

**(4) Voter Registration Activities of Private Entities.** Nothing in this rule shall be construed to prevent private entities from conducting organized voter registration programs and assisting eligible citizens with voter registration as permitted by state or federal law, including the distribution, collection, and transmittal of mail voter registration applications to the appropriate board of registrars.

### **(5) Instruction and Training of Private Entities.**

(a) Instruction and training for private entity voter registration activities pursuant to this rule shall be offered by the board of registrars. Training requests by private entities shall be made in

writing to the board of registrars. The board of registrars shall respond in writing to such requests with a training confirmation, including the date, time, and location such training will take place.

(b) At a minimum, training shall be provided to each private entity who requests such training on:

1. How to complete the voter registration application designed, published, and distributed by the Secretary of State in accordance with O.C.G.A. Section 21-2-223;

2. The proper security of completed voter registration applications;

3. The time frames within which completed voter registration applications are required to be transmitted to the appropriate board of registrars;

4. The identification requirements to be included with completed voter registration applications;

5. The identification requirements for voting at polling places within the state and the requirements for persons who registered to vote for the first time by mail; and

6. The required and prohibited activities of private entities as set forth in paragraphs (6) and (7) of this rule.

(c) The Secretary of State may develop and provide to the boards of registrars manuals for this instruction. The Secretary of State may also make such manuals available to the public, including via electronic means on the Secretary of State's website. Until such time as the Secretary of State develops such manuals, boards of registrars shall utilize such materials as will meet the training requirements of this rule.

**(6) Required Activities.** While engaging in organized voter registration activity within this state, a private entity shall:

(a) Advise each applicant that such applicant has the option to return his or her voter registration application personally to the appropriate board of registrars or to the Secretary of State or to permit the private entity to return it on the applicant's behalf;

(b) Inform all applicants that they are not officially registered to vote until their eligibility has been determined by the appropriate board of registrars and that, if the applicant has not received notification of the disposition of the application within three to four weeks of submitting the application, the applicant should contact the appropriate board of registrars to determine if such applicant's eligibility has been determined and the applicant's name entered on the official list of electors;

(c) Inform all applicants that, if they are registering to vote for the first time in the jurisdiction by mail or through a private entity, they must present current and valid identification either when registering to vote by mail or through a private entity or when voting for the first time after registering to vote by mail or through a private entity;

(d) Inform all Georgia applicants of the availability of an online registration status check and polling place locator service on the Secretary of State's website and encourage all applicants to access it in advance of a primary or election day to verify their registration status and correct polling place; and

(e) Inform all applicants of their right, under certain circumstances, to cast a provisional ballot in the event that their names do not appear on the official list of electors at the polls.

For purposes of compliance with the notice provisions provided in this paragraph, it shall be sufficient for the private entity either to post such notices in a conspicuous location at any fixed registration site or to provide such notices in written form to the applicant in a brochure, flyer, or other similar manner at the time of application. The Secretary of State may design and make available to private entities an appropriate model form that includes all required notices pursuant to this paragraph.

**(7) Prohibited Activities.** While engaging in voter registration programs within Georgia, a private entity shall not:

(a) Represent to any person that the private entity is a representative of the Secretary of State or a board of registrars authorized by law to receive voter registration applications in person;

(b) Make any statement to an applicant or take any action that the private entity knows or reasonably should know would discourage a qualified applicant from registering to vote;

(c) Refuse to accept and transmit a properly completed and contemporaneously dated voter registration application from any qualified individual;

(d) Be inebriated or otherwise impaired by drugs, alcohol, or other substances;

(e) Conduct voter registration activities at locations where the private entity knows that illegal or criminal activities are being conducted;

(f) Accept a completed registration application from the applicant unless such application has been sealed by the application, without a signed acknowledgement from the applicant that the applicant willingly and knowingly provided the unsealed application to the private entity;

(g) Copy a completed registration application without the express, written permission of the applicant; or

(h) Conduct voter registration activities in places where alcoholic beverages are sold and consumed on the same premises.

#### **(8) Transmittal of Completed Voter Registration Applications.**

(a) A private entity shall promptly transmit all completed voter registration applications to the Secretary of State or the appropriate board of registrars within ten days after receiving the application or by the close of registration, whichever period is earlier. If a private entity receives a completed voter registration application fourteen days or less before the close of registration, the private entity should transmit the application to the Secretary of State or the appropriate board of registrars within seventy-two hours of the date of the execution of the application or by midnight on the close of registration, whichever period is earlier.

(b) Transmittal of completed voter registration applications may be accomplished by in-person delivery, mail, commercial courier,

statutory overnight delivery, or any other form of delivery that is reasonably calculated to secure and ensure the confidential delivery and receipt of such applications by the Secretary of State or the appropriate board of registrars within three business days after transmittal and within the time frames required by these rules and regulations and state and federal law.

(c) With each transmittal of completed voter registration applications, a private entity should include a transmittal summary sheet which, at a minimum, provides the name of the submitting individual, the name of the private entity sponsoring the voter registration programs (if different than the submitting individual), the physical residence or business address of the submitting individual, the daytime and evening telephone numbers of the submitting individual, and the total number of applications being submitted. The Secretary of State may design and make available to private entities a model transmittal summary sheet containing the information requested in this subparagraph. The failure to include the transmittal summary sheet shall not by itself be grounds for rejecting the submitted applications. The private entity may enclose a postage-prepaid, self-addressed envelope, along with a copy of the completed transmittal summary sheet, if the private entity desires a date stamped receipt of the transmittal summary sheet from the board of registrars, in which case the board of registrars shall promptly acknowledge such receipt by returning a date stamped copy of the transmittal summary sheet to the private entity.

#### **(9) Confidentiality of Completed Voter Registration Applications.**

(a) A private entity shall keep all completed original voter registration applications in the possession of the private entity in a secure and confidential manner at all times until such applications are submitted to the Secretary of State or the appropriate board of registrars. Except as otherwise provided in this rule, a private entity shall not disclose any such applications or information contained therein, except as specifically provided in these rules and regulations to any member of the public. A private entity may collaborate with another affiliated private entity in the securing of completed original voter registration applications that are received during the course of a jointly organized voter registration program.

(b) With the express, written consent of the applicant, a private entity may make archival copies of an applicant's original voter registration application and retain such archival copies for use in aiding the applicant with verifying the timely and proper receipt and processing of his/her application by the applicable board of registrars. A private entity may engage the services of a commercial copying or document management service to make such archival copies provided that the company agrees to maintain the confidentiality and security of the original applications and any copies of the applications in the same manner as is required by private entities pursuant this rule.

(c) A private entity shall keep any such archival copies in a secure and confidential manner at all times and shall not disclose any such archival copies to any member of the public; provided, how-ever, that a private entity may disclose such archival copies to another affiliated private entity as necessary for use in aiding the applicant with verifying the timely and proper receipt and processing of his/her application by the applicable board of registrars. Archival copies of completed voter registration applications must be discarded by the private entity not later than 90 days following the transmittal of the completed voter registration application to the Secretary of State or board of registrars. Whenever such archival copies are discarded by the private entity, they must be discarded in the manner contemplated by O.C.G.A. § 10-15-2 for the destruction by businesses of records containing personal information.

(d) A private entity may create and keep a separate record of any information contained on the applicant's voter registration application that could otherwise be made available for public inspection pursuant to O.C.G.A. § 21-2-225(b) if collected and maintained by the Secretary of State on the official list of electors. No such information may be used by the private entity or any other person for commercial purposes. Whenever such information is discarded by the private entity, it must be discarded in the manner contemplated by O.C.G.A. § 10-15-2 for the destruction by businesses of records containing personal information.

Authority O.C.G.A. Sec. 21-2-91. **History.** Original Rule entitled "Duplicate Voting, Procedure for Checking" adopted. F. July 24, 1968, eff. Aug. 12, 1968. **Amended:** F. Aug. 5, 1969; eff. Aug. 24, 1969. **Amended:** F. Mar. 6, 1987; eff. Mar. 26, 1987. **Repealed:** F. Dec. 11, 2003; eff. Dec. 31, 2003. **Amended:** New Rule entitled "Rules for Voter Registration by Private Entities" adopted. F. Oct. 29, 2009; eff. Nov. 18, 2009.

**183-1-6-.03 Rules and Regulations for Voter Registration by Registrars and Deputy Registrars.****(1) Intent and Purpose.**

(a) These rules are promulgated pursuant to the authority granted the State Election Board by Georgia Laws 1984, p. 1430, (O.C.G.A. Section 21-2-215(0) and by Georgia Laws 1968, p. 862, (O.C.G.A. Section 21-2-31). It is the intent of the State Election Board to increase the level of participation in the elective process in the State of Georgia by encouraging the registration of voters within the State. It is the intent and purpose of the State Election Board, within the parameters of the law, to make voter registration in Georgia as convenient and as easy as practicable while retaining the necessary controls to prevent abuse of the system and fraud in the elective process. To this end, the State Election Board has promulgated these rules and regulations.

(b) Nothing in this rule shall be construed to prohibit any voter registration activity that is permitted pursuant to the National Voter Registration Act of 1993, 42 U.S.C. §§ 1973gg et seq., or any other federal or state law or regulation.

(c) Rules and regulations governing voter registration by private entities are provided in a separately numbered rule within this Chapter.

**(2) Criteria for Appointment of Deputy Registrars.** The board of registrars in each county may appoint deputy registrars to aid them in the discharge of their duties. The number of deputy registrars appointed to serve shall be determined by the board of registrars.

(a) Deputy registrars appointed by each county board of registrars shall meet the following qualifications:

1. be a registered voter in the State of Georgia;
2. be able to read, write and speak the English language;
3. have legible handwriting unless the voter registration applications are to be completed by typewriter or electronic means;
4. satisfactorily complete such training as shall be required by the board of registrars;

5. not have been convicted of a felony or of any crime involving fraud or moral turpitude;

6. not be a candidate for nomination or election to any office except as allowed by O.C.G.A. § 21-2-214; and

7. not have been removed as a deputy registrar for improper conduct in the performance of the duties of deputy registrar.

(b) Deputy registrars shall not engage in political activity on behalf of a candidate, political party or body, or question while actually conducting the duties of their office. While conducting the duties of their office, each person serving as a deputy registrar shall wear a badge or display identification which shall state no more than the person's name and the fact that the person is a deputy registrar of the county. There shall be available for inspection, upon request to verify the authority of the persons involved, the names of the authorized deputy registrars serving at the site.

(c) The following activities shall subject a deputy registrar to immediate revocation of appointment as a deputy registrar:

1. registering voters at unapproved sites, times, and hours, including door to door registration;

2. intoxication while on duty;

3. falsification of registration records;

4. improper handling of registration applications;

5. engaging in any communication, wearing badges, buttons, or clothing that advocates or criticizes a particular candidate, office holder, political party or body, or ballot question while on duty, such as making verbal statements and distributing campaign literature. However, deputy registrars shall identify themselves as deputy registrars of the county by wearing the badges or displaying the identification described in paragraph (b) above; and

6. failure to appear or remain at the deputy registrar's assigned site at or during the assigned hours without adequate notice to the board of registrars or without a proper replacement.

**(3) Criteria for Establishment of Additional Voter Registration Places:**

(a) The Board of Registrars, in addition to its main office, may designate other fixed places throughout the county as would be reasonably necessary to receive applications for registration and for the registration of electors.

(b) Such additional registration places shall be located in facilities which are open to and frequented by the general public. No place shall be used as an additional registration place unless the general public is freely admitted without regard to race, color, creed, religion, gender, or national origin,

(c) Churches which are open to all persons and which are, in fact, attended for any purpose by persons who are not members of the church shall be considered to be open to and frequented by the general public.

(d) The offices or facilities of community, civic, service, social, civil rights, patriotic, fraternal, and labor organizations shall be considered to be open to and frequented by the general public if non members of the organization in fact attend various activities sponsored by the organization at its offices and facilities and such offices or facilities are open to all persons. However, offices or facilities of political parties, political bodies or candidates shall not be used as additional voter registration places.

(e) The fact that a facility is used primarily or exclusively by the general public of one race or ethnic group or socioeconomic group shall not, for that reason alone, bar its designation as a registration place.

(f) When employers or business owners request the use of their place of business as a registration place, registration shall be conducted only in that part of the place of business which is open to the general public. Such part of the place of business shall be considered to be open to and frequented by the general public if it is an area which is maintained for use by the general public and is known to serve the general public for the purpose of conducting business or engaging in other transactions with the business.

(g) Organizations, employers, offices, and businesses that register voters at their facilities shall not limit registration to their members, employees, or customers, but must register any qualified applicant.

(h) Registration of voters shall be prohibited in places where alcoholic beverages are sold and consumed on the same premises.

(i) No registration of voters shall take place where criminal activities are permitted to occur.

(j) Registration places may be established on a temporary or permanent basis. Permanent places are those which operate on a fixed schedule for an indefinite period of time. Temporary places are those which operate on a temporary schedule and, among other things, may be used in voter registration drives.

1. The deputy registrars appointed by the board of registrars who staff registration places may be unpaid volunteers, employees of the board of registrars, or employees of government offices or of private businesses.

(k) Persons acting as individuals or as representatives of organizations and businesses may request the establishment of additional voter registration places. The board of registrars shall consider such requests.

1. If the request is approved, the board of registrars shall make provisions for having a deputy registrar who has been appointed by the board of registrars available at the additional voter registration places at all times which have been designated by the board of registrars and which have been precleared by the United States Department of Justice for the purpose of voter registration. The board of registrars shall inform such persons that registration may be conducted only at such times as are designated by the board of registrars, precleared by the United States Department of Justice, and advertised as required by law.

(l) The board of registrars shall retain the ultimate responsibility for the submission of additional registration places, dates, and times to the United States Department of Justice for preclearance pursuant to the Voting Rights Act of 1965 and for the advertising of registration places as required by law. The board of registrars shall also retain the ultimate responsibility for the appointment and training of deputy registrars, the proper conduct of voter registration, and the security of completed registration applications; but the board of registrars may

use deputy registrars to assist them in carrying out these duties.

(m) The board of registrars shall instruct deputy registrars in the law and procedure for registration prior to the administration of the oath of office to the deputy registrars. Such training shall include the duties and obligations of deputy registrars, the proper completion of registration applications, the proper security of registration applications, the protection of the integrity of the registration process, and the taking of oaths of registrants and the procedures for appeal upon rejection of the applications for registration.

(n) The Secretary of State shall provide the board of registrars of each county manuals for the use of deputy registrars which include simple instructions on the rules and procedures for the proper conduct of voter registration. The form and content of these manuals shall be determined by the Secretary of State. The board of registrars shall provide each deputy registrar with a copy of the manual.

(o) In order to ensure that the same degree of supervision and security provided at the main office of the board of registrars to prevent voter registration irregularities is maintained for the additional voter registration places, the following rules shall apply:

1. Except as provided in this rule, completed registration applications may be maintained by registrars and deputy registrars only:

(i) at the additional voter registration place during the hours of operation;

(ii) in transit to the main office of the board of registrars;

(iii) at the main office of the board of registrars;

(iv) at permanent additional voter registration places overnight but not beyond the end of the next business day; and

(v) at sites mandated as voter registration sites under O.C.G.A. §21-2-221 and 21-2-222 but not longer than the time permitted under those Code sections.

2. Notwithstanding any provision of this rule to the contrary, a valid registration application that is timely received by the Secretary of State or the registrars shall be accepted.

(p) The board of registrars should identify and establish additional voter registration places where the public congregates for commerce, recreation, worship, education, employment, and other such purposes which are most likely to facilitate registration and suit the convenience of the general public throughout the county. These places should be open at hours to suit the convenience of the general public including times other than the regular hours of the main office of the board of registrars.

(q) Wherever practicable, the Board of Registrars should fully utilize federal, state, county, and municipal offices located within the county which are open during regular business hours and other hours for the purpose of taking voter registration applications.

(r) All additional voter registration sites which are staffed by volunteer deputy registrars shall have prominently displayed a sign, placard, or banner which shall state that voter registration at that location is being conducted under the authority of the Board of Registrars of the county or, in counties in which the duties of the Board of Registrars are performed by Boards of Election, the county Board of Elections. If the volunteer deputy registrars are provided by an organization, club, or other group, the sign, placard, or banner may also identify the organization, club, or group providing the volunteer deputy registrars. The language contained on the sign, placard, or banner shall conform substantially to the following: "Voter registration at this location is being conducted under the authority of the Board of (Registrars or Elections) of \_\_\_\_\_ County. The volunteer deputy registrars at this location are provided by \_\_\_\_\_".

Authority O.C.G.A. Secs. 21-2-31, 21-2-218. **History.** Original Rule entitled "Rules and Regulations for Voter Registration" adopted. F. Jan. 22, 1985; eff. Feb. 11, 1985. **Amended:** F. Jan. 21, 1988; eff. Feb. 10, 1988. **Amended:** F. Apr. 10, 1989; eff. Apr. 30, 1989. **Amended:** F. Dec. 11, 2003; eff. Dec. 31, 2003. **Amended:** F. Dec. 28, 2005; eff. Jan. 17, 2006. **Amended:** F. May 30, 2006; eff. June 19, 2008. **Repealed:** New Rule entitled "Rules and Regulations for Voter Registration by Registrars and Deputy Registrar" adopted. F. Oct. 29, 2009; eff. Nov. 18, 2009.

### **183-1-6-.04 Accessibility for Elderly and Disabled Voters.**

(1) **Preamble.** In order to implement the provisions of the Voting Accessibility for the Elderly and Handicapped Act (P.L. 98-435), the

State Election Board promulgates the following rules and regulations.

(2) **Definitions.** As used in this Rule, the terms:

(a) “Accessible” shall mean that a facility has a continuous unobstructed path connecting the parking area and the area within the facility which is being used for voting or voter registration, whichever the case may be, which complies with the relevant provisions of Sections 3 and 4 of American National Standards Institute specifications A117.1-1980 for making buildings and facilities accessible to and usable by physically disabled individuals.

(b) “Disabled” shall mean a temporary or permanent physical disability.

(c) “Elderly” shall mean persons 65 years of age or older.

(d) “Polling place” means the room provided in each precinct for voting at a primary or election.

(e) “Registration place” shall mean any place, either temporary or permanent, designated by the registrars of a county or municipality as a place to be used for voter registration.

(3) **Polling Places.** All polling places in the State of Georgia shall be accessible to disabled and elderly electors.

(4) **Reserved.**

(5) **Implementation.**

(a) **Polling Places.** The election superintendent of each county and municipality shall conduct, or cause to be conducted, an on-site inspection of each polling place located within the county or municipality to determine if the polling place is accessible. This inspection shall be reported to the Secretary of State on forms prepared by the Secretary of State at such times as the Secretary of State shall prescribe. Any polling place found not to be accessible shall either be made accessible prior to its use in a primary or election or shall not be used as a polling place.

(6) **Waivers.** No waiver shall be granted for polling places which are not accessible.

(7) **Printed Instructions.** The Secretary of State shall provide instructions for use by election superintendents at polling places and registrars at voter registration places, printed in large type, to assist visually and hearing impaired electors in voting and registering to vote.

(8) **Notice and Advertisement.**

(a) Each election superintendent shall mark or cause to be marked in a prominent manner the accessible path for elderly and disabled voters at all polling places.

(b) The display of the international disabled access symbol shall be sufficient marking of a polling place if the symbol is of a size and is located such that it can easily be seen by the public and if the accessible path from the parking area to the polling place is the same as the path used by non-disabled persons.

(c) Election superintendents shall take reasonable steps to inform disabled and elderly electors of the availability of accessible polling places.

(9) **Voting Aids.** The election superintendent of each county and municipality shall provide at least one magnifying glass at each polling place during each primary and election for use by visually impaired electors.

(10) If the voting equipment is not accessible to a disabled voter, the disabled voter shall be permitted to use a paper ballot.

(11) **Enforcement.**

(a) Election superintendents and boards of registrars shall investigate all complaints concerning accessibility to polling places and voter registration places and shall take such corrective action as may be necessary to ensure compliance with these rules concerning accessibility.

(b) Election superintendents and boards of registrars shall report in writing to the State Election Board through the Secretary of State all complaints concerning accessibility, the results of the investigation of the complaints, and any corrective actions taken.

(c) The State Election Board may, in its discretion, investigate these complaints further and take such actions as it deems

appropriate to ensure that these rules concerning accessibility are implemented and effectuated.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Accessibility for Elderly and Handicapped Voters" adopted. F. Aug. 1, 1986; eff. Aug. 21, 1986. **Amended:** F. Sept. 18, 1986; eff. Oct. 8, 1986. **Amended:** F. Dec. 11, 2003; eff. Dec. 31, 2003.

### **183-1-6-.05 Registration of Persons by College Presidents or Their Designees.**

(1) **Authority.** The president of each public or private college or university located in the State of Georgia is authorized to register to vote all qualified students, staff, and faculty at the college or university. For students domiciled in the State of Georgia, the college or university president or designee of the president shall be a deputy registrar on behalf of all boards of registration in the State of Georgia for the purpose of taking applications for voter registration for these students. For staff and faculty domiciled in the county in which the college or university is located, each college or university president or designee of the president shall be a deputy registrar of the county in which the college or university is located for the purpose of taking applications for voter registration for those faculty and staff members.

(2) **Designees.** Each college or university president is authorized to designate such persons as the college or university president deems appropriate for the purpose of aiding the college or university president in the exercise of the president's voter registration duties. It shall not be necessary for any person so designated to be a resident of the county in which the college or university is located. However, each person so designated shall be a registered voter in the State of Georgia and shall take an oath as a deputy registrar. The designation shall be in writing and shall be forwarded by the college or university president to the chief registrar of the county in which the college or university is located. Registration applications completed by persons who are not designated in writing to the chief registrar by the college or university president to register persons on behalf of the college or university president shall be rejected.

(3) **Training.** Each person designated by a college or university president to register voters on behalf of the president shall immediately contact the chief registrar of the county in which the college or university is located to undergo such training board of registrars of the county ordinarily provides for deputy registrars. Such training shall be completed prior to the individual taking any application for voter registration.

(4) **Registration Applications.** The board of registrars in each county in which a college or university is located shall provide to the college or university president a sufficient number of registration applications for use in registering qualified students, staff, and faculty at the college or university.

(5) **Security.** Any person designated by a college or university president to take voter registration applications on behalf of the college or university president shall also take such steps as are necessary to provide appropriate and adequate security for the registration applications which are placed in that person's possession. Completed voter registration applications shall be returned to the board of registrars in the county in which the college or university is located as soon as possible, but, in no event, later than the next business day.

(6) **Voter Registration Places.** Each place utilized for the collection and receipt of applications for voter registration by the college or university president or designee of the president shall be precleared under Section 5 of the Voting Rights Act of 1965 (42 U.S.C. Section 1973c). The board of registrars of the county in which the college or university is located shall be responsible for obtaining this preclearance. No registration shall be conducted at locations which have not been precleared. Door-to-door registration is prohibited.

(7) **Receipt of Completed Applications.** Upon the receipt of completed voter registration applications from a college or university, the board of registrars of the county in which the college or university is located shall retain those applications completed by individuals who are domiciled in the county in which the college or university is located and shall forward the remainder of the applications completed by individuals domiciled in other counties directly to the appropriate county registration offices.

(8) **Limitations on Presidents and Their Designees.** College and university presidents and their designees are limited to registering only those qualified students, staff and faculty at the college and university and may not register any other individuals.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Registration of Persons by College Presidents or Their Designees" adopted. F. Feb. 17, 1992; eff. Mar. 8, 1992. **Amended:** F. Dec. 11, 2003; eff. Dec. 31, 2003.

**183-1-6-.06 Verification of United States Citizenship of Applicants for Voter Registration.**

(1) On and after January 1, 2010, an application for registration to vote shall be accompanied by satisfactory evidence of United States citizenship.

(2) Satisfactory evidence of citizenship shall include any of the following:

(a) Verified Georgia Driver's License Number or Identification Card Number or Out of State Driver's License or Identification Card.

1. An applicant may provide as satisfactory evidence of citizenship, the number of the applicant's driver's license or identification card issued by the Georgia Department of Driver Services, upon verification by the Secretary of State that the applicant has provided satisfactory evidence of United States citizenship to the Georgia Department of Driver Services.

2. An applicant may provide as satisfactory evidence of citizenship, the applicant's driver's license or identification card, or legible photocopy thereof, issued by a state driver's license agency of another state equivalent to the Georgia Department of Driver Services, or a legible photocopy thereof, if such agency indicates on the driver's license or identification card that the applicant has provided satisfactory evidence of United States citizenship to such agency.

(b) Birth Certificate.

1. An applicant's birth certificate, or a legible photocopy thereof, is satisfactory evidence of citizenship so long as the birth certificate shows that the applicant was born within the United States. In the event that the birth certificate contains a different first, middle, or last name from the name contained on the application for registration, the board of registrars shall require additional supporting legal documentation to establish that the applicant is the same individual as the individual identified on the birth certificate, including but not limited to a marriage certificate or court order confirming change of name.

2. A Certificate of Birth Abroad, or legible photocopy thereof, obtained by a United States citizen when such individual registers with the Department of State in the event such individual is born

abroad in a non-military installation, shall be accepted and treated as a birth certificate.

(c) United States Passport.

1. An applicant's United States passport, or a legible photocopy of pages of the applicant's United States passport which contain the passport number, name, nationality, date of birth, place of birth, and signature, shall serve as satisfactory evidence of citizenship.

(d) United States Naturalization Documents or Verified Alien Registration Number.

1. An applicant may provide the board of registrars with the applicant's United States Certificate of Naturalization issued by the United States Citizenship and Immigration Services.

(i) Registrars and deputy registrars who attend naturalization ceremonies may assist new citizens in registering to vote. In such event, the registrar or deputy registrar shall examine the applicant's United State Certificate of Naturalization and initial and date the application for registration. If applicants from outside the county apply at the ceremony, the registrar or deputy registrar conducting the voter registration activities shall bundle the registrations by county and send them to the appropriate county board of registrars with an official cover letter stating that all naturalization documents were verified by the registrar or deputy registrar. A county that receives applications in this manner shall accept the applications without requiring further evidence of citizenship from the applicant.

2. If only the alien registration number from naturalization documents is provided for citizenship purposes, the applicant shall not be found eligible to vote until the applicant's alien registration number is verified with the United States Citizenship and Immigration Services by the Secretary of State utilizing the Systematic Alien Verification for Entitlements program.

(e) Documents or methods of proof that are established pursuant to the federal Immigration Reform and Control Act of 1986 (P. L. 99-603).

(f) Bureau of Indian Affairs Card Number, Tribal Treaty Card Number, or Tribal Enrollment Number.

(g) Other Documents and Methods of Proof.

1. Applicants who do not have any of the documents enumerated in subparagraphs (g)(2)(A) through (F) of O.C.G.A. Section 21-2-216 and who are residents of this State and United States citizens may provide any of the following as satisfactory evidence of United States citizenship:

(i) Certificate of Citizenship issued by the United States Immigration and Naturalization Service;

(ii) Consular Report of Birth Abroad of a Citizen of the United States of America;

(iii) Certification of Report of Birth issued by the United States Department of State;

(iv) United States Citizen Identification card;

(v) American Indian Card issued by the United States Department of Homeland Security with the classification code "KIC";

(vi) Final adoption decree showing the applicant's name and United States birthplace;

(vii) Evidence of the applicant's civil service employment by the United States government before June 1976;

(viii) An official United States military record of service showing a United States place of birth;

(ix) A Northern Mariana Identification Card issued by the United States Immigration and Naturalization Service; or

(x) Extract of United States hospital record of birth created at the time of the person's birth indicating a United States place of birth.

2. If the applicant cannot obtain any of the documents described in subparagraphs (g)(2)(A) through (F) of O.C.G.A. Section 21-2-216 and (g)1. above, the applicant may request a hearing for the board of registrars to review other evidence of the applicant's United States citizenship. The board of registrars shall schedule a hearing to review such evidence provided by applicants at least once per month and on the last day to verify provisional ballots for any election pursuant to O.C.G.A. Section 21-2-419. The hearing shall be conducted as follows:

(IX) Statement signed by the birth physician or midwife who was in attendance at the time of birth; or

(X) If other forms of documentation cannot be obtained, documentation may be provided at the hearing by written affidavit, signed under penalty of perjury, from two citizens, one of whom cannot be related to the person in question, who have specific knowledge of event(s) establishing the applicant's United States citizenship status. The applicant or another knowledgeable individual must also submit an affidavit stating why the documents are not available. Such affidavits are only expected to be used in rare circumstances.

3. The board of registrars may accept legible copies of documents bearing on United States citizenship received via United States Mail, facsimile, electronic mail, personal delivery, or other means.

4. Having a Social Security card or being a member of the United States military is not, in and of itself, sufficient evidence that an individual is a United States citizen.

(3) If an application for registration is completed in person at the board of registrars' office or other registration place and the applicant provides satisfactory evidence of citizenship at that time, the registrar or deputy registrar shall indicate on the voter registration application:

(a) That the person provided satisfactory evidence of citizenship,

(b) The type of evidence of citizenship provided, and

(c) The initials of the registrar or deputy registrar who made the verification.

(4) If an applicant fails to supply satisfactory evidence of citizenship with the application for registration, the board of registrars shall, within 10 days of receipt of the application, notify the applicant of the failure to present satisfactory evidence of United States citizenship as follows:

(a) The board of registrars shall send the notice by nonforwardable, first-class mail to the mailing address listed on the application and shall inform the applicant of the missing information and that the application will be rejected if satisfactory evidence of United States citizenship is not provided to the board of registrars within 30 days following the sending of the notice.

(b) If the applicant does not provide satisfactory evidence of United States citizenship to the board of registrars within 30 days of the sending of the notice, the board of registrars shall reject the application and shall immediately notify the applicant of the rejection in writing by nonforwardable, first-class mail at the mailing address listed on the application.

(c) If the initial application is received prior to the close of voter registration prior to a primary or election and the primary or election occurs within 30 days following the sending of the notice, the applicant may supply satisfactory evidence of United States citizenship on or prior to the date of the election. If the applicant supplies satisfactory evidence of United States citizenship and is found eligible to vote, the applicant shall be added to the list of electors and shall be permitted to vote in the election and any run-off elections resulting therefrom and subsequent elections.

(5) The board of registrars shall not determine the eligibility of an applicant unless and until satisfactory evidence of United States citizenship is supplied by the applicant.

(6) United States citizenship question on application for registration.

(a) Regardless of whether an applicant provides satisfactory evidence of United States citizenship, if such applicant fails to answer the question on the application for registration asking, "Are you a citizen of the United States of America?", the registration shall be considered incomplete until the board of registrars obtains a completed application. The registrar shall return a copy of the application by letter sent by nonforwardable, first-class mail and request that the applicant complete the question by answering "Yes" or "No" to the question regarding United States citizenship. For the purpose of voter registration, an appropriate indicator includes marking a check mark in the box, placing "X" in the box, circling the box, shading the box, or any other method involving the "Yes" box that indicates the applicant is a citizen of the United States.

(b) If the citizenship box is marked "No", the board of registrars shall reject the application and shall immediately notify the applicant of the rejection in writing by nonforwardable, first-class mail at the mailing address listed on the application.

Union, or Other Financial Institution  
May Certify Error in Returning Check**

**183-1-10-.01 Qualification of Candidates for Office; Time  
Period During Which Bank, Credit Union, or Other Financial  
Institution May Certify Error in Returning Check.**

(1) In the event a candidate for federal or state office pays his or her qualifying fee with a check that is subsequently returned for insufficient funds, the Secretary of State shall automatically find that such candidate has not met the qualifications for holding the office being sought. A written certification from the bank, credit union, or other financial institution returning the check that it erred in returning the check will prevent such an automatic finding so long as the certification is received by the Secretary of State within two weeks after the deadline for qualifying.

(2) In the event a candidate for county or municipal office pays his or her qualifying fee with a check that is subsequently returned for insufficient funds, the superintendent shall automatically find that such candidate has not met the qualifications for holding the office being sought. A written certification from the bank, credit union, or other financial institution returning the check that it erred in returning the check will prevent such an automatic finding so long as the certification is received by the superintendent within two weeks after the deadline for qualifying.

BALLOTS**

**TABLE OF CONTENTS**

<b>183-1-11-.01</b>	<b>Ballot Secrecy</b>	<b>183-1-11-.02</b>	<b>Appearance of Candidate's Name on Ballot</b>
---------------------	-----------------------	---------------------	---

**183-1-11-.01 Ballot Secrecy.** Each Superintendent of Elections shall ensure that handicapped persons casting their vote at the polls are able to do so in private by providing such facilities and equipment as necessary to maintain the secrecy of the ballot.

Authority O.C.G.A. Secs. 21-2-218, 21-2-31. **History.** Original Rule entitled "Ballot Secrecy" adopted. F. Nov. 14, 1986; eff. Dec. 4, 1986.

**183-1-11-.02 Appearance of Candidate's Name on Ballot.**

- (1) A candidate's name on the ballot shall include the candidate's last name shown on the candidate's voter registration records and at least one of: (1) the first name shown on the candidate's voter registration records or corresponding initial, (2) the middle name shown on the candidate's voter registration records or corresponding initial, (3) an abbreviated name by which the candidate is commonly known in the community, or (4) a nickname by which the candidate is commonly known in the community. Any nickname is subject to Section (2) of this rule.
- (2) A candidate's name may include a nickname by which the candidate is commonly known in the community but shall not contain any spurious phrases, title or degree designating the business, fraternal, religious, or professional affiliation of the candidate, or political slogan or message. A title or degree includes, but is not limited to, military or professional title or rank, or references such as "Dr.", "Rev.", "Judge", "Mr.", "Ms.", "Mrs.", or "Miss". A determination as to whether a nickname violates this Rule lies within the sound discretion of the Secretary of State or election superintendent, as appropriate.

- (3) The total number of spaces, inclusive of letters, spaces, and

and punctuation, which may be utilized on the ballot for a candidate's name and, if any, nickname, shall be twenty-five (25). Notwithstanding the listing of the candidate's name on the filing papers, spaces, periods, quotation marks, and commas necessary for proper punctuation shall be added by the Secretary of State or the election superintendent, as appropriate. No candidate's name shall exceed twenty-five (25) spaces. The Secretary of State or the election superintendent, as appropriate, shall determine the correct listing for any candidate whose name exceeds twenty-five (25) spaces to conform to this requirement.

(4) A determination as to whether the candidate's requested name on the ballot complies with this Rule shall be within the discretion of the Secretary of State or election superintendent, as appropriate. Upon a determination that the requested name does not comply with this Rule, the Secretary of State or election superintendent, as appropriate shall modify the candidate's name on the ballot so that it complies with this Rule.

Authority O.C.G.A. §§ 21-2-31, 21-2-132, 21-2-284, 21-2-284.1, 21-2-285, 21-2-285.1, 21-2-287, 21-2-325.

(5) The total number of spaces, inclusive of letters, spaces, and punctuation, which may be utilized on the ballot for a candidate's name and, if any, nickname, shall be twenty-five (25). Notwithstanding the listing of the candidate's name on the filing papers, spaces, periods, quotation marks, and commas necessary for proper punctuation shall be added by the Secretary of State or the election superintendent, as appropriate. No candidate's name shall exceed twenty-five (25) spaces. The Secretary of State or the election superintendent, as appropriate, shall determine the correct listing for any candidate whose name exceeds twenty-five (25) spaces to conform to this requirement.

## **CHAPTER 183-1-12 VOTING MACHINES — VOTE RECORDERS**

### **TABLE OF CONTENTS**

180-1-12-.01	Conduct of Elections	183-1-12-.06	Provisional Ballots
183-1-12-.02	Direct Recording Electronic Voting Equipment	183-1-12-.07	Preparation of the Electors List and Use of Express Poll
183-1-12-.03	Tabulating Center Personnel, Trained and Certified	183-1-12-.08	Repealed
183-1-12-.04	Certification of Program Instructions	183-1-12-.09	Repealed
183-1-12-.05	Repealed	183-1-12-.10	Use of Absentee Ballots When Voting Machines are Inaccessible

**183-1-12-.01 Conduct of Elections.** Beginning with the November 2002 General Election, all federal, state, and county general primaries and elections, special primaries and elections, and refer-endums in the State of Georgia shall be conducted at the polls through the use of direct recording electronic (DRE) voting units supplied by the Secretary of State or purchased by the counties with the authorization of the Secretary of State. In addition, absentee balloting shall be conducted through the use of optical scan ballots which shall be tabulated on optical scan vote tabulation systems furnished by the Secretary of State or purchased by the counties with the authorization of the Secretary of State; provided, however, that the use of direct recording electronic (DRE) voting units is authorized by the Secretary of State for persons desiring to vote by absentee ballot in person.

Authority O.C.G.A. Sec. 21-2-31. **History.** Original Rule entitled "Voting Machines" adopted. F. July 24, 1968; eff. Aug. 12, 1968. **Repealed:** New Rule entitled "Conduct of Elections" adopted. F. Aug. 30, 2002; eff. Sept. 19, 2002. **Amended:** F. Oct. 24, 2003; eff. Nov. 13, 2003.

### **183-1-12-.02 Direct Recording Electronic Voting Equipment.**

(1) Definitions. As used in this rule, the term:

(a) "Assist", "assisted", "assisting", or "assistance" means the act of marking a voter registration application, application for absentee ballot, or ballot on behalf of a voter who is unable to read the English language or has a disability which renders him or her unable to see or mark the voter registration application, application for absentee ballot, or ballot or operate the voting equipment, or to enter the voting compartment or booth unaccompanied, in the manner personally

requested and communicated by such voter. This definition will apply equally to Code Sections 21-2-322, 21-2-365, 21-2- 379.1, 21-2-384, 21-2-385, 21-2-385.1, 21-2-400, 21-2-402, 21-2-409, 21-2-409.1, 21-2-413, 21-2-456, 21-2-500, 21-2-568, 21-2-579, 21-2- 587, 21-2-590, 21-2-591, 21-2-592.

(b) “Ballot” shall mean the offices, candidates, and questions to be submitted to the voters at a primary, election, or runoff for each county or municipality.

(c) “Ballot Encoder Device” shall mean the electronic device by which the poll officers program the voter access card to authorize the voter to vote on the DRE units.

(d) “Ballot Style” shall mean the presentation of the offices, candidates, and questions to be submitted to the voters at a primary, election, or runoff on a DRE unit that contains only the offices and questions for the voters of specified districts within the precinct.

(e) “Counter” shall mean the registers on each DRE unit which increment by one each time a vote is cast on the unit. The “election counter” is the register which is reset for each election and records the number of ballots voted on a DRE unit in a particular election. The “system counter” is the register which cannot be reset and records the number of ballots voted on a DRE unit over the course of the life of the unit.

(f) “DRE unit” shall mean a direct recording electronic voting device which is a computer driven unit for casting and counting votes on which a voter casts his or her votes through the use of a touch screen or VWD device. The term shall include both state supplied devices and devices purchased by counties.

(g) “Early voting period” shall mean that period of time preceding a primary or election in which the board of registrars or absentee ballot clerk shall mail or issue official absentee ballots to all eligible applicants.

(h) “Enclosed space” shall mean that area within a polling place enclosed with a guardrail or barrier closing the inner portion of such area so that only such persons as are inside such guardrail or barrier can approach within six feet of the ballot box, voting compartments,

voting booths, or voting machines.

(i) “Memory Card” shall mean the electronic card (PCMCIA card) on which the ballot styles for a particular precinct are electronically stored and which is inserted into the direct recording electronic voting unit (DRE) to program the DRE unit for voting and on which vote totals are recorded for the DRE unit during the voting process.

(j) “Opening of the Polls” shall mean the commencement of voting in a particular primary, election, or runoff. Opening of the polls does not refer to the unlocking or opening of the doors of the polling place. Similarly, the term “Closing of the Polls” shall mean the cessation of voting in a particular primary, election, or runoff and not the locking or dosing of the doors of the polling place.

(k) “Supervisor’s Card” shall mean the electronic card to be used by the poll manager which is inserted into the DRE unit in order to configure the DRE unit for voting, to test the DRE unit, to terminate or suspend voting on the DRE unit, or to access other utility functions on the DRE unit.

(l) “Voter Access Card” shall mean the electronic card issued to a voter which is inserted into a DRE unit to authorize the voter to cast a ballot on the DRE unit.

(m) “VWD Device” is a device for use by illiterate and/or visually impaired voters in voting on a DRE unit and consists of an audio headset and a keypad by which the ballot can be provided to the voter aurally and the voter can cast his or her vote by use of the keypad.

(n) “Zero Tape” shall mean a tape printed out by the DRE unit which shows that all vote registers in the DRE unit for recording votes for candidates and questions are set to zero and that no votes are present on the unit.

## (2) Receipt, Maintenance, and Storage.

(a) Acceptance tests. Upon the receipt of each new direct recording electronic voting unit (DRE), the election superintendent of the county is responsible to ensure that an acceptance test is performed on the device in accordance with standards issued by the Secretary of State. No DRE unit shall be accepted by the county or placed into service

until such time as the unit satisfactorily passes the prescribed acceptance tests.

(b) Storage of DRE units.

1. The election superintendent of the county shall maintain the DRE units in accordance with the requirements of this rule, the directives of the Secretary of State, and the specifications and requirements of the manufacturer.

2. The DRE units shall be stored in a climate controlled space in which the temperature and humidity levels are maintained at acceptable levels year-round which shall not be lower than 5 degrees Celsius (41 degrees Fahrenheit) nor higher than 40 degrees Celsius (104 degrees Fahrenheit) and not lower than 35 percent relative humidity and not higher than 85 percent relative humidity such that no condensation forms on such units. The units shall not be stored in an area in which liquids or fluids stand, pool, or accumulate at any time or in areas that are subject to such standing, pooling, or accumulating liquids or fluids. The space in which the units are stored shall be secured and shall be accessible only to persons authorized by the election superintendent to have access to such units or such space. The DRE units may be stacked atop each other but no more than five units may be in a stack unless a rack system has been constructed for the storage of the units. The election superintendent shall ensure that the batteries in each unit are charged at least quarterly in accordance with the manufacturer's specifications.

3. The storage areas for DRE units shall be equipped with one or more of the following forms of electronic surveillance and protection: keypads or electronic locks, motion detectors, video surveillance, or a security system that is connected to an outside monitoring source, such as the police department or fire department. In lieu of providing electronic surveillance and protection, the DRE units may be interlocked through the use of a cable or chain that is secured by a padlock or other type of locking system.

4. The election superintendent shall maintain numbered seals on all DRE units in storage and all seal, numbers shall be recorded and on file in the office of the election superintendent.

5. Upon delivery to a polling place in preparation for a primary, election, or runoff, the DRE units shall be secured and protected from unauthorized access by storing the DRE units in a locked and secure room at the polling place, having the person taking possession of the units personally supervise the units at all times prior to the opening of the polls, or by interlocking the DRE units with a cable or chain that is secured by a padlock or other type of locking system.

6. The expenses for the implementation of the storage and security requirements of this rule shall be the responsibility of the county or municipal governing authority, as applicable, unless such security features are provided by the state.

(c) Software security. The software contained in each DRE unit, regardless of whether the unit is owned by the county or the state, and the software used to program the unit and to tabulate and consolidate election results shall not be modified, upgraded, or changed in any way without the specific approval of the Secretary of State. No other software shall be loaded onto or maintained "or used on computers on which the GEMS software is located except as specifically authorized by the Secretary of State.

(d) Maintenance of DRE units. After the end of the initial warranty period for state owned DRE units and computers for use in programming the DRE units and tabulating and consolidating the vote totals, the county shall be responsible for the maintenance and upkeep of such devices, including the repair and/or replacement of any devices which are destroyed, damaged, or otherwise rendered incapable of use in elections.

(e) Access to GEMS servers.

1. The room in which the GEMS server is located shall be locked at all times when the server is not directly under the supervision of the election superintendent or the election superintendent's designee. Lock and key access to the room where the GEMS server is located shall be limited to the county election superintendent; members of the county board of elections; the election supervisor, if any; personnel of the county election superintendent's office designated by the county election superintendent; building maintenance personnel; and emergency personnel. Building maintenance personnel shall have

access to the room in which the GEMS server is located only to the extent necessary to carry out their maintenance duties. The election superintendent shall maintain on file at all times in the office of the election superintendent a complete and up to date list of all maintenance personnel with access to the room in which the GEMS server is located. Emergency personnel shall have access to the room in which the GEMS server is located only as necessary in the event of an emergency and only for the duration of such emergency condition.

2. The GEMS server shall remain locked at all times when not in use. The key or keys to the GEMS server shall remain in the possession of the election superintendent or the designee of the election superintendent at all times.

(f) Security of DRE units and accessories. All DRE units, optical scanner devices, voter access cards, supervisor cards, memory cards, DRE unit keys, voting system software, and encoders shall be stored under lock and key at all times when not in use. Lock and key access to such items shall be limited to the county election superintendent; members of the county board of elections; the election supervisor, if any; personnel of the county election superintendent's office designated by the county election superintendent; building maintenance personnel; and emergency personnel. Building maintenance personnel shall have access to the area where such items are stored only to the extent necessary to carry out their maintenance duties. The election superintendent shall maintain on file at all times in the office of the election superintendent a complete and up to date list of all maintenance personnel with access to the area in which such items are stored. Emergency personnel shall have access to the area where such items are stored only as necessary in the event of an emergency and only for the duration of such emergency condition. Whenever maintenance or emergency personnel are required to enter the storage area, the election superintendent must be notified of that entry within 24 hours and the election superintendent must maintain a log of those persons who entered the storage area.

(g) Voting system handling requirements.

1. All personnel, with the exception of the permanent employees of the Office of the Secretary of State and permanent employees of the county or municipal election superintendent, who prepare voting

equipment for use in a primary, election, or runoff shall complete an oath of custodian before each election. One copy of the oath shall be placed on file in the office of the election superintendent and an additional copy shall be filed with the records for the election filed with the clerk of superior court or the municipal clerk, as appropriate. The oath of custodian shall be in the following form:

STATE OF GEORGIA  
COUNTY/MUNICIPALITY OF \_\_\_\_\_  
OATH OF CUSTODIANS AND DEPUTY CUSTODIANS  
OF DRE UNITS

I, \_\_\_\_\_, do swear (or affirm) that I will as a (deputy) custodian of the voting systems for the County/Municipality of \_\_\_\_\_, faithfully perform all of my duties in accordance with state law; that I will prepare in accordance with all applicable rules and regulations governing the use of the voting system all DRE units to be used in primaries, elections, and runoffs in this county/municipality; that I will use my best endeavors to prevent any fraud, deceit, or abuse in carrying out my duties while preparing the DRE units for use in primaries, elections, and runoffs; and that I am not disqualified by law to hold the position of (deputy) custodian.

\_\_\_\_\_  
(Deputy) Custodian

Administered by, sworn to,  
and subscribed before me,  
this \_\_\_\_\_ day of \_\_\_\_\_, 200 \_\_\_\_.

\_\_\_\_\_  
Superintendent

(Required by O.C.G.A. Section 21-2-379.6(b))

2. All DRE units and accessories that are removed from storage for educational or training purposes must be signed in and out on an equipment log maintained by the election superintendent. The log shall contain, at a minimum, a description of the item being checked out, including any serial number or identifying number; the date and time when the item is checked out; the name of the person checking out the item; and the date and time when the item is returned to

storage. The items checked out of storage shall remain in the custody and control of the person checking out the items at all times and the person checking out the items shall personally return such items. Each person who utilizes equipment for educational or training purposes must be adequately trained in the use of the equipment prior to the release of the equipment into such person's custody.

3. The GEMS server shall not be moved or relocated for educational or training purposes. Should it become necessary to relocate the GEMS server or any of its components from one facility to another, the election superintendent shall notify the Secretary of State in writing of the reason for the relocation and the proposed new location. Under no circumstances shall the GEMS server or any of its components be relocated unless and until written authorization for the relocation is received from the Secretary of State except in the event of an emergency situation beyond the control of the election superintendent.

4. The poll manager shall sign a receipt for all supervisor cards, encoders, voter access cards, memory cards, and DRE unit keys assigned to such poll manager's precinct. Upon returning election supplies to the election superintendent's office following the close of the polls, the poll manager shall account for all such items and shall certify that all such items have been returned or shall describe any missing items and explain why such items have not been returned. The Secretary of State shall prepare and provide a chain of custody sheet for this purpose.

5. All supervisor cards, encoders, voter access cards, memory cards, DRE unit keys, and other equipment assigned to designated county election technicians shall be accounted for on the night of a primary, election, or runoff and shall be returned to storage. Each technician shall sign a receipt for all such items issued to such technician and, upon returning such items to the election superintendent's office following the close of the polls, the technician shall account for all such items and shall certify that all such items have been returned or shall describe any missing items and explain why such items have not been returned. The Secretary of State shall prepare and provide a chain of custody sheet for this purpose.

6. The election superintendent shall notify the Secretary of State of

any instances of unaccounted for DRE units, optical scanner devices, voter access cards, supervisor cards, memory cards, DRE unit keys, voting system software, and encoders at the completion of certification by delivering such notification to the Secretary of State when the certified election results are delivered to the Secretary of State.

(3) Preparation for Elections.

(a) Ballots.

1. The election superintendent shall cause the memory cards (PCMCIA cards) to be used in each precinct to be prepared in accordance with law and applicable rules and regulations.

2. Each memory card (PCMCIA card) shall be appropriately labeled with the name of the precinct for which it is programmed for use. The election superintendent shall ensure that each memory card (PCMCIA card) shall be programmed and tested to ensure that the proper ballot style or styles for the precinct for which it is programmed are included on the card and no other ballot styles.

3. Each ballot and ballot style shall be proofread by the election superintendent or a person or persons under the direction of the superintendent to ensure that the ballot contains the proper offices, candidates, and questions to be submitted to the voters, that the offices and names are spelled and designated correctly, that political party or body affiliations and incumbency of candidates are correctly designated where applicable, and that the questions are presented in accordance with law and this rule and that the correct offices and questions are presented on each ballot style.

4. For each office on the ballot, the ballot shall state the name of the office; the post, position, or person presently holding the office if necessary to identify the specific office subject to election; the number of candidates for which the voter may vote for such office; the names of the candidates; the residence address of the candidates if there has been a determination that the names are sufficiently similar to so require such information under O.C.G.A. § 21-2-379.5; in partisan elections, the name of the political party or body that nominated the candidate or a designation of the candidate as an independent candidate; and the designation of the incumbency of a candidate seeking reelection to the office which the candidate then holds.

5. The offices, candidates, and questions shall be listed on the ballot in the order specified in O.C.G.A. §§ 21-2-379.4 and 21-2- 379.5.

6. The ballot shall be displayed in the following fonts:

(i) The words “Official Ballot” shall be displayed in 16 point Arial Bold.

(ii) All text beneath the words “Official Ballot” which designate the county or municipality conducting the election, precinct, type of election, and date of the election shall be displayed in 12 point Arial Bold.

(iii) The words “I understand that the offer or acceptance of money or any other object of value to vote for any particular candidate, list of candidates, issue, or list of issues included in this election constitutes an act of voter fraud and is a felony under Georgia law.” shall be displayed in 8 point Arial Narrow Italicized.

(iv) The name of the office shall be displayed in 12 point Arial Bold.

(v) Information on the designation of the office (“To succeed \_\_\_\_\_”) and the number of candidates for which an elector may vote for each office shall be displayed in 10 point Arial.

(vi) The names of candidates shall be displayed in 10 point Arial Narrow Bold in all capital letters.

(vii) Incumbency designations shall be displayed in 8 point Arial Narrow Bold.

(viii) Political party or body and independent designations shall be displayed in 9 point Arial Narrow.

(ix) The text of questions to be submitted to the electors shall be displayed in 10 point Arial Narrow Bold.

(x) The choices for voting on a question (i.e., “YES” and “NO”) shall be displayed in 10 point Arial Narrow Bold.

7. The ballot shall be displayed in the following colors:

(i) All text, designations, and names shall be displayed in black letters.

(ii) The background colors shall be as follows:

(I) The overall page shall be blue (Hue: 180, Sat: 240, Lum: 60, Red: 64, Green: 0, Blue: 128).

(II) The general election header shall be yellow (Hue: 40, Sat: 240, Lum: 120, Red: 255, Green: 255, Blue: 0).

(III) The Democratic Party Primary header shall be white (Hue: 160, Sat: 0, Lum: 240, Red: 255, Green: 255, Blue: 255).

(IV) The Republican Party Primary header shall be light blue (Hue: 120, Sat: 240, Lum: 120, Red: 0, Green: 255, Blue: 255).

(V) The nonpartisan election header shall be light green (Hue: 60, Sat: 240, Lum: 120, Red: 128, Green: 255, Blue: 0).

(VI) The box containing the contest or question to be voted upon shall be burnt orange (Hue: 20, Sat: 240, Lum: 120, Red: 255, Green: 128, Blue: 0).

(VII) The box containing the names of the candidates or the answers or responses to a referendum question for which an elector may vote shall be white (Hue: 160, Sat: 0, Lum: 240, Red: 255, Green: 255, Blue: 255).

8. In addition to the displayed ballot, the election superintendent shall cause an audio ballot to be prepared for use with the VWD devices. The superintendent shall ensure that all matters are recorded correctly and that the names of the candidates are pronounced correctly in the audio recordings. The election superintendent shall also ensure that no candidate's name; political party, political body, or independent designation; incumbency; or other such information nor any referendum question or answer or response thereto is emphasized, stressed, or otherwise inflected in any manner to distinguish a particular candidate, party or body, question, answer or response to a referendum question either negatively or positively or to suggest whether to vote for or against such candidates or questions in such

audio recordings. The election superintendent shall also ensure that the audio recordings are presented at a rate not to exceed 130 words per minute or 2.2 words per second on average and at a volume which shall not be less than 75 decibels nor more than 85 decibels.

(b) Setup and Testing.

1. Primaries and Elections.

(i) On or before the third day preceding a primary or election, including special primaries, special elections, and referendum elections, the election superintendent shall commence the preparation and testing of the DRE units for use on Election Day. On or before the third day preceding the early voting period, the election superintendent shall commence the preparation and testing of the DRE units for use during the early voting period. At least five days prior to the commencement of such preparation and testing, the election superintendent shall publish a notice in the legal organ of the county stating the date, time, and place or places where preparation and testing of the DRE units for use in the primary or election will commence and stating that such preparation shall continue from day to day until such preparation is complete and that such preparation and testing shall be open to the public and that members of the public are entitled to be present during the preparation and testing of the DRE units. The election superintendent shall cause such preparation and testing to begin on such date and time and at such place or places. Such preparation and testing shall be open to members of the public to observe; however, such members of the public shall not in any manner interfere with the preparation and testing of the DRE units. Any person found to be interfering with the preparation and testing process may be asked to leave the testing process and may be cited for interfering with an election official while in performance of election duties. Any questions and/or complaints from the general public regarding the preparation and testing process must be directed to the election superintendent and not to the individual personnel conducting the preparation and testing process. The election superintendent may make such reasonable rules and regulations concerning the conduct of such members of the public observing such preparation and testing as the election superintendent deems necessary and appropriate; provided, however, that such rules and regulations shall not prevent members of the public from fairly observing the preparation and testing of the DRE units.

In addition to any reasonable rules and regulations, that the election superintendent may create for the public to observe the preparation and testing process, the election superintendent or designee thereof, shall:

During the first day of preparation and testing, at the beginning of the day or for the first hour of public observation be available to explain the preparation and testing process and to respond to questions and provide answers regarding the purpose and the process of preparation and testing;

(b) maintain a presence at all times during the preparation and testing process if an outside source is conducting the preparation and testing process;

(c) administer an oath of custodian prior to beginning the preparation and testing process to any county personnel (except permanent state, county, or municipal election staff) appointed by the election superintendent to conduct the preparation and testing process;

(d) establish an area reasonable in proximity for the public to observe the preparation and testing process. Such area shall provide reasonable accommodations for the public insofar as space permits, but shall not be so established as to deny the general public the opportunity to view the process; however the area should not be of such a nature so as to allow the preparation and testing process to be interfered with by the general public;

(e) allow only election office personnel or individuals assigned to conduct the preparation and testing to enter the testing area during the preparation and testing process;

(a) prohibit any preparation and testing reports created for recording the seal numbers and/or serial numbers of the DRE unit from being photocopied for public disclosure;

(g) prohibit the security seals and serial numbers of the DRE units from being photographed or copied for public disclosure;

(h) prohibit photographic and audio equipment, of any kind, including cell phone cameras from being used to record the serial numbers of the DRE units or to record the security seal numbers used

to secure the DRE units, provided that this rule shall not prohibit the news media from reporting on the preparation and testing process, so long as seal numbers and serial numbers on the DRE units are not recorded or displayed in any manner;

(ii) During the public preparation and testing of the DRE units to be used in a particular primary or election, the election superintendent shall cause each DRE unit to be programmed with the memory card (PCMCIA card) for the precinct at which the DRE unit will be used. After placing the memory card (PCMCIA card) in the DRE unit, the DRE unit shall have such internal diagnostic tests performed as shall be directed by the Secretary of State or the election superintendent. Following the completion of the diagnostic tests, the DRE unit shall have an internal logic and accuracy test performed using the memory card (PCMCIA card) for the primary or election for which the unit is being prepared. If the DRE unit fails any of the diagnostic or logic and accuracy tests, the unit shall not be used in a primary or election until such unit is repaired and inspected and found capable of proper functioning and passes the diagnostic and logic and accuracy tests. Upon the successful completion of the logic and accuracy test, the DRE unit shall be cleared of any accumulated vote totals for the primary or election and a zero tape run to verify that the vote registers in the unit are set at zero. After verifying that the vote registers are set at zero, the tape shall be attached to the custodian's certification form to document the logic and accuracy testing and the unit shall be configured for voting. The unit shall then be securely closed in its case and a numbered seal placed on its case such that the case may not be opened until and unless the seal is broken.

(iii) The election superintendent or the custodian responsible for preparing the DRE units, if one has been appointed by the election superintendent in accordance with O.C.G.A. § 21-2-379.6(b), shall make a certification stating for each DRE unit the serial number of the DRE unit, the number on the system counter of the DRE unit, the number on the seal with which the DRE unit is sealed, and that the election counter and each vote register on the unit was set at zero. The case shall be appropriately labeled with the name of the precinct in which the unit is to be used and the serial number of the DRE unit. The custodian's certification shall be retained with the records for such primary runoff or election runoff and shall be stored with such

records with the clerk of superior court or municipal clerk, as appropriate, for the same period of time as required by law for other election records.

(iv) After being prepared for voting, each DRE unit shall be safely and securely stored until such time as the unit is transported to the precinct in which such unit is to be used.

## 2. Primary Runoffs and Election Runoffs.

(i) On or before the third day preceding a primary runoff or election runoff, including special primary runoffs and special election runoffs, the election superintendent shall commence the preparation and testing of the DRE units for use in the primary runoff or election runoff. At least 24 hours prior to the commencement of such preparation and testing, the election superintendent shall publish a notice in the legal organ of the county stating the date, time, and place or places where preparation and testing of the DRE units for use in the runoff will commence and stating that such preparation shall continue from day to day until such preparation is complete and that such preparation and testing shall be open to the public and that members of the public are entitled to be present during the preparation and testing of the DRE units. The election superintendent shall cause such preparation and testing to begin on such date and time and at such place or places. Such preparation and testing shall be open to members of the public to observe; however, such members of the public shall not in any manner interfere with the preparation and testing of the DRE units. Any person found to be interfering with the preparation and testing process may be asked to leave the preparation and testing process and may be cited for interfering with an election official while in performance of election duties. Any questions and/or complaints from the general public regarding the preparation and testing process must be directed to the election superintendent and not to the individual personnel conducting the preparation and testing process. The election superintendent may make such reasonable rules and regulations concerning the conduct of such members of the public observing such preparation and testing as the election superintendent deems necessary and appropriate; provided, however, that such rules and regulations shall not prevent members of the public from fairly observing the preparation and testing of the DRE units.

In addition to any reasonable rules and regulations that the election superintendent may create for the public to observe the preparation and testing process, the election superintendent or designee thereof, shall:

During the first day of preparation and testing, at the beginning of the day or for the first hour of public observation be available to explain the preparation and testing process and to respond to questions and provide answers regarding the purpose and the process of preparation and testing;

(b) maintain a presence at all times during the preparation and testing process if an outside source is conducting the preparation and testing process;

(c) administer an oath of custodian prior to beginning the preparation and testing process to any county personnel (except permanent state, county, or municipal election staff) appointed by the election superintendent to conduct the preparation and testing process;

(d) establish an area reasonable in proximity for the public to observe the preparation and testing process. Such area shall provide reasonable accommodations for the public insofar as space permits, but shall not be so established as to deny the general public the opportunity to view the process; however the area should not be of such a nature so as to allow the preparation and testing process to be interfered with by the general public;

(e) allow only election office personnel or individuals assigned to conduct the preparation and testing to enter the preparation and testing area during the preparation and testing process;

(f) prohibit any preparation and testing reports created for recording the seal numbers and/or serial numbers of the DRE units from being photocopied for public disclosure;

(g) prohibit the security seals and serial numbers from being photographed or copied for public disclosure;

(h) prohibit photographic and audio equipment, of any kind, including cell phone cameras from being used to record the serial

numbers of the DRE units or to record the security seal numbers used to secure the DRE units, provided that this rule shall not prohibit the news media from reporting on the preparation and testing process, so long as seal numbers and serial numbers on the voting units are not recorded or displayed in any manner;

(ii) During the public preparation and testing of the DRE units to be used in a particular primary runoff or election runoff, the election superintendent shall cause each DRE unit to be programmed with the memory card (PCMCIA card) for the precinct at which the DRE unit will be used. After placing the memory card (PCMCIA card) in the DRE unit, the DRE unit shall have such internal diagnostic tests performed as shall be directed by the Secretary of State and the election superintendent. Following the completion of the diagnostic tests, the superintendent shall cause a number of random DRE units as provided by law to undergo an internal logic and accuracy test using the memory card (PCMCIA card) for the primary runoff or election runoff for which the unit is being prepared. If a DRE unit fails any of the diagnostic or logic and accuracy tests, the unit shall not be used in any primary, election, or runoff until such unit is repaired and inspected and found capable of proper functioning and passes the diagnostic and logic and accuracy tests. Upon the successful completion of the logic and accuracy test, the DRE unit shall be cleared of any accumulated test vote totals for the primary runoff or election runoff and a zero tape run to verify that the vote registers in the unit are set at zero. After verifying that the vote registers are set at zero, the tape shall be attached to the custodian's certification form to document the logic and accuracy testing and the unit shall be configured for voting. The unit shall then be securely closed in its case and a numbered seal placed on its case such that the case may not be opened until and unless the seal is broken. The custodian's certification shall be retained with the records for such primary runoff or election runoff and shall be stored with such records with the clerk of superior court or municipal clerk, as appropriate, for the same period of time as required by law for other election records.

(iii) All memory cards to be used in the runoff shall be tested.

(iv) The election superintendent or the custodian responsible for preparing the DRE units, if one has been appointed by the election superintendent in accordance with O.C.G.A. § 21-2-379.6(b), shall

make a certification stating for each DRE unit the serial number of the DRE unit, the number on the system counter of the DRE unit, the number on the seal with which the DRE unit is sealed, and that the election counter and each vote register on the unit was set at zero. The case shall be appropriately labeled with the name of the precinct in which the unit is to be used and the serial number of the DRE unit.

(v) After being prepared for voting, each sealed DRE unit shall be safely and securely stored until such time as the unit is transported to the precinct in which such unit is to be used.

(c) Transport to Polls.

1. The election superintendent shall take all necessary measures to ensure that the DRE units are safely and securely transported to the polling places.

2. The election superintendent shall cause the DRE units for each precinct to be delivered to the polling place for the precinct at least one hour before the time for the opening of the polls.

3. If the DRE units are stored at a polling place after being configured for voting and sealed, the election superintendent shall ensure that the units are stored in a secure area with appropriate climate control.

4. The election superintendent shall deliver the supervisor's card, a sufficient quantity of voter access cards, and the key to the DRE units to the chief manager not later than one hour before the time set for the opening of the polls and shall obtain a receipt for the cards and key. The supervisor's card shall be sealed in an envelope and shall not be opened until the polls are closed unless all of the ballot encoding devices at the precinct fail and it is necessary to use the supervisor's card to configure a DRE unit to encode the voter access cards at the precinct. In such cases, the use of the supervisor's card before the close of the polls shall be documented in the records for the election at that precinct. In addition, the superintendent shall deliver on the appropriate form a listing containing the serial number of each DRE unit, and the number of the seal placed on each such unit.

(d) Before the Opening of the Polls.

1. The poll officers shall set up the DRE units for voting prior to the opening of the polls. The set up shall be performed in public and the public may view the set up subject to such reasonable rules and regulations as the election superintendent may deem appropriate to protect the security of the DRE units and to prevent interference with the duties of the poll officers.

2. The poll officers shall verify that the seal for each unit is intact and that there is no evidence or indication of any tampering with the seal or the unit. The poll officers shall verify that the number of the seal matches the number of the seal recorded for that unit when such unit was prepared by the election superintendent for the primary, election, or runoff. If a seal number does not match or if there is any evidence or indication of tampering with the seal or unit, the election superintendent shall be immediately notified and such unit shall not be used until such matters are resolved by agreement of the election superintendent and the poll manager.

3. Each DRE unit shall be set up and its power turned on and the privacy screens for the unit erected and its screen lifted into place.

4. The poll manager shall run a zero tape on each DRE unit prior to the opening of the polls. The poll manager, along with the other assistant managers, shall, without removing the tape from the unit, verify that all vote registers shown on the zero tape are set to zero and that there are no votes showing on the unit and shall sign the tape in the space provided. If the zero tape does not show that all vote registers are set to zero and that there are votes on the unit, the election superintendent shall be immediately notified and such unit shall not be used until the unit is cleared and the matter is resolved by agreement of the election superintendent and the poll manager.

5. After verifying and signing the zero tape, the poll manager shall securely lock the tape compartment leaving the zero tape in place on the unit and shall configure the unit for voting. The poll manager shall verify that the election counter on each DRE unit is set at zero. If the election counter is not set to zero, the election superintendent shall be immediately notified and such unit shall not be used until the election counter is set to zero and the matter is

resolved by agreement of the election superintendent and the poll manager.

6. The poll officers shall verify that there is no unauthorized matter affixed to the DRE units or present in the cases or voting booths.

7. The poll officers shall affix a card of instructions for voting within each voting booth and shall place at least two printed sample ballots and at least two voting instructions posters approved or provided by the Secretary of State outside the enclosed space at the polling place for the information of the voters. Prior to voters entering the enclosed space, the poll officers may also distribute to such voters a card of instructions for voting on the DRE unit that has been approved or provided by the Secretary of State.

#### (4) Conducting Elections.

(a) As each voter presents himself or herself at the polling place for the purpose of voting during the time during which the polls are open for voting, each voter shall be offered instruction by a poll officer in the method of voting on the DRE units. In providing such instruction, the poll officers shall not in any manner request, suggest, or seek to persuade or induce any voter to vote any particular ticket or for any particular candidate or for or against any particular question.

(b) When a person presents himself or herself at the polling place for the purpose of voting during the time during which the polls are open for voting, the person shall complete a voter's certificate and submit it to the poll officers. The poll officers shall then verify the identity of the person and that the person is a registered voter of the precinct and, if so, shall approve the voter's certificate and enter an appropriate designation on the electors list for the precinct reflecting that the voter has voted in the primary, election, or runoff being conducted. The voter's name shall then be entered on the appropriate numbered list of voters. The poll manager or the poll officer who has been designated by the poll manager to issue voter access cards shall then use the ballot encoder device to encode and issue the voter an appropriate voter access card authorizing the voter to vote the correct ballot style in the DRE units at the polling place. Upon a DRE unit being available, the voter shall then enter the enclosed space in the

polling place and insert the voter access card into an available DRE unit and proceed to vote his or her choices. Upon completion of voting, the voter shall press the “cast ballot” button, remove the voter access card from the DRE unit, and return the card to a poll officer.

Then the voter shall exit the enclosed area of the polling place.

(c) At least once each hour during the time while the polls are open, the poll officers shall examine the face of each DRE unit and each voting booth to verify and ensure that no unauthorized matter has been affixed to the unit or placed in the voting booth and that the unit has not been tampered with in any manner.

(d) The polling place shall be so arranged in such a manner as to ensure the privacy of the elector while voting on a DRE unit, to allow monitoring of each DRE unit by the poll officers while the polls are open, and to permit the public to observe the voting without affecting the privacy of the electors as they vote. In addition, at least one DRE unit shall be configured for voting by physically disabled voters in wheelchairs and provisions shall be made to ensure the privacy of such electors while voting.

(e) It shall be permissible under O.C.G.A. § 21-2-410 and shall not constitute assistance in voting under O.C.G.A. § 21-2-409 for poll officers to assist a voter in inserting the voter card in the DRE unit and in explaining the operation of the unit to the voter; provided that the poll officer withdraws from the voting booth prior to the voter pressing the “start” button or beginning voting. The poll officers shall not in any manner request, suggest, or seek to persuade or induce any voter to vote any particular ticket or for any particular candidate or for or against any particular question.

(f) Voters utilizing a VWD device to vote on the DRE units without the assistance of any other individual shall not be considered as receiving assistance in voting and shall not be required to complete the forms required for receiving assistance in voting pursuant to O.C.G.A. § 21-2-409.

(g) The poll officers shall ensure that voters return the voter access cards to the poll officials prior to leaving the enclosed space in the polling place. The poll officers shall arrange and configure the polling

place and provide staffing at such places at the polling place to ensure that a voter will not leave the polling place with a voter access card.

(h) If a voter leaves a DRE unit prior to completing the process of voting and exits the polling place and does not return to the unit to complete the voting process, the poll officers shall cancel or void the vote on the DRE unit without attempting in any manner to see how the voter voted and shall make a notation of the incident in the election records for the precinct.

(i) A voter may request information from the poll officers concerning how to vote on the DRE unit at any time during the voting process; provided, however, that the poll officers shall not observe or view the voter's ballot on the DRE unit or make any attempt to see how the voter has voted. However, once the voter casts his or her ballot, even if the ballot is blank with no votes cast, such voter shall be deemed to have voted and may not thereafter vote again in the same primary, election, or runoff on that election day.

(j) If a voter discovers that the ballot presented on the DRE unit is not correct or is not the ballot that the voter desired to vote, the voter shall immediately notify a poll officer. The poll officer shall cancel or void the ballot on the DRE unit without attempting in any manner to see how the voter has voted and shall then take the necessary steps to provide the voter with the correct ballot by encoding and issuing a new voter access card to the voter and making any necessary corrections to the voter's certificate of the voter, the electors list, and the numbered list of voters. If the voter presses the "cast ballot" button prior to notifying the poll officials of the error in the ballot, the voter shall be deemed to have voted and shall not be permitted to cast another ballot in the same primary, election, or runoff on that election day.

(k) If a DRE unit malfunctions during the day of a primary, election, or runoff, the poll manager shall immediately notify the election superintendent and shall not allow any voter to use the unit until and unless the malfunction is corrected. The election superintendent shall immediately arrange for the repair of the DRE unit or shall provide a replacement DRE unit as soon as practicable to replace the malfunctioning unit. A replacement DRE unit shall not be used as a replacement unit unless it has been appropriately tested prior to its use.

(5) Tabulating Results.

(a) After the Polls Close.

1. Immediately after the polls close and the last voter has voted, the poll manager shall open the envelope containing the supervisor's card and use the supervisor's card to close each of the DRE units in the precinct against further voting.

2. The poll officers shall then compare the total number of persons voting as shown by the number of voters certificates, the number of persons marked on the electors list, the number of voters on the numbered list of voters, and the number of persons shown as voting on the election counters of the DRE units. If these numbers do not equal one another, the poll officers shall determine the reason for the inconsistency; correct the inconsistency, if possible; and fully document the inconsistency or problem along with any corrective measures taken before going further.

3. After completing the comparison of the total number of persons voting as shown by the electors list, the voter's certificates, the numbered list of voters, and the election counters of the DRE units, the poll manager shall cause each DRE unit to print a minimum of two tapes showing the vote totals as cast on that DRE unit. The poll manager and at least one assistant manager shall also compare the number of ballots voted as shown on the tape with the number of ballots voted as shown on the election counter of the DRE unit. If these numbers are not identical, the poll manager shall document the discrepancy. The poll manager and the assistant managers shall sign each of the tapes or shall write on the tapes the reason why the poll manager or the assistant managers will not sign the tapes.

4. If directed by the election superintendent, the poll manager shall designate one of the DRE units as the accumulator unit to accumulate the votes for the precinct. After printing all of the tapes for the individual DRE units, the poll manager shall accumulate the totals for the accumulator DRE unit and remove the memory card (PCMCIA card) from the accumulator DRE unit. The poll manager shall then collect and retain the two signed tapes (one of which shall include the zero tape) with the memory card (PCMCIA card) from each

DRE unit and shall place the memory card (PCMCIA card) in the appropriate envelope provided by the election superintendent. The poll manager shall then begin removing the memory cards (PCMCIA cards) from the remaining DRE units one by one and inserting the memory cards (PCMCIA cards) into the accumulator DRE unit and accumulating the vote totals from the other DRE units into the accumulator DRE unit. Upon the vote totals for each memory card (PCMCIA card) being entered into the accumulator DRE unit, the memory card (PCMCIA card) shall be removed from the accumulator DRE unit and two signed tapes (one of which shall contain the zero tape) shall be collected and retained with the card. Each memory card (PCMCIA card) shall then be placed into the appropriate envelope provided by the election superintendent. After the results from the last memory card (PCMCIA card) are entered into the accumulator DRE unit and the last memory card (PCMCIA card) has been placed in the envelope, the envelope containing the memory cards (PCMCIA cards) and tapes shall be sealed and secured by the poll manager and at least one assistant manager in an envelope container provided by the election superintendent which shall be sealed and initialed by the poll manager and the two assistant managers such that the envelope cannot be opened without breaking such seal.

5. After all of the results have been entered into the accumulator DRE unit, the poll manager shall cause a minimum of three tapes to be printed out by the DRE unit showing the total votes cast for the precinct. The poll manager and the assistant managers shall sign each of the tapes or shall write on the tapes the reason why the poll manager or the assistant managers will not sign the tapes. One tape shall be posted on the door of the polling place for the information of the public along with a copy of the provisional ballot recap sheet for the precinct. The other tapes shall be placed into the envelope provided by the election superintendent for that purpose and sealed and initialed by the poll manager and at least one assistant manager.

6. If the election superintendent does not direct that the results of the precinct be accumulated, then the poll manager shall cause each DRE unit to print an additional results tape which shall be verified and signed in the same manner as provided in paragraph 3 of this subparagraph. Such additional results tape for each DRE unit shall be posted on the door of the polling place for the information of the public along with a copy of the provisional ballot recap sheet for the

precinct. The memory card (PCMCIA card) and two signed tapes from each DRE unit shall be placed in the appropriate envelope supplied by the election superintendent which shall be sealed and initialed by the poll manager and at least one assistant manager such that the envelope cannot be opened without breaking such seal.

7. After completing the printing of the results, the DRE units shall be turned off and secured in their cases and resealed. The number of each seal shall be entered on the appropriate form along with the serial number of the DRE unit case in which it is inserted. The DRE units shall then be placed in a secure area with appropriate climate control.

8. The memory cards (PCMCIA cards), results tapes, voter access cards, supervisor's card, ballot encoder devices, electors lists, numbered lists of voters, voter certificates, recap sheets, and other such paperwork shall be transported to the office of the election superintendent by the poll manager and at least one other poll officer. The election superintendent or his or her designee shall receive the materials and shall issue a receipt to the poll manager for the materials.

(b) Electronic Transmission of Precinct Results to Central Office.

1. After accumulating all of the vote totals for the precinct, if directed to do so by the election superintendent, the poll manager shall connect the accumulator DRE unit to an analog telephone line and electronically transmit the accumulated vote totals for the precinct to the central office. The DRE unit shall not be connected to a telephone line during the time while the polls are open.

2. Vote totals reported electronically from the precinct to the central office shall be unofficial and shall not be used in preparing the official returns for the primary, election, or runoff.

(c) Consolidation of Results.

1. All persons involved with the tabulation and consolidation of the election results and who will operate the computer programs or handle the memory cards (PCMCIA cards) shall be sworn before entering into their duties.

2. No persons except those persons who are employed by the election superintendent and who have been duly sworn shall perform any duties in connection with the tabulation or consolidation of election results. No persons who are not employed by the election superintendent and have been duly sworn shall touch or be in contact with any container, returns, tapes, device, memory card (PCMCIA card), or any other such election materials. Only persons who are employed by the election superintendent and have been duly sworn shall be in the immediate area of the tabulating center designated by the superintendent for the officers to conduct the tabulation and consolidation of the election results.

3. The tabulation and consolidation shall be performed in public. However, the election superintendent may make reasonable rules and regulations for conduct at the tabulating center to ensure the security of the results and the returns and to avoid interference with the tabulating center personnel.

4. Upon the delivery of the memory cards (PCMCIA cards) from each precinct, the election superintendent or his or her designee shall provide a receipt to the poll manager for the memory cards (PCMCIA cards) and precinct election materials.

5. Upon receiving the memory cards (PCMCIA cards), the election superintendent shall verify the signatures on the sealed envelopes and verify that the seals are intact, that the envelopes have not been opened, and that there is no evidence of tampering with the envelopes or their contents.

6. In the case of elections for county, state, and federal office, after verifying that the envelopes are properly sealed and have not been opened or tampered with, the election superintendent shall break the seal and open each envelope and remove the memory card (PCMCIA card) and results tapes. The election superintendent or his or her designee shall then insert the memory card (PCMCIA card) into the election management system computer and transfer the vote totals from the memory card (PCMCIA card) into the election management system for official tabulation and consolidation.

7. After transferring all of the vote totals from the memory cards (PCMCIA cards) to the election management system and

consolidating such totals with the totals from the absentee ballot system and such votes from any provisional ballots which have been found by the registrars to be authorized pursuant to O.C.G.A. § 21-2-419, the election superintendent shall prepare the official consolidated re-turns for the primary, election, or runoff.

8. The election superintendent shall not list and certify in the official consolidated returns for an election any results for write in candidates who were not properly qualified under O.C.G.A. § 21-2-133.

9. In the case of primaries, elections, and runoffs for county, state, and federal office, the county election superintendent shall transmit to the Secretary of State the election returns by precinct for the county in electronic format or by electronic means, as may be specified by the Secretary of State, within seven days following a primary, election, or runoff.

(d) Electronic Transmission of Precinct Results to Central Office. The election superintendent shall transmit to the Secretary of State unofficial election results for all races for state offices in any primary, election, or runoff as soon as possible after the closing of the polls, for such primary, election, or runoff. Such results shall be transmitted in a format prescribed by the Secretary of State. At a minimum, the results shall be transmitted upon one third of the precincts reporting results, upon two thirds of the precincts reporting results, and upon all precincts reporting results, including absentee ballots within all precincts. Except upon notice to and consultation with the Secretary of State, no election superintendent shall conclude the tabulation of votes on election night in any primary, election, or runoff in which there are contested races for federal and state offices until and unless all such unofficial results, including absentee ballots, have been transmitted to the Secretary of State.

#### (6) Storage of Returns.

(a) After tabulating and consolidating the results, the election superintendent shall prepare a CD-ROM which shall contain a copy of the information contained on each memory card (PCMCIA card) which shall include all ballot images as well as vote totals and a copy of the consolidated returns from the election management system.

(b) The CD-ROM shall be placed in a sealed envelope and shall become a part of the election materials which shall be deposited with the clerk of superior court or the municipal clerk, as appropriate, in accordance with O.C.G.A. § 21-2-500. In addition, the signed results tape from each DRE unit containing the signed zero tape shall also be deposited with the clerk of superior court.

(c) The memory cards (PCMCIA cards) shall be sealed in an appropriate container and securely maintained by the election superintendent until the period for requesting a recount of the primary, election, or run off results has expired. The election superintendent and at least one other sworn individual in the tabulating center shall seal the container and sign the seal such that the container cannot be opened without destroying or damaging the seal. Upon the expiration of the period for requesting a recount, the election superintendent may use the memory cards (PCMCIA cards) for programming DRE units for the next primary, election, or runoff.

(d) The election results, ballot styles, ballot images, and other information for each election stored in the internal memory storage of each DRE unit shall be maintained for a minimum of one month following each election after which time the results may be erased provided that there are no election contests pending concerning such election.

#### (7) Recounts and Recanvass.

(a) The election superintendent shall, either of his or her own motion, or upon petition of any candidate or political party or three electors of the county or municipality, as may be the case, order a recanvass of all the memory cards (PCMCIA cards) for a particular precinct or precincts for one or more offices in which it shall appear that a discrepancy or error, although not apparent on the face of the returns, has been made. Such recanvass may be held at any time prior to the certification of the consolidated returns by the election superintendent and shall be conducted under the direction of the election superintendent. Before making such recanvass, the election superintendent shall give notice in writing to each candidate and to the county chairperson of each party or body affected by the recanvass. Each such candidate may be present in person or by representative and each such political party or body may send two

representatives to be present at such recanvass. If upon such recanvass, it shall appear that the original vote count was incorrect, such returns and all papers being prepared by the election superintendent shall be corrected accordingly.

(b) The election superintendent shall conduct the recanvass by breaking the seal, if the ballots cards have been sealed, on the container containing the memory cards (PCMCIA cards) and removing those memory cards (PCMCIA cards) for the precinct or precincts for which the recanvass is being conducted. The election superintendent shall then cause the vote totals on each of the memory cards (PCMCIA cards) to be transferred to either an accumulator DRE unit or to the election management system computer. After all of the vote totals from the memory cards (PCMCIA cards) for the precinct or precincts for which the recanvass is being conducted have been entered, the election superintendent shall cause a printout to be made of the results and shall compare the results to the results previously obtained. If an error is found, the election superintendent shall correct the error in the returns accordingly.

(c) Recounts pursuant to O.C.G.A. § 21-2-495(c) shall be conducted in the same manner as other recounts under these rules.

#### (8) Maintenance of Equipment.

(a) Each county shall be responsible for maintaining the DRE units, computers, and software provided to such county by the Secretary of State or purchased by such county and shall either purchase a maintenance agreement for such equipment and software or shall self insure such equipment and software.

(b) In the event of any malfunction or problem with DRE units, the county election superintendent shall document the problem and its resolution and shall provide such information to the Secretary of State. The documentation shall include a detailed description of the malfunction or problem, the steps taken to correct the malfunction or problem, and the cause of such malfunction or problem if a cause can be determined.

(9) Use of Equipment by Municipalities. The county election superintendent is authorized to permit any municipality within the county to conduct its election with the DRE equipment through a written intergovernmental agreement between the county and the municipality; provided that the municipality agrees to maintain and operate the equipment in accordance with law, these rules and regulations, and the manufacturer's guidelines and specifications and provided further that the municipality trains all of its election personnel and poll workers in the proper operation and conduct of elections utilizing such equipment through a training program conducted by or approved by the Secretary of State.

(10) Sample Ballots. DRE units that are used for demonstration and education purposes shall not utilize or be programmed with the official ballot to be used in the primary or election for demonstrational or educational purposes. The units shall utilize or be programmed with a ballot containing the names of fictitious or historical persons whose names do not appear on the official ballot for such primary or election.

### **183-1-12-.06 Provisional Ballots.**

(1) This rule shall govern the casting of provisional ballots by voters at primaries and elections in accordance with O.C.G.A. §§21-2-418 and 21-2-419.

(2) In each polling place, there shall be established a location or station in the public area of the polling place for the purpose of issuing and receiving provisional ballots.

(3) The election superintendent shall provide each polling place with an adequate supply of provisional ballots in each ballot style (district combination) for the precinct and an inner ballot envelope and an outer ballot envelope. The ballot envelopes shall be so designed that the ballot will fit within the inner ballot envelope and the inner ballot envelope will fit within the outer ballot envelope. The inner ballot envelope shall have printed on it the words "Official Provisional Ballot" and nothing else. The outer envelope shall have places for inserting the person's name, precinct, date and name of election, ballot style (district combination), and whether such ballot is a regular provisional ballot, a provisional ballot cast by a voter who registered to vote for the first time in this state by mail and has not provided the identification required by O.C.G.A. §§21-2-220 and 21-2-417, or a ballot cast during poll hours extended by a court order, or a combination thereof. Primaries and elections conducted by counties shall use optical scan ballots for provisional voting. Optical scan absentee ballots shall be acceptable for use as provisional ballots. Municipalities shall use the same type of ballots as the municipality uses for mail-in absentee voting. The election superintendent shall also provide a booth for voting provisional ballots in the enclosed space which will provide privacy for a person while voting a provisional ballot and a secure container in which the voted provisional ballots shall be placed.

(4) Voters whose names do not appear on electors list.

(a) When a person arrives at a polling place, completes a voter's certificate, and presents it to the poll workers but the person's name does not appear on the official electors list for the precinct, the poll officers shall immediately direct the person to the provisional ballot station. At the provisional ballot station, if a master list of registered electors is available, the poll workers shall check the list to determine if the person is registered at a different precinct. If the person's name appears on the master list for a different precinct, the poll workers shall direct the person to the correct precinct.

(b) If the person's name is not found on the official list of electors for the precinct or the master list, if available, the poll officers shall immediately contact the registrars and the person shall provide such information as the registrars may request to determine if the person is eligible to vote in the election. The registrars shall promptly review the information provided by the person and shall attempt to determine if the person timely and properly registered to vote.

(c) If the registrars can immediately determine that the person timely and validly registered to vote in the primary or election and should be assigned to the precinct at which the person is present, the registrars shall authorize the poll officers to add the person's name to the official electors list for the precinct and shall permit the person to vote in the same manner as other voters in the pre-cinct vote. When there are multiple ballot styles (district combinations) in use in the precinct, the registrars shall also advise the poll officers which ballot style (district combination) should be issued to the person. The person's name shall then be added to the official electors list for the precinct with a notation of the name of the registrar who authorized such addition. Upon presentation of a properly completed voter's certificate and the identification required by O.C.G.A. §21-2-417, the person shall be permitted to vote in the same manner as other voters in the precinct.

(d) If the registrars can immediately determine that the person timely and validly registered to vote in the primary or election but should be assigned to a different precinct from the one at which the person is present, the registrars shall direct the poll officers to send the person to the appropriate other precinct and the registrars shall

notify the officers of such other precinct to add the person's name to the official electors list for such other precinct. When there are multiple ballot styles (district combinations) in use in such other precinct, the registrars shall also advise the poll officers at such other precinct which ballot style (district combination) should be issued to the person. The person's name shall then be added to the official electors list for the other precinct by the poll officers of the other precinct with a notation of the name of the registrar who authorized such addition. Upon the completion of a voter's certificate and the submission of the identification required by O.C.G.A. § 21-2-417, the person shall be permitted to vote in the same manner as other persons in such other precinct. However, if, in the reasonable exercise of discretion by the registrars or the poll workers, there is insufficient time for such person to go to such other precinct before the polls close, the poll workers may allow such person to vote a provisional ballot at the precinct in which the person is present. In such case, all votes cast by such person for candidates for whom such person is properly entitled to vote shall be counted and all votes cast for candidates for whom such person is not properly entitled to vote shall be void and shall not be counted in accordance with O.C.G.A. §21-2-419(c).

(e) If the registrars cannot immediately determine that the person timely and validly registered to vote in the primary or election; but, from the information presented by the person, the person, if properly registered, would be assigned to the precinct at which the person is present, the registrars shall authorize the poll officers to permit the person to cast a provisional ballot at such precinct. When there are multiple ballot styles (district combinations) in use in the precinct, the registrars shall also advise the poll officers which ballot style (district combination) should be issued to the person.

(f) If the registrars cannot immediately determine that the person timely and validly registered to vote in the primary or election; but, from the information presented by the person, the person, if registered, would be assigned to a different precinct from the precinct in the county or municipality at which the person is present, the registrars shall direct the poll officers to send the person to the appropriate precinct. The registrars shall notify the officers of such other precinct to permit the person to vote a provisional ballot when such person arrives at such precinct, completes an official voter

registra-tion form and a provisional ballot voter's certificate, and submits the appropriate identification required by O.C.G.A. §21-2-417. When there are multiple ballot styles (district combinations) in use in such other precinct, the registrars shall also advise the poll officers which ballot style (district combination) should be issued to the person. However, if, in the reasonable exercise of discretion by the registrars or the poll workers, there is insufficient time for such person to go to such other precinct before the polls close, the poll workers may allow such person to vote a provisional ballot at the precinct at which such person is present. In such case, all votes cast by such person for candidates for whom such person is properly entitled to vote shall be counted and all votes cast for candidates for whom such person is not properly entitled to vote shall be void and shall not be counted in accordance with O.C.G.A. §21-2-419(c).

(g) If the person appears at a precinct in a county or municipality in which the person does not reside, the registrars shall instruct the poll officers to direct the person to contact the registrars in the county in which the person resides to determine in which precinct such person should vote.

(h) If the poll officers cannot get in touch with the registrars after making a reasonable effort to do so, the poll officers shall be authorized to permit the person to vote a provisional ballot at the precinct without additional authorization from the registrars. In such case, all votes cast by such person for candidates for whom such person is properly entitled to vote shall be counted and all votes cast for candidates for whom such person is not properly entitled to vote shall be void and shall not be counted in accordance with O.C.G.A. § 21-2-419(c).

(i) Upon receiving authorization to vote a provisional ballot, the person shall complete a provisional ballot voter's certificate and an official voter registration form and submit such completed certificate and form to the poll officers along with the appropriate identification required by O.C.G.A. § 21-2-417. The poll officers shall place the name of the person on the numbered list of provisional ballot voters and issue the person a provisional ballot of the style authorized by the registrars along with an inner ballot envelope and an outer ballot envelope. Before issuing the outer ballot envelope to the person, the poll officers shall enter the person's name, the name of the precinct,

the date and name of the election, and the ballot style (district combination) on the outer envelope. The person shall then re-tire to the provisional ballot voting booth and vote the ballot. Upon completing the ballot, the person shall seal the ballot in the inner ballot envelope and place the inner ballot envelope containing the ballot into the outer ballot envelope and shall seal the outer ballot envelope. The person shall then return the sealed envelope to the poll officers.

(j) Upon receiving the sealed ballot envelope from a person casting a provisional ballot, the poll officers shall verify that the information requested on the outer ballot envelope is complete, shall mark the appropriate box or boxes to designate the type of provisional ballot enclosed therein, and shall direct the person to place the ballot envelope into the secure container for provisional ballots which shall be located within the enclosed space in the polling place where it can be monitored by the poll officers and observed by the public. The provisional ballot voter's certificate and voter registration form shall be attached together and shall be placed in a separate, distinctively marked envelope which shall be placed in a secure location in the polling place.

(5) Voter who registered for first time by mail but did not provide required identification.

(a) When a person arrives at a polling place, completes a voter's certificate, and presents it to the poll workers but does not have the identification required by O.C.G.A. §21-2-417 and the person's name appears on the official electors list for the precinct with a designation that the person registered to vote for the first time in this state by mail but has not provided the required identification to the registrars as required by O.C.G.A. §21-2-220, the poll officers shall immediately direct the person to the provisional ballot station. At the provisional ballot station, the person shall be permitted to cast a provisional ballot at such precinct. When there are multiple ballot styles (district combinations) in use in the precinct, the poll officers shall issue the appropriate ballot style (district combination) to the person as shown on the electors list. The poll officers shall place the name of the person on the numbered list of provisional ballot voters and issue the person a provisional ballot of the style authorized by the registrars along with an inner ballot envelope and an outer ballot

envelope. Before issuing the outer ballot envelope to the person, the poll officers shall enter the person's name, the name of the precinct, the date and name of the election, and the ballot style (district combination) on the outer envelope. The person shall then retire to the provisional ballot, voting booth and vote the ballot. Upon completing the ballot, the person shall seal the ballot in the inner ballot envelope and place the inner ballot envelope containing the ballot into the outer ballot envelope and shall seal the outer ballot envelope. The person shall then return the sealed envelope to the poll officers.

(b) Upon receiving the sealed ballot envelope from a person casting a provisional ballot, the poll officers shall verify that the information requested on the outer ballot envelope is complete, shall mark the appropriate box or boxes to designate the type of provisional ballot enclosed therein, and shall direct the person to place the ballot envelope into the secure container for provisional ballots which shall be located within the enclosed space in the polling place where it can be monitored by the poll officers and observed by the public.

(c) The provisional ballot shall not be counted unless the voter provides the identification required by O.C.G.A. §§ 21-2-220 and 21-2-417 to the registrars before the end of the period set by law for the verification of provisional ballots. Such identification may be provided to the registrars in person or by facsimile transmission or, in the case of disabled voters, by delivery by a third party.
